**THIS DOCUMENT IS SOLELY FOR THE USE OF THE PERSON WHO RECEIVED IT FROM OUR COMPANY OR FROM THE BRLM OR FROM THE REGISTRAR. THIS DOCUMENT IS NOT TO BE REPRODUCED OR DISTRIBUTED TO ANY OTHER PERSON.**

#### **ENFORCEMENT OF CIVIL LIABILITIES**

The Company is a Public Limited (Listed) Company under the laws of India and all the Directors and all Executive Officers are residents of India. It may not be possible or may be difficult for investors to affect service of process upon the Company or these other persons outside India or to enforce against them in courts in India, judgments obtained in courts outside India. India is not a party to any international treaty in relation to the automatic recognition or enforcement of foreign judgments.

However, recognition and enforcement of foreign judgments is provided for under Sections 13, 14 and 44A of the Code of Civil Procedure, 1908, as amended (the "Civil Procedure Code"). Section 44A of the Civil Procedure Code provides that where a certified copy of a decree of any superior court (within the meaning of that section) in any country or territory outside India which the Government of India has by notification declared to be a reciprocating territory, is filed before a district court in India, such decree may be executed in India as if the decree has been rendered by a district court in India. Section 44A of the Civil Procedure Code is applicable only to monetary decrees or judgments not being in the nature of amounts payable in respect of taxes or other charges of a similar nature or in respect of fines or other penalties. Section 44A of the Civil Procedure Code does not apply to arbitration awards even if such awards are enforceable as a decree or judgment. Among others, the United Kingdom, Singapore, Hong Kong and the United Arab Emirates have been declared by the Government of India to be reciprocating territories within the meaning of Section 44A of the Civil Procedure Code.

The United States has not been declared by the Government of India to be a reciprocating territory for the purposes of Section 44A of the Civil Procedure Code. Under Section 14 of the Civil Procedure Code, an Indian court shall, on production of any document purporting to be a certified copy of a foreign judgment,

presume that the judgment was pronounced by a court of competent jurisdiction unless the contrary appears on the record; but such presumption may be displaced by proving want of jurisdiction.

A judgment of a court in any non-reciprocating territory, such as the United States, may be enforced in India only by a suit upon the judgment subject to Section 13 of the Civil Procedure Code, and not by proceedings in execution. Section 13 of the Civil Procedure Code, which is the statutory basis for the recognition of foreign judgments (other than arbitration awards), states that a foreign judgment shall be conclusive as to any matter directly adjudicated upon between the same parties or between parties under whom they or any of them claim litigating under the same title except where:

- The judgment has not been pronounced by a court of competent jurisdiction;
- The judgment has not been given on the merits of the case;
- The judgment appears on the face of the proceedings to be founded on an incorrect view of international law or a refusal to recognize the law of India in cases where such law is applicable;
- The proceedings in which the judgment was obtained are opposed to natural justice;
- The judgment has been obtained by fraud; and/or
- The judgment sustains a claim founded on a breach of any law in force in India.

A suit to enforce a foreign judgment must be brought in India within three years from the date of the judgment in the same manner as any other suit filed to enforce a civil liability in India. It is unlikely that a court in India would award damages on the same basis as a foreign court if an action is brought in India. In addition, it is unlikely that an Indian court would enforce foreign judgments if it considered the amount of damages awarded as excessive or inconsistent with public policy or if the judgments are in breach of or contrary to Indian law. A party seeking to enforce a foreign judgment in India is required to obtain prior approval from the Reserve Bank of India to repatriate any amount recovered pursuant to execution of such judgment. Any judgment in a foreign currency would be converted into Rupees on the date of such judgment and not on the date of payment and any such amount may be subject to income tax in accordance with applicable laws. The Company cannot predict whether a suit brought in an Indian court will be disposed of in a timely manner or be subject to considerable delays.

If any of these risks and uncertainties materialise, or if any of our Company's underlying assumptions prove to be incorrect, the actual results of operations or financial condition of our Company could differ materially from that described herein as anticipated, believed, estimated or expected. All subsequent forward-looking statements attributable to our Company are expressly qualified in their entirety by reference to these cautionary statements.

None of our Company, our Directors, the BRLM nor any of their respective affiliates has any obligation to update or otherwise revise any statements reflecting circumstances arising after the date of this Draft Letter of Offer or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

## SECTION II: RISK FACTORS

*An investment in equity shares involves a high degree of risk. Prospective Investors should carefully consider all the information disclosed in this Draft Letter of Offer, including the risks and uncertainties described below and the "Financial Statements" on page 107, before making an investment in the Equity Shares. The risks described below are not the only risks relevant to us or the Equity Shares or the industries in which we currently operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may also impair our business, cash flows, prospects, results of operations and financial condition. In order to obtain a complete understanding about us, investors should read this section in conjunction with "Our Business" on page 82, as well as the other financial information included in this Draft Letter of Offer. If any of the risks described below, or other risks that are not currently known or are currently deemed immaterial actually occur, our business, cash flows, prospects, results of operations and financial condition could be adversely affected, the trading price of the Equity Shares could decline, and investors may lose all or part of the value of their investment. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below.*

*However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors. You should consult your tax, financial and legal advisors about the particular consequences to you of an investment in this Issue. The following factors have been considered for determining the materiality: (1) some events may not be material individually but may be found material collectively; (2) some events may have material impact qualitatively instead of quantitatively; and (3) some events may not be material at present but may have material impact in future.*

*This Draft Letter of Offer also contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Letter of Offer. Any potential investor in, and purchaser of, the Equity Shares should pay particular attention to the fact that our Company is an Indian company and is subject to a legal and regulatory environment which, in some respects, may be different from that which prevails in other countries. For further information, see "Forward Looking Statements" on page 15 of this Draft Letter of Offer.*

*Unless otherwise indicated or the context requires otherwise, the financial information included herein is based on our Financial Statements included in this Draft Letter of Offer. *The financial and other related implications of risks concerned, wherever quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.*

*In this Draft Letter of Offer, any discrepancies in any table between total and sums of the amount listed are due to rounding off.*

### **Internal Risk Factors**

- 1. Our top 10 customers contributed to 44.82%, 34.49%, and 36.43% in the Fiscals 2026, 2025, and 2024, respectively. Any loss of one or more of our top customers, or the deterioration of their financial condition or prospects, or a reduction in their demand for our products, could adversely affect our business, results of operations, financial condition and cash flows.**

A significant portion of our revenue from operations is derived from a limited number of clients, including our Corporate Clients. These relationships have been built on our ability to provide a wide range of designs for our product offering tailored to the needs of our clients by understanding market preferences. However, loss of any of our key clients could have a material adverse effect on our business, financial condition, and results of operations.

