Safety Controls & Devices Limited Reports 33.4% Revenue Growth and 36.9% Net Profit Growth in H1 FY27; Total Debt Declines 40.6%

Lucknow, November 16, 2026: Safety Controls & Devices Limited (BSE - SME: 544746), an integrated power infrastructure solutions provider, specialises in the design, engineering, procurement, construction, testing and commissioning of Extra High Voltage (EHV) transmission substations up to 400 kV (AIS & GIS), along with solar power projects and hybrid substations, announced its unaudited financial results for H1 FY27.

H1 FY27 FINANCIAL HIGHLIGHTS

Particular (In ₹ Lakhs)	H1 FY27	H1 FY26	YoY Change
Revenue from Operations	**5,842.39**	4,381.15	▲ 33.35%
EBITDA	**1,493.35**	1,401.99	▲ 6.52%
PAT	**1,031.91**	753.85	▲ 36.89%
PAT Margin (%)	**17.58%**	17.02%	▲ 56 bps

KEY POSITIVE FINANCIAL AND OPERATIONAL HIGHLIGHTS

Reduction in Total Borrowings: Total borrowings **declined by 40.6%** to ₹2,918.20 Lakhs as of September 30, 2026, from ₹4,912.55 Lakhs as of March 31, 2026.

Reduction in Trade Receivables: Trade receivables **declined by 10.2%** to ₹10,925.85 Lakhs from ₹12,160.44 Lakhs, despite 33.4% growth in H1 FY27 revenue.

Reduction in Trade Payables: Trade payables **declined by 40.5%** to ₹3,633.75 Lakhs from ₹6,102.50 Lakhs.

MANAGEMENT COMMENTARY

Commenting on the result Mr. Rajnish Chopra, Chairman & Managing Director, said:

"Our core focus remains on building Safety Controls & Devices Limited as a strong player in the power transmission infrastructure sector. Our integrated capabilities across design, engineering, procurement, construction, testing and commissioning of EHV substations up to 400 kV provide a strong foundation to undertake complex infrastructure projects and capitalise on emerging industry opportunities.

India's increasing focus on transmission network expansion, renewable energy integration and grid modernisation provides a favourable opportunity for companies with established technical and execution capabilities. We are focused on strengthening our presence in the core business, expanding our project opportunities and enhancing execution capabilities.

Alongside business development, we have made progress in strengthening our financial position. During H1 FY27, revenue grew by 33.4% YoY to ₹5,842.39 Lakhs, while net profit increased by 36.9% to ₹1,031.92 Lakhs. Total borrowings declined by 40.6% to ₹2,918.20 Lakhs, accompanied by a 10.2% reduction in trade receivables and a 27.3% reduction in inventory levels. These developments reflect our continued focus on debt reduction, working capital discipline and improving balance sheet efficiency.

Going forward, our priorities remain centred on expanding our core EHV business, pursuing new project opportunities, improving execution efficiencies and maintaining a disciplined financial structure. We aim to translate the opportunities emerging in India's power transmission sector into sustainable business growth and long-term shareholder value."

ABOUT SAFETY CONTROLS & DEVICES LIMITED

Safety Controls & Devices Limited stands as a company delivering complex, mission-critical power transmission infrastructure solutions.

The Company undertakes end-to-end design, engineering, procurement, construction, testing and commissioning of Extra High Voltage (EHV) transmission substations up to 400 kV (AIS & GIS), along with solar power projects and hybrid substations.

Strategically positioned in the power and renewable energy ecosystem, the Company aims to expand geographically, increase participation in large value tenders, and strengthen its footprint in sustainable and hybrid energy infrastructure — aligning its growth with India's accelerating infrastructure and energy transition.
