EXPANDING HORIZONS

The most compelling journeys begin when the familiar gives way to possibility.

For 'Z', that idea captures where we stand today.

Over three decades, we have grown by staying close to audiences while continually reimagining how stories can reach them. Today, entertainment is changing again. Screens are multiplying, attention is shifting, and new generations are discovering content in different ways. The opportunity before us is therefore not simply to keep pace, but to look further.

So we are widening our canvas.

Building on the strength of our core while finding fresh ways to engage audiences. Taking our content into emerging formats and spaces. Extending the life and reach of the stories and intellectual properties we create. Bringing creativity and technology closer together to imagine what entertainment can become next.

Expanding Horizons reflects this evolving 'Z': confident in the strength of its legacy, yet unwilling to be confined by it.

Because with every audience we reach, every screen we enter and every new way a story comes alive, the horizon moves further.

And we are only beginning to discover what lies beyond.

APPROACH TO REPORTING

This maiden Integrated Annual Report marks the commencement of Zee Entertainment Enterprises Limited's ('Z', 'the Company', 'we' or 'our') integrated reporting journey. It brings together financial, operational, environmental, social, and governance information to present a connected account of how our strategy, governance, performance, and prospects support value creation over the short, medium, and long term.

The Report focusses on matters that are material to our business and stakeholders. It explains how we deploy our resources and relationships, respond to changes in the operating environment, manage risks and opportunities and pursue our strategic priorities.

A dedicated ESG section presents our approach and progress across environmental stewardship, people and communities, responsible content, supply chain practices and governance. The integrated narrative is complemented by the statutory reports, Business Responsibility and Sustainability Report (BRSR) and audited financial statements included in this publication.

REPORTING PERIOD

The Report covers the financial year from April 1, 2025 to March 31, 2026. Comparative information has been provided wherever relevant and available to enable an informed assessment of our performance over time.

Material developments occurring after the close of the reporting period and up to the date of approval of this Report have been included where they are relevant to an understanding of the Company's position, performance or future direction.

FRAMEWORKS AND STANDARDS

The Report has been developed with reference to nationally and internationally recognised reporting frameworks, standards and regulatory requirements, including:

- Integrated Reporting Framework of the IFRS Foundation
- Global Reporting Initiative (GRI) Standards 2021
- Sustainability Accounting Standards Board Standards (SASB) applicable to the Media and Entertainment industry
- Business Responsibility and Sustainability Reporting requirements prescribed by the Securities and Exchange Board of India

- National Guidelines on Responsible Business Conduct (NGRBC)
- SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended
- Companies Act, 2013 and the rules made thereunder
- Indian Accounting Standards
- United Nations Sustainable Development Goals
- Greenhouse Gas Protocol, where applicable

The relevant GRI and SASB content indices provide references to the disclosures contained across the Report.

SCOPE AND BOUNDARY

Financial information presented in this Report is based on the audited consolidated financial statements of Zee Entertainment Enterprises Limited and its subsidiaries. Details of the entities included within the financial reporting boundary are provided in the consolidated financial statements.

Unless otherwise stated, the environmental, social and governance information presented in the ESG section and the BRSR relates to the Company on a standalone basis. Certain disclosures relating to audiences, employees, international operations, platforms or individual business units may have a different reporting boundary, which has been indicated alongside the relevant information.

Information obtained from external sources, including industry bodies, research agencies and regulatory authorities, has been appropriately attributed at the relevant places in the Report.

RESTATEMENT OF INFORMATION

We continue to strengthen our data collection, validation and reporting processes. Comparative information may be restated where changes in the reporting boundary, methodology, emission factors, data availability or the correction of prior-period information make this necessary.

Where a restatement has been made, its nature, reason and effect have been disclosed alongside the relevant information. Restatements relating to financial information, if any, are addressed in the notes to the financial statements.

BOARD RESPONSIBILITY STATEMENT

The Board of Directors acknowledges its responsibility for the integrity of this Integrated Annual Report. Supported by its Committees and the management team, the Board has applied its collective judgement to ensure that the Report presents a balanced account of the matters material to the Company's ability to create and preserve value.

Management is responsible for maintaining appropriate systems, processes and internal controls for the collection, consolidation and validation of the information presented. The relevant functions and members of senior management have reviewed the disclosures pertaining to their respective areas of responsibility.

The Board approved this Integrated Annual Report for publication on August 10, 2026.

EXTERNAL REVIEW AND ASSURANCE

The standalone and consolidated financial statements have been independently audited by Walker Chandio & Co LLP, Chartered Accountants.

Selected sustainability information, including the applicable BRSR Core indicators and greenhouse gas disclosures, has been independently assured by TUV SUD South Asia Pvt. Ltd. Details of the reporting criteria, boundary, level and scope of assurance are provided in the Independent Assurance Statement on **312**.

Information outside the scope of independent assurance has been subject to the Company's internal review, validation and governance processes.

FORWARD-LOOKING STATEMENTS

Certain statements in this Report relating to our plans, objectives, expectations and future performance may be considered forward-looking. These statements are based on assumptions and information available at the time of publication and are subject to risks, uncertainties and other factors that may cause actual outcomes to differ materially.

The Company does not undertake any obligation to update such statements, except where required under applicable law.

YOUR FEEDBACK MATTERS

INVESTMENT CASE

Anchored in enduring audience connections and powered by a future-focussed content ecosystem, 'Z' is poised to capture opportunities and create value across entertainment's next chapter.

WE ARE A DIVERSIFIED CONTENT & TECHNOLOGY POWERHOUSE

We have built an integrated entertainment portfolio spanning broadcast, digital, studios, and music across multiple categories such as fiction, non-fiction, sports and others. Our experience in creating culturally relevant stories across languages, genres and formats enables us to engage diverse audience cohorts and respond to evolving consumption preferences. Supported by technology-led capabilities across content creation, distribution, personalisation, and monetisation, we continue to enhance audience experiences, expand our reach, and unlock new avenues for growth. This breadth diversifies our exposure across platforms and audience segments, while creating multiple avenues to develop, distribute and monetise content and extend the commercial value of our intellectual properties over time.

WE ARE POSITIONED FOR INDIA'S M&E GROWTH

India's large, diverse and increasingly connected population presents significant opportunities across linear television, streaming and emerging digital formats. Our deep understanding of regional audiences, broad language presence and established distribution network position us to serve both urban India and Bharat. In FY26, our television network share increased by 60 basis points to a three-year high of 17.4%, supported by gains across Hindi and other language markets that strengthened our position.

WE ARE SYNERGISED FOR SCALE AND MONETISATION

Our businesses operate as an interconnected content ecosystem. Content and intellectual properties developed for television, digital or films can travel across platforms, languages, geographies and formats, extending their reach and commercial life. Our capabilities across broadcast, ZEE5, Zee Studios, Zee Music Company, international distribution and syndication enable us to unlock multiple revenue streams, improve monetisation across the content lifecycle and enhance the potential returns on our creative investments.

WE HAVE A DISCIPLINED FINANCIAL FOUNDATION

We are strengthening the business through sharper cost management, selective investment and disciplined capital allocation. In FY26, we reported operating revenue of ₹80,989 million, adjusted EBITDA of ₹7,547 million and cash and cash equivalents of ₹27,595 million. Free cash flow was 2x profit after tax, providing flexibility to invest in content, technology and emerging opportunities. Our digital business also achieved adjusted EBITDA breakeven, marking an important financial inflection point.

WE ARE EXPANDING OUR AUDIENCE UNIVERSE

We are widening our relevance across age groups, geographies, formats and consumption occasions. KidZ strengthens our proposition for younger audiences; Bullet, our mobile-first micro-content platform, crossed 10 million downloads during the year. Further, our fiction and non-fiction shows, such as IDEABAAZ, CHORIYA CHALI GAON and others, engaged audiences across Bharat. Additionally, our presence in sports and live entertainment adds community-led viewing occasions, while short-form content, gamification and emerging technologies deepen our relevance among digitally-native consumers.

WE ARE BUILDING A SUSTAINABLE PLATFORM FOR LONG-TERM VALUE CREATION

We recognise that enduring growth depends on trust, responsible conduct and organisational resilience. We are embedding environmental, social and governance considerations across decision-making, content practices, operations and stakeholder relationships. Strong governance, responsible storytelling, data privacy, inclusive people practices and efficient resource use support long-term value creation. In 2025, our S&P Global CSA score placed us in the 96th percentile, while NSE Sustainability Ratings & Analytics rated 'Z' as a 'Leader'.

CEO'S MESSAGE

Dear Shareholders,

At the centre of our growth story lies a simple yet powerful promise.

Punit Goenka

*Chief Executive Officer
Zee Entertainment Enterprises Limited*

A promise to create enduring value and strengthen the trust that defines our relationship with each one of you, our precious shareholders. This promise is anchored in our belief system of 'Yours Truly', that embodies clarity of intent, honest ambition and higher transparency. This belief system guided your Company's transformation during the year, into a future-ready global content and technology powerhouse, encompassing quality content offerings across platforms backed by cutting-edge technology. Your Company's transformation enabled it to further activate strategic growth-oriented steps in order to strengthen its foundation for the future. For us, every little step counts and we are witnessing tangible results of these actions.

STRENGTHENING THE FOUNDATION

For your Company, FY26 was one of calibrated investments into the business to unlock more robust growth avenues. The investments were optimally structured to help us build future-ready capabilities and enhance our creative quotient to offer compelling and purposeful entertainment. During the year, your Company continued to recognise the shifts that are changing the contours of the Media & Entertainment industry. As a result, we implemented action-oriented steps to further strengthen our content strategy, achieve profitability in the digital business and build a more robust monetisation engine.

Let me give you an insight into the efforts undertaken to strengthen the core of your Company. We further sharpened our content offerings, enabling us to be present across every consumer touchpoint. We leveraged our strength across languages to create compelling entertainment content and delightful consumer experiences in both the linear and digital segments. We also fortified our movies and music businesses, further establishing a distinct positioning across the entertainment valuechain.

During the year, we ensured a sharper focus on disciplined and prudent investments across the business. The cost optimisation efforts to drive operational efficiencies have further enabled us to support our long-term growth ambitions. This empowers us to scale with clear intent year-on-year. In order to appropriately capitalise on the opportunities arising from a converged entertainment ecosystem, we envisioned a new advertisement revenue team architecture during

the fiscal. The enhanced team structure empowers the leaders to leverage the synergies within our diversified portfolio, to offer holistic value to partners and unlock newer monetisation pathways.

PERFORMANCE SNAPSHOT

During the year, we continued to translate our capabilities into tangible business outcomes, by embracing a language-focussed strategic approach for our digital entertainment platform ZEE5. I am pleased to share that this approach backed by a compelling content slate and rich user experience enabled ZEE5 to attain profitability. This marks a defining moment in our journey to build a truly home-grown, value-accretive digital business for the world. ZEE5 continues to fortify its slate by collaborating with leading creators for originals and movies.

In the linear segment, the new content strategy implemented across channels enabled us to accrue higher viewership gains and achieve a network share exceeding 18%. The business also navigated a soft advertising environment, driven by reduced spends from key categories. That said, the implementation of New Tariff Order (NTO) 3.0 provided partial support through subscription revenue growth, that was aligned with inflation.

In the music segment, Zee Music Company reinforced its leadership position as one of India's largest music publishers, expanding its reach to ~176 million subscribers with a rich catalogue of over 20,000 songs across 22 languages. Today, Zee Music Company has emerged as a marquee label that attracts the best of film and non-film music artists from the industry.

Your Company also undertook efforts to enhance its movies business. We have firmly positioned Zee Studios as a pan-India film studio offering a quality cinematic experience across languages. During the year, we invested significant energies to build a compelling slate of offerings for the year to come.

Our omni-channel strategy continued to deliver scale, enabling us to reach over 800 million monthly unique viewers across the Nation. This strongly reaffirms that the strategic efforts undertaken by your Company are yielding results and positioning us to capitalise on evolving consumer preferences and emerging growth opportunities.

We took significant efforts to enhance the transparency levels to ensure that all of you are

well-informed of your Company's progress. Our robust policies and processes better enable us to nurture a disciplined financial path for the future. As a result, even amidst the uncertain geo-political environment that continues to impact the macro-economic sentiment, your Company remains resilient. We continue to dedicate considerable time and energy to plan appropriately for the future and ensure your Company faces minimal impact from any external economic conditions.

PROGRESS WITH PURPOSE

For your Company, meaningful progress in its growth journey is determined by the number of hearts we touch through the experiences we deliver across platforms, and the number of lives we change through concerted actions across communities. Targeted Corporate Social Responsibility interventions have enabled your Company to continue making a positive difference to innumerable lives across vulnerable communities. I am also proud to share that we marked a significant jump in Environmental, Social, Governance (ESG) performance compared to the previous fiscal, which placed your Company amongst the top 5% in the Media, Movies and Entertainment sector globally, in the S&P Corporate Sustainability Assessment (CSA) 2025.

Your Company remains committed towards building a responsible ecosystem, by addressing the climate-related impact associated with its operations. During the year, your Company developed a comprehensive Climate Change Strategy encompassing a decarbonisation roadmap, energy audits across pan-India office locations and a climate risk assessment to strengthen climate resilience and overall sustainability performance. ESG assessments were also conducted across our shoot locations to promote responsible operational practices and mitigate potential risks associated with production activities. We firmly believe that entertainment content yields immense power to spread happiness and bring people together in numerous ways, and your Company remains guided by its purpose ***to enrich the lives of people around the world, by creating extraordinary moments, which celebrate the power of optimism and togetherness.***

TRANSFORMING STRENGTH TO SCALE

At a macro level, the M&E sector is growing in high single digits, outpacing the nominal Gross Domestic Product (GDP) per capita after a subdued phase over the last two years. The growth is being led by new-age segments such as digital media, gaming, animation and VFX. In order to truly scale your Company as a leading

content and technology powerhouse, we are building a furthermore diversified portfolio that reimagines the breadth of our business and captures a higher share of the attention economy. We are investing towards establishing new growth engines across emerging, high-potential segments such as micro dramas, kids content and live entertainment.

In order to enhance our content creation capabilities across genres like kids, mythology and fantasy, your Company has inked a strategic partnership with the Oscar-winning Animation and VFX studio PhantomFX. We believe the partnership will enable your Company to create richer intellectual properties in the animated content segment, that is witnessing exponential growth across the Nation.

In line with its strategic growth aspirations, your Company has also expanded its presence in the sports business with the launch of four dedicated sports channels under the Unite8 Sports umbrella. Our aim is to build a sustainable sports ecosystem across the Nation, by driving higher engagement through marquee properties and uplifting sports through purposeful on-ground initiatives. Your Company is taking the required efforts to elevate football by nurturing the young talent across the Country and driving higher appeal for domestic and international properties. In line with this approach, your Company is building a compelling sports destination and has secured the rights of key global sporting events including Fédération Internationale de Football Association (FIFA), the German football league Bundesliga and the Italian football league Serie A, in addition to its existing offerings. Going forward, we firmly believe that these new segments will accelerate growth for your Company, and complement the overall portfolio to drive stronger cross-synergies. By seamlessly integrating scale with innovation and our rich legacy with new growth opportunities, we are positioning your Company to fortify its competitive advantage in the evolving ecosystem.

NURTURING THE HUMAN CAPITAL

We remain intrigued and excited for the opportunities that tomorrow will present and we are strategically well-positioned to capitalise on the same. Your Company continues to nurture the pioneering and entrepreneurial spirit that has guided it for over three decades, which further gives us the confidence that the investments being made in the business, will yield visible results across all performance metrics. The entrepreneurial spirit is deeply embedded

Seamlessly integrating scale with innovation and our rich legacy with new growth opportunities, we are positioning your Company to fortify its competitive advantage

within our culture and imbibed by our valuable Human Capital as co-owners of our precious institution. In fact, this expression is brought alive everyday through the determination that the team displays in solving challenges, the pride it showcases in sharing innovative ideas, the joy it reflects in collaboration and the accountability it takes in every task. This growth-centric mindset is truly enabling your Company to drive meaningful progress. I am grateful to you, our esteemed shareholders, for recognising the contributions and enabling us to align your aspirations for this institution with the growth journey of our Human Capital through the implementation of the ***'Truly Yours'*** Employee Stock Option Plan.

We are eternally grateful to each one of you, for placing your valuable trust in this institution. We will continue to take every required effort to further enhance this trust and ensure the growth drivers seeded in, accrue higher returns. As we look ahead, our promise to you is clear. We will build more enduring connections with our consumers across the globe. Every screen, every entertainment touchpoint will continue to resound with stories from your Company. We will always bring alive the rich, colourful traditions and heritage of our Nation through compelling narratives and unique experiences, because we are delivering much more than a promise, we are signing our name to it!

Yours Truly,

PUNIT GOENKA

MARKETING HIGHLIGHTS

We continued to strengthen our marketing and brand-building efforts through original intellectual properties, purpose-led campaigns, partner engagement and integrated promotions across our content ecosystem. Our focus was on creating distinctive audience and advertiser propositions while using the reach of our platforms and content brands to deepen engagement.

DILFLUENCER MOMENTS

Dilfluencer Moments, a first-of-its-kind branded content format was introduced, transforming storytelling moments from our content ecosystem into contextual advertising opportunities for brands across platforms. The format was designed to help advertisers connect with audiences through emotionally resonant and culturally-relevant moments, while creating new monetisation opportunities across our omni-channel ecosystem.

NATIONAL GIRL CHILD DAY: 'JAB LIFE KO LETI HO LIGHTLY, TOH LAGTI HO AUR BHI LOVELY'

A network-wide initiative featuring Sanya Malhotra and Prashasti Singh was rolled out, further amplified through in-show integrations across seven channels. The campaign challenged stereotypes around how young girls are expected to behave and encouraged confidence, individuality and self-expression. Through the initiative, we reinforced our positioning as a culturally-relevant and progressive entertainment network.

'DON'T BE A FOOL' DIGITAL SCAM AWARENESS INITIATIVE

We launched a multilingual campaign across seven languages, leveraging our on-screen characters to educate audiences about the growing threat of digital scams. By integrating awareness messages into familiar content environments, we sought to make information around cyber safety more accessible and relatable to audiences. The initiative also demonstrated how entertainment-led communication can be used to build awareness around important societal issues.

'THE REAL DILFLUENCER': MOTHER'S DAY CAMPAIGN

Building on our Dilfluencer proposition, we launched 'The Real Dilfluencer' to celebrate mothers as the first and most influential storytellers in our lives. Through a brand film and social activation, the campaign connected the emotional power of motherhood with our broader brand narrative around influence and impact. It strengthened emotional engagement with the brand while building further recall for Dilfluencer as an IP.

'WHAT'S NEXT': 'Z'S FLAGSHIP PARTNER FORUM

We launched 'What's Next', our first invite-only platform for advertisers, agencies and media partners, offering them an exclusive first look at upcoming innovations and business opportunities across 'Z'. The inaugural edition also served as the launch platform for Zee Bangla Sonar and Zee Power. The forum helped us strengthen industry partnerships, provide greater visibility into our future roadmap and showcase our growing focus on technology and innovation within the content ecosystem.

ILT20 SEASON 4

We continued to build on ILT20's established positioning through a multi-platform marketing campaign, fan engagement initiatives and integrated promotions across our ecosystem. These efforts helped deliver strong recall for the property and supported ILT20 in maintaining its position as the second most-watched T20 cricket league in India.

2026 CONTENT SLATE LAUNCH

Our upcoming programming slate for 2026 was unveiled through a print campaign that showcased our content vision and the diversity of programming across genres. The initiative brought the breadth and scale of our content portfolio under a unified brand narrative and served as the master brand slate for the year, while aiming to create anticipation among advertising and trade partners.

Marketing recognition

Broadcaster of the Year 2026, Abby Awards at Goafest

We were recognised as Broadcaster of the Year for the fourth consecutive year, with 16 wins across categories, reinforcing the strength of our creative and marketing capabilities.

GEMA Asia 2025

We received two Gold and two Silver awards at GEMA Asia 2025, recognising creative excellence across our marketing initiatives and regional markets.

MATERIAL MATTERS

Materiality assessment is important to how we understand our responsibility to both the people and the planet. It deepens our understanding of stakeholder expectations and helps us identify the issues that truly shape our long-term sustainability. This clarity empowers purposeful action, sharper strategic focus and the creation of resilient, long-term value.

Double Materiality Assessment

In March 2025, we undertook a comprehensive Double Materiality Assessment (DMA), marking a pivotal step in strengthening our sustainability agenda. The assessment enabled us to identify and prioritise the ESG matters of greatest significance to our stakeholders and enterprise, providing a robust foundation for informed decision-making, strategic resilience and long-term value creation.

The assessment was conducted in accordance with the European Union's Corporate Sustainability Reporting Directive (CSRD), ensuring a robust and globally recognised approach aligned with evolving regulatory expectations and leading sustainability disclosure practices.

Approach to double materiality

We follow a structured materiality assessment to identify the ESG topics that matter most to 'Z'.

Financial materiality

(Outside-In)

Assessed how external ESG factors – like environmental, regulatory, or societal trends impact 'Z's business performance, financial health, and long-term value.

Impact materiality

(Inside-Out)

Evaluated how 'Z's operations, content, and practices affect society and the environment.

The DMA Process ensures ESG risks and opportunities are integrated into strategic and financial decision-making and 'Z' remains accountable for broader impact, aligning with stakeholder expectations and global sustainability goals.

Our Six-step DMA process

PEER ANALYSIS

Analysed ESG practices within the media and entertainment industry to understand industry-specific sustainability drivers and identify relevant material topics for 'Z's operations

IMPACT MATERIALITY

- Assessed identified material topics based on the severity and likelihood of their impacts through structured stakeholder surveys
- Evaluated both negative and positive impacts across environmental, social, and governance parameters
- The assessment enabled 'Z' to prioritise actions that maximise positive change while responsibly managing adverse impacts

FINANCIAL MATERIALITY

- Evaluated the potential short-, medium-, and long-term impact of each material topic through one-to-one sessions with internal and external leadership
- Evaluated both the likelihood and the magnitude of financial risks associated with environmental regulations, social expectations, and governance practices
- Assessed each material topic's alignment with 'Z's strategic objectives

REFERENCE FRAMEWORK

Reviewed global sustainability standards and frameworks, such as GRI, SASB, and CSRD, to develop an exhaustive universe of potential ESG topics relevant to the industry and its stakeholders

STAKEHOLDER ENGAGEMENT

- Consulted internal and external stakeholders through an online workshop, group discussion, and a focussed one-to-one discussion
- The inputs helped prioritise, validate and refine material topics based on their perceived relevance and impact on business operations

DOUBLE MATERIALITY MATRIX

- Plotted the findings from the impact and financial materiality into a double materiality matrix
- Mapped each topic using the scores obtained as a product of impact and financial materiality assessment, providing a clear view of its relative significance
- The matrix enabled informed decision-making by highlighting issues most critical to both the Company's ESG performance and enterprise value

Stakeholders involved

Our materiality assessment was shaped through active engagement with internal and external stakeholders across the value chain, ensuring a balanced and comprehensive understanding of sustainability priorities.

Internal stakeholders

Senior leadership across key functions:

Content | Sales | Revenue | Finance | Branding | Insights | Digital | Operations | Compliance | Human Resources

External stakeholders

Production House | Technology Partners | Shareholders | Investors | Media Partners | Vendors | Suppliers

Governance and validation

The overall process undergoes independent validation by a third-party assurance provider. The final material topics were subsequently signed off by senior management to ensure robustness, credibility, and alignment with the business priorities.

To maintain the relevance of our sustainability priorities, the materiality assessment is planned to be conducted every two to three years, reflecting emerging ESG trends, changing stakeholder expectations and evolving business contexts.

Material matrix

DOUBLE MATERIALITY

Top three material issues for enterprise value creation

The top 3 material issues emerging from the assessment were assigned to the respective functional owners, creating accountability for the delivery. These priorities now inform departmental goals and annual targets focussed on mitigation and measurable progress. While ESG considerations are embedded at the functional level, organisation-wide ESG goals are yet to be formalised.

DATA PRIVACY AND CYBER SECURITY

BUSINESS IMPACT

- Reduced financial risks due to strong cybersecurity infrastructure
- Increased competitive advantage via data monetisation and improved customer trust
- Higher security implementation costs
- Potential reputational damage, regulatory and legal exposure
- Increased operational and insurance costs
- Business interruption & downtime risk

MITIGATION APPROACH

DATA PRIVACY

- Established a comprehensive privacy programme aligned with ISO 27701 and General Data Protection Regulation (GDPR)
- Regular Privacy Impact Assessments, Privacy by Design and Incident Management process in place
- Commenced implementation of the privacy programme under global data protection laws and newly released Digital Personal Data Protection Act (DPDPA) rules to identify gaps and take proactive mitigation measures

CYBER SECURITY

- Raising employee awareness on responsible and ethical use of Generative-AI tools, aligned with the Information Security Policy
- Proactive identification and blocking of unapproved AI tools / websites to mitigate shadow AI risks

GOALS AND TARGETS

No incidents related to the breach of data privacy and cybersecurity (year-on-year)

PROGRESS AGAINST GOALS AND TARGETS IN FY26

Nil incidents of breach of data privacy and cybersecurity

- Periodic ethical phishing simulations strengthen employee awareness and reduce social engineering threats
- ISO 27001 – aligned Information Security Management System ensuring identify-protect-detect-respond-recover capabilities and business continuity
- Successful ISO/IEC 27001:2022 (ISMS) recertification, strongly reaffirming our security posture
- Introduced server-side watermarking to trace pirated content and enable timely blocking or take-down action
- In-house tool to detect and block malicious or unusual download attempts
- Onboarded two piracy content Take Down service partners for Linear (Broadcast) & ZEE5 (OTT) platform services, strengthening our Content Security & Anti-Piracy efforts

3

INTELLECTUAL PROPERTY PROTECTION AND ANTI-PIRACY

BUSINESS IMPACT

- Potential annual revenue loss from piracy / unauthorised use of ‘Z’s IP across theatrical, web series, and original content
- High upfront and recurring costs for Digital Rights Management (DRM), watermarking tools, legal enforcement, and IP disputes
- High mitigation investments essential to safeguard ‘Z’s creative assets and ensure long-term, sustainable monetisation

GOALS AND TARGETS

No content piracy incidents (year-on-year)

PROGRESS AGAINST GOALS AND TARGETS IN FY26

Nil piracy incidents reported

MITIGATION APPROACH

CONTENT/IP PROTECTION

- Strengthened Content Security & Anti-Piracy SOP covering ZEE5, Linear, Zee Music, and Zee Studios, with high-level governance oversight and cross-functional collaboration
- Use of industry-leading Digital Rights Management (DRM) systems and Watermarking technology to track and trace leaks and illegal distribution of ‘Z’s Content IP
- Partnership with industry-leading Cyber Threat Intelligence services to monitor dark web marketplaces and piracy networks
- Geo-blocking and region-specific access control to limit illegal streaming of ‘Z’s Content outside licensed territories

- Rapid legal takedowns using Digital Millennium Copyright Act (DMCA) provisions with strategic litigation and partnership with law enforcement and anti-piracy coalitions e.g., Dynamic John Doe Order, allowing ‘Z’ to block content piracy websites at the ISP level
- Ongoing IP monitoring and rights assessment, using automated tools to block piracy, behavioural analytics, strong authentication and enhanced proxy detection on ZEE5 OTT
- Multi-Key Digital Rights Management (DRM), enabling differentiated content protection, limiting playback to a lower resolution on L3 devices

1

CLIMATE CHANGE RESILIENCE

BUSINESS IMPACT

- Investments in upgrading existing energy management system across 'Z's operations
- Cost savings achieved through energy-efficient equipment and systems
- Strengthened investors and shareholders confidence through sustainable business practices

MITIGATION APPROACH

- Develop GHG inventory, map carbon emissions and energy consumption for 'Z's global operations
- Replace outdated equipment and systems with energy-efficient technologies
- Formulate climate strategy for emissions reduction
- Conduct climate risk mapping

GOALS AND TARGETS

Align emissions reduction goals with SBTi – approved targets to drive measurable decarbonisation by 2027 (revised)

PROGRESS AGAINST GOALS AND TARGETS IN FY26

- A comprehensive GHG inventory has been prepared for global operations
- Climate change strategy and decarbonisation plan has also been developed
- Energy audits were conducted across pan-India locations to evaluate existing energy conservation measures

RISK MANAGEMENT

The media and entertainment landscape continues to evolve rapidly, shaped by changing audience preferences, platform fragmentation, technological advancement, regulatory developments and macroeconomic uncertainty. These shifts create growth opportunities while introducing risks that may affect our operations, financial performance, reputation and long-term value creation.

OUR ENTERPRISE RISK MANAGEMENT FRAMEWORK

Our Enterprise Risk Management framework is guided by the Board-approved Risk Management Policy, which defines the governance structure, risk culture and responsibilities across the organisation. It covers the identification, assessment, prioritisation, mitigation and monitoring of existing and emerging risks.

Risks are evaluated against our strategic objectives, operating environment and defined risk appetite. Material risks are assigned to designated risk owners responsible for implementing mitigation plans, monitoring risk indicators and reporting progress. The framework is reviewed periodically to maintain its relevance as the business and risk environment evolve.

FOUR STAGE PROCESS FOR RISK MANAGEMENT

Key risk exposures as detailed below are clearly identified, with defined risk appetite and structured mitigation plans in place to ensure a proactive and resilient response.

Operational and liquidity risks

Technology, environmental and social risks

Legal and regulatory risks, including ESG-related risks

Governance, market, product and reputational risks

The Chief Risk Officer (CRO), supported by the internal team and external experts, leads periodic Enterprise Risk Management (ERM) assessments to identify emerging risks and mitigation strategies.

Risk culture

‘Z’ is committed to embedding a strong risk culture across all levels of the organisation, where awareness, accountability, and proactive risk management are integral to everyday operations.

Risk governance

Our risk governance structure establishes oversight and accountability across the Board, the RMC, executive management, risk owners and assurance functions.

RISK MANAGEMENT COMMITTEE

The RMC oversees the end-to-end risk management process.

At ‘Z’, the RMC plays a central role in fostering a proactive, enterprise-wide risk culture aligned with strategic objectives. Comprising one independent director, one non-independent director and the CFO / Chief Risk Officer (CRO), the Committee ensures experienced and balanced oversight.

POLICY AND COMPLIANCE

The Board has adopted the Risk Management Policy based on the RMC’s recommendations, guided by a defined Charter.

Annual assessments are conducted to evaluate key risks and the overall effectiveness of the risk framework, ensuring accurate identification, prioritisation, and mitigation aligned with business goals, besides regular reviews throughout the year to monitor major risk exposures, assess internal controls, and ensure accurate, timely risk reporting to support informed decision-making.

BOARD’S CAPABILITY ENHANCEMENT

Non-executive directors engage in regular risk management training through structured familiarisation programmes, strengthening oversight and strategic alignment.

Roles and responsibilities of employees in risk governance

- Risk Owner:** Risk Owners are responsible for managing, and reporting risks within their functions while ensuring effective implementation of mitigation plans. They also educate teams, track risk indicators, and contribute to strengthening overall risk controls. Risks are actively discussed with designated owners, who are responsible for implementing mitigation strategies. Progress is reviewed to drive accountability and effectiveness.
- Internal Auditors:** Internal Auditors conduct risk-based audits, identify control gaps, and support the risk team in assessing and improving risk practices. They also advise management, promote risk awareness, and monitor the effectiveness of mitigation strategies.

Emerging Risks

The risk landscape for the media and entertainment industry is constantly evolving. At ‘Z’, we maintain a flexible ERM approach that allows us to adapt to new threats and opportunities. Key emerging risks are identified and monitored regularly, helping us build resilience and strengthen our proactive response strategies.

E1 — CONSUMER EXPECTATION IN A COMPETITIVE LANDSCAPE

Risk description & impact	Mitigation actions
The M&E space is becoming increasingly saturated with a growing volume of high-quality content, thereby increasing consumer expectations, which can potentially impact the network’s viewership share and consequently revenues.	- This is a long-term industry-wide risk stemming from gradual migration of higher income audiences towards digital platforms which is being addressed through a focussed, multi-pronged strategy aimed at sustaining audience relevance and monetisation across platforms - Central to this approach is the creation of compelling, relatable and culturally rooted content that resonates across demographics, fostering viewer loyalty and engagement - A strengthened in-house tentpole content pipeline, supported by an return on investment (ROI)-driven content windowing strategy, maximises monetisation across TV, connected TV
Risk level	
High	

(CTV), subscription video on demand (SVOD), advertising-based video on demand (AVOD), free-to-air (FTA) and digital platforms

- Continued expansion of the FTA portfolio, market-specific channel strategies and investments in flagship channels reinforce leadership across key language markets. Digital initiatives, including scaled content production across priority language markets, targeted CTV expansion, Multi-Channel Network (MCN) licensing and dedicated IP syndication capabilities, further support audience reach, platform diversification and long-term growth

E2— CONTENT PIRACY AND CYBER THREATS

Risk description & impact

A portion of Over-the-Top (OTT) content is illegally distributed through pirated websites and file-sharing platforms. This piracy impacts both subscription revenues and ad revenues, as it reduces legitimate viewership.

Risk level
High

Mitigation actions

- To address the evolving risk of content piracy, Z has adopted a multi-layered anti-piracy strategy focussed on strengthening platform security, leveraging proprietary technology for monitoring and rapid takedown of infringing content, and pursuing legal and enforcement actions against violators
- During the year, the Company further enhanced its content protection framework through the deployment of internal content infringement monitoring tools, user data encryption, token-based authentication, Hash-based Message Authentication Code (HMAC) authentication, enhanced proxy detection, content fingerprinting, user identification and tracking capabilities, and conditional playback restrictions designed to prevent screen recording and unauthorised content capture. Additional measures, including content resolution controls on vulnerable device categories, were implemented to further reduce piracy risks across digital platforms
- Governance oversight is provided by the Content Security Oversight Committee (CSOC) and cross-functional working groups that drive the Company's content security and anti-piracy initiatives
- These efforts resulted in the continued elimination of unauthorised mod APK and inline access to ZEE5, a significant reduction in Live TV piracy and content leakage, and enforcement actions against a large number of infringing websites, brand impersonation platforms, and online repositories facilitating piracy. The Company also completed targeted piracy investigations, supported legal actions against infringing entities, secured court-ordered dynamic blocking remedies, conducted successful on-ground enforcement actions including arrests related to theatrical piracy, and collaborated with internal stakeholders to pursue further action against identified piracy networks and platforms
- The Company's cybersecurity framework encompasses governance, risk management, technology controls and employee awareness initiatives designed to protect digital assets, content and customer information, while supporting business resilience. Through continuous monitoring of the evolving threat landscape, periodic reviews and ongoing enhancement of security capabilities, the Company is proactively managing cyber risks and strengthening its overall security posture

E3— GENERATIVE AI DISRUPTION & IP GOVERNANCE RISK

Risk description & impact

Rapid adoption of Gen AI is transforming content creation, localisation, dubbing, editing and audience personalisation. While artificial intelligence (AI) can significantly reduce production costs and turnaround times, it may also disrupt traditional content economics and create uncertainty around ownership and copyright of AI-assisted content.

Risk level
High

Mitigation actions

- An enterprise-wide AI governance framework has been established to support the responsible, ethical and compliant adoption of AI technologies across operations
- Clear protocols govern the use of AI in content creation, dubbing, translation, editing and personalisation, with appropriate legal and compliance oversight
- Proprietary content, scripts, archives, characters and talent rights are protected through a combination of contractual safeguards, technology controls and intellectual property protection measures
- Ongoing investments are being made to build AI capabilities that enhance operational efficiency in content production, improve content discovery and enable personalised consumer experiences
- Regulatory, legal and copyright developments relating to AI are closely monitored, with policies, governance processes and contractual frameworks being updated as required to address evolving risks and compliance obligations

OUR STRATEGY

'Z's strategy is focussed on building a future-ready content and technology ecosystem. We are sharpening our content choices, expanding our presence across platforms, investing in newer growth segments, unlocking greater value from IP and strengthening the operating discipline needed to scale sustainably.

Strategic priority

1

SHARPENING CONTENT AND IP CREATION ACROSS FORMATS AND LANGUAGES

STRATEGY OVERVIEW

- Build a sharper content engine across linear, digital, films, and music
- Strengthen relevance across Hindi, other languages and international markets
- Create content and IP that can travel across screens, formats and monetisation windows
- Balance established audience franchises with experimentation in newer formats and genres

ACTION TAKEN IN FY26

- Refreshed content slates across linear and digital businesses
- Strengthened audience insight-led content development through consumer immersions, market visits and structured feedback
- Recalibrated select programming with fresher narratives designed to broaden audience appeal
- Reinforced ZEE5's multilingual proposition through refreshed brand positioning and language-led content strategy
- Continued disciplined acquisition and creation of film, non-film, music and sports IP

FY27 PLAN

- Build content universes anchored in the aspirations of New India
- Protect the core audience while adding younger, male and digitally-native viewers
- Expand originals, exclusives, animation, reality formats, short-form and language-first digital content
- Invest selectively in premium Indian cinema and high-consumption music markets
- Build sports IPs that combine regional relevance with scalable audience appeal

Strategic priority

2

SCALING AN OMNI-
PLATFORM AUDIENCE
ECOSYSTEM

STRATEGY OVERVIEW

- Treat every content asset as a multi-platform opportunity
- Build reach across television, ZEE5, FAST, CTV, social media, YouTube, syndication, cinemas and global platforms
- Strengthen the bridge between linear and digital consumption
- Package content in platform-specific ways to improve discovery, engagement and monetisation

ACTION TAKEN IN FY26

- Advanced the omni-platform approach across select content properties
- Strengthened ZEE5 windowing, sampling and subscriber-led content access
- Expanded reach across CTV, FAST and smart-device ecosystems
- Renewed and expanded key distribution partnerships across international markets
- Used cross-platform promotion across television, digital, films, music and live sports

FY27 PLAN

- Scale the omni-platform model across more content properties
- Deepen ZEE5's language-market strategy through local relevance, differentiated pricing and flexible packs
- Expand FAST, CTV, FTA and hyperlocal offerings where they improve reach, engagement and monetisation
- Build stronger conversion pathways across linear, digital, social and global platforms
- Use sports, films and music as cross-platform engagement engines

Strategic priority

3

INVESTING IN HIGH-
GROWTH AUDIENCE
SEGMENTS AND FORMATS

STRATEGY OVERVIEW

- Invest in audience segments and formats with long-term growth potential
- Build relevance among children, young viewers, regional audiences, connected-TV households and global South Asian audiences
- Enter newer formats where 'Z' can combine content, distribution and monetisation strength
- Use regional and cultural depth as a growth advantage

ACTION TAKEN IN FY26

- Entered the kids segment through KidZ
- Entered micro-content through Bullet
- Strengthened focus on other languages, especially in the South Indian markets
- Expanded local content and co-productions in international markets
- Built a broader sports portfolio across regional sports, football, kabaddi and emerging formats

FY27 PLAN

- Expand KidZ through originals, exclusives, edutainment and games
- Build micro-content as a scalable new format
- Strengthen language-led OTT growth across priority markets
- Scale local IPs and co-productions across international territories
- Explore regional and state-level sports leagues, along with original sports IPs
- Deepen music presence in high-consumption markets, while expanding reach among the global Indian diaspora

Strategic priority

4

UNLOCKING GREATER
VALUE FROM IP AND
CONTENT MONETISATION

STRATEGY OVERVIEW

- Monetise content beyond first-run consumption
- Unlock value from 'Z's content library, new IP and cross-platform ecosystem
- Use syndication, brand integrations, FAST, music licensing, social, events, sports and international distribution as complementary revenue surfaces
- Preserve flexibility for long-term monetisation across platforms and markets

ACTION TAKEN IN FY26

- Pursued selective syndication deals across platforms and geographies, while avoiding restrictive exclusivity
- Strengthened brand-led monetisation through integrations, in-content advertising, influencer collaborations and social amplification
- Launched Z Immerse as a dedicated vertical focussed on developing original IPs
- Used Zee Studios' integrated model to monetise film IP across theatrical, television, digital and music windows
- Leveraged music, sports and digital inventory as monetisable assets across platforms and markets

FY27 PLAN

- Design monetisation earlier into the content lifecycle
- Scale brand integrations, non-fiction properties, ground-connect initiatives and omni-platform revenue models
- Expand the advertiser and client base across newer content genres and audience cohorts
- Pursue FAST monetisation, vertical content syndication and inflight entertainment opportunities more aggressively
- Strengthen monetisation across music, sports, social platforms, regional markets and diaspora audiences
- Deliver integrated advertising solutions across linear, FAST, AVOD, social and on-ground activations

KEY PERFORMANCE INDICATORS

Financial performance

Operating revenue stood at ₹80,989 million, 2% lower year-on-year. Growth in subscription revenue, driven by digital business, and other sales and services partly offset the decline in advertising revenue.

Adjusted EBITDA stood at ₹7,547 million, excluding one time impact of ₹4,084 million arising from a change in estimates of movie-rights inventory amortisation and additional impairment.

Adjusted EBITDA margin stood at 9.3% which excludes the impact arising from the revision in movie-rights inventory amortisation estimates and additional impairment.

Profitability was impacted by lower advertising revenue, strategic growth investments and certain one-off expenses, including higher legal costs.

Digital and movie business

ZEE5 revenue increased by 53% to ₹14,888 million, driven by enhanced content offerings, growth in the subscriber base, an improved pricing strategy and increased contribution from syndication. The digital business achieved EBITDA breakeven and turned profitable during the year on a comparable basis.

In FY26, revenue from the movies business increased by 3% to ₹4,561 million, driven by increase in number of movies released and produced.

Balance sheet and content investment

Net worth increased to ₹117,281 million as at March 31, 2026, compared with ₹115,334 million in FY25, reflecting the continued strength of the Company's capital base.

Cash and treasury investments stood at ₹27,595 million as at March 31, 2026, reflecting improved liquidity and prudent financial management.

Content inventory and advances declined to ₹67.6 billion from ₹70.5 billion, reflecting disciplined acquisitions and optimised capital allocation.

Operational performance

Television network share increased by 60 bps year-on-year to 17.4%, supported by gains across Hindi and other language markets.

Revenue from operations break-up

Subscription revenue increased by 4% and other sales and services increased by 2%, partly offsetting a 10% decline in advertising revenue during FY26.

Cost break-up

Overall Operating cost stood at ₹77,526 million, including ₹4,084 million relating to the revision in movie-rights inventory amortisation estimates and additional impairment. Excluding this impact, overall operating cost stood at ₹73,442 million and remained broadly stable year-on-year, supported by cost optimisation across programming, manpower and overheads. These savings were partly offset by investments in digital growth, content creation and new initiatives. Operating costs increased by 8%, A&P expenditure rose by 24% and other expenses increased by 23%, while personnel costs declined by 9%.

[FY26 performance overview](#)

FY26 was a milestone year for our digital business, marked by stronger scale, sharper content investments and an improved profitability trajectory. ZEE5 revenue grew 53% year-on-year to ₹14,888 million, supported by deeper engagement across movies, television and original content.

The year also marked ZEE5's first-ever year of EBITDA positivity on a comparable basis, reflecting the impact of disciplined investments, operating leverage and a more focussed monetisation strategy. This is an important step in the platform's journey from scale-building to sustainable growth.

BUSINESS SEGMENT REVIEW

DIGITAL

Across screens and languages, 'Z' strengthened its digital business by combining regional storytelling, flexible monetisation, new-age formats and technology-led discovery.

[Driving content-led growth](#)

Our digital content strategy remained anchored in language depth, cultural relevance and format diversity. During the year, ZEE5 launched a diverse slate of content across seven Indian languages under the "Apni Bhasha, Apni Kahaniyan" campaign, strengthening its relevance across Hindi, Tamil, Telugu, Kannada, Marathi, Malayalam and Bangla markets.

Our omni-market approach helped us leverage the combined strength of 'Z's digital, television and studio ecosystem. This supported multi-platform success, with content being activated more effectively across screens, markets and audience cohorts.

During the year, Ayyana Mane and Abar Proloy 2 emerged as strong benchmarks for non-Hindi original series, combining critical acclaim with strong viewership. Their performance reinforced the opportunity to build distinctive, culturally-rooted stories that can scale beyond their primary language markets.

Expanding formats and audience segments

The year also saw ‘Z’ widen its digital audience universe through focussed plays in new formats and cohorts.

KidZ extended ZEE5’s proposition to children and families. Positioned as a child-safe, parent-approved destination, KidZ brings together value-led storytelling, cultural diversity, multilingual content and co-viewing-friendly programming.

The offering includes 100+ popular kids’ titles across target groups and languages, with a mix of originals and popular IPs across AVOD and SVOD models. The proposition is designed to build a trusted digital environment for children while creating an IP-led ecosystem that can extend beyond the screen.

Since its launch in November 2025, KidZ has recorded strong consumption and engagement, supported by a consistent catalogue, marketing scale-up and product refinement. The proposition was further strengthened by family outreach across school contact programmes, residential societies, play zones, mom-and-kids influencers, mascots, merchandise and immersive kids’ expos.

Bullet

Bullet marked ‘Z’s entry into the fast-growing micro-drama space. Built as an AI-powered, blockchain-backed, creator-first micro-drama platform, Bullet is designed for mobile-first audiences seeking quick yet emotionally engaging stories.

The platform brings together short, connected episodes with high emotional engagement, enabling viewers to consume narrative-led content in quick, bingeable bursts. It aims to transform passive scrolling into immersive, story-driven experiences, creating a scalable and future-ready micro-drama ecosystem. The app is available on Android, iOS, and web, and is also integrated into the ZEE5 ecosystem.

Bullet also strengthened its creator-first proposition through Trinetra AI, a full-stack AI filmmaking platform that supports the micro-drama production pipeline from script analysis and character casting to shot breakdown, voice, lip-sync and direct distribution. This has the potential to help independent creators produce at scale while retaining consistency across characters, scenes and episodes.

Enhancing monetisation

ZEE5 continued to sharpen monetisation through a more flexible and segmented subscription model. During the year, the platform expanded pricing options to monthly, quarterly and annual language packs across Hindi, Tamil, Telugu, Marathi, Kannada, Malayalam and Bangla, supported by a strong content line-up in each market.

This flexible approach helped improve accessibility for regional audiences while allowing the platform to build deeper engagement across specific language cohorts. The business also continued to develop a balanced revenue model across subscription, advertising, syndication and partnerships, creating multiple monetisation routes for content across the digital ecosystem.

Expanding reach and distribution

FY26 was also an important year for reach expansion. ZEE5 strengthened its Connected TV footprint, with over 50 million connected devices tuning in to the platform, accounting for 80%+ of CTV homes in the country that consume Zee content.

Telco bundling was another important growth driver. FY26 marked the first year in ZEE5's lifecycle with active direct partnerships across all telecom operators, including BSNL. Beyond national partnerships, ZEE5 also expanded collaborations with regional internet service providers, improving last-mile access across local markets.

The platform diversified its partnership portfolio by entering new categories such as e-commerce and BFSI, widening opportunities for user acquisition, engagement and bundled access.

Strengthening technology and platform capabilities

Technology remained central to ZEE5's digital roadmap. During the year, 'Z's Tech and Innovation Centre embedded AI across user experience, content intelligence, engineering and design workflows.

ZEE5's product and engineering teams also strengthened their owned-and-operated capabilities across recommendation models, content-processing transcoders, ad servers, and analytics. The focus remained on in-housing differentiated, high-impact capabilities that improve performance, personalisation and efficiency at scale.

The digital footprint was further expanded through five FAST channels. Since launch in August 2025, these channels recorded 71% growth in viewers, reinforcing the opportunity to monetise 'Z's content library across newer connected TV and free ad-supported environments.

[FY26 performance overview](#)

FY26 was a year of strengthened performance for our domestic broadcast business. Linear television network share increased by 60 basis points to 17.4%, supported by stronger traction across Hindi entertainment, other language GECs, movie channels and key language markets.

The year reaffirmed the strength of our storytelling engine. Across Hindi and language channels, we built content around the emotions, aspirations and everyday realities of New India, with narratives centred on family, identity, upward mobility, resilience and belonging.

BUSINESS SEGMENT REVIEW

BROADCAST (DOMESTIC)

Across India's television homes, **'Z'** strengthened audience connection through language-led stories, sharper content decisions and wider reach across linear, digital and on-ground touchpoints.

[Driving content leadership](#)

Our domestic broadcast business remained anchored in a language-led content strategy, with clear rank ambitions across priority markets. We refreshed content slates, expanded new dayparts, recalibrated programming and invested in high-impact non-fiction formats to strengthen audience engagement.

This sharper approach also improved our content outcomes. The success rate of show launches increased by 6 percentage points (pp) during the year, supported by cross-pollination of successful formats across language markets. We also remained the fastest-growing major network in southern markets, with over a 3 percentage points increase in five years.

A more disciplined content operating system supported this performance. Every show operated on a feedback-to-action loop, drawing from consumer feedback, monthly reviews, content monitoring, focus group discussions, immersions and Bharat Yatra insights. This helped us respond faster to audience preferences and improve relevance across markets.

Primetime fiction remained rooted in aspirational New India. We deployed multi-track storytelling, identity-led journeys, and a stronger male emotional pivot to build inclusivity among youth and men alongside our core female audience. At the same time, non-fiction formats continued to build reach and affinity, with properties such as Drama Juniors, Sa Re Ga Ma Pa, Chhoriya Chali Gaon and Jayammu Nischayammu Ra strengthening engagement across markets.

Enhancing monetisation

FY26 marked the start of a more integrated monetisation approach, with TV content planned for stronger use across ZEE5, broadcast and social platforms. This enabled us to unlock greater value from each show through advertising, subscriptions, brand integrations and digital engagement.

We also strengthened non-FCT (Free Commercial Time) revenue through non-fiction properties, ground-connect events, syndication, brand partnerships, and curated advertising solutions. Our sales organisation sharpened its solution-led approach through premium inventory, influencer-led campaigns, integrated brand partnerships and new client acquisition.

Expanding reach and distribution

We continued to deepen reach across urban and rural households through a combination of linear television, Free Dish presence, on-ground engagement and new content formats.

Apnotsav, our on-ground connect programme, created audience touchpoints across more than 70 cities. Large-scale non-fiction properties, awards shows, reality competitions and cultural tentpoles helped drive spikes in weekly reach beyond the regular fiction base. Zee Kutumb Awards, conducted across Zee TV, Zee Bangla, Zee Marathi, Zee Telugu, Zee Kannada, Zee Tamil and Zee Keralam, reinforced 'Z's family entertainment equity across markets.

FY26 also saw us enter newer content formats. Bullet marked our entry into micro-content through short-form vertical video, while KidZ extended our reach into the kids segment. Anmol TV strengthened our reach across free-to-air television households, particularly in mass and rural markets.

Other initiatives

During FY26, we also invested in initiatives that strengthen the broader creative ecosystem and support long-term content capability.

[FY26 performance overview](#)

FY26 was a year of stronger scale and operating performance for our international broadcast business. We expanded reach, strengthened distribution in priority markets and improved monetisation quality across revenue streams.

Advertising momentum strengthened during the year, led by better monetisation of premium inventory. International subscription revenues also increased, supported by expanded linear distribution and growth in ZEE5 Global subscription revenue.

Our strategy remained focussed on serving both South Asian diaspora audiences and local viewers. We continued to build relevance through region-specific content, local-language offerings and platform-led distribution, helping us strengthen our connection beyond the core diaspora audience.

BUSINESS SEGMENT REVIEW

BROADCAST (INTERNATIONAL)

Across global markets, we took Indian stories to more screens, strengthening reach, relevance and monetisation across linear, FAST, digital and on-ground touchpoints.

Expanding our global footprint

We strengthened distribution through renewals and expansion across priority international markets. Our presence across FAST (Free Ad-Supported Streaming Television), AVOD (Advertising Video on Demand) and digital ecosystems also scaled meaningfully, helping us reach newer audiences and create additional monetisable inventory.

The year also saw us expand into new language markets through localised content strategies and sharper platform-led distribution. These launches helped extend Indian storytelling to both diaspora and local audiences in more culturally-relevant ways.

BUSINESS SEGMENT REVIEW

STUDIOS

Across theatres, platforms and markets, we strengthened Zee Studios as 'Z's integrated film vertical through a wider multilingual slate, stronger distribution capabilities and cross-platform monetisation.

[FY26 performance overview](#)

FY26 was a year of wider scale and creative depth for our film production and distribution arm, Zee Studios. The business released more than 30 films and shows across seven languages, reflecting our continued focus on differentiated cinema across theatrical and digital platforms.

With a portfolio of over 150 films, we continued to build on our position as one of India's leading integrated studios. Our model brings together content creation, production partnerships, distribution and platform-led monetisation, helping us maximise the value of film IP across cinemas, television, ZEE5 and music.

