Dear Sir/Madam,

**Sub: Intimation of Press Release pursuant to Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015**

Pursuant to **Regulation 30** read with **Schedule III** of the **SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015**, and in compliance with the continuous disclosure requirements applicable to listed entities, we wish to inform the Stock Exchanges that **M/s. Lineage Power Private Limited (“Subsidiary”)**, a material subsidiary of the Company, has completed one year of commercial Battery Energy Storage System (BESS) manufacturing at its Bidadi facility. During the year, LPPL manufactured over 260 utility-scale BESS containers, representing over 1.25 GWh of integrated BESS capacity, making it one of the largest utility-scale Cell to BESS manufacturing achievements by an Indian company in a year.

We are pleased to enclose herewith the Press Release dated **July 08, 2026**, providing details regarding its scope, value, and strategic significance to the Company.

We hereby request you to take note of the same.

Thanking You,

**For PACE DIGITEK LIMITED**

Mysore Highway, Bangalore - 560 074.

**Encl.: As above.**

## Press Release

### **Pace Digitek's Subsidiary Completes One Year of BESS Manufacturing; Crosses 260 Utility-Scale BESS Container Milestone**

***From manufacturing to execution - building an integrated platform for India's energy storage future***

**Bengaluru, 08 July 2026:** Pace Digitek Limited (NSE: PACEDIGITK | BSE: 544550) announced that its subsidiary, Lineage Power Private Limited (LPPL), has completed one year of commercial Battery Energy Storage System (BESS) manufacturing at its Bidadi facility. During the year, LPPL manufactured over 260 utility-scale BESS containers, representing over 1.25 GWh of integrated BESS capacity, making it one of the largest utility-scale Cell to BESS manufacturing achievements by an Indian company in a year.

Over the past year, Pace Digitek has successfully ramped up production while establishing a manufacturing ecosystem focused on operational efficiency, quality and reliable execution. The facility integrates engineering, battery system assembly, container fabrication, Power Conversion Systems (PCS), Energy Management Systems (EMS) and EPC capabilities under a single operating model.

The experience gained from supporting multiple utility-scale BESS deployments has further strengthened the Company's end-to-end capabilities across engineering, manufacturing, commissioning and lifecycle services, creating a strong foundation for future growth.

As India accelerates the deployment of renewable energy and grid-scale storage infrastructure, Battery Energy Storage Systems are expected to play an increasingly important role in improving grid reliability, integrating renewable power and supporting energy transition. Pace Digitek remains focused on expanding its manufacturing capabilities, advancing technology and delivering reliable energy storage solutions for India's evolving energy infrastructure.

**Commenting on the development, Mr. Venugopal Rao Maddisetty, Chairman & Managing Director, Pace Digitek Limited, said:**

*"Completing one year of BESS manufacturing and crossing the milestone of 260 utility-scale BESS containers is an important achievement for Pace Digitek. The past year has been focused on building a manufacturing ecosystem that combines engineering expertise, operational discipline and execution excellence.*

*This milestone reflects the commitment of our team and the progress we have made in creating an integrated platform capable of supporting India's growing energy storage requirements. As demand for energy storage continues to grow, we remain committed to scaling our manufacturing capabilities, advancing technology and delivering reliable, high-quality solutions that contribute to India's clean energy transition."*

## **About PACE Digitek Limited**

Pace Digitek Limited (BSE: 544550, NSE: PACEDIGITK) is an integrated infrastructure and energy solutions company operating across Energy and Telecom & ICT business segments. The Company operates across the value chain, spanning Manufacturing, Engineering, Procurement & Construction (EPC) and Operations & Maintenance (O&M) activities, supporting both project execution and product supply.

In the energy segment, the Company undertakes Battery Energy Storage System (BESS) design, manufacturing, integration and deployment. Through its subsidiary, Lineage Power Private Limited, it also manufactures energy storage systems and related power infrastructure products.

In the telecom segment, the Company undertakes manufacturing of telecom power systems and provides EPC services and O&M for telecom infrastructure, fibre networks and digital infrastructure projects across multiple circles in India.
