Subject: Intimation of scheduled public launch of AgriBridge on 04 November 2026 and submission of Investor Development Update

Reference: Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015

Dear Sir/Madam,

In continuation of our Investor Presentation filed with BSE Limited on **29 October 2026**, which introduced the Company's AgriBridge digital agriculture initiative, we hereby inform the Exchange that **SC Agrotech Limited has scheduled the public launch of AgriBridge for Wednesday, 04 November 2026.**

The **initial version of AgriBridge is planned to go live for users on 04 November 2026**, from which date interested users will be able to access and begin using the platform. AgriBridge is intended to provide a technology-enabled interface connecting participants in the agricultural supply chain and improving visibility and coordination of relevant workflows. The features made available at launch will be those provided through the live platform; further enhancements may be introduced in phases.

In this connection, please find enclosed the Company's **Investor Development Update dated 03 November 2026 (8 slides)**, setting out the background of the AgriBridge initiative, proposed workflows, conceptual interface visuals and planned development enhancements. The illustrative dashboard images in the presentation do not represent achieved user, transaction or revenue metrics.

The Company will communicate material subsequent developments, if any, in accordance with applicable regulatory requirements. We request you to kindly take this intimation and the enclosed presentation on record and arrange for dissemination to shareholders and other stakeholders.

Thanking you,
Yours faithfully,

For SC AGROTECH LIMITED

Pratikkumar Bharatbhai Patel

The friction AgriBridge aims to address

Agricultural trade spans many participants - and workflows often need better coordination and visibility.

01

SUPPLY DISCOVERY

Crop availability, harvest timing and farmer details may sit in separate records.

02

BUYER COORDINATION

Institutional buyers need specifications, matching and traceable order status.

03

OPERATING VISIBILITY

Quality, dispatch, delivery and settlement steps benefit from a unified workflow.

THE PRODUCT IDEA **A digital layer connecting participants, data and operational workflows.**

One connected farm-to-buyer workflow

A conceptual end-to-end journey designed around verification, matching and operating transparency.

PROPOSED WORKFLOW

Features are proposed for design and validation. No commercial availability or operational data is implied.