[Expanding reach across markets](#)

During the year, we released over 35 film titles across languages in cinemas globally. This expanded our theatrical footprint and helped Indian stories travel to wider audiences, while creating additional opportunities for discovery, distribution and monetisation.

Our multilingual slate remained central to this approach. By backing stories across Hindi and regional cinema, we continued to participate in India's diverse film economy while strengthening 'Z's long-term content library.

[Recognition and creative impact](#)

Films associated with Zee Studios won six National Awards across Hindi and regional cinema, across categories including Best Feature Film, acting, dialogues, debut direction, children's film and Best Punjabi Film.

The year also saw Zee Studios-backed Dashavatar become the first Marathi film to enter the Oscar contention list for the 98th Academy Awards, reflecting the growing potential of rooted regional stories to travel beyond their primary markets.

FY26 was a year of continued scale for Zee Music Company (ZMC). With a catalogue spanning 22 Indian languages across film and independent music, the business consolidated its position as one of India's premier music labels.

The year reflected the strength of our calibrated approach to content acquisition and catalogue building. By staying selective on rights and focussed on high-engagement content, we continued to balance reach, monetisation and cost discipline in a competitive music market.

BUSINESS SEGMENT REVIEW

MUSIC

We strengthened Zee Music Company's role as a high-scale music engine within 'Z's content ecosystem, combining film music, independent releases, regional depth and cross-platform amplification.

[Building breadth across languages](#)

We continued to deepen our language-led catalogue during the year. Hindi and Punjabi remained important release pools, while Bhojpuri, Marathi, Telugu, Bengali, Tamil and other languages added breadth to the slate. This diversified approach strengthens our relevance beyond national film music and supports deeper reach into markets where music discovery is increasingly local, digital and social-first.

[Growing film and independent music together](#)

Film music remained a core strength for us, supported by the cultural pull of cinema and 'Z's wider content ecosystem. We continued to benefit from soundtrack-led music IP, with songs travelling across films, digital platforms, social media and other audience touchpoints.

Alongside film music, we continued to strengthen our independent and non-film music pipeline. This supports a wider content mix and helps us build long-term IP beyond traditional film soundtracks, while staying aligned with changing listener behaviour and artist-led discovery.

Expanding reach and monetisation

Our monetisation approach remained anchored in quality listening, distribution scale and strategic partnerships. In India's largely ad-led music market, especially across Tier 2 and Tier 3 markets, deeper engagement directly supports monetisation potential.

We also benefit from 'Z's integrated ecosystem. Music discovery is amplified through television, films, digital platforms, social media, live

experiences and cultural moments, helping tracks travel beyond audio platforms and creating multiple opportunities for promotion and monetisation.

Looking ahead, we will deepen our presence in high-consumption music markets such as Punjabi, Telugu and Haryanvi, while expanding the reach of our catalogue among the global Indian diaspora. This will help us explore under-monetised international opportunities and build long-term value from our music IP.

[FY26 performance overview](#)

FY26 was a year in which we strengthened Sports as a strategic business vertical within 'Z's content and technology ecosystem. We continued to build a structured portfolio across linear television and ZEE5, with a focus on scalable properties, disciplined investments and deeper audience engagement.

During the year, we broadcast and streamed 12+ sports tournaments and leagues.

ILT20 remained a key anchor in this journey. The successful execution of the tournament reinforced our ability to manage premium sports properties across television and digital platforms, supported by regional outreach, strong distribution and fan engagement.

Season 4 further strengthened the sports experience on ZEE5 through real-time gamification and interactive engagement centred on live cricket.

BUSINESS SEGMENT REVIEW

SPORTS

Across screens and stadiums, we expanded our sports play through scalable properties, regional formats, digital-first experiences and fan-led engagement.

[Building a multi-sport portfolio](#)

Our sports strategy is not limited to cricket. During FY26, we expanded our presence across regional and emerging sports to understand audience appetite, build local relevance and create new monetisation opportunities.

These properties helped us build a portfolio where India and Bharat meet. Our focus remains on established formats, emerging categories and deeply rooted sports such as kabaddi, kushti and kho-kho, while retaining a disciplined and frugal investment approach.

Technology-led fan experience

Live sports are defined by immediacy. During the year, we continued to sharpen the digital experience for fans, with ZEE5 serving as a key destination for sports.

We strengthened real-time engagement through Predict & Win, interactive widgets, text commentary, like-and-share features and sport-specific emoticons. These formats helped move sports consumption beyond passive viewing into active participation.

We also continued to strengthen live streaming quality through ultra-low latency delivery and a single-stream architecture with multi-audio capability. This allowed viewers to choose commentary in the language of their preference.

To keep fans closer to the action, we used AI-powered workflows to make key moments and video-on-demand clips available within minutes. This helped fans relive match-defining moments faster and supported timely amplification across marketing and social touchpoints.

UP-KABADDI LEAGUE

Built deeper connect with a strong regional and indigenous sports audience

BASEBALL UNITED

Expanding reach and engagement

Our sports business is being built with an omni-channel mindset, using linear television, ZEE5, digital touchpoints and on-ground engagement to widen access and deepen audience participation.

Regional properties such as UPKL and Bengal Super League helped us build local connect, while emerging sports properties allowed us to introduce new formats to audiences.

We also see non-live sports content as an important engagement layer. By building conversations around sports, fitness and local talent, we aim to keep audiences connected beyond match day and strengthen the role of sports in everyday culture.

ZEE LIVE

We are bringing 'Z's storytelling closer to audiences by transforming content, culture and communities into shared live experiences.

[FY26 performance overview](#)

FY26 marked continued progress in strengthening Zee Live's presence across the live entertainment value chain. The business brought together content development, event execution, audience engagement, digital amplification and monetisation, supported by 'Z's wider broadcast, OTT and digital reach.

[Building a distinctive live IP portfolio](#)

During the year, Zee Live continued to develop and scale intellectual properties across music, devotional content, comedy, cultural events, spoken word, poetry and regional entertainment. This diversified portfolio enables us to address varied audience interests while building properties that can travel across locations and formats.

[Scaling through partnerships and amplification](#)

Zee Live continued to collaborate with talent, event promoters and content creators to conceptualise and deliver large-scale properties across markets. These partnerships combine specialist capabilities with 'Z's strength in content and distribution.

Our television, OTT and digital platforms also provide avenues to amplify these properties beyond the event itself, widening their reach and extending audience engagement.

[Creating experiences for brands](#)

Alongside consumer-facing properties, Zee Live continued to develop integrated experiential solutions for brands. These include customised on-ground IPs and large-format events designed to enable direct audience interaction and strengthen brand engagement.

SYNDICATION

Through focussed licensing and wider market access, **‘Z’** extended the commercial life of its content library across platforms, territories and emerging formats.

Sharpening monetisation and deal strategy

Our syndication approach became more selective and value-led. We focussed on wider monetisation of the library, thereby preserving flexibility for multiple licensing opportunities across platforms and markets.

Vertical content syndication emerged as a new category. As consumption habits move towards short-form, mobile-first and platform-native formats, this has created another route to monetise ‘Z’s content beyond traditional broadcast and OTT licensing.

Building new growth platforms

We initiated steps to create new growth platforms within the syndication business. The Multi-Channel Network initiative was launched to support wider content monetisation across digital platforms and creator-led ecosystems.

FY26 performance overview

FY26 was a year of disciplined growth for our syndication business, with a sharper focus on market expansion, client acquisition and value-led content licensing.

During the year, Germany, Romania and LATAM were added as new markets, strengthening the global reach of our syndication portfolio.

Strengthening industry engagement

Participation in global content markets continued to play an important role in building relationships, identifying new buyers and expanding the syndication pipeline. During the year, the business attended nine key industry events across major content markets, including MIP Africa, MIPCOM, DICM, MIP Cancun, Asia TV Forum & Market, Content Americas, NATPE Global and World Content Market.

ESG AT

At **'Z'**, ESG informs the way we think about growth, operations, and the impact we create. As a Company built on the power of storytelling, we recognise our ability to influence perceptions and conversations, and seek to do so thoughtfully and responsibly. This perspective guides our efforts to create long-term value while remaining mindful of the communities and environments connected to our business.

Alignment with Global Standards and Frameworks

'Z's ESG framework is anchored in globally accepted standards and evolving best practices, reflecting the organisation's commitment to transparent disclosures, credible reporting and responsible business conduct. It provides a structured foundation to align purpose with performance and creativity with accountability.

S&P Global

'Z' participated in DJSI Corporate Sustainability Assessment (CSA) and achieved a global ESG score of 51 out of 100.

ESG Governance: Strengthening trust through structured oversight

At **'Z'**, ESG governance is anchored through a multi-layered oversight and execution oversight framework that reinforces accountability, transparency, and long-term value creation.

Board-level risk oversight and ERM integration

ESG monitoring is presently classified as a 'low risk' within the Company's annual Enterprise Risk Management (ERM) framework. This risk is subject to a systematic review and assessment on an annual basis by the Risk Management Committee (RMC), which includes one independent director, one non-independent director of the Board and the CRO.

Management-level oversight

The ESG function at **'Z'** is led by the Head of Investor Relations, who reports directly to the Chief Executive Officer (CEO). This ensures ESG considerations are closely integrated into strategic decision-making and receive consistent executive-level oversight.

Cross-functional integration and collaboration

ESG lead who reports to the Head Investor Relations plays a pivotal role in driving the sustainability agenda, with a strong emphasis on proactive identification, assessment, and management of climate-related and broader ESG risks. Through cross-functional collaboration, the ESG function drives strategic initiatives, performance monitoring, and sustainability focussed decision-making aligned with evolving regulations and stakeholder expectations.

Addressing climate change

Our Proactive Approach to Building Climate Resilience through Climate Risk Assessment (CRA).

‘Z’ recognises that climate change presents both physical and transition risks and opportunities that may influence its operations, value chain and long-term business resilience. During the year, the Company undertook a CRA covering its own operations and material upstream value chain activities, to identify, assess and prioritise climate-related risks and opportunities. The assessment has been prepared with reference to the disclosure framework of International Financial Reporting Standards (IFRS) S2 Climate-related Disclosures and the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD).

The Board of Directors holds ultimate responsibility for overseeing climate-related risks and opportunities, with such matters considered as part of the Company’s broader risk management and governance processes. The outcomes of the Climate Risk Assessment will be presented to the relevant governance forum for review and approval, following which identified climate-related risks and opportunities will be considered within the enterprise risk management process. Management responsibility for climate-related matters is assigned within the Company’s management structure and is supported by the ESG function, which is responsible for coordinating the assessment, maintaining the underlying data, monitoring emerging regulatory developments and reporting outcomes to the relevant governance forum.

The assessment covered ‘Z’s own operations, comprising its operational locations across India and its international offices, together with material upstream value chain activities, comprising top two distribution partners and five largest revenue generating production houses. Physical climate risks assessed included both acute risks such as heatwaves, cyclones, flooding and extreme rainfall, and chronic risks, including rising mean temperatures and water stress. Transition risks comprised market risk in the form of increased cost of utilities, technology risk arising from the transition to lower-emissions technology, regulatory risk relating to carbon pricing mechanisms, and reputational risk associated with ESG brand perception and advertiser trust. The assessment also evaluated one transition opportunity, namely adoption of renewable energy, which reduces exposure to grid tariff escalation and potential carbon pricing while lowering Scope 2 emissions in support of the Company’s decarbonisation pathway.

For the purpose of the assessment, short, medium and long term have been defined as 2030, 2040 and 2050 respectively, aligned to the Company’s business planning and capital allocation horizons. Physical risks were assessed under the Intergovernmental Panel on Climate Change (IPCC) Shared Socioeconomic Pathways SSP1-2.6 and SSP5-8.5 using a likelihood and consequence risk matrix. Likelihood was determined using recognised climate intelligence tools, including ThinkHazard, OS-Climate and the World Wide Fund (WWF) Water Risk Filter, while consequence was assessed using weighted financial, operational, business continuity and asset-related impact parameters. Transition risks were assessed with reference to Network for Greening the Financial System (NGFS) Net Zero 2050 NGFS (2 degrees or below scenarios) and NGFS Current Policies scenarios (Above 2 degrees scenarios), supported by financial impact assessment, response cost estimation and mitigation planning. This enabled the development of location-specific climate risk profiles and the prioritisation of material climate-related risks. The assessment relies in part on publicly available hazard datasets, which carry inherent limitations of spatial resolution and vintage; the Company intends to refine the underlying data in subsequent assessment cycles.

Climate related scenario analysis is used to test how climate-related risks may evolve under differing climate futures. SSP1-2.6 represents a lower-emissions pathway in which transition risks are more pronounced, while SSP5-8.5 represents a higher-emissions pathway in which physical risks intensify. Physical risks were assessed across ‘Z’s operational locations and material upstream value chain activities under both pathways over the short, medium and long term, covering acute hazards such as heatwaves, cyclones, flooding and extreme rainfall, and chronic hazards including rising mean temperatures and water stress, with exposure rated on a likelihood and consequence basis to develop location-specific climate risk profiles. The assessment of ‘Z’s transition risks was conducted under the relevant NGFS transition scenarios, including potential impacts from energy costs, carbon pricing, regulatory developments and technology shifts. The analysis also considered renewable energy adoption as an opportunity to reduce emissions and exposure to transition risks.

The detailed Climate Risk Assessment, including site-specific results, financial quantification and scenario analysis, is currently undergoing internal review and governance approval. Accordingly, this Annual Report presents a high-level summary of the ongoing assessment. Subject to completion of the review and approval process, ‘Z’ intends to enhance its climate-related disclosures in future reporting cycles, including additional information on governance, climate risk management, scenario analysis and assessment outcomes.

Adaptation and mitigation measures for physical and transition risk

‘Z’ is strengthening its resilience to climate-related risks through a balanced approach encompassing decarbonisation, energy efficiency, climate-resilient infrastructure and robust business continuity planning. The Company continues to enhance the efficiency of its operations through equipment upgrades, optimisation of critical systems and evaluation of renewable energy opportunities, while integrating climate-related considerations into its enterprise risk management processes. Regular monitoring of environmental performance, greenhouse gas emissions and evolving regulatory requirements will support continuous improvement and informed decision-making, reinforcing ‘Z’s long-term operational resilience and sustainability objectives.

Metrics and targets

‘Z’ monitors Green House Gas (GHG) emissions in accordance with internationally recognised standards to ensure accurate tracking and reporting.

Key metric	Units	FY26	FY25	FY24
Direct GHG emission (Scope 1)	MTCO ₂ e	6,724.2	6,065.1	5,929.5
Indirect GHG emission (Scope 2)	MTCO ₂ e	7,890.8	8,340.6	8,722.2
Scope 3	MTCO ₂ e	57,184.7	55,102.9	60,358.0
Total	MTCO ₂ e	71,799.7	69,508.6	75,009.7

Total emissions increased by 3.3% over the previous year but remained 4.3% below FY24 levels. Scope 1 emissions rose by 10.9%, driven primarily by fugitive emissions from the scheduled refilling of CO₂-based fire extinguishers, and by higher diesel consumption in Diesel Generator (DG) sets used as an alternative to the gas-based power plant during the March 2026 conflict period. Scope 2 emissions declined by 5.4%, reflecting energy efficiency measures and improved grid emission factors. Scope 3 emissions represent approximately 80% of the Company’s total footprint, reflecting the content production and distribution value chain. Emissions intensity for the year was 8.9 tCO₂e per ₹ crore of revenue.

The Company has not yet established quantified greenhouse gas reduction targets. Following completion of the Climate Risk Assessment and the associated baseline review, ‘Z’ intends to develop emission reduction targets covering Scope 1 and Scope 2 emissions, together with a defined approach to material Scope 3 categories, for consideration by the Board during FY27. The Company does not currently rely on carbon credits or offsets in managing its emissions. In the interim, emissions intensity per unit of revenue and renewable electricity share are monitored as internal performance measures.

Digitising ESG intelligence and governance

To enable structured ESG data management, analysis, and reporting, we leverage a customised, centralised web-based platform. It captures ESG data across key parameters, including carbon emissions, waste, water, diversity and inclusion (DEI), training, and governance, and is supported by robust validation protocols and detailed audit trails, ensuring high standards of data quality and transparency.

The leadership team regularly reviews the ESG data to derive insights, track performance trends, and guide strategic decision-making, enabling proactive risk and opportunities management and continuous improvement. While ESG is integrated at the functional level, enterprise-wide ESG goals and targets are yet to be formalised.

Carbon footprint management

Understanding our carbon footprint is a critical step towards managing GHG emissions and identifying opportunities for decarbonisation. We follow consistent emissions accounting practices to enhance transparency and support informed decision-making, building a foundation for long-term environmental resilience.

Mapping our GHG emissions

To better understand carbon emissions across our operations and value chain, we engaged with internal and external stakeholders to develop a comprehensive greenhouse gas (GHG) inventory covering Scope 1, 2, and 3.

Source of our GHG emissions

Scope 1 Emissions: Direct emissions from sources such as fuel used in generators and company vehicles, natural gas consumption, refilling of fire extinguishers and cooling gases.

Scope 2 Emissions: Indirect emissions arising from electricity purchase and use, including grid electricity and DG set unit consumption.

Scope 3 Emissions: Other indirect emissions from activities such as content production-related purchases, services, capital goods procurement, upstream and downstream leased assets, employee commute, business travel, waste management, and well-to-tank emissions from energy use.

Measuring and reporting GHG emissions

Methods and Data Sources: Financial records, operational data, travel logs, and employee surveys

Sources of Emission Factors Applied: Department for Environment, Food and Rural Affairs (DEFRA) 2025, International Energy Agency (IEA), Supply Chain Greenhouse Gas Emission Factors, 2022 and Central Electricity Authority (CEA)

Reporting Framework: The GHG inventory has been prepared in accordance with the Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard, developed by the World Business Council for Sustainable Development (WBCSD) and the World Resources Institute (WRI).

Energy management

Recognising the opportunities that efficient energy management presents, 'Z' undertook Energy audit across its pan-India locations. The insights from the energy audit will be used by process owners to prioritise energy conservation opportunities in the forthcoming year.

Water and wastewater management

Our approach

Water is primarily used across our facilities for drinking and other domestic purposes. Recognising water as a valuable natural resource, we focus on responsible consumption and conservation through efficient water management practices across our operations.

We meet our water requirements through external sources, including municipal supply for domestic use, bottled water for drinking, and groundwater sourced via third-party providers. Our total water consumption is aligned with overall withdrawal volumes.

Waste water treatment and reuse

Wastewater generated from routine office activities is treated by building owners at our leased facilities using treatment systems. At most of our locations, this treated water is reused for non-potable applications such as flushing and gardening, supporting efficient water use.

Water consumption

Water indicators	FY24	FY25	FY26
Total water consumption (ML)	136.4	146.9	159.7
Water consumption at offices located in water-stress areas (KL)	22,551.1	10,037.5	12,756.0
Water intensity per employees (KL)	32.2	40.9	53.1

Waste management

Our approach

We seek to minimise the environmental impact of waste generated across our operations through responsible handling, segregation, recycling and disposal practices. A structured waste management process governs the management of all waste streams, ensures compliance with applicable regulations. All waste streams are measured and documented prior to disposal. A regularly updated waste logbook is maintained to ensure regulatory compliance and audit-readiness.

HAZARDOUS WASTE

E-waste, used oil,
and battery waste

- Centrally managed and disposed of by the commercial team through agencies authorised by the Pollution Control Board
- Regulatory compliances are adhered to during the disposal of hazardous waste, and records are duly maintained in the prescribed formats

NON- HAZARDOUS WASTE

Dry waste, wet waste, food waste, plastic waste, paper waste, metal waste

- Managed in accordance with defined waste management protocols
- Segregated at source into wet and dry streams to enable efficient handling and disposal
- Dry waste is channelled to authorised recyclers to minimise landfill disposal
- Wet waste is processed at facilities designated by building management

Waste diverted from landfill (In MT)

Waste indicators	FY24	FY25	FY26
Total hazardous waste generated	17.2	4.0	9.3
Hazardous waste diverted	17.2	4.0	9.3

SOCIAL (EMPLOYEES)

FY26 was a defining year in ‘Z’s transformation journey as the Company continued to strengthen its position as a future-ready, omni-channel media and entertainment enterprise. Against a backdrop of organisational simplification, evolving business priorities, emerging growth opportunities and accelerated technology adoption, our people remained at the heart of progress. We focussed on building an agile, future-ready workforce equipped with the skills, mindset and capabilities needed to embrace change, drive innovation and deliver sustainable business outcomes in the broader media and entertainment ecosystem.

CORE PRIORITIES OF OUR PEOPLE STRATEGY

Reinforcing a culture rooted in inclusion, transparency and integrity

Enabling talent through internal talent mobility and developing leaders from within

Building future-ready capabilities, including digital upskilling

Strengthening leadership depth and high-performance work culture

Fostering employee engagement and holistic wellbeing

Diversity, equity, and inclusion (DEI)

BUILDING FAIR, RESPECTFUL AND INCLUSIVE WORKPLACES

At 'Z', diversity is not a metric; it is a catalyst for better thinking, stronger collaboration and impactful business and people outcomes. We value the diversity of thought, experience, background, and perspectives that each individual brings, enhancing innovation, decision-making, and business performance.

As a content and technology organisation, we have a geographically diverse workforce comprising talent from different regions, cultures, and backgrounds across India and international markets, fostering cross-cultural exchange and enriching our ways of working.

Equal opportunity and merit-led culture

Diversity, Equity and Inclusion (DEI) shape how we build our workforce and culture, ensuring opportunity is not defined by identity or background but by merit and potential. Every employee, including persons with disabilities, is enabled through equal opportunities to learn, progress and grow irrespective of gender, age, disability, ethnicity, region, or other personal characteristics. This commitment ensures inclusive access and support across the workplace, so that every individual is empowered to participate fully and thrive.

The Company follows a merit-based, equal-opportunity approach across the employee lifecycle, including hiring, development, performance management, career progression, and rewards. We are committed to maintaining a workplace free from discrimination, harassment, and bias, where every individual is treated with dignity, fairness, and respect.

Building a safe and respectful workplace

We remain deeply committed to a diverse, inclusive, and discrimination-free workplace. In FY26, we deepened this commitment through POSH (Prevention of Sexual Harassment) awareness and sensitisation programmes. Further, we strengthened gender diversity across the organisation through inclusive hiring practices, leadership opportunities, talent development initiatives, and a safe and supportive work environment.

Talent management

ENABLING GROWTH THROUGH TALENT EXCELLENCE

At ‘Z’, our talent management approach is designed to attract, develop, and retain high-performing talent while providing equitable opportunities for growth and advancement across the employee lifecycle.

Talent outcomes at ‘Z’ are shaped by capability, performance, and potential, supported by robust governance processes that ensure fairness, internal equity, and market competitiveness.

Our talent management strategies

Our talent management model is centred on nurturing employees and empowering them to step into larger, more strategic roles, thereby strengthening organisational capability while fostering a culture of ownership and entrepreneurship.

Build and buy talent model

A balanced approach to strengthen critical capabilities and create sustainable talent pipelines through:

- External hiring of experienced professionals for strategic and specialised roles
- Structured development of future talent through Management Trainee and Apprenticeship programmes

Talent council framework

- A formal Talent Council framework across the organisation enables the identification of high-potential talent, strengthens succession pipelines, and facilitates cross-functional talent discussions
- Insights from these talent reviews informed development planning, support career progression opportunities, and strategic workforce decisions

Internal talent mobility

- A strong focus on Internal Job Posting (IJP) opportunities and talent deployment initiatives encouraged employees to explore new career pathways across businesses and functions
- Several leadership and strategic roles, especially in new emerging business segments were entrusted to internal talent enabling career and leadership progression

Enabling talent through transformation

As we advanced our strategic transformation journey, expanding into new business areas and emerging growth opportunities, we enabled employees to broaden their experiences, take on new responsibilities and contribute to evolving priorities through a strong focus on internal mobility, cross-functional exposure, and new assignments.

It is noteworthy that our workforce demonstrated remarkable adaptability, embracing new ways of working, expanded mandates and evolving organisational structures.

Together, these efforts preserved our institutional knowledge, strengthened the leadership pipeline, accelerated execution and reinforced a culture of learning, ownership and resilience, enabling our people and business to thrive through transformation.

Talent enablement and transformation in FY26

- Internal mobility across functions and businesses
- Exposure to new business models and experiences
- Expanded responsibilities and broader mandates
- Cross-functional collaboration and learning

Business impact

- Seamless business continuity while supporting the Company's strategic priorities
- Stronger leadership pipeline
- Greater agility and organisational resilience

By creating pathways for mobility, learning and ownership, we enabled our people to grow with the business and lead the change.

Learning and development

EQUIPPING EMPLOYEES WITH FUTURE-READY CAPABILITIES

At 'Z', learning is positioned as a critical enabler of business transformation and long-term growth. Our learning and development approach is centred on building future-ready capabilities, strengthening leadership pipelines, and equipping employees with the skills required to thrive in a rapidly evolving media and technology landscape.

During FY26, investments were directed towards strengthening capabilities across leadership, functional, and digital domains. A combination of structured programmes, experiential learning, and self-driven development embedded a culture of continuous upskilling, adaptability, and sustained professional growth.

Digital upskilling

Technology, data and artificial intelligence are redefining the future of Media and Entertainment. In response to this transformation, building AI and digital fluency, closely aligned with business priorities, remained a key strategic focus during the year.

Mandatory learning programmes

We continued to strengthen a culture rooted in ethics, compliance, and accountability through mandatory learning programmes covering key areas, including the Code of Conduct, the Prevention of Sexual Harassment (POSH) Act, the Insider Trading Regulations, and other regulatory and policy requirements.

The launch of generative AI learning journey in FY26

The Generative AI learning journey was one of the most significant capability-building investments of the year, equipping employees across business functions with exposure to practical AI applications, productivity enhancement opportunities and emerging use cases, through structured learning interventions.

401 employees participated and were upskilled on the transformative potential of AI

Alongside these learning interventions, employees continued to access a range of learning and development opportunities covering functional expertise, leadership effectiveness and professional growth, making capability building at 'Z' broad-based and ongoing.

Performance management

FOSTERING ACCOUNTABILITY AND HIGH-PERFORMANCE CULTURE

At 'Z', performance management is a key enabler for delivering business priorities, developing talent and strengthening organisational effectiveness. It aligns individual contributions with strategic priorities, while fostering transparency, fairness and accountability through continuous feedback and objective evaluations.

During FY26, the performance management ecosystem was further enhanced through robust governance, structured talent reviews, and greater focus on goal quality and alignment with business outcomes.

'Z's Performance management framework

- Goal setting
Aligning individual objectives with organisational priorities
- Continuous dialogue
Periodic performance discussions for feedback and course correction
- Annual evaluation
Holistic review of business outcomes achieved, and leadership & behavioural attributes exhibited
- Formal talent council
Facilitates performance differentiation, succession planning, and identification of high-potential talent
Enables objective talent discussions to support informed people and development decisions

Employee engagement

FOSTERING A CONNECTED WORKPLACE

Trust built through
leadership engagement

At 'Z', open communication is a leadership practice essential to building trust and strengthening organisational culture.

Throughout the year, the Samwad sessions, regular business updates, leadership interactions, town halls and communication forums helped strengthen alignment and create a shared understanding of the business priorities, ensuring no employee was left behind in the pace of transformation.

Samwad:
Fostering employee-leadership connect

Samwad, the Company's signature dialogue platform, allowed employees to interact directly with the CEO and Chairman Emeritus through town hall sessions. The employees gained insights into the Company's strategic direction, business priorities and raised matters important to them. The forum created a two-way communication channel that deepened leadership connect and reinforced a culture where every voice carries weight.

Building community, inclusion and belonging

Throughout the year, we continued to create opportunities for employees to connect beyond their day-to-day roles through a range of engagement, sporting, cultural and family-focussed initiatives. These initiatives significantly strengthen employee bonds, enhance workplace inclusion and foster a sense of pride and belonging, enabling employees to feel valued, respected and inspired to contribute their best.

Z United: Our flagship sports engagement platform

Fostered collaboration across employees from various locations, functions and levels through healthy competitions, teamwork and collective achievement.

Family lunches and Founders' Day celebrations

Strengthened workplace bonds and served as reminders of the values and entrepreneurial spirit that continue to shape Z's future.

Cultural celebrations

Independence Day, Diwali, Christmas, Mother's Day, Father's Day and International Men's Day celebrated the cultural diversity of our workplaces.

The employee lens

We continuously listen through diverse touchpoints, including leadership interactions, Samwad forums, manager connect sessions, HR business partner engagements, and structured employee surveys. These mechanisms foster open dialogue, ensuring every voice finds space and meaning.

Health, safety and wellbeing

BECAUSE WELLBEING SHAPES STRONGER FUTURES

Our workforce safety commitment is about ensuring that every employee feels secure, supported and looked after at the workplace. This commitment is embedded across our locations through regular awareness programmes, safety protocols, emergency preparedness initiatives, and workplace safety measures, all of which promote a culture of shared responsibility. There were 8 safety incidents recorded during FY26.

Multi-dimensional wellbeing of our people

We believe that the true strength of an organisation begins with the well-being of its people. Our wellbeing initiatives focus on preventive measures to promote mental, physical, and emotional health through a variety of programmes, supporting our people and their families.

In FY26, Cardiopulmonary Resuscitation (CPR) and emergency response awareness sessions were conducted, helping employees build practical life-saving skills and the confidence to respond effectively during medical emergencies.

SOCIAL (COMMUNITIES)

At 'Z', we believe that lasting change begins when people are empowered with opportunities to learn, thrive and shape their own futures. This belief shapes our CSR efforts to create meaningful impact across education, health, wellness, and sustainable livelihoods. By working closely with communities and NGO partners, we strive to remove barriers, nurture human potential and enable journeys of dignity, resilience and self-reliance that create enduring value for society.

Embodying the spirit of giving, employees across ‘Z’'s twelve offices came together to do something simple but meaningful during Diwali 2025.

In partnership with Goonj, a Non-Governmental Organisation (NGO), colleagues came together to collect stationery and clothing for underserved communities across India. Goonj's grassroots network ensured that every donated item reached those in need. The drive reflected the spirit of compassion and shared responsibility, reinforcing the belief that collective action and empathy can create lasting social impact.

CSR IMPACT STORIES

A journey of resilient transformation under end ultra poverty programme

In Simla village, Masaliya block, a field visit under the End Ultra Poverty programme highlighted Dulari Marandi's inspiring journey. Once engaged in country liquor production, she has transitioned to a successful entrepreneur. Today, she cultivates vegetables on 80 decimals of land, practices poultry farming and grows maize. Her journey strengthens her own financial stability while quietly sparking change, inspiring others to embrace dignified, sustainable livelihoods.

Turning aspirations into achievement through youth skilling programme

Veena Dhruw, age 18 years, grew up in a modest home where hard-work and resource constraints shaped everyday life. With her father working as a carpenter, mother as a tailor, and brother engaged in construction work, she learned early the meaning of perseverance. After completing her higher secondary education, she aspired to build a stable and independent future, yet limited exposure and lack of self-confidence left her uncertain about the road ahead.

Her turning point came through the Youth Skilling programme. In a supportive environment, she gradually picked up essential life skills such as communication, confidence-building, interview preparation, and workplace behaviour. Each session helped her replace doubt with self-belief.

With guidance and placement support, Veena stepped into her first job as a Telecaller at Girja Engineering Works. Earning a monthly salary of ₹11,000, she now carries not only a steady income but also a deep sense of pride, confidence a renewed sense of her own future.

SOCIAL (RESPONSIBLE CONTENT)

Stories have a unique power to shape perceptions, influence conversations and reflect the values of the society. At 'Z', we embrace this intent with responsibility. Beyond compelling plots and memorable characters, our narratives create space for empathy, challenge entrenched biases, and bring complex societal issues to the light. By embedding powerful messages within the stories audiences already love, we transform everyday viewing into an opportunity for reflection and progress. The result is content that not only entertains but leaves a lasting, positive imprint on society, quietly making the world a little better.

Social change through storytelling

CELEBRATING WOMEN WHO OVERCOME SOCIETAL BARRIERS

SHOW: GANGA MAI KI BETIYAAN

Theme: Becoming self-reliant and financially independent, defying traditional societal norms

The show follows Ganga, a woman who picked up a ladle against the deep-rooted societal prejudice. She runs a dhaba in the village to raise her three daughters and support their education, refusing to take help from her estranged husband. Her culinary skills even earn her fame and respect at a renowned Lucknow restaurant. Her daughter Sneha clears UPSC prelims while standing strong through her family's every struggle, and her younger daughter Soni rises to become a kho-kho champion. The story unfolds as a powerful celebration of Ganga's resilience and the transformation of her daughters through education and sports.

SHOW: JAGADHATRI

Theme: Balancing family with resilience and career with strong command at work

Jagadhatrri portrays a fearless woman who balances dual identities as both an undercover cop and a homely girl. She stands firm to shield her sister Tapasya from Rudra, fights to secure Shivay's rightful place as the elder son of the Deshmukh family and unravels the truth about her mother's death, all while taking down criminals without flinching. Her quiet strength at home and authority at work define a compelling portrait of women's empowerment.

SHOW: SAVALYACHI JANU SAVALI

Theme: Body positivity, challenging beauty stereotypes

Savali, mocked for her dark complexion, is unwillingly thrust into a high-pressure modelling contest with no escape, yet turns humiliation into a moment of grace. Drawing on the spiritual imagery of Lord Vitthal and Lord Krishna, she confronts colour bias head-on, delivering a soulful message that redefines beauty: True beauty is not found in skin tone but in the beholder's perception.

**SHOW: DEEP JYOTI**

Theme: Breaking gender stereotypes

Jyoti breaks through scepticism and resistance from fellow drivers to claim her space in a male-dominated rickshaw race. She wins on sheer merit, defying all odds and stereotypes.

When challenged, she asserts with quiet strength that her victory comes from skill and determination, turning challenge into a statement against gender bias and a reminder of women's limitless potential.

RURAL IMPACT STORIES OF BIG DREAMS AND HOPE

SHOW: SARU

Theme: Struggles and aspirations of a village girl to make her community proud by educating herself.

From Khares village in Rajasthan, Saru dares to dream beyond her humble beginnings, aspiring to become a collector. With a strong conviction rooted in self-belief and her mother's and villagers' pride, she moves to Mumbai for higher education. Her journey stands as a powerful reflection of rural dreams rising through courage, perseverance and determination.

**SHOW: LAKSHMI RAAVE MAA INTIKI**

Theme: A rural underdog thriving in an urban set-up, holding cultural pride as her identity

Lakshmi, a gold medallist from Srimukhalingam village, steps into a city university carrying not just ambition but her culture with pride. Bullied for her accent and roots, she remains unfazed. Instead, she turns every encounter into an opportunity to educate the bullies about the richness of indigenous heritage.

STORIES THAT SPREAD AWARENESS AND ACCOUNTABILITY

SHOW: TAARINI

Theme 1: Food Safety Awareness and Consumer Protection

When Sumi Aaji's health deteriorates after consuming adulterated paneer, Taarini and her team are drawn into a disturbing investigation that uncovers far more dangerous than food poisoning. Beneath the surface lies a sinister racket that manufactures synthetic paneer laced with harmful chemicals such as urea. Racing against time, the team exposes the operation, reinforcing the importance of food safety and accountability towards public health.

Theme 2: Cyber safety awareness and digital abuse prevention

When Kavya falls victim to a malicious online hacker who invades her phone and weaponises AI-morphed images to blackmail her, she is left shaken. Standing beside her, Taarini restores hope. With emotional resilience and technical expertise, her team nabs the culprit. Taarini exposes him and powerfully sounds an alarm on cybercrime and the urgent need to resist digital exploitation.

STANDING UP FOR HUMAN DIGNITY

SHOW: TUM SE TUM TAK

Theme: Upholding the human rights of the employees and factory workers

Arya Vardhan, a wealthy businessman, makes an unplanned visit to his factory and is confronted with disturbing lapses in basic empathy and workers deprived of proper breaks. He acts immediately, confronts the manager and reaffirms the significance of empathy, dignity and respect across the social strata. He then directs his secretary, Meera, to ensure that this is never repeated in any of his factories or offices.

SHOW: KAMLI

Theme: Anti-harassment awareness

When Anika faces harassment by a group of boys during a college field trip to Raigad, Kamli refuses to let silence normalise the misconduct. She confronts and condemns them, reminding everyone how such behaviour stands in stark contrast to the values of Raigad, a land remembered for Maratha pride and sacrifice. Through a powerful Powada-style street performance, a moment transforms into a stirring message on respect, accountability, and individual & cultural responsibility.

SHOW: ENNALLO VECHINA HRUDAYAM

Theme: Disability does not define a parent's capability

Bala's story challenges conventional perceptions of disability. As a differently abled father, he assumes the sole responsibility of raising his baby after losing his wife. Though his journey as a single father is laced with imperfections, Bala proves that his ability to nurture and provide for his daughter far outweighs any perceived limitations.

SOCIAL (SUPPLY CHAIN)

The impact of business extends far beyond its own operations. At 'Z', we view our supply chain as a strategic enabler of sustainable growth. By embedding responsible practices, strengthening engagement and fostering shared accountability, we are building a value chain that is resilient and aligned with the emerging landscape.

Responsible supply chain practices

At 'Z', our suppliers are integral to the value we create and experiences we deliver everyday. We strive to build a supply chain that is efficient, responsive, resilient, and enables seamless service delivery, operational excellence, and timely availability of goods and services.

Beyond efficiency and cost optimisation, we recognise that a sustainable supply chain is rooted in trust, transparency and shared accountability. Through open communication and collaborative engagement with suppliers, partners, and business associates, we foster stronger alignment, enhance agility and promote responsible business practices across the value chain.

CODE OF CONDUCT: SETTING THE STANDARD FOR RESPONSIBLE CONDUCT

We drive a responsible supply chain framework through 'Z's Code of Conduct (CoC). It establishes clear expectations on ethical conduct, human rights, environmental responsibility and sound governance, required to be complied by all our suppliers. By aligning suppliers with these principles, we seek to build a supply chain anchored in strong ESG standards, integrity and accountability.

Supplier ESG performance assessment

Responsible supply chains are built through rigorous oversight, and continuous engagement. We regularly review and monitor key performance indicators, including lead time, order accuracy, cost efficiency, and other relevant metrics, to continuously optimise supply chain effectiveness and drive operational excellence. We also identify potential vulnerabilities, such as supply disruptions or force majeure events, and implements proactive mitigation measures. In FY26, 6.91% suppliers were assessed through desk and site-based assessments for environment, social and governance aspects. These suppliers were majorly the production houses from which 'Z' procures content. There were 11 significant (Tier-1) suppliers assessed, representing 3.86% of the total procurement spend.

Z's CoC mandates zero tolerance towards forced labour, child labour, discrimination, and workplace harassment. It further emphasises environmental responsibility, including pollution prevention and biodiversity protection and requires suppliers to uphold strong governance standards, including compliance with anti-corruption, anti-bribery, and conflict of interest policies.

Supplier capability building initiatives in FY26

We are increasing our focus on enhancing ESG awareness and capability across the supply chain ecosystem to take collective action towards building a more sustainable future.

During the year, we conducted awareness sessions and capacity-building workshops for suppliers, customers, and internal stakeholders to strengthen the understanding and encourage wider adoption of ESG principles across the value chain. Additionally, in collaboration with an external expert agency, an interactive workshop on ESG and decarbonisation was conducted for suppliers. The report offered deeper insights into climate-related challenges and opportunities, and actionable strategies to advance decarbonisation efforts and enhance long-term value-chain resilience.

GOVERNANCE

In an industry where credibility, creativity and public trust are closely intertwined, strong governance serves as a strategic enabler of long-term success. At 'Z', ethical decision-making, impartial oversight and responsible business conduct ensure that growth is pursued with integrity and accountability. Our governance structure seeks to strengthen stakeholder confidence while creating lasting value for the business and society.

At 'Z', the Board of Directors (BoD) serves as the apex decision-making body that shapes the Company's strategic direction and oversees matters that influence sustained value creation for the stakeholders and the Company. Our Board comprises a balanced mix of expertise, gender, and generational diversity. The Board is supported by its five committees, with each Director serving as either a chairperson or a member of at least one committee. These committees bring focussed expertise and scrutiny to key business areas, enabling informed decision-making and effective stewardship of the organisation.

The Board is chaired by Mr. R. Gopalan, a Non-Executive Director with over four decades of rich and diverse experience across public administration, finance, governance, and regulatory affairs.

Details of our Board members and their profiles are available on our website: <https://www.zee.com/about-us-leadership/>

Board appointment and approval process

CRITERIA AND PROCESS FOR SELECTION AND APPOINTMENT OF DIRECTORS

We maintain a structured nomination framework aligned with the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, ensuring the Board composition supports effective governance and sustainable value creation.

The Nomination and Remuneration Committee (NRC) periodically evaluates the skills, competencies and experience required to address evolving business priorities, emerging risks and strategic opportunities. Prospective Directors are evaluated on their professional expertise, leadership capabilities, industry knowledge, independence and alignment with the Company's Board diversity and competency framework before being recommended to the Board. Board composition is reviewed regularly to maintain the balance of capabilities and ensure long-term effectiveness in guiding our long-term strategy.

Read more about Directors' Skills Matrix in the Corporate Governance Report on 242

TRANSPARENT APPOINTMENT AND SHAREHOLDER APPROVAL

We follows a transparent appointment process in accordance with the provisions of the Companies Act, 2013, the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('SEBI Listing Regulations'). Following the Board's approval on the NRC's recommendations, each Director's appointment is placed before shareholders through a separate resolution at a general meeting.

To enable informed decision-making, shareholders are provided with the profile and experience on each candidate's qualifications, along with the rationale for the proposed appointment in the explanatory statement accompanying the notice of the general meeting. Independent Directors are appointed for an initial term of three years and may be reappointed for a second term, subject to shareholder approval through a special resolution.

We facilitate broad shareholder participation through remote e-voting and voting at general meetings, while ensuring timely regulatory disclosures to the stock exchanges in accordance with Regulation 30 of the SEBI Listing Regulations. We obtain all requisite consents, declarations, and confirmations from the proposed appointees, including consent to act as Director, declaration of independence (where applicable), and confirmation of non-disqualification, prior to seeking shareholder approval.

Board performance review

The Board, its committees and the Independent Directors undergo an annual performance evaluation through a structured framework aligned with Schedule IV of the Companies Act, 2013 and guidance issued by the ICSI. The assessment reviews Board effectiveness, governance practices, strategic oversight and information flow, supporting continuous improvement in the Board's performance.

Responsible advertising and content governance

At 'Z', responsible advertising is integral to maintaining the integrity of our content, safeguarding trust of our viewers and ensuring regulatory compliance:

In FY26, 'Z' has not incurred any fines, penalties, or warnings related to non-compliance with regulations or voluntary codes concerning product and service information, labelling, or marketing communications.

Tax transparency

At 'Z', we are committed to responsible tax practices and to paying our fair share of direct and indirect taxes in every jurisdiction where we operate. Our approach is guided by integrity, transparency and compliance with applicable tax laws and regulatory requirements.

TAX STRATEGY

Tax is a governance and business-enabling function at 'Z'. As an Indian multinational with operations across multiple geographies, 'Z's tax planning remains efficient and aligned with commercial substance and does not involve artificial arrangements. The objective is to create long-term value while maintaining the trust of our shareholders, investors and other stakeholders.

Tax governance

Our tax policy, approved by the Board of Directors, provides the framework for managing tax matters across the organisation. Our tax positions are supported by robust documentation and well-established compliance procedures. In appropriate circumstances, we seek certainty on inherently uncertain tax positions by obtaining external advice or by seeking advance clearance with the relevant tax authority.

'Z's TAX GOVERNANCE STRUCTURE

- Board of Directors**
Approves tax policy; sets the overarching framework for all tax matters across the jurisdiction.
- Head of Tax**
Leads the internal tax function; identifies, assesses and mitigates tax-related risks.
- External advisors**
Leading consulting firms, including Big 4 firms and senior legal counsel, provide expert opinions on tax-related matters.

'Z' maintains a zero-tolerance approach to non-compliance and is fully transparent in its tax affairs to date.

Dual-level transfer pricing oversight

'Z' follows strong transfer pricing policies across intra-group transactions, with two levels of oversight:

LEVEL 1: AUDIT COMMITTEE REVIEW

All intra-group transactions require prior approval from the Audit Committee, based on an arm's-length assessment, before execution

LEVEL 2: ANNUAL COMPLIANCE AND REGULATORY DOCUMENTATION

Annual transfer pricing compliance and documentation in line with Indian regulatory requirements, backed by detailed FAR (Functions, Assets, and Risks) analysis.

'Z' upholds the highest standards of tax integrity and compliance, ensuring adherence to applicable tax laws and regulations across all jurisdictions in which it operates.

Tax jurisdictions

'Z' operates across multiple tax jurisdictions and has reported on each of these in its consolidated statement in the Annual Report, disclosing primary business activities, employee count, revenue, profit (loss) before tax, income tax accrued (current year), and income tax paid.

Data privacy and cybersecurity

As digital engagement around content consumption and customer experience increases, safeguarding personal data and ensuring platform security remain key priorities at 'Z'. Our approach to cybersecurity is designed not only to prevent threats, but also to build trust through transparent governance, disciplined processes and continuous vigilance across all digital touchpoints.

OVERSIGHT AND ACCOUNTABILITY FRAMEWORK

Security and privacy responsibilities are embedded across leadership layers to ensure both strategic direction and operational execution remain aligned.

Governance forum

- A dedicated Information Security and Privacy Steering Committee (ISPSC) holds clear responsibility for overseeing information security matters

Role of the Chief Information Officer (CIO)

- Oversees risk management, implements cybersecurity policies, coordinates incident response, and drives compliance with relevant regulations
- A dedicated team responsible for privacy issues operates under the CIO
- Leads employee awareness programmes to cultivate a strong security culture

SECURITY FRAMEWORK: STANDARDS, CONTROLS AND CONTINUOUS VALIDATION

Our cybersecurity posture is built on internationally recognised standards and practices to continuously enhance our security posture, safeguard critical data, and maintain stakeholder trust.

Personal Data Incident Management policy

A well-documented Personal Data Incident Management policy reinforces a zero-tolerance approach to data breaches. The policy also incorporates disciplinary provisions to address instances of non-compliance. To reinforce accountability and maintain alignment with privacy obligations, independent third-party audits are conducted periodically to validate compliance with internal policies and external regulatory expectations.

Renewal of ISO/IEC 27001:2022 certification

In FY26, we renewed our ISO/IEC 27001:2022 certification, confirming the maturity of the Information Security Management System and alignment with global benchmarks.

Privacy impact assessments

Every new digital and linear initiative that involves the processing of personal data of 'Z's users, customers and employees are subject to privacy impact assessments conducted by the internal privacy team.

CYBER RISK PREPAREDNESS AND PROTECTION MECHANISMS

As cyber threats evolve in complexity and scale, the organisation maintains comprehensive safeguards to protect its digital infrastructure and ensure business continuity.

Business Continuity Management (BCM)

We have established business continuity processes to ensure operational resilience during potential disruptions or disasters. BCM and disaster recovery plans are periodically reviewed and updated to enhance response capabilities and resource readiness. We maintain clear communication with public safety services to support timely and effective emergency response.

Cyber insurance coverage

'Z' has secured cyber insurance coverage that provides a financial resilience mechanism against unexpected cyber incidents such as data breaches, ransomware attacks, and other malicious threats, helping to minimise potential impact and ensure business continuity.

Employee awareness and training

People remain the first line of defence in the organisation's cybersecurity ecosystem. Our training and awareness initiatives ensure that all personnel, including employees and contractors, stay informed and equipped to respond to cyber risks effectively.

CHILD PRIVACY AND SAFETY

'Z' adopts a precautionary approach to child privacy and safety, recognising its heightened responsibility associated with engaging younger audiences. As our platforms are primarily intended for audiences aged 18 and above, we do not intentionally collect or process personal information from children. However, in cases where children are involved in the company-led contests, campaigns, or other activities, due diligence is exercised in accordance with applicable privacy laws, including obtaining verified parental consent, when required, in line with relevant laws.

ZEE5, our digital platform, takes stringent measures to protect younger audiences:

All adult-rated content is securely gated behind a registration or subscription wall, limiting inadvertent exposure

Age-appropriate warning and disclaimers accompany content intended for viewers under 13 or 16 years.

A dedicated child protection policy, developed in collaboration with the legal team, governs content ratings and gated experiences.

Older content libraries undergo ongoing reviews to ensure compliance with age-appropriate standards.

Enhanced parental control features were rolled out in FY26 alongside expanded children's content.

The platform strictly adheres to all Ministry of Information and Broadcasting (MIB) advisories on content classification to promote responsible and ethical broadcasting.

MANAGEMENT DISCUSSION & ANALYSIS

ECONOMIC OVERVIEW

Global Economy

The global economy remained broadly stable yet subdued in 2025. Among major economies, the United States grew by 2.1%, the Euro area by 1.4% and Japan by 1.2%. Emerging markets fared somewhat better with a growth of 4.4%. India, on the other hand, stood out with a GDP growth of 7.6%, driven by strong domestic demand and steady investment activity. There was some relief too, with a decline in global inflation to 4.1%, which reflects gradual reduction in price pressures across several economies.

Global growth remained resilient despite a negative turn in the geopolitical outlook with the escalating Russia-Ukraine war and the West Asia conflict that continued to disrupt energy markets, shipping routes and supply chains. Inflationary pressure and uncertain trade flows, particularly for import-dependent economies impacted global GDP growth that slowed to 3.1%.

Global growth is expected to remain steady over the next two years, largely due to investments made towards technology adoption, particularly artificial intelligence, which has contributed to enhanced productivity. Simultaneously, trade frictions, policy uncertainty and geopolitical developments may continue to impact overall sentiment and keep the near-term outlook somewhat cautious.

INDIAN ECONOMY

According to the National Statistical Office (NSO), India recorded real GDP growth of 7.6% in FY26, making it the fastest-growing major economy globally. Strong domestic consumption and sustained investment demand continue to drive this growth. Looking ahead, the IMF's World Economic Outlook update of January 2026, projects India's economy to expand at a robust 6.4–6.5% annually over the next five years, which means India may well retain its position as the fastest-growing major economy in the medium term. Key contributors to this growth momentum are private consumption, improving rural activity, and continued urban spending. This sustained growth trajectory is expected to propel India to become the world's third-largest economy at market exchange rates by FY30, surpassing Japan around FY27 and Germany by FY30.

India's nominal GDP is estimated to touch US\$ 4.5 trillion in FY27, accounting for approximately 3.6% of global GDP. In purchasing power parity (PPP) terms, India is already the third-largest economy, with GDP estimated at PPP US\$ 19.1 trillion in 2026.

This economic momentum augurs well for the media and entertainment industry as increased employment activity and improved household incomes are key drivers of discretionary spend across digital platforms and entertainment services. Looking ahead, consumer-led sectors are supported with inflation under check and improved purchasing power. Consequently, audience engagement across television, digital platforms, and other entertainment formats is projected to remain healthy, subject to the broader pace of economic activity and consumer sentiment.

INDIAN MEDIA AND ENTERTAINMENT INDUSTRY (M&E)

The Indian media and entertainment (M&E) sector expanded from ₹2.55 trillion to ₹2.78 trillion (US\$ 32 billion) in 2025, registering a growth rate of 9.1%, as per the EY–FICCI report. This performance outpaced India’s nominal GDP per capita growth of 7.7%, marking a rebound after two comparatively

slower years for this sector. Setting aside the negative impact of the four-month ban on money gaming on online gaming and video games, the core industry segments continued to record growth, supported primarily by advertising, live events, and digital platforms. The M&E sector currently contributes approximately 0.8% to India’s GDP and supports an estimated 2.75 million direct jobs and over 10 million indirect livelihoods, underlining its economic and employment significance.

Growth in Advertising

Advertising contributed majorly to industry expansion during the year. Total advertising revenues grew 13.5% to ₹1.5 trillion, demonstrating the continued significance of media platforms for brand communication. Digital media accounted for 63% of total advertising revenues, reinforcing the gradual shift in advertiser preference towards measurable and targeted formats. This shift mirrors changing media habits of consumers, increased e-commerce penetration, and a growing reliance on digital channels for customer acquisition and engagement across sectors.

Within digital advertising, revenues surged 26% to ₹947 billion, driven by broad-based participation from large enterprises as well as over one million small and medium enterprises (SME) and long tail advertisers, which together contributed ₹363 billion. E-commerce and point of sale advertising too grew by 50% to ₹220 billion, approaching nearly 85% of television advertising revenues. Advertising on Connected TVs also gained from ₹69 billion in 2024 to ₹99 billion in 2025, supported by a 35% rise in subscriptions, and providing advertisers access to higher income, addressable audiences within household viewing environments.

