Annexure 1

Particulars	Capacity Enhancement
Existing Capacity	~ 9.2 MW
Existing Capacity Utilization	The existing capacity is being utilised to provide GPU cloud infrastructure and other AI-related services. The precise utilisation level may be specified based on the Company's internal operational data.
Proposed Capacity Addition	Approximately 5.4 MW, for NVIDIA HGX B300 systems and other Blackwell GPUs.
Period within which the proposed capacity to be added	The proposed capacity addition shall be undertaken in accordance with the Company's infrastructure deployment plan and the anticipated demand for AI computing services.
Investment Required	The investment required will depend on the actual deployment of the proposed infrastructure and the associated capital expenditure.
Mode of Financing	A mix of internal accruals and Debt.
Rationale	The additional capacity will help the Company to cater fast-growing demand of GPUs and other services.
