Press release

TVS Supply Chain Solutions and Japan's Sankyu Inc. sign strategic MoU to unlock growth opportunities across Supply Chain and Engineering services

- *Sankyu intends to acquire a 0.5% equity stake in TVS SCS*

24th August, 2026 Chennai, India: TVS Supply Chain Solutions Limited (TVS SCS), (NSE: TVSSCS, BSE: 543965), a leading global supply chain solutions provider and one of India's largest and fastest-growing integrated supply chain companies, today announced the signing of a strategic Memorandum of Understanding (MoU) with Sankyu Inc., a leading Japan-headquartered logistics and engineering company, to collaborate across supply chain and engineering services, creating a platform to unlock growth opportunities across key industrial sectors.

The partnership brings together TVS SCS's extensive supply chain capabilities, strong market presence and deep customer relationships with Sankyu's engineering expertise, logistics capabilities and long-standing relationships across the Japanese industrial ecosystem. By combining these complementary strengths, the companies will explore opportunities to deliver enhanced value through a broader portfolio of solutions spanning logistics, warehousing, transportation, engineering services, maintenance and on-site industrial support.

As part of the MoU, Sankyu intends to acquire an equity stake of 0.5% in TVS SCS subject to customary regulatory approvals.

The collaboration will initially focus on opportunities in India, where both companies see significant potential to support manufacturing and industrial customers through a broader range of supply chain and engineering services. With more than 1,400 Japanese companies operating in India across manufacturing and industrial sectors, the partnership is well positioned to support their evolving supply chain and engineering requirements while also serving a wider customer base.

Over time, the collaboration is expected to expand into other markets across Asia, the Middle East and Africa, leveraging the combined capabilities of both organisations. The companies will also explore opportunities in other global markets where both have an established presence, leveraging each other's capabilities to create additional value for customers.

Says, **R. Dinesh, Chairman, TVS Supply Chain Solutions**, "This partnership represents an important step in our strategy to strengthen our capabilities and create greater value for customers. Sankyu's engineering expertise and deep relationships across the Japanese industrial ecosystem complement TVS Supply Chain Solutions' integrated supply chain capabilities, strong customer relationships and market presence. We share a strong commitment to long-term value creation, and together we are well positioned to deliver more comprehensive solutions, support the evolving needs of manufacturing and industrial customers, and unlock new growth opportunities across India and other strategic markets."

BELIEVE IN THE POWER OF US®

Mr. Kimihiro Nakamura, President and CEO, Sankyu Inc, said, "Since our inception in 1918, Sankyu has been dedicated to supporting the progress of the manufacturing sector, underpinned by our core philosophy of valuing our people. We are profoundly honoured to enter into this partnership with TVS SCS, an organisation that shares our philosophy and commitment to the highest ethical standards. Our two companies possess a strong strategic alignment, and by integrating and complementing our respective strengths, we look forward to achieving collective growth in the global market and contributing to sustainable industrial development."

To drive the collaboration, the companies will establish a joint steering committee comprising representatives from both organisations. The committee will identify growth opportunities, oversee strategic initiatives and support the development of integrated solutions aimed at delivering enhanced value to customers and other stakeholders.

About TVS Supply Chain Solutions

TVS Supply Chain Solutions Limited ('TVS SCS'), part of the TVS Mobility Group, is an India-headquartered multinational company that pioneered the development of the supply chain solutions market in India.
