## ANNEXURE-I

# Avio Smart Market Stack Appoints Sandeep Pandya to Drive Global Expansion of its Diagnostics & Healthcare Business

**National, 17th June, 2026:** Avio Smart Market Stack Limited (formerly Bartronics India Limited) has appointed healthcare industry veteran **Sandeep Pandya** as **Head – International Sales, Diagnostics & Healthcare Division**, as the company accelerates its global expansion strategy in diagnostics and healthcare technologies.

With over two decades of experience across diagnostics, medical devices, pharmaceuticals, and healthcare technologies, Pandya has built and scaled international businesses across Asia, Africa, Europe, and emerging markets. He has previously held leadership roles at Meril Life Sciences, Beacon Diagnostics, CTX Life Sciences, and Span Diagnostics, where he led international market development, distributor networks, regulatory initiatives, and commercialisation programs.

In his new role, Pandya will spearhead Avio Stack' international business development efforts, focusing on market expansion, strategic partnerships, distribution network development, and commercialisation of the company's healthcare portfolio across global markets.

A key priority will be expanding the international footprint of **Huwel Lifesciences' molecular diagnostics portfolio**, a cornerstone of Avio Stack's healthcare strategy. The portfolio includes advanced molecular diagnostic solutions for tuberculosis (TB), drug-resistant TB, sepsis, HPV, hepatitis, antimicrobial resistance (AMR), respiratory illnesses, and other infectious diseases.

Commenting on the appointment, **Vidya Sagar Reddy, Managing Director, Avio Smart Market Stack Limited**, said: *"Healthcare and diagnostics represent a strategic growth pillar for Avio Stack. As we continue building a globally relevant healthcare platform, strengthening our international presence becomes increasingly important. Sandeep brings deep expertise in diagnostics and healthcare commercialisation across multiple geographies, and his leadership will help us accelerate market access, forge meaningful partnerships, and create sustainable growth opportunities worldwide."*

Speaking on his new role, **Sandeep Pandya** said: *"The global healthcare landscape is evolving rapidly, creating significant opportunities for innovative and accessible diagnostic solutions. Avio Stack has laid a strong foundation through its healthcare initiatives, and I look forward to working with the team to expand our international reach, strengthen strategic collaborations, and deliver impactful healthcare solutions across diverse markets."*

The appointment underscores Avio Stack's long-term vision of building a globally scalable diagnostics and healthcare business through indigenous healthcare technologies, strategic collaborations, and expanded international market access. The company aims to strengthen its presence across both emerging and developed healthcare markets while improving access to affordable, high-quality diagnostic solutions.
