Press Release

GHCL Textiles Announces Strong Performance for Q2/H1 FY27

-PAT* grew by 249% YoY to Rs. 56 crores in Q2 FY27

-Revenue grew by 31% YoY to Rs. 446 crores in Q2 FY27

New Delhi, 5th November 2026: GHCL Textiles, a leading manufacturer of premium yarns and fabrics, announced its financial results for Q2/H1 FY27.

Commenting on the financial performance, Mr. Marshal Sonavane, CEO, GHCL Textiles Ltd. said *"During the second quarter of FY27, the textile industry operated in a volatile raw material environment, with cotton prices remaining elevated on tighter supplies and the polyester value chain touching multi-year highs, even as underlying domestic demand remained steady. While rising input costs and cautious buying weighed on the market towards the end of the quarter, our timely cotton procurement, focus on the domestic market and growing value-added portfolio enabled us to deliver healthy growth through the half year".*

"We continue to make steady progress on our vertical integration journey. Our 25000-spindle unit has reached full capacity, our knitting capacity is being scaled up, and land has been allotted at PM Mitra Park for our fabric processing facilities. The Board has also approved our next phase of spinning expansion along with additional rooftop solar capacity, further strengthening our green energy footprint. Looking ahead, our strategic focus remains firmly on value-added yarns, deeper integration into fabrics by expanding our presence in knitted and woven fabrics, processing and, eventually, ready-to-cut fabric, along with green energy and operational excellence. Backed by a strong balance sheet and the structural tailwinds from India's expanding FTA network, we remain confident in our ability to navigate near-term volatility and deliver sustainable, long-term value to all stakeholders".

Financial Performance (Standalone performance)