Set out in the table below is the share of our top customers during the below mentioned periods:

Customer concentration	Fiscal 2026			Fiscal 2025		Fiscal 2024
	Revenue from operations (₹ in million)	% of revenue from operations	Revenue from operations (₹ in million)	% of revenue from operations	Revenue from operations (₹ in million)	% of revenue from operations
Top 1	1,610.61	7.98%	810.39	7.32%	634.85	8.92%
Top 5	6,148.20	30.46%	2,576.32	23.29%	1,717.40	24.14%
Top 10	9,048.60	44.82%	3,816.52	34.49%	2,591.41	36.43%
<b>Total Revenue from operations</b>	<b>20,187.09</b>	<b>100.00%</b>	<b>11,064.07</b>	<b>100.00%</b>	<b>7,114.34</b>	<b>100.00%</b>

We expect that we will continue to be reliant on our top customers for the foreseeable future. There can be no assurance that our top customers will continue to place similar orders with us in the future as they had placed in the past. A significant decrease in business from such top customers, whether due to circumstances specific to such customer or adverse market conditions or the economic environment generally, may materially and adversely affect our business, results of operations and financial condition. Our reliance on our top customers may also provide such customers increased pricing leverage against us when negotiating orders. We cannot assure you that we will be able to maintain historic levels of business from our significant customers, or that we will be able to significantly reduce customer concentration in the future.

In addition, we do not enter into long-term contracts with our customers and have no exclusivity arrangement with any of them. In the absence of long-term contracts, there can be no assurance that our existing customers will continue to purchase our products. There are no past instances of termination of contracts before the completion of its term. The sales of our product to our customers are undertaken through orally communicated orders or orders placed during physical meetings with them which are then fulfilled by our Company.

Further, cancellation by customers or delay or reduction in their orders or instances where anticipated orders fail to materialize can result in mismatch between our inventories of raw materials and of manufactured products, thereby increasing our inventory costs, which may adversely affect our profitability and liquidity. While there have been no such instances in the last three Fiscals, wherein the customers cancelled their orders, we cannot assure you that such events may not happen in future. In addition, we may not find any customers or purchasers for the surplus or excess products manufactured, in which case we would be forced to incur a loss. Our inability to find customers for surplus products may result in excessive inventories which may become obsolete and may be required to be melted and reproduced thereby incurring additional cost.

Our relationships with our customers are therefore dependent to a large extent on our ability to regularly meet customer requirements, including price competitiveness, efficient and timely product deliveries and consistent product quality. In the event we are unable to meet such requirements in the future, it may result in decrease in orders or cessation of business from affected customers. Additionally, as we do not bind our customers to any long-term agreements specifying a certain volume of business required to be transacted between us, our customers may terminate their relationship with us, with or without cause, with no advance notice and without compensation. Consequently, there is no commitment on the part of the customer to continue to place new purchase orders with us and as a result, our sales from period to period may fluctuate significantly. In the event of any disputes with our customers including in relation to payments for the product supplied by us, we may not be able to seek contractual remedies against our customers due to absence of formal or long-term agreements with them. While we have not faced any instances of material disputes with our key customers, we are currently involved in a legal matter with one of our customers.

Further, if any of our clients is exposed to financial difficulties or insolvency, the loss or delay in payments from a major client could negatively affect our working capital, cash flow, and overall financial stability. While we have not faced delays in payments from our major clients in the last three financial years, we cannot assure you that we will not have any such incidences in future.

2. *A significant portion of our business operations and revenue generation is concentrated in the Southern India. This regional concentration could expose our Company to economic, cultural, geopolitical and local market risks.*

A significant portion of our current sales is in the Southern Indian states of Tamil Nadu, Andhra Pradesh, Karnataka, Telangana and Kerala. This regional preference for gold jewellery in Southern India has significantly influenced the Company's business strategy, market presence, and financial performance. However, our heavy reliance on these regions exposes the Company to a variety of risks, including economic vulnerability of these regions, shifts in consumer behaviour, geopolitical, regulatory and local market risks such as natural disasters, infrastructure issues, or political instability, which could disrupt supply chains, operations, and sales in these regions. While we have not faced any such instances in the past, the occurrence of such events could adversely affect our business, results of operations, cash flows and financial condition.

- 3. Our business is highly concentrated on the sale of 22 Kt CZ jewellery and is vulnerable to variations in demand and changes in consumer preference, which could have an adverse effect on our business, results of operations and financial condition.***

Our major reliance on a single product category, *i.e.*, 22 Kt CZ gold jewellery made from casting gold, exposes us to risks that could impact our revenue and profitability, including fluctuations in the demand for 22 Kt CZ gold jewellery, changes in consumer preferences, and socio-cultural shifts. For details in relation to our product portfolio, see “*Our Business*” on page 82.

Economic downturns, changing consumer preferences, lower disposable incomes, or any other economic disruption in the markets we serve could lead to a reduction in consumer spending on 22 Kt CZ casting gold jewellery, impacting our revenue streams. Further, the Company's focus on 22 Kt CZ casting gold jewellery, limits our ability to cater to a wide range of customer needs. If consumer demand shifts towards more varied options, including other variants of gold jewellery, silver, platinum, and fashion jewellery, our Company's reliance on 22 Kt CZ casting gold jewellery may make it difficult to adapt to new market demands and trends, and this may impact our business, results of operations, cash flows and financial condition.

