Sub: Update on International Business Operations
Ref: Scrip Code: 540332| **Scrip ID:** TANVI

Dear Sir,

The Company has been actively pursuing its strategy of expanding its international presence and strengthening the global reach of its products under the Company's own brand. As part of this initiative, the Company has incorporated a 55% subsidiary in Delaware, United States in the name and style of “**TANVI FOODS USA INC.**” and a 51% subsidiary in Milton Keynes, United Kingdom in the name and style of “**TANVI FOODS UK LIMITED**” to facilitate direct marketing, distribution and customer engagement in these key overseas markets..

Update on subsidiary in USA

The United States subsidiary commenced commercial operations in FY 2025-26 and despite being in the early stages of its business development has achieved a turnover of approximately USD 10.5 Lakhs (equivalent to approximately Rs. 9.33 crore) and a Net Profit of approximately USD 1.38 Lakhs (equivalent to approximately Rs. 1.2 crore) during the year. This performance has been achieved notwithstanding the tariff-related challenges, evolving trade policies and market uncertainties prevailing in the region.

Further, the subsidiary has established relationships with leading retail chains, supermarkets, restaurant groups and other customers, enabling the Company to market, distribute and sell its products directly under its own brand

The performance of the subsidiary reflects the increasing acceptance of the Company's products in international markets and marks an important milestone in the Company's transition from a predominantly private-label business model to building a stronger global brand presence. The successful operations of the U.S. subsidiary have also provided the Company with valuable market

TANVI FOODS (INDIA) LIMITED

insights and operational experience in international markets while demonstrating the resilience and competitiveness of the Company's products in a dynamic global business environment.

Update on subsidiary in UK

The Company has recently incorporated its United Kingdom subsidiary and expects operations to commence shortly. The Company has completed the establishment of its warehousing, distribution and marketing infrastructure in the region and is operationally ready to receive container shipments from India and supply customers across the United Kingdom through its established distribution network.

Notwithstanding the ongoing geopolitical tensions and uncertainties in certain international markets, the Company has received an encouraging response from prospective customers, distributors and retail partners. Commercial discussions with multiple counterparties have progressed positively and the Company is witnessing a healthy pipeline of business opportunities, reflecting the strong demand potential for its frozen and ready-to-eat Indian food products in the United Kingdom which is an attractive market for such products and is supported by consumer base for ethnic and convenience foods, including a significant population familiar with and receptive to Indian cuisine. The establishment of a dedicated business presence in the United Kingdom is expected to strengthen the Company's international footprint

The Company's state-of-the-art manufacturing facility, supported by advanced technology, international certifications and licences, enables it to meet the stringent requirements of developed global markets such as the United States and the United Kingdom and provides a strong platform for further international expansion.

The above update is being provided to keep the shareholders and investor informed about the progress of the Company's overseas business operations.