TV's Next chapter

As per the EY FICCI report, Television continued to be the most extensive reach medium in India, reaching an estimated 745 million individuals every week. However, the segment faced monetisation pressures, with linear TV advertising revenues declining 10.3%, reflecting lower advertising volumes and a 3% reduction in advertiser participation as certain categories reallocated spends towards digital formats. Subscription revenues also declined 8%, primarily due to the loss of 11 million Pay TV households, which was partially offset by growth in Free TV and Connected TV users. Connected TVs, whose revenues are reported under digital media, increased its reach to approximately 40 million weekly active homes, compared with 30 million in 2024, highlighting the ongoing convergence between television and digital consumption.

Subscription driven segments exhibited a mixed trend in 2025. While the decline of Pay TV households and the four-month temporary ban on money gaming from August 2025, impacted overall subscription revenues, digital subscription revenues demonstrated a different trajectory, increasing by 60% to ₹163 billion. Paid video subscriptions rose to 216 million across 143 million households, driven by premium sports and film content being offered behind paywalls. Paid music subscriptions also grew 37% to 14.4 million when platforms limited free access. News subscriptions, however, remained relatively limited at around 4 million, which reflects the continued availability of free content in this space.

Content Segments

The music industry reported revenue growth of 10%, driven by live events, improved compliance related to publishing revenues, and diversification by music labels into events, talent management, and branded content, resulting in a 26% increase in other income. The film segment achieved landmark revenues of ₹205 billion, its highest yet, with over 1,900 theatrical releases and a 14% rise in theatrical revenues, primarily driven by higher ticket prices. Digital and satellite rights values declined as buyers moderated acquisition strategies and aligned valuations more closely with theatrical performance. Live events recorded the most significant expansion, with the organised segment growing 44%, driven primarily by increased spending on ticketed entertainment, personal celebrations, government events, and large scale religious gatherings, including the Maha Kumbh Mela.

The Indian M&E sector is poised to grow steadily at a CAGR of 6% to reach ₹3.3 trillion (US\$ 37.9 billion) by 2028, majorly driven by digital media, live events, filmed entertainment, music, automation and VFX. Given the shift to digital formats, however, the Industry would need to find better monetisation opportunities for Linear TV, which could prove a challenge.

TELEVISION (TV)

Television viewership remains the dominant medium within the media and entertainment sector. According to BARC India, in FY26, approximately 543 million Indians watched linear television on a daily basis, with an average viewing time of 3 hours and 44 minutes per day, rising to nearly 4 hours in urban India. Digital video platforms, on the other hand, averaged around 2 hours of daily viewing, as per the Ormax OTT Audience Report 2025.

Notably, the time spent on linear television has remained largely stable over the years, although its overall reach has marginally declined, largely due to changes in industry dynamics. For instance, with the subscriber churn post implementation of the New Tariff Order (NTO) and the increasing reach of connected TVs and digital platforms, the number of daily television viewing sessions per household has reduced slightly, but the average duration of each viewing session has increased. This trend reflects a deeper engagement among the remaining viewers and television's continued relevance.

Linear television in India continues to command unparalleled reach. It reaches an estimated 831 million viewers every month, significantly outpacing YouTube's viewership of approximately 491 million people per month. Even globally, India is the second-largest market for linear television, with about 210 million television households, accounting for nearly 12% of the world's total television household base.

Linear TV revenues declined by 9% this year, for the fourth consecutive year, as per EY FICCI. This dip was due to a 10% decrease in linear TV ad revenue and an 8% drop in linear TV subscription revenues. Connected TV ad revenue, on the other hand, grew by 42%, although the combined ad revenue of linear TV and connected TV remained stable. These trends indicate an evolving market with a shift in both viewership patterns and advertising preferences.

TELEVISION CONSUMPTION

Audiences prefer to watch General Entertainment Channels (GEC) and movies, which continue to dominate their attention, accounting for over 75% of total viewership. This viewership pattern has remained consistent over the years with movies being the most popular television programming genre, that attracted over 750 million viewers in March 2026. After movies, audiences preferred drama, which was viewed by more than 730 million people during the same period. Comedy and mythological drama genres also recorded

substantial audiences, with comedies reaching over 500 million viewers and mythological content attracting more than 400 million viewers in March 2026. Sports viewership has grown in CY2025 on the back of marquee cricket tournaments like ICC Men's Champions Trophy and the Indian Premier League (IPL). News viewership witnessed a marginal decline in CY2025 despite major events in 2024 like the general elections. Kids viewership on linear TV declined as consumption of kids content shifted from linear television to YouTube and Connected TV.

It’s an “&” World

Nearly 500 million consumers in India engage across both Linear TV and Digital video platforms such as mobile, laptop, tablets and connected TV. Multiple studies corroborate this shift in the expanding use of screens, highlighting the sharp rise of the AND consumer, over the last few years – from 40% in 2022 to 47% in 2025. This trend is strongly evidenced by the KANTAR Media Compass Report 2025 (15+ age group), as well as in ‘Z’'s proprietary Video verse landscape study.

Both these reports highlight a compelling in-home viewing pattern: that television remains central to entertainment, whether through Cable/DTH TV-powered Linear TV or internet-enabled Connected TV or both. In fact, India has more than 50 million Connected TV households. This robust growth is being driven by expanding home broadband access, which is estimated to have grown by a CAGR of 16%, from 33 million connections in December 2022 to 60 million in December 2025 (TRAJ QPIR Oct-Dec’2022 & 2025).

Interestingly, Connected TV has not replaced Linear TV, which remains an enduring medium of entertainment as 70% of connected TV households also watch Linear TV.

For over five decades, Linear TV has remained at the centre of shared family entertainment in India, continuing to anchor engagement in the living room even as newer digital platforms gain traction.

Zee, with a strong presence across PayTV, FTA, OTT and Social Media, remains uniquely well-positioned to cater to audiences across age groups, socio-economic segments and psychographic profiles. This omnichannel footprint enables the network to stay effectively aligned with evolving consumption behaviour, while maintaining scale, relevance and engagement in an increasingly converged media landscape.

Viewership by Language

Among major language markets, Telugu has recorded the strongest growth followed by Tamil. This development is expected to benefit 'Z' over the coming years as it remains the fastest growing network in southern markets.

Incidentally, the viewership of these other languages is not confined to their respective states, where these languages are primarily spoken. For instance, the monthly viewership of Tamil, Telugu, and Punjabi content exceeds the population of their respective states mostly due to migration, whereby these audiences have expanded outside the home states, besides the growing appeal of certain content genres that transcend language barriers among audiences.

Content Distribution Offers Unified Linear & OTT opportunity

India's subscription ecosystem is evolving into a strong hybrid model, in which both linear and digital platforms are able to capture expanding consumer demand. Broadcasters are well-placed to benefit from this shift, as overall television reach (Including DDFree Dish) continues to grow, while Connected TV and OTT platforms are unlocking new subscription opportunities through enhanced user experiences and premium content consumption.

Digital subscriptions are rapidly growing, driven by high-impact content such as sports and original programming, along with the widespread success of bundled offerings across telecom operators, aggregators and platform partnerships. Bundling has emerged as a powerful tool for both customer acquisition and retention, helping to significantly expand the paid subscriber base and deepen engagement across platforms.

Free TV too, continues to deliver large-scale reach, enabling broadcasters to strengthen audience penetration, while strategically supporting their Pay and digital offerings. Connected TV is also strengthening the large-screen viewing experience, by creating a seamless bridge between linear and OTT ecosystems to enhance monetisation potential.

For broadcasters, the focus is now shifting to leveraging integrated distribution, with smart packaging and flexible pricing models to maximise lifetime value for customers across platforms. With the convergence of linear and digital ecosystems, the subscription market, supported by innovation in content and partnerships, is becoming more resilient and scalable in terms of multiple growth drivers.

Four Key Distribution Methods

With over 46 million wired broadband-connected homes in India, the scale and reach of broadband-enabled large-screen viewership is at par with DTH, cable, and Free TV. This marks the emergence of four major platforms for content distribution to large screens. By positioning itself as a platform-agnostic content creator, 'Z' is uniquely positioned to capitalise on this multi-platform distribution landscape to reach audiences across television and digital ecosystems.

'Z' Omnichannel Reach

'Z' content reaches more than 800 million unique viewers every month across platforms such as Linear Television, ZEE5, YouTube, and Meta, reflecting the network's strong omnichannel presence.

TELEVISION ADVERTISEMENTS CAPTURE MORE ATTENTION

Even in an increasingly fragmented media landscape, television advertising remains one of the most effective platforms for capturing viewer attention and build strong brand recall. Recent research conducted collaboratively by the Advertising Research Foundation (ARF) and TVision Insights reveals that short-form, six-second television advertisements generate 8% to 11% higher attention per second compared to traditional 15–30 second commercials. Although these shorter ads accounted for only 3% of contributed 6% of the overall impressions, highlighting their effectiveness in cutting through the digital noise to deliver high-impact messaging.

The efficacy of these shorter spots is largely driven by strategic placement in "premium" environments – such as the opening slot within commercial breaks or during the high-stakes primetime programming. Research also suggests that these 6-second ads are most effective when used as "kickers" or reminders to reinforce the longer-form brand storytelling. By delivering nearly 60% of the impact of a 30-second ad within a fraction of the time, the six-second format allows brands to build strong recall in a shorter duration without the risk of viewer "wear-out". This reinforces television's continued strength as a powerful medium to create lasting brand impressions.

As brands continue to prioritise platforms that deliver scale, engagement and stronger consumer recall, television remains

a critical medium within India's advertising ecosystem. With its deep reach across markets and languages, coupled with the ability to create sustained audience engagement, the medium continues to offer significant opportunities for established broadcasters with diversified content portfolios and strong regional connections, positioning 'Z' favourably within the evolving linear television landscape.

DOMESTIC BROADCAST BUSINESS

‘Z’ Network has the second-highest reach in the entertainment segment nationwide.

‘Z’ continues to stand amongst India’s leading television networks, with 852 million viewers tuning into the ‘Z’ network during this year. The gap with the leading network stands at

only 2% despite ‘Z’ operating with slightly more than half the number of channels.

‘Z’s linear network share grew by 60 basis points to achieve a six-year high of 17.4% in FY26 supported by the return of Anmol TV to Free Dish and strong performances from several pay GEC channels like Zee TV, Zee Telugu, Zee Marathi and Zee Tamil.

‘Z’ has the highest network share in six years

Source: BARC; India Urban 15+

With a bouquet of 50 channels in 11 languages – the largest for any private network – ‘Z’ is the preferred entertainment destination for viewers across the country. During FY26, the ‘Z’ network held leadership positions in Kannada GEC, Odia GEC, Marathi movies, and in lifestyle genres.

‘Z’s strong presence in language markets continues to be a major driver for the network, accounting for a share of 57% of ‘Z’s total viewership during FY26. These other language channels have also supported broader market growth, by increasing the availability of quality content in different languages.

New Show Launches

The network’s growth marked by a six-percentage point increase in the success rate of its new show launches, was largely driven by its cross-pollination content strategy. This means successful show concepts with the potential to be adapted across multiple languages are identified to improve scalability and audience reach. For example, Zee Bangla’s “Jagadhatri” was remade in six other languages after being first launched in 2022.

‘Z’ – Leader in Fiction Across Languages

In March 2026, ‘Z’ recorded the highest share of the Top 10 fiction shows among television networks, across six major languages. The Company attained a robust leadership position by capturing 5 spots on average amongst the Top 10 fiction charts in Hindi (Pay), Marathi, Bangla, Odia, Kannada and Telugu GECs, translating to a remarkable 48% share.

‘Z’ – Fastest Growing Network in South India

The success of ‘Z’s southern language channels has made it the fastest growing network in South India with an all-time high market share. Zee Kannada retained its leadership position in the Kannada GEC genre for seven consecutive years while Zee Tamil recorded strong growth and achieved an all-time high market share.

‘Z’ – Leader Across Movie Genres

In FY26, ‘Z’s movie channels accounted for 25 per cent of movie channel viewership in urban markets, which is supported by its large portfolio of 25 movie channels across 8 languages and an expansive multi-lingual movie library, featuring both latest blockbusters and evergreen titles. ‘Z’ remains the leader in Marathi movies and the second-largest player in Hindi and Bangla movie genres.

Hindi General Entertainment

Excluding the channels that migrated to Free Dish, Zee TV has emerged as the fastest growing channel in FY26 nationwide as well as the most watched Hindi GEC channel in primetime across Hindi Speaking Markets (HSM). Successful new shows like Tumm Se Tumm Tak, Ganga Mai Ki Betiyan, Jagadhatri and Lakshmi Nivas besides evergreen content like Vasudha have promoted this growth. Within the Hindi Pay GEC genre, the network’s share grew by 520 bps between Q4FY25 vs Q4FY26. The new content slate has also strengthened the perception of channel audiences through inspiring storylines rooted in cultural values and empowered, yet relatable characters. Consequently, as the most watched channel, the number of Zee TV viewers in the country increased by over 50% in March 2026 as compared with March 2025.

&TV continued to engage audiences in the Hindi heartland with evergreen content like Bhabiji Ghar Par Hain as well as new launches like Gharwali Pedwali, specifically curated for these markets. The second season of the iconic show, Bhabiji Ghar Par Hai marked the return of Shilpa Shinde as Angoori Bhabhi.

Anmol TV returned to DD Free Dish after three years, which helped the network to strengthen its presence among the growing number of Free Dish subscribers, by airing iconic old Zee TV shows like Kumkum Bhagya, Kundali Bhagya and Bhagya Lakshmi.

‘Z’'s cluster of 11 Hindi Movie channels – Zee Cinema, &pictures, Zee Bollywood, Zee Action, Zee Classic, Big Magic, Anmol Cinema, Anmol Cinema 2, Zee Cinema HD, &pictures HD, and &Xplor HD – offering diverse genres of movies have made it the second largest network in the Hindi Movies genre with a 80 bps growth in market share from FY25. Zee Cinema became the number one pay Hindi Movie channel in FY26.

The premiere of Pushpa The Rule – Part 2 on Zee Cinema became the highest rated world television premiere of a

Hindi movie during the year and the biggest since the premier of Gadar 2 in FY24. Other successful premieres included Jaat and Kantara A Legend – Chapter 1.

During the 2025 edition of India’s leading domestic cricket league, the Zee Hindi Movies Cluster expanded its reach by 15%. With an 80% overlap of viewers between Zee Hindi Movies Cluster and the cricket league, the network offered advertisers an opportunity to attract the same audience at lower costs.

Language Entertainment Channels

Zee Marathi recorded strong growth in FY26 with its viewership rising by 15% along with a six percentage point increase in market share. The success of this channel was driven by successful fiction launches like Taarini, Veen Doghatli Hi Tutena, Kamli and Devmanus – Madhala Adhyay and other highly rated established shows like Lakshmi Nivas. The world television premiere (WTP)of the Marathi movie Ata Thambaycha Naay was the biggest premiere in FY26, followed by Dashavatar. Language Movie Channels

The Zee Marathi movies cluster continued to dominate the Marathi movies genre with a 55 per cent share.

Zee Bangla Sonar, Zee Biskope, Zee Cinemalu and Zee Thirai ranked among the top three channels in their respective genres, with Zee Bangla Sonar moving up to the number one position in the last quarter of FY26. Zee Power, launched in the Kannada movies genre, reached the third position in March 2026.

Niche channels

Zee Café, &flix and &privé HD continued to offer international English language content across movies and entertainment shows. Zee Zest, launched in 2020, strengthened its position in the lifestyle genre and emerged as the #1 channel in urban India with its innovative mix of culinary and travel programming.

INTERNATIONAL BROADCASTING BUSINESS

'Z's international business continues to evolve as a key growth engine for the company, delivering culturally relevant entertainment to audiences worldwide. With a strong presence in 120+ countries, our content now reaches over 575 million viewers outside India, including 75 million from the South Asian diaspora and more than 500 million local viewers through regional and language-dubbed channels.

With a portfolio of over 40 dedicated channels, 65+ pass-through feeds, and a growing linear and digital presence, 'Z' is the leader in South Asian entertainment worldwide. Our international operations include Free Ad-Supported TV (FAST) channels, ZEE5, sports monetisation, syndication, co-production, and local IP creation.

KEY HIGHLIGHTS

- **Zee TV MENA** in the Middle East and North Africa regions continues its leadership streak as the #1 Hindi GEC in the UAE for the ninth consecutive year, commanding a dominant 29% viewership share in FY26
- **Zee Zonke**, our isiZulu language channel launched in South Africa, became one of the top-performing TV channels in South Africa within 7 months of launch – a testament to the power of Indian storytelling backed

by strong brand equity. It continues to hold a key leadership position amongst pay TV channels in South Africa

- **Zee World (Nigeria)**, our flagship English-dubbed channel, remains a mass favourite, maintaining its rank as the #1 channel in Nigeria out of 500+ channels for the sixth consecutive year, reaching 19.2 million viewers every month
- **Zee Dunia**, our Swahili and English language free-to-air channel launched in Kenya has established itself as the country's fastest-growing channel. By delivering high quality content aligned with audience preferences, it has entered the top 10 most-viewed stations within its first year
- **Zee One (Germany)**, our German-dubbed FAST channel maintains its position amongst the top FAST channels on major digital platforms – underscoring our ability to replicate success across language and platform boundaries
- **Strategic Channel Launches on Linear TV/FAST**
 - Zee TV DE, a German subtitled FAST channel, was launched in the DACH region to cater to both South Asian and the local German audiences

DIGITAL AND FAST EXPANSION

- Over the last two years, 'Z' has significantly expanded its FAST (Free Ad-Supported TV) ecosystem, across both content offerings and platform partnerships:
- Our FAST channel portfolio catering to the local diaspora audiences has expanded over the last two years, from only 2 channels across 4 countries and 2 platforms, to 10 channels across 6 languages, 24 countries (across EMEA, APAC, USA and LATAM), and 16 platforms (global and local)
- 'Z' entered inventory-sharing partnerships with leading FAST platforms, thereby enabling direct monetisation of Connected TV inventory across geographies. This initiative positions 'Z' to capitalise on the growing global demand for CTV advertising while leveraging in-house sales expertise

CO-PRODUCTIONS & LOCAL CONTENT INITIATIVES

- Our core proposition of Indian storytelling adapted for global audiences continues to drive engagement and monetisation across linear and digital platforms through dubbed content acquisitions including Indian shows and locally relevant programming
- **Co-Production Scale-up:** Since the past three years, 'Z' is significantly strengthening its original content slate in the MENA region, building a catalogue of more than 20 locally produced shows, which have been acquired by leading broadcasters and OTT platforms. Some of this content has received regional recognition through multiple awards
- **Local IP Creation:** 'Z' has developed 13 local original IPs across Africa, MENA, the Americas, and Europe. With community-focussed shows such as Out & About (Europe), Zee Connect and Zee Connect Bil Arabi (MENA), and Canada Round Up (Americas) 'Z' is strengthening its connect with diaspora audiences across the globe. In Africa, reality formats like Dance Naija Dance and Kellogg's Superstar Quiz, along with lifestyle and talk shows such as Fusion Bites, Hack My Kitchen with Addme, Lush Pink Belle, Banterz, and The Your Show, showcase local

talent and culturally relevant themes. Celebratory initiatives like Power Women highlight stories of aspiration and woman empowerment, while Zee Tunes in Europe offers a distinctive Bollywood dance-led engagement format. Together, these local IPs reinforce 'Z's commitment to forging deeper community connections across the world through culturally relevant storytelling

- **Events: 'Z'** expanded its events vertical with 11 sponsor-led events during the year. These on-ground activations, including festive celebrations to sports and curated social experiences, have enabled brands to engage directly with South Asian diaspora and local audiences besides unlocking incremental monetisation opportunities
- **Zee International Social Media:** Its presence recorded a strong double-digit growth in during the last financial year. The network's total following across social platforms exceeds 130 million, making its social media pages a critical engagement platform alongside television across international markets

DIGITAL MEDIA

As per the EY–FICCI report, India is the world’s fastest growing digital media market, with the Media & Entertainment segment crossing the ₹1 trillion (₹1 lakh crore) milestone for the first time in 2025. Digital media revenues grew 30% during the year and constitute 47% of the total M&E industry revenue. Growth was driven by rising use of smartphones, growth in the number of Connected TV households and other digital devices in both urban and rural markets.

Digital advertising across platforms grew 26% to ₹947 billion, accounting for 63% of total advertising revenues. This growth was supported by broad-based advertiser participation. E commerce and point of sale advertising grew 50% to ₹220 billion, which is nearly 85% of television advertising revenues,

and reflects the growing role of digital formats in influencing purchase decisions.

Digital subscriptions also expanded significantly, with revenues increasing by 60% to ₹163 billion during 2025. Paid video subscriptions supported by premium sports and film content offered behind paywalls contributed ₹148 billion, rising to 61% in 2025 and accounting for 91% of digital subscriptions. This milestone reflects a structural shift towards paid digital consumption, enabled by better digital infrastructure, deeper broadband penetration, and evolving consumer preferences for personalised, on demand content. Looking ahead, the digital media segment is expected to grow at a CAGR of 14% through 2028, reaching approximately ₹1.6 trillion.

The EY–FICCI report also stated that search and social media platforms, led by Google and Meta, accounted for 64% of digital advertising revenues in 2025. Growth drivers included the increased time spent on social media platforms, improved monetisation of niche content categories, and higher consumption of long form content, aided by the growing base of Connected TV households. Even point-of-sale advertising and e commerce platforms such as Flipkart, Amazon, Nykaa, Myntra, Zomato, Zepto, Blinkit, Instamart and Uber attracted significant advertising expanding to nearly ₹220 billion, which represents 23% of total digital advertising revenues. Advertisers demonstrated a willingness to pay premium rates for placements closer to purchase decision points.

During the year, e commerce and quick commerce platforms emerged as key sales promotion channels for SMEs, as both new age brands and large advertisers, focussed on performance driven advertising by platforms demonstrating measurable outcomes and clearer conversion impact, which attracted higher allocations. Additionally, sports and entertainment OTT platforms, including ZEE5, Netflix, JioHotstar, Prime Video, Sony LIV, accounted for approximately 8% of total digital advertising revenues recording a 34% growth, driven by higher Connected TV viewership and premium ad yields. In fact, weekly active Connected TV homes increased from 30 million to 40 million during the year, with sports and non fiction programming attracting advertiser interest.

Smart device adoption in India continued to expand in 2025, reflecting the shift to digital-led consumption across content formats. Smartphone usage reached 584 million users, accounting for nearly 40% of India’s population, supported by the accelerated rollout of 5G networks, offering improved access speeds and usage intensity. Connected TVs also gained scale with 68 million unique television sets accessing the internet each month, and nearly 40 million sets active every week, up from 30 million in 2024. Connected TVs in India have become the second preferred streaming device – after smartphones, overtaking devices such as laptops and tablets. Large screen viewership using broadband is also close to that of active paid DTH, cable, and Free TV households (approximately 53 million), effectively creating four key modes of content distribution in India – smartphones, television, Connected TVs, and traditional broadcast platforms.

INTERNET SUBSCRIBERS FROM RURAL MARKETS

India’s Internet ecosystem continued to deepen in 2025, with internet penetration increasing by 6%. Among internet users, 98% used broadband services. Further, within broadband, only 4% relied on wired connections, while the majority used wireless services. Urban internet subscriptions accounted for 58% of total internet subscriptions. Rural internet subscriptions grew steadily by 6% from December 2024 to December 2025, currently standing at 73% of urban subscriptions, thereby reinforcing the importance of differentiated content strategies for urban and rural audiences. With more than one billion broadband subscriptions, India today has the world’s second largest broadband subscriber base after China.

Other Language Content Drives Growth

Other language content remained a key focus area in 2025, accounting for 56% of total content production. Leading platforms catered to diverse markets by adopting an eight-language content strategy, which ensured that original content was available across key regions. As other language content continues to gain traction across language barriers and monetisation opportunities expand, there is a need for sustained investment in quality content.

Digital Advertising

Digital advertising delivered a 26% growth, to reach ₹947 billion in 2025, supported by advertiser categories like FMCG, travel, and pharma that reallocated budgets from traditional media. Search and social platforms through e-commerce and point-of-sale advertising, achieved revenues of ₹220 billion to emerge as the fastest-growing segment that represents 23% of the total digital ad pie.

DIGITAL SUBSCRIPTIONS

Digital subscriptions are rising due to increasing per capita income, higher smartphone penetration and the shift to connected TVs. Also, with greater acceptance of paid OTT services in India, digital subscription revenues scaled 60% across video, audio, and news categories in 2025. Video OTT led with a 61% growth to touch revenues of ₹148 billion. About 143 million households paid for 216 million video OTT subscriptions reflecting the trend of multi-subscription households and consumers’ willingness to pay for premium OTT content, showcasing events, blockbuster films and reality programming.

Of the 143 million paying households, over 100 million accessed subscriptions through e commerce platforms, telecom bundles, or third party aggregators, like Binge and Watcho.

In fact, nearly 71% of all OTT subscriptions were bundled, which highlights the importance of bundled offerings as a key feature of the digital subscription ecosystem. Although, paid OTT audience numbers vary across industry stakeholders; EY-FICCI estimates a steady state audience of 250–320 million individuals.

Video subscriptions, supported by investments in blockbuster films, marquee sports properties and exclusive original content placed behind paywalls, are expected to remain the dominant category, with estimated growth of 14% CAGR through 2028, accounting for nearly 88% of the total digital subscription revenue.

Audio subscription revenues grew by 48% in 2025 to ₹10 billion on the back of significant industry efforts to grow paid subscribers.

The rapid growth in digital subscriptions, increasing consumer willingness to pay for premium content and the rising adoption of bundled OTT offerings continue to reshape India’s digital entertainment landscape. With strong momentum in other language content consumption, connected TV adoption and language-led personalisation, platforms with differentiated content libraries and deep audience understanding are well-positioned to capitalise on the next phase of digital media growth, creating significant opportunities for ZEE5 to strengthen engagement and scale its subscriber ecosystem.

ZEE5: Driving Efficiency, Innovation, and Growth

In FY26, ZEE5 strengthened its position as one of India’s leading OTT platforms in India through ongoing investments in content, technology, and marketing. The platform reaches paying viewers and subscribers across almost every city in India. An expanded audience base has supported growth in revenue and led to further investments in creativity and viewer experiences, thereby enhancing business efficiency.

During the year, ZEE5 recorded around 102 billion streaming minutes. The platform expanded its pricing strategy with monthly and annual language packs across Indian languages including Hindi, Tamil, Telugu, Marathi, Kannada, Malayalam & Bangla. A strong content pipeline featuring over 250 launches across movies, original series & TV shows further strengthened viewer engagement.

ZEE5 also unveiled a bold new brand identity and strategic shift, reinforcing its position as India’s foremost homegrown streaming platform. This relaunch marked a pivotal step in ZEE5’s evolution, anchored in the promise of “Apni Bhasha, Apni Kahaniyan” (Multiple Languages, Infinite Stories) and a sharper focus on culturally authentic narratives, language-led personalisation, and cutting-edge technology capabilities.

Democratising Entertainment for India & Bharat

One of ZEE5’s greatest strengths is its premium content library from the ‘Z’ ecosystem. The platform offers over 3,500 films, 1,700+ TV shows, 600+ original series, 130+ micro drama series and 1.6 lakhs+ hours of on-demand TV content across 12 languages (English, Hindi, Bengali, Malayalam, Tamil, Telugu, Kannada, Marathi, Odia, Bhojpuri, Gujarati, and Punjabi).

A unified market approach across its digital, television, and studio businesses has delivered multi-platform successes, including the tremendous response to celebrity talk show ‘Jayammu NischayammuRaa with Jagapathi’, the audio launch of Jana Nayagan ‘Thalapathy Thiruvizha’, and the romantic drama ‘Tumm Se Tumm Tak’.

Among films, Telugu blockbuster ‘Mana Shankara Vara Prasad Garu’ recorded the highest watch-time on ZEE5 movies, while ‘Ayyana Mane’ and ‘Abar Proloy 2’ established an industry and platform benchmark for non-Hindi original series, winning critical acclaim and record-breaking viewership.

With a wide content portfolio, ZEE5 has become one of India’s largest producers of Indian language entertainment. In FY26, ‘Z’ released 127 shows and films including 34 originals across genres and languages.

KEY TITLES RELEASED ON ZEE5 THIS YEAR INCLUDED

- **Hindi:** Tehran, Bhagwat, Janaawar, Ek Deewane Ki Deewaniyat, and Bakaiti
- **Tamil:** Sirai, Maaman, Thadayam, and Sattamum Needhiyum
- **Telegu:** Mana Shankara Vara Prasad Garu, Kishkindapuri and Jayammu NischayammuRaa with Jagapathi, D/o Prasad Rao
- **Kannada:** Ayyana Mane, 45, Landlord, Raakshasha and Maarigallu
- **Malayalam:** Sumathi Valuvu, Dominic & The Ladies Purse, Prince & Family and Kammattam
- **Marathi:** Krantijyoti Vidyalay Marathi Madhyam, Jarann, Dashavatar and Dev Khel
- **Bangla:** Aabar Proloy 2, Bohurupi, Kaalipotka and Projapati 2

Alongside entertainment, ZEE5’s content library also offers reality & non-fiction entertainment, music videos, KidZ entertainment, Micro-Dramas, Edtech, News, LIVE sports, LIVE TV channels, K-Drama and lifestyle content. Partnerships with global technology companies have helped to enhance the viewing experience across devices, ecosystems and operating systems.

In the last year, ZEE5 strengthened its Connected TV presence, with 50 million connected devices accessing ZEE5 content, which accounts for more than 80% of CTV homes in India.

ZEE5 continued to reinforce its partnerships across the digital ecosystem, spanning telecom operators, ISPs, OTT aggregators, and device OEMs, which supported subscriber growth and market reach. FY26 marked the first year in ZEE5’s lifecycle with active direct partnerships across telecom operators, which is a significant milestone.

In line with rising broadband penetration and language-first approach, ZEE5 expanded its collaborations to partner with regional ISPs, to strengthen last-mile reach across local markets. ZEE5 also diversified its partnership portfolio into new categories such as e-commerce and BFSI, thereby creating new user acquisition opportunities.

ZEE5 further expanded its digital footprint by launching 5 FAST channels in August 2025, contributing to a 71% growth in viewership since launch.

In line with ambition to become India’s fastest growing OTT platform, ZEE5 leveraged AI-driven tools to optimise short-form content creation, reducing both production time and costs besides leveraging creative generative solutions for premium storytelling. ‘Z’s Tech & Innovation centre also integrated AI capabilities across content intelligence, user experience, engineering, and design workflows.

ZEE5’s product and engineering teams strengthened owned and operated capabilities including recommendation models, content processing transcoders, ad servers and analytics stack, with strategic focus on building scalable and differentiated technology solutions.

ZEE5 Global

In FY26, ZEE5 Global, continued to strengthen its international presence and market leadership with compelling content offerings, strategically revised pricing and targeted grassroots outreach initiatives. Alongside cost optimisation measures, these efforts reduced costs by 30% and delivered a significant 255% year-over-year improvement in EBITDA for the international digital business.

Building on the success of language-packs in India, ZEE5 introduced similar offerings in global markets, empowering users with greater flexibility and choice, in accessing content and language tailored to their

preferences. Most global regions have demonstrated strong traction for language packs, prompting increased regional marketing efforts to serve dominant language diaspora communities.

As the sole streaming service for the South Asian diaspora, ZEE5 Global consolidated its position as the leading South Asian entertainment platform across the USA, Europe, the Middle East and key APAC markets.

The business also continued to improve operational efficiencies while driving audience growth. Breakout titles such as Mana Shankara Prasad set new subscription and viewership records while hits like Sirai, Tumm Se Tumm Tak, Ayyana Mane, Thadayam, and Saali Mohabbat among others resonated with audiences worldwide.

KIDS CONTENT

In India, the kids’ content segment is undergoing a structural shift, from linear television to digital platforms and Connected TV and devices. This transition is being driven by the convenience of on demand viewing, widespread availability of free digital content, and rising digital penetration across households. While digital access has created greater opportunities for learning and entertainment, it has also increased concerns about viewing safe and age-appropriate content, underscoring the need for responsible content curation and controlled viewing environments.

The implementation of the Digital Personal Data Protection (DPDP) Act is expected to reshape the children’s media landscape through stricter parental consent requirements, enhanced child safety controls and tighter data privacy standards, which is expected to influence how content for children is responsibly curated, distributed, marketed, and measured. The industry is gradually evolving a more transparent and secure digital ecosystem for children’s content consumption with heightened standards for data privacy and child protection, while reinforcing trust among parents, regulators, and platform stakeholders.

The Company has successfully transitioned into a “content-tech” organisation, leveraging ZEE5 to strengthen its digital presence through a multilingual content strategy spanning more than 12 languages. By using digital and social platforms to drive audience engagement and direct traffic to its own proprietary ecosystem, ‘Z’ ensures a more integrated digital consumer journey across platforms.

KidZ

KidZ, Zee Entertainment’s dedicated children focussed vertical, was launched in November 2025 with a robust library of over 140 titles across multiple languages and supported by regular weekly release of new offerings. Since its launch KidZ had garnered over 60 million views and clocked more than 240 million watch time minutes, up to March 2026, reflecting strong early traction and audience acceptance. The platform is designed to offer a safe and enriching environment for children, with thoughtfully curated content that balances learning and entertainment while remaining culturally relevant.

Going forward, KidZ will continue to focus on expanding its multilingual content portfolio, strengthening its presence across platforms, and building long-term viewer relationships through original IPs and consistent content innovation.

EMERGENCE OF MICRO DRAMAS

Gaining traction are micro dramas, or micro episodic content (MEC), which are professionally produced short-form videos typically ranging from 30 to 120 seconds per episode, with series often spanning 60 to 100 episodes. Unlike traditional TV or OTT platforms, MECs are designed for vertical mobile viewing and offer a faster, more engaging storytelling experience. This format is still nascent in India. However, driven by culturally resonant narratives and cliffhanger led episodic storytelling, the micro drama format is becoming popular among younger audiences, particularly in Tier II and Tier III cities, as a more structured alternative to passive short form scrolling. As per the EY–FICCI report, India’s micro drama market was valued at approximately ₹6.5 billion in 2025 and is expected to grow at over 50% annually through 2028. Growth is being supported by localised storytelling, AI-enabled production tools, and frictionless digital payment systems such as UPI AutoPay. India accounted for 11% of global micro drama app downloads in Q1 2025, reaching 35 million downloads and recording a 113% quarter-on-quarter increase, indicating early scale and adoption of this format.

India is scaling rapidly with a clear growth trajectory ₹ billion (gross of taxes)

Audience demographics indicate a distinct domestic consumption pattern, with over 70% of viewers being male, contrasting with global trends where women typically form the primary audience. Additionally, around 50% of users preferred content in their native languages, while nearly 80% of the audience fell within the 18–34 age group, underscoring the relevance of localised, youth focussed storytelling.

As this commercially scalable format matures, monetisation models are expected to diversify beyond subscriptions and sachet pricing to include advertising networks, branded content integrations, and e commerce linkages.

Bullet

Bullet is positioned as a next-generation micro drama and short form entertainment platform, designed as the world’s first AI-powered content ecosystem. Since its launch in July 2025, the platform has scaled rapidly to cross 10 million downloads. Supported by strong audience acceptance, its app rating is 4.6+ on both Google Play and the Apple App Store. Catering primarily to mobile first Gen Z and millennial audiences, Bullet offers a rich content library comprising more than 130 titles across seven languages. Its “connected reel” micro drama delivers immersive storytelling that strikes a balance between depth and time efficiency.

Going forward, Bullet is expected to play a pivotal role within the broader ‘Z’ digital ecosystem by leveraging AI-powered personalisation, dynamic pricing, and gamification mechanics that improve user engagement and content discovery. Available both as a standalone app and within the ZEE5 ecosystem, Bullet supports cross platform engagement and long-term audience retention.

MUSIC

India’s music industry continued to evolve materially in 2025, supported by rising digital adoption, a mobile first listener base, and greater global visibility for Indian artists. Streaming platforms such as Spotify, YouTube, and Apple Music have reshaped the ecosystem by improving access, distribution, and monetisation opportunities for artists and labels. India is currently the world’s second-largest music streaming market, with streaming volumes having reached 471 billion plays by December 2025. Indian music accounted for approximately 78% of this total consumption.

According to the EY–FICCI report, the Indian music segment – measured as revenues earned by music labels from licensing and other income – grew 10% to ₹59 billion in 2025. Digital licensing contributed 58% of total revenues, while non-digital licensing formed 27%, and other income accounted for 15%. Music streaming reached an audience of about 178 million listeners during the year, generating 5.8 trillion streams, up by 15% over 2024.

₹ billion (gross of taxes)	2022	2023	2024	2025	2026E	2028E	CAGR
Music Segment	46	54	53	59	64	75	9%

Source: EY–FICCI Report

The music segment is expected to grow at a CAGR of 9% to reach ₹75 billion by 2028.

The industry is also witnessing structural changes, which have created new growth avenues beyond traditional film led music. Regional and artist-led music, particularly in Tamil, Telugu, and Kannada languages, is increasingly shaping mainstream charts. Revenue streams have diversified, beyond licensing into live events, branded content, fan engagement initiatives, and merchandise.

While youth-led consumption patterns, driven by Gen Z and millennial audiences and supported by AI-based personalisation, continue to influence listening behaviour, India's large base of free users presents untapped premium subscription potential.

Within this evolving landscape, Zee Music maintains a calibrated presence while continuing to follow a disciplined acquisition strategy that prioritises high-engagement film and non-film music, while leveraging its cross-platform ecosystem for promotion and monetisation while maintaining a lean cost structure in a competitive and margin-sensitive market.

58% OF THE TOTAL REVENUE CAME FROM DIGITAL LICENSING

Composition of music segment revenues

Source: EY-FICCI Report

As per industry trends, digital licensing accounted for 58% of the music segment's revenues in 2025, comprising earnings from music streaming platforms, YouTube, social media platforms, and telecom operators, as digital consumption remained the preferred mode of accessing music. Other licensing revenues, which include music labels' share of performance and publishing rights, sync deals, physical sales, and exports, grew 23% over 2024 and accounted for 27% of total revenues, supported by higher compliance and wider usage across events and non film contexts. However, sync revenues remained limited at around 3% of overall revenues, reflecting muted activity across traditional radio and television segments. Other income rose to 15% of total revenues, as music labels expanded into live events, artist management, and branded content, thus diversifying revenue streams beyond core licensing.

As per EY FICCI estimates, music streaming reached about 178 million active users in 2025, with total stream volumes (excluding social platforms) increasing 14.7% year-on-year to 5.8 trillion streams, reflecting continued growth in digital music consumption. During the year, the industry also absorbed the full year impact of the shutdown of platforms such as Wynk, Resso, and Hungama Music, which led to some redistribution of listener traffic across other streaming services. At the same time, social media led revenues grew 20%, supported by increased consumption of short video and vertical format content, which have become important channels for music discovery and audience engagement, complementing traditional streaming platforms and creating additional monetisation opportunities.

OTHER LANGUAGE MUSIC CONSUMPTION REMAINED STRONG IN 2025

Music consumption by language

Hindi music accounts for 59% of total music consumption, making it 6.65 times larger than Punjabi music, the second largest segment, and 3.26 times the combined share of South Indian languages.

Punjabi music with an 8.83% outperformed both Tamil (7.32%) and Telugu (6.16%), highlighting the commercial strength of North-West regional music, driven by artist-led hits, and the growing influence of short video platforms.

from the dominance of film music. Brand participation within the music ecosystem also increased, with more music videos featuring brand integrations and collaborations. Revenue from artist management and branded content grew 12% over 2024, highlighting the growing role of artists as multi platform brands and the importance of diversified monetisation models within India's music industry.

Zee Music

Established in 2014, Zee Music Company (ZMC) consolidated its position as one of India's premier music labels, with a vast catalogue of music spanning 22 Indian languages, across film and independent music that resonates with diverse audiences.

The label currently commands a cumulative subscriber base of 176 million across its channels and generates over 220 billion annual streams globally.

Looking forward, ZMC plans to strategically deepen its presence in high-consumption music markets – specifically Punjabi, Tamil, Malayalam, Kannada, Telugu, and Haryanvi while also seeking to expand the reach of its catalogue among the global Indian diaspora thereby exploring under-monetised opportunities in international markets.

FILMED ENTERTAINMENT (STUDIO) INDUSTRY

According to the EY–FICCI report, India’s filmed entertainment segment crossed the ₹200 billion milestone for the first time in 2025, with segment revenues growing by 9% year-on-year to ₹205 billion. Domestic box office collections reached a record high of ₹130 billion, growing 14% over 2024, with admissions rising 1.4% to 868 million tickets, supported by

strong theatrical performance and steady digital monetisation. Total domestic theatrical revenues constituted about 63% of total segment income although overseas theatrical revenues remained comparatively modest, contributing less than 20% of domestic collections, significantly lower than ratios seen in mature markets like the US and the UK, which indicates untapped international monetisation potential.

Regional language films continued to gain prominence, particularly South Indian films (Tamil, Telugu, Kannada, Hindi and Malayalam), collectively accounting for nearly two-thirds of output. Regional cinema also expanded its reach through dubbed releases across multiple markets. The number of films released in India in 2025 rose 8% year-on-year to 1,972 titles, including 270 dubbed films as against 204 dubbed films in the previous year.

Screen infrastructure grew marginally by 1% to 10,033 screens with fewer than 150 million Indians attending cinemas during the year.

Looking ahead, the filmed entertainment segment is projected to grow at a 7% CAGR to reach ₹253 billion by 2028, driven by expanding cinema infrastructure in under served geographies, evolving release window strategies, and increased investment in experimentation with diverse storytelling formats across genres to broaden audience appeal. While domestic theatrical revenues are likely to remain the primary profitability anchor, international distribution is expected to mature steadily.

The Company continues to strengthen its position through its integrated film vertical, that combines production, distribution and cross-platform promotion to maximise content monetisation across theatrical, television and digital channels.

Z STUDIOS

Zee Studios

Zee Studios, the film production and distribution arm of the Company, focusses on creating differentiated, content across theatrical and digital platforms in multiple languages and formats. With a portfolio of over 150 films, Zee Studios has produced and distributed several commercially successful and critically acclaimed titles. During FY26, Zee Studios released more than 30 films across seven languages, demonstrating strong operational scale and synergy with the Company’s linear and digital ecosystems.

Zee Studios’ integrated business model enables seamless monetisation across cinemas, television, digital streaming and music platforms. It has also established itself as one of India’s leading integrated studios with extensive global theatrical distribution capabilities, achieving the release of 40 film titles across languages in cinemas globally.

Zee Studios received significant recognition at the National Film Awards announced on 1 August 2025, where its films won six National Awards across Hindi and regional cinema, under multiple categories such as Best Feature Film, acting, dialogues, debut direction, children’s film, and Best Punjabi Film. Additionally, the Zee Studios backed Dashavatar (2025) became the first Marathi film to enter the Oscar contention list for the 98th Academy Awards (2026).

SPORTS

According to the EY FICCI report, India's sports segment revenues expanded from ₹196 billion to ₹223 billion, propelled by a 20% surge in media spend, alongside 10% endorsements and 7% sponsorship growth in 2025. Cricket, commanding

95% of media rights, 81% of sponsorships, and 87% of brand endorsements, remained the dominant sport, accounting for 89% of industry revenues. Digital sports consumption continued to grow steadily alongside television viewership.

Viewership Scale and Demographic Reach

Linear television reached 692 million sports viewers during the year, generating 1,374 billion viewing minutes. Rural markets reflected 56% of the total viewership, followed by Tier-I/II cities at 32% and metros at 12%, while 300 million women viewers represented 48% of the total audience, highlighting the significant gender democratisation of sports consumption in India.

Strategic Market Positioning

These trends reinforce a shift in strategic focus toward nurturing sustainable non-cricket franchises, building women's sports commercial viability and leveraging Connected TV's premium addressability, positioning Indian sports for continued global leadership amidst evolving consumption patterns and platform innovation.

The Company has strategically strengthened its sports strategy by repurposing established channel brands like Zee Café and &Flix into dedicated sports feeds under the Zee Sports cluster. Securing exclusive multi-platform rights for marquee properties such as the ILT20 and the Uttar Pradesh Kabaddi League (UPKL), have further expanded its sports ecosystem across television and digital platforms.

Zee Sports

Zee Entertainment Enterprises Limited (ZEEL) continues to build its sports business with a long-term strategy focussed on audience growth and ecosystem development. In line with this outlook, ZEEL aims to nurture grassroots talent and create regionally relevant sports properties with strong community engagement across India and Bharat.

During the year, the Bengal Super League and the UP Kabaddi League emerged as important milestones, in building regional sports engagement and community connect. ZEEL also successfully executed the International League T20 season 4 (ILT20 season 4), which demonstrated its capacity to manage and monetise premium sports properties while reaching audiences across linear and digital platforms. ZEEL further expanded into emerging sports categories by airing and streaming leagues in baseball and pickleball, alongside exploring additional hosting and broadcast partnerships to assess audience potential across formats.

LIVE EVENTS

India’s live entertainment industry continued to witness strong growth during FY26, supported by changing consumer preferences, rising disposable incomes, urbanisation, and increasing demand for experience-driven entertainment formats. With a population of more than 1.4 billion and a large young demographic base, the country offers a sizeable audience for concerts, cultural events, festivals, exhibitions, sports entertainment, and large public gatherings.

The sector is gradually evolving from being viewed purely as a discretionary entertainment category to becoming an important contributor to economic activity. Large-scale events generate employment across multiple segments, including production, hospitality, travel, logistics, media, security, and venue management, while also supporting tourism and local commerce in host cities.

The organised live events market expanded to nearly ₹145 billion during the year, driven by higher participation across religious gatherings, music concerts, cultural festivals,

government events, corporate events, personal celebrations, and ticketed entertainment formats. Large religious gatherings, including the Maha Kumbh Mela, contributed meaningfully to event-related spending and highlighted the scale of India’s spirituality-linked event economy.

The industry is also witnessing a gradual shift in its revenue mix. Prior to the pandemic, advertising and sponsorship revenues formed a significant portion of the sector’s earnings. However, ticketed events are now gaining stronger acceptance among audiences, reflecting increasing consumer willingness to pay for curated live experiences and premium entertainment formats.

India hosted more than 130 large concert days during FY26, with each event drawing audiences exceeding 10,000 attendees. This trend reflects rising demand for large-format live entertainment experiences and growing participation across metropolitan cities as well as emerging urban centres.

Ticket-driven revenues during FY26 were largely driven by sports events, live music concerts, spiritual gatherings, and comedy shows, with demand remaining strongest across the top metropolitan markets. The growth in paid attendance reflects rising disposable incomes among upper and middle income households, particularly within younger consumer segments that increasingly prioritise experience-based spending.

Gen Z and millennial audiences continue to play an important role in shaping consumption trends within the live entertainment industry. Social engagement, fan communities, and digital influence have contributed to higher participation levels, repeat attendance, and the growing popularity of large-scale live experiences. In several urban centres, live events are increasingly emerging as an alternative leisure option alongside traditional cinema viewing, particularly as consumers become more selective in their entertainment spending decisions.

Digital platforms have also strengthened the industry ecosystem by improving event discovery, audience engagement, online ticketing access, and targeted marketing capabilities. Wider smartphone penetration and growing digital payment adoption have further supported the expansion of organised ticketed events across cities.

Going forward, the organised live events market is projected to reach nearly ₹196 billion by 2028, supported by increasing

demand for premium experiences, expansion of year-round event calendars, and growing audience participation across formats. While metropolitan cities are expected to remain the primary demand centres, several emerging urban markets are likely to contribute meaningfully to incremental growth as infrastructure development and discretionary spending continue to improve.

The sector is also expected to witness increased participation from international event organisers, artists, and entertainment platforms, alongside the introduction of new event formats catering to niche audience segments. These developments are expected to strengthen the scale, formalisation, and economic contribution of India’s live entertainment industry over the coming years.

The continued expansion of India’s live entertainment ecosystem, supported by rising consumer preference for experience-led formats, increasing ticketed participation and stronger digital engagement, is creating significant opportunities across the organised events landscape. In this evolving environment, integrated entertainment platforms with capabilities spanning content creation, audience engagement, on-ground execution and multi-platform amplification are well-positioned to capitalise on the growing demand for large-scale and community-driven live experiences, creating a strong growth runway for Z Live.

Zee Live

Z Live operates as the live entertainment division of the group with an integrated presence across the live entertainment value chain. The business functions across content creation, event execution, audience engagement, digital amplification, and monetisation, supported by synergies across broadcast, OTT, live, and digital platforms.

The division focusses on developing and scaling live intellectual properties (“IPs”) across multiple formats, including music, devotional content, comedy, cultural events, spoken word, poetry, regional entertainment, and community-driven experiences spanning both domestic and international concepts.

Z Live continues to strengthen audience engagement through multi-format entertainment platforms, talent partnerships, and collaborative associations with event promoters and content creators. The business also works closely with partners to deliver large-scale live entertainment experiences across markets.

In addition to consumer events, Z Live provides integrated brand solutions through the development of on-ground IPs, customised experiential formats, and large-format live events designed for brand engagement and audience interaction across India.

Zee Syndication

Zee Syndication Business plays a strategic role in connecting content with audiences by acting as an agile bridge between premium content supply and diverse demand across hyper-local and international markets. Designed as a unified distribution engine for Indian and global content creators, the syndication vertical enables scalable reach while adapting to varied consumption patterns across regions and platforms. Through this approach, the business supports cultural exchange by ensuring content travels efficiently across geographies, formats, and audience segments.

The Syndication Business operates across three core verticals: licensing of ‘Z’'s own content, third-party content distribution, and a growing Multi Channel Network (MCN) business.

HUMAN RESOURCES

People are central to ‘Z’*s* ability to execute its strategy, adapt to change and build a future-ready organisation. The Company’s people approach focusses on developing an agile, capable, and high-performing workforce while fostering a culture of inclusion, accountability, learning, and wellbeing.

During FY26, the Company continued to strengthen its human capital capabilities through internal talent mobility, leadership development, future-ready capability building and a stronger performance culture. Particular emphasis was placed on digital and AI upskilling, enabling employees to take on broader responsibilities and supporting the Company’s evolving business priorities.

The Company also continued to strengthen diversity and equal opportunity, employee engagement, recognition, health, safety and holistic wellbeing, with the objective of building organisational resilience and enabling employees to grow with the business.

For further details on the Company’s people practices and initiatives, refer to the ‘Social (Employees)’ section on pages 105–115 of this Integrated Report.

RISKS AND CONCERNS

The Company’s principal and emerging risks, together with its risk governance framework and key mitigation actions, are discussed in the Risk Management chapter on pages 44–49 of this Integrated Report.

All figures for FY25 and FY24 are for continuing operations except when otherwise stated.

‘Z’*s* consolidated revenues for the year ended March 31, 2026 stood at ₹80,989 million, compared to FY25, reflecting a decline of 2% primarily due to lower advertising revenues, partially offset by growth in subscription revenues driven by growth in digital business.

Advertising revenues for the year ended March 31, 2026 declined by 10% YoY and stood at ₹32,243 million, as the advertising environment remained subdued during the year, particularly impacted by softness in FMCG spending and geopolitical uncertainties in the latter part of the year. However, the Company witnessed a gradual sequential recovery in advertising demand supported by improved network share and enhanced content offerings.

Subscription revenue during the year grew by 4% YoY to ₹40,796 million, primarily led by strong traction in the digital business, aided by the success of the 7-language pricing packs and improved subscriber base.

Other sales and services revenue for the year stood at ₹7,950 million, up 2% YoY, driven by continued momentum in the syndication business, partially offset by a muted performance in the studio segment.

‘Z’*s* digital business, ZEE5, continued to be a key growth driver during the year, with revenues increasing by 53% YoY to ₹14,888 million. The strong performance was driven by enhanced content offerings, improved pricing strategy and increased contribution from syndication, resulting in the platform achieving EBITDA breakeven and turning profitable during the year on a comparable basis.

‘Z’*s* total operating expenses were largely stable on a year-on-year basis, supported by cost optimisation initiatives across programming, manpower and overheads, which were partially offset by strategic investments towards digital growth, content creation and new initiatives.

Further, the operating costs during the year were affected by a revision in estimates related to the amortisation pattern of movie rights inventory, as well as additional impairment recognised. Consequently, content costs were recognised on a more accelerated basis, in line with evolving content consumption trends, coupled with lower levels of content capitalisation in recent years.

Adjusted for the change in content amortisation policy, EBITDA for the year stood at ₹7,547 million, with adjusted EBITDA margins of 9.3%. And EBITDA for the year stood at ₹3,463 million, with EBITDA margins at 4.3%.