- 4. Our dependence on gold may expose us to market and demand fluctuations. Further, the non-availability or high cost of quality gold, may have an adverse effect on our business, results of operations, financial condition and prospects.***

Our business is significantly dependent on timely procurement, quality and price of gold, which forms a substantial part of our raw material for jewellery production. As a result, we are exposed to fluctuations in the price and availability of gold, both of which are influenced by regulatory factors such as import duties, global economic conditions, geopolitical factors, and fluctuations in demand and supply in the international markets.

The price of gold is volatile and subject to frequent changes, and any significant increase in the cost of gold may adversely affect our cost of production and margins. Additionally, if we are unable to procure quality gold or the supply of gold is disrupted due to factors such as changes in government policies or import duties, trade restrictions, or other unforeseen circumstances, it may lead to difficulties in sourcing gold or result in higher procurement costs. Such disruptions in supply or sharp price increases could affect our ability to meet customer demands in a timely manner or lead to a decline in the quality of the jewellery produced. While there has been no adverse effect on our financial performance or business operations due to such fluctuations in the past three Fiscals, we cannot assure you that we will not have any impact due to such incidences in future.

The non-availability or high cost of quality gold could have a disproportionate impact on our operations, financial results, and growth prospects. Further, if we are unable to pass on increased costs to our customers or manage our raw material costs efficiently, it could lead to lower profitability and affect our competitive position in the market.

- 5. Our income and sales are subject to seasonal fluctuations and lower income in a peak season may have a disproportionate effect on our results of operations.***

Our business is subject to significant seasonal fluctuations, which can affect our sales, income, and overall financial performance. Historically, the demand for gold jewellery is driven by cultural events, festivals, and wedding seasons, which vary throughout the year. Demand for jewellery rises in the months of the wedding season such as May-June, September-December, and January. During the months of November and December, rural households invest their crop money in gold jewellery. Moreover, gold demand in Tier II and Tier III towns is influenced by agricultural output and monsoon. During auspicious religious events like Diwali/Dhanteras in October and November, and Akshaya Tritiya in April and May, demand for gold and silver jewellery increases.

Our revenues and operations tend to experience peaks and troughs based on the timing of these events. Further, seasonal fluctuations may also affect our inventory management. A large buildup of inventory in anticipation of peak periods could lead to excess stock if sales do not meet expectations. Conversely, insufficient inventory to meet demand during peak seasons could lead to missed sales opportunities and strained relationships with customers.

Further, seasonal fluctuations can also create cash flow volatility. While we may generate significant revenue during peak periods, the off-season may lead to lower sales, affecting our working capital. If we are unable to manage our cash flow effectively during slower months, it may strain our ability to meet operational expenses and fulfill obligations.

6. *Our Company has experienced negative net cash flow from operating activities in the past three Fiscals and may continue to do so in future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.*

Our Company had negative net cash flow from operating activities for the Fiscals 2026, 2025 and 2024. The table below illustrates the same:

Particulars	Fiscal 2026	Fiscal 2025	Fiscal 2024
Net Cash Flow from Operating Activities (A)	(2,606.27)	(153.03)	(130.26)
Net Cash Used in Investing Activities (B)	(166.50)	12.67	(50.75)
Net Cash Flow from Financing Activities (C)	2,720.64	132.55	196.27
Effect of Exchange Rate Changes on Cash (D)	34.58	6.89	5.16
<b>Net Increase / (Decrease) in Cash &amp; Cash Equivalents (A+B+C+D)</b>	<b>(17.55)</b>	<b>(0.91)</b>	<b>20.42</b>

There is no assurance that we may have positive operating cash flows in some or any of the future years, which could materially adversely affect our business, prospects, financial condition, cash flows, and results of operations. Cash flow is a critical indicator of our ability to generate sufficient funds from operations to cover capital expenditures, pay dividends, repay loans, and make new investments without resorting to external financing. If we fail to generate adequate cash flows, it may negatively impact our business operations and hinder our growth prospects.

7. *Our business is dependent on our manufacturing capabilities at our Andheri and Marol Manufacturing Facilities. Unplanned slowdowns, unscheduled shutdowns or prolonged disruptions in our manufacturing operations and an inability to effectively utilize our production capacity could have an adverse effect on our business, results of operations, cash flows and financial condition.*

We operate from our Andheri Manufacturing Facility, with an area of 13,448.86 sq. ft and our Marol Manufacturing Facility with an area of 14,590 sq. ft which has become operational from June 08, 2026. As on date, we have an installed manufacturing capacity of 2,700 kg per annum in the Andheri Manufacturing Facility and 4,000 kg in the new Marol Facility.

Any unscheduled, unplanned or prolonged disruption of our manufacturing process, including on account of power failure, industrial accidents, fire, mechanical failure of equipment, performance below expected levels of output or efficiency, obsolescence, non-availability of adequate labour, or disagreements with our workforce, lock-outs, could affect our ability to operate our facility. Further, any significant malfunction or breakdown of our equipment or machinery may involve significant repair and maintenance costs and cause delays in our operations. While there have been no such instances in the three preceding Fiscals, any such incidence in future may adversely affect our manufacturing operations and production, which may give rise to disputes with our customers and the occurrence of such events could adversely affect our business, operations, cash flows and financial condition. We may also be required to carry out planned shutdowns of our manufacturing facilities for maintenance, statutory inspections and testing, or shut down due to equipment upgrades.

Further, any accident may result in a loss of property and/ or disruption in our production operations entirely, levy of fines, penalties or compensation and/or adverse action against our employees, officers or management,

which could also have an adverse effect on our business, operations, cash flows and overall financial condition.

