PRESS RELEASE

Solapur Bioenergy Systems Pvt. Ltd, Wholly Owned Subsidiary of Organic Recycling Systems Secures 5th *Large-Scale EPCOM Contract for CBG Project from BPCL in Chhattisgarh, Taking the cumulative BPCL order book to ₹350-500cr

Mumbai, October 16, 2026: Organic Recycling Systems Limited (“ORSL”), through its Wholly Owned subsidiary, Solapur Bioenergy Systems Private Limited (“SBESPL”), has secured 05th Contract from Bharat Petroleum Corporation Limited (BPCL) for the Engineering, Procurement, Construction, Operation and Maintenance (EPCOM) of Organic Municipal Solid Waste (OMSW)-based Compressed Bio-Gas (CBG) plant at Bhilai, Chhattisgarh.

The contract encompasses the comprehensive development of the CBG facility, including project management, licensing, basic and detailed engineering, procurement, construction, fabrication, transportation, installation, testing, statutory approvals, commissioning and performance guarantee testing.

This order represents a significant milestone in SBESPL’s expanding Bioenergy Project Development and EPCOM business. The project strengthens the Company’s capabilities in delivering integrated waste-to-energy infrastructure, combining engineering, process technology, plant execution and long-term operations and maintenance.

The proposed facility will process organic municipal solid waste to produce compressed biogas, supporting the conversion of urban waste into a useful energy resource. Such projects contribute to scientific waste management, resource recovery and the development of a circular economy, while supporting India’s broader objectives of renewable energy adoption and reduced dependence on conventional fossil fuels.

Commenting on the development Mr. Pankaj Tanwar, CEO – Bioenergy of ORSL, said:

“This project represents an important opportunity to demonstrate our capabilities across the EPCOM value chain, from engineering and project execution to commissioning and long-term operations and maintenance. The integrated scope of the contract aligns with our focus on developing reliable and efficient waste-to-energy solutions. We look forward to executing the project in accordance with the contractual requirements and maintaining high standards of safety, quality and operational performance.”

With this development, Organic Recycling Systems Limited continues to advance its presence in the bioenergy and waste-to-valorisation sector, leveraging its project execution capabilities and integrated approach to support the development of sustainable energy infrastructure in India.

***Order/Contract Classification:**

Classifications	Big-scale order	Large-scale order	Major-Scale orders
Value (INR Cr)	Up to Rs. 50 Crore	Rs. 50-100 Crore	Rs. 100 Cr and Above

About Organic Recycling Systems Limited (ORSL)

Organic Recycling Systems Limited (ORSL) is a pioneering environmental engineering company specializing in sustainable waste management and valorisation solutions. Established in 2008 by technocrats, ORSL develops and deploys robust, cost-effective, and eco-friendly technologies across the entire waste value chain.

The company's operations span Four strategic business verticals:

- **Project Development & Technology Licensing** – Delivering turnkey projects and technology solutions for waste valorisation.
- **Product Vertical** – Offering a growing portfolio of bio-based products such as CBG, organic manure etc. that support sustainable energy and agriculture.
- **Consulting Vertical** – Providing specialized advisory services in environmental strategy, waste management, and regulatory compliance.
- **O&M vertical:** Provide troubleshooting and complete operation and maintenance services for CBG based as well waste processing facilities.

Recognized under the Swachh Bharat Mission for operational excellence and innovation, ORSL is actively pursuing EPC (Engineering, Procurement, and Construction) opportunities nationwide.

ORSL's research and innovation efforts are reinforced through collaborations with esteemed institutions such as **IIT Mumbai (IITB)**, **IIT Kharagpur**, **IIT Roorkee**, **University of Birmingham (UOB)**, and other technical partners. These partnerships continue to drive the company's intellectual property development and technological advancements in the environmental sector.