The profitability for the year was impacted by lower advertising revenues and certain one-off expenses, including changes in content amortisation policy and higher legal costs.

Profit after tax for the year stood at ₹2,713 million. The profitability was impacted by the aforementioned factors, including the change in amortisation policy and certain one-time expenses during the year.

The Company maintained a strong balance sheet with cash and treasury investments at ₹27,595 million as of March 31, 2026, reflecting improved liquidity and prudent financial management. Content inventory levels declined on a year-on-year basis driven by disciplined acquisitions and optimised capital allocation.

Overall, despite near-term headwinds in the advertising environment, the Company delivered steady progress on its strategic priorities. Continued investments in digital, content innovation and omnichannel monetisation, coupled with a lean cost structure, position the Company well to capitalise on an improving macro environment and drive sustainable long-term growth.

Notes:

1. In accordance with the provisions of the Companies Act, 2013 (‘Act’), read with the Rules made thereunder and General Circular No. 03/2025 dated September 22, 2025 other Circulars issued by the Ministry of Corporate Affairs (‘MCA’) from time to time, and Circular No. HO/49/14/14(7)2025-CFD-POD2/1/3762/2026 dated January 30, 2026 issued by Securities and Exchange Board of India (SEBI) (‘the Circulars’), Companies are allowed to hold AGM through video conference/other audio visual means (‘VC/OAVM’) till further orders, without the physical presence of members. Accordingly, in compliance with the provisions of the Act, Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (‘Listing Regulations’), MCA Circulars and SEBI Circulars, 44th AGM will be held through VC/OAVM only.

In accordance with the Secretarial Standard–2 on General Meetings issued by ICSI read with Clarification/ Guidance on applicability of Secretarial Standards – 1 and 2 issued by the ICSI, the proceedings of the AGM shall be deemed to be conducted at the registered office of the Company which shall be the deemed venue of the AGM.

National Securities Depository Limited (‘NSDL’) shall be providing facility for voting through remote e-voting, for participation in the AGM through VC/OAVM facility and e-voting during the AGM. The procedure for participating in the meeting through VC/OAVM is explained at Note no. 18.

2. Pursuant to the above-mentioned MCA Circulars, physical attendance of the Members is not required at the AGM and attendance of the Members through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Act.
3. An Explanatory Statement pursuant to Section 102 of the Act, in respect of the business to be transacted at the AGM as set out under Item Nos. 4 to 8 and relevant details of the Director as mentioned under Item No. 3, and Item Nos. 5 to 8 as required under Regulation 36(3) of the Listing Regulations and Secretarial Standard – 2 on General Meetings issued by the Institute of Company Secretaries of India (‘ICSI’) are annexed hereto.

The Board of Directors has considered and decided to include the Item Nos. 4 to 8 given above as Special Business in the forthcoming AGM, as they are unavoidable in nature.

4. **PURSUANT TO THE PROVISIONS OF THE ACT, A MEMBER ENTITLED TO ATTEND AND VOTE AT THE AGM IS ENTITLED TO APPOINT A PROXY TO ATTEND AND VOTE ON HIS/HER BEHALF AND THE PROXY NEED NOT BE A MEMBER OF THE COMPANY.** Since this AGM is being held pursuant to MCA and SEBI Circulars through VC/OAVM, the requirement of physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by the Members shall not be available for AGM or any adjournment thereof, if any, and hence the Proxy Form, Attendance Slip and Route Map are not annexed to this Notice.
5. Pursuant to Section 113 of the Act, Institutional/ Corporate Shareholders (i.e. other than individuals, HUF, NRI etc.) intending to participate in the AGM are required to send a scanned copy (PDF/JPG format) of its Board or governing body Resolution/Authorisation etc., authorizing their representative to attend the AGM through VC/OAVM on its behalf and to vote through remote e-voting. The said Resolution/Authorisation shall be sent to the Scrutiniser by e-mail through its registered e-mail address to vinita@vinodkothari.com with a copy marked to shareservice@zee.com and evoting@nsdl.com.
6. The Company has fixed Thursday, September 10, 2026, as the ‘Record Date’ for determining entitlement of Members for dividend for the financial year ended March 31, 2026, if approved at the AGM.
7. Equity Dividend for the financial year ended March 31, 2026, as recommended by the Board of Directors, if approved by Members at the AGM, will be paid, subject to deduction of tax at source (‘TDS’) on or after Friday, September 18, 2026 (within the statutory time limit), to those Members whose names appear in the Register of Members as on the Record Date i.e. September 10, 2026.
8. Members may note that as per the Income Tax Act, 2025, dividends paid or distributed by the Company shall be taxable in the hands of the shareholders and the Company shall be required to deduct TDS at the prescribed rates from the dividend to be paid to shareholders, subject to approval of shareholders in the ensuing AGM. The TDS rate would vary depending on the residential status of the shareholder and the documents submitted by them and accepted by the Company. For the prescribed rates for various categories, the shareholders are requested to refer to the Income Tax Act, 2025. The shareholders are requested to update their Residential Status, PAN, Category, Email Address, Residential Address with the Company / Company’s

Registrars and Transfer Agents, MUFG Intime India Private Limited ('MUFG Intime') (in case of shares held in physical mode) and Depository Participants ('DPs') (in case of shares held in demat mode).

9. A resident individual shareholder with PAN and who is not liable to pay income tax can submit a yearly declaration in Form No. 121, to avail the benefit of non-deduction of tax at source by uploading the relevant documents on the link <https://web.in.mpms.mufg.com/formsreg/submission-of-Form-121-41.html> on or before Friday, September 4, 2026. Shareholders are requested to note that in case their PAN are not registered, the tax will be deducted at a higher rate.

Non-resident shareholders can avail beneficial rates under tax treaty between India and their country of residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 41, any other document which may be required to avail the tax treaty benefits by uploading the relevant declarations and documents on the link as mentioned above. The aforesaid declarations and documents need to be submitted by the shareholders on or before Friday, September 4, 2026.

Members may please note that SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022, as amended, has mandated the Listed Companies to issue securities in demat form only while processing service requests viz. Issue of duplicate securities certificate; claim from Unclaimed Suspense Account; Renewal/Exchange of securities certificate; Endorsement; Subdivision/Splitting of securities certificate; Consolidation of securities certificates/folios; Transmission and Transposition. Accordingly, Members are requested to make service requests by submitting a duly filled and signed Form ISR-4, the format of which is available on the Company's website under the weblink at www.zee.com and on the website of the Company's RTA at www.in.mpms.mufg.com. It may be noted that any service request can be processed only after the folio is KYC compliant. SEBI vide its notification dated January 24, 2022, has mandated that all requests for transfer of securities including transmission and transposition requests shall be processed only in dematerialised form. In view of the same and to eliminate all risks associated with physical shares and avail various benefits of dematerialisation, Members are advised to dematerialise the shares held by them in physical form. Members can contact the Company or RTA for assistance in this regard.

10. To support the 'Green Initiative', Members who have not yet registered their e-mail addresses are requested to

register the same with their DPs, in case the shares are held in electronic form and with MUFG Intime in case the shares are held in physical form.

11. Members are requested to intimate changes, if any, pertaining to their name, postal address, e-mail address, telephone/mobile numbers, Permanent Account Number (PAN), mandates, nominations, power of attorney, bank details such as, name of the bank and branch details, bank account number, MICR code, IFSC code, etc., to their DPs, in case the shares are held in electronic form and to MUFG Intime, in case the shares are held in physical form.

The Company has sent individual letters to all the Members holding shares of the Company in physical form for furnishing their PAN, KYC details and Nomination pursuant to SEBI Master Circular No. SEBI/HO/MIRSD/SECFATF/P/CIR/2023/169 dated October 12, 2023 read with SEBI Master Circular No. HO/38/13/(4)2026-MIRSDPOD/I/4298/2026 dated February 6, 2026, in Form ISR-1. The Form ISR-1 is also available on the website of the Company at www.zee.com. Attention of the Members holding shares of the Company in physical form is invited to go through and submit the said Form ISR-1.

Pursuant to the relevant SEBI Circulars, dividends to security holders holding shares in physical mode shall be paid only in electronic mode, provided the folio is KYC-compliant, as payment through dividend warrants or cheques has been discontinued. A folio will be considered as KYC compliant on registration of all details viz. full address with pin code, mobile no., email address, bank details, valid PAN linked to Aadhaar of all holders in the folio, specimen signature, nomination, etc.

The forms for updation of PAN, KYC, Bank details and Nomination viz. Forms ISR-1, ISR-2, ISR-3 and SH-13 are available on the Company's website www.zee.com. In view of the above, we urge Members holding shares in physical form to submit the required forms duly filled up and signed, along with the supporting documents at the earliest to the Company/RTA. In this regard, the Company has sent communication to shareholders holding shares in physical form. Further, Members who hold shares in dematerialised form and wish to update their PAN, KYC, Bank details and Nomination, are requested to contact their respective DPs.

12. As per the provisions of Section 72 of the Act, the facility for making nomination is available for the Members in respect of the shares held by them. Members who have not yet registered their nomination are requested to register the same by submitting Form No. SH-13. The said form can be downloaded from the Company's

website www.zee.com. Members are requested to submit the said details to their DPs, in case the shares are held by them in electronic form and to MUFG Intime, in case the shares are held in physical form. If a Member desires to opt out or cancel the earlier nomination and record a fresh nomination, he/she may submit the same in Form No. ISR-3 or Form No. SH-14, as the case may be. The said forms are available on the Company's website at www.zee.com. Members are requested to submit the said details to their respective DP, in case the shares are held by them in dematerialised form and to the Company/MUFG Intime, in case the shares are held by them in physical form.

13. In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote at the AGM provided the votes are not already cast through remote e-voting.
14. Members who wish to obtain information on the Financial Statements for the financial year ended March 31, 2026, may send their queries at least seven days before the AGM to the Company Secretary at the registered office of the Company or by e-mail to shareservice@zee.com. The same will be replied by the Company.
15. Equity Dividend for the financial year ended March 31, 2019, which remains unpaid and unclaimed, will be transferred to the Investor Education and Protection Fund ('IEPF') of the Central Government within 30 days from 'Due Date', viz. August 29, 2026. Members who have not encashed their dividend warrant(s) for dividend issued by the Company for the financial year ended March 31, 2019, or any subsequent financial years, are requested to lodge their claims immediately with MUFG Intime.

Members may further note that, pursuant to Section 124 of the Act, read with the IEPF Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (as amended), all shares on which dividend remains unclaimed for 7 (seven) consecutive years or more have been, and shall be liable to be transferred to IEPF Authority. Members are further advised that in terms of applicable provisions of the Act and IEPF Rules, Unclaimed Dividends and shares transferred to IEPF Authority can be claimed from the IEPF Authority after following the process prescribed in the said Rules.

16. In compliance with the MCA Circulars and SEBI Circulars, the Annual Report which includes 44th AGM Notice for the financial year 2025–26 is being sent only through electronic mode to those Members whose e-mail addresses are registered with the Company/Depositories. Further, a letter providing a weblink and

QR code for accessing the Notice of the AGM and Integrated Annual Report for the financial year 2025–26 will be sent to those shareholders who have not registered their email address. Members may note that the said Annual Report will also be available on the Company's website at www.zee.com, websites of the Stock Exchanges i.e. BSE Limited and National Stock Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively and on the website of NSDL at www.evoting.nsdl.com.

17. Statutory Registers and all the documents referred to in the accompanying notice and the statement pursuant to Section 102(1) of the Act are available for inspection electronically on the website of the Company upto conclusion of the 44th AGM.

18. THE INSTRUCTIONS FOR MEMBERS FOR REMOTE E-VOTING AND JOINING ANNUAL GENERAL MEETING ARE AS UNDER:

A. Voting Through Electronic Means

ITEM No. 5, 6, 7, and 8:

RE-APPOINTMENT OF MS. DEEPU BANSAL (DIN: 09497525), MR. UTTAM PRAKASH AGARWAL (DIN: 00272983), DR. VENKATA RAMANA MURTHY PINISETTI (DIN: 03483544) AND MR. SHISHIR BABUBHAI DESAI (DIN: 01453410) AS INDEPENDENT DIRECTORS OF THE COMPANY:

Ms. Deepu Bansal (DIN: 09497525), Mr. Uttam Prakash Agarwal (DIN: 00272983), Dr. Venkata Ramana Murthy Piniseti (DIN: 03483544) and Mr. Shishir Babubhai Desai (DIN: 01453410) were appointed as Independent Directors of the Company pursuant to Section 149 of the Companies Act, 2013 ('Act') read with the Companies (Appointment and Qualification of Directors) Rules, 2014 and the applicable provisions of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ('Listing Regulations'), by the members of the Company at the 41st Annual General Meeting held on December 16, 2023 for Ms. Deepu Bansal and through a postal ballot conducted in March 2024 for Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai.

In line with the overall limit of tenure permissible under the statutory provisions of the Act, to promote consistency in Board succession planning and governance practices considering strategic initiatives and transformation in progress and, based on the recommendations of the Nomination & Remuneration Committee, the Board of Directors of the Company approved the revision in tenure of Independent Directors from three years to five years for each term of appointment.

The first term as an Independent Director of Ms. Deepu Bansal is due to expire on October 12, 2026 and for Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai is due to expire on December 16, 2026. The Nomination and Remuneration Committee ("NRC") after considering their performance evaluation of all aforesaid Independent Directors and taking into account their knowledge, expertise, experience, skills, substantial contribution and time commitment, has recommended to the Board their re-appointment for a second term of 5 years.

(A) Ms. Deepu Bansal

Ms Deepu Bansal possesses over 21 years of extensive professional experience across critical domains, including risk management, internal audit, governance and regulatory compliance, and the design and implementation of robust process controls. Throughout her career, she has demonstrated a strong track record of strengthening internal control frameworks, enhancing risk mitigation strategies, and ensuring adherence to evolving regulatory requirements and corporate governance standards.

Her expertise spans identification and assessment of strategic and operational risks, development of internal audit plans, review of financial and non-financial controls, and advising management on best practices for improving organizational efficiency and compliance culture. She has also been instrumental in driving process improvements and embedding accountability mechanisms within organizations.

Over the past three years, Ms. Deepu Bansal has consistently devoted adequate time and attention to effectively discharge her duties and responsibilities as an Independent Director. Her focused engagement has enabled her to actively contribute to Board deliberations, provide independent oversight, and support the Board in upholding high standards of corporate governance. The Board also noted her active participation in Board and Committee deliberations.

The NRC and the Board have evaluated her qualifications, expertise and experience and are satisfied that she possesses the requisite skills, knowledge, integrity, independence and strategic leadership capabilities required for the role of an Independent Director. Her expertise in risk management, internal controls, governance, regulatory compliance and internal audit is particularly relevant for strengthening the Company's governance and oversight framework and will continue to provide valuable guidance and contribute meaningfully to the effective functioning of the Board and its Committees.

(B) Mr. Uttam Prakash Agarwal

Mr. Uttam Prakash Agarwal possesses over three decades of extensive experience in finance, taxation, banking, investment, insurance, mutual funds, audit, corporate governance and regulatory affairs. He has held several distinguished leadership positions, including serving as the President of the Institute of Chartered Accountants of India ('ICAI'), and has been associated with various regulatory and professional bodies such as Securities and Exchange Board of India, Reserve Bank of India, Insurance Regulatory and Development Authority of India, Ministry of Corporate Affairs, Comptroller and Auditor General of India and the International Federation of Accountants (IFAC). He serves on the boards of other listed companies and financial institutions, bringing deep insight into governance, compliance and stakeholder management. His expertise in finance, taxation, accounting, capital markets and regulatory affairs enables the Board to benefit from deep financial and governance oversight.

The NRC and the Board have evaluated his qualifications, expertise and experience and are satisfied that he possesses the requisite skills, knowledge, integrity, independence and strategic leadership capabilities required for the role of an Independent Director. His strong understanding of financial oversight, risk management, regulatory compliance, board processes and corporate governance, together with his proven track record of leadership and public service, will continue to provide valuable guidance and contribute meaningfully to the effective functioning of the Board and its Committees.

(C) Dr. Venkata Ramana Murthy Piniseti

Dr. Venkata Ramana Murthy Piniseti possesses over three and a half decades of extensive leadership experience in human resources, strategy, organisation development, talent management, business transformation, leadership development, employment

laws and corporate governance. He has held senior leadership positions with leading multinational and Fortune 500 organisations, including serving as Executive Vice President and Global Chief Human Resources Officer of The Indian Hotels Company Limited (IHCL) and as a Board-level Human Resources leader with The Coca-Cola Company. His global exposure across Asia, Europe and the United States, coupled with his academic credentials, executive coaching expertise and advisory roles to CEOs and Boards, provides him with a broad strategic and governance perspective.

The NRC and the Board have evaluated his qualifications, expertise and experience and are satisfied that he possesses the requisite skills, knowledge, integrity, independence and leadership capabilities required for the role of an Independent Director. His deep understanding of organisational effectiveness, human capital management, succession planning, culture transformation, stakeholder engagement, risk management and strategic decision-making enables him to provide valuable insights to the Board. His experience in guiding organisations through complex business and talent challenges will contribute meaningfully to the Company's governance framework and the effective functioning of the Board and its Committees. His expertise in human capital, leadership development, succession planning, organisation transformation and culture building provides valuable perspectives to the Board.

(D) Mr. Shishir Babubhai Desai

Mr. Shishir Babubhai Desai possesses extensive experience of over four decades in corporate and commercial laws, financial restructuring, mergers and acquisitions, private equity, joint ventures, foreign collaborations, regulatory compliance and corporate governance. As the Founder Partner of Desai Billimoria & Associates, Advocates & Solicitors, he has advised on a wide range of complex legal, commercial and strategic transactions. He is a Solicitor enrolled with the Bombay Incorporated Law Society, a Solicitor of the Supreme Court of England & Wales (Non-Practicing), and a Member of the Institute of Company Secretaries of India.

The NRC and the Board have evaluated his qualifications, expertise and experience and are satisfied that he possesses the requisite skills, knowledge, integrity, independence and leadership capabilities required for the role of an Independent Director. His deep understanding of legal and regulatory frameworks, board governance, risk management, commercial

negotiations and strategic decision-making enables him to provide valuable insights and independent judgment on matters relating to governance, compliance and business strategy, thereby contributing effectively to the functioning of the Board and its Committees. His extensive experience in corporate law, mergers and acquisitions, regulatory matters, strategic transactions and governance contributes significantly to Board deliberations.

Mr. Shishir Babubhai Desai will attain the age of 75 years during the second term and, in order to continue his directorship, a Special Resolution is required to be passed pursuant to Regulation 17(1A) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The Board is of the opinion that Mr. Shishir Babubhai Desai's rich and diverse experience is a valuable asset to the Company and enriches Board deliberations through his extensive legal, governance and strategic expertise. He is a person of integrity who possesses the required expertise, and his continued association as an Independent Director would be beneficial to the Company. The Board considers that his continued association would be of immense benefit to the Company and accordingly recommends the Special Resolution for continuation of his directorship during the second term in compliance with Regulation 17(1A) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

In view of the above, the NRC and the Board are of the view that Ms. Deepu Bansal, Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai possess the required skills and capabilities for the role of an Independent Director and hence it is proposed to reappoint them as independent directors.

Based on the recommendations of NRC the Board at its meeting held on August 10, 2026, has recommended the following for approval of members by means of Special Resolution:

- re-appointment of Ms. Deepu Bansal as Independent Director for the second term of 5 (five) years effective from October 13, 2026, to October 12, 2031 (both days inclusive), not liable to retire by rotation; and
- re-appointment of Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai as Independent Directors for the second term of 5 (five) years effective from December 17, 2026, to December 16, 2031 (both days inclusive), not liable to retire by rotation.

In accordance with the provisions of Section 149 read with Schedule IV to the Act and Regulation 16, 17 and 25 of the

Listing Regulations, the re-appointment of an Independent Director requires approval of the members by way of Special Resolution. Further, Regulation 17(1C) of the Listing Regulations requires listed entities to obtain approval of shareholders for appointment /re-appointment of a person on the Board of Directors at the next general meeting or within a time period of 3 months from the date of appointment/re-appointment whichever is earlier. Further, in case the appointment is subject to approval of regulatory government or statutory authorities then the time taken to receive such approval shall be excluded for the purpose of this clause.

As the Company operates in the Media and Entertainment sector it is governed by the Ministry of Information and Broadcasting ('MIB'). The Company had already obtained the requisite approval from MIB for their appointment as directors of the Company when they were initially appointed as Independent Directors in October 2023 and December, 2023 respectively. Accordingly, no further approval from MIB is required for their current re-appointment.

The Company has also received declarations from the aforesaid directors confirming that they meet the criteria of independence as prescribed in the Section 149(6) of the Act and the Listing Regulations. The Company has received requisite consent pursuant to the provisions of section 152 of the Act along with confirmation that they are not disqualified from being appointed as directors in terms of section 164 of the Act and are not debarred from holding the office of director by virtue of any SEBI order or any other regulatory/statutory authority.

Ms. Deepu Bansal, Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai have duly complied with the requirements of the Companies (Creation and Maintenance of databank of Independent Directors) Rules, 2019 read with the Companies (Appointment and Qualification of Directors) Rules, 2014 with respect to enrolment of their names in the online databank of Independent Directors.

The Company has also received notices under section 160 of the Act from members intending to nominate Ms. Deepu Bansal, Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai to the office of Independent Directors.

In the opinion of the Board and based on its evaluation, the aforesaid Directors fulfill the conditions specified in the Act, Rules made thereunder and the Listing Regulations for their re-appointment as Independent Directors of the Company and that they are independent of the management of the Company.

The Nomination and Remuneration Committee and the Board have also reviewed the other directorships, committee

positions and professional commitments of the aforesaid Directors and are satisfied that there are no material conflicts of interest which could impair their ability to exercise independent judgement and discharge fiduciary responsibilities in the best interests of the Company and its stakeholders.

The resolutions seek the approval of the members pursuant to Sections 149, 152 and other applicable provisions of the Act and the Rules made thereunder (including any statutory modifications or re-enactment(s) thereof) for:

- re-appointment of Ms. Deepu Bansal as Independent Directors for the second term of 5 (five) years effective from October 13, 2026 to October 12, 2031 (both days inclusive), not liable to retire by rotation; and
- re-appointment of Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai as Independent Directors for the second term of 5 (five) years effective from December 17, 2026 to December 16, 2031 (both days inclusive), not liable to retire by rotation.

Further, the aforesaid Directors shall be entitled to receive remuneration by way of sitting fees for attending meetings of the Board or Committees thereof, reimbursement of expenses for participating in such meetings and profit related commission, if any within the limit stipulated under Section 197 of the Act.

Copies of the letters of re-appointment for the above four directors setting out the terms and conditions of their re-appointment are available for inspection by the members on the website of the company.

None of the other Directors, Key Managerial Personnel of the Company and their relatives except Ms. Deepu Bansal (whose re-appointment is proposed in the Resolution No. 5) are in any way concerned or interested financially or otherwise in the resolution set out at item No. 5 of the Notice.

None of the other Directors, Key Managerial Personnel of the Company and their relatives except Mr. Uttam Prakash

Agarwal (whose re-appointment is proposed in the Resolution No. 6) are in any way concerned or interested financially or otherwise in the resolution set out at item No. 6 of the Notice.

None of the other Directors Key Managerial Personnel of the Company and their relatives except Dr. Venkata Ramana Murthy Piniseti (whose re-appointment is proposed in the Resolution No. 7) are in any way concerned or interested financially or otherwise in the resolution set out at item No. 7 of the Notice.

None of the other Directors Key Managerial Personnel of the Company and their relatives except Mr Shishir Babubhai Desai (whose re-appointment is proposed in the Resolution No. 8) are in any way concerned or interested financially or otherwise in the resolution set out at item No. 8 of the Notice.

The brief profile including educational qualifications of Ms. Deepu Bansal, Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai along with other information as required under Regulation 36(3) of the Listing Regulations, as amended and/or Secretarial Standard on General Meetings (SS-2) forms part of the Annexure of the Notice.

The Board is also of the view that the proposed re-appointment would help maintain an appropriate balance of skills, experience, diversity and independence on the Board and would continue to strengthen the Company's governance framework.

The Board believes that the continued association of Ms. Deepu Bansal, Mr. Uttam Prakash Agarwal, Dr. Venkata Ramana Murthy Piniseti and Mr. Shishir Babubhai Desai would be beneficial to the Company considering their valuable contribution during the first term, extensive experience, domain knowledge, understanding of governance practices and ability to provide independent and objective judgement on matters placed before the Board.

The Board recommends the Special Resolutions set out at items Nos 5, 6, 7 and 8 of the Notice for approval of the Members.

4. BUSINESS OVERVIEW

As per the EY-FICCI report published in March 2026, the Media & Entertainment (M&E) sector grew by 9% in 2025, largely driven by digital media, which expanded by 30%.

The Digital Media segment witnessed strong growth of 30%, becoming the largest segment within the Media & Entertainment industry. This growth was led by rapid expansion in both advertising and subscription revenues. Digital advertising grew by 26% to ₹ 947 billion, driven by the continued shift of ad spend from traditional media, strong traction in Q-Commerce & other digital advertising, and increasing contribution from SMEs and long-tail advertisers. Further, digital subscription revenues increased by 60% to ₹ 163 billion, supported by premium content behind paywalls, strong growth in OTT video subscriptions, and improving monetisation in music streaming. The segment also benefited from increasing smartphone penetration, growth in Connected TV households, and higher consumption of regional and short-form content.

In contrast, the Linear TV industry revenue declined by 9% due to decline in TV advertising, driven by reduced ad volumes, reallocation of budgets towards Q-Commerce & other digital advertising, and the impact of the ban on real money gaming on sports advertising. Linear TV advertising was also affected by a slowdown in FMCG ad spending. Subscription revenue declined by 8% due to a reduction in Pay TV households, partially offset by price increases.

In FY26, your Company's operating revenue declined by 2% year-over-year (YoY). Advertising revenues declined to ₹ 32,243 million, reflecting the slow recovery in consumption demand particularly among FMCG companies, and a shift in advertising spend towards digital platforms, especially Q-commerce. Further the advertising revenue was also impacted by the middle east crisis started in Feb'26.

Subscription revenues increased by 4% YoY to ₹ 40,796 million, led by growth in digital subscription revenues, particularly in ZEE5 and Music. Additionally, Other Sales and Services increased by 2%, driven by syndication deals and performance of movie content.

Your Company's digital business, including ZEE5, has grown at a Compounded Annual Growth Rate (CAGR) of 27% since FY24, reaching ₹ 14,888 million. This growth has been driven by an enhanced content offering across seven languages and a revised pricing strategy, resulting in improved performance, enhanced viewing experience, and increased value delivered to viewers. ZEE5 significantly expanded its digital offerings, releasing

over 120 shows and movies, including 34 originals. ZEE5 continues to be one of the top-rated OTT platform applications across both iOS and Android platforms.

FY26 also marked the first year in which your Company's digital business delivered a positive EBITDA on a comparable basis, in line with the guidance provided at the beginning of the year. The Company remains focused on maintaining a balanced cost structure and driving returns on investment to support long-term growth.

The micro-drama app, Bullet, continues to gain traction with its differentiated model of gamifying the viewing experience and engaging users through short-form content.

Your company in November 2025 forayed in the kids entertainment genre, by launching KidZ on its digital platform – Zee 5. KidZ will feature engaging content offerings that aim to educate and entertain the young and budding viewers. And provide kids, safe content.

In the domestic broadcasting business, your Company continues to be among India's leading television networks, with 852 million viewers tuning into the 'Z' network during the year. The gap with the leading network stands at only 2%, despite 'Z' operating nearly half the number of channels. Further, as part of the Company's omnichannel strategy, monthly unique reach has crossed 800 million across platforms.

The 'Z' network's linear viewership share grew by 60 basis points to reach a six-year high of 17.4% in FY26. This growth was supported by the return of Anmol TV to Free Dish and strong performance from key pay GEC channels such as Zee TV, Zee Telugu, Zee Marathi, and Zee Tamil.

In the international broadcasting business, the portfolio consists of over 40 dedicated channels and more than 75 pass-through channels, covering over 120 countries. The business has adopted a strategy of taking Indian content to global audiences by broadcasting content produced by the parent network in India. Your Company is a pioneer in the M&E industry in implementing this model. Additionally, the Company produces local language content in select international markets.

Under Other Sales and Services, Zee Studios released 20 films during the year. The Company also strengthened its syndication initiatives across platforms and geographies, achieving an all-time high in syndication revenue.

Zee Music Company (ZMC), your Company's music publishing label, has built a strong presence with over

~176 million subscribers on YouTube in India. With an expansive catalogue of music rights across languages, ZMC has emerged as the second-most-listened-to Indian music label within a short period. Its catalogue comprises over 20,000 songs across more than 20 languages.

During the year, your Company also made strategic investments across emerging segments, including kids, sports, live events, and micro-drama. Additionally, the Company invested ₹ 1,160 million in Phantom Digital Effects Limited, a global VFX company. This investment is aimed at strengthening the Company's capabilities in the AVGC segment and enabling the creation of more immersive content across platforms.

In June'26 the Company secured the exclusive rights to broadcast, stream and distribute a portfolio of 39 FIFA competitions in India from 2026 to 2034. The company also launched 4 sports channel "Unite8" along with the acquisition of FIFA rights.

5. CHANGES IN CAPITAL STRUCTURE

During the year under review, there was no change in the paid-up equity share capital of the Company.

As on March 31, 2026, the paid-up equity share capital of the Company was ₹ 960,519,420 comprising of 960,519,420 equity shares of ₹1 each.

As on March 31, 2026, the shareholding of the promoter and promoter group in the Company was 3.99%.

6. FOREIGN CURRENCY CONVERTIBLE BONDS

The Company had entered into a Subscription Agreement dated July 16, 2024 with St. John's Wood Fund Limited, Resonance Opportunities Fund and Ebisu Global Opportunities Fund Limited ('collectively, the 'Bond Holders') for the issuance, on private-placement basis, of 5% coupon, unsecured, unlisted, Foreign Currency Convertible Bonds ('FCCBs') aggregating up to USD 239 million and maturing in 10 years. Pursuant to the Agreement, the Company issued the first tranche of FCCBs aggregating to USD 23.9 million on August 12, 2024.

During the year under review on account of, inter-alia, the prevailing geopolitical situation and consequent capital allocation strategy, the aforesaid Bond Holders requested the Company for redemption of the outstanding FCCBs held by them amounting to USD 23.9 million along with interest thereon and cancellation of the unutilized commitment of USD 215.1 million. The Board considered the requests and considering its positive impact on treasury, accorded its approval subject to regulatory and contractual requirements.

The Company had applied to the Reserve Bank of India ('RBI') seeking approval for the redemption of its outstanding FCCBs aggregating to USD 23.9 million and cancellation of the unutilized FCCB commitment amounting to USD 215.1 million. Pursuant to the approval received from RBI on July 13, 2026, the Company redeemed the outstanding FCCBs, together with accrued interest thereon, on July 18, 2026, and the unutilized FCCB commitment of USD 215.10 million was cancelled thereafter.

7. PREFERENTIAL ISSUE OF FULLY CONVERTIBLE WARRANTS TO PROMOTER GROUP ENTITIES

The Company operates in a dynamic and highly competitive environment and, accordingly, seeks to strengthen its growth trajectory and longterm profitability by creating a strategic capital reserve. It was proposed to raise and utilize capital for supporting its business expansion through organic and inorganic growth initiatives, including investments in new and existing business segments, enhancement of operational and technological capabilities, evaluation of strategic acquisitions in the entertainment, content, and related sectors, and for general corporate purposes, with the objective of strengthening its longterm business prospects.

Accordingly, the Board of Directors of the Company, at its meeting held on June 16, 2025, approved a preferential issue of up to 16,95,03,400 warrants at ₹ 132 per warrant, aggregating up to ₹ 2237,44,48,800, to Sunbright Mauritius Investments Limited and Altalis Technologies Private Limited (members of the Promoter Group), subject to approval of Members and other necessary approvals. The Company convened an Extraordinary General Meeting (EGM) to seek Members' approval. The special resolution placed before the Members for approving the proposed issue did not receive the requisite majority and, accordingly, the proposed issue was not implemented.

Based on implementation of various strategic initiatives, including FIFA, the Board of Directors of the Company, at its meeting held on July 1, 2026, approved the issuance of up to 24,94,85,563 fully convertible warrants on a preferential basis to Sunbright Mauritius Investments Limited, a Promoter Group entity, at an issue price of ₹ 126 per warrant, aggregating up to ₹ 31,43,51,80,938/- (Rupees Three Thousand One Hundred Forty-Three Crores Fifty One Lakhs Eighty Thousand Nine Hundred Thirty Eight Only) ('Total Issue Size'), in accordance with the applicable provisions of the Companies Act, 2013, the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, and other applicable laws and regulations. The said proposal was approved by the Members of the Company at the Extraordinary

General Meeting held on July 31, 2026. The warrants are convertible into an equivalent number of fully paid-up equity shares of face value ₹ 1 each at a premium of ₹ 125 per share, subject to the terms and conditions of the issue and applicable regulatory requirements.

SEBI issued a Show Cause Notice ('SCN') dated August 07, 2025, to the Company and its Key Managerial Personnel ('KMP'), inter-alia in relation to certain violations of SEBI Regulations. SEBI passed its final order dated July 31, 2026, which was sent and received by the Company/KMP on August 1, 2026, imposing monetary penalties and debarment from accessing the securities market. The Company and KMP have challenged SEBI's order before the appellate authority and the matter is presently sub-judice.

8. ZEE ENTERTAINMENT ENTERPRISES LIMITED – 'TRULY YOURS' – EMPLOYEE STOCK OPTION PLAN (ESOP PLAN)

The Board of Directors, at its meeting held on July 1, 2026, approved the introduction and implementation of the 'Zee Entertainment Enterprises Limited – 'Truly Yours' – Employee Stock Option Plan' ("ESOP Plan"), which was subsequently approved by the Members at the Extraordinary General Meeting held on July 31, 2026. The Members also approved the extension of the ESOP Plan to eligible employees of the subsidiary companies of the Company in India and outside India. The ESOP Plan provides for the grant of up to 3,74,22,835 employee stock options, with each option being exercisable into one equity share of face value ₹ 1 each, in accordance with the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 and other applicable laws. The ESOP Plan is aimed at attracting, retaining and motivating employees while aligning their interests with the long-term growth objectives of the Company.

11. NEW BUSINESS INITIATIVES

- **Investment up to ₹ 50 Crores by way of Optionally Convertible Debentures in ZBullet Enterprises Limited, a subsidiary of the Company**
The Company with the objective of leveraging the growing consumption of digital shortform

video content in India, undertook an initiative to develop a dedicated shortform content vertical focused on serialized fiction microdramas through a proprietary digital platform. In furtherance of this strategy, ZBullet Enterprises Limited ('ZBullet') was incorporated on June 12, 2025. During the initial phase of development of the "Bullet" app, the Company provided operational support, with all related costs and collections being recoverable or reimbursed by ZBullet on an actual basis. Further, in order to meet its ongoing business requirements and to defray the expenditure incurred and support provided by the Company, ZBullet raised funds by issuing Optionally Convertible Debentures ('OCDs') to the Company.

Accordingly, the Board of Directors of the Company, at its meeting held on August 14, 2025, approved an investment of up to ₹ 50 crore, in one or more tranches, in the OCDs of ZBullet. Pursuant to the said approval, the Company was allotted 5,000 OCDs of face value ₹ 1,00,000/- each representing a total investment of ₹ 50 crore during the financial year.

Subsequent to the close of the financial year, the Board, at its meeting held on May 19, 2026, approved an additional investment of up to ₹ 100 crore in the OCDs of ZBullet, in one or more tranches, to meet its ongoing business requirements and general administrative purposes.

- **Investment up to ₹ 40 Crores by way of Optionally Convertible Debentures in Rotate OneTouch Limited (formerly known as Advance Media Distribution Limited), a wholly-owned subsidiary of the Company**

Pursuant to the Company's strategic focus on contented broadband distribution integrated with OTT and linear television services, Rotate OneTouch Limited (formerly known as Advance Media Distribution Limited) ("Rotate OneTouch") was incorporated on June 28, 2025, as a wholly owned subsidiary of the Company. Rotate OneTouch was incorporated to facilitate enable broadband distribution and enable local cable operators to function as broadband agents.

Further, to meet the capex and working capital requirement, Rotate OneTouch Limited raised funds by issuing Optionally Convertible Debentures (OCDs) to the Company.

Accordingly, the Board of Directors of the Company, at its meeting held on August 14, 2025, approved an investment of up to ₹ 40 crore in one or more

tranches in OCDs of Rotate OneTouch Limited. Pursuant to the said approval, the Company was allotted 2000 OCDs on August 18, 2025, of face value ₹ 1,00,000/- each representing a total investment of ₹ 20 crore.

- **Restructuring and Reorganisation of Syndication Business**

The Company evaluated the restructuring and reorganising of its syndication business as a distinct vertical to strengthen external monetisation of its content library beyond broadcasting and digital platforms through a focused operating structure. Accordingly, the Board of Directors, at its meeting held on March 26, 2026, approved the following:

- o The sale and transfer of the Company's business of syndicating / licensing content together with all assets, liabilities, and all commercial and other rights forming part of the Business to its wholly owned subsidiary, ZI-IPR Enterprises Limited ("ZI-IPR"), by way of slump sale on a going concern basis. The slump sale was executed for a lump sum consideration at book value (as at date of transfer i.e. opening business hours of April 1, 2026).
- o Investment up to ₹ 500 Crore (Five Hundred Crores) in the Optionally Convertible Debentures ("OCDs") and ₹ 5 Crores (Five Crores) in the equity share capital of ZI-IPR Enterprises Limited, Wholly Owned Subsidiary of the Company in one of more tranches and to discharge the slump sale consideration.

- **Launch of 'KidZ'**

During the year, the Company forayed in the kids entertainment genre, by launching KidZ on its digital platform – Zee 5. KidZ will feature engaging content offerings that aim to educate and entertain the young and budding viewers. The Company has partnered with leading content creators and aggregators from India and across the globe, to present entertaining, safe and educative content for children, through a dedicated profile on Zee 5 available across devices.

- **Launch of 'Unite8 Sports' and Acquisition of FIFA Media Rights**

In line with the Company's strategy to strengthen its presence in the sports broadcasting segment and expand its content portfolio, the Company launched four dedicated sports channels –Unite8 Sports 1, Unite8 Sports 1 HD, Unite8 Sports 2 and Unite8 Sports 2 HD. UNITE8 Sports 1 and UNITE8

Sports 1 HD offer Hindi-language coverage, while UNITE8 Sports 2 and UNITE8 Sports 2 HD offer English-language coverage.

The channels offer sporting content across football, kabaddi, cricket, badminton, wrestling, boxing and combat sports amongst others. The initiative is intended to expand audience engagement, strengthen the Company's presence in the sports-broadcasting ecosystem and create additional opportunities for brand partnerships and advertising-led growth.

Subsequent to the closure of the year under review, the Company secured the exclusive rights to broadcast, stream and distribute a portfolio of 39 FIFA competitions in India from 2026 to 2034, including the FIFA World Cup 2026™, FIFA Women's World Cup 2027™ and FIFA World Cup 2030™. The rights also encompass various men's, women's and youth tournaments, as well as related documentary content. The Company proposes to deliver coverage of these events across its linear television platforms, including UNITE8 Sports, and its digital platform, ZEE5, in multiple languages. This strategic acquisition is expected to significantly strengthen the Company's sports content portfolio, expand audience reach and reinforce its position in the sports broadcasting and digital entertainment ecosystem.

12. RESTRUCTURING OF MARGO NETWORKS PRIVATE LIMITED WITH ZEE STUDIOS LIMITED

The Board of Directors of the Company, at its meeting held on March 26, 2026, reviewed the operations of Margo Networks Private Limited ('Margo'), a wholly owned subsidiary. Margo had remained non-operational due to technological changes, covid, etc. Accordingly, the Board considered the strike off or dissolution of Margo.

Subsequently, the Board of Directors, at its meeting held on May 19, 2026, approved the transfer of the Company's entire investment in the equity shares and Optionally Convertible Debentures (OCDs) of Margo to Zee Studios Limited, a wholly owned subsidiary of the Company, for a total consideration of ₹ 2 lakh. The aforesaid transfer was undertaken with a view to consolidating Margo under Zee Studios Limited and evaluating its subsequent merger with Zee Studios Limited, thereby achieving administrative and commercial efficiencies through consolidation within the Group structure.

13. STRATEGIC INVESTMENTS MADE IN OTHER ENTITIES

- **Ideabaaz Tech Private Limited (ITPL)**

During the year, the Company forayed in the kids entertainment genre, by launching KidZ on its digital platform – Zee 5. 4. Provide the executive summary along with web-link(s) of Impact assessment of CSR projects carried out in pursuance of sub-rule (3) of rule 8, if applicable. –

Below is the executive summary of the impact assessment of CSR project carried out in pursuance of Rule 8(3) of the Companies (Corporate Social Responsibility Policy) Rules, 2014 by the independent agency:

The Company undertook impact assessments of six CSR projects through M/s Deloitte Touche Tohmatsu India LLP. The CSR projects assessed as per the scope of work stated below:

- Financial assistance for critical illness treatment to girl child;
- Establishment of an oxygen plant and providing COVID relief services to the needy patients;
- Conservation of folk art and empowerment of folk artist;
- Construction of the school building aiming to offer free education to under privilege children;
- Support for construction of two floors of girls' hostel in Chanakya University; and
- Construction of the kidney centre in the new Breach Candy Hospital building.

The initiatives collectively benefitted over 3,700 individuals, including 415 school students, 2,000 girl students, 274 women students, 17 patients with critical illnesses, multiple healthcare beneficiaries, and folk artists across regions. The assessment indicates improved access to education, enhanced learning and hostel infrastructure, continuity of medical treatment, strengthened healthcare capacity, and increased digital visibility for artists. The projects have substantially achieved their intended objectives and created measurable socioeconomic outcomes, while identifying opportunities for strengthening governance, documentation, and sustainability mechanisms.

The Company carried out an impact assessment of two CSR projects through M/s Soulace Consulting Private Limited:

- Development of school in Rajasthan based on CCE (Continuous and Comprehensive Evaluation) for upliftment of girl child; and
- Education and Women empowerment project.

The projects benefitted approximately 2,000 girl students in Rajasthan through development of a CCEbased school infrastructure, academic fee support, and daily nutritional meals, resulting in improved access to quality education, attendance, and learning outcomes. In Gujarat, educational support extended to 900–2,200 students across four schools through provision of uniforms, books, laboratory facilities, and midday meals, leading to reduced dropout rates, improved student retention, and enhanced learning environments. The assessment indicates that the projects have effectively met their stated objectives and contributed to sustainable educational and socioeconomic upliftment of beneficiary communities.

The detailed impact assessment report(s) undertaken for the CSR project completed in FY 2025–26 can be accessed on the website of the Company at https://assets-prod.zee.com/wp-content/uploads/2026/05/Impact_Assessment-Deloitten_Soulace.pdf

We have also examined compliance with the applicable clauses of the Secretarial Standard 1 and 2 issued by the Institute of Company Secretaries of India.

We report that during the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards etc. mentioned above.

We further report that:

The Board of Directors of the Company is constituted of Non-Executive Directors and Independent Directors only, as on March 31, 2026. Mr. Punit Goenka was appointed as the Chief Executive Officer (CEO) effective from November 18, 2024. As stated by the management, the Company is run by the board of directors with the help of senior management personnel and there is no Manager in the Company. The CEO is entirely focusing on his operational responsibilities assigned to him by the board.

The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to hold the Board and Committee meetings, agenda and detailed notes on agenda were sent at least seven days in advance, except in cases where the meetings were held at shorter notice, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All the decisions were unanimous and there was no instance of dissent in the Board and/or Committee meetings.

We further report that there are adequate systems and processes in the Company, which commensurate with its size and operations to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

We further report that during the period under review, the Company has not undertaken any specific events/ actions that can have a major bearing on the Company's compliance responsibility in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc. except as follows:

1. Redemption and cancellation of Foreign Currency Convertible Bonds:

The Company had issued and allotted 23900 5% coupon, unsecured, unlisted Foreign Currency Convertible Bonds (FCCBs) of USD 10,000 each, up to USD 239 million with minimum average maturity of 10 years on August 12, 2024 to Ebisu Global Opportunities Fund Limited, St John's Wood Fund Limited and Resonance Opportunities Fund ('Bond holders'). During the period under review, the Board, in its meeting held on March 26, 2026 approved redemption of the outstanding FCCBs amounting to USD 23.90 million along with cancellation of the unutilized commitment of USD 215.1 million pursuant to request letters received from the Bond Holders for reasons including current geopolitical situation and consequent capital allocation strategy, subject to receipt of requisite approval from Reserve Bank of India (RBI). Pursuant to RBI approval dated July 13, 2026, the Company redeemed the outstanding FCCBs along with accrued interest thereon and cancelled the unutilized FCCB commitment.

2. Preferential issue of warrants:

During the period under review, the Board approved preferential issue of upto 16,95,03,400 fully convertible Warrants, for consideration to be received in cash, with each warrant convertible into or exchangeable with 1 fully paid-up equity share of the Company having face value of Re. 1/- each ('Warrants') at a price (including the Warrant Subscription Price and the Warrant Exercise Price) of ₹ 132, aggregating up to ₹ 2237,44,48,800, to Altilis Technologies Private Limited and Sunbright Mauritius Investments Limited, Promoter Group entities. The Company did not get the requisite shareholders' approval at the Extraordinary General Meeting convened on July 10, 2025 and therefore did not proceed with the preferential issue.

3. Incorporation of 3 Subsidiaries:

The Board, in its meeting held on May 1, 2025, approved incorporation of 3 wholly owned subsidiaries with authorized and paid-up equity share capital ₹ 1,00,000 divided into 10,000 equity shares of ₹ 10 each, for each subsidiary. Advance Media Distribution Limited, whose name was later changed to Rotate OneTouch Ltd., and ZI – IPR Enterprises Ltd were incorporated as wholly owned subsidiaries on June 28, 2025, and October 1, 2025, respectively.

The Company entered into a strategic partnership with Content Start-up Bullet to launch India's first Micro-Drama App. Consequently, Zbullet Enterprises Ltd was incorporated on June 12, 2025, as a subsidiary with 92% stake held by the Company.

Further, during the period under review, the Company undertook additional investment by way of subscribing to Optionally Convertible Debentures ('OCDs') amounting to ₹ 20 crore in Rotate OneTouch Ltd and ₹ 50 crore in Zbullet Enterprises Ltd. The Company made an additional investment of ₹ 15 crore in the OCDs of Zbullet Enterprises Ltd. on July 27, 2026.

In the case of ZI – IPR Enterprises Ltd, the Company approved further investment of ₹ 5 crore by way of equity and ₹ 500 crore by way of OCDs to enable ZI-IPR to pay consideration under the Business Transfer Agreement as well its initial operating and working capital requirements.

4. Re-organisation of the syndication business and transfer to wholly owned subsidiary:

The Board, in its meeting held on March 26, 2026 approved:

- a. transfer of Company's syndication business consisting of external exploitation rights of identified content inventory and related assets/liabilities and employees into ZI-IPR Enterprises Ltd through a Business Transfer Agreement ("BTA") on a going concern basis for a lump-sum consideration at book value (as at date of transfer i.e. opening business hours of April 1, 2026).
- b. entering into an agreement with ZI-IPR for transfer of future external exploitation rights for FY-27 of identified content and other costs.

5. Acquisition of 51% stake in Culture of Real Experiences Private Ltd:

The Board, in its meeting held on March 26, 2026 approved strategic investment of ₹ 20.09 crore in three tranches, in order to acquire 51% stake on a fully diluted basis. The Company made an investment of ₹ 10 crore in June acquiring 33.33 % stake on a fully diluted basis comprising of 5,555,0.001% Compulsorily Convertible Preference Shares.

6. Acquisition of balance stake in Margo Networks Private Ltd:

The Company executed a Share Purchase Agreement (SPA) with the erstwhile promoters of Margo Networks Private Limited (Margo) on December 31, 2025, to acquire the remaining 10% equity stake, making Margo a wholly-owned subsidiary of the Company.

7. Strategic investment in Phantom Digital Effects Limited:

The Board, in its meeting held on January 22, 2026, approved the strategic investment in Phantom Digital

Effects Limited, a company listed on NSE (MSME segment) and a renowned visual effects and animation studio with global presence in key markets, up to 24.99% equity stake, valued at approx. ₹ 120 crore at that time, through subscription to the Compulsorily Convertible Debentures (CCDs'). Thereafter, in the Board meeting held on April 17, 2026, the Board approved the investment of ₹ 116 crore in the CCDs on preferential basis, in one or more tranches. The Company made an investment of ₹ 115.70 crore on June 18, 2026.

8. Strategic investment in Ideabaaz Tech Private Limited:

The Board, in its meeting held on January 23, 2025, had approved an investment of ₹ 1 lakh constituting 10% share capital of the Ideabaaz Tech Private Limited ('ITPL'). During the period under review, the Company made an investment of ₹ 11,000 in 10,000 equity shares of the ITPL. Further, the Board approved an additional investment of ₹ 15 crores for the acquisition of additional equity shares of ITPL, resulting into 20% stake in ITPL on a fully diluted basis.

9. Inspection by Ministry of Corporate Affairs

During the period under review, the Company received a notice under Section 206(1) of the Act, the Registrar of Companies-cum-Official Liquidator, Jaipur as the Inquiry Officer who called for information/ explanation relating to CSR expenditure undertaken by the Company from FY 2019-20 to 2024-25. The Company submitted the required documents and information with the said office on November 7, 2025, and thereafter, no further communication has been received in this regard.

10. Settlement application filed with SEBI for Show Cause Notice dated August 7, 2025 issued by SEBI to the Company for alleged violation of certain SEBI Regulations and SEBI order:

The Company had filed a settlement application with SEBI on October 6, 2025, to settle the alleged violation of unauthorised pledge of immoveable property mentioned under SCN dated August 7, 2025, which was rejected by SEBI vide letter dated June 22, 2026. In this regard, SEBI vide order dated July 31, 2026, imposed a penalty of ₹ 30 lakhs on the Company, ₹ 58 lakhs on Mr. Punit Goenka and ₹ 60 lakhs on Mr. Subhash Chandra and debarred the Company and Mr. Punit Goenka, Mr. Subhash Chandra from accessing the securities market and further prohibited it from buying, selling or otherwise dealing in securities, directly or indirectly, or being associated with the securities market in any manner for a period of 2 months and 12 months respectively. The Company has sought clarification of the directions in the Order from SEBI on August 6, 2026, with respect to issuance of the Warrants approved by shareholders

on July 31, 2026. The Company has also filed an appeal in SAT contesting the aforesaid order along with an application seeking a stay on the operation of the order and other, urgent interim reliefs.

11. Status of applications filed under Insolvency and Bankruptcy Code, 2016 (‘IBC’) for initiation of Corporate Insolvency Resolution Process (‘CIRP’) against the Company with National Company Law Tribunal, Mumbai bench (‘NCLT’):

IDBI Bank Limited (‘IDBI Bank’) had filed an application for initiation of CIRP against the Company before Hon’ble NCLT claiming debt and default of ₹ 149.6 crore. The Company filed an application before the Hon’ble NCLT under Section 10A of the IBC seeking dismissal of IDBI

Bank’s application. The NCLT, vide order dated May 19, 2023, allowed the Company’s application under Section 10A and dismissed IDBI Bank’s application stating that it is barred under Section 10A of IBC and it is not in accordance with the intent and purport of IBC. An appeal filed by IDBI Bank before Hon’ble NCLAT challenging the said order was dismissed vide order dated April 7, 2025.

Later, in September 2025 an application was filed by IDBI Bank under Section 7 of the IBC, claiming to be a Financial Creditor, before the Hon’ble NCLT, Mumbai Bench for initiation of CIRP against the Company, claiming a purported default of approx. ₹ 225 crore. The Company has filed its detailed reply seeking dismissal of IDBI’s petition.

REPORT ON CORPORATE GOVERNANCE

1. COMPANY’S GOVERNANCE PHILOSOPHY

Effective corporate governance practices provide a strong foundation upon which successful and sustainable commercial enterprises are built. The Company’s philosophy on corporate governance is centered on overseeing business strategies, ensures fiscal accountability, promoting ethical corporate behaviour and maintaining fairness towards all stakeholders including regulators, employees, customers, vendors, investors, and society at large.

The convergence of governance practices brings to the fore the critical role played by the Board in ensuring that the governance framework upholds high standards of transparency and effectiveness, thereby, enhancing competitiveness and safeguarding the long term interests of all stakeholders. At Zee Entertainment Enterprises Limited (‘Z’ or ‘the Company’), corporate governance is of paramount importance and is aimed at delivering consistent value to all stakeholders.

