Sub.: Presentation on the Un-audited Financial Results of the Company for the quarter ended 30th June, 2026

Dear Sir/Madam,

In accordance with the provisions of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, please find enclosed herewith the Presentation on the Un-audited Financial Results of the Company for the quarter ended 30th June, 2026.

Please consider the aforesaid as relevant disclosure required under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") read with all other applicable provisions of Listing Regulations.

The Investor Presentation is also available on the website of the Company i.e. www.servotech.in.

Kindly take the above information on record and oblige.

Thanking You,

FOR SERVOTECH RENEWABLE POWER SYSTEM LIMITED
(Formerly known as Servotech Power Systems Limited)

SERVOTECH AT A GLANCE

For over two decades, Servotech Renewable Power System Ltd. **(NSE: SERVOTECH)** has been at the forefront of India's clean energy journey, integrating solar solutions, renewable energy, BESS, and electric mobility to build solutions that are efficient, reliable, and future-ready. Driven by engineering excellence, continuous innovation, and a customer-first approach, we have evolved into a trusted technology partner delivering intelligent energy solutions across diverse sectors. As the energy landscape continues to transform, we remain committed to advancing sustainable technologies that accelerate clean energy adoption and create long-term value for customers, communities, and stakeholders alike.

BUILDING A STRONGER ORGANISATION

Our Vision

Our vision, 'Produce Green to Live Green' is to lead the global transition to net-zero emissions. We are committed to creating and introducing world-class renewable energy solutions that eliminate reliance on fossil fuels, ensuring a sustainable future for generations to come.

Our Mission

To provide the most advanced cutting-edge technological and innovative solutions for a sustainable future.

To empower our skilled workforce through knowledge sharing, associations, and collaborations to help society embrace the change of energy transition.

Values & Principles

- Ethical Practices & Social Responsibility
- Customer Centric Approach
- Innovation & Technological Leadership
- Sustainability & Environmental Stewardship
- Employee Well-being
- Indigenous Manufacturing

FROM THE MD's DESK

Mr. Raman Bhatia
Managing Director

As we begin **FY26-27**, I am pleased to share that Servotech has entered the new financial year with strong momentum, driven by disciplined execution, technology-led innovation, and a clear focus on sustainable growth, where our **consolidated Revenue** grew by **57.69%**, while our **Gross Profit** increased by **86.75%,** as the **EBITDA** rose by **93.35%**, and our **PAT** grew by **74.51%**. Our robust first-quarter performance reflects the strength of our integrated renewable energy portfolio and our ability to capitalize on emerging opportunities across the solar and EV ecosystem.

This quarter marked several significant milestones for the company, where we expanded our solar portfolio with a major rooftop project for South Central Railway, signing a **₹400 crore MoU** with the Government of Haryana to strengthen our manufacturing capabilities, and securing the **BEE 5-Star Rating** for our 60 kW and 120 kW DC EV Chargers. These accomplishments reflect our continued commitment to engineering high-quality, future-ready clean energy solutions.

Looking ahead, we remain confident with an expanding manufacturing footprint and sustained investments in innovation, we are well-positioned to create long-term value for our stakeholders while contributing meaningfully to India's clean energy transition.

Dream League of India T(10) Pvt. Ltd.
(65.31% Holding)

Engaged in the business of Tennis Ball Cricket League in India.

Associate Company

Rhine Solar Limited
(27% Holding)

Solar panel and cell manufacturer integrated for backward integration and business portfolio expansion

BOARD OF DIRECTORS

Leadership With Purpose

Mr. Raman Bhatia is a visionary entrepreneur and a key catalyst in advancing India's renewable energy transformation. As the Founder and Managing Director of **Servotech Renewable Power System Limited,** he has led the company from its inception to become a prominent NSE-listed leader in the clean technology industry. Under his leadership, Servotech has transformed from a niche power electronics company into a diversified enterprise offering comprehensive solar solutions and EV charging infrastructure.

With more than 25 years of industry experience and a steadfast commitment to innovation and sustainability, Mr. Bhatia has consistently anticipated evolving market trends, positioning Servotech at the forefront of the clean energy sector. His leadership reflects a strategic evolution from conventional power technologies to advanced solar solutions and a rapidly expanding EV charging ecosystem, playing a vital role in strengthening India's electric mobility landscape.

A passionate advocate for indigenous innovation, he has championed **"Make in India"** solutions that meet global standards. Through strategic partnerships with international organizations and leading academic institutions, he has ensured that Servotech's technologies remain efficient, scalable, and future-ready. He also successfully guided the company to its NSE listing in 2017, reinforcing its commitment to transparency, sustainable growth, and operational excellence.

Beyond corporate leadership, Mr. Bhatia is a respected thought leader and active contributor to the renewable energy ecosystem. As the **Head of the Energy & Green Economy Working Group at the Shanghai Cooperation Organisation Business Council (India),** he actively drives collaboration between policy, industry, and innovation to accelerate the adoption of clean energy solutions.

His vision goes beyond business growth to creating a more sustainable future. This philosophy continues to shape Servotech's culture of purposeful innovation and responsible progress. For him, true success is defined not only by financial achievements but also by creating meaningful environmental impact, reducing carbon emissions, and contributing to a cleaner, net-zero future.

