Commencement of Manufacturing Facility at Rajkot Main Plant Operations to be Restored with an Installed Capacity of 1,05,233 MTPA

Rajkot, 11th May 2026: Gopal Snacks Limited, (the “Company”) (BSE: 544140; NSE: GOPAL) a leading FMCG company in India renowned for its high-quality snack products, has re-commenced its manufacturing facility at Rajkot Main Plant.

The Rajkot facility, which was impacted by a fire incident in December 2024, had remained non-operational thereafter. Company has now completed the reinstatement of its manufacturing facility and resumed operations after obtaining the necessary approvals from the relevant government authorities.

The reinstatement of the Corporate Office and other support facility buildings which were affected by fire are currently in progress. However, this will not have any impact on the Company’s operational requirements at Rajkot.

As part of this transition, the Company will discontinue operations at Gondal facility and consolidate production at Rajkot facility, thereby streamlining its manufacturing footprint. The commissioning of this plant will lead to improvement in profitability through lower power cost as compared to Gondal facility as the plant will be operating on boiler-based system. In addition, the Company anticipates reduced transportation costs due to improved proximity to dealers in the Saurashtra region, as well as lower labour and other manufacturing-related costs owing to the facility’s location near other ancillary plants.

The Rajkot facility will operate with an installed capacity of **1,05,233 MTPA** and will manufacture a diversified product portfolio, including **Gathiya, Namkeen, Snack Pellets and Extruded Snacks**. Other Ancillary plants, such as **Papad, Spices and Besan**, were not impacted by fire incident and have continued to operate normally. This development aligns with the Company’s commitment to scaling its operations to meet growing consumer demand.

About Gopal Snacks

Gopal Snacks Limited is a leading manufacturer of packaged snacks in India, offering a diverse portfolio that includes Gathiya, namkeen, wafers, snack pellets, extruded snacks, and other products such as papad, besan, spices, and bakery items. With six manufacturing facilities supported by in-house cold storage and a network of ancillary units, the company applies a vertically integrated approach to ensure quality and agility in production. Its products reach consumers through an extensive distribution network of over 850 distributors and nearly 300 owned logistics vehicles, supported by advanced distribution management systems. Gopal Snacks exports to markets including Canada, the UAE, the UK, and the USA, expanding its global footprint. Strategic initiatives focus on strengthening partnerships with retail chains, advancing e-commerce channels, introducing innovative flavors, and deepening market penetration through marketing and branding initiatives. Committed to sustainability through renewable energy adoption and resource efficiency, Gopal Snacks aims to drive growth, enhance its product appeal, and capitalize on evolving consumer preferences in the growing packaged foods industry.