‘Z’ believes that governance practices must ensure adherence to and enforcement of sound principles of Corporate Governance, with the objectives of fairness, transparency, professionalism, trusteeship, and accountability. These principles facilitate effective business management and operational efficiency. The Board of Directors (‘Board’) is committed to achieving and maintaining the highest standards of Corporate Governance on an ongoing basis.

A report on compliance with the provisions of Corporate Governance requirements as prescribed under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended from time to time (‘Listing Regulations’) is given below:

2. BOARD OF DIRECTORS

a. Composition & Category of Directors:

The Company’s Board, as on March 31, 2026 and as on the date of this report, comprised of 7 (seven) Non-

Executive Directors consisting of 2 (two) Non-Executive, Non – Independent Director and 5 (five) Non-Executive, Independent Directors. Of the five Independent Directors, 2 (two) are women. The composition of the Board is in conformity with Regulation 17 of the Listing Regulations and the applicable provisions of the Companies Act, 2013 (‘Act’).

The Company requires skill, expertise, and competencies in the areas of Media & Entertainment, Audit, Accounting, Finance, Risk Management, Legal, Human Resources, Social Activities, Technology, International Business and Capital Market. Currently, the Board comprises Directors who collectively possess the requisite skills, expertise and competencies in these areas.

In terms of Regulation 25(8) of the Listing Regulations and Section 149(7) of the Act, the Independent Directors of the Company have confirmed that: (i) they meet the criteria of independence as defined in Regulation 16(1) (b) of the Listing Regulations and Section 149(6) of the Act read with the applicable rules made thereunder and (ii) they are not aware of any circumstance or situation, that exists or may reasonably be anticipated to exist, that could impair or impact their ability to discharge their duties with objective, independent judgement and without any external influence. The declarations received from the Independent Directors have been taken on record by the Board.

Based on the declarations received, the Board is of the opinion that the Independent Directors of the Company meet the criteria of independence as mentioned under Regulation 16(1)(b) of the Listing Regulations and that they are independent of the management. Further, in terms of Section 150 of the Act read with Rule 6 of the Companies (Appointment and Qualification of Directors) Rules, 2014, the Independent Directors of the Company have registered their names in the Independent Director’s Database maintained by the Indian Institute of Corporate Affairs.

Dr. Venkata Ramana Murthy Piniseti, the Chairperson of the Nomination & Remuneration Committee was present at 43rd AGM held on September 15, 2025.

Nomination and Remuneration Policy

The guiding principle of the Nomination and Remuneration Policy of the Company is that the remuneration and other terms of engagement/employment shall be competitive enough to ensure that the Company is in position to attract, retain and motivate the right kind of human resource(s) for achieving the desired growth set by the Company's management, year on year, thereby creating long-term value for all stakeholders. Focus on productivity and pay for performance have been the cornerstones of the Company's reward philosophy with differentiated compensation growth for high performing employees.

To promote performance-based growth approach, the remuneration of employees of the Company has been moderated and structured as a mix of fixed and variable pay – where the variable pay ranges between 10% to

25%, depending on the grade and level of employee. The Nomination and Remuneration Policy of the Company is available on Company's website at https://assets-prod.zee.com/wp-content/uploads/2026/08/Nomination_&_Remuneration_policy_Full_Aug26.pdf

The increments and variable pay of the CEO, Key Managerial Personnel and members of Senior Management are deliberated and recommended by the Nomination & Remuneration Committee for the approval of the Board. Their compensation packages include fixed pay (Salary, Allowances & Perquisites) and variable pay which ranges between 25% to 40% of the total compensation. These packages are in accordance with applicable laws, in line with the Company's objectives, shareholders' interest and as per the Industry Standards.

11. Transfer of Unclaimed Dividend / Shares to Investor Education and Protection Fund

In accordance with the provisions of Sections 124, 125 and other applicable provisions, if any, of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 (herein after referred to as 'IEPF Rules') (including any statutory modification(s) and/or re-enactment(s) thereof for the time being in force) the amount of dividend remaining unclaimed or unpaid for a period of seven years from the date of transfer to the Unpaid Dividend Account is required to be transferred to the Investor Education and Protection Fund (IEPF) maintained by the Central Government. In pursuance of this, the unpaid or unclaimed dividend for the financial year ended March 31, 2018, have been transferred to the IEPF. The details of the unclaimed dividends so transferred are available on the Company's website at <https://www.zee.com/shareholder-services/#> and on the website of MCA at <https://www.iepf.gov.in>

In accordance with section 124(6) of the Act, read with IEPF Rules, the shares in respect of which dividend has remained unclaimed for a period of seven consecutive years or more from the date of transfer to unpaid dividend account are also required to be transferred to the demat account of the IEPF Authority. The said requirement is not applicable to those shares in respect of which there is a specific order of the Court, Tribunal or Statutory Authority restraining any transfer of shares.

In the interest of shareholders, the Company sends periodical reminders to the shareholders to claim their dividends to avoid transfer of dividends/Shares to IEPF Authority. Notices in this regard are also published in the newspapers, and the details of unclaimed dividends and shareholders whose shares are liable to be transferred to the IEPF Authority are uploaded on the Company website at <https://www.zee.com/shareholder-services/#>.

The details of dividend declared by the Company and corresponding due dates for transfer of unpaid/unclaimed dividend to IEPF are as under:

Financial Year ended	Date of Declaration of Dividend	Due Date for transfer to IEPF
31.03.2019	23.07.2019	29.08.2026
31.03.2020	18.09.2020	25.10.2027
31.03.2021	14.09.2021	21.10.2028
31.03.2022	30.09.2022	06.11.2029
31.03.2024	28.11.2024	04.01.2032
31.03.2025	15.09.2025	22.10.2032

The Company did not declare any dividend for FY 2022–23. During the year under review, besides transfer of unclaimed dividend of ₹ 6.03 million pertaining to FY 2017–18, the Company had also transferred 227,859 Equity Shares of ₹ 1 each in respect of which dividend had not been claimed for seven consecutive years to the beneficiary account of IEPF Authority.

Claiming dividend(s)/share(s) transferred to IEPF

Shareholders whose dividend(s) and/or share(s) are transferred to IEPF are requested to initiate the claim process as mentioned below:

In accordance with IEPF Rules, the Board of Directors have appointed (i) Mr. Ashish Agarwal, Company Secretary of the Company as Nodal Officer w.e.f. November 26, 2019; and (ii) Mr. Vinod Thakurdesai, Associate Director – Investor Relations as Deputy Nodal Officer of the Company w.e.f. July 31, 2024.

The contact information of the Nodal Officer for the purpose of co-ordination with the IEPF Authority is available on the Company's website at <https://www.zee.com/shareholder-services/#>

100 Days campaign – ‘Saksham Niveshak’ by Investor Education and Protection Fund Authority

The Investor Education and Protection Fund Authority (IEPFA), Ministry of Corporate Affairs, launched a 100-day campaign, ‘Saksham Niveshak’, from July 28, 2025 to November 6, 2025, with the objective of reducing unclaimed dividends liable for transfer to the Investor Education and Protection Fund (IEPF), facilitating updation of KYC details by shareholders, and assisting shareholders in filing claims for dividends and shares transferred to the IEPF Authority without the involvement of third parties. As part of this initiative, the Company had sent intimation letters to the concerned shareholders, informing them of the process for claiming unclaimed dividends and shares, updating KYC details, and filing claims with the IEPF Authority. The Company continues to engage with shareholders and provide necessary assistance to facilitate the release of unpaid dividends and related shares.

12. Share Transfer System

			Opportunity: A step to build good governance and strong business culture.	compliance policy and code of conduct which is to be always adhered to by every employee.	Negative Implications: Any misconduct in Company’s commercial operations can pose significant loss to the organization.
2.	Data Privacy and Cybersecurity	Risk and Opportunity	Risk: 1. Z5 as a OTT service is available across various geographical locations. Any non-compliance to existing and new regional privacy regulations such as Digital Personal Data Protection Act (DPDPA) and laws may attract fines and pose reputational risk. 2. The use of Generative-AI tools in corporate operations carries risks like biases, data misinterpretations, intentional misuse and legal/ethical issues, potentially causing reputational harm, penalties, and financial losses. 3. Increasing spectrum of cybersecurity threats, ranging from conventional hacking techniques, sophisticated phishing & more advanced and emerging threats such as ransomware attacks may result in breach of IT systems and can bring significant consequences, including operational disruptions, data exposure, legal liabilities, and reputation damage.	Data Privacy: 1. A comprehensive Privacy Program has been defined and implemented based on ISO 27701 standard and General Data Protection Regulation (GDPR). 2. Privacy Impact Assessments and Privacy by Design are conducted regularly. Process in place for Privacy Incident Management. 3. The privacy program under global data protection laws and newly released rules under Digital Personal Data Protection Act (DPDPA) has commenced. This is to ensure identification of any gaps with global regulatory requirement under data protections laws and DPDPA and take active measures to mitigate the same. Cyber Security: 1. Delivering awareness to employees on responsible and ethical use of Generative-AI tools as defined in the Information Security Policy, promoting informed use of Generative AI technologies while safeguarding organizational data.	Positive implications: Reduced financial risks due to strong cybersecurity infrastructure, increased competitive advantage due to monetization of data, improved customer trust. Negative Implications: Increased cost of security measures, exposure to legal and regulatory fines, reputational damage, increased operational costs, business interruption and downtime, increased insurance costs.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			4. Increased Content Piracy hinders revenue generation through legitimate channels such as subscriptions, pay-per-view, and advertising, resulting in financial losses to 'Z'.	2. Proactive identification and blocking of unapproved AI tools/websites, thereby reducing the risk of shadow AI to the organization	
		Opportunity:			
		1. Through proactive compliance measures, 'Z' can bolster its reputation for privacy consciousness, enhancing stakeholder's trust and fostering sustainable growth in diverse markets.		3. 'Z' conducts periodic ethical phishing simulations to assess and train employees in identifying and reporting phishing attempts. These exercises strengthen our human firewall and support a proactive cybersecurity culture, reducing the risk of social engineering threats.	
		2. Strategically implementing Generative-AI in corporate environment can enhance decision-making, operational efficiency, and innovation resulting in competitive advantage.		4. A Comprehensive Information Security Management System based on ISO27001 standard in place to safeguard our IT Systems by identifying, protecting, detecting, responding, and recovering against emerging threats, ensuring seamless business continuity.	
		3. By implementing robust cybersecurity measures, 'Z' can strengthen the IT systems, reduce the likelihood of breaches and mitigate potential consequences. This proactive approach not only safeguards against operational disruptions, data exposure, legal liabilities, and reputational damage but also fosters resilience, builds stakeholder trust, and positions 'Z' as a leader in cybersecurity preparedness.		5. 'Z' successfully renewed its ISO/IEC 27001:2022 (ISMS) certification during Q3 of FY26, reaffirming our commitment to continuously enhancing our security posture, safeguarding critical data, and maintaining the trust of our customers, partners, and stakeholders.	

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			4. By implementing robust cybersecurity measures, 'Z' can strengthen the IT systems, reduce the likelihood of breaches and mitigate potential consequences. This proactive approach not only safeguards against operational disruptions, data exposure, legal liabilities, and reputational damage but also fosters resilience, builds stakeholder trust, and positions 'Z' as a leader in cybersecurity preparedness entertainment ecosystem.	6. Introduction of server-side watermarking help us to identify every copy of pirated content leaked by any means/ source and take appropriate block or take-down action.	
				7. Preventing piracy through real time identification and blocking any unusual or malicious attempts to download the content using in-house developed tool.	
				8. Onboarded 2 piracy content Take Down service partners for Linear (Broadcast) & Z5 (OTT) platform services, strengthening our Content Security & Anti-Piracy efforts.	
3.	Intellectual Property Protection & Anti-Piracy	Risk and Opportunity	Risk: 1. 'Z' being in the Media & Entertainment industry, the business model relies heavily on the monetization of intellectual property—films, TV shows, music, scripts, and distribution rights. 2. These high-value assets are frequently targeted for piracy and unauthorized distribution via torrent sites, illegal streaming platforms, and unauthorized duplication. This can result in: Revenue loss in theatrical releases, streaming, and content syndication.	Content/IP Protection: 1. The Content Security & Anti-Piracy SOP has been enhanced to cover Z5, Linear, ZMusic, and ZStudios, with oversight by a high-level governing body and support from a cross-functional team working collaboratively to drive initiatives. 2. Use of industry-leading Digital Rights Management (DRM) systems and Watermarking technology to track and trace leaks and illegal distribution of 'Z's Content IP. 3. Partnership with industry leading Cyber Threat Intelligence services to monitor dark web marketplaces and piracy networks.	Positive implications: Nil Negative Implications: 1. Potential annual revenue loss due to piracy or unauthorized use of 'Z's IP (e.g., theatrical, web series and originals). 2. High upfront and recurring costs for DRM and Watermarking tools, legal enforcement, and IP disputes. 3. Despite the cost of mitigation, these investments are necessary for long-term protection of 'Z's creative assets and sustainable monetization.

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			Opportunity: 1. Proactive IP protection strengthens our market position and supports global distribution partnerships. 2. Enables monetization through licensing and content syndication. 3. Enhances brand trust with stakeholders (content creators, partners, investors).	4. Geo-blocking and region-specific access control to limit illegal streaming of 'Z's Content outside licensed territories.	
				5. Rapid legal takedowns using DMCA provisions with strategic litigation and partnership with law enforcement and anti-piracy coalitions e.g., Dynamic John Doe Order – allowing 'Z' to block content piracy websites at the ISP level.	
				6. Ongoing IP monitoring and rights assessment, with automated tools to block piracy via behavior analysis and security measures like strong authentication and enhanced proxy detection on Z5 OTT.	
				7. Enhanced content protection controls: to mitigate content security risks, 'Z' has implemented Muti-Key Digital Rights Management (DRM), this ensures differentiated content protection, limiting playback to a lower resolution on L3 devices. This control strengthens content protection and reduces the risk of high-quality content leakage.	
4.	Customer Experience & Content Responsibility	Risk and Opportunity	Risk: Poor customer experience constitutes a critical operational and strategic risk, rather than merely a design deficiency. Its impact is far-reaching, directly influencing key business metrics such as growth trajectory, profitability, and long-term brand equity.	1. Leveraging in-house consumer-centric content design expertise by drawing on proprietary frameworks like Soul to Screen and Bharat Yatra, we craft culturally rooted, insight-driven narratives that resonate deeply with audiences creating content that is authentic, emotionally compelling and relevant.	Positive implications 1. Market share growth 2. Better monetization 3. Higher NPS and brand power 4. Positive consumer sentiment

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			1. Customer Attrition: Inadequate user experience can significantly diminish user engagement and session duration, resulting in increased app uninstalls (e.g., Z5) and elevated customer churn rates, thereby adversely affecting customer retention. 2. Reputational Risk: Suboptimal customer interactions often manifest as negative reviews and low app store ratings, which can erode brand reputation and credibility, while impeding organic growth through reduced positive word-of-mouth. 3. Competitive Positioning: Poor customer experience weakens the brand's value proposition, creating a strategic disadvantage relative to competitors offering superior user engagement, ultimately leading to loss of market share.	2. Brand health monitoring as a strategic early indicator system by utilizing third-party brand health tracking across key channels and Z5 to measure core KPIs such as Net Promoter Score (NPS), brand equity and brand power; serving as leading indicators for market share trends and enabling timely strategic interventions.	Negative Implications 1. Customer churn and dissonance 2. Lower ratings 3. Declining viewership and share
				3. Integrated consumer experience ecosystem across platforms with a dedicated CX practice for Z5 and response team for Linear TV to maintain an ongoing feedback loop with viewers. This includes active social listening to capture sentiment trends for our launches and shows and focused group discussions (FGDs) to explore consumer aspirations, conflicts, and cultural nuances fueling more resonant and authentic content development. 4. An omni-content strategy adopted across linear & digital, language markets basis CX and research learnings ensures a cohesive brand voice and experience for our viewers and enables the creation of future-ready content pipeline.	

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			Responsible content stewardship is not only a legal and ethical obligation but a strategic imperative as well.	5. For Sensitive Content – At the inception of the show, Legal and Standards & Practices (SnP) SPOC, coordinates with Content team & advise from legal and regulatory standpoint to mitigate exposure under the applicable laws. In addition, the final content (before being made available on TV and/or digital platform) is vetted by SnP team.	
			1. Dissemination of inappropriate, misleading, or insensitive content can result in public backlash, media scrutiny and loss of audience trust. Viewers increasingly demand accountability and ethical storytelling. Irresponsible content may alienate core demographic segments.	6. All TV and OTT Content is vetted by SnP team (digital and linear), prior to airing, to ensure compliance to the applicable broadcasting codes etc.	
			2. Regulatory breaches in content compliance such as violations of broadcasting codes, defamation laws, hate speech regulations or children's content guidelines.		
			3. Advertisers may disassociate from content deemed controversial or misaligned with brand values.		
			Opportunity:		
			1. Seamless, engaging experiences encourage longer viewing sessions, repeated visits and sustained subscriptions. Higher consumer Life Time Value, reduced churn and lower customer acquisition cost (CAC) pressure over time.		

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			2. Organic growth through advocacy where satisfied users become brand advocates-sharing content, recommending platforms and boosting app ratings. This can result in enhanced word-of-mouth marketing, virality, and organic user acquisition at low cost.		
			3. Monetization Upside – A positive CX drives higher engagement allowing for smarter ad targeting, personalized upselling and bundling opportunities resulting in higher ad CPMs, increased conversion to premium plans and more attractive partnership propositions.		
			4. Data-driven content personalization enabled by greater trust and content affinity catalyzing richer behavioral data collection, powering tailored content recommendations.		
			5. Improved watch time, higher satisfaction scores and competitive differentiation through algorithmic excellence.		
			6. Stronger brand equity & channel loyalty reinforced by high quality content and experience.		

S. No	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
5.	Talent attraction and retention	Risk and Opportunity	Risk: Our voluntary attrition rate for FY 2024–25 stands at 17.5%, slightly higher than the market average of 17.2%. Despite the marginal difference, this remains a concern for us considering: - Core Dependency on Talent to drive content quality, brand differentiation, and audience engagement. - Aggressive competition for the same talent pool from competitors. - Turnover-related disruptions, which impact project timelines, increase risk, and lead to loss of institutional knowledge.	Promote Internal Job Postings (IJP): Encourage transparent internal career opportunities to reduce retention and succession risks by enabling employees to apply for new roles within the organization. Structured Career Paths & Development: Implement clear career paths, upskilling programs, and mentorship to support employee growth and skill development. Strengthen Employer Branding & EVP: Use storytelling and employee testimonials to showcase our culture and values, attracting and retaining talent. Expand Wellness Programs: Offer wellness initiatives beyond insurance, including mental health support, fitness activities, and women-centric policies to promote overall wellbeing and inclusion.	Negative Implications: High attrition rates pose a financial and strategic risk. Beyond recruitment and onboarding costs, the departure of key talent leads to lost productivity, delayed projects, and erosion of institutional knowledge. Critically, it also results in missed business opportunities—slowing innovation, impacting revenue pipelines, and increasing the risk of market share loss.
6.	Climate Change Resilience	Risk and Opportunity	Risk: - Potential interruptions in operational continuity due to power outage attributable to exclusive reliance on non-renewable energy sources. - Impact reputation and financial performance. Opportunity: - Implement energy and cost saving initiatives. - Develop renewable sources of energy consumption alternatives for long term consumption. - Achieve reduction in Green House Gas (GHG) emissions through energy management initiatives.	- Develop robust GHG inventory for 'Z's global operations, identify sources of energy consumption and carbon emissions. - Identify areas of deployment of energy conservation and carbon emissions reduction strategies. - Replace outdated equipment and systems with energy efficient technology. - Develop climate change strategy for carbon emissions reduction. - Conduct Climate risk mapping.	Positive implications: - Cost saving due to energy efficient equipment and systems. - Strengthen investor's and shareholder's confidence due to sustainable business practices. Negative Implications: - Investments in upgrading existing energy management system.

Are the premises / offices of the entity accessible to differently abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

Response: Yes. 'Z' is committed to foster an inclusive and supportive workplace environment where all individuals, including those with disabilities, can thrive. As part of this commitment, 'Z' adheres to the requirements outlined in the Rights of Persons with Disabilities Act 2016 to ensure that our premises are accessible to differently abled employees, visitors and contractors. Our premises are designed and maintained to provide barrier-free access for individuals with mobility impairments. This includes wheelchair ramps at the entrance of the building, wide doorways, and accessible parking spaces to facilitate entry and movement within the premises.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web-link to the policy.

Response: Yes. 'Z' has “Equal Opportunity Employment Policy” available on its intranet and Code of conduct, which provides a commitment to treat every job applicant and employee fairly. 'Z' believes that fair employment practices contribute to a culture of respect. Equal opportunities are provided to all candidates and employees without being biased about their race, region, caste, religion, colour, ancestry, marital status, gender, sexual orientation, age, veteran status, nationality, ethnic origin or disability. 'Z' also ensures that facilities and infrastructure are accessible, and that appropriate systems and processes are in place to support the needs and well-being of employees with disabilities.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage such system?

Response: Yes. 'Z' aims to provide a safe and accident-free environment to the employees and contractors working in its premises. The occupational health and safety management system is based on 'Z's Employee Health and Safety (EHS) policy. This policy is applicable to all the employees and 'Z's subsidiaries. The processes of periodic assessments to identify safety risk and hazards at workplace, incident management and reporting, prevention of incident, investigation of safety incidents, reporting, training and awareness are followed vigorously at 'Z'.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Response: Identifying work-related hazards and assessing risks on a routine and non-routine basis are essential components of ensuring a safe and healthy work environment. Based on our EHS Policy, regular workplace inspections are conducted systematically to examine the physical environment, equipment, and processes to identify potential hazards conditions on a routine and non-routine basis.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Yes/ No)

Response: The policy establishes a structured mechanism for reporting, investigating, and addressing workplace safety incidents to ensure a safe and healthy work environment for its employees:

- The date and time of the incident
- The full name of the person(s) affected
- The name and status of the person completing the entry if different from above (b) point
- The occupation of the person affected

- e. The nature of the injury or condition and the body part affected
- f. The place where the accident happened
- g. A brief but clear description of the circumstances
- h. Root-cause analysis. Brainstorming discussion with team

Appropriate Personal Protective Equipment (PPE) is provided wherever required, to safeguard employees against health or safety risks at work. Such equipment includes items such as safety helmets, gloves, eye protection, high-visibility clothing, safety footwear and safety harnesses. To strengthen the Company’s safety culture, regular training and awareness sessions are conducted to ensure employees understand workplace hazards, safe work practices, and incident reporting procedures. In addition, periodic health and safety inspections, risk assessments, and reviews of the hazard and incident reporting mechanisms are undertaken to identify areas for improvement and enhance the effectiveness of existing controls. Through these proactive measures, the Company is committed to maintaining a safe, healthy, and secure working environment for all employees, visitors, and other stakeholders present at its premises.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Response: Yes. The provision of an onsite doctor’s service and the well-equipped first aid box with all the essentials has been provided in the offices. In case any outside medical assistance is required for e.g. an ambulance, all requisite support is provided by our respective office admin teams. Providing access to non-occupational medical and healthcare services for employees can greatly contribute to their overall well-being and productivity.

11. Details of safety related incidents, in the following format:

PRINCIPLE 4

Businesses should respect the interests of and be responsive to all its stakeholders

Essential Indicators

1. Describe the processes for identifying key stakeholder groups of the entity.

Our stakeholders encompass a diverse array of entities, including investors, customers, suppliers, employees, regulators, and the communities. Investors, who provide vital capital, occupy a position of paramount importance within our stakeholder landscape. 'Z' is fortunate to have built a robust and mutually beneficial relationship with our investors, which is built upon a deep understanding of their expectations and our unwavering dedication to meeting them consistently. Our commitment to delivering client value is a fundamental part of our corporate philosophy, underscoring our unwavering devotion to our clients. Employees serve as pivotal assets in creating value for our clients and the organization; thus, 'Z' prioritizes the provision of gratifying career pathways for such personnel. Our suppliers such as production houses and creative agencies are critical stakeholders who support our business and operations through scheduled delivery of content. Compliance with applicable laws and regulations remains a fundamental principle of our Code of Conduct, underscoring the significance of engaging constructively with government authorities and regulatory bodies. Aligned with our commitment to sustainable and inclusive growth, Z places communities at the center of its business practices. This commitment is reflected through initiatives focused on women's empowerment, preservation of cultural heritage, disaster relief and rehabilitation, and integrated rural development.

Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Response: Stakeholder consultations on Environmental, Social and Governance (ESG) matters are undertaken by the Risk and Internal Audit function as part of the Company's overall risk management framework. The Risk and Internal Audit team engages continuously with stakeholders and provides regular updates to the Board on developments arising from stakeholder engagements. 'Z' has a presence across multiple geographies, and the universe of material concerns is complex and multi-layered. The Risk and Internal Audit function identifies material concerns, along with the related risks and opportunities for business. These are subsequently presented to the Risk and Audit Committee for review and preparing business strategies. The material concerns are deeply integrated with the decisions 'Z' implements and value creation objectives through the business. The Company undertakes ongoing reviews of key ESG issues and strengthens its approach through continuous stakeholder consultations. Significant material issues have been identified through a structured, data-driven and consultative process, and are prioritized based on their impact on both stakeholders and the business. Further, key functions provide quarterly updates to the Board on developments relating to these material issues, ensuring continuous oversight.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Response: Yes. 'Z' has undertaken a comprehensive, data-driven, and consultative materiality assessment process to identify and prioritize its key ESG topics. Material issues are evaluated based on their significance to stakeholders as well as their potential impact on the Company's operations, reputation, and long-term business performance. This process helps ensure that the Company's strategic priorities remain aligned with stakeholder expectations and evolving sustainability trends. 'Z's significant material issues have been described in Section A, point no. 26 of this report.

Response: None

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Response:

The business continuity and disaster management function in ‘Z’, supports the strategic objective of the organization, protects business interest, and proactively strengthens the organization’s ability to effectively respond to internal and external threats and enable seamless, continued delivery of critical business operations, in the event of any disruption.

This robust framework, which underpins our commitment to ethical and transparent conduct (Principle 1) and responsible service delivery to consumers (Principle 9), is ISO 27001 certified and is effectively managed through defined policy, procedures, guidelines and through in-house developed tools that support planning and timely communication with all stakeholders, including employees, partners, and our vast audience base.

‘Z’ has Emergency Preparedness Plans (EPP) for disasters such as earthquake, floods, cyclones etc. The plan outlays the responsibilities of action owners, plan description including precautions to be taken, evacuation procedures and post incident action plan which would need to be followed at locations facing the emergency scenario. The corporate information security function maintains a BCP plan that is updated once in twelve months or on a need basis.

The framework identifies business impact of loss/ interruption or disruption and determines appropriate continuity strategy for the same. The associated potential risks are identified, assessed and appropriate response is devised to handle respective risks.

‘Z’s innovative operating model rolled out in response to the COVID-19 disruption is a fully location agnostic thus enabling employees to work remotely, while retaining the same high rigor in operations, governance and security. This model not only enhances our resilience but also supports a more inclusive and flexible work environment for our talent (Principle 3). The fully distributed nature of this model is better suited to ensure business continuity.

High availability of enterprise business applications is ensured through a combination of near and far Disaster Recovery (DR) sites, strategically located across different seismic zones. Source code is securely stored and backed up using an industry-standard version control system, with access granted strictly on a need-to-know basis. Application servers are backed up using snapshots, while databases are backed up incrementally daily, with full backups performed on weekends. A Business Continuity Plan (BCP) and DR drill is conducted every six months for all critical business applications to ensure preparedness and operational resilience.

‘Z’s OTT platform, Z5 leverages the high availability of systems has been achieved through multiple availability zones. The Source code is stored and backed-up using the industry standard version control system with access provided on need-to-know basis. Databases are backed up both incrementally and through snapshots. Our Content is delivered via industry-leading CDN having their resilient infrastructure.

This implementation has enabled passive disaster recovery capabilities, which can be activated as and when needed.

1.	Saksham – Education and Empowerment of Children with multiple disabilities and vision impairment	155	100
This CSR program was implemented at Gautam Budh Nagar, Uttar Pradesh, with the objective of empowering children and young adults aged up to 25 years living with multiple disabilities and visual impairments. The program primarily supports beneficiaries from economically disadvantaged families, many of whom rely on occupations such as daily wage labor, domestic work, or small roadside businesses for their livelihoods. Through age-appropriate and need-based interventions, the program provides access to assistive technologies, vocational skill development, and livelihood support, enabling beneficiaries to enhance their independence, improve their quality of life, and build long-term socio-economic resilience.			

S. No	CSR Project	No. of persons benefitted from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
2.	Magic Bus India Foundation – Magic Bus Livelihood Program (Phase II) This CSR program was implemented across Raipur, Zirakpur, Coimbatore, Delhi, and Indore with the objective of equipping undergraduate youth aged between 18 to 25 years, particularly young girls, with essential life and employability skills. The project serves students from economically disadvantaged backgrounds, where families often depend on daily-wage work, traditional crafts, or small-scale occupations for their livelihood. Through comprehensive training in information technology, English communication, and personality development, the program enhances participants' workplace readiness. This is further strengthened by dedicated placement support, enabling beneficiaries to secure entry-level employment opportunities in the service sector, such as customer care and customer support roles, thereby improving their career prospects and economic independence.	1,841	100
3.	Bal Raksha Bharat – New Horizon-Youth Skill Building and Employment Programme This CSR program was initiated with a focus on empowering youth aged between 18 to 24 years across Assam and West Bengal. The program was designed to support vulnerable young individuals by enhancing their employability and economic prospects through market-aligned vocational training, digital literacy education, and structured career mentorship. By equipping beneficiaries with industry-relevant skills and connecting them to meaningful employment opportunities, the program aims to foster sustainable livelihoods, financial independence, and long-term socio-economic development.	678	100
4.	SNEHA – Building Bridges Phase 2 This CSR program started as an integrated healthcare intervention which was being implemented in the highly vulnerable urban informal settlements of Bhiwandi, Maharashtra. The initiative focuses on improving the health and well-being of married women of reproductive age, pregnant and lactating mothers, and children under six years of age. Through a comprehensive community-based approach, beneficiaries receive doorstep health awareness and counselling, support for malnutrition management, facilitation of institutional deliveries, and access to immunization services. Additionally, the program provides dedicated psychosocial counselling and legal assistance to survivors of gender-based violence, fostering improved health outcomes, safety, and overall community resilience.	18,966	100
5.	Oscar Foundation – Life skills through football This program leverages football as a powerful tool for holistic youth development among children from underserved communities in Mumbai. The beneficiaries of this program were the children below the age of 14 years from low-income households, where parents often work as domestic workers, daily-wage labourers, or in other informal occupations. Through structured football coaching and experiential life-skills training, participants develop critical competencies such as teamwork, problem-solving, leadership, resilience, and emotional well-being. In addition, beneficiaries received sports equipment, nutritional support, career guidance, and exposure visits, helping broaden their horizons, boost self-confidence, and inspire aspirations for a brighter future.	411	100

S. No	CSR Project	No. of persons benefitted from CSR Projects	% of beneficiaries from vulnerable and marginalized groups
6.	Public Concern International – Udyamita This CSR program initiated in Bengaluru, Karnataka was focusing on enterprise development to empower and formalize women entrepreneurs operating small-scale businesses. Through a comprehensive capacity-building approach that begins with an Entrepreneurship Development Program (EDP) and access to seed capital to strengthen or expand their ventures, women were supported. Participants also received ongoing mentorship and handholding support to navigate business registration and compliance requirements, improve operational efficiencies, and build market linkages. By fostering business growth, financial sustainability, and greater market access, the initiative aims to enhance entrepreneurial confidence, economic independence, and long-term livelihood opportunities for women.	351	100
7.	Public Concern International – Public Procurement This CSR project implemented to facilitate the integration of women from Self-Help Groups (SHGs) into formal public procurement and service delivery ecosystems across Bihar and Uttar Pradesh. The initiative supports adult women transitioning from informal and low-income occupations by enabling them to establish and manage community kitchens under the Didi Ki Rasoi model, as well as institutional housekeeping and laundry services. Through structured capacity-building programs, beneficiaries receive training on food safety, hygiene and sanitation standards, business operations, and service quality management. The project also provides support in contract facilitation and market linkages, helping women secure sustainable income opportunities through partnerships with government institutions while fostering entrepreneurship, financial inclusion, and long-term economic empowerment.	2,380	100
8.	The/Nudge Institute – End Ultra Poverty This CSR project is being implemented in Jharkhand, with the objective of addressing ultra-poverty among 5,400 women-led households, many of whom belong to PVTGs. The program adopts a holistic graduation approach to strengthen livelihoods and improve household resilience. Beneficiaries receive a range of targeted interventions, including access to interest-free loans, capacity-building support in agriculture and livestock rearing, and integration into Self-Help Groups (SHGs) to enhance financial inclusion and community participation. In addition, the initiative facilitates access to key government welfare and entitlement schemes, helping ensure sustainable livelihoods, improved food security, and long-term economic stability for vulnerable families.	5,400	100

Independent Reasonable Assurance Statement to Zee Entertainment Enterprises Limited (Z') on their Annual Greenhouse Gas Emissions (GHG) Report for the financial year 2025-26

Unique identification no.: 3153270209

Introduction and Engagement

Zee Entertainment Enterprises Limited (‘Z’) (hereinafter refer to as ‘the Company’) has entrusted TÜV SÜD South Asia Pvt. Ltd. (hereinafter referred to as “TÜV SÜD”) to conduct the “Independent Reasonable Assurance” on its annual GHG (Scope 1,2 and 3) presented in their report on GHG Inventory for the financial year 2025-26, comprising the Emissions Inventory (hereinafter referred to as “the Report”) against the assurance criteria to a reasonable level of assurance and at materiality of professional judgement of the verifier using International Standard on Assurance Engagements (ISAE) 3410 and International Organization for Standardization (ISO) 14064-3:2019 for GHG emissions.

The Management’s Responsibility

The content of the Reports and their presentation are the sole responsibilities of the Management of the Company. The Company Management is also responsible for the design, implementation, and maintenance of internal controls relevant to the preparation of the Report, so that it is free from material misstatement.

The Company is responsible for ensuring that its business operations and activities comply with the applicable statutory and regulatory requirements. The Report and disclosures have been approved by and remain the responsibility of the Company.

Company’s Responsibility

The Company is responsible for the preparation of the GHG inventory and for maintaining effective internal controls over the data and information disclosed. This responsibility includes the identification of GHG emission sources, collection and validation of activity data, selection and application of appropriate quantification methodologies and emission factors, calculation of GHG emissions, and the implementation and maintenance of internal controls necessary to ensure that the GHG statement is prepared free from material misstatement, whether due to error.

GHG quantification is subject to uncertainty because of such things as emission factors that are used by mathematical models to calculate emissions, and the inability of those models to precisely characterize under all circumstances the relationships between various inputs and resultant emissions because of incomplete scientific knowledge.

Ultimately, the GHG Inventory has been approved by and remains the responsibility of the Company.

TÜV SÜD’s Responsibility

TÜV SÜD, in performing assurance work, is responsible for carrying out an assurance engagement on the GHG Statement and GHG Inventory in accordance with our contract with the Company. The assurance statement, however, represents TÜV SÜD’s independent opinion and is intended to inform all stakeholders, including the Company.

This assurance engagement was conducted against the “World Resources Institute (WRI) and World Business Council on Sustainable Development (WBCSD) GHG Protocol” and the ISAE 3410 Standard. The validation and verification were carried out by a multidisciplinary team including assurance practitioners, engineers, and environmental experts of TÜV SÜD in the months of June & July 2026 for **15 locations (14 office locations & 1 data center) in India and 8 international locations**. TÜV SÜD has identified and selected 2 sites across 8 countries as samples for verification

Scope and boundary of assurance

Our assurance engagement covers the aspects of the GHG Emission Inventory (Scope 1, 2 and 3) presented in their report for the financial year 2025-26. Our assurance engagement covered the operations and activities of the company for the following requirements:

- Verifying conformance with the company's reporting methodologies.
- Evaluating the accuracy and reliability of the data for the selected indicators.

Scope 1: Activity Wise

Company's direct emissions are from all equipment and assets owned and are as follows:

- Stationary Combustion— This includes emissions from fuel purchased to operating company-owned diesel generators & Piped Natural Gas (PNG) based power plant consumption.
- Mobile Combustion—This includes emissions from fuel purchased to operating owned vehicles.
- Fugitive Emissions – This includes emissions resulting from the direct release to the atmosphere of GHG compounds from Heating, Ventilation, and Air (HVAC) systems and fire suppression systems.

Scope 2: Activity Wise

- All purchased electricity is paid to energy suppliers.
- DG set units' consumption at few locations

Scope 3: Only relevant scopes are included, which are as follows:

- Category 1: Purchased Goods & Services,
- Category 2: Capital Goods,
- Category 3: Fuel & Energy Related Activities,
- Category 5: Waste Generated in Operations,
- Category 6: Business Travel,
- Category 7: Employee Commuting,
- Category 8: Upstream Leased Assets
- Category 13: Downstream Leased Assets.

Organizational Boundary for Reporting GHG Emissions:

The boundary of verification included:

- Globally, there are 15 locations (14 office locations & 1 data center) and 8 international locations where the 'Z's India and Subsidiaries offices are located and operational during FY 2025-26.

Reporting protocols against which verification was conducted:

- The GHG Protocol Corporate Accounting and Reporting Standard was prepared by the WBCSD and WRI.

Verification Protocols used to conduct the verification:

- The Assurance engagement was conducted in line with the requirements of ISAE 3410 Assurance.

Level of Assurance and Materiality:

- Reasonable:** The opinion expressed in this Assurance Statement has been formed based on a Reasonable level of assurance and assessing the risk of material misstatement of the GHG Statement, whether due to error.

Our Verification Methodology & Approach:

TÜV SÜD has carried out this assurance engagement in accordance with ISAE 3410 and ISO 14064-3:2019 specification with guidance for validation and verification of GHG statement to provide reasonable assurance that the Company GHG data and information as presented in the GHG Statement has been prepared in conformance with:

- ISO 14064–1:2018 – Specification with guidance at the organizational level for quantification and reporting of GHG emissions and removals: and
- WRI/WBCSD GHG Protocol– A Corporate Accounting and Reporting Standard

The following tasks were undertaken as part of the evidence gathering process for this assurance engagement:

- conducted a kick-off meeting with the Company team to confirm the verification criteria, verification protocol, assurance team, schedule, and verification plan.
- Established verification methodology, criteria, objective, timeline, and sample site selection.
- Finalized a combination of assurance procedures, which comprise review, observation, validation, recalculation, and inquiry on GAPS, and then final consent on remarks and input provided by the Company.
- Verification was done on site (2 locations at Noida & Mumbai India) as well as virtually to measure, collect, consolidate, report, and control GHG emissions used at Company businesses described above by an evidence pack provided by the Company.
- Verification of content as well as context and application of the Report content, principles, and the quality of information presented in the Report over the reporting period.
- Reviewed, Verified and Assured the annual GHG Inventory – Scope 1, 2 & 3 in accordance with the requirements of the "WRI/WBCSD GHG Protocol" Standard, as set out in the subject matter paragraph, in all material respects.
- Performed a sample-based assessment of the processes for generating, gathering, and managing the quantitative and qualitative data.
- Assessment of the applicability and appropriateness of data collection, quantification, and data management incorporated in the Report.
- Verification of the fact that no material distortion has been done at any stage.

Our Independence, Ethical Requirements and Quality Control

Our team, comprising multidisciplinary professionals, has complied with the independent protocol of TÜV SÜD, which addresses the requirements of the standard in the role of independent verifier. TÜV SÜD states its independence and impartiality and confirms that there is "no conflict of interest" regarding this assurance engagement. In the reporting year, TÜV SÜD did not work with Company on any engagement that could compromise the independence or impartiality of our findings, conclusions, and recommendations. TÜV SÜD was not involved in the preparation of any content or data included in the Report, except for this assurance statement.

TÜV SÜD maintains complete impartiality towards any individuals interviewed during the assurance engagement. The procedures we performed were based on our professional judgment and included inquiries, observation of the process followed, inspection of documents, analytical procedures, evaluating the appropriateness of quantification methods, agreeing, or reconciling with underlying data, etc.

Exclusions

The Assurance scope excludes the following:

- Our engagement did not include an assessment of the adequacy or effectiveness of the Company’s management of GHG emission related issues. During the assurance process, TÜV SÜD did not visit any external stakeholder’s premises, and no external stakeholders were even interviewed as a part of the GHG Inventory engagement.
- Review of the Scope (1, 2 & 3) components included in the Report (scope of work/assignment), which we have been informed by the Company, are derived from the Company’s records only.
- The Company’s statements describe expression of opinion, belief, inference, aspiration, expectation, aim of future intention.
- Validation of any data and information other than those presented in “Data verified.”

Data Verified

TÜV SÜD has evaluated and verified the data presented in the Report. The reported GHG emissions for the reporting period as per Company’s Report on GHG Inventory for the period April 1st, 2025, to March 31st, 2026.

GHG emissions for FY 2025-26		Emissions (mt CO2e)
Total Scope 1 emissions		6,724.21
Total Scope 2 emissions		7,890.79
Total Scope 1 & 2		14,615.00
Scope 3 emissions categories		
Category 1	Purchased Goods and Services	42,804.00
Category 2	Capital Goods	1,950.52
Category 3	Fuel and Energy-Related Activities	4,327.18
Category 5	Waste Generated in Operations	21.44
Category 6	Business Travel	2,004.48
Category 7	Employee Commuting	2,653.38
Category 8	Upstream Leased Assets	130.28
Category 13	Downstream Leased Assets	3,293.44
Total Scope 3 emissions		57,184.71
Total GHG emissions		71,799.71

Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that Company’s GHG inventory report for the period April 1st, 2025, to March 31st, 2026, is not prepared, in all material respects, in accordance with the ISAE 3410, "WRI/WBCSD GHG Protocol (GHG)".

In relation to the statement above, TÜV SÜD has verified the aggregation of data and information to provide the total GHG emission values and verified that the contributory regulatory and voluntary schemes provide reasonable assurance. However, the results of the individual assurance engagements have been accepted without further TÜV SÜD investigation for the purpose of this verification.

TÜV SÜD’s Opinion

Based on TÜV SÜD approach:

- The GHG emissions data and information as presented in the GHG Statement are materially correct; and
- The GHG Statement has been prepared in conformance with ISO 14064-1 and the GHG Protocol

Statement of Independence, Impartiality and Competence

TÜV SÜD South Asia Pvt. Ltd is an independent professional services company that specializes in Health, Safety, Social and Environmental management services including assurance with over 150 years history in providing these services.

No member of the assurance team has a business relationship with the Company, its directors or Managers beyond that of verification and assurance of sustainability data and reporting. We have conducted this assurance independently and we believe there has been no conflict of interest.

INDEPENDENT AUDITOR’S REPORT

To the Members of
Zee Entertainment Enterprises Limited

REPORT ON THE AUDIT OF THE STANDALONE
FINANCIAL STATEMENTS
OPINION

1. We have audited the accompanying standalone financial statements of Zee Entertainment Enterprises Limited ('the Company'), which comprise the Standalone Balance Sheet as at 31 March 2026, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the Standalone Statement of Cash Flow and the Standalone Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2026, and its profit (including other comprehensive income), its cash flows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

KEY AUDIT MATTERS

4. Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
5. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	How our audit addressed the Key Audit Matters
(i) Ongoing regulatory investigations by SEBI and MCA (Refer note 56 of the standalone financial statements)	Our audit in relation to ongoing regulatory inspections included, but was not limited to, the following procedures:
The Company, certain subsidiaries, a current key managerial personnel ('KMP') and ex-directors are involved in an ongoing investigation being conducted by the Securities and Exchange Board of India ('SEBI'), and an inspection being conducted by the Ministry of Corporate Affairs ('MCA') under Section 206(5) of the Act, with respect to certain transactions in earlier years with the vendors of the Company and one of the subsidiary companies.	- Obtained an understanding of management process and controls for evaluating the impact of any regulatory proceedings and investigations initiated or ongoing against the Company; - Evaluated the design and tested the operating effectiveness of key internal financial controls around above process; - Performed inquiries with the management to understand key developments during the year with respect to ongoing regulatory inspections, including any new allegations raised by authorities; - Obtained and reviewed the various correspondence between the Company with SEBI and MCA to corroborate above understanding such as SCNs, orders, letters, summons and follow up requests received from SEBI and MCA, and corresponding replies/submissions from the Company, its subsidiary and KMPs;
In connection with the ongoing investigation, the Company has received summons and show cause notices (SCNs) from SEBI alleging irregularities in relation to certain transactions entered into by the Company in earlier years with respect to alleged lien on property of the Company, violations of SEBI regulations in connection with investments made in inter-corporate deposits, film advances, related party transactions and disclosure/control issues for earlier periods.	

Key Audit Matters	How our audit addressed the Key Audit Matters
The Board of Directors ('Board') of the Company had constituted an "Independent Investigation Committee" (Committee) (IIC) to review the allegations against the Company, which concluded the investigation, and the report was placed before the Board of Directors, noting no material irregularities and that the transactions (under investigation) were conducted in normal course of business.	- Reviewed underlying documents such as agreements, MOUs, purchase orders, cancellation letters (where applicable), invoices, bank statements, Board approvals and other required approvals, for transactions highlighted in the SCNs and summons received by the Company/ subsidiaries, to validate management's response to the allegations raised during inspection process; - Verified conclusion of the erstwhile statutory auditors and internal auditors including Advisory report submitted by SEBI based on examination carried out in earlier years on the same transactions in earlier years; - Evaluated the reports submitted by the IIC and other experts engaged by management, noting their observations and conclusions, with respect to allegations raised during inspection process; - Reviewed and evaluated the legal opinion obtained by the management on the ongoing regulatory actions against the Company; and - Evaluated the adequacy of disclosures in the standalone financial statements.
The Board and the management , based on review of records of the Company and its subsidiary, determined the transactions (including refunds) were against consideration for valid goods and services received.	
The Board continues to monitor the progress of aforesaid matters. The Company has furnished/is in the process of submitting its reply based on legal advice denying allegations and has also filed settlement applications, which are under consideration by SEBI.	
Based on legal assessment, the management does not expect any material adverse impact on the operations and standalone financial statements of the Company with respect to the aforesaid matters.	
Considering the significance of amounts involved for underlying transactions being subject to investigation, uncertainty associated with the ultimate outcome of these investigations and significance of management judgement involved in assessing the outcome of these investigations and determining the required disclosure, this matter has been considered as a key audit matter in the audit of the standalone financial statements.	
Further, we have also determined this matter to be fundamental to the user's understanding of the standalone financial statements.	
(ii) Litigation with JioStar India Private Limited ('JioStar') for the ICC Contract (Refer note 37 of the standalone financial statements)	Our audit in relation to JioStar litigation matter included, but was not limited to, the following procedures:
In March 2024, JioStar initiated an arbitration against the Company before London Court of International Arbitration ('LCIA'/Arbitral Tribunal') in relation to the Alliance Agreement for broadcasting rights of the International Cricket Council's ('ICC') men's global events for a period of four years in respect of which JioStar had claimed damages of USD 1,097 million, along with costs, expenses and applicable interest until full payment, from the Company.	- Obtained an understanding of the management's process followed by the Company for identification of legal matters initiated against the Company, assessment and determination of the amount of provisions and disclosure as contingent liabilities required under Ind AS 37; - Evaluated the design and implementation, and tested operating effectiveness of key internal financial controls around aforesaid process; - Obtained an understanding of the Alliance agreement along with the conditions mentioned therein and management's compliance with those conditions;
The Company had filed Statement of Defence, a counterclaim of USD 8.06 million along with interest thereon before the Arbitral Tribunal.	

Key Audit Matters	How our audit addressed the Key Audit Matters
During the current year, the Company has filed additional pleadings while maintaining each of the defences as submitted earlier, against which JioStar has also filed its responses. The management, based on a legal opinion and its internal assessment, has determined that the Company is not in default of the Alliance Agreement and believes that the claims made by JioStar are unfounded and legally not tenable. The Company has strong and valid grounds to defend any claims in respect of above matter. Considering the significance of amount involved, uncertainty associated with the ultimate outcome of the arbitration proceedings and significance of management judgement involved in assessing the outcome of these proceedings and determining the required disclosure, this matter has been considered as a key audit matter in the audit of the standalone financial statements. Further, we have also determined this matter to be fundamental to the user's understanding of the standalone financial statements.	• Obtained and reviewed the correspondence between the Company and JioStar along with the notices/letters from legal counsels of both the parties and all legal documents filed by both parties as part of the ongoing arbitration; • Performed inquiries with the management to understand key developments during the year and obtaining orders of Arbitral Tribunal received during the current year. • Reviewed and evaluated the external legal opinion obtained by management and legal note prepared by management's in-house legal counsel, supporting management's assessment on the matter; • Corroborated conclusions of management's external legal counsel with an independent opinion received from auditor's legal expert in the previous year; and • Evaluated the adequacy of disclosures given in the standalone financial statements.
(iii) Provisions and contingent liabilities relating to litigations, other claims and settlements	Our audit procedures included, but were not limited to, the following procedures:
(Refer note 35, 37, 38, 44D(ii)(A), 44D(ii)(C), 56 and 57 of the standalone financial statements) As at 31 March 2026, in addition to the SEBI and ICC matters as covered above, the Company is also involved in various litigations, arbitrations and claims with/against various authorities, banks, related parties, vendors and erstwhile related parties of the Company that are pending with various statutory authorities. Most of these litigations involve complex underlying legal issues. The management, assisted by their external legal counsels, assesses the need for, and the quantum of, any provisions or disclosure as contingent liabilities, that may be required to be made in the financial statements, on a case-to-case basis considering the underlying facts and legal jurisprudence related to each litigation. As at 31 March 2026, the amounts involved are significant. The provisions and contingent liabilities are subject to changes in the outcomes of litigations and claims and the positions taken by the Company.	• Assessed the appropriateness of the Company's accounting policies relating to provisions and contingent liabilities, in accordance with the applicable accounting standards; • Obtained an understanding of the management's process followed by the Company for identification, of legal and tax matters initiated against the Company, assessment and determination of the amount of provisions and disclosure as contingent liabilities under Ind AS 37; • Evaluated the design and implementation, and tested operating effectiveness of key internal financial controls around aforesaid process; • Obtained understanding of the developments during the year in each existing litigation, and understanding of the new litigations initiated against the Company during the year by inquiry with the management, inspection of related documents such as notices, orders, etc.

Key Audit Matters	How our audit addressed the Key Audit Matters
Considering the materiality of amount involved, significant judgements and inherent high estimation uncertainties involved in establishing whether a liability/provision should be recognised or disclosed as a contingent liability in the standalone financial statements basis accounting principles as given under Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets' ('Ind AS 37'), the matter is considered to be a key audit matter in the current year.	• Assessed management's conclusions through discussions held with the Company's in-house legal counsel, obtaining understanding of precedents in similar cases, obtaining and evaluating independent confirmations from the legal and tax consultants representing the Company before various authorities including examination of correspondences connected with the cases; • Obtained settlement agreements/assignment agreement/litigation orders/show cause notices/other relevant documents in respect of certain matters and assessed the management conclusion on accounting implications, if any, based on such agreements/ orders; • Involved auditor's experts, wherever necessary, to assess the appropriateness of Company's interpretation/positions basis application of relevant laws and technical merits and for confirming the likelihood of the outcome of the said litigations and potential impact on financial statements; • Recomputed the management's determination of provisions and contingent liabilities basis aforesaid legal assessment in accordance with the requirements of Ind AS 37; and • Evaluated the adequacy of disclosures given in the standalone financial statements, including disclosure of exceptional items, litigation matters, contingent liabilities and provision for liabilities in accordance with applicable accounting standards .
(iv) Recoverability of content advances and media content inventory valuation	Our audit included, but was not limited to the following procedures:
(Refer note: 2M, 3I, 1I, 12, 24 and 59 of Standalone financial statements) The Company held inventories aggregating ₹ 57,248 million as at 31 March 2026 comprising of raw tapes, media content (i.e. programmes, film rights, music rights) and under production-media contents. Further, the Company also pays advances for acquiring content from production houses out of which ₹ 2,267 million are outstanding as at 31 March 2026 (net of provision of ₹ 339 million). These advances are paid on the basis of Memorandum of Understanding (MOU) and/or agreements entered into with the respective production houses.	Content advances • Obtained an understanding of management's process for authorisation of content advances and its recoverability assessment; • Evaluated the design, implementation and tested the operating effectiveness of key controls that the Company has in relation to aforesaid process; • Obtained supporting documents for the sample of movie advances paid during the year which includes the MOU/agreement executed between the Company and production houses;

Key Audit Matters

How our audit addressed the Key Audit Matters

The cost incurred on purchase of inventories is consumed based on consumption pattern on estimated future revenue potential as estimated by the management. The factors that the Company considers in determining the consumption charge has been derived basis historical trends and management’s expectation of revenue earning potential of such media content.

