## Press Release

# Rossell Techsys Reports Consistent Growth; Q4 Emerges as Strongest Quarter in Company History

**Bengaluru, India | May 13, 2026:** Rossell Techsys Limited (NSE/BSE: ROSSTECH), a leading provider of high-reliability engineering and manufacturing solutions for the aerospace and defence sector, announced its audited financial results for Q4 and the full year ended March 31, 2026. The company reported consistent performance in Q4 FY26, with revenue from operations rising to ₹142.3 crore, marking a 62% year-on-year increase.

The growth was driven by continued execution momentum across Rossell Techsys' aerospace, semiconductor, and space businesses, supported by increasing customer engagements, program ramp-ups, and repeat orders from global OEMs and Tier-1 customers.

### Key Financial Highlights: Q4 FY25–26

Particulars	Q4 FY 26	Particulars	Q4 FY 26
Revenue from Operations	142.35 Crore	Profit Before Tax	₹9.52 Crore
EBITDA	₹20.86 Crore	Profit After Tax	₹7.47 Crore
EBITDA Margin	14.65%	EPS	₹ 1.98

### Strong FY26 Performance

- Revenue from operations for FY26 stood at ₹485.2 crore, registering 87% year-on-year growth
- Profit/(Loss) from Ordinary Activities before Exceptional items increased 165% year-on-year to 28.5 Crore
- EBITDA rose 73% year-on-year to approximately ₹66.6 crore

The company's aerospace and defence business remained the primary growth driver during FY26, supported by strong execution, on-time deliveries, and deeper engagement with global OEMs and customers. The semiconductor business also emerged as a significant contributor, driven by successful qualification programs, rapid volume ramp-up, and the addition of new overseas customers.

The space segment also progressed meaningfully during the year, transitioning from qualification programs to scalable execution and positioning the business for further growth in FY27. Additionally, Rossell Techsys strengthened its presence in the Indian market through MRO certifications, DTA establishment, and initial order wins, creating a strong domestic growth platform.

The Board of Directors has recommended a final dividend of ₹0.30 per equity share (15% on face value of ₹2 per share) for FY26, subject to shareholder approval at the ensuing Annual General Meeting.

Commenting on the results, **Rishab Mohan Gupta, Managing Director of Rossell Techsys, said:** “Q4 marked a defining quarter for Rossell Techsys as we delivered strong growth across all our businesses. We more than doubled our revenue and achieved record quarterly performance in Q4, all while building a robust order pipeline. Our teams executed consistently on marquee aerospace, defence, semiconductor and space programs, deepening partnerships with global OEMs and Tier-1 customers. This has significantly improved our long-term visibility. We also made strategic investments in capacity expansion, talent and processes to prepare for the next phase of growth. I am confident that Rossell Techsys is well-positioned to create sustainable, long-term value for stakeholders.”

During FY26, the company continued to strengthen its operational and execution capabilities to support rising customer demand and future business requirements. Rossell Techsys expanded its manufacturing footprint to approximately 2.55 lakh square feet and is further augmenting capacity through an additional leased facility of around 2.10 lakh square feet near Bengaluru.

**Senthil Balasubramanian, Chief Executive Officer, added:** “Our Q4 performance reflects the strength of our execution and scalability as we ramped up operations to meet growing customer demand. We continue to see strong momentum from repeat orders and new program wins, supported by expanded manufacturing capacity in Bengaluru. With strong demand across aerospace, defence and advanced electronics, Rossell Techsys is well-positioned for the next phase of growth.”

Backed by strong financial momentum, an expanding manufacturing footprint, and growing participation across aerospace, defence, semiconductor and space programs, Rossell Techsys Limited remains well-positioned to strengthen its market presence and drive long-term growth.

#### [About Rossell Techsys Limited](#)

Rossell Techsys Limited (NSE: ROSSTECH), headquartered in Bengaluru, India, specialises in end-to-end design, custom engineering, manufacturing, and lifecycle support for the aerospace, defense and adjacent industries. The Company holds a broad spectrum of aerospace and defense certifications — including AS9100, NADCAP, and ISO 27001 — placing it among a select group of Indian manufacturers operating at globally benchmarked standards of quality, cybersecurity, and environmental compliance.