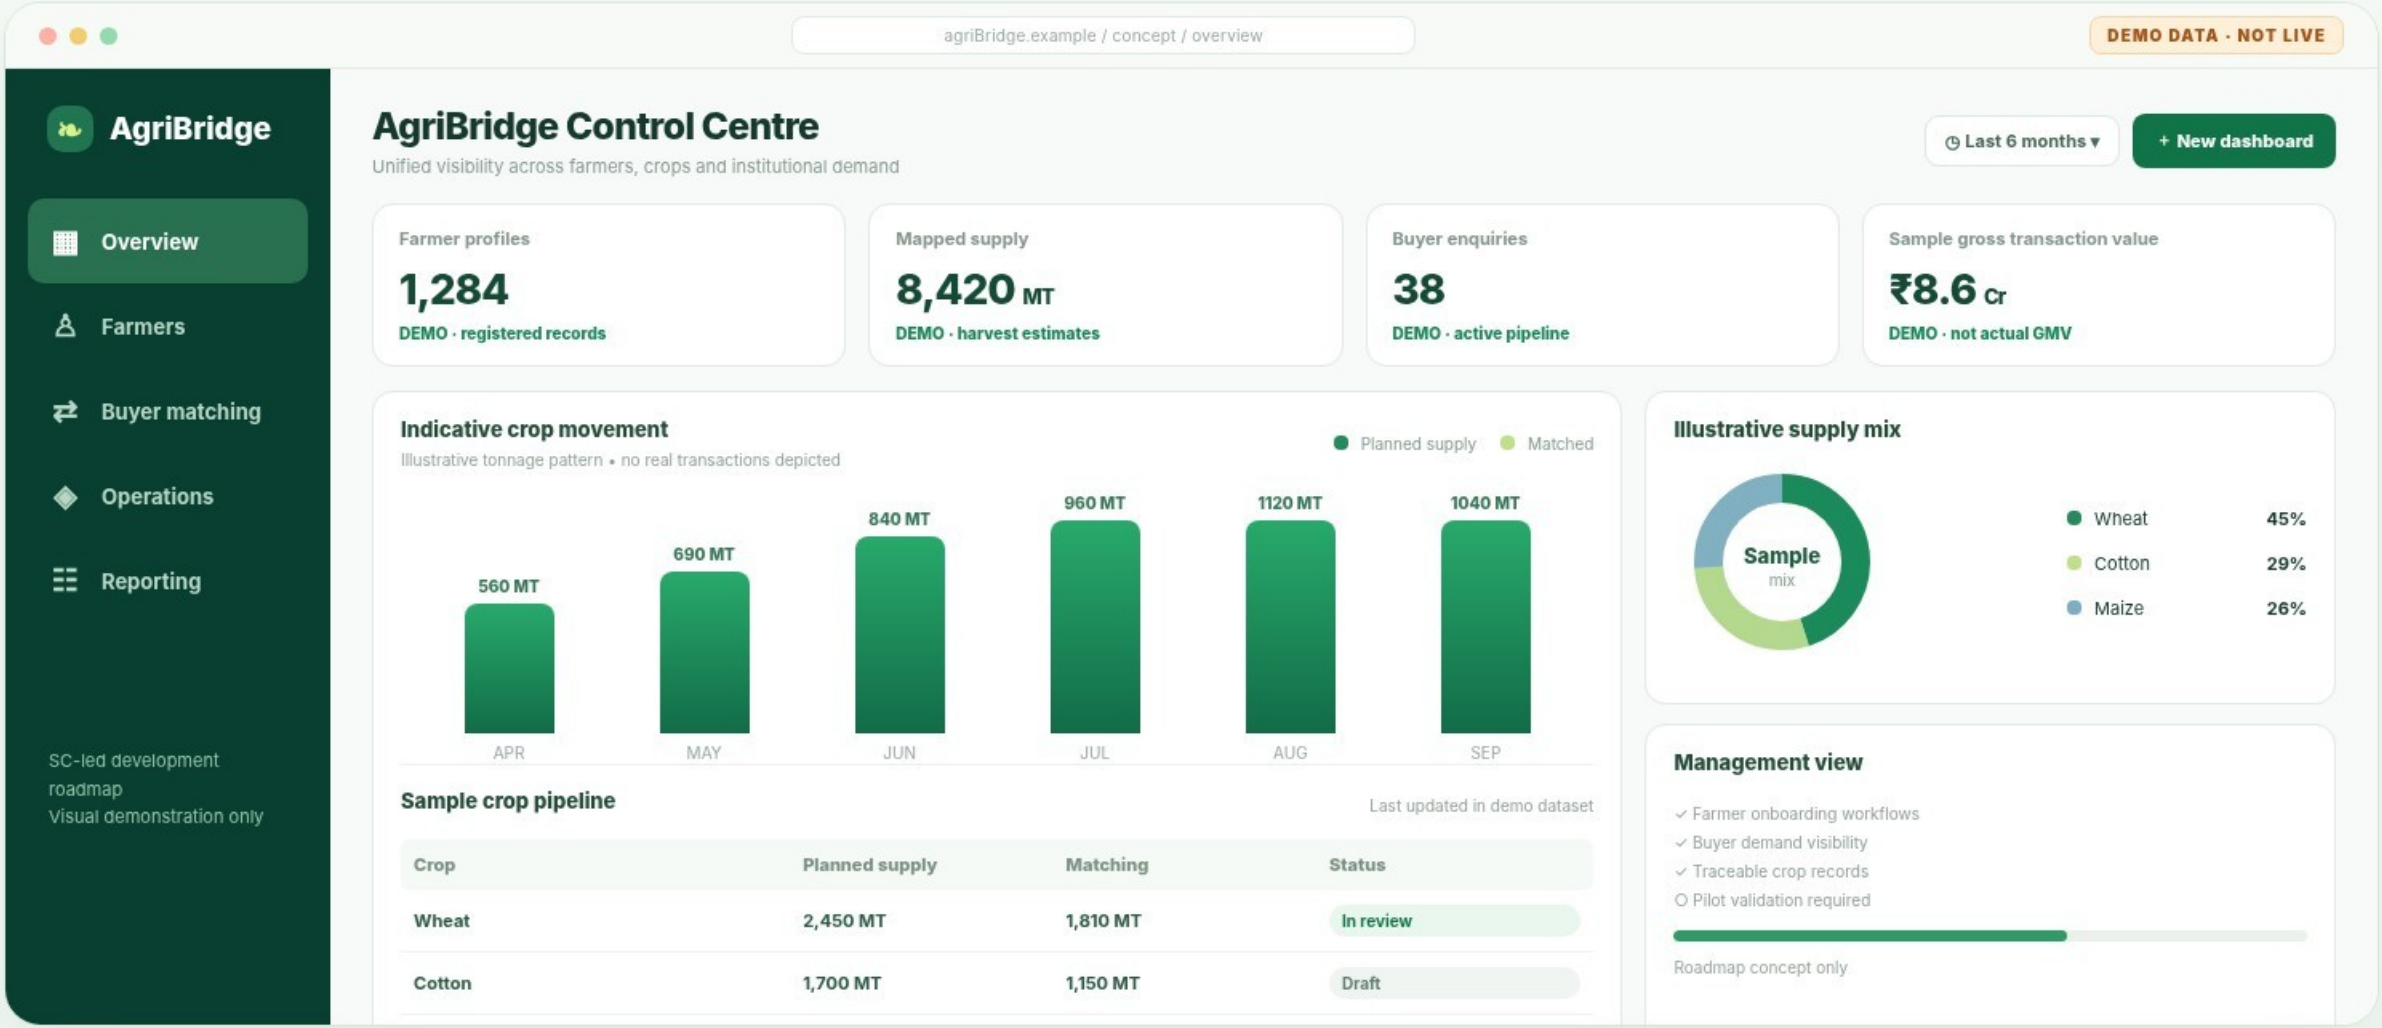

AGRIBRIDGE • PRODUCT EXPERIENCE

Financial and operating visibility — concept dashboard

How a unified workspace could connect participants, supply and demand.