During the year, the Company has recorded an consumption expense of ₹ 38,027 million (including impact of ₹ 743 million for net realisable value),

At each reporting period end, management assesses the recoverability of (i) content advances which involves significant judgment on part of management with regard to status of completion of the project for which advances are given, and (ii) inventory which involves determining whether there is any objective evidence indicating that the net realisable value of any item of inventory is below its carrying value. If so, such inventories are written down to their net realisable value in accordance with the requirements of Ind AS 2, Inventories (‘Ind AS 2’).

Considering the inherent nature of the industry, particularly on the changing viewing patterns of the content and quality of content as identified by end-users, determination of appropriate consumption charge and provision for net realisable value involves significant judgement and estimates by the management and accordingly, the recoverability of content advances and inventory valuation has been considered as key audit matter for the current period audit.

- Obtained supporting documents for refund/adjustment/ assignment of advances for other content on sample basis;
- Obtained direct confirmation from the production houses confirming the outstanding balances as at the year-end including identification of the films against which the advances were given and the manner of utilisation of the advances by such production houses, where considered necessary in our professional judgement; and
- Evaluated management’s assessment of stage of completion of projects for which the advances were given, and related judgement in determining the adequacy of provision for doubtful advances.

Inventory valuation

- Obtained an understanding of process followed for identifying consumption pattern of inventory and estimating its net realisable value;
- Evaluated the nature, source and reliability of all the information used by the management for arriving at the estimates for consumption pattern and provision for net realisable value of inventories;
- Discussed with respective business heads in the Company on expectations for performance of content to corroborate the forecasts;
- Evaluated the appropriateness of related accounting policies adopted by the Company in accordance with the requirements of Ind AS 2;
- Assessed the projected sale estimates made by the management in respect of balance inventory of aforesaid specific media content that is expected to be sold in the near future, for its appropriateness basis past trends and market conditions;
- Obtained understanding of management’s assessment of the parties/ entities and association with whom such contracts has been entered;
- Tested mathematical accuracy in respect of amortisation and provision for doubtful advances and provision for net realisable value recorded in the books;
- Evaluated appropriateness of disclosures made in the standalone financial statements

INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

6. The Company’s Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the standalone financial statements and our auditor’s report thereon. The Annual Report is expected to be made available to us after the date of this auditor’s report.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

7. The accompanying standalone financial statements have been approved by the Company’s Board of Directors. The Company’s Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS specified under section 133 of the Act and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

8. In preparing the standalone financial statements, the Board of Directors is responsible for assessing the Company’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.
9. The Board of Directors is also responsible for overseeing the Company’s financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

10. Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.
11. As part of an audit in accordance with Standards on Auditing, specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls;
 - Evaluate the appropriateness of accounting policies used and the reasonableness of

accounting estimates and related disclosures made by management;

- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern; and
 - Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
12. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
13. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
14. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

15. As required by section 197(16) of the Act, based on our audit, we report that the Company has paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act.
16. As required by the Companies (Auditor's Report) Order, 2020 ('the Order') issued by the Central Government of India in terms of section 143(11) of the Act we give in the Annexure I, a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
17. Further to our comments in Annexure I, as required by section 143(3) of the Act based on our audit, we report, to the extent applicable, that:
- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit of the accompanying standalone financial statements;
 - b) Except for the matters stated in paragraph 17(i) (vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The standalone financial statements dealt with by this report are in agreement with the books of account;
 - d) In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under section 133 of the Act;
 - e) The matters described in paragraph 5(i) and 5(ii) under the Key Audit Matter (also Emphasis of Matter), in our opinion, may have an adverse effect on the functioning of the Company;
 - f) On the basis of the written representations received from the directors and taken on record by the Board of Directors, none of the directors is disqualified as on 31 March 2026 from being appointed as a director in terms of section 164(2) of the Act;

- g) The qualification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 17(b) above on reporting under section 143(3)(b) of the Act and paragraph 17(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended);
- h) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company as on 31 March 2026 and the operating effectiveness of such controls, refer to our separate report in Annexure II wherein we have expressed an unmodified opinion; and
- i) With respect to the other matters to be included in the Auditor's Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us:
 - i. the Company, as detailed in note 35, 37, 38, 44D(ii)(A), 44D(ii)(C), 56 and 57 to the standalone financial statements, has disclosed the impact of pending litigations on its financial position as at 31 March 2026.
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2026;
 - iii. there has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended 31 March 2026;
 - iv. a. The management has represented that, to the best of its knowledge and belief, as disclosed in note 48(a) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Company to or in any person(s) or entity(ies), including foreign entities ('the intermediaries'), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ('the Ultimate Beneficiaries')

or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;

- b. The management has represented that, to the best of its knowledge and belief, as disclosed in note 48(b) to the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ('the Funding Parties'), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ('Ultimate Beneficiaries') or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c. Based on such audit procedures performed as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
- v. The final dividend paid by the Company during the year ended 31 March 2026 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.

As stated in note 45 to the accompanying standalone financial statements, the Board of Directors of the Company have proposed final dividend for the year ended 31 March 2026 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

- vi. As stated in Note 58 to the standalone financial statements and based on our examination which included test checks, except for the instance mentioned below, the Company, in respect of financial year commencing on 1 April 2025, has used accounting software for maintenance of revenue, digital subscription, payroll and other accounting records, which have a feature of recording audit trail. (edit log) facility and the same have been operated throughout the year for all relevant

transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with, where such feature was enabled. Furthermore, other than the exception given below, the audit trail has been preserved by the Company as per the statutory requirements for record retention from the date audit trail was enabled:

- (a) The audit trail logs available are retained only for seven days for the said software used for digital subscription records at the database level.
- (b) The accounting software used for maintenance of books of accounts of the Company is operated by a third-party software service provider. In the absence of any information on existence of audit trail (edit logs) for any direct changes made and preservations of

Place: Mumbai
Date: 19 May 2026

the audit trail logs at the database level in the ‘Independent Service Auditor’s Assurance Report on the Description of Controls, their Design and Operating Effectiveness’ (‘Type 2 report’ issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation), we are unable to comment on whether audit trail feature with respect to the database of the said software was enabled and operated throughout the year.

ANNEXURE I

Annexure I referred to in Paragraph 16 of the Independent Auditor’s Report of even date to the members of Zee Entertainment Enterprise Limited on the standalone financial statements for the year ended 31 March 2026

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- (i)

(a)

(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, capital work-in-progress, investment property and relevant details of right-of-use assets.

(B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular programme of physical verification of its property, plant and equipment, capital work-in-progress, investment properties and relevant details of right-of-use assets under which the assets are physically verified in a phased manner over a period of three years, which in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this programme, certain property, plant and equipment, capital work-in-progress, investment properties and relevant details of right-of-use assets were verified during the year and no material discrepancies were noticed on such verification.
- (c) The title deeds of all the immovable properties including investment properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in Note 5(a) to the standalone financial statements, are held in the name of the Company. Also refer to note 5(a)(i) in standalone financial statements with regard to one immovable property.
- (d) The Company has adopted cost model for its Property, Plant and Equipment (including right-of-use assets, capital work in progress, investment

properties) and intangible assets. Accordingly, reporting under clause 3(i)(d) of the Order is not applicable to the Company.

- (e) No proceedings have been initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (as amended) and rules made thereunder.
- (ii)

(a) The Company does not hold any tangible inventory. Accordingly, reporting under clause 3(ii)(a) of the Order is not applicable to the Company.

(b) The Company has not been sanctioned working capital limits by banks or financial institutions on the basis of security of current assets at any point of time during the year. Accordingly, reporting under clause 3(ii)(b) of the Order is not applicable to the Company.
- (iii)

(a) The Company has not provided any guarantee or given any security or granted any advances in the nature of loans during the year. The Company has made investment in 4 entities amounting to ₹ 10 million (year-end balance ₹ 3,00,000). Also, the company has provided loans to others during the year as per details given below:

Particulars	Amount in ₹ million
Aggregate amount granted during the year:	
- Others	350
Balance outstanding as at balance sheet date:	
- Others	357

- (b) In our opinion, and according to the information and explanations given to us, the investments made and terms and conditions of the grant of all loans are, prima facie, not prejudicial to the interest of the Company.

- (c) In respect of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and the repayments/receipts of principal and interest are regular, except for the following instances:

Name of the Entity	Amount due (₹ In million)	Due date	Extent of delay	Remarks (if any)
Edison Infrapower & Multiventures Private Limited	570*	30 th September 2019	2,374 days	The Company has received favorable arbitration order against these entities. Further the Company has filed execution application with Bombay high court for recovery of the amounts.
Konti Infrapower & Multiventures Private Limited	560*			
Widescreen Holdings Private Limited	460*			
Asian Satellite Broadcast Private Limited	116*			

*Balances have been fully provided.

- (d) The total amount which is overdue for more than 90 days as at 31 March 2026 in respect of loans granted to such companies, firms, LLPs or other parties is as follows:

Particulars	Amount (₹ In million)	No. of Cases	Remarks (if any)
Principal	1,500	4	The Company has received favorable arbitration order against these entities. Further the Company has filed execution application with Bombay high court for recovery of the amounts.
Interest	206		
Total	1,706		

Reasonable steps have been taken by the Company for recovery of such principal amounts and interest.

- (e) The Company has not granted any loan or advance in the nature of loans which has fallen due during the year. Further, no fresh loans were granted to any party to settle the overdue loans/advances in nature of loan that existed as at the beginning of the year.

- (f) The Company has not granted any loan or advance in the nature of loan, which is repayable on demand or without specifying any terms or period of repayment.

- (iv) In our opinion, and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Act in respect of loans and investments made and guarantees and security provided by it, as applicable. Further, the Company has not entered into any transaction covered under section 185 of the Act.

- (v) In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there are no amounts which have been deemed to be deposits within the meaning of sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company.

- (vi) The Central Government has specified maintenance of cost records under sub-section (1) of section 148 of the Act in respect of the products of the Company. We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

- (vii) (a) In our opinion and according to the information and explanations given to us, the Company is regular in depositing undisputed statutory dues including goods and services tax, income-tax, provident fund, employees state insurance fund, cess and other material statutory dues, as applicable, with the appropriate authorities. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us, we report that there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except for the following:

(viii) According to the information and explanations given to us, we report that no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been previously recorded in the books of accounts.

(ix) (a) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of its loans or borrowings or in the payment of interest thereon to any lender.

(b) According to the information and explanations given to us including representation received from the management of the Company, and on the basis of our audit procedures, we report that the Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority.

(c) In our opinion and according to the information and explanations given to us, money raised by way of term loans (vehicle loans) were applied for the purposes for which these were obtained.

(d) In our opinion and according to the information and explanations given to us, the Company has not raised any funds on short term basis during the year. Accordingly, reporting under clause 3(ix)(d) of the Order is not applicable to the Company.

(e) In our opinion and according to the information and explanations given to us and on an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries and joint venture.

(f) In our opinion and according to the information and explanations given to us, the Company has not raised any loans during the year on the pledge of securities held in its subsidiaries and joint ventures.

(x) (a) The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.

(b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not made any preferential allotment or private placement of shares or (fully, partially or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.

(xi) (a) To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or no material fraud on the Company has been noticed or reported during the period covered by our audit.

(b) According to the information and explanations given to us including the representation made to us by the management of the Company, no report under sub-section 12 of section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014, with the Central Government for the period covered by our audit.

(c) According to the information and explanations given to us including the representation made

to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.

(xii) The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company.

(xiii) In our opinion and according to the information and explanations given to us, all transactions entered into by the Company, with the related parties, are in compliance with sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements etc., as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under section 133 of the Act.

(xiv) (a) In our opinion and according to the information and explanations given to us, the Company has an internal audit system which is commensurate with the size and nature of its business as required under the provisions of section 138 of the Act.

(b) We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.

(xv) According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly, reporting under clause 3(xv) of the Order with respect to compliance with the provisions of section 192 of the Act are not applicable to the Company.

(xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clauses 3(xvi)(a), (b) and (c) of the Order are not applicable to the Company.

(d) Based on the information and explanations given to us and as represented by the management of the Company, the Group (as defined in Core Investment Companies (Reserve Bank) Directions, 2016) does not have any CIC.

(xvii) The Company has not incurred any cash losses in the current financial year as well as the immediately

preceding financial year.

(xviii) There has been no resignation of the statutory auditors during the year. Accordingly, reporting under clause 3(xviii) of the Order is not applicable to the Company.

(xix) According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information in the standalone financial statements, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the company as and when they fall due.

(xx) According to the information and explanations given to us, the Company does not have any unspent amounts towards Corporate Social Responsibility in respect of any ongoing or other than ongoing project as at the end of the financial year. Accordingly, reporting under clause 3(xx) of the Order is not applicable to the Company.

(xxi) The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

ANNEXURE II

Independent Auditor's Report on the internal financial controls with reference to the standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the standalone financial statements of Zee Entertainment Enterprises Limited ('the Company') as at and for the year ended 31 March 2026, we have audited the internal financial controls with reference to standalone financial statements of the Company as at that date.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR INTERNAL FINANCIAL CONTROLS

2. The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note ') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements

and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

6. A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not

be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such controls were operating effectively as at 31 March 2026,

based on internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

1 CORPORATE INFORMATION

Zee Entertainment Enterprises Limited ('ZEEL' or 'the Company') (CIN No : L92132MH1982PLCO28767) is incorporated in the State of Maharashtra, India and is listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE) in India. The registered office of the Company is 18th floor, A Wing, Marathon Futurex, N. M. Joshi Marg, Mumbai 400013, India. The Company is mainly in the following businesses:

- A) Broadcasting of satellite television channels and digital media;
- B) Space selling agent for other satellite television channels;
- C) Sale of media content i.e. programs / film rights / feeds / music rights.
- D) Movie production and distribution

2 MATERIAL ACCOUNTING POLICIES

A) Statement of compliance

These standalone financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the Ind AS) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (the Act) read with the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act and accounting principles generally accepted in India.

B) Basis of preparation of standalone financial statements

These standalone financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies stated out below. These financial statements have been prepared by the Company as a going concern.

The accounting policies are applied consistently to all the periods presented in the standalone financial statements, except where a newly issued Accounting Standard is initially adopted or a revision to an existing standard requires a change in the accounting policy hitherto in use.

The standalone financial statements are presented in

Indian Rupee which is also the functional currency of the Company. All amounts disclosed in the standalone financial statements and notes have been rounded-off to the nearest million as per the requirement of Schedule III, unless otherwise stated. Amount less than a million is presented as ₹ 0 Million.

Assets and Liabilities are classified as Current or Non-Current as per the provisions of Schedule III to the Companies Act, 2013 and the Company normal operating cycle. Based on the nature of business, the Company has ascertained its operating cycle as 12 months for the classification of assets and liabilities.

Figures for the previous year have been regrouped and / or reclassified, wherever considered necessary. The impact of such reclassification/regrouping is not material to Standalone Financial Statements.

Previous year figures, where applicable, have been indicated in brackets.

C) Business combinations

Business combinations have been accounted for using the acquisition method.

The consideration transferred is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is achieved by the Company. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Business combinations involving entities that are controlled by the Company are accounted for using the pooling of interests method as follows:

- I The assets and liabilities of the combining entities are reflected at their carrying amounts.
- II No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- III The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial statements of the transferee or is adjusted against general reserve.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

- IV The identity of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- V The difference, if any, between the amounts recorded as share capital issued plus any additional consideration in the form of cash or other assets and the amount of share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.
- VI The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.

Transaction costs that the Company incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

In case of a bargain purchase, before recognising a gain in respect thereof, the Company determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Company reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional assets or liabilities that are identified in that reassessment. The Company then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Company recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons

for classifying the business combination as a bargain purchase, the Company recognises the gain, after assessing and reviewing (as described above), directly in equity as capital reserve.

When the consideration transferred by the Company in a business combination includes assets or liabilities resulting from a contingent consideration arrangement, the contingent consideration arrangement is measured at its acquisition date fair value and included as a part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with the corresponding adjustments against goodwill or capital reserve, as the case may be. Measurement period adjustments are adjustments that arise from additional information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of contingent consideration is recognised in the statement of profit and loss.

When a business combination is achieved in stages, the Company's previously held equity interest in the acquiree is remeasured to its acquisition date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

D) Property, plant and equipment

- I Property, plant and equipment are stated at cost, less accumulated depreciation and impairment loss, if any. The cost comprises purchase price and related expenses and for qualifying assets, borrowing costs are capitalised based on the Company's accounting policy. Integrated Receiver Decoders (IRD) boxes are capitalised, when available for deployment.
- II Capital work-in-progress comprises cost of property, plant and equipment and related expenses that are not yet ready for their intended use at the reporting date.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

III Depreciation is recognised so as to write-off the cost of assets (other than free hold land and capital work-in-progress) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each reporting period, with the effect of changes in estimate accounted for on a prospective basis.

IV The estimate of the useful life of the assets has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement etc. The estimated useful life of items of property, plant and equipment is as mentioned below:

Furniture and Fixtures –	5 years ^
Buildings	60 years *
Computers	3 and 6 years *
Equipment	3 to 5 years ^
Plant and Machinery	^
Gas Plant	20 years
Others	5 to 10 years
Vehicles	5 years ^
Leasehold improvements	Period of lease term

* Useful life is as prescribed in Schedule II to the Companies Act, 2013
^ Useful life is lower than as prescribed in Schedule II to the Companies Act, 2013

E) Investment property

- I Investment property are properties (land or a building or part of a building or both) held to earn rentals and / or for capital appreciation (including property under construction for such purposes). Investment property is measured initially at cost including purchase price, borrowing costs. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and impairment, if any.
- II Depreciation on investment property is provided as per the useful life prescribed in Schedule II to the Companies Act, 2013 on straight line basis.

F) Non-current assets held for sale

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use and the sale is highly probable. Management must be committed to the sale, which should be expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded as met only when the asset is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Company treats sale of the asset to be highly probable when:

- I The appropriate level of management is committed to a plan to sell the asset,
- II An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- III The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- IV The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- V Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

Gains and losses on disposals of non-current assets are determined by comparing proceeds with carrying amounts and are recognised in the standalone statement of profit and loss.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and

- i represents a separate major line of business or geographical area of operations and;
- ii is part of a single co-ordinated plan to dispose of such a line of business or area of operations

The result of discontinued operations are presented separately as a single amount as profit or loss after tax from discontinued operations in the standalone statement of profit and loss.

An impairment loss is recognised for any initial or subsequent write-down the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the asset is recognised at the date of de-recognition.

G) Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purpose of impairment testing, goodwill is allocated to the respective cash generating units that is expected to benefit from the synergies of the combination.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis, based on the carrying amount of each asset in the unit. Any impairment loss for the goodwill is recognised directly in the statement of profit and loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On the disposal of the relevant cash generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

H) Intangible assets

Intangible assets with finite useful lives that are acquired are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over the estimated useful lives.

The estimated useful life for intangible assets is 3 years. The estimated useful and amortisation method are reviewed at each reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

Intangible assets under development:

Expenditure incurred on acquisition / development of intangible assets which are not ready for their intended use at balance sheet date are disclosed under intangible assets under development.

Research and development of internally generated assets:

Research costs are expensed as incurred. Development expenditures on an internally generated assets are recognised as an intangible asset when the Company can demonstrate:

- I The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- II Its intention to complete and its ability and intention to use or sell the asset
- III How the asset will generate future economic benefits
- IV The availability of resources to complete the asset
- V The ability to measure reliably the expenditure during development.

The cost of development on internally generated intangible asset includes the directly attributable expenditure of preparing the asset for its intended use. Expenditure on training activities, identified inefficiencies and initial operating losses is expensed as it is incurred.

The cost recognised is the sum of expenditure incurred from the date when the intangible asset first meets the recognition criteria and prohibits reinstatement of expenditure previously recognised as an expense.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

Directly attributable costs comprise all costs necessary to create, produce, and prepare the asset to be capable of operating in the manner intended by management. The capitalisation cut off is determined by when the testing stage of the software has been completed and the software is ready to go live. Costs incurred after the final acceptance testing and launch have been successfully completed, is expensed.

Post the launch of the software, the cost is accounted for as part of the development phase only where there is the software platform development and activities to improve its functionality which enhance the asset's economic benefits potential and the cost meets the recognition criteria listed above for the recognition of development costs as an asset.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the standalone statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

I) Impairment of property, plant and equipment / right-of-use assets / other intangible assets / investment property

The carrying amounts of the Company's property, plant and equipment, right-of-use assets, other intangible assets and investment property are reviewed at each reporting date to determine whether there is any indication that those assets have suffered any impairment loss. If there are indicators of impairment, an assessment is made to determine whether the asset's carrying value exceeds its recoverable amount. Where it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

An impairment loss is recognised in standalone statement of profit and loss whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. The recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing the value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market

assessments of the time value of money and the risks specific to the assets for which the estimates of future cash flows have not been adjusted.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. Reversal of an impairment loss is recognised immediately in the standalone statement of profit and loss.

J) Derecognition of property, plant and equipment / right-of-use assets / other intangible assets / investment property

The carrying amount of an item of property, plant and equipment / right-of-use assets / other intangible assets / investment property is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment / right-of-use assets / other intangible assets / investment property is determined as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the standalone statement of profit and loss.

K) Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116 on 'Leases'.

I The Company as lessee:

The Company assesses whether a contract is or contains a lease, at inception of the contract. The Company recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease. If this rate cannot be readily determined, the Company uses its incremental borrowing rate.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

Lease payments included in the measurement of the lease liability comprise:

- a Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- b Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date
- c The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- d Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease. The lease liability is presented as a separate line item in the balance sheet.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Company remeasures the lease liability (and makes a corresponding adjustment to the related rightof-use asset) whenever:

- a The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- b The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).

- c A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Company did not make any such adjustments during the periods presented.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the right-of-use asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Company expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets is presented as a separate line item in the balance sheet.

The Company applies Ind AS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

II The Company as a lessor:

The Company enters into lease agreements as a lessor with respect to some of its investment properties.

Leases for which the Company is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

L) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

M) Inventories

I Media Content :

Media content i.e. Programs, Film rights, Music rights (completed (commissioned / acquired) and under production) including content in digital form are stated at lower of cost / written down value or realisable value. Cost comprises acquisition / direct production cost. Where the realisable value of media content is less than its carrying amount, the difference is expensed. Programs, film rights, music rights are expensed as under :

- a Programs – reality shows, chat shows, events, game shows, etc. are fully expensed on telecast / upload.
- b Programs (other than (a) above) are expensed over three financial years starting from the year of first telecast/upload, as per expected pattern of realisation of economic benefit.
- c Film rights are expensed based on expected pattern of realisation of economic benefit over the licensed period of sixty months from the commencement of rights, whichever is shorter.
- d Music rights are expensed over ten financial years starting from the year of commencement of rights, as per management estimate of future revenue potential.
- e The cost of educational content acquired is expensed based on consumption pattern over the license period or 60 months from

the date of acquisition / right start date whichever is shorter.

- f Films produced and / or acquired for distribution / sale of rights:

Cost is allocated to each right based on management estimate of revenue. Film rights are amortised as under:

- i Satellite rights – Allocated cost of right is expensed immediately on sale.
- ii Theatrical rights – Expensed in the month of theatrical release.
- iii Intellectual Property Rights (IPRs) – Allocated cost of IPRs are expensed over 5 years from release of film.
- iv Music and Other Rights – Allocated cost of each right is expensed immediately on sale.

II Raw Stock :

Tapes are valued at lower of cost or estimated net realisable value. Cost is taken on weighted average basis.

N) Financial Instruments

Financial instruments is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

I Initial Recognition

Financial assets (excluding trade receivables which are initially measured at transaction price) and financial liabilities are initially measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the standalone statement of profit and loss.

However, trade receivables that do not contain a significant financing component are measured at

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

transaction price under Ind AS 115 “Revenue from Contracts with Customers”.

II Financial assets

a Classification of financial assets

Financial assets are classified into the following specified categories: amortised cost, financial assets ‘at fair value through profit and loss’ (FVTPL), ‘Fair value through other comprehensive income’ (FVTOCI). The classification depends on the Company’s business model for managing the financial assets and the contractual terms of cash flows.

b Subsequent measurement

i Debt Instrument – amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. This category generally applies to trade and other receivables.

- ii Fair value through other comprehensive income (FVTOCI):

A ‘debt instrument’ is classified as at the FVTOCI if both of the following criteria are met:

- The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets.
- The asset’s contractual cash flows represent solely payments of principal and interest.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). However, the Company recognises interest income, impairment

losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to standalone statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the effective interest rate method.

In case of “equity share” the Company has irrevocable election choice that can be exercised on an instrument by instrument basis to classify such instruments as FVTOCI. Accordingly the Company has classified certain investment in equity instrument as Fair Value through other comprehensive income.

iii Fair value through Profit and Loss (FVTPL):

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL. In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is considered only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as ‘accounting mismatch’). Debt instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit and loss.

iv Equity investments:

The Company subsequently measures all equity investments at fair value. Where the Company’s management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to statement of profit and loss. Dividends from such investments are recognised in statement

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

of profit and loss as other income when the Company's right to receive payment is established.

v Investment in subsidiaries, joint ventures and associates:

Investment in subsidiaries, joint ventures and associates are carried at cost less impairment loss in accordance with Ind AS 27 on 'Separate Financial Statements'.

vi Derivative financial instruments:

Derivative financial instruments are classified and measured at fair value through profit and loss.

c Derecognition of financial assets

A financial asset is derecognised only when:

- i The Company has transferred the rights to receive cash flows from the asset or the rights have expired or
- ii The Company retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients in an arrangement.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

d Impairment of financial assets

In accordance with Ind AS 109, the Company applies Expected Credit Losses ("ECL") model for measurement and recognition of impairment loss on the following financial assets:

- Financial assets that are debt instruments, and are measured at amortised cost, e.g. loans and deposits;

- Financial assets that are debt instruments and are measured at fair value through other comprehensive income (FVTOCI)
- Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 Expected Credit Losses are measured through a loss allowance at an amount equal to:
- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date), if the credit risk on a financial instrument has not increased significantly; or
- Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument), if the credit risk on a financial instrument has increased significantly.

In accordance with Ind AS 109 – Financial Instruments, the Company applies ECL model for measurement and recognition of impairment loss on the trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 – Revenue from Contracts with Customers.

For this purpose, the Company follows 'simplified approach' for recognition of impairment loss allowance on the trade receivable balances, contract assets and lease receivables. The application of simplified approach requires expected lifetime losses to be recognised from initial recognition of the receivables based on lifetime ECLs at each reporting date.

In case of other assets, the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly,

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

an amount equal to twelve months ECL is measured and recognised as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognised as loss allowance.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Company considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Company's historical experience and informed credit assessment and including forward looking information.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Company's procedures for recovery of amounts due.

The presumption under IND AS 109 with reference to significant increases in credit risk since initial recognition (when financial assets are more than 180 days past due) has been rebutted and is not applicable to the Company, as the Company is able to collect significant portion of its receivables that exceed the due date.

III Financial liabilities and equity instruments

a Classification of debt or equity:

Debt or equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

b Subsequent measurement:

i Financial liabilities measured at amortised cost:

Financial liabilities are subsequently measured at amortized cost using the effective interest rate (EIR) method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortisation is included in finance costs in the statement of profit and loss.

Lease liability associated with assets taken on lease (except short-term and low value assets) is measured at the present value of lease payments to be made. Lease payments are discounted using the incremental rate of borrowing as the case may be. Lease payments comprise fixed payments in relation to the lease (less lease incentives receivable), variable lease payments, if any and other amounts (residual value guarantees, penalties, etc.) to be payable in future in relation to the lease arrangement.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

ii Financial liabilities measured at fair value through profit and loss (FVTPL):

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Derivatives, including separated embedded derivatives are classified as held for trading unless they are designated as effective hedging instruments. Financial liabilities at fair

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

value through profit and loss are carried in the financial statements at fair value with changes in fair value recognised in other income or finance costs in the standalone statement of profit and loss.

c Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the standalone statement of profit and loss.

IV Foreign Currency Convertible bonds (FCCB)

The Company has classified foreign currency convertible bond denominated in USD that can be converted to ordinary shares at the option of the bondholder at a conversion price fixed in Company's functional currency (INR) as a compound financial instrument comprising of a liability component and an equity component.

Initial measurement

The liability component of a compound financial instrument is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent measurement

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not re-measured. Interest related to the financial liability is recognised in profit or loss under finance cost. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognised.

V Fair value measurement

The Company measures financial instruments such as debts and certain investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

For assets and liabilities that are recognised in the balance sheet on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

VI Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

O) Borrowings costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use of sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

P) Provisions, contingent liabilities and contingent assets

The Company recognises provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows

(when the effect of the time value of money is material).

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that the outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognised in the financial statements, however they are disclosed where the inflow of economic benefits is probable. When the realisation of income is virtually certain, then the related asset is no longer a contingent asset and is recognised as an asset.

A provision for onerous contracts is recognised in the statement of profit and loss when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognises any impairment loss on the assets associated with that contract.

Q) Revenue recognition

Ind AS 115 on 'Revenue from Contracts with Customers'

As per Ind AS 115 "Revenue from contracts with customers" – A contract with a customer exists only when the parties to the contract have approved it and are committed to perform their respective obligations, the Company can identify each party's rights regarding the distinct goods or services to be transferred ("performance obligations"), the Company can determine the transaction price for the goods or services to be transferred, the contract has commercial substance and it is probable that the Company will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.

Revenues are recorded for the amount of consideration to which the Company expects to be entitled in

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

exchange for performance obligations upon transfer of control to the customer and is measured at the amount of transaction price net of returns, applicable tax and applicable trade discounts, allowances, Goods and Services Tax (GST) and amounts collected on behalf of third parties.

I Broadcasting revenue – Advertisement revenue (net of discount and volume rebates) is recognised when the related advertisement or commercial appears before the public i.e. on telecast. Subscription revenue (net of share to broadcaster) is recognised on time basis on the provision of television/digital broadcasting service to subscribers.

II Sale of media content – Revenue is recognised when the significant risks and rewards have been transferred to the customers in accordance with the agreed terms.

III Commission of revenue – Commission of space selling is recognised when the related advertisement or commercial appears before the public i.e. on telecast.

IV Revenue from theatrical distribution of films is recognised over a period of time on the basis of related sales reports.

V Revenue from other services is recognised as and when such services are completed/performed.

VI Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate (EIR) applicable.

VII Dividend income is recognised when the Company's right to receive dividend is established.

VIII Rent income is recognised on accrual basis as per the agreed terms on straight line basis.

R) Retirement and other employee benefits

Employee benefits include salaries, wages, contribution to provident fund, gratuity, post-retirement medical benefits and other terminal benefits.

Short-term employee benefits:

Employee benefits such as salaries, wages, short-term compensated absences, cost of bonus, ex-gratia and performance linked rewards falling due wholly within

twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the related service. The obligations are presented as current liability in the balance sheet if the entity does not have an unconditional right to defer the settlement for atleast 12 months after reporting date.

Payments to defined contribution plans viz. Government administered provident funds and pension schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined retirement benefit plans in the form of gratuity, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to standalone statement of profit and loss.. Past service cost is recognised in statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

I service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);

II net interest expense or income; and

III remeasurement

The Company presents the first two components of defined benefit costs in standalone statement of profit and loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the balance sheet represents the actual deficit or surplus in the Company's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

A liability for a termination benefit is recognised at the earlier of when the entity can no longer withdraw the offer of the termination benefit and when the entity recognises any related restructuring costs.

Other long-term employee benefits:

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Company in respect of services provided by employees up to the reporting date.

S) Transactions in foreign currencies

The functional currency of the Company is Indian Rupees ('₹').

I Foreign currency transactions are accounted at the exchange rate prevailing on the date of such transactions.

II Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Exchange differences arising on settlement of monetary items or on reporting such monetary items at rates different from those at which they were initially recorded during the period, or reported in previous financial statements are recognised as income or as expenses in the period in which they arise.

III Non-monetary foreign currency items are measured in terms of historical cost in the foreign currency and are not retranslated.

T) Accounting for taxes on income

Current and deferred tax for the year:

Current and deferred tax are recognised in the statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Tax expense comprises of current and deferred tax.

I Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for a year. Current tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws

that have been enacted or substantively enacted at the balance sheet date. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

II Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

The Company recognises deferred tax liability for all taxable temporary differences associated with investments in subsidiaries and joint ventures, except to the extent that both of the following conditions are satisfied:

- When the Company is able to control the timing of the reversal of the temporary difference; and
- it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities.

III Uncertain Tax positions

Accruals for uncertain tax positions require management to make judgements of potential exposures. Accruals for uncertain tax positions are measured using either the most likely amount or the expected value amount depending on which method the entity expects to better predict the resolution of the uncertainty. Tax benefits are not recognised unless the tax positions will probably be accepted by the tax authorities. This is based upon Management's interpretation of applicable laws and regulations and the expectation of how the tax authority will resolve the matter. Once considered probable of not being accepted, Management reviews each material tax benefit and reflects the effect of the uncertainty in determining the related taxable amounts.

U) Earnings per share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity share holders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares (including FCCBs), by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

V) Exceptional Items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Company is treated as an exceptional item and the same is disclosed in the profit or loss and in the notes forming part of the standalone financial statements.

W) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year end.

An asset's recoverable amount is the higher of an asset's or Cash Generating Unit's (CGU) fair value less costs of disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash generating unit. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators. For the purpose of impairment testing, assets are Companyed together into the smallest Company of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or Companys of assets (the 'cash generating unit').

The goodwill acquired in a business combination is, for the purpose of impairment testing, allocated to cash-generating units that are expected to benefit from the synergies of the combination.

An impairment loss is recognised in the standalone profit or loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

X) Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the expected credit loss model as per Ind AS 109 – Financial Instruments; and
- the amount initially recognised less, where appropriate, cumulative amount of income recognised in accordance with the principles of Ind AS 115 – Revenue from Contracts with Customers.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations. Where guarantees in relation to loans or other payables of associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment

Y) Impairment of investments

The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the standalone statement of profit and loss.

Z) Contract balances

Contract balances Contract assets A Contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a

customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract liabilities A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

3 KEY ACCOUNTING JUDGEMENTS AND ESTIMATES

The preparation of the Company's financial statements requires the Management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimating the uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

A) Income-taxes

The Company's tax jurisdiction is India. Significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid / recovered for uncertain tax positions.

In assessing the realisability of deferred tax assets, management considers whether some portion or all of the deferred tax assets will not be realised. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realise the benefits of those deductible differences. The amount of the deferred income tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

B) Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Company's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

C) Research and development for internally generated assets

Research costs are expensed as incurred. Development expenditures on an internally generated assets are recognised as an intangible asset when the Company can demonstrate criteria specified for capitalisation has been fulfilled. Significant judgements are involved for assessing recognition criteria and analyse that the cost incurred for subsequent development improve the functionality and enhance the asset's economic benefits potential.

D) Impairment of goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment

test is performed at the level of the cash-generating unit or Companys of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

In estimating the future cash flows / fair value less cost of disposal, the Company has made certain assumptions relating to the future customer base, future revenues, operating parameters, capital expenditure and terminal growth rate which the Company believes reasonably reflects the future expectation of these items. However, if these assumptions change consequent to change in future conditions, there could be further favorable / adverse effect on the recoverable amount of the assets. The assumptions will be monitored on periodic basis by the Company and adjustments will be made if conditions relating to the assumptions indicate that such adjustments are appropriate.

E) Defined benefit obligation

The costs of providing pensions and other postemployment benefits are charged to the standalone statement of profit and loss in accordance with Ind AS 19 on 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the Management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

F) Fair value measurement of financial instruments and ECL on other Financial Assets

When the fair values of financials assets and financial liabilities recorded in the standalone balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

discounted cash flow model, which involve various judgements and assumptions.

In accordance with Ind AS 109 – Financial Instruments, the Company applies ECL model for measurement and recognition of impairment loss on the trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 – Revenue from Contracts with Customers.

For this purpose, the Company follows 'simplified approach' for recognition of impairment loss allowance on the trade receivable balances, contract assets and lease receivables. The application of simplified approach requires expected lifetime losses to be recognised from initial recognition of the receivables based on lifetime ECLs at each reporting date.

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

In case of other assets, the Company determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to twelve months ECL is measured and recognised as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognised as loss allowance.

G) Lease

Ind AS 116 – Leases requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Company considers factors such as any significant leasehold improvements

undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Company's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

H) Provisions and contingent liabilities

The Company exercises judgement in determining if a particular matter is possible, probable or remote. The Company also exercises judgement in measuring and recognising provisions and the exposures to contingent liabilities related to pending litigation or other outstanding claims subject to negotiated settlement, mediation, government regulation, as well as other contingent liabilities. Judgement is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual losses may be different from the originally estimated provision. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

I) Estimate of charge for inventories recoverability of inventories and content advance

Considering the inherent nature of the industry, particularly on the changing viewing patterns of the content and quality of content which is determined by viewers consuming content, determination of expected pattern of realisation of economic benefits and provision for net realisable value of inventories involves significant judgement and estimates since it is dependent on both external and internal factors.

The factors that the Company considers in determining the consumption has been derived basis management's expectation of overall performance of content on historical trends and future expectations

For inventory, the management assesses estimates of future revenue potential. Based on such assessment if the net realisable value of key item of inventory is below its carrying value, such

NOTES

inventories are written down to their net realisable value in accordance with the requirements of Ind AS 2, Inventories ('Ind AS 2')

4 RECENT INDIAN ACCOUNTING STANDARDS (IND AS)

A) Standards issued but not effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March, 2026, MCA has notified Amendment to following Ind AS, applicable to the Company w.e.f. 1st April, 2025.

- 1) Ind AS – 21 The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability
- 2) Ind AS 12 – Income Taxes relating to International Tax Reform – Pillar Two Model Rules – Exception to recognition and disclosure of deferred tax.

- 3) Amendments to Ind AS 7 – Cash flow statement and Ind AS 107 – Financial Instrument – Disclosures relating to supplier finance arrangements
- 4) Ind AS1–Presentation of Financial Statements– Classification of Liabilities as current or non– current and non– current liabilities with covenants.

The Company has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact on its standalone financial statements.

New and amended standards issued but not effective:

The MCA has issued certain amendments to Indian Accounting Standards which are not yet effective as at 31st March, 2026. The Company has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

property in India is based on the valuation by a registered valuer as defined under Rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The valuation was arrived at by reference to market evidence of transaction prices for similar properties.

The fair valuation of the assets is based on the perception about the macro and micro economic factors presently governing the construction industry, location of property, existing market conditions, degree of development of infrastructure in the area, demand supply conditions, internal amenities, common amenities, etc.

Due to use of significant unobservable inputs to compute the fair value, it is classified as Level 3 in the fair value hierarchy as per the requirements of Ind AS 113 on 'Fair value measurement'.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

Regional Channel in India

The recoverable amount of this Cash Generating Unit (CGU) is determined based on a value in use. The estimated value in use of this CGU is based on the future cash flows using a 2% terminal growth rate for periods subsequent to the 5 years and discount rate of 19%(14.4%). An analysis of the sensitivity of the computation to a change in key parameters (operating margin, discount rate and long-term growth rate), based on reasonably probable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount.

Online media business

The Company assessed the recoverable amount of Goodwill allocated to the Online Media Business which represent a separate CGU. The recoverable amount of this CGU was determined by an independent expert based on the fair value less cost of disposal. The fair value was determined based on revenue multiple of other companies in media industry which was higher than the carrying value of CGU accordingly no impairment in required.

Due to use of significant unobservable inputs to compute the fair value, it is classified as Level 3 in the fair value hierarchy as per the requirements of Ind AS 113 on 'Fair value measurement'.

*Indirect tax disputes primarily include disputes for the service tax demand, availment of inadmissible input tax credit under Goods and Service Tax (GST) and others. The Company has filed/in the process of filing submission before the relevant authorities. The Company has reviewed all its pending indirect tax dispute litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its standalone financial statements.

During an earlier year, the Company had received show cause cum demand notice (SCN) from Indirect Tax Authorities in relation to availment of inadmissible input tax credit under Goods and Service Tax (GST) aggregating to ₹ 1,736 million (inclusive of consequential interest & penalty) which forms part of contingent liability. The Company had made payments / reversal of input credit of the SCN amount under protest and to ensure the interest accrual on the same are limited. During the year, Adjudicating Authority has passed orders upholding the demand. Based on the legal advice, the management believes it has strong case on merits and has accordingly filed appeals against the aforesaid orders before the Commissioner of Central Tax (Appeals). The management believes that these balances are recoverable.

‡Income-tax demands mainly include appeals filed by the Company before various appellate authorities against disallowance of expenses/ claims, non-deduction/short deduction of tax at source, transfer pricing adjustments etc. The Management is of the opinion that its tax cases are likely to be decided in its favour and hence no provision is considered necessary.

#The amount represents the best possible estimate arrived at on the basis of available information. The Company has engaged reputed advocates to protect its interests and has been advised that it has strong legal positions against such disputes.

@The Company has received legal notices of claims/lawsuits filed against it relating to infringement of copyrights, defamation suits etc. in relation to the programs produced/other matters. In the opinion of the Management, no material liability is likely to arise on account of such claims/lawsuits.

During the previous year, a class action suit filed against the Company in US Court with respect to digital data protection matter was dismissed by the Court during the year.

Further, during the year, separate class action suit has been filed against the Company in US Court with respect to digital data protection matter. Based on the, past favourable order, available information and legal advice, the Management believes that no adjustments are required to the accompanying statements, as there are reasonable grounds of defence.

36 CAPITAL AND OTHER COMMITMENTS

- (a) Estimated amount of contracts remaining to be executed for capital expenditure not provided for (net of advances) is ₹ 119 Million (₹ 318 Million).

- (b) Other commitments as regards media content and others (net of advances) are ₹ 14,895 Million (₹ 15,764 Million).

- 37** On 26 August 2022, the Company had entered into an agreement with JioStar India Private Limited ("JioStar") (previously known as Star India Private Limited) which set out the basis on which JioStar would be willing to grant sub-license rights to the Company in relation to television broadcasting rights of the International Cricket Council's (ICC) Men's and Under 19 (U-19) global events for a period of four years (ICC 2024-2027) on an exclusive basis (Alliance Agreement). The Company / Board had identified this acquisition as being of strategic importance ensuring the Company is present in all segments of the media and entertainment business. The performance of the Alliance Agreement was subject to certain conditions precedent including submission of financial commitments, provision of bank guarantee and corporate guarantee/confirmation and written ICC approval for sub-licensing the television broadcasting rights to the Company.

JioStar had previously sent letters to the Company through its legal counsel alleging breach of the Alliance agreement on account of non-payment of dues for the rights in relation to first installment of the rights fee aggregating to US \$ 203.56

million along-with the payment for bank guarantee commission and deposit interest aggregating ₹ 170 million and financial commitments including furnishing of corporate guarantee/ confirmation as stated in the Alliance agreement. Based on the legal advice, the management believes that JioStar by its conduct has acted in breach of the Alliance Agreement and is in default of the terms thereof. Since JioStar has acted in repudiatory breach of the Alliance Agreement and accordingly on 8 January 2024 the Company terminated the Alliance Agreement on account of such breach and has also sought refund of ₹ 685 million paid to JioStar towards bank guarantee commission and interest expense.

JioStar initiated arbitration proceedings before London Court of International Arbitration (LCIA) against the Company through its Notice of Arbitration dated 14 March 2024 (Arbitration Notice) by which it had sought specific performance of the Alliance Agreement by the Company or in the alternative compensation from the Company for damages that was not quantified at the time by JioStar.

Subsequently, JioStar through its communication dated 20 June 2024, terminated the Alliance Agreement and opted to only seek damages during the Arbitration proceedings.

As per the procedural order of the LCIA Arbitral Tribunal dated 18 July 2024 (Procedural Order), JioStar on 16 September 2024, filed its Statement of Case before the LCIA Arbitral Tribunal, and has inter alia, sought for a ruling that the Alliance Agreement between JioStar and the Company was validly terminated by JioStar and also filed for damages to be determined as of the date of the Tribunal's award (with such damages quantified, as at 31 August 2024 as proxy date of the award, at US\$ 940 million) along with costs, expenses and applicable interest until full payment. Based on review of the Statement of Case, no additional legal grounds of claim have been made out.

During the previous year ended 31 March 2025, as per the Procedural Order the Company has filed its Statement of Defence and Counterclaim on the 23 December 2024 and categorically refuted all claims and assertions made by JioStar including its claims for damages, and in the counterclaim the Company has claimed the payments made to JioStar aggregating to US \$ 8 million plus interest. The Company is taking necessary steps to defend itself against JioStar's claim in the Arbitration.

During the quarter ended 31 December 2025, due to certain developments/ disclosures made by JioStar, the Tribunal has adjourned the hearing on Zee's application. Fresh hearing dates have been confirmed by the Tribunal.

During the quarter and year ended 31 March 2026, in line with Procedural Order of the tribunal the Company has filed further pleadings with its defence to which JioStar has responded subsequent to the year-end and increasing its damages claim to US\$1.097 billion. The Company is in the process of filing its rejoinder to JioStar's response and defend the claim.

The Board continues to monitor the progress of aforesaid matter. The management, based on a legal advice and its internal assessment, has determined that the Company is not in default of the Alliance Agreement and believes that the claims made by JioStar are unfounded and legally not tenable. The Company has strong and valid grounds to defend any claims in respect of above matter.

Accordingly, the Company does not expect any material adverse impact with respect to the above as in its view the contract has been repudiated and no adjustments are required to the accompanying standalone financial statement.

38 The Company in May 2016 had issued a Letter of Comfort (LOC) to the Yes Bank Limited with respect to Company's support to ATL Media Limited (ATL), an overseas wholly owned subsidiary of the Company incorporated in Mauritius. The LOC was provided confirming Company's intention, among other matters, to support ATL by infusing equity/debt for meeting all its working capital requirements, debt requirements, business expansion plans, honoring the Put Option, take or pay agreements and guarantees. ATL had entered into Put Option agreement with Living Entertainment Limited, Mauritius (LEL), a related party of the Company for acquiring the shares of a subsidiary of LEL.

In earlier years, the Company received communication from the Bank mentioning defaults committed by LEL in repayment of their loans to the Bank and calling upon the Company to support ATL in connection with honouring the Put Option. However, the Bank and LEL remained in discussion to settle the borrowing.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

The Company is of the view, based on legal advice, that the LOC neither provides any guarantee, commitment or assurance to pay the Bank. On 26 June 2020, the Bank filed a plaint seeking ad-interim relief in the Hon'ble High Court of Bombay on the grounds that the aforesaid LOC provided to the Bank is a financial guarantee.

The Hon'ble High Court of Bombay, vide Orders dated 30 June 2020 and 19 August 2020 has refused/dismissed the ad-interim relief sought by the Bank, including as part of the appeal proceedings filed by the Bank that were in favour of the Company. The primary suit filed by the Bank on 26 June 2020 is yet to be heard by the Hon'ble High Court of Bombay.

The Management has assessed the nature of the LOC and based on legal advice obtained, the LOC has not been considered as a financial guarantee by the Management, which would require recognition of a liability in the books of account of the Company. The Management has determined that the LOC also does not result in any executory contract that is onerous on the Company which requires any recognition of liability in the books of account of the Company.

39 Electricity and water charges and repairs and maintenance (plant and machinery) are net of recoveries ₹ 105 Million (₹ 161 Million).

VII. The defined benefit plans expose the Company to actuarial risks such as interest rate risk, longevity risk and salary risk:

Interest risk: A decrease in the bond interest rate will increase the plan liability.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of plan participants will increase the plan's liability.

VIII. Sensitivity Analysis

The key actuarial assumptions to which the benefit obligation results are particularly sensitive to discount rate and future salary escalation rate. The following table summarizes the impact on the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points:

	(₹ Million)	
	Mar-26	Mar-25
1. Impact of increase in 50 bps on DBO – discount rate	(42)	(55)
2. Impact of decrease in 50 bps on DBO – discount rate	45	58
3. Impact of increase in 50 bps on DBO – salary escalation rate	46	59
4. Impact of decrease in 50 bps on DBO – salary escalation rate	(44)	(56)

Sensitivities due to mortality and withdrawals are not material and hence impact of change due to these not calculated.

Notes:

- The current service cost recognised as an expense is included in Note 25 'Employee benefits expense' as gratuity. The remeasurement of the net defined benefit liability is included in other comprehensive income.
- The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the Actuary.

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

D Financial risk management objective and policies

The Company's principal financial liabilities comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, loans, unsecured interest free deposits, trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's Senior Management oversees the management of these risks.

i Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

- Foreign Currency risk

The Company undertakes transactions denominated in foreign currencies, consequently exposures to exchange rate fluctuations arise. The Management has taken a position not to hedge this currency risk.

The carrying amounts of financial assets and financial liabilities are denominated in currencies other than its functional currency are as follows:

	Assets as at		Liabilities as at	
Currency	Mar-26	Mar-25	Mar-26	Mar-25

- Foreign Currency sensitivity analysis

The following table details the Company's sensitivity to a 10% increase and decrease in the rupee against the relevant foreign currencies. 10% is the sensitivity rate used while reporting foreign currency risk internally to key management personnel and represents Management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated in monetary items and adjusts their translation at the year end for a 10% change in foreign currency rates. A positive number below indicates an increase in profit where the Rupee strengthens 10% against the relevant currency. For a 10% weakening of the Rupee against the relevant currency, there would be a comparable impact on the profit and equity and the balance would be negative.

Great Britain Pound (GBP)	(0)	0	0	(0)

'0' (zero) denotes amounts less than a million.

The Company is mainly exposed to USD currency fluctuation risk.

The Company's sensitivity to foreign currency assets has increased during the current year mainly due to overall increase in assets in foreign currency.

The Company's sensitivity to foreign currency liabilities has decreased during the current year mainly on account of overall decrease in liabilities in foreign currency.

- Interest rate risk

The borrowing of the Company includes FCCB and vehicle loan which carries fixed coupon rate and consequently the Company is not exposed to interest rate risk.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

The Company's investment in debt instruments and loans given by the Company are at fixed interest rates, consequently the Company is not exposed to interest rate risk.

The Company also invests in debt mutual fund schemes of leading fund houses. Such investments are susceptible to market price risks that arise mainly from changes in interest rate which may impact the return and value of such investments. However, given the relatively short tenure of underlying portfolio of the debt mutual fund schemes in which the Company has invested, such price risk is not significant.

– Other price risk

The Company is exposed to price risks arising from equity investments and mutual funds. The Company's equity investments are held for strategic rather than trading purposes.

Price sensitivity analysis:

The sensitivity analysis below has been determined based on the exposure to price risks of the investments at the end of the reporting period. If the prices had been 10% lower / higher.

ii Credit risk management

Credit risk is the risk of financial loss to the Company if a customer or counterparty fails to meet its contractual obligations and arises principally from the Company's receivables, deposits given, loans given, investments made and balances at bank.

The maximum exposure to the credit risk at the reporting date is primarily from investments made, loans given and trade receivables.

In case of trade receivables, the Company does not hold any collateral or other credit enhancements to cover its credit risks. Credit risk has always been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business. On account of adoption of Ind AS 109 on 'Financial Instruments', the Company uses expected credit loss model to assess the impairment loss or gain.

Trade receivables are non-interest bearing and the average credit period is 45 days. The Company's exposure to customers is diversified and except for one customers, no other customer contributes to more than 10 % of outstanding trade receivables and unbilled revenue.

Based on historical data, loss on collection of receivables is not material hence no additional provision is considered. The unsatisfied performance obligation is expected to be completed in one year or less.

The Company considers a financial asset in default when contractual payments are 180 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

Trade receivable consists of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of the accounts receivable.

- A The Company had provided commitments for funding shortfalls in Debt Service Reserve Account (DSRA guarantee) in relation to certain financial facilities availed from banks by Siti Networks Limited (SNL), an unrelated entity. During the year ended 31 March 2023, the Company had reached a settlement with certain lenders of SNL and payments were made as per agreed terms. The Company has stepped into the shoes of the lenders of SNL as per the applicable law to recover the amounts from SNL, as confirmed by the Insolvency Resolution Professional (IRP) of SNL. During the previous year ended 31 March 2025, the Company has assigned and transferred these rights to a third party for a consideration of ₹ 220 million. The Company had fully provided for payments made towards the settlement amounts in earlier years and therefore, the aforementioned consideration of ₹ 220 million has been accounted for as a gain and presented under exceptional items. The Company continues to carry adequate provisions for any remaining DSRA claim. Further, the IRP of SNL has admitted the operational creditor claims of the Company under the ongoing resolution process.