Additionally, the level of our capacity utilization can impact our operating results. Further, if there is any under-utilization of our capacities, and the capacity of the manufacturing facility is not fully utilized, it could affect our ability to fully absorb fixed costs and thus may adversely impact our financial performance. High-capacity utilization allows us to spread our fixed costs, resulting in higher net profit margin. Our capacity utilization is affected by industry/ market conditions as well as by the product requirements of, and procurement practice followed by, our customers. In the event that we are unable to optimize our production process and use of machinery, we would not be able to achieve full capacity utilization of our facility, resulting in operational inefficiencies which could have an adverse effect on our business prospects and financial performance. Further, if our customers place orders for less than anticipated volume of products or cancel existing orders or change their procurement policies, resulting in reduced quantities being supplied by us, it could result in the under-utilization of our manufacturing capacities. The changes in demand for the products could reduce our ability to estimate accurately future customer requirements, make it difficult to schedule production and lead to over production or utilization of our manufacturing capacity for our product. Any such mismatch leading to over or under utilization of our manufacturing facility could adversely affect our business, results of operations, cash flows and financial condition. For further details, see “*Our Business*” on page 82.

**8. We do not enter into long-term agreements with suppliers for our raw materials. An increase in the cost of, or a shortfall in the availability or quality of such raw materials, in a timely manner or at all, could have an adverse effect on our business, cash flows and results of operations**

Our jewellery production primarily relies on raw materials, including gold bar, stones (pearls, beads, gemstones, CZ stones), alloy metals of copper. To maintain the standards of quality, we source raw materials from established suppliers. Our key suppliers are based in Mumbai, Maharashtra. Although we repeatedly procure raw materials from such suppliers, we do not have firm commitments or long-term supply agreements with them and have no exclusivity arrangement with any of them. Therefore, there are no past instances of termination of contracts with our suppliers before the completion of its term. The procurement of raw materials from our suppliers is undertaken through orally communicated orders or orders placed by our Company during physical meetings with them, which are then fulfilled by our suppliers.

In the absence of long-term contracts, our suppliers may terminate their relationship with us, with or without cause, with no advance notice and without compensation. This lack of commitment from suppliers to accept new purchase orders could disrupt our raw material procurement process, potentially impacting our operations and ability to meet customer demand. Further, in the event of any disputes with our suppliers including in relation to payments for the raw material procured, we may not be able to seek contractual remedies against our suppliers due to absence of formal or long term agreements with them. While we have not faced any instances of material disputes with our suppliers, the occurrence of such events could adversely affect our business, results of operations, cash flows and financial condition.

Further, set out in the table below is the share of our top suppliers from whom we had procured raw material during the below mentioned periods:

Supplier concentration	Fiscal 2026		Fiscal 2025		Fiscal 2024	
	Amount (₹ in million)	% of total purchase	Amount (₹ in million)	% of total purchase	Amount (₹ in million)	% of total purchase
Top 1	4,763.08	23.89%	4,021.29	40.09%	3,442.70	50.84%
Top 5	15,265.63	76.56%	8,107.02	80.81%	6,103.61	90.14%
Top 10	17,554.64	88.04%	9,117.20	90.88%	6,332.27	93.51%
<b>Total Purchases</b>	<b>19,939.08</b>	<b>100.00%</b>	<b>10,031.85</b>	<b>100.00%</b>	<b>6,771.42</b>	<b>100.00%</b>

The amount of raw materials procured and the price at which we procure such materials, may fluctuate from time to time and the availability and price of our raw materials may be subject to a number of factors beyond our control, including economic factors, seasonal factors, environmental factors and changes in Government policies and regulations, including those relating to the jewellery industry in general.

An inability to procure quality raw materials on a consistent basis may lead to a decline in the quality of our products which may lead to an increase in the cost of the product, decline in our sales volumes and profit margins and adversely affect our results of operations. Further, if any of our suppliers is exposed to financial difficulties or insolvency, the delay in raw material supplies from a major supplier could negatively affect our working capital, cash flow, and overall financial stability. While we have not faced delays in supplies from our major suppliers in the last three financial years, we cannot assure you that we will not have any such incidences in future.

**9. *We have incurred significant indebtedness which exposes us to various risks which may have an adverse effect on our business, results of operations and financial conditions. Conditions and restrictions imposed on us by the agreements governing our indebtedness could adversely affect our ability to operate our business.***

As of March 31, 2026, we had total outstanding borrowings of ₹ 2,056.04 million. Our financing agreements may contain restrictive covenants that limit our ability to undertake certain types of transactions. We may be required to obtain the approval of the lenders under our financing arrangements before undertaking these significant actions.

Our debt-to-equity ratio for the Fiscals 2026, 2025 and 2024 was 0.36, 1.77 and 2.52, respectively. We are also required to maintain certain financial ratios under our financing arrangements. These financial ratios and the restrictive provisions could limit our flexibility to engage in certain business transactions or activities, which could put us at a competitive disadvantage and could have an adverse effect on our business, financial condition and results of operations.

In the event we are unable to comply with any covenant under our financing arrangement or are unable to remedy defaults or obtain necessary waivers for any non-compliance, in a timely manner or at all, one or more of our lenders may accelerate our obligations under the financing agreements and seek to enforce their security interest in respect of such borrowings, which could adversely affect our business operations and financial condition. Any failure to comply with a covenant under our financing agreements may also trigger cross default and cross acceleration provisions under certain of our other financing agreements and may adversely affect our ability to conduct our business. It is possible that we would not have sufficient funds upon such an acceleration of our financial obligations to pay the principal and interest in full. Our future borrowings may also contain similar or more onerous covenants.

**10. *Our funding requirements and proposed deployment of the Net Proceeds of the Issue have not been appraised by a bank or a financial institution, and the proposed utilization of Net Proceeds is based on, amongst others, our current business plan and management estimates, and if there are any delays or cost overruns, our business, cash flows, financial condition and results of operations may be adversely affected.***

We intend to use the Net Proceeds of the Fresh Issue for the purposes described in “Objects of the Issue” on page 71. The objects of the Issue and deployment of funds have not been appraised by any external agency or any bank or financial institution or any other independent agency. Further, a monitoring agency has been appointed for monitoring utilization of the Net Proceeds, namely, Acuite Ratings and Research Limited, however, the proposed utilization of Net Proceeds is based on our current business plan, management estimates, prevailing market conditions and other commercial considerations, which are subject to change and may not be within the control of our management. Based on the competitive nature of our industry, we may have to revise our business plan and/ or management estimates from time to time and consequently our funding requirements may also change. Our internal management estimates may exceed fair market value or the value that would have been determined by third party appraisals, which may require us to reschedule or reallocate our capital expenditure plans and may have an adverse impact on our business, financial condition, results of operations and cash flows.