CONCEPT RENDER

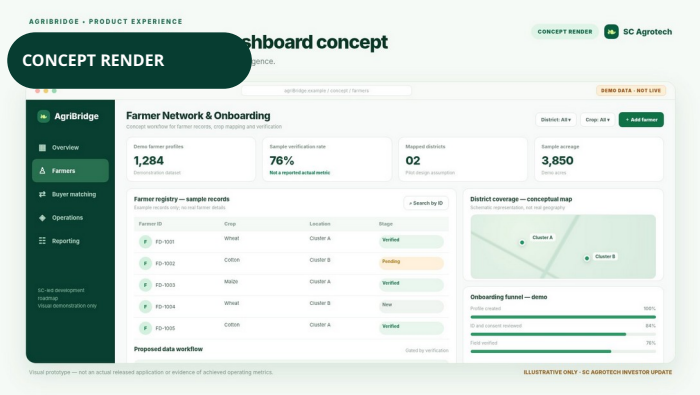

SC Agrotech

CONCEPT UI / DEMONSTRATION DATA / NOT A LIVE APPLICATION

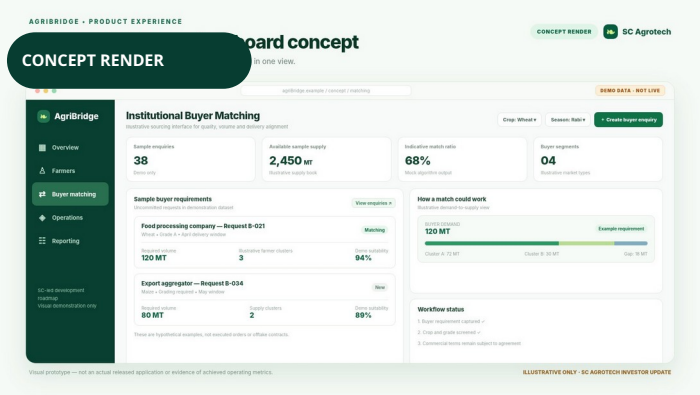

Three working areas in the proposed design

Concept screens illustrate the intended product experience - not delivered software or real users.

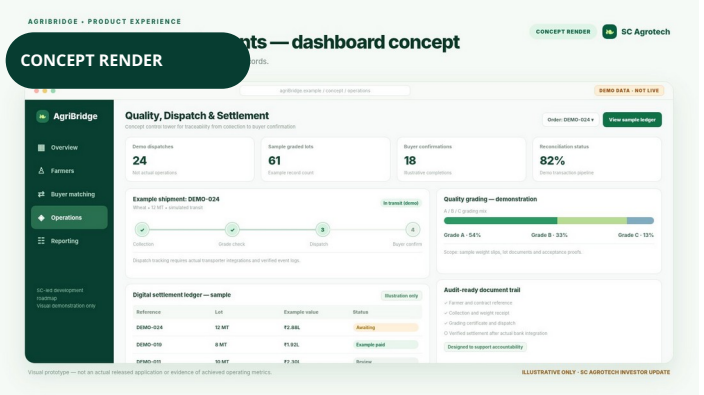

Farmer onboarding

Profiles, crop details and verification workflow

Buyer matching

Requirements, matching and enquiry status

Operations & settlements

Dispatch, documentation and status visibility

Illustrative only. No farmer onboarding counts, customer contracts, platform transactions or revenue are represented.

From product specification to pilot readiness

SC-led product build comes first. Each later milestone is dependent on evidence and review.

01

GOVERN

Project scope, approvals, resources, IP & budget

02

BUILD

SC-led core application and internal QA

03

ENHANCE

2-3 candidate features, subject to scope and acceptance

04

VALIDATE

Security, usability, operational testing and pilot criteria

No milestone completion, development commencement date or external partnership is asserted without supporting records and separate approvals.

How progress will be evidenced

Shareholders should be able to distinguish proposed capabilities from completed, independently verifiable milestones.

01

APPROVAL & CONTROL

Project authorization, development responsibility, scope and IP ownership

02

WORKING BUILD

Dated demonstration, release notes, acceptance testing and security checks

03

PRODUCT VALIDATION

Verified functional tests, pilot criteria and documented feedback

04

COMMERCIAL DISCLOSURE

Only actual counterparties, transactions, revenues and agreements if and when material

IMPORTANT DISCLOSURE

The AgriBridge interfaces are conceptual; future development outcomes are uncertain. The 28 Oct financial review included an emphasis of matter regarding pending balance confirmations and reconciliations.