Considering the financial condition of SNL, the Company without prejudice to its legal rights had fully provided for the balances recoverable from SNL till the date of admission of claim by IRP and continues to recognise revenue from SNL on conservative basis.

On 6 September 2025, IDBI Bank Limited has filed application under Section 7 of the Insolvency and Bankruptcy Code, 2016 before the Hon'ble National Company Law Tribunal, Mumbai Bench for initiation of Corporate Insolvency Resolution Process against the Company. The Company has filed its detailed reply seeking dismissal of IDBI's petition and based on legal advice and precedence believes that the Company has strong case in the matter.

- B During the year, the Company has given an Inter-corporate Deposit (ICD) aggregating to ₹ 350 million carrying interest rate of 12% p.a. for a period of 4 months.

	(₹ Million)	
	Mar-26	Mar-25
ICD given	350	-
Interest accrued on above ICD	7	-
Balance as at the end of the year	357	-

- C The Company, in an earlier year, had given an Inter-corporate Deposit (ICD) aggregating ₹ 1,500 Million. On account of delays in recovery of the amount, the ICD was assigned to certain related parties (refer note 46) to secure payment of ₹ 1,706 Million (including accrued interest up to the date of assignment). Further, since there are delays in receiving payment from these related parties, the aforesaid amount has been provided during an earlier year. The Company had initiated arbitration proceedings against the said parties for recovering the amounts and the arbitrator granted an award in favour of the Company. During the previous year, the Company has filed execution application to enforce the award.

- D The carrying amount of allowance for credit impaired of current financial assets as below:

Balance as at the end of the year	1,434	1,371

Credit risk on cash and cash equivalents is limited as the Company generally invests in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. The credit risk on mutual funds is limited with high credit ratings assigned by credit rating agencies. Further, no major investments in external non-convertible debentures and other debt instruments.

54 ADDITIONAL DISCLOSURE WITH RESPECT TO AMENDMENT TO SCHEDULE III

- The Company has not been declared wilful defaulter by any bank or financial institution or any lender.
- There are no charges or satisfaction which are yet to be registered with the Registrar of Companies beyond the statutory period.
- There are no loans or advances (Other than those already disclosed under Note 46) in the nature of loans granted to Promoters, Directors, KMPs and their related parties (as defined under Companies Act, 2013), either severally or jointly with any other person, that are repayable on demand or without specifying any terms or period of repayment.

55 On 21 November 2025, the Government of India notified the four Labour Codes consolidating 29 existing labour laws. The Ministry of Labour & Employment has also issued draft Central Rules and FAQs to help assess the financial impact of these changes. Based on internal management assessment and the best information available, and in line with ICAI guidance, the incremental impact of these changes is not material to the financial results of the Company for the year ended 31 March 2026. The Company continues to monitor the development pertaining to the implementation of the new Labour codes from the Government on other aspects of the Labour Code and would provide appropriate accounting effect subsequently on the basis of such developments as needed.

56 The Securities and Exchange Board of India ("SEBI") had passed an ex-parte interim order dated 12 June 2023 and Confirmatory Order dated 14 August 2023 (SEBI Order) against one of the current Key Management Personnel ("KMP") of the Company for alleged violation of Section 4(1) and 4(2)(f) of SEBI (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 2003 ("PFUTP").

On 30 October 2023, the Hon'ble Securities Appellate Tribunal (SAT) set aside the above order passed by SEBI granting relief to the current KMP. The SAT order also recorded that the SEBI will continue with the investigation.

Pursuant to the above, SEBI had issued various summons and sought comments/ information/explanation from Company, its subsidiary, directors under period of consideration and KMPs who have been providing information to SEBI from time to time, as requested.

With respect to the ongoing enquiry being conducted by SEBI, a writ petition challenging the same was filed by an ex-director (Petitioner) before the Hon'ble Bombay High Court against SEBI during the quarter ended 31 March 2024, wherein, the Company was impleaded as a respondent. The Company had filed its reply to the writ petition. The Hon'ble Bombay High Court vide order dated 26 June 2024, provided certain reliefs to the Petitioner and this order has no implications with respect to the Company.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

During the earlier year, the Company had received a follow-up communication from the Ministry of Corporate Affairs (“MCA”) for the ongoing inspection under section 206(5) of the Companies Act, 2013 against which the Company had submitted its response.

The management had informed the Board of Directors of the Company (‘Board’) that based on its review of records of the Company / subsidiary, the alleged transactions (including refunds) relating to the Company/ subsidiary were against consideration for valid goods and services received.

On 23 February 2024, the Board had constituted an “Independent Investigation Committee” (Committee) headed by and under the chairmanship of Former Judge, Allahabad High Court and comprising of 2 independent directors of the Company, to review the allegations against the Company/subsidiary with a view to safeguard interest of the shareholders.

The Committee on 08 October 2024 submitted its report to the Board after carrying out an extensive fact-checking exercise with the help of reputed external experts to verify the documents and information provided by the Company during the investigations to SEBI. The Board has taken the aforesaid report on record and noted that the transactions under investigation were found to be a part of normal course of business and no material irregularities were reported within the same. The Committee did not find any need for further corrective and disciplinary measures, policy changes or legal steps to be implemented.

Based on approval of Board, the Company had filed settlement application with respect to the ongoing investigation which had been rejected during the year ended 31 March 2026.

SEBI vide its adjudicating order dated 02 January 2025 has disposed of the proceedings initiated under the show cause notice (SCN) dated 06 July 2022 and indicates that the content of the SCN will be treated as integral part of the further investigation report by SEBI.

On 07 August 2025, SEBI has issued a SCN against the Company, a current KMP and an ex-director alleging certain violations of SEBI Regulations relating to alleged lien on a property for the financial year 2018–19. Further, on 16 January 2026, SEBI has issued a SCN against the Company, a current KMP and ex-directors alleging certain violations of SEBI Regulations relating to investment made in inter-corporate deposits made and assigned in earlier years. The aforementioned ICDs were fully provided in the books of accounts in the earlier years. The Company has furnished its detailed reply denying all allegations against the Company in the SCNs and the Company through its authorized representative attended hearing / shall be attending hearing before SEBI in this regard. Further on 12 February, 2026, SEBI issued an SCN against the Company a current KMP and other noticees alleging certain violations of various Regulations with respect to film advances, related party transactions and disclosure/control issues relating to earlier periods. The Company believes that it has sufficient evidence to respond appropriately to the SCN.

The Company has been legally advised that it has adequate grounds of defence case against the SCNs, however to avoid protracted litigation, the Company has also filed settlement application in the said matters with SEBI in terms of the provisions of SEBI (Settlement Proceedings) Regulations, 2018 (“Settlement Regulations”), which is under consideration.

The Board continues to monitor the progress of aforesaid matters. Based on the above, the management does not expect any material adverse impact on the operations and financial statements of the Company / Group with respect to the above and accordingly, believes that no adjustments are required to the accompanying standalone financial statement.

57 In an earlier year, Zee Studio Limited, a subsidiary had been allotted plot of land on lease for the purpose of construction of film studio by Rajasthan State Industrial Development & Investment Corporation Limited (RIICO), Jaipur. The subsidiary had constructed the studio on the aforesaid plot of land. This lease was subsequently cancelled by RIICO primarily on account of construction related dispute. The cancellation order was challenged by Zee Studios Limited by way of review application before the concerned authorities which was rejected vide order dated 16 October 2023.

Based on the legal opinion obtained, the subsidiary has taken necessary steps for obtaining relief in the matter and have filed writ petition at Rajasthan High Court. The management considering the merits and facts of the case including legal opinion believes it has a strong legal position to protect its rights.

NOTES

FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

58 The Ministry of Corporate Affairs (MCA) has prescribed a requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies, which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

During the current financial year, the Company has used accounting software for maintenance of revenue, digital subscription, payroll and other accounting records, which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Audit trail has been preserved by the Company in accordance with the statutory requirements for record retention, at both the application and database levels from the date of activation. Further, for accounting software used for maintenance of digital subscription records, audit trail feature have not been retained as per statutory requirements for record retention.

Further more, the accounting software used for maintenance of payroll database of the Company is operated by a third-party software service provider. There is no information on existence of audit trail (edit logs) for any direct changes made and preservations of the audit trail logs at the database level in the ‘Independent Service Auditor’s Assurance Report on the Description of Controls, their Design and Operating Effectiveness’ (‘Type 2 report’ issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation).

Based on management’s assessment, this does not pose any impact, as controls at the application layer are operating effectively. Additionally, the Company is actively working to enhance the retention capability of audit trail logs for the said application.

59 The Company has been consistently applying management estimates for recording consumption of inventories based on future economic benefits expected to be generated from the exploitation of the rights. Accordingly, the cost of movie rights is recognised as an expense in the statement of profit and loss on a straight line basis over the license period or 60 months from the date of acquisition / rights start date, whichever is shorter. During the year, the Company has revised its estimates of recording consumption of premiere movies to reflect changing business strategy, inventory utilization, exploitation and monetization pattern. The cost of inventory continues to be charged in the statement of profit and loss over the aforementioned period, however, the estimate of consumption has been revised, resulting in higher charge in the initial periods in the line with the changing business model, market scenarios and utilization of inventories across platforms. Based on this assessment, carrying value of change in inventory assets is adjusted by recognising an additional charge of ₹ 3,022 million during the quarter and year ended 31 March 2026, which has been debited in the Operational cost in the Statement of Profit and Loss. The inventory continues to be carried at the lower of cost / unamortised cost or realisable value.

60 Other than those disclosed elsewhere, there are no other subsequent events that occurred after the reporting date.

61 The standalone financial statements of the Company for the year ended 31 March 2026, were approved for issue by the Board of Directors on 19 May 2026.

INDEPENDENT AUDITOR’S REPORT

To the Members of
Zee Entertainment Enterprises Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED
FINANCIAL STATEMENTS

OPINION

1. We have audited the accompanying consolidated financial statements of Zee Entertainment Enterprises Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') and its joint venture, as listed in Annexure I, which comprise the Consolidated Balance Sheet as at 31 March 2026, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Cash Flow Statement and the Consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including material accounting policy information and other explanatory information.
2. In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements and on the other financial information of the subsidiaries and its joint venture, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards ('Ind AS') specified under section 133 of the Act, read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India of the consolidated state of affairs of the Group and its joint venture, as at 31 March 2026, and their consolidated profit (including other comprehensive income), consolidated cash flows and the consolidated changes in equity for the year ended on that date.

BASIS FOR OPINION

3. We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group and its joint venture in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') together with the ethical requirements

that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained together with the audit evidence obtained by the other auditors in terms of their reports referred to in paragraph 16 of the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

EMPHASIS OF MATTER – EOM BY COMPONENT
AUDITOR WITH RESPECT TO LEASE CANCELLATION
OF JAIPUR PROPERTY

4. In relation to the matter described in Note 51 to the accompanying consolidated financial statements, the following Emphasis of Matter paragraph is reported by another firm of Chartered Accountants in their audit report dated 15 May 2026 on the financial statements of Zee Studios Limited, a subsidiary of the Holding Company which is reproduced by us as under:

"We draw attention to Note XX of the financial statements regarding cancellation of land lease at Jaipur by Rajasthan State Industrial Development & Investment Corporation Limited (RIICO). Subsequent to rejection of its review/dismissal of appeal and further issue of show cause notice by RIICO, the Company has taken necessary steps for obtaining appropriate relief and based on the merits of the case including legal opinion obtained, believes that it has a strong legal position and accordingly no impairment is required to be carried out to the carrying values of the property, plant and equipment and right-of-use assets."

KEY AUDIT MATTERS

5. Key audit matters are those matters that, in our professional judgment and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries and its joint venture, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.
6. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matters	How our audit addressed the Key Audit Matters
(i) Ongoing regulatory investigations by SEBI and MCA (Refer note 50 of the consolidated financial statements) The Holding Company, certain subsidiaries, a current key managerial personnel ('KMP') and ex-directors are involved in an ongoing investigation being conducted by the Securities and Exchange Board of India ('SEBI'), and an inspection being conducted by the Ministry of Corporate Affairs ('MCA') under Section 206(5) of the Act, with respect to certain transactions in earlier years with the vendors of the Holding Company and one of the subsidiary companies. In connection with the ongoing investigation, the Group has received summons and show cause notices (SCNs) from SEBI alleging irregularities in relation to certain transactions entered into by the Group in earlier years with respect to alleged lien on property of the Holding Company, violations of SEBI regulations in connection with investments made in inter-corporate deposits, film advances, related party transactions and disclosure/control issues for earlier periods. The Board of Directors ('Board') of the Holding Company had constituted an "Independent Investigation Committee" (Committee) (IIC) to review the allegations against the Group, which concluded the investigation, and the report was placed before the Board of Directors, noting no material irregularities and that the transactions (under investigation) were conducted in normal course of business. The Board and the management, based on review of records of the Holding Company and its subsidiary, determined the transactions (including refunds) were against consideration for valid goods and services received. The Board continues to monitor the progress of aforesaid matters. The Holding Company has furnished/is in the process of submitting its reply based on legal advice denying allegations and has also filed settlement applications, which are under consideration by SEBI. Based on legal assessment, the management does not expect any material adverse impact on the operations and consolidated financial statements of the Group with respect to the aforesaid matters. Considering the significance of amounts involved for underlying transactions being subject to investigation, uncertainty associated with the ultimate outcome of these investigations and significance of management judgement involved in assessing the outcome of these investigations and determining the required disclosure, this matter has been considered as a key audit matter in the audit of the consolidated financial statements. Further, we have also determined this matter to be fundamental to the user's understanding of the consolidated financial statements.	Our audit in relation to ongoing regulatory inspections included, but was not limited to, the following procedures: - Obtained an understanding of management process and controls for evaluating the impact of any regulatory proceedings and investigations initiated or ongoing against the Group; - Evaluated the design and tested the operating effectiveness of key internal financial controls around above process; - Performed inquiries with the management to understand key developments during the year with respect to ongoing regulatory inspections, including any new allegations raised by authorities; - Obtained and reviewed the various correspondence between the Group with SEBI and MCA to corroborate above understanding such as SCNs, orders, letters, summons and follow up requests received from SEBI and MCA, and corresponding replies/submissions from the Holding Company, its subsidiary and KMPs; - Reviewed underlying documents such as agreements, MOUs, purchase orders, cancellation letters (where applicable), invoices, bank statements, Board approvals and other required approvals, for transactions highlighted in the SCNs and summons received by the Holding Company/ subsidiaries, to validate management's response to the allegations raised during inspection process; - Verified conclusion of the erstwhile statutory auditors and internal auditors including Advisory report submitted by SEBI based on examination carried out in earlier years on the same transactions in earlier years; - Evaluated the reports submitted by the IIC and other experts engaged by management, noting their observations and conclusions, with respect to allegations raised during inspection process; - Reviewed and evaluated the legal opinion obtained by the management on the ongoing regulatory actions against the Group; and - Evaluated the adequacy of disclosures in the consolidated financial statements.

Key Audit Matters	How our audit addressed the Key Audit Matters
(ii) Litigation with Jiostar India Private Limited ('Jiostar') for the ICC Contract (Refer note 52 of the consolidated financial statements) In March 2024, Jiostar initiated an arbitration against the Holding Company before London Court of International Arbitration ('LCIA'/Arbitral Tribunal) in relation to the Alliance Agreement for broadcasting rights of the International Cricket Council's ('ICC') men's global events for a period of four years in respect of which Jiostar had claimed damages of USD 1,097 million, along with costs, expenses and applicable interest until full payment, from the Holding Company. The Holding Company had filed Statement of Defence, a counterclaim of USD 8.06 million along with interest thereon before the Arbitral Tribunal. During the current year, the Holding Company has filed additional pleadings while maintaining each of the defences as submitted earlier, against which Jiostar has also filed its responses. The management, based on a legal opinion and its internal assessment, has determined that the Holding Company is not in default of the Alliance Agreement and believes that the claims made by JioStar are unfounded and legally not tenable. The Holding Company has strong and valid grounds to defend any claims in respect of above matter. Considering the significance of amount involved, uncertainty associated with the ultimate outcome of the arbitration proceedings and significance of management judgement involved in assessing the outcome of these proceedings and determining the required disclosure, this matter has been considered as a key audit matter in the audit of the consolidated financial statements. Further, we have also determined this matter to be fundamental to the user's understanding of the consolidated financial statements.	Our audit in relation to Jiostar litigation matter included, but was not limited to, the following procedures: • Obtained an understanding of the management's process followed by the Holding Company for identification of legal matters initiated against the Holding Company, assessment and determination of the amount of provisions and disclosure as contingent liabilities required under Ind AS 37; • Evaluated the design and implementation, and tested operating effectiveness of key internal financial controls around aforesaid process; • Obtained an understanding of the Alliance agreement along with the conditions mentioned therein and management's compliance with those conditions; • Obtained and reviewed the correspondence between the Holding Company and Jiostar along with the notices/ letters from legal counsels of both the parties and all legal documents filed by both parties as part of the ongoing arbitration; • Performed inquiries with the management to understand key developments during the year and obtaining orders of Arbitral Tribunal received during the current year. • Reviewed and evaluated the external legal opinion obtained by management and legal note prepared by management's in-house legal counsel, supporting management's assessment on the matter; • Corroborated conclusions of management's external legal counsel with an independent opinion received from auditor's legal expert in the previous year; and • Evaluated the adequacy of disclosures given in the consolidated financial statements.
(iii) Provisions and contingent liabilities relating to litigations, other claims and settlements (Refer note 34A, 36, 44D(ii)(A), 44D(ii)(C), 44D(ii)(E) and 51 of the consolidated financial statements) As at 31 March 2026, in addition to the SEBI and ICC matters as covered above, the Group is also involved in various litigations, arbitrations and claims with/against various authorities, banks, related parties, vendors and erstwhile related parties of the Holding Company that are pending with various statutory authorities.	Our audit procedures included, but were not limited to, the following procedures: • Assessed the appropriateness of the Group's accounting policies relating to provisions and contingent liabilities, in accordance with the applicable accounting standards; • Obtained an understanding of the management's process followed by the Group for identification, of legal and tax matters initiated against the Group, assessment and determination of the amount of provisions and disclosure as contingent liabilities under Ind AS 37;

Key Audit Matters	How our audit addressed the Key Audit Matters
Most of these litigations involve complex underlying legal issues. The management, assisted by their external legal counsels, assesses the need for, and the quantum of, any provisions or disclosure as contingent liabilities, that may be required to be made in the consolidated financial statements, on a case-to-case basis considering the underlying facts and legal jurisprudence related to each litigation. As at 31 March 2026, the amounts involved are significant. The provisions and contingent liabilities are subject to changes in the outcomes of litigations and claims and the positions taken by the Group. Considering the materiality of amount involved, significant judgements and inherent high estimation uncertainties involved in establishing whether a liability/provision should be recognised or disclosed as a contingent liability in the consolidated financial statements basis accounting principles as given under Ind AS 37, 'Provisions, Contingent Liabilities and Contingent Assets' ('Ind AS 37'), the matter is considered to be a key audit matter in the current year.	• Evaluated the design and implementation, and tested operating effectiveness of key internal financial controls around aforesaid process; • Obtained understanding of the developments during the year in each existing litigation, and understanding of the new litigations initiated against the Group during the year by inquiry with the management, inspection of related documents such as notices, orders, etc. • Assessed management's conclusions through discussions held with the Group's in-house legal counsel, obtaining understanding of precedents in similar cases, obtaining and evaluating independent confirmations from the legal and tax consultants representing the Group before various authorities including examination of correspondences connected with the cases; • Obtained settlement agreements/assignment agreement/litigation orders/show cause notices/other relevant documents in respect of certain matters and assessed the management conclusion on accounting implications, if any, based on such agreements/ orders; • Involved auditor's experts, wherever necessary, to assess the appropriateness of Group's interpretation/positions basis application of relevant laws and technical merits and for confirming the likelihood of the outcome of the said litigations and potential impact on consolidated financial statements; • Recomputed the management's determination of provisions and contingent liabilities basis aforesaid legal assessment in accordance with the requirements of Ind AS 37; and • Evaluated the adequacy of disclosures given in the consolidated financial statements, including disclosure of exceptional items, litigation matters, contingent liabilities and provision for liabilities in accordance with applicable accounting standards .
(iv) Recoverability of content advances and media content inventory valuation (Refer note: 2(o), 3(i), 3(f), 11, 12, 24 and 53 of Consolidated financial statements) The Group held inventories aggregating ₹ 65,123 million as at 31 March 2026 comprising of raw tapes, media content (i.e. programmes, film rights, music rights) and under production-media contents. Further, the Group also pays advances for acquiring content from production houses out of which ₹ 2,522 million are outstanding as at 31 March 2026 (net of provision of ₹ 1,458 million). These advances are paid on the basis of Memorandum of Understanding (MOU) and/or agreements entered into with the respective production houses.	Our audit included, but was not limited to the following procedures: Content advances • Obtained an understanding of management's process for authorisation of content advances and its recoverability assessment; • Evaluated the design, implementation and tested the operating effectiveness of key controls that the Group has in relation to aforesaid process; • Obtained supporting documents for the sample of movie advances paid during the year which includes the MOU/ agreement executed between the Group and production houses;

Key Audit Matters	How our audit addressed the Key Audit Matters
The cost incurred on purchase of inventories is consumed based on consumption pattern on estimated future revenue potential as estimated by the management. The factors that the Company considers in determining the consumption charge has been derived basis historical trends and management's expectation of revenue earning potential of such media content. During the year, the Group has recorded an consumption expense of ₹ 34,669 million (including impact of ₹ 743 million for net realisable value), At each reporting period end, management assesses the recoverability of (i) content advances which involves significant judgment on part of management with regard to status of completion of the project for which advances are given, and (ii) inventory which involves determining whether there is any objective evidence indicating that the net realisable value of any item of inventory is below its carrying value. If so, such inventories are written down to their net realisable value in accordance with the requirements of Ind AS 2, Inventories ('Ind AS 2'). Considering the inherent nature of the industry, particularly on the changing viewing patterns of the content and quality of content as identified by end-users, determination of appropriate consumption charge and provision for net realisable value involves significant judgement and estimates by the management and accordingly, the recoverability of content advances and inventory valuation has been considered as key audit matter for the current period audit.	• Obtained supporting documents for refund/adjustment/ assignment of advances for other content on sample basis; • Obtained direct confirmation from the production houses confirming the outstanding balances as at the year-end including identification of the films against which the advances were given and the manner of utilisation of the advances by such production houses, where considered necessary in our professional judgement; and • Evaluated management's assessment of stage of completion of projects for which the advances were given, and related judgement in determining the adequacy of provision for doubtful advances. Inventory valuation • Obtained an understanding of process followed for identifying consumption pattern of inventory and estimating its net realisable value; • Evaluated the nature, source and reliability of all the information used by the management for arriving at the estimates for consumption pattern and provision for net realisable value of inventories; • Discussed with respective business heads in the Group on expectations for performance of content to corroborate the forecasts; • Evaluated the appropriateness of related accounting policies adopted by the Group in accordance with the requirements of Ind AS 2; • Assessed the projected sale estimates made by the management in respect of balance inventory of aforesaid specific media content that is expected to be sold in the near future, for its appropriateness basis past trends and market conditions; • Obtained understanding of management's assessment of the parties/ entities and association with whom such contracts has been entered; • Tested mathematical accuracy in respect of consumption expense and provision for doubtful advances and provision for net realisable value recorded in the books; • Evaluated appropriateness of disclosures made in the consolidated financial statements.
(v) Impairment assessment of Goodwill (Refer Note 2(h), 3(i) and 7(a) of consolidated financial statements) The consolidated financial statements reflect goodwill aggregating ₹ 3,310 millions recognised mainly for the acquisition and allocated to various cash generating unit (CGUs). The Group has not recorded any impairment charge of during the year ended 31 March 2026. Refer note 7(a) to the consolidated financial statements.	Our audit included, but was not limited to, the following procedures: • Obtained an understanding of the management's process for identification of CGUs, the allocation of assets and the methodology adopted by the management in its impairment assessment of goodwill with reference to the requirements of the prevailing accounting standards; • Tested the design and operating effectiveness of internal controls over such identification and impairment measurement through fair valuation of goodwill;

Key Audit Matters	How our audit addressed the Key Audit Matters
Goodwill is subject to a test of impairment by the management in accordance with Ind AS 36 "Impairment of Assets". The Group assesses the recoverable amounts of goodwill on an annual basis by comparing the fair value (less costs of disposal) and carrying amount of that investment as on the reporting date. The key assumptions used in management's assessment of the recoverable amounts/fair values include, but are not limited to, projections of future cash flows, growth rates, discount rates, estimated future operating and capital expenditure. Changes to these assumptions could lead to material changes in estimated recoverable amounts, resulting in either impairment of goodwill. Considering the materiality and significant management judgment involved in predicting future cash flow projections, impairment of goodwill has been considered to be a key audit matter for the current period audit.	• Evaluated management's identification of CGUs; • Obtained the impairment assessment workings prepared by the management and its experts; • Evaluated the competence and objectivity of the management experts involved; • Reconciled the cash flows to the business plans approved by the respective Board of Directors of the identified investee companies; • Evaluated the assumptions adopted in the preparation of the cash flow forecasts for the purpose of the impairment assessments of the goodwill, including implied growth rates during explicit period, terminal growth rate, discount rate for their appropriateness based on our understanding of the business of respective CGUs, past results and external factors such as industry trends and forecasts; • Involved auditor's expert to assess the appropriateness of the valuation methodology used for calculation of the recoverable value by the management and its experts; • Obtained and evaluated sensitivity analysis performed by the management on key assumptions of implied growth rates during explicit period, terminal growth rates and discount rates; • Performed independent sensitivity analysis of aforesaid key assumptions to assess the effect of reasonably possible variations on the current estimated recoverable amount for each of the identified investments and for respective CGUs to evaluate sufficiency of headroom between recoverable value and carrying amount; • Tested the mathematical accuracy of the management computations with regard to cash flows and sensitivity analysis; and • Evaluated the adequacy of disclosures given in the consolidated financial statements, including disclosure of significant assumptions, judgements and sensitivity analysis performed, in accordance with applicable accounting standards.

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

7. The Holding Company's Board of Directors are responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

8. The accompanying consolidated financial statements have been approved by the Holding Company's Board of Directors. The Holding Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group including its joint venture in accordance with the Ind AS specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, and other accounting principles generally accepted in India. The Holding Company's Board of Directors are also responsible for ensuring accuracy of records including financial information considered necessary for the preparation of consolidated Ind AS financial statements. Further, in terms of the provisions of the Act the respective Board of Directors of the companies included in the Group, and its joint venture company covered under the Act are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds

and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error. These financial statements have been used for the purpose of preparation of the consolidated financial statements by the Board of Directors of the Holding Company, as aforesaid.

9. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its joint venture are responsible for assessing the ability of the Group and of its joint venture to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
10. Those respective Board of Directors are also responsible for overseeing the financial reporting process of the companies included in the Group and of its joint venture.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

11. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
12. As part of an audit in accordance with Standards on Auditing specified under section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material

misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint venture to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation; and
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group, and its joint venture, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial statements of such entities included in the consolidated financial statements, of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

13. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
14. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
15. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTER

16. We did not audit the financial statements of (19) subsidiaries, whose financial statements (prior to consolidation adjustments) reflect prior to consolidation adjustment total assets of ₹ 47,036 million as at 31 March 2026, total revenues of ₹ 11,226 million and net cash outflows amounting to ₹ 2,601 million for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of net profit (including other comprehensive income) of ₹ 2 million for the year ended 31 March 2026 in respect of (1) joint venture, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Holding Company's management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries and its joint venture, and our report in terms of sub-section (3) of section 143 of the Act in so far as it relates to the aforesaid subsidiaries and its joint venture, are based solely on the reports of the other auditors.

Further, of these subsidiaries and its joint venture, (17) subsidiaries are located outside India whose financial statements and other financial information have been

prepared in accordance with accounting principles generally accepted in their respective countries and which have been audited by other auditors under generally accepted auditing standards applicable in their respective countries. The Holding Company’s management has converted the financial statements of such subsidiaries located outside India from accounting principles generally accepted in their respective countries to accounting principles generally accepted in India. We have audited these conversion adjustments made by the Holding Company’s management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of such subsidiaries located outside India, is based on the report of other auditors and the conversion adjustments prepared by the management of the Holding Company and audited by us.

Our opinion above on the consolidated financial statements, and our report on other legal and regulatory requirements below, are not modified in respect of the above matters with respect to our reliance on the work done by and the reports of the other auditors.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

17. As required by section 197(16) of the Act, based on our audit and on the consideration of the reports of the other auditors, referred to in paragraph 16, on separate financial statements of the subsidiaries and joint venture, we report that the Holding Company incorporated in India whose financial statements have been audited under the Act have paid remuneration to its directors during the year in accordance with the provisions of and limits laid down under section 197 read with Schedule V to the Act. Further, we report that (5) five subsidiaries incorporated in India whose financial statements have been audited under the Act have not paid or provided for any managerial remuneration during the year. Accordingly, reporting under section 197(16) of the Act is not applicable in respect of such subsidiaries. Further, we report that the provisions of section 197 read with Schedule V to the Act is not applicable to (1) one joint venture incorporated in India whose financial statements has been audited under the Act, since such company is not a public company as defined under section 2(71) of the Act.

18. As required by clause (xxi) of paragraph 3 of Companies (Auditor’s Report) Order, 2020 (‘the Order’) issued by the Central Government of India in terms of section 143(11) of the Act based on the consideration of the Order reports issued till date by us and by the respective other auditors as mentioned in paragraph 16 above, of companies included in the consolidated financial statements for the year ended 31 March 2026 and covered under the Act we report that:

A) Following are the qualifications/adverse remarks reported by us and the other auditors in the Order reports of the companies included in the consolidated financial statements for the year ended 31 March 2026 for which such Order reports have been issued till date and made available to us:

(also Emphasis of Matter), in our opinion, may have an adverse effect on the functioning of Zee Studios Limited, a subsidiary of the Holding company and the Holding company respectively;

- f) On the basis of the written representations received from the directors of the Holding Company, its subsidiaries and its joint venture and taken on record by the Board of Directors of the Holding Company, its subsidiaries and joint venture, respectively, and the reports of the statutory auditors of its subsidiaries and joint venture, covered under the Act, none of the directors of the Holding Company, its subsidiaries and joint venture, are disqualified as on 31 March 2026 from being appointed as a director in terms of section 164(2) of the Act.
- g) The qualification relating to the maintenance of accounts and other matters connected therewith with respect to the consolidated financial statements are as stated in paragraph 19(b) above on reporting under section 143(3) (b) of the Act and paragraph 19(i)(vi) below on reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 (as amended);
- h) With respect to the adequacy of the internal financial controls with reference to financial statements of the Holding Company, and its subsidiaries and joint venture covered under the Act, and the operating effectiveness of such controls, refer to our separate report in ‘Annexure II’ wherein we have expressed an unmodified opinion; and
- i) With respect to the other matters to be included in the Auditor’s Report in accordance with rule 11 of the Companies (Audit and Auditors) Rules, 2014 (as amended), in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements and other financial information of the subsidiaries and its joint venture incorporated in India whose financial statements have been audited under the Act:
- i. The consolidated financial statements disclose the impact of pending litigations on the consolidated financial position of the Group and its joint venture as detailed in note 34A, 36, 37 44D(ii)(A), 44D(ii) (C), 44D(ii)(E), 50, 51and 52 to the consolidated financial statements;
- ii. The Holding Company, its subsidiaries and joint venture did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses as at 31 March 2026;

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company during the year ended 31 March 2026. Further there were no amounts which were required to be transferred to the Investor Education and Protection Fund by its subsidiary companies and joint venture company covered under the Act, during the year ended 31 March 2026;
- iv.a. The respective managements of the Holding Company and its subsidiaries and joint venture incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries and joint venture respectively that, to the best of their knowledge and belief, on the date of this audit report as disclosed in note 40(i) to the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or securities premium or any other sources or kind of funds) by the Holding Company or its subsidiaries and joint venture to or in any person(s) or entity(ies), including foreign entities (‘the intermediaries’), with the understanding, whether recorded in writing or otherwise, that the intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Holding Company, or any such subsidiaries and joint venture (‘the Ultimate Beneficiaries’) or provide any guarantee, security or the like on behalf the Ultimate Beneficiaries;
- b. The respective managements of the Holding Company and its subsidiaries and joint venture incorporated in India whose financial statements have been audited under the Act have represented to us and the other auditors of such subsidiaries and joint venture respectively that, to the best of their knowledge and belief, on the date of this audit report as disclosed in the note 40(ii) to the accompanying consolidated financial statements, no funds have been received by the Holding Company or its subsidiaries and joint venture from any person(s) or entity(ies), including foreign entities (‘the Funding Parties’), with the understanding, whether recorded in writing or otherwise, that the Holding Company, or any such subsidiaries and joint venture shall, whether directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (‘Ultimate Beneficiaries’) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and

- c. Based on such audit procedures performed by us and that performed by the auditors of the subsidiaries and joint venture, as considered reasonable and appropriate in the circumstances, nothing has come to our or other auditors’ notice that has caused us or the other auditors to believe that the management representations under sub-clauses (a) and (b) above contain any material misstatement.
- v. The final dividend paid by the Holding Company during the year ended 31 March 2026 in respect of such dividend declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.

As stated in note 54 to the accompanying consolidated financial statements, the Board of Directors of the Holding Company have proposed final dividend for the year ended 31 March 2026 which is subject to the approval of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend. Further the subsidiary companies and joint venture company have not declared or paid any dividend during the year ended 31 March 2026; and

- vi. As stated in Note 55 to the consolidated financial statements and based on our examination which included test checks and that performed by the auditor of the subsidiaries which are companies incorporated in India and audited under the Act, except for instances mentioned below, the Holding Company and its subsidiaries, in respect of financial year commencing on 1 April 2025, have used accounting software for maintenance of revenue, digital subscription, payroll and other accounting records, which have a feature of recording audit trail (edit log) facility and the same

have been operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we and the auditors of the above referred subsidiaries did not come across any instance of audit trail feature being tampered with, where such feature was enabled. Furthermore, other than the exception given below, the audit trail has been preserved by the Holding Company and its subsidiaries as per the statutory requirements for record retention from the date the audit trail was enabled:

- (a) The audit trail logs available are retained only for seven days for the software used for digital subscription records at the database level.
- (b) The accounting software used for maintenance of payroll database of the Holding Company and its 2 subsidiaries incorporated in India is operated by a third-party software service provider. In the absence of any information on existence of audit trail (edit logs) for any direct changes made and preservations of the audit trail logs at the database level in the ‘Independent Service Auditor’s Assurance Report on the Description of Controls, their Design and Operating Effectiveness’ (‘Type 2 report’ issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation), we are unable to comment on whether audit trail feature with respect to the database of the said software was enabled and operated throughout the year.

ANNEXURE II

Independent Auditor's report on the internal financial controls with reference to financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ('the Act')

1. In conjunction with our audit of the consolidated financial statements of Zee Entertainment Enterprises Limited ('the Holding Company') and its subsidiaries (the Holding Company and its subsidiaries together referred to as 'the Group') and its joint venture as at and for the year ended 31 March 2026, we have audited the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies, which are companies covered under the Act, as at that date.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR INTERNAL FINANCIAL CONTROLS

2. The respective Board of Directors of the Holding Company, its subsidiary companies and its joint venture company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

3. The audit of internal financial controls with reference to financial statements of the aforementioned joint venture company, which is a company covered under the Act, and reporting under Section 143(3)(i) is exempted vide MCA notification no. G.S.R. 583(E) dated 13 June 2017 read with corrigendum dated 14 July 2017. Consequently, our responsibility is to express an opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiaries based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI and prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial

controls with reference to financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to financial statements of the Holding Company and its subsidiary companies as aforesaid.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

6. A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and

directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

8. In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to financial statements of the subsidiary companies, the Holding Company and its subsidiary companies, which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to financial statements and such controls were operating effectively as at 31 March 2026, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

OTHER MATTER

9. We did not audit the internal financial controls with reference to financial statements insofar as it relates to two (2) subsidiary companies, which are companies covered under the Act, whose financial statements (before consolidation adjustments) reflect total assets of ₹ 2,815 million and net assets of ₹ 2,026 million as at 31 March 2026, total revenues of ₹ 1,513 million and net cash outflows amounting to ₹ 0.2 million for the year ended on that date, as considered in the consolidated financial statements. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary companies have been audited by other auditors whose reports have been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements for the Holding Company and its subsidiary companies, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to such subsidiary companies is based solely on the reports of the auditors of such companies. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

2 MATERIAL ACCOUNTING POLICIES

a Statement of compliance

These consolidated financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the Ind AS) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (The Act) read with the Companies (Indian Accounting Standards) Rules,2015 as amended, other relevant provisions of the Act and accounting principles generally accepted in India.

b Basis of preparation of consolidated financial statements

These consolidated financial statements have been prepared and presented under the historical cost convention, on the accrual basis of accounting except for certain financial assets and liabilities that are measured at fair values at the end of each reporting period, as stated in the accounting policies stated out below. These consolidated financial Statements have been prepared by the Group as a going concern.

The accounting policies are applied consistently to all the periods presented in the consolidated financial statements, except where a newly issued accounting

standard is initially adopted or a revision to an existing standard requires a change in the accounting policy hitherto in use.

The consolidated financial statements are presented in Indian Rupee which is also the functional currency of the Group. Items included in the consolidated financial statements of each of the Group's entities are measured using the currency of the primary economics environment in which entity operates ('functional currency') unless the use of different currency is appropriate. All amounts disclosed in the consolidated financial statements and notes have been rounded-off to the nearest million as per the requirement of Schedule III, unless otherwise stated. Amount less than a million is presented as ₹ 0 million.

Assets and Liabilities are classified as Current or Non-Current as per the provisions of Schedule III to the Companies Act, 2013 and the Group's Normal Operating Cycle. Based on the nature of business, the Group has ascertained its operating cycle as 12 months for the classification of assets and liabilities.

Figures for the previous year have been regrouped and/or reclassified wherever considered necessary. The impact of such reclassification/regrouping is not material to Consolidated Financial Statements.

Previous year figures, where applicable have been indicated under brackets.

c Basis of consolidation

The consolidated financial statements incorporate the financial statements of ZEEL and entities controlled by ZEEL and its subsidiaries.

Control is achieved when the parent has power over the investees, is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns by using its power. Subsidiaries are consolidated from the date control commences until the date control ceases.

The consolidated financial statements are consolidated on a line-by-line basis and intra-group balances and transactions including unrealized gain / loss from such transactions are eliminated upon consolidation.

These financial statements are prepared by applying uniform accounting policies in use at the Group.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

Non-controlling interests of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and consolidated balance sheet respectively.

d Investment in joint venture

A joint venture is a joint arrangement whereby the parties have joint control of the arrangement and have rights to the net assets of the joint arrangement. Joint control is the contractual agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The profit/(loss) and assets and liabilities of joint venture are incorporated in these consolidated financial statements using equity method of accounting. Under the equity method, an investment in a joint venture is

initially recognised in the consolidated balance sheet at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the joint venture. When the Group's share of losses of an joint venture exceeds the Group's interest in the joint venture, the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligation or made payments on behalf of the joint venture.

When necessary, the entire amount of the investment is tested for impairment in accordance with Ind AS 36 on 'Impairment of Assets' as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount, any impairment loss is recognised in consolidated statement of profit and Loss.

e Business Combinations

Business combinations have been accounted for using the acquisition method.

The consideration transferred is measured at the fair value of the assets transferred, equity instruments issued and liabilities incurred or assumed at the date of acquisition, which is the date on which control is achieved by the Group. The cost of acquisition also includes the fair value of any contingent consideration. Identifiable assets acquired, and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair value on the date of acquisition.

Business combinations involving entities that are controlled by the group are accounted for using the pooling of interests method as follows:

- The assets and liabilities of the combining entities are reflected at their carrying amounts.
- No adjustments are made to reflect fair values, or recognise any new assets or liabilities. Adjustments are only made to harmonise accounting policies.
- The balance of the retained earnings appearing in the financial statements of the transferor is aggregated with the corresponding balance appearing in the financial

statements of the transferee or is adjusted against general reserve.

- The identity of the reserves are preserved and the reserves of the transferor become the reserves of the transferee.
- The difference, if any, between the amounts recorded as Share capital issued plus any additional consideration in the form of cash or other assets and the amount of Share capital of the transferor is transferred to capital reserve and is presented separately from other capital reserves.
- The financial information in the financial statements in respect of prior periods is restated as if the business combination had occurred from the beginning of the preceding period in the financial statements, irrespective of the actual date of combination. However, where the business combination had occurred after that date, the prior period information is restated only from that date.

Transaction costs that the Group incurs in connection with a business combination such as finder's fees, legal fees, due diligence fees, and other professional and consulting fees are expensed as incurred.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interest in the acquiree, and the fair value of the acquirers's previously held equity interest in the acquiree (if any) over the net acquisition date amounts of the identifiable assets acquired and the liabilities assumed.

In case of a bargain purchase, before recognising a gain in respect thereof, the Group determines whether there exists clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional assets or liabilities that are identified in that reassessment. The Group then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Group recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Group recognises the gain, after assessing and reviewing (as described above), directly in equity as capital reserve.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation may be initially measured either at fair value or at the non-controlling interests' proportionate share of recognised amounts of the acquiree's identifiable net assets. The choice of measurement basis is made on a transaction-by-transaction basis.

When the consideration transferred by the Group in the business combination includes assets and liabilities resulting from the contingent consideration arrangement, the contingent consideration arrangement is measured at its acquisition date fair value and included as a part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments are adjusted retrospectively, with the corresponding adjustments against goodwill or capital reserve, as the case may be. Measurement period adjustments are adjustments that arise from additional

information obtained during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration are recognised in consolidated statement of profit and loss.

When the business combination is achieved in stages, the Group previously held equity interest in the acquiree is remeasured to its acquisition date fair value and the resulting gain or loss, if any, is recognised in consolidated statement of profit and loss. Amount arising from interest in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to consolidated statement of profit and loss where such treatment would be appropriate if that interest were disposed off.

f Property, plant and equipment

- (i) Property, plant and equipment are stated at cost, less accumulated depreciation and impairment loss, if any. The cost comprises purchase price and related expenses and for qualifying assets, borrowing costs are capitalised based on the Group's accounting policy. Integrated Receiver Decoders (IRD) boxes are capitalised, when available for deployment.
- (ii) Capital work-in-progress comprises cost of property, plant and equipment and related expenses that are not yet ready for their intended use at the reporting date.
- (iii) Depreciation is recognised so as to write off the cost of assets (other than free hold land and capital work-in-progress) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at each reporting period, with the effect of changes in estimate accounted for on a prospective basis.
- (iv) The estimate of the useful life of the assets has been assessed based on technical advice, taking into account the nature of the asset, the estimated usage of the asset, the operating conditions of the asset, past history of replacement, etc. The estimated useful life of items of property, plant and equipment is as mentioned below:

g Investment property

- (i) Investment property are properties (land or a building—or part of a building—or both) held to earn rentals and/ or for capital appreciation (including property under construction for such purposes). Investment property is measured initially at cost including purchase price, borrowing costs. Subsequent to initial recognition, investment property is measured at cost less accumulated depreciation and impairment, if any.
- (ii) Depreciation on investment property is provided as per the useful life prescribed in Schedule II to the Companies Act, 2013 on straight line basis.

h Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.

For the purpose of impairment testing, goodwill is allocated to the respective cash generating units that is expected to benefit from the synergies of the combination.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the

carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis, based on the carrying amount of each asset in the unit. Any impairment loss for the goodwill is recognised directly in consolidated statement of profit and loss. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On the disposal of the relevant cash generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

i Intangible assets

Intangible assets with finite useful lives that are acquired are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over the estimated useful lives.

The estimated useful life for intangible assets is 3 years. The estimated useful life and amortisation method are reviewed at each reporting period, with the effect of any changes in the estimate being accounted for on a prospective basis.

Intangible assets under development:

Expenditure incurred on acquisition/development of intangible assets which are not ready for their intended use at balance sheet date are disclosed under intangible assets under development.

Research and development of internally generated assets:

Research costs are expensed as incurred. Development expenditures on an internally generated assets are recognised as an intangible asset when the Group can demonstrate:

- I. The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- II. Its intention to complete and its ability and intention to use or sell the asset
- III. How the asset will generate future economic benefits
- IV. The availability of resources to complete the asset
- V. The ability to measure reliably the expenditure during development

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

The cost of development on internally generated intangible asset includes the directly attributable expenditure of preparing the asset for its intended use. Expenditure on training activities, identified inefficiencies and initial operating losses is expensed as it is incurred.

The cost recognised is the sum of expenditure incurred from the date when the intangible asset first meets the recognition criteria and prohibits reinstatement of expenditure previously recognised as an expense.

Directly attributable costs comprise all costs necessary to create, produce, and prepare the asset to be capable of operating in the manner intended by management. The capitalisation cut off is determined by when the testing stage of the software has been completed and the software is ready to go live. Costs incurred after the final acceptance testing and launch have been successfully completed, is expensed.

Post the launch of the software, the cost is accounted for as part of the development phase only where there is the software platform development and activities to improve its functionality which enhance the asset's economic benefits potential and the cost meets the recognition criteria listed above for the recognition of development costs as an asset.

Following initial recognition of the development expenditure as an asset, the asset is carried at cost less any accumulated amortization and accumulated impairment losses. Amortisation of the asset begins when development is complete and the asset is available for use. It is amortised over the period of expected future benefit. Amortisation expense is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. During the period of development, the asset is tested for impairment annually.

j Impairment of property, plant and equipment / right of use assets / other intangible assets / investment property

The carrying amounts of the Group's property, plant and equipment ,right of use assets, other intangible assets and investment property are reviewed at each reporting date to determine whether there is any indication that those assets have suffered an impairment loss. If there are indicators of impairment, an assessment is made to determine whether the asset's carrying value exceeds its recoverable amount. Where it is not possible to

estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

An impairment loss is recognised in Consolidated Statement of profit and loss whenever the carrying amount of an asset or a cash generating unit exceeds its recoverable amount. The recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing the value in use, the estimated future cash flows are discounted to the present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets for which the estimates of future cash flows have not been adjusted.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash generating unit) is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash generating unit) in prior years. Reversal of an impairment loss is recognised immediately in Consolidated Statement of profit and loss.

k Derecognition of property, plant and equipment / right of use assets / other intangible assets / investment property

The carrying amount of an item of property, plant and equipment / right of use assets / other intangible assets / investment property is derecognised on disposal or when no future economic benefits are expected from its use or disposal. The gain or loss arising from the derecognition of an item of property, plant and equipment / right of use assets/other intangible assets / investment property is determined as the difference between the net disposal proceeds and the carrying amount of the item and is recognised in the consolidated statement of profit and loss.

l **Non-current assets held for sale**

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use and the sale is highly probable. Management must be committed to the sale, which should be expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

criteria for held for sale classification is regarded as met only when the asset is available for immediate sale in its present condition, subject only to terms that are usual and customary for sales of such assets, its sale is highly probable; and it will genuinely be sold, not abandoned. The Group treats sale of the asset to be highly probable when:

- I. The appropriate level of management is committed to a plan to sell the asset,
- II. An active programme to locate a buyer and complete the plan has been initiated (if applicable),
- III. The asset is being actively marketed for sale at a price that is reasonable in relation to its current fair value,
- IV. The sale is expected to qualify for recognition as a completed sale within one year from the date of classification, and
- V. Actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Non-current assets held for sale are measured at the lower of their carrying amount and the fair value less costs to sell.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

Gains and losses on disposals of non-current assets are determined by comparing proceeds with carrying amounts, and are recognised in the consolidated statement of profit and loss.

A discontinued operation is a component of the entity that has been disposed off or is classified as held for sale and:

- I. represents a separate major line of business or geographical area of operations and;
- II. is part of a single co-ordinated plan to dispose of such a line of business or area of operations.

The result of discontinued operations are presented separately as a single amount as profit or loss after tax from discontinued operations in the statement of profit and loss.

An impairment loss is recognised for any initial or subsequent write-down the asset to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset, but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the asset is recognised at the date of de-recognition.

m **Leases**

The Group evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116 on 'Leases'.

(i) **The Group as a lessee:**

The Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the rate implicit in the lease.

If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise:

- Fixed lease payments (including in-substance fixed payments), less any lease incentives receivable;
- Variable lease payments that depend on an index or rate, initially measured using the index or rate at the commencement date;
- The amount expected to be payable by the lessee under residual value guarantees;
- The exercise price of purchase options, if the lessee is reasonably certain to exercise the options; and
- Payments of penalties for terminating the lease, if the lease term reflects the exercise of an option to terminate the lease. The lease liability is presented as a separate line item in the balance sheet.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

The Group remeasures the lease liability (and makes a corresponding adjustment to the related right-of-use asset) whenever:

- (i) The lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using a revised discount rate.
- (ii) The lease payments change due to changes in an index or rate or a change in expected payment under a guaranteed residual value, in which cases the lease liability is remeasured by discounting the revised lease payments using an unchanged discount rate (unless the lease payments change is due to a change in a floating interest rate, in which case a revised discount rate is used).
- (iii) A lease contract is modified and the lease modification is not accounted for as a separate lease, in which case the lease liability is remeasured based on the lease term of the modified lease by discounting the revised lease payments using a revised discount rate at the effective date of the modification.

The Group did not make any such adjustments during the periods presented.

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement day, less any lease incentives received and any initial direct costs. They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated over the shorter period of lease term and useful life of the right-of-use asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The right-of-use assets is presented as a separate line item in the balance sheet.

The Group applies Ind AS 36 to determine whether a right-of-use asset is impaired and accounts for any identified impairment loss as described in the 'Property, Plant and Equipment' policy.

(ii) The Group as a lessor:

The Group enters into lease agreements as a lessor with respect to some of its investment properties.

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

n Cash and cash equivalents

Cash and cash equivalents in the consolidated balance sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

o Inventories

(i) Media Content :

Media content i.e. Programs, Film rights, Music rights (completed (commissioned / acquired) and under production) including content in digital form are stated at lower of cost / written down value or realisable value. Cost comprises acquisition / direct production cost. Where the realisable value of media content is less than its carrying amount, the difference is expensed. Programs, film rights, music rights are expensed as under :

- 1 Programs – reality shows, chat shows, events, game shows and sports rights etc. are fully expensed on telecast / upload.
- 2 Programs (other than (1) above) are expensed over three financial years starting from the year of first telecast/

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

upload, as per expected pattern of realisation of economic benefit.

- 3 Film rights are expensed based on expected pattern of realisation of economic benefit over the licensed period of sixty months from the commencement of rights, whichever is shorter.

- 4 The cost of educational content acquired is expensed based on consumption pattern over the license period or 60 months from the date of acquisition / right start date whichever is shorter.

- 5 Music rights are expensed over ten financial years starting from the year of commencement of rights, as per management estimate of future revenue potential.

- 6 Films produced and/or acquired for distribution/sale of rights :

Cost is allocated to each right based on management estimate of revenue. Film rights are amortised as under :

- a) Satellite rights – Allocated cost of right is expensed immediately on sale.
- b) Theatrical rights – Expensed in the month of theatrical release.
- c) Intellectual Property Rights (IPRs) – Allocated cost of IPRs are expensed over 5 years from release of film.
- d) Music and Other Rights – Allocated cost of each right is expensed immediately on sale.

- (ii) Raw Stock : Tapes are valued at lower of cost or estimated net realisable value. Cost is taken on weighted average basis.

p Financial Instruments

Financial instruments is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Initial Recognition

Financial assets (excluding Trade receivables which are initially measured at transaction price) and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit and loss) are added to or deducted from

the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit and loss are recognised immediately in the Consolidated Statement of profit and loss.

However, trade receivables that do not contain a significant financing component are measured at transaction price under Ind AS 115 "Revenue from Contracts with Customers".

(ii) Financial assets

1 Classification of financial assets

Financial assets are classified into the following specified categories: amortised cost, financial assets 'at fair value through profit and loss' (FVTPL), 'Fair value through other comprehensive income' (FVTOCI). The classification depends on the Group's business model for managing the financial assets and the contractual terms of cash flows.

2 Subsequent measurement

– Debt Instrument – amortised cost

A financial asset is subsequently measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. This category generally applies to trade and other receivables.

– Fair value through other comprehensive income (FVTOCI)

A 'debt instrument' is classified as FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets.
- b) The asset's contractual cash flows represent solely payments of principle and interest.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Group recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the consolidated statement of profit and loss. On

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Consolidated Statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the effective interest rate method.