Our business requires significant working capital, and the actual amount of our future working capital requirements may differ from estimates as a result of, among other factors, unanticipated expenses, availability of raw material, economic conditions, growth in revenue, changes in the terms of our financing arrangements, additional market developments, and other external factors which may not be within the control of our management. Any delay in the Issue may impact the funding of our working capital requirements, and adversely affect our business, operations, cash flows and financial condition.

**11. *For our business, we rely heavily on our Promoters namely, Pankajkumar H. Jagawat, Manojkumar N. Jain and Shashank Bhawarlal Jagawat, who are our Managing Director, Whole time Director and Non-***

***Executive Director, respectively. Our business performance may have an adverse effect by their departure or by our failure to recruit or keep them.***

Our Promoters are in charge of our day-to-day operations, strategy, and business expansion. They are also responsible for the execution of our business plan. It may be challenging to find a suitable replacement for one or more of these Promoters in a timely and economical manner if they are unable to continue in their current roles. Pankajkumar H. Jagawat and Manojkumar N. Jain have over 20 years of experience each, and Shashank Bhawarlal Jagawat has over 17 years of experience in the jewellery industry. Their industry experience has contributed significantly to our Company's growth.

Our ability to keep these Promoters on board cannot be guaranteed. Given their experience and critical role in our Company, finding suitable replacements for one or more of these Promoters, should the need arise, may be challenging and time-consuming. Our ability to grow, execute our strategy, build brand awareness, raise capital, make strategic decisions, and oversee the day-to-day operations of our business could be hampered by the loss of these Promoters or our inability to find suitable replacements. Further, there could be a materially negative effect on our operations, financial position, cash flows, and business.

**12. *We operate in a high-value commodity sector and there are certain security risks associated with the transit and delivery of gold jewellery, including potential loss or theft.***

The security of our gold jewellery, particularly during transit and delivery to customers, represents a significant risk to our business. As we operate in a high-value, precious commodity sector, the movement of our products is vulnerable to various security risks. This includes potential theft, loss, or damage during transportation, which could have an adverse impact on our financial performance, reputation, and customer trust.

Gold jewellery, due to its intrinsic value, is a high-risk item for theft, making it a potential target during transportation. Our products, which include valuable gold jewellery, are often transported in bulk to fulfil large orders from our customers. As these deliveries typically involve significant monetary value, the risk of theft, fraud, or loss during transit is inherently higher compared to other non-precious goods. Although we have not experienced any such instances during transit or deliveries, there can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition.

The transportation of gold jewellery is typically carried out through a third-party logistics service provider. The transit process can involve multiple stages, including storage, packaging, handling, and shipment. Each stage introduces a potential risk point where gold jewellery can be lost, stolen, or damaged due to theft, mishandling, or accidents. While there have been no such incidences of theft or loss in the past three Fiscals, there can be no assurance that we will not have any such incidences in future.

Further, while we have insurance coverage for transportation-related risks, there may be limitations on the value of gold jewellery covered under such policies. In the event of a loss, theft, or damage during transit, there is a possibility that our recovery through insurance may not fully compensate for the financial loss or cover the associated reputational damage. Additionally, the claims process can be time-consuming and may not fully restore the business to its previous position. For further details in relation to our insurance policies, see "*Our Business - Insurance*" on page 87.

**13. *Our Company requires significant amounts of working capital for continued growth and we intend to utilise ₹ 800.00 million from the total Net Proceeds towards funding our working capital requirements. Our inability to meet our working capital requirements, on commercially acceptable terms, may have an adverse impact on our business, financial condition and results of operations.***

Our business requires a substantial amount of working capital. The working capital is primarily required to finance the purchase of raw materials to keep optimum level of finished products and to support trade receivables. Further, in order to scale operations and support the growing demand for products, our Company recognizes the need to augment the working capital.

Our ability to meet our working capital requirements on commercially acceptable terms is critical to our business operations. We rely on external financing, primarily in the form of working capital lines of credit, to meet our short-term funding needs. Any significant tightening in the availability of credit or any deterioration in our creditworthiness may limit our ability to access adequate funding, which could result in delays in procurement, production, or order fulfilment. In turn, this could negatively affect our sales, market share, and

profitability. Additionally, any increase in the cost of financing could impact our overall cost structure and reduce our margins.

Adequate working capital is essential to maintaining healthy cash flow, enabling us to meet short-term obligations such as supplier payments, operational expenses, and labor costs. In the absence of sufficient working capital, we may face cash flow gaps that could affect our ability to make timely payments or meet production deadlines. Extended delays in working capital replenishment could lead to disruptions in our business operations, strained relationships with suppliers, or delays in fulfilling customer orders, all of which may adversely impact our revenue and profitability.

**14. *The nature of our business requires us to maintain sufficient inventories resulting into high inventory costs. If we are unable to maintain an optimal level of inventory, including due to changes in consumer demands, our business, results of operations and financial condition may be adversely affected.***

The success of our business depends upon our ability to anticipate and forecast customer demand and trends. Any error in our forecast could result in either surplus stock, which we may not be able to sell in a timely manner, or at all, or under stocking, which could affect our ability to meet customer demand. We are also subject to the risks associated with changes in market demand, shifting consumer preferences, and the ability to identify and adapt to consumer tastes. If we misjudge the demand for our products or fail to anticipate a shift in consumer preferences, we may be left with inventory that is difficult to sell, leading to a reduction in revenues. An optimal level of inventory is important to our business as it allows us to respond to customer demand effectively and to maintain range of jewellery designs. We plan our inventory and estimate our sales based on the forecast, demand and requirements for the forthcoming festivals and seasons.

