## Hero Motocorp Unveils Super Splendor Xtec 2.0 India's Most Trusted 125cc Motorcycle, Gets An Upgrade!

Mumbai, The ultimate commuter motorcycle just got a major upgrade. Hero MotoCorp, the world's largest manufacturer of motorcycles and scooters, today launched the all-new Super Splendor XTEC 2.0 - India's most trusted and widely loved commuter motorcycle. Driven by the Company's aggressive product revitalization strategy, the all-new Super Splendor XTEC 2.0 is engineered to elevate everyday commuting experience through meaningful suite of technology upgrades, a significant leap in fuel efficiency, and a bold, contemporary design tailored for today's progressive riders.

Built on the trusted legacy of the Splendor that has provided mobility to millions of Indian riders since 1994, the all-new Super Splendor XTEC 2.0 is designed for riders who seek dependable performance with modern-day

convenience and next-gen product tech features.

Speaking at the launch, Ashutosh Varma, Chief Business Officer, India Business Unit, Hero MotoCorp said, "Hero MotoCorp's Splendor has built a strong legacy of delivering trust, performance and everyday reliability to millions of customers for over three decades. The new Super Splendor XTEC 2.0 carries this promise forward with a bold and contemporary design, advanced technology and enhanced convenience features. With its trusted performance & reliability, everyday practicality and an elevated riding experience, the Super Splendor XTEC 2.0 further strengthens Hero MotoCorp's leadership in the segment while reaffirming its commitment to delivering superior value to its customers."

Boasting a refreshed visual identity, the all-new

Super Splendor XTEC 2.0 brings a sharp, contemporary appeal to a classic silhouette. Dynamic dual-tone body graphics paired with a vibrant color palette breathes fresh energy into the motorcycle design. This new variant comes with signature XTEC 2.0 badging, a distinct and premium 3D emblem, a stylish stitched dual-textured seat and eye-catching rim tapes - creating a commanding and premium road presence.

At the heart of the all-new Super Splendor XTEC 2.0 is a proven and highly efficient 124.7cc single-cylinder engine producing 10.7 bhp at 7500 rpm and a peak torque of 10.6 Nm at 6000 rpm. Tuned for refined everyday commuting, this motorcycle delivers smooth acceleration, dependable riding experience and responsive performance across varied riding conditions.

## Coca-Cola And Google Reimagine the Coke Break with Gemini Experiences

Mumbai, Coca-Cola India is making every pause a lot more fun with the launch of "Coca-Cola Half-time Surprise", a new AI-powered experience developed in collaboration with Google and built with Google Gemini. Bringing together two iconic labels, the experiential unlocks three distinct AI-led journeys designed to turn everyday Coke breaks into playful moments of surprise, creativity, and self-expression.

Inspired by Coca-Cola's global "Half-time" philosophy, consumers can scan the QR code on any special Coca-Cola pack to step into imaginative new worlds. By unlocking one of three unique labels, users enter a themed, gam-

ified interface on Google Gemini where quick taps, swipes, and personality-led inputs turn an everyday pause into a personalized journey of self-expression. Using Gemini's Canvas feature, new creative experiences unfold with every interaction across cinematic comic-strip universes, imagined timelines, and music-inspired alter egos. One moment could place consumers inside dramatic visual narratives with evolving characters and aesthetics, while another could transport them across prehistoric eras with dinosaurs, medieval castles, or futuristic realities imagined through AI-powered creativity.

Greishma Singh, Vice President, Marketing,

Coca-Cola India and Southwest Asia said, "For Gen Z consumers today, self-expression is fluid, visual, and deeply shaped by music and digital culture. With Coca-Cola Half-time Surprise, we wanted to reimagine the Coke pause as something more participative, playful, and personal to them. What makes this especially exciting is that every single interaction is unique with the help of Google Gemini. Whether you are creating your own comic strip, time-travelling to a world only AI can take you to, or designing your album cover, the experience feels entirely yours."

