[#NaviMumbaiInternationalAirport](#) marked another milestone in its growing cargo operations as AFCOM Cargo commenced its scheduled freighter service between Dubai World Central (DWC) and [#NMIA](#) on 16 August 2026.

The inaugural B737F freighter arrived at NMIA with the new service introducing three weekly flights and 20 tonnes of cargo capacity per flight, strengthening connectivity along the key India–West Asia trade corridor.

The launch also enhanced access to onward global markets through Dubai, further reinforcing [#NMIA](#)'s growing role as a strategic air cargo gateway for the MMR region and western India.