Due to the nature of our business operations, we generally maintain a large inventory. Furthermore, as we plan to expand our product offerings, we expect to include a wider variety of products in our inventory, which will make it more challenging for us to manage our inventory and logistics effectively. We cannot guarantee that our inventory levels will be able to meet the demands of customers, which may adversely affect our sales. If we fail to manage our inventory effectively, we may be subject to a heightened risk of inventory obsolescence, a decline in inventory value, and significant inventory write-downs or write-offs. Failure to respond promptly to market trends may exacerbate this risk, as customer preferences could shift toward competitors' products. This could result in excess inventory, necessitating the sale of unsold stock at a loss or at lower prices, further impacting our business and financial condition.

Any of the above may materially and adversely affect our results of operations and financial condition. Further, a decline in demand for our product or a misjudgment on our part regarding the nature in demand could lead to an increased market acceptance of our competitors' products or may result in the substitution of our product in the market, which could lead to us having lower sales and excess inventory, which may necessitate us to sell this excess inventory at cost price / lower than cost price.

**15. *Our business and the demand for our product is reliant on the success of our customers' products with end consumers, and any decline in the demand for the end-products could have an adverse impact on our business, results of operations, cash flows and financial condition.***

Our customers, including Corporate Clients, further sell our products to end use customers. Any material downturn in any of our customers services, as a result of increased competition, seasonality of demand, our customers' failure to successfully market their products or to compete effectively, loss of market share, macro-economic conditions in the markets of key end-customers, regulatory action, litigation, pricing fluctuation or other factors may impact us. Any of these factors could have an adverse effect on the end-use customers and sales of our product could decline substantially which could adversely affect our profitability and result of operations.

**16. *Failure to protect our jewellery designs and susceptibility to intellectual property infringement litigation could adversely affect our reputation, results of operations, and financial condition.***

Our Company regularly updates its jewellery designs to meet evolving customer preferences and market trends. However, we do not register these designs under the Design Act, 2000, since we develop multiple designs per month on a regular basis and the constantly evolving nature of our designs, registering each design would be administratively unfeasible and may not provide the intended protection, given the nature of our product offerings. Further, since we do not operate under a single brand entity, the need for design registration, which typically offers exclusivity to a brand or specific product line, is not aligned with our business model. As a

result, it becomes difficult for us to enforce intellectual property rights over these designs, leaving us vulnerable to imitation or infringement by competitors. For details in relation to our intellectual properties, see “*Our Business – Intellectual properties*” on page 87. If any of our competitor replicates our designs, particularly those featured on our website or in our product offerings, it could lead to a loss of revenue, adversely affecting our financial condition and results of operations.

While we have a dedicated in-house design team focused on creating jewellery that aligns with market trends and customer preferences, our competitors may be able to produce similar or identical designs. This could lead to a situation where customers may choose to purchase imitated jewellery from our competitors instead of our original products. Additionally, if these designs are not sufficiently protected, we risk losing our competitive edge in the market, which could harm our customer base, revenues, and brand reputation.

Furthermore, there is a risk that some of the designs created by us could inadvertently infringe upon the intellectual property rights of third parties, leading to potential legal claims or litigation. Although we have not encountered any legal challenges related to the protection of our jewellery designs in the past, there is no assurance that we will not face such challenges in the future. In addition, the inability to protect our designs or defend against claims of infringement could undermine customer trust and harm our relationships with business partners, thereby affecting our overall growth prospects and long-term financial stability.

**17. *We may not be successful in penetrating new export markets due to cultural, economic, regulatory, or competitive factors.***

In the Fiscals 2026, 2025 and 2024, we exported our products outside India to USA, UAE, Singapore, Qatar. As part of our strategy for international growth, we intend to expand our presence in global market. Our Company has established a presence in the Gulf market through a wholly-owned subsidiary in the United Arab Emirates. The subsidiary, incorporated on May 13, 2026, is intended to strengthen our access to distribution channels and customers across the UAE and the broader Gulf region. While we intend to continue our focus on expanding our export sales, expansion into new export markets subjects us to various challenges, including those relating to our lack of familiarity with the culture and economic conditions of these new markets, language barriers, difficulties in staffing and managing such operations, and the lack of brand recognition and reputation in such regions. We believe establishing a presence in such international markets would facilitate our sales, marketing and business development activities and provide us with timely insights into the economic, product requirements and regulatory environment in such markets. The risks involved in entering new geographic markets and expanding operations, may be higher than expected, and we may face significant competition in such markets. In the eventuality we are unable to successfully expand into new geographical regions, our growth plans and future performance shall be adversely affected. By expanding into new geographical regions, we could be subject to additional risks associated with establishing and conducting operations, including compliance with a wide range of laws, regulations and practices; exposure to expropriation or other government actions; and political, economic and social instability.

**18. *We are subject to strict quality requirements, and sales of our products is dependent on our quality controls and standards, which has resulted in certain instances of our products being returned by our customers. Any failure to comply with quality standards may adversely affect our business prospects, cash flows and financial performance, including cancellation of existing and future orders.***

All our products and manufacturing processes are subject to stringent quality standards. As a result, any failure on our part to maintain applicable standards and manufacture products according to prescribed quality specifications, may lead to loss of reputation and goodwill, cancellation of the order, loss of customers, rejection of the product, which will require us to incur additional cost, that may not be borne by the customer, which could have an adverse impact on our business prospects and financial performance. Additionally, it could expose us to pecuniary liability and/ or litigation. Quality defects resulting from errors and omission may result in customers cancelling current or future orders resulting in damage to our reputation, loss of customers, which could adversely affect our business prospects and financial performance. While there have been certain instances of our products being returned by our customers in the past as the products did not align with the customer’s preferences, such instances did not have a material impact on our results of operations.