Shekar Khosla, VP - Marketing at Google India, said: "Brand engagement is most memorable when it is interactive, personal, and fun. We're glad to collaborate with Coca-Cola so that Coca-Cola Half-time Surprise gives people an engaging way to play, create, and share using Google Gemini. What makes this engagement so exciting is the ability to generate truly personalized experiences."

## US accuses Google engineer of making \$1.2 million using insider data

New Delhi, May 28 (IANS) US authorities have charged a Google software engineer for allegedly using confidential company information to generate approximately \$1.2 million in profits via trading placed on a prediction market platform, according to the Department of Justice (DOJ). Michele Spagnuolo -- a 36-year-old Italian citizen residing in Switzerland -- was charged with commodities fraud, wire fraud and money laundering in connection with an alleged insider trading scheme involving prediction market platform Polymarket.

According to prosecutors -- Spagnuolo -- who allegedly operated under the alias "AlphaRaccoon," used his position as a software engineer at Google to access confidential internal information and place profitable trades linked to company-related events. The DOJ alleged that Spagnuolo had access to Google's inter-

nal data systems and confidential software tools as part of his role and had acknowledged company confidentiality and ethics policies.

## Oil rebounds nearly 4 pc as US-Iran tensions fuel supply fears

New Delhi, May 28 (IANS) Global oil prices rebounded nearly 4 per cent on Thursday after declining sharply in the previous session, as fresh US military strikes on Iran revived concerns over supply disruptions while uncertainty persisted over the future of the Strait of Hormuz.

International benchmark Brent crude rose 3.83 per cent to trade at \$97.91 per barrel. Similarly, US benchmark West Texas Intermediate (WTI) traded around 4 per cent higher at nearly \$92 per barrel, recovering part of Wednesday's losses.

Reports suggested that US forces carried out defensive airstrikes on a military site in Iran and intercepted drones targeting a commercial vessel while also striking a launch unit. The latest military action comes as Washington and

Tehran remain divided over efforts to reopen the Strait of Hormuz.

US President Donald Trump said he remained dissatisfied with the ongoing negotiations and rejected reports suggesting Tehran and Oman could jointly oversee the waterway. "The strait's going to be open to everybody," Trump said, adding that the US would continue monitoring the route.

However, negotiations remain complicated by disagreements surrounding Iran's nuclear programme and Tehran's demand to retain control over Hor-

muz, which remains under restrictions imposed by both sides.

However, Trump reiterated that Washington would not agree to a weak deal and signalled that sanctions relief remained off the table, conflicting with Tehran's demand for financial relief and an end to military attacks.

Oil prices fell sharply on Wednesday, sliding more than 5 per cent to their lowest levels in over a month as investors awaited clarity on a possible framework agreement aimed at ending the conflict in West Asia.

Brent crude settled down \$5.29, or 5.31 per cent, at \$94.29 a barrel, while US West Texas Intermediate (WTI) crude declined \$5.21, or 5.55 per cent, to close at \$88.68 a barrel.

## Seoul stocks down over 1 pc amid renewed Iran tensions

Seoul, May 28 (IANS) South Korean stocks were trading more than 1 per cent lower late on Thursday as foreign investors unloaded local shares following a recent tech-led rally and news that the United States launched new strikes against Iran.

The benchmark Korea Composite Stock Price Index (KOSPI) had fallen 84.32 points, or 1.02 per cent, to 8,144.38 as of 11:20 a.m., reports Yonhap

news agency.

The index closed at a record high of 8,288.7 on Wednesday, extending its winning streak to the fourth consecutive session on the back of a strong rally led by major semiconductor shares, including Samsung Electronics and SK hynix. The landmark 8,000-point feat was achieved Tuesday.

