Granules Gains Potential Sole First to File Status on Ruxolitinib Extended-Release Tablets ANDA

Hyderabad, India - October 7, 2026 — Granules India Limited announced that it has submitted a Paragraph IV certification in connection with its ANDA for Ruxolitinib Extended-Release Tablets with respect to applicable patents listed in the U.S. Food and Drug Administration's (FDA) Orange Book and has provided the required notice to the relevant parties in accordance with applicable U.S. regulatory requirements.

Based on the timing and status of its ANDA and Paragraph IV certification and subject to FDA review and determination, GIL believes that it is eligible for first-to-file status for Ruxolitinib Extended-Release Tablets. If confirmed by the FDA and all applicable statutory and regulatory requirements are satisfied, first-to-file status may provide eligibility for 180 days of generic drug exclusivity under U.S. law.

The ANDA also remains subject to FDA review, and this announcement should not be construed as FDA approval of the product or confirmation by the FDA of first-to-file status or exclusivity.

Commenting on the development, **Dr. Krishna Prasad Chigurupati, Chairman & Managing Director, Granules India Limited**, said:

"First-to-file opportunities are an important part of our strategy to build a more differentiated and higher-value product portfolio in the U.S. This filing reflects our focus on identifying technically and commercially attractive opportunities where our development and manufacturing capabilities can create sustainable value. We look forward to progressing the product through the regulatory process."

The Company will provide further updates, as appropriate, in accordance with applicable disclosure requirements.

This communication contains forward-looking statements relating to, among other things, the Company's ANDA, potential first-to-file status, possible eligibility for 180-day exclusivity, regulatory review, and commercialization prospects. Such statements are subject to risks and uncertainties, including those relating to FDA actions, patent litigation, exclusivity determinations, competition, and other factors, and actual outcomes may differ materially from those expressed or implied herein.

**** END ****

About Granules India Ltd. (BSE: 532482, NSE: GRANULES)

Granules India Limited, incorporated in 1991, is a vertically integrated, fast-growing Indian pharmaceutical company headquartered in Hyderabad, with best-in-class facilities and a commitment to operational excellence, quality, and customer service. We are among the few pharmaceutical companies in the world to be present across the entire manufacturing value chain — from Active Pharmaceutical Ingredients (APIs), Pharmaceutical Formulation Intermediates (PFIs), and Finished Dosages (FDs) to Peptides CDMO. Our products are distributed to more than 300 customers across regulated and semi-regulated markets, with a global presence extending to over 80 countries and offices across India, the US, and Switzerland. The Company has 10 manufacturing facilities, of which seven are in India, two are in the US, and one is in Switzerland, and has regulatory approvals from US FDA, EDQM, EU GMP, COFEPRIS, WHO GMP, TGA, K FDA, DEA, MCC, and HALAL.

Safe Harbor: This document provides general background information about the Company's activities as of the date of this release. The information contained herein is for general information purposes only, is based on estimates, and should not be considered a recommendation that any investor should subscribe to or purchase the Company's shares. The Company makes no representation or warranty, express or implied, and does not accept any responsibility or liability with respect to the fairness, accuracy, completeness, or correctness of any information contained herein. This release may include certain "forward-looking statements". These statements are based on current expectations, forecasts, and assumptions that are subject to risks and uncertainties, which could cause actual outcomes and results to differ materially from these statements. Important factors that could cause actual results to differ materially from our expectations include, among others, general economic and business conditions in India; the ability to successfully implement our strategy; our research and development efforts; our growth and expansion plans; technological changes; changes in the value of the Rupee and other currencies; changes in Indian and international interest rates; changes in laws and regulations that apply to Indian and global pharmaceutical industries; increasing competition; changes in political conditions in India or any other country; and changes in foreign exchange control regulations in India. Neither the Company nor its directors, affiliates, or employees have any obligation to update or otherwise revise any forward-looking statements. Readers may use their own judgment and are advised to make their own calculations before deciding on any matter based on the information given herein. No part of this release may be reproduced, quoted, or circulated without prior written approval from Granules India Limited.