The quality of our products is critical to the success of our business, which, in turn, depends on a number of factors, including the implementation and application of our quality control policy and guidelines, and strength and experience of our quality control team. As of March 31, 2026, we had a team of 27 employees in our tagging and quality control team. Further, all our gold jewellery products are hallmarked by Bureau of Indian

Standards (“BIS”).

Any significant failure or deterioration of our quality control system could result in defective or substandard products, which, in turn, may result in delays in the delivery of our products and the need to replace defective or substandard products.

- 19. Any delay in payment of statutory dues by our Company in future, may result in the imposition of penalties and in turn may have an adverse effect on our Company’s business, financial condition, results of operation and cash flows.**

Our Company is required to pay certain statutory dues including provident fund contributions and employee state insurance contributions as indicated in the tables below. If we are unable to pay our statutory dues on time or in future, we could be subjected to penalties which could impact our financial condition and results of operations.

- 20. Our Manufacturing Facilities is dependent on adequate and uninterrupted supply of electricity. Any shortage or disruption in electricity or water supply may lead to disruption in operations, higher operating cost and consequent decline in our operating margins.**

We rely on an uninterrupted supply of electricity for our operations, the shortage or non-availability of which may adversely affect our operations. Owing to the energy-intensive nature of our manufacturing operations, any fluctuation in energy price could impact our results of operations. Any disruption in the supply of energy and utilities whether due to market conditions, legislative or regulatory actions, natural events, or other disruption, could prevent us from meeting our contractual commitments, harming our business and financial results. Further, any failure on our part to obtain alternate sources of electricity, fuel, in a timely manner, and at an acceptable cost, may cause a slowdown or interruption to our production process and have an adverse effect on our business, results of operations, cash flows and financial condition.

- 21. Our Promoters have significant control over the Company and have the ability to direct our business and affairs; their interests may conflict with your interests as a shareholder.**

Currently, our Promoters collectively hold 74.89% of the paid-up equity share capital of our Company. As a result, our Promoters will have the ability to exercise significant influence over all matters requiring shareholders’ approval. Accordingly, our Promoters will continue to retain significant control, including being able to control the composition of our Board of Directors, determine decisions requiring simple or special majority voting of shareholders, undertaking sale of all or substantially all of our assets, timing and distribution of dividends and termination of appointment of our officers, and our other shareholders may be unable to affect the outcome of such voting. There can be no assurance that our Promoters will exercise their rights as shareholders to the benefit and best interests of our Company. Further, such control could delay, defer or prevent a change in control of our Company, impede a merger, consolidation, takeover or other business combination involving our Company, or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of our Company even if it is in our Company’s best interest. The interests of our Promoters could conflict with the interests of our other shareholders, and our Promoters could make decisions that materially and adversely affect your investment in the Equity Shares.

- 22. Our Promoters, Directors, Key Managerial Personnel, Senior Management and our employees, especially the members of the design and marketing teams are critical to our continued success and we may be unable to attract and retain such personnel in the future.**

We depend on the management skills and guidance of our Promoters for development of business strategies, monitoring successful implementation and meeting future challenges. Further, our success depends substantially on the continued efforts of our Directors and our design and marketing teams. We believe our employees and personnel are one of our most important assets and critical to maintaining our competitive position in our industry, and the success of our operations depends on availability of workforce and maintaining good relationship with them. While we continue to take measures to retain skilled personnel, any further increase in attrition could disrupt our operations, impact productivity, and adversely affect our ability to meet customer expectations and business objectives.

Further, if one or more of our Promoters, Directors, Key Managerial Personnel, Senior Management or key employees are unable or unwilling to continue their services with us we might not be able to replace them easily, in a timely manner, or at all, and our business, financial condition and results of operations could be adversely affected. Our future performance will depend largely on our ability to retain the continued service of

our Promoters, Directors, Key Managerial Personnel, Senior Management and our workforce. If any of our Promoters, Directors, Key Managerial Personnel, Senior Management or other personnel terminates their services with us due to death, disability or any other reason, or if their reputation is adversely impacted by personal actions or omissions or other events within or outside their control, our business may be disrupted and we may incur additional expenses to recruit, train, and retain qualified personnel. In the event that we are not able to attract and retain talented employees as required for conducting our business, or if we experience high attrition levels which are largely out of our control, or if we are unable to motivate and retain existing employees, our business, financial condition and results of operations may be adversely affected. Further, shortage of skilled/ unskilled personnel or work stoppages caused by disagreements with work force could also have an adverse effect on our business, results of operations, cash flows and financial condition. While we have not experienced any major prolonged disruption in our business operations due to strikes, disputes or other problems of similar nature with our work force in the three preceding Fiscals, there can be no assurance that we will not experience any such disruption in the future.

**23. *Disruptions of transportation network and transportation infrastructure may have an adverse effect on our business and results of operations.***

Our success depends on our ability to supply our products to our customers on time. We utilize the services of logistics service providers to transport our products across India and exports via air shipments. We depend on the transportation and logistics networks, and the connectivity and conditions of the road, air and general transportation infrastructure in India and outside India. Delays in supply and transportation of our products to our customers due to inadequacies of the transportation infrastructure in India, disruptions in road or air transportation networks due to weather related events, labour strikes, wars or otherwise, could impact our operations. While these instances did not have a significant impact on our operations, there is no assurance that such delays will not occur in the future. Further, while our transit insurance covers risk of damage and thefts, it does not cover delays in raw material supply, or transportation of our products to our trade partners and any claims brought against us by trade partners or consumers, which could require us to expend significant resources to defend such claims. This in turn could have a material impact on our financial condition.

While the Government of India has announced and implemented several initiatives such as National Infrastructure Pipeline, Gati Shakti Scheme and National Logistics Policy to improve the transportation infrastructure in the country, improvement in such infrastructure may involve major capital expenditure and policy and administrative focus. We cannot assure you that the road and general transportation infrastructure will improve to a level or be maintained at such level that would result in improvement in our business or that the planned improvements to such infrastructure will be completed in a timely manner, or at all. Any disruption of or failure of the transportation network in and outside India, could have an adverse impact on our supplies and production schedule as well as delivery of products to our trade partners, and consumers, and in turn have an adverse impact on our business, financial condition and results of operations.