The KOSPI, however, started weak as blue chip shares took a breather after their recent rally on news that

the U.S. carried out strikes targeting an Iranian military site, dampening hopes for an imminent peace deal between the two sides. Overnight, major U.S. indexes closed at record highs over prospects that the war between the U.S. and Iran is nearing an end after an Iranian media company reported a draft interim deal between the two sides, which included the reopening of the Strait of Hormuz. The Dow Jones Industrial Average rose 0.36 per cent, the tech-heavy Nasdaq composite edged up 0.07 per cent, and the S&P 500 gained 0.02 per cent.

**NOTICE TO EQUITY SHAREHOLDERS TRANSFER OF EQUITY SHARES TO INVESTOR EDUCATION AND PROTECTION FUND**

This Notice is published pursuant to the provisions of the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 and amendments thereto read with Section 124(6) of the Companies Act, 2013 (the Act) and amendments thereof.

The shareholders of Limited are hereby informed that in accordance with the provisions of Section 124(6) of the Act read with Rule 6 of the said Rules, all shares in respect of which dividend has not been claimed for seven consecutive years or more are liable to be transferred to the demat account of the Investor Education and Protection Fund (IEPF) in the manner prescribed under the Rules.

Accordingly, the Company shall transfer to IEPF final dividend for the Financial Year 2018-19 which remained unclaimed for a period of seven years on the due date. Therefore shares held by the shareholders who have not encashed the final dividend for the year 2018-19 and who have not encashed any dividend warrant during last seven years, are also required to be transferred to IEPF.

The list of such shareholders and corresponding shares liable to be transferred is available on the Company's website www.alfaica.com at investor page under the tab of investor information.

Accordingly, this notice is issued to inform that in the absence of any valid claim from the shareholders regarding their unclaimed dividends and related shares, the Company shall, in accordance with applicable rules and procedures, transfer such shares and the dividends accrued thereon to the demat account of the Investor Education and Protection Fund (IEPF) without any further special notice. All benefits accruing on such shares including dividend, bonus shares, split, etc., shall also be Transferred to the IEPF in accordance with the applicable rules, as amended from time to time. No claims shall thereafter remain admissible against the Company in respect of such transferred shares and accrued benefits. Further, if any subsequent dividends pertaining to such shareholders become due, the same shall also be credited to the IEPF account as per the prescribed procedure. The information made available on the Company's website regarding shareholders' unclaimed dividends and related shares shall be treated as deemed adequate notice for this purpose.

Shareholders may claim such shares and dividend(s) from the IEPF Authority by submitting an application in the prescribed form IEPF-5, available on the website www.iepf.gov.in and sending a physical copy of the same to the Nodal officer of the company along with the requisite documents enumerated in form IEPF-5.

## Business Brief III

### Godrej Foundation launches Tomorrow Makers to unlock India's untapped talent

Mumbai, The Godrej Foundation, an independent philanthropic trust, today announced the launch of Tomorrow Makers, a national platform designed to identify and support high-potential students from disadvantaged backgrounds.

Tomorrow Makers is built on the belief that while talent is widely distributed across India, access to opportunity is not. The platform will identify high-potential students - from Classes 6-12 as well as graduates - and connect them to organisations, educators, mentors, competitions and peer communities that can help them realise their potential. Through programmes run by eight partner organisations, Tomorrow Makers offers four different pathways - STEM, Invention and Making, Arts and Defence - for high-potential students from different age groups. Omar Momin, Chief Executive Officer, Godrej Foundation, said, "India is home to one of the world's largest school-going populations, yet access to structured mentorship, advanced learning opportunities, and talent acceleration ecosystems remains uneven, particularly for students from under-served communities. Through Tomorrow Makers, we aim to help bridge this gap by building pathways that identify and nurture high-potential young people from across regions and socioeconomic backgrounds.

### Indian stock markets closed on May 28 for Eid al-Adha

Mumbai, May 28 (IANS) Domestic equity markets will remain closed on Thursday as trading on the exchanges - the National Stock Exchange (NSE) and the BSE - remains suspended on account of Eid al-Adha.