PRODUCT PORTFOLIO

Innovative Products For A Greener Future

We offer end-to-end clean energy solutions including EV chargers, solar inverters, energy storage systems, and key components. Designed for performance and scalability, our products cater to both grid-connected, off-grid, and hybrid applications across sectors.

SOLAR SOLUTIONS

Delivering efficient, reliable, and sustainable solar solutions including hybrid solar inverters, on-grid inverters, off-grid inverters, and solar panels for residential, commercial, and industrial applications

EV CHARGING SOLUTIONS

Engineering Intelligent AC and DC charging solutions to power India's rapidly expanding electric mobility ecosystem with reliable and dependable EV Chargers

BESS

Crafting advanced energy storage solutions powering both commercial and residential spaces, delivering grid stability, renewable integration, and uninterrupted power for evolving energy demands

SERVO STABILIZERS

Delivering high-performance voltage stabilization solutions ensuring reliable power protection for industrial, commercial, and critical infrastructure applications

OUR PROGRESS HAS BEEN BUILT ON THREE PILLARS

Over the past years, our journey has been defined by purposeful growth, strategic innovation, and a strong commitment to shaping a cleaner, smarter, and more energy connected future. Guided by our vision for a sustainable world, we have strengthened India's EV Charging infrastructure, expanded access to solar energy and introduced forward-looking solutions that address the evolving needs of our markets.

Absolute Client Satisfaction

Unconditional persistent meaningful guidance coupled with consistent support and assistance.

Quality and Affordability

High-end tech-driven solutions ensuring brilliant performance, excellent durability, and long-lasting efficiency

Expert Team of Professionals

A specialised team of highly skilled staff of engineers and officials for timely execution and completion of projects.

STRATEGIC PRIORITIES TO CREATE SHARED & SUSTAINABLE VALUE

AI Integration

Streamlining processes with AI to improve productivity and processes

Solar Focus

Constantly improving solutions with R&D focus for better efficiency and lower CO_2 emissions

Resource Optimisation

Cost leadership through resource optimisation and improved raw material security

R&D & Innovation

Enhance value-added product portfolio with innovation and R&D

Digitization & Transformation

Becoming a future ready enterprise through tech-led transformation

Expanding Product Portfolio

Penetrating new markets with strategic capital allocation for new product development

CREATING SUSTAINABLE VALUE WITH AI

True value creation extends beyond financial performance. It lies in building solutions that deliver long-term benefits for customers, communities, investors, and the environment.

Our integrated business model combines engineering excellence, manufacturing capabilities, strategic partnerships, and digital innovation to create sustainable value at every stage of the energy lifecycle.

Creating Value Today Powering a Sustainable Tomorrow

INNOVATION
Continuous innovation drives the development of smarter, more efficient, and future-ready solutions

ENGINEERING EXCELLENCE
Advanced R&D and engineering capabilities ensure quality, reliability and performance

DIGITAL INTELLIGENCE
Data-driven insights and AI-powered systems optimize performance and enhance operational efficiency

MANUFACTURING
Integrated manufacturing facilities enable scale, consistency and high quality standards

CUSTOMER SUCCESS
Customer-centric approach ensures long-term partnerships built on trust, value and satisfaction

DEPLOYMENT
Timely execution and robust deployment bring innovative solutions to customers across the country

ENVIRONMENTAL IMPACT
Sustainable solutions contribute to a cleaner planet and a better tomorrow

OUR MANUFACTURING PLANTS

Lithium Battery Plant
Kundli, Sonipat, Haryana

Our Kundli plant, focused to support the growing demand for clean energy solutions. Today, it serves as a dedicated hub for manufacturing solar inverters, battery storage systems, E-rikshaw batteries, and advanced solar technologies, equipped with modern automation, rigorous quality controls, and scalable production capabilities. This transformation reflects Servotech's commitment to innovation and operational excellence, ensuring seamless integration of sustainable technologies that meet both domestic and global energy needs efficiently and reliably.

Solar Inverter & EV Chargers Plant
Safiabad, Sonipat, Haryana

Commissioned in 2023, the Safiabad facility is our latest and most advanced manufacturing plant, purpose-built to accelerate India's e-mobility mission. Specializing in the production of EV chargers and critical components, it integrates cutting-edge automation, precision engineering, and sustainable practices. This facility exemplifies Servotech's focus on innovation, scalability, and environmental responsibility, enabling large-scale production of next-generation EV charging solutions. Designed to meet the growing domestic and global demand for clean transportation infrastructure, the Safiabad plant stands as a testament to our vision of electrifying mobility and driving India toward a greener, technologically empowered future.

Warehouse
Jhundpur, Haryana

Our Warehouse, located in Jhundpur, serves as a critical logistics hub for Servotech Renewable. Strategically positioned near key industrial and distribution corridors, it helps with efficient inventory management and faster dispatch of our product portfolio. This proximity significantly reduces lead times and optimizes last-mile delivery across North India. The facility plays a vital role in strengthening supply chain resilience, ensuring product availability, and supporting large-scale deployments. By streamlining operations and enhancing responsiveness, the Jhundpur Warehouse contributes directly to Servotech's ability to meet growing demand and maintain operational excellence in a rapidly evolving energy market.