In case of “equity share” the Group has irrevocable election choice that can be exercised on an instrument by instrument basis to classify such instruments as FVOCI. Accordingly the Group has classified certain investment in equity instrument as Fair Value through other comprehensive income.

– Fair value through Profit and Loss (FVTPL)

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortised cost or as FVTOCI, is classified as at FVTPL. In addition, the Group may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is considered only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as ‘accounting mismatch’).

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the Consolidated Statement of profit and loss.

– Equity investments

The Group subsequently measures all equity investments at fair value. Where the Group’s management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to Consolidated Statement of profit and loss. Dividends from such investments are recognised in consolidated statement of profit and loss as other income when the Group’s right to receive payment is established.

– Derivative financial instruments

Derivative financial instruments are classified and measured at fair value through profit and loss.

3 Derecognition of financial assets

A financial asset is derecognised only when:

- The Group has transferred the rights to receive cash flows from the asset or the rights have expired or
- The Group retains the contractual rights to receive the cash flows of the financial asset, but assumes a

contractual obligation to pay the cash flows to one or more recipients in an arrangement.

Where the Group has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the Group has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

4 Impairment of financial assets

In accordance with Ind AS 109, the Group applies Expected Credit Losses (“ECL”) model for measurement and recognition of impairment loss on the following financial assets:

- Financial assets that are debt instruments, and are measured at amortised cost, e.g. loans and deposits;
 - Financial assets that are debt instruments and are measured at fair value through other comprehensive income (FVTOCI)
 - Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115
- Expected Credit Losses are measured through a loss allowance at an amount equal to:
- The 12-months expected credit losses (expected credit losses that result from those default events on the financial instrument that are possible within 12 months after the reporting date), if the credit risk on a financial instrument has not increased significantly; or
 - Full lifetime expected credit losses (expected credit losses that result from all possible default events over the life of the financial instrument), if the credit risk on a financial instrument has increased significantly.

In accordance with Ind AS 109 – Financial Instruments, the Group applies ECL model for measurement and recognition of impairment loss on the trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 – Revenue from Contracts with Customers.

For this purpose, the Group follows ‘simplified approach’ for recognition of impairment loss allowance on the

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

trade receivable balances, contract assets and lease receivables. The application of simplified approach requires expected lifetime losses to be recognised from initial recognition of the receivables based on lifetime ECLs at each reporting date.

In case of other assets, the Group determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to twelve months ECL is measured and recognised as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognised as loss allowance.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit losses, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group’s historical experience and informed credit assessment and including forward looking information.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group’s procedures for recovery of amounts due.

The presumption under IND AS 109 with reference to significant increases in credit risk since initial recognition (when financial assets are more than 180 days past due) has been rebutted and is not applicable to the Group, as the Group is able to collect significant portion of its receivables that exceed the due date.

(iii) Financial liabilities and equity instruments

1 Classification of Debt & Equity

Debt or equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2 Subsequent measurement

– Financial liabilities measured at amortised cost

Financial liabilities are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognized in consolidated statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fee or costs that are an integral part of the EIR. The EIR amortization is included in finance costs in the Consolidated Statement of profit and loss.

Lease liability associated with assets taken on lease (except short-term and low value assets) is measured at the present value of lease payments to be made. Lease payments are discounted using the incremental rate of borrowing as the case may be. Lease payments comprise fixed payments in relation to the lease (less lease incentives receivable), variable lease payments, if any and other amounts (residual value guarantees, penalties, etc.) to be payable in future in relation to the lease arrangement.

For trade and other payables maturing within one year from the Balance Sheet date, the carrying amounts approximate the fair value due to the short maturity of these instruments.

– Financial liabilities measured at fair value through profit and loss (FVTPL)

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Derivatives, including separated embedded derivatives are classified as held for trading unless they are designated as effective hedging instruments. Financial liabilities at fair value through profit and loss are carried in the financial statements at fair value with changes in fair value recognized in other income or finance costs in the Consolidated Statement of profit and loss.

3 Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Consolidated Statement of profit and loss.

(iv) Foreign Currency Convertible Bond (FCCB)

The Group has classified foreign currency convertible bond (FCCB) denominated in USD that can be converted to ordinary shares at the option of the bondholder at a conversion price fixed in Group's functional currency (INR) as a compound financial instrument comprising of a liability component and an equity component.

Initial measurement

The liability component of a compound financial instrument is initially recognised at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognised at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent measurement

Subsequent to initial recognition, the liability component of a compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not re-measured. Interest related to the financial liability is recognised in profit or loss under finance cost. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognised.

(v) Fair value measurement

The Group measures financial instruments such as debt and certain investments, at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1— Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the consolidated balance sheet on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

(vi) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

q Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use of sale. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

r Provisions, contingent liabilities and contingent assets

The Group recognizes provisions when a present obligation (legal or constructive) as a result of a past event exists and it is probable that an outflow of resources embodying economic benefits will be required to settle such obligation and the amount of such obligation can be reliably estimated.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flow estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that the outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Group does not recognise a contingent liability but discloses its existence in the Consolidated financial statements.

Contingent assets are not recognised in the Consolidated financial statements, however they are disclosed where the inflow of economic benefits is probable. When the realisation of income is virtually certain, then the related asset is no longer a contingent asset and is recognised as an asset.

A provision for onerous contracts is recognised in the statement of profit and loss when the expected benefits to be derived by the Group from a contract are lower

than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Group recognises any impairment loss on the assets associated with that contract.

s Revenue recognition

Ind AS 115 "Revenue from Contracts with Customers

As per Ind AS 115 "Revenue from contracts with customers" – A contract with a customer exists only when the parties to the contract have approved it and are committed to perform their respective obligations, the Group can identify each party's rights regarding the distinct goods or services to be transferred ("performance obligations"), the Group can determine the transaction price for the goods or services to be transferred, the contract has commercial substance and it is probable that the Group will collect the consideration to which it will be entitled in exchange for the goods or services that will be transferred to the customer.

Revenues are recorded for the amount of consideration to which the Group expects to be entitled in exchange for performance obligations upon transfer of control to the customer and is measured at the amount of transaction price net of returns, applicable tax and applicable trade discounts, allowances, Goods and Services Tax (GST) and amounts collected on behalf of third parties.

- (i) Broadcasting revenue – Advertisement revenue (net of discount and volume rebates) is recognised when the related advertisement or commercial appears before the public i.e. on telecast. Subscription revenue (net of share to broadcaster) is recognised on time basis on the provision of television broadcasting service to subscribers.
- (ii) Sales of media content – Revenue is recognised when the significant risks and rewards have been transferred to the customers in accordance with the agreed terms.
- (iii) Commission revenue – Commission of space selling is recognised when the related advertisement or commercial appears before the public i.e. on telecast.
- (iv) Revenue from other services is recognised as and when such services are completed / performed.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

- (v) Interest income from debt instruments is recognised using the effective interest rate (EIR) method.
- (vi) Dividend income is recognised when the Group's right to receive dividend is established.
- (vii) Rent income is recognised on accrual basis as per the agreed terms on straight line basis.

t Retirement and other employee benefits

Employee benefits include salaries, wages, contribution to provident fund, gratuity, post-retirement medical benefits and other terminal benefits.

Short-term employee benefits:

Employee benefits such as salaries, wages, short-term compensated absences, cost of bonus, ex-gratia and performance linked rewards falling due wholly within twelve months of rendering the service are classified as short-term employee benefits and are expensed in the period in which the employee renders the related service. The obligations are presented as current liability in the balance sheet if the entity does not have an unconditional right to defer the settlement for atleast 12 months after reporting date.

Payments to defined contribution plans viz. Government administered provident funds and pension schemes are recognised as an expense when employees have rendered service entitling them to the contributions.

For defined retirement benefit plans in the form of gratuity, the cost of providing benefits is determined using the projected unit credit method, with actuarial valuations being carried out at the end of each annual reporting period. Remeasurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the consolidated balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Remeasurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to Consolidated Statement of profit and loss. Past service cost is recognised in consolidated statement of profit and loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset. Defined benefit costs are categorised as follows:

- (i) service cost (including current service cost, past service cost, as well as gains and losses on curtailments and settlements);
- (ii) net interest expense or income; and
- (iii) remeasurement

The Group presents the first two components of defined benefit costs in Consolidated Statement of profit and loss in the line item 'Employee benefits expense'. Curtailment gains and losses are accounted for as past service costs.

The retirement benefit obligation recognised in the consolidated balance sheet represents the actual deficit or surplus in the Group's defined benefit plans. Any surplus resulting from this calculation is limited to the present value of any economic benefits available in the form of refunds from the plans or reductions in future contributions to the plans.

A liability for a termination benefit is recognised at the earlier of when the Group can no longer withdraw the offer of the termination benefit and when the Group recognises any related restructuring costs.

Long-term employee benefits:

Liabilities recognised in respect of other long-term employee benefits are measured at the present value of the estimated future cash outflows expected to be made by the Group in respect of services provided by employees up to the reporting date.

u Transactions in foreign currencies

The functional currency of the Group is Indian Rupees ('₹').

- (i) Foreign currency transactions are accounted at the exchange rate prevailing on the date of such transactions.
- (ii) Foreign currency monetary items are translated using the exchange rate prevailing at the reporting date. Exchange differences arising on settlement of monetary items or on reporting such monetary items at rates different from those at which they were initially recorded during the period, or reported in previous consolidated financial statements are recognised as income or as expenses in the period in which they arise.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

- (iii) Non-monetary foreign currency items are measured in terms of historical cost in the foreign currency and are not retranslated.
- (iv) On consolidation, the assets and liabilities of foreign operations are translated into Indian Rupees at the exchange rate prevailing at the reporting date and their statements of profit and loss are translated at exchange rates prevailing at the dates of the transactions. For practical reasons, the Group uses an average rate to translate income and expense items, if the average rate approximates the exchange rates at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income (OCI). On disposal of a foreign operation, the component of OCI relating to that particular foreign operation is reclassified to consolidated statement of profit and loss.

v Accounting for taxes on income

Current and deferred tax for the year:

Current and deferred tax are recognised in consolidated statement of profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Tax expense comprises of current and deferred tax.

(i) Current tax:

Current tax is the amount of income taxes payable in respect of taxable profit for the year. Current tax for current and prior periods is recognized at the amount expected to be paid to or recovered from the tax authorities, using the tax rates and tax laws that have been enacted or substantively enacted at the balance sheet date of the respective jurisdiction. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(ii) Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the

corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

The Group recognises deferred tax liability for all taxable temporary differences associated with investments in subsidiaries and Joint venture, except to the extent that both of the following conditions are satisfied:

- When the Group is able to control the timing of the reversal of the temporary difference; and
- it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities.

(iii) Uncertain Tax positions:

Accruals for uncertain tax positions require management to make judgements of potential exposures. Accruals

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

for uncertain tax positions are measured using either the most likely amount or the expected value amount depending on which method the entity expects to better predict the resolution of the uncertainty. Tax benefits are not recognised unless the tax positions will probably be accepted by the tax authorities. This is based upon management's interpretation of applicable laws and regulations and the expectation of how the tax authority will resolve the matter. Once considered probable of not being accepted, management reviews each material tax benefit and reflects the effect of the uncertainty in determining the related taxable amounts.

w Earnings per share

Basic earnings per share are calculated by dividing the net profit for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per share are computed by dividing the profit after tax as adjusted for dividend, interest and other charges to expense or income (net of any attributable taxes) relating to the dilutive potential equity shares (including FCCBs), by the weighted average number of equity shares considered for deriving basic earnings per share and the weighted average number of equity shares which could have been issued on conversion of all dilutive potential equity shares.

x Exceptional Items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Group is treated as an exceptional item and the same is disclosed in the consolidated statement of profit or loss and in the notes forming part of the consolidated financial statements.

y Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at 31 March.

An asset's recoverable amount is the higher of an asset's or cash generating unit's (CGU) fair value less

costs of disposal and its value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other available fair value indicators. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generate cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

The goodwill acquired in a business combination is, for the purpose of impairment testing, allocated to cash-generating units that are expected to benefit from the synergies of the combination.

An impairment loss is recognised in the profit or loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognised in respect of cash generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a favourable change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

z Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of:

- the amount determined in accordance with the expected credit loss model as per Ind AS 109 – Financial Instruments; and

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

- the amount initially recognised less, where appropriate, cumulative amount of income recognised in accordance with the principles of Ind AS 115 – Revenue from Contracts with Customers.

The fair value of financial guarantees is determined based on the present value of the difference in cash flows between the contractual payments required under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations. Where guarantees in relation to loans or other payables of associates are provided for no compensation, the fair values are accounted for as contributions and recognised as part of the cost of the investment.

aa Impairment of investments

The Group reviews its carrying value of investments carried at cost (net of impairment, if any) annually. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the consolidated statement of profit and loss.

ab Contract Balance

Contract assets: A Contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract liabilities: A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Key accounting judgements and estimates

The preparation of the Group's consolidated financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the Grouping disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the

carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimating the uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below:

a Income taxes

The Group's major tax jurisdiction is India. Though the group companies also files tax returns in other foreign jurisdiction significant judgements are involved in estimating budgeted profits for the purpose of paying advance tax, determining the provision for income taxes, including amount expected to be paid/recovered for uncertain tax positions.

In assessing the realisability of deferred tax assets, management considers whether some portion or all of the deferred tax assets will not be realised. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Group will realise the benefits of those deductible differences. The amount of the deferred income tax assets considered realisable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

b Property, plant and equipment

Property, plant and equipment represent a significant proportion of the asset base of the Group. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives and residual values of Group's assets are determined by the management at the time the asset is acquired and reviewed periodically, including at each financial year end. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technical or commercial obsolescence arising from changes or improvements in production or from a change in market demand of the product or service output of the asset.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

c Research and development for internally generated assets

Research costs are expensed as incurred. Development expenditures on an internally generated assets are recognised as an intangible asset when the Group can demonstrate criteria specified for capitalisation has been fulfilled. Significant judgements are involved for assessing recognition criteria and analyse that the cost incurred for subsequent development improve the functionality and enhance the asset's economic benefits potential.

d Defined Benefit Obligation

The costs of providing pensions and other post-employment benefits are charged to the consolidated statement of profit and loss in accordance with IND AS 19 'Employee benefits' over the period during which benefit is derived from the employees' services. The costs are assessed on the basis of assumptions selected by the management. These assumptions include salary escalation rate, discount rates, expected rate of return on assets and mortality rates.

e Fair value measurement of financial instruments and ECL on other Financial Assets

When the fair values of financials assets and financial liabilities recorded in the consolidated balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques, including the discounted cash flow model, which involve various judgements and assumptions.

In accordance with Ind AS 109 – Financial Instruments, the Group applies ECL model for measurement and recognition of impairment loss on the trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 115 – Revenue from Contracts with Customers.

For this purpose, the Group follows 'simplified approach' for recognition of impairment loss allowance on the trade receivable balances, contract assets and lease receivables. The application of simplified approach requires expected lifetime losses to be recognised from initial recognition of the receivables based on lifetime ECLs at each reporting date.

As a practical expedient, the Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the

expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

In case of other assets, the Group determines if there has been a significant increase in credit risk of the financial asset since initial recognition. If the credit risk of such assets has not increased significantly, an amount equal to twelve months ECL is measured and recognised as loss allowance. However, if credit risk has increased significantly, an amount equal to lifetime ECL is measured and recognised as loss allowance.

f Leases

Ind AS 116 – Leases requires lessees to determine the lease term as the non-cancellable period of a lease adjusted with any option to extend or terminate the lease, if the use of such option is reasonably certain. The Group makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised. In evaluating the lease term, the Group considers factors such as any significant leasehold improvements undertaken over the lease term, costs relating to the termination of the lease and the importance of the underlying asset to Group's operations taking into account the location of the underlying asset and the availability of suitable alternatives. The lease term in future periods is reassessed to ensure that the lease term reflects the current economic circumstances.

g Provisions and contingent liabilities

The Group exercises judgement in determining if a particular matter is possible, probable or remote. The Group also exercises judgement in measuring and recognising provisions and the exposures to contingent liabilities related to pending litigation or other outstanding claims subject to negotiated settlement, mediation, government regulation, as well as other contingent liabilities. Judgement is necessary in assessing the likelihood that a pending claim will succeed, or a liability will arise, and to quantify the possible range of the financial settlement. Because of the inherent uncertainty in this evaluation process, actual losses may be different from the originally estimated provision. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that the outflow of resources would be required to settle the obligation, the provision is reversed.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

h Impairment of Goodwill

Goodwill is tested for impairment on an annual basis and whenever there is an indication that the recoverable amount of a cash-generating unit is less than its carrying amount based on a number of factors including operating results, business plans, future cash flows and economic conditions. The recoverable amount of cash generating units is determined based on higher of value-in-use and fair value less cost to sell. The goodwill impairment test is performed at the level of the cash-generating unit or groups of cash-generating units which are benefitting from the synergies of the acquisition and which represents the lowest level at which goodwill is monitored for internal management purposes.

Market related information and estimates are used to determine the recoverable amount. Key assumptions on which management has based its determination of recoverable amount include estimated long term growth rates, weighted average cost of capital and estimated operating margins. Cash flow projections take into account past experience and represent management's best estimate about future developments.

In estimating the future cash flows / fair value less cost of disposal, the Group has made certain assumptions relating to the future customer base, future revenues, operating parameters, capital expenditure and terminal growth rate which the Group believes reasonably reflects the future expectation of these items. However, if these assumptions change consequent to change in future conditions, there could be further favorable / adverse effect on the recoverable amount of the assets. The assumptions will be monitored on periodic basis by the Group and adjustments will be made if conditions relating to the assumptions indicate that such adjustments are appropriate.

i Estimate of charge for inventories recoverability of inventories and content advance

Considering the inherent nature of the industry, particularly on the changing viewing patterns of the content and quality of content which is determined by viewers consuming content, determination of expected pattern of realisation of economic benefits and provision for net realisable value of inventories involves significant judgement and estimates since it is dependent on both external and internal factors.

The factors that the Group considers in determining the consumption has been derived basis management's

expectation of overall performance of content on historical trends and future expectations.

For inventory, the management assesses estimates of future revenue potential. Based on such assessment if the net realisable value of key item of inventory is below its carrying value, such inventories are written down to their net realisable value in accordance with the requirements of Ind AS 2, Inventories ('Ind AS 2').

Refer Note 53 for the changes in estimate for expensed of movie rights in the current year.

4 Recent Indian Accounting Standards (Ind AS)

a Standards issued but not effective

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended 31st March, 2026, MCA has notified Amendment to following Ind AS, applicable to the Group w.e.f. 1st April, 2025.

- 1) Ind AS – 21 The Effects of Changes in Foreign Exchange Rates – Lack of Exchangeability
- 2) Ind AS 12 – Income Taxes relating to International Tax Reform – Pillar Two Model Rules – Exception to recognition and disclosure of deferred tax.
- 3) Amendments to Ind AS 7 – Cash flow statement and Ind AS 107 – Financial Instrument – Disclosures relating to supplier finance arrangements
- 4) Ind AS 1–Presentation of Financial Statements– Classification of Liabilities as current or non- current and non- current liabilities with covenants.

The Group has reviewed the new pronouncements and based on its evaluation has determined that it does not have any significant impact on its Consolidated financial statements.

New and amended standards issued but not effective: The MCA has issued certain amendments to Indian Accounting Standards which are not yet effective as at 31st March, 2026. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Independent valuers have appropriate qualifications and experience in the valuation of properties in the relevant locations. The fair valuations of investment property in India is

based on the valuation by a registered valuer as defined under Rule 2 of Companies (Registered Valuers and Valuation) Rules, 2017. The valuation was arrived at by reference to market evidence of transaction prices for similar properties.

The fair valuation of the assets is based on the perception about the macro and micro economic factors presently governing the construction industry, location of property, existing market conditions, degree of development of infrastructure in the area, demand supply conditions, internal amenities, common amenities, etc.

Due to use of significant unobservable inputs to compute the fair value, it is classified as Level 3 in the fair value hierarchy as per the requirements of Ind AS 113 on 'Fair value measurement'.

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

The carrying amount of goodwill which is tested for impairment is allocated to following cash generating units:

(₹ Million)		
Cash generating unit	Mar-26	Mar-25
Regional Channel in India	621	621
International business	2,049	2,043
Online media business	640	640

Regional Channel in India and International business

The recoverable amount of this Cash Generating Unit (CGU) is determined based on a value in use. The estimated value in use of this CGU is based on the future cash flows using a 2% terminal growth rate for periods subsequent to the 5 years and discount rate of 19% (14.4%) for regional channel in India and 19% (19%) for international business. An analysis of the sensitivity of the computation to a change in key parameters (operating margin, discount rate and long-term growth rate), based on reasonably probable assumptions, did not identify any probable scenario in which the recoverable amount of the CGU would decrease below its carrying amount.

Online media business

The Group assessed the recoverable amount of Goodwill allocated to the Online Media Business which represent a separate CGU. The recoverable amount of this CGU was determined by an independent expert based on the fair value less cost of disposal. The fair value was determined based on revenue multiple of other companies in media industry which was higher than the carrying value of CGU accordingly no impairment is required.

Due to use of significant unobservable inputs to compute the fair value, it is classified as Level 3 in the fair value hierarchy as per the requirements of Ind AS 113 on 'Fair value measurement'.

Nature and purpose of reserves

- Capital Redemption Reserve is created on redemption of redeemable preference shares issued.
- General reserve is used from time to time to transfer profits from retained earnings for appropriation purposes.
- Retained earnings are the profits that the Group has earned till date, less any transfers to general reserve, dividends, or other distributions paid to shareholders. It includes impact of remeasurement gain/ (losses) net of taxes on defined benefit plans on account of changes in actuarial assumptions or experience adjustments within the plans.
- Other Comprehensive income includes:
 - Exchange differences relating to translation of the results and net assets of the Group's foreign operations from their functional currencies to the Group's reporting currency are directly recognised in other comprehensive income.
 - Cumulative gains and losses arising on the revaluation of investment in Equity instruments measured at fair value through other comprehensive income, net of amounts reclassified to retained earnings when those investments are disposed off.
- Capital Reserve is related to merger/demerger/acquisition of business undertaking.
- Equity portion of Foreign Currency Convertible Bonds: The equity portion is the residual amount after deducting the fair value of the financial liability portion from the net proceeds of the FCCBs (Net of deferred tax).

for multinational enterprise(“MNE”) groups with consolidated revenue of €750 million or more. The Group has evaluated the applicability of the Pillar Two rules for the financial year ended 31st March 2026, including for jurisdictions in which it operates. In accordance with the amendments to Ind AS 12 – Income Taxes, the Group has applied the mandatory temporary exception in relation to the recognition and disclosure of deferred tax assets and liabilities arising from Pillar Two income taxes. Accordingly, the Group has not recognised and disclosed deferred tax assets and liabilities related to Pillar Two income taxes. Further, based on the Group’s preliminary assessment for the financial year ended 31st March 2026, and considering there are no significant changes to the existing business structure and scale of operations, management currently does not expect any material Pillar Two top-up tax liability to arise.

b) Disputed Direct Taxes *	888	888
c) Claims against the Group not acknowledged as debts ##	92	79
d) Legal cases against the Group @	Not ascertainable	Not ascertainable

\$ Indirect tax disputes primarily include disputes for the service tax demand, availment of inadmissible input tax credit under Goods and Service Tax (GST) and others. The Group has filed/ in the process of filing submission before the relevant authorities. The Group has reviewed all its pending indirect tax dispute litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its Consolidated financial statements.

During an earlier year, the Company had received show cause cum demand notice (SCN) from Indirect Tax Authorities in relation to availment of inadmissible input tax credit under Goods and Service Tax (GST) aggregating to ₹ 1,736 million (inclusive of consequential interest & penalty) which forms part of contingent liability. The Company had made payments / reversal of input credit of the SCN amount under protest and to ensure the interest accrual on the same are limited. During the year, Adjudicating Authority has passed orders upholding the demand. Based on the legal advice, the Management believes it has strong case on merits and has accordingly filed appeals against the aforesaid orders before the Commissioner of Central Tax (Appeals). The management believes that these balances are recoverable.

* Income-tax demands mainly include appeals filed by the Group before various appellate authorities against disallowance of expenses / claims, non-deduction / short deduction of tax at source, transfer pricing adjustments etc. The Management is of the opinion that its tax cases are likely to be decided in its favour and hence no provision is considered necessary.

The amount represents the best possible estimate arrived at on the basis of available information. The Group has engaged reputed advocates to protect its interests and has been advised that it has strong legal positions against such disputes.

@ The Group has received legal notices of claims / lawsuits filed against it relating to infringement of copyrights, defamation suits etc. in relation to the programs produced / other matters. In the opinion of the Management, no material liability is likely to arise on account of such claims / law suits.

During the previous year, a class action suit filed against the holding company and a subsidiary company in US Court with respect to digital data protection matter was dismissed by the Court during the year.

Further, during the year, separate class action suit has been filed against the holding company and a subsidiary company in US Court with respect to digital data protection matter. Based on the, past favourable order, available information and legal advice, the Management believes that no adjustments are required to the accompanying statements, as there are reasonable grounds of defence.

36 ATL Media Limited (ATL), an overseas wholly owned subsidiary of the Company incorporated in Mauritius, is engaged in broadcasting business. Living Entertainment Limited, Mauritius (LEL), a related party of the Company, was a content provider. During the financial year ended 31 March 2016, ATL had entered a Put Option agreement with LEL to acquire the issued share capital to the extent of 64.38% held by LEL in Veria International Limited (VIL) (another related party of the Company) at an exercise price of \$ 105 million. The exercise period of the Put Option was from the agreement date till the expiry date, i.e. 30 July 2019. In order to secure a borrowing, from Axis Bank Limited and Yes Bank Limited (Bank), LEL had assigned all its right, title, benefit and interest under the said Put Option agreement in favour of Axis Bank, DIFC branch, the security trustee for the benefit of Axis Bank Limited and Yes Bank Limited. The Put Option agreement was amended and renewed by the parties (ATL and LEL) on 29 July 2019 and extended till 30 December 2026 based on certain representations made by LEL and the exercise price was set at \$52.50 million (₹ 4,928 million as at 31 March 2026, ₹ 4,487 million as at 31 March 2025) for the same quantum of shares as per the earlier Put Option agreement and LEL extended the assignment of the Put Option to the security trustee.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

During the financial year ended 31 March 2020, the Bank invoked the Put Option pursuant to the assignment and demanded ATL to pay the exercise price. Subsequently, upon inquiry, ATL became aware of certain misrepresentations by LEL at the time of renewal of the Put Option agreement and consequently, ATL has rescinded the Put Option from the renewal date of the Put Option agreement and also filed a suit against LEL and the security trustee of the said Bank (security trustee subsequently excluded in the amended plaint filed during the quarter ended 30 September 2021) in the Hon'ble Supreme Court of Mauritius for inter-alia declaration that the amended Put Option agreement has been properly rescinded and no longer binding and enforceable.

During the previous year, the Supreme Court of Mauritius, vide order dated 28 February 2025 has accepted the ATL's plea and declared that the amended Put Option agreement was rightfully rescinded and is null and void. Further, the prescribed period within which LEL may appeal against the judgement has expired and the Company has not been notified of any appeal against the judgement.

On 23 January 2024, the subsidiary had received a pre-litigation notice from security trustee in relation to this matter demanding the Company to fulfill its obligation under the Put Option agreement which the subsidiary had responded and denied all claims. Further, during the year ended 31 March 2026, communication has been received by the Company from security trustee which it has responded refuting the claims.

During the year, Axis Bank Limited has assigned its rights, title, interest and benefits to Yes Bank Limited IBU branch (Yes Bank).

Subsequent to the year-end, Yes Bank had issued a claim against LEL before the High Court of England and Wales (English Court) under the Facility Agreement and had amended its claim before the English Court to assert claims against the ATL under the Put Option agreement and the License Agreement.

Based on legal advise, Management believes that Yes Bank's claims under the Put Option agreement are not tenable and it has reasonable grounds to defend any claims made by Yes Bank. The subsidiary had during the earlier period received favourable order in the Supreme Court in Mauritius declaring that the Put Option Agreement has been rightfully rescinded and is null and void.

37 a) The management of the Group had as part of its portfolio rationalisation initiative was in the process of either liquidating / dissolving / restructuring of certain entities (primarily Margo Networks Private Limited) and there is no change in management intention. The management has classified the net assets in relation to these entities as Non-current Assets held for sale/disposal under IND AS 105 ("Non-current Assets Held for Sale and Discontinued Operations"). The results of the operation of these entities have been presented separately in the profit and loss account as discontinuing operations. Considering these assets are held for sale, the assets have been recorded at their respective realisable values.

During the previous year ended 31 March 2025, the Board approved the incremental closure costs amounting to ₹ 75 million. These closure costs had been accounted and presented as exceptional items within discontinuing operations.

Further, during the previous year ended 31 March 2025, the arbitration between Margo and its network partner had concluded and the arbitration order had not admitted the Company's claim. The Company had duly reviewed the order and considering the legal effect of the order, and to avoid protracted litigation, the Company had recorded a charge ₹ 809 million to the profit and loss account and presented the same under exceptional items.

During the year ended 31 March 2026, the Company has acquired remaining 10% equity shares in Margo, thereby making it a 100% subsidiary of the Company.

Current tax expense provision for the year ended 31 March 2026, includes credit of ₹ 969 million on account of write off of Margo investment, already impaired in the earlier years on account of management assessment which is supported by tax advice received by the Company that it was for furtherance of business.

Disclosures as per Ind AS 19 on 'Employee Benefits' are as follows:

A Defined contribution plans

'Contribution to provident and other funds' is recognised as an expense in Note 25 'Employee benefits expense' of the Consolidated Statement of Profit and Loss.

B Defined benefit plans

The present value of gratuity obligation is determined based on actuarial valuation using the Projected Unit Credit Method, which recognises each period of service as giving rise to additional unit of employee benefit entitlement and measures each unit separately to build up the final obligation.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

VII. The defined benefit plans expose the Group to actuarial risks such as interest rate risk, longevity risk and salary risk:

Interest risk: A decrease in the bond interest rate will increase the plan liability.

Longevity risk: The present value of the defined benefit plan liability is calculated by reference to the best estimate of mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk: The present value of defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of plan participants will increase the plan's liability.

VIII. Sensitivity Analysis

The key actuarial assumptions to which the benefit obligation results are particularly sensitive to discount rate and future salary escalation rate. The following table summarises the impact on the reported defined benefit obligation at the end of the reporting period arising on account of an increase or decrease in the reported assumption by 50 basis points

	(₹ Million)	
	Mar-26	Mar-25
Impact of increase in 50 bps on DBO – discount rate	(44)	(57)
Impact of decrease in 50 bps on DBO – discount rate	46	61
Impact of increase in 50 bps on DBO – salary escalation rate	48	61
Impact of decrease in 50 bps on DBO – salary escalation rate	(46)	(58)

Notes:

(a) The current service cost recognised as an expense is included in Note 25 'Employee benefits expense' as gratuity.

The remeasurement of the net defined benefit liability is included in other comprehensive income.

(b) The estimates of rate of escalation in salary considered in actuarial valuation, take into account inflation, seniority, promotion and other relevant factors including supply and demand in the employment market. The above information is certified by the Actuary.

Significant actuarial assumptions for the determination of the defined obligation are discount rate, expected salary increase and mortality. The sensitivity analysis above have been determined based on reasonably possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant.

C Compensated absence

The Group provides for accumulation of compensated absences by certain employees of subsidiaries. These employees can carry forward a portion of the unutilised compensated absences and utilise them in future periods or receive cash in lieu thereof as per the Group's policy. The Group records a liability for compensated absences in the period in which the employee renders the services that increases this entitlement. The obligation for leave benefits (non-funded) is also recognised using the Projected Unit Credit Method. The total liability recorded by the Group towards this obligation was ₹55 million and ₹ 60 million as at 31 March 2026 and 31 March 2025, respectively.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

There have been no transfer between Level 1, Level 2 and Level 3 for year ended 31 March 2026 and 31 March 2025.

Financial instruments measured at amortised cost

The carrying amount of financial assets and financial liabilities measured at amortised cost in the consolidated financial statements are a reasonable approximation of their fair values, since, the Group does not anticipate that the carrying amounts would be significantly different from the values that would eventually be received or settled.

c Fair value measurement

The following table provides the fair value measurement hierarchy of the Group's assets and liabilities.

d Financial risk management objective and policies

The Group's principal financial liabilities, comprise loans and borrowings, interest free business deposits, trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include investments, loans, unsecured interest free deposits, trade and other receivables and cash and cash equivalents that are derived directly from its operations.

The Group is exposed to market risk, credit risk and liquidity risk. The Group's Senior Management oversees the management of these risks.

i Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

– Foreign Currency risk

The Group undertakes transactions denominated in foreign currencies, consequently exposures to exchange rate fluctuations arise. The Management has taken a position not to hedge this currency risk.

The carrying amounts of financial assets and financial liabilities of the Group denominated in currencies other than its functional currency are as follows:

(₹ Million)

Currency	Assets as at		Liabilities as at	
	Mar-26	Mar-25	Mar-26	Mar-25

Egypt Pound (EGP)	125	132	–	–
Japanese Yen (JPY)	2	2	–	–
South African Rand (ZAR)	106	89	–	–

– Foreign Currency sensitivity analysis

The following table details the Group's sensitivity to a 10% increase and decrease in the Rupee against the relevant foreign currencies. 10% is the sensitivity rate used while reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in foreign exchange rates. The sensitivity analysis includes only outstanding foreign currency denominated monetary items and adjusts their translation at the year end for a 10% change in foreign currency rates. A positive number below indicates an increase in profit where the Rupee strengthens 10% against the relevant currency. For a 10% weakening of the Rupee against the relevant currency, there would be a comparable impact on the profit and the balance would be negative.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

– Interest rate risk

The borrowing of the Group includes FCCB and vehicle loan which carries fixed coupon rate and consequently the Group is not exposed to interest rate risk.

The Group's investment in debt instruments and loans given by the Group are at fixed interest rates, consequently the Group is not exposed to interest rate risk.

The Group also invests in debt mutual fund schemes of leading fund houses. Such investments are susceptible to market price risks that arise mainly from changes in interest rate which may impact the return and value of such investments. However, given the relatively short tenure of underlying portfolio of the debt mutual fund schemes in which the Company has invested, such price risk is not significant.

– Other price risk

The Group is exposed to price risks arising from equity and mutual funds investments. The Group's equity investments are held for strategic rather than trading purposes.

Price sensitivity analysis:

The sensitivity analysis below has been determined based on the exposure to price risks of the investments at the end of the reporting period. If the prices had been 10% lower / higher :

(₹ Million)

Fair value through profit and loss and Fair value through other comprehensive income	Sensitivity analysis		Mar-25	
	Mar-26		Decrease by 10%	Increase by 10%
Fair value through profit and loss for the year ended would (decrease) / increase by	1,272	(1,272)	1,192	(1,192)

ii Credit risk management

Credit risk is the risk of financial loss to the Group if a customer or counterparty fails to meet its contractual obligations and arises principally from the Group's receivables, deposits given, loans given, investments made and balances at bank.

The maximum exposure to the credit risk at the reporting date is primarily from investments made, loans given and trade receivables.

In case of trade receivables, the Group does not hold any collateral or other credit enhancements to cover its credit risks. Credit risk has always been managed by the Group through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Group grants credit terms in the normal course of business. On account of adoption of Ind AS 109 on 'Financial Instruments', the Group uses expected credit loss model to assess the impairment loss or gain.

Trade receivables are non-interest bearing and the average credit period is 45 days. The Group's exposure to customers is diversified and except for one customers, no single customer contributes to more than 10% of outstanding trade receivables and unbilled revenue.

Based on historical data, loss on collection of receivables is not material hence no additional provision considered.

The unsatisfied performance obligation is expected to be completed in one year or less.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

The Company considers a financial asset in default when contractual payments are 180 days past due. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

The carrying amount of following financial assets represents the maximum credit exposure:

(₹ Million)		
	Mar–26	Mar–25
Movement in allowance for credit loss during the year was as follows :		
Balance at the beginning of the year	4,809	5,047
Add: Provided during the year	649	402
Less: Reversal / write offs during the year	(235)	(676)
Impact of Foreign Translation	114	36
Balance as at the end of the year	5,337	4,809
Net Trade receivable	17,243	15,325

Trade receivable consists of a large number of customers, spread across diverse industries and geographical areas. Ongoing credit evaluation is performed on the financial condition of the accounts receivable.

- A The Company had provided commitments for funding shortfalls in Debt Service Reserve Account (DSRA guarantee) in relation to certain financial facilities availed from banks by Siti Networks Limited (SNL), an unrelated entity. During the year ended 31 March 2023, the Company had reached a settlement with certain lenders of SNL and payment were made as per agreed terms. The Company has stepped into the shoes of the lenders of SNL as per the applicable law to recover the amounts from SNL, as confirmed by the Insolvency Resolution Professional (IRP) of SNL. During the previous year ended 31 March 2025, the Company has assigned and transferred these rights to a third party for a consideration of ₹ 220 million. The Company had fully provided for payments made towards the settlement amounts in earlier years and therefore, the aforementioned consideration of ₹ 220 million has been accounted for as a gain and presented under exceptional items. The Company continues to carry adequate provisions for any remaining DSRA claim.

Further, the IRP of SNL has admitted the operational creditor claims of the Company under the ongoing resolution process.

Considering the financial condition of SNL, the Company without prejudice to its legal rights had fully provided for the balances recoverable from SNL till the date of admission of claim by IRP and continues to recognise revenue from SNL on conservative basis.

On 6 September 2025, IDBI Bank Limited has filed application under Section 7 of the Insolvency and Bankruptcy Code, 2016 before the Hon’ble National Company Law Tribunal, Mumbai Bench for initiation of Corporate Insolvency Resolution Process against the Company. The Company has filed its detailed reply seeking dismissal of IDBI’s petition and based on legal advice and precedence believes that the Company has a strong case in the matter.”

- B During the year, the Company has given an Inter–corporate Deposit (ICD) aggregating to ₹ 350 million carrying interest rate of 12% p.a. for a period of 4 months.

(₹ Million)		
	Mar–26	Mar–25

- C The Company, in an earlier year, had given an Inter–corporate Deposit (ICD) aggregating ₹ 1,500 Million. On account of delays in recovery of the amount, the ICD was assigned to certain related parties (refer note 45), to secure payment of ₹ 1,706 Million (including accrued interest up to the date of assignment). Further since, there are delays in receiving payment from these related parties, the aforesaid amount has been provided during an earlier year. The Company has initiated arbitration proceedings against the said parties for recovering the amounts and the the arbitrator granted an award in favour of the Company. During the previous year, the Company has filed execution application to enforce the award.

- E During an earlier year, the group had filed a case against a competing indian broadcaster for recovery of the telecast rights money aggregating to USD 4.96 million equivalent to ₹ 466 million (USD 4.96 million equivalent to ₹ 424 million) which is currently being heard by the Supreme Court of India (“the Court”).Considering the significant passage of time, the management had made provision against the same.

Credit risk on cash and cash equivalents is limited as the Group generally invests in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. The credit risk on mutual funds is limited with high credit ratings assigned by credit rating agencies. Further, no major investments in external non-convertible debentures and other debt instruments.

iii Liquidity risk

Liquidity risk refers to the risk that the Group cannot meet its financial obligations. The Group’s principal source of liquidity are cash and cash equivalents and the cash flow generated from operations. The Group consistently generated strong cash flows from operations which together with the available cash and cash equivalents and current investment provides adequate liquidity in short term as well as in the long term. Trade and other payables are non-interest bearing and the average credit term is 45 days.

48 ADDITIONAL DISCLOSURE WITH RESPECT TO AMENDMENT TO SCHEDULE III

- i) The Group has not been declared wilful defaulter by any bank or financial institution or any lender.
- ii) There are no charges or satisfaction which are yet to be registered with the Registrar of Companies beyond the statutory period.
- iii) There are no loans or advances (Other than those already disclosed under Note 45) in the nature of loans granted to Promoters, Directors, KMPs and their related parties (as defined under Companies Act, 2013), either severally or jointly with any other person, that are repayable on demand or without specifying any terms or period of repayment.

49 On 21 November 2025, the Government of India notified the four Labour Codes consolidating 29 existing labour laws. The Ministry of Labour & Employment has also issued draft Central Rules and FAQs to help assess the financial impact of these changes. Based on internal management assessment and the best information available, and in line with ICAI guidance, the incremental impact of these changes is not material to the financial statements of the Company and its Indian Subsidiaries for the year ended 31 March 2026. The Group continues to monitor the developments pertaining to the implementation of the new labour codes from the Government on other aspects of the Labour Code and would provide appropriate accounting effect subsequently on the basis of such developments as needed.

NOTES

FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

50 The Securities and Exchange Board of India (“SEBI”) had passed an ex-parte interim order dated 12 June 2023 and Confirmatory Order dated 14 August 2023 (SEBI Order) against one of the current Key Management Personnel (“KMP”) of the Company for alleged violation of Section 4(1) and 4(2)(f) of SEBI (Prohibition of Fraudulent and Unfair Trade Practices relating to Securities Market) Regulations, 2003 (“PFUTP”).

On 30 October 2023, the Hon’ble Securities Appellate Tribunal (SAT) set aside the above order passed by SEBI granting relief to the current KMP. The SAT order also recorded that the SEBI will continue with the investigation.

Pursuant to the above, SEBI had issued various summons and sought comments/ information/explanation from Company, its subsidiary, directors under period of consideration and KMPs who have been providing information to SEBI from time to time, as requested.

With respect to the ongoing enquiry being conducted by SEBI, a writ petition challenging the same was filed by an ex-director (Petitioner) before the Hon’ble Bombay High Court against SEBI during the year ended 31 March 2024, wherein, the Company was impleaded as a respondent. The Company had filed its reply to the writ petition. The Hon’ble Bombay High Court vide order dated 26 June 2024, provided certain reliefs to the Petitioner and this order has no implications with respect to the Company.

During the earlier year, the Company had received a follow-up communication from the Ministry of Corporate Affairs (“MCA”) for the ongoing inspection under section 206(5) of the Companies Act, 2013 against which the Company had submitted its response.

The management had informed the Board of Directors of the Company (“Board”) that based on its review of records of the Company / subsidiary, the alleged transactions (including refunds) relating to the Company/ subsidiary were against consideration for valid goods and services received.

On 23 February 2024, the Board had constituted an “Independent Investigation Committee” (“Committee”) headed by and under the chairmanship of Former Judge, Allahabad High Court and comprising of 2 independent directors of the Company, to review the allegations against the Company/subsidiary with a view to safeguard interest of the shareholders.

The Committee on 08 October 2024 submitted its report to the Board after carrying out an extensive fact-checking exercise with the help of reputed external experts to verify the documents and information provided by the Company during the investigations to SEBI. The Board has taken the aforesaid report on record and noted that the transactions under investigation were found to be a part of normal course of business and no material irregularities were reported within the same. The Committee did not find any need for further corrective and disciplinary measures, policy changes or legal steps to be implemented.

Based on approval of Board, the Company had filed settlement application with respect to the ongoing investigation which had been rejected during the year ended 31 March 2026.

SEBI vide its adjudicating order dated 02 January 2025 has disposed of the proceedings initiated under the show cause notice (SCN) dated 06 July 2022 and indicates that the content of the SCN will be treated as integral part of the further investigation report by SEBI.

On 07 August 2025, SEBI has issued a SCN against the Company, a current KMP and an ex-director alleging certain violations of SEBI Regulations relating to alleged lien on a property for the financial year 2018–19. Further, on 16 January 2026, SEBI has issued a SCN against the Company, a current KMP and ex-directors alleging certain violations of SEBI Regulations relating to investment made in inter-corporate deposits made and assigned in earlier years. The aforementioned ICDs were fully provided in the books of accounts in the earlier years. The Company has furnished its detailed reply denying all allegations against the Company in the SCN and the Company through its authorized representative attended hearing / shall be attending hearing before SEBI in this regard. Further on 12 February, 2026, SEBI issued an SCN against the Company, a current KMP and other noticees alleging certain violations of various Regulations with respect to film advances, related party transactions

NOTES

and disclosure/control issues relating to earlier periods. The Company believes that it has sufficient evidence to respond appropriately to the SCN.

The Company has been legally advised that it has adequate grounds of defence case against the SCNs, however to avoid protracted litigation, the Company has also filed settlement application in the said matters with SEBI in terms of the provisions of SEBI (Settlement Proceedings) Regulations, 2018 (“Settlement Regulations”), which is under consideration.

The Board continues to monitor the progress of aforesaid matters. Based on the above, the management does not expect any material adverse impact on the operations and financial statements of the Company / Group with respect to the above and accordingly, believes that no adjustments are required to the accompanying Consolidated financial Statement.

- 51** In an earlier year, Zee Studio Limited, a subsidiary had been allotted plot of land on lease for the purpose of construction of film studio by Rajasthan State Industrial Development & Investment Corporation Limited (RIICO), Jaipur. The subsidiary had constructed the studio on the aforesaid plot of land. This lease was subsequently cancelled by RIICO primarily on account of construction related dispute. The cancellation order was challenged by Zee Studios Limited by way of review application before the concerned authorities which was rejected vide order dated 16 October 2023.

Based on the legal opinion obtained, the subsidiary has taken necessary steps for obtaining relief in the matter and have filed writ petition at Rajasthan High Court. The management considering the merits and facts of the case including legal opinion believes it has a strong legal position to protect its rights and there is no impairment required to be carried out to the aforesaid assets.

The statutory auditors of the Group had put an Emphasis of Matter (EOM) paragraph on this matter for year ended 31 March 2026 based on a similar EOM by the auditors of Zee Studios Limited.

- 52** On 26 August 2022, the Company had entered into an agreement with Jiostar India Private Limited (“Jiostar”) (previously known as Star India Private Limited) which set out the basis on which Jiostar would be willing to grant sub–license rights to the Company in relation to television broadcasting rights of the International Cricket Council's (ICC) Men's and Under 19 (U–19) global events for a period of four years (ICC 2024–2027) on an exclusive basis (Alliance Agreement). The Company / Board had identified this acquisition as being of strategic importance ensuring the Company is present in all segments of the media and entertainment business. The performance of the Alliance Agreement was subject to certain conditions precedent including submission of financial commitments, provision of bank guarantee and corporate guarantee/confirmation and written ICC approval for sub–licensing the television broadcasting rights to the Company.

Jiostar had previously sent letters to the Company through its legal counsel alleging breach of the Alliance agreement on account of non–payment of dues for the rights in relation to first installment of the rights fee aggregating to US \$ 203.56 million along–with the payment for bank guarantee commission and deposit interest aggregating ₹ 170 million and financial commitments including furnishing of corporate guarantee/ confirmation as stated in the Alliance agreement. Based on the legal advice, the management believes that Jiostar by its conduct has acted in breach of the Alliance Agreement and is in default of the terms thereof. Since, Jiostar has acted in repudiatory breach of the Alliance Agreement and accordingly on 8 January 2024 the Company terminated the Alliance Agreement on account of such breach and has also sought refund of ₹ 685 million paid to Jiostar towards bank guarantee commission and interest expense.

Jiostar initiated arbitration proceedings before London Court of International Arbitration (LCIA) against the Company through its Notice of Arbitration dated 14 March 2024 (Arbitration Notice) by which it had sought specific performance of the Alliance Agreement by the Company or in the alternative compensation from the Company for damages that was not quantified at the time by Jiostar.

Subsequently, Jiostar through its communication dated 20 June 2024, terminated the Alliance Agreement and opted to only seek damages during the Arbitration proceedings.

As per the procedural order of the LCIA Arbitral Tribunal dated 18 July 2024 (Procedural Order), Jiostar on 16 September 2024, filed its Statement of Case before the LCIA Arbitral Tribunal, and has inter alia, sought for a ruling that the Alliance

NOTES

Agreement between Jiostar and the Company was validly terminated by Jiostar and also filed for damages to be determined as of the date of the Tribunal's award (with such damages quantified, as at 31 August 2024 as proxy date of the award, at US\$ 940 million) along with costs, expenses and applicable interest until full payment. Based on review of the Statement of Case, no additional legal grounds of claim have been made out.

During the previous year ended 31 March 2025, as per the Procedural Order the Company has filed its Statement of Defence and Counterclaim on the 23 December 2024 and categorically refuted all claims and assertions made by Jiostar including its claims for damages, and in the counterclaim the Company has claimed the payments made to Jiostar aggregating to US \$ 8 million plus interest. The Company is taking necessary steps to defend itself against Jiostar's claim in the Arbitration.

During the year ended 31 March 2026, due to certain developments/ disclosures made by Jiostar, the Tribunal has adjourned the hearing on Zee's application. Fresh hearing dates have been confirmed by the Tribunal.

During the year ended 31 March 2026, in line with Procedural Order of the tribunal the Company has filed further pleadings with its defence to which JioStar has responded subsequent to the year–end and increasing its damages claim to US\$ 1.097 billion. The Company is in the process of filing its rejoinder to JioStar's response and defend the claim.

The Board continues to monitor the progress of aforesaid matter. The management, based on a legal advice and its internal assessment, has determined that the Company is not in default of the Alliance Agreement and believes that the claims made by Jiostar are unfounded and legally not tenable. The Company has strong and valid grounds to defend any claims in respect of above matter.

Accordingly, the Company does not expect any material adverse impact with respect to the above as in its view the contract has been repudiated and no adjustments are required to the Consolidated financial Statement.

- 53** The Company has been consistently applying management estimates for recording consumption of inventories based on future economic benefits expected to be generated from the exploitation of the rights. Accordingly, the cost of movie rights is recognised as an expense in the statement of profit and loss on a straight line basis over the license period or 60 months from the date of acquisition / rights start date, whichever is shorter. During the year, the Company has revised its estimates of recording consumption of premiere movies to reflect changing business strategy, inventory utilization, exploitation and monetization pattern. The cost of inventory continues to be charged in the statement of profit and loss over the aforementioned period, however, the estimate of consumption has been revised, resulting in higher charge in the initial periods in the line with the changing business model, market scenarios and utilization of inventories across platforms. Based on this assessment, carrying value of change in inventory assets is adjusted by recognising an additional charge of ₹ 3,022 million during the quarter and year ended 31 March 2026, which has been debited in the Operational cost in the Statement of Profit and Loss. The inventory continues to be carried at the lower of cost / unamortised cost or realisable value.

- 54** Final dividend on Equity shares for the year ended 31 March 2025 of ₹ 2.43 per share (₹ 1 per share) aggregating to ₹ 2,334 Million (₹ 961 Million) was paid during the year.

The Board of Directors of the Company at its meeting held on 19 May, 2026 has recommended a final dividend of ₹ 2 /– per equity share (face value of ₹ 1 each) aggregating to ₹ 1,921 million for the financial year ended 31 March, 2026. The dividend is subject to shareholders approval at the ensuing annual general meeting of the Company.

- 55** The Ministry of Corporate Affairs (MCA) has prescribed a requirement for companies under the proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 inserted by the Companies (Accounts) Amendment Rules 2021 requiring companies, which uses accounting software for maintaining its books of account, shall use only such accounting software which has a feature of recording audit trail of each and every transaction, creating an edit log of each change made in the books of account along with the date when such changes were made and ensuring that the audit trail cannot be disabled.

During the current financial year, the Company and its Indian subsidiaries has used accounting software for maintenance of revenue, digital subscription, payroll and other accounting records, which have a feature of recording audit trail (edit log) facility and the same have been operated throughout the year for all relevant transactions recorded in the software. Audit

NOTES

trail has been preserved by the Company and its Indian subsidiaries in accordance with the statutory requirements for record retention, at both the application and database levels from the date of activation. Further, for accounting software used for maintenance of digital subscription records, audit trail feature have not been retained as per statutory requirements for record retention.

Further more, the accounting software used for maintenance of payroll database of the Holding Company and its 2 subsidiaries incorporated in India is operated by a third-party software service provider. There is no information on existence of audit trail (edit logs) for any direct changes made and preservatons of the audit trail logs at the database level in the 'Independent Service Auditor's Assurance Report on the Description of Controls, their Design and Operating Effectiveness' ('Type 2 report' issued in accordance with ISAE 3402, Assurance Reports on Controls at a Service Organisation).

Based on management's assessment, this does not pose any impact, as controls at the application layer are operating effectively. Additionally, the Company and its Indian subsidiaries is actively working to enhance the retention capability of audit trail logs for the said application.

56 Other than those disclosed elsewhere, there are no other subsequent events that occurred after the reporting date.

57 The consolidated financial statements of the Group for the year ended 31 March 2026, were approved by the Board of Directors on 19 May 2026.