Trading across equities, equity derivatives, securities lending and borrowing (SLB), currency derivatives and interest rate derivatives will remain closed for the day on both bourses. The closure follows an earlier holiday on May 1 for Maharashtra Day, with trading set to resume on Friday, May 29. In total, there are 16 stock market holidays scheduled for 2026, of which eight have already been observed. Following Thursday's closure, seven more trading holidays remain for the rest of the year. The next scheduled market holiday falls on June 26, when trading will be suspended on account of Muharram. In the commodity segment, the Multi Commodity Exchange of India (MCX) will remain closed in the morning session but will resume trading in the evening session, according to its holiday schedule.

In addition, the National Commodity & Derivatives Exchange (NCDEX) will remain closed for both morning and evening sessions on the day. On Wednesday, headline indices ended flat amid geopolitical uncertainties surrounding the US-Iran situation, keeping investors cautious.

### Gold, silver prices decline amid geopolitical tensions, elevated crude oil prices

New Delhi, May 28 (IANS) Gold and silver traded lower in international markets on Thursday as a stronger US dollar and renewed geopolitical tensions following fresh US military action against Iran weighed on sentiment and heightened concerns that inflation could remain elevated for longer.

Spot gold slipped nearly 2 per cent to \$4,368.99 per ounce, while COMEX gold was trading 1.80 per cent lower to \$4,367.90 per ounce. On the other hand, silver prices also came under pressure, with spot silver declining more than 3 per cent to \$71.94 per ounce. Similarly, COMEX silver traded 3.56 per cent lower at \$72.22 per ounce.

On the domestic front, the Multi Commodity Exchange (MCX) remained closed on Thursday on account of Eid al-Adha. Commodity market experts said gold remained under pressure as uncertainty surrounding ongoing US-Iran negotiations continued to dominate investor sentiment. The yellow metal traded near the \$4,450-per-ounce level after declining for two consecutive sessions, with key disagreements between Washington and Tehran remaining unresolved, according to market experts. Major sticking points include Iran's demand to retain control over the Strait of Hormuz and preserve its nuclear programme, while US President Donald Trump has reiterated that Washington would not accept what he described as a bad deal and ruled out easing sanctions despite Tehran's calls for financial relief. "Rising energy prices are adding to inflation concerns globally, lowering expectations for near-term interest rate cuts from major central banks," experts said.

### TRAI extends vehicle-to-everything consultation comment deadline to June 4

New Delhi, May 28 (IANS) The Telecom Regulatory Authority of India (TRAI) has extended the last date for submission of written comments and counter-comments on its vehicle-to-everything (V2X) consultation paper to June 4, 2026, and June 18, 2026, respectively, an official statement has said. The consultation paper on the regulatory framework for vehicle-to-everything (V2X) communication was released on April 30, 2026, and the initial deadlines for written comments and counter-comments submission had been fixed as May 28, 2026, and June 11, 2026, respectively.

"Keeping in view the requests of a few stakeholders for an extension of time for submission of comments, it has been decided to extend the last date for submission," the statement from the Ministry of Communications said. The comments or counter-comments may be sent, preferably in electronic form, to Akhilesh Kumar Trivedi, Advisor (Networks, Spectrum & Licensing), TRAI, at advmn@trai.gov.in. For any clarification or information, Akhilesh Kumar Trivedi, Advisor (Networks, Spectrum & Licensing), TRAI, may be contacted at Telephone Number +91-11-20907758, the statement noted. Vehicle-to-everything (V2X) communication is a wireless technology that enables vehicles to interact with other vehicles (vehicle-to-vehicle or V2V), infrastructure (vehicle-to-infrastructure or V2I), pedestrians (vehicle-to-pedestrian or V2P), and networks (vehicle-to-network or V2N). The technology improves road safety and traffic efficiency while aiding autonomous driving by sharing real-time data on location, speed, and surroundings.