**24. *Information relating to the installed and actual manufacturing capacity of our Andheri and Marol Manufacturing Facility and proposed installation capacity of our Proposed Jaipur Facility included in this Draft Letter of Offer are based on various assumptions and estimates. These assumptions and estimates may prove to be inaccurate and our future production and capacity may vary.***

Information relating to the installed and actual manufacturing capacity of our Andheri and Marol Manufacturing Facilities and proposed installation capacity of our Proposed Jaipur Facility included in this Draft Letter of Offer are based on various assumptions and estimates of our management including expected operations, availability of raw materials, expected unit utilization levels, downtime resulting from scheduled maintenance activities, downtime resulting from change in stock keeping units for a particular product, unscheduled breakdowns, as well as expected operational efficiencies. Assumptions and estimates taken into account for measuring installed and actual capacities include expected operations, availability of raw materials, expected unit utilization levels, downtime resulting from scheduled maintenance activities, downtime resulting from change in stock keeping units for a particular product, unscheduled breakdowns, as well as expected operational efficiencies working days in a year, at 1 shift for 10 hours. Further, the installed capacity and actual capacity utilisation and other related information may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to capacity information that may be computed and presented by other comparable companies in the industry in which we operate.

**25. *Our Andheri Manufacturing Facility, which also serves as our Registered and Corporate Office, from where we operate, the Marol Manufacturing Facility, Proposed Jaipur Facility, as well as the branch offices of our Company are located on land not owned by us and have been leased to us by third parties. In the event we***

***lose or are unable to renew such leasehold rights, our business, financial condition, cash flows and results of operations may be adversely affected.***

Our Andheri Manufacturing Facility, which also serves as our Registered and Corporate Office, is located at Plot No A-51, 2<sup>nd</sup> Floor to 7<sup>th</sup> Floor, MIDC, Marol Industrial Area, Road No.-1, Near Tunga International Hotel, Andheri (E), Chakala MIDC, Mumbai, Maharashtra, India- 400093 and is held by us on a leasehold basis. Our Marol Manufacturing Facility is located at Ground to 3rd floor, Plot no. 1, Compartment no. 5, Concast House, Marol Co-operative Industrial Estate, VasANJI Road, Andheri East, Mumbai 400059. Further, our Proposed Jaipur Facility which will be situated at Plot No. DTA-02-14 and DTA-02-15, Khasra No. 1181, 1189 and 1192, Village Newata, DTA Phase II, Tehsil Sanganer, Off Jaipur- Ajmer Road, NH 08, Jaipur, Rajasthan, India as well as the branch offices of our Company are held by us on a leasehold basis. For further details in relation to our properties see "*Our Business -Properties*" on page 87.

In the event that we are required to vacate our current premises, we would be required to make alternative arrangements for our office and facilities, and we cannot assure that the new arrangements will be on commercially acceptable terms. If we are required to relocate our business operations during this period, we may suffer a disruption in our operations or have to pay increased charges. While we have not faced any such incidents in the past, any such incident in future could have an adverse effect on our business, prospects, results of operations and financial condition. If we are unable to renew the lease or the license or relocate on commercially suitable terms, it may have a material adverse effect on our business, cash flows, results of operation and financial condition. Further, our lease agreements may not be adequately stamped or registered, and we may not be able to enforce them in a court of law in case there is any dispute with a counter-party. While we have not faced such disputes in the past, any such incident in future could have an adverse effect on us and we may not be able to utilize the underlying property which may have an adverse effect on our business, prospects, results of operations and financial condition.

***26. There have been instances of delays in compliance with the corporate governance requirements within the prescribed timelines provided in the Companies Act by us, and we have filed suo moto compounding applications with the RoC for these non-compliances.***

Our Company has, on its own initiative, filed four compounding applications with the RoC on December 31, 2024, seeking compounding of certain non-compliances under the Companies Act. These non-compliances pertain to delays in the appointment of Independent Directors, a Woman Director, and the composition of the Audit and Nomination and Remuneration Committees, all of which were not complied with within the prescribed timelines under the relevant sections of the Companies Act.

While, as on the date, Our Company is in compliance with the corporate governance norms prescribed under the SEBI Listing Regulations and the Companies Act, 2013, in relation to the composition of our Board and constitution of committees thereof and the Company has prayed for the condonation or compounding of these offences under Section 441 of the Companies Act, these matters are currently pending before the RoC. The outcome of these applications remain uncertain, and the RoC may impose penalties or take other corrective actions pursuant to Section 454 of the Companies Act.

There can be no assurance that the RoC will accept the compounding applications or that the penalties, if imposed, will be minimal. Any adverse decision could impact the Company's reputation, financial position, and compliance standing, which may, in turn, affect investor confidence and the Company's business operations.

***27. We may not be able to successfully manage the growth of our business if we are not able to effectively implement our strategies.***

We cannot assure you that our growth strategies will be successful or gain market acceptance. Our ability to achieve our growth strategies will be subject to a range of factors, including our ability to identify market opportunities and demands in the industry, making accurate assessment of the resources we require, acquiring new customers and increasing contribution from existing customers, procuring raw materials at sustainable costs, recruiting and retaining skilled personnel, maintaining customer satisfaction, and improving operational efficiencies. Accordingly, our revenue from operations may be impacted by various reasons, including increasing competition, challenging macro-economic environment and we may not always be able to maintain profitability in future. If, for any reason, the benefits we realize from our expansion plans and growth strategies are less than our estimates, our business, results of operations, cash flows and financial condition may be adversely affected. For further information, see "*Our Business – Our Strategies*" on page 84.

Promoters and Directors will be settled in their favor, or that no additional liability will arise out of these proceedings. Further, such proceedings could divert management time and attention and consume financial resources in their defense or prosecution. Further, an adverse outcome in these proceedings may affect our reputation, standing and future business, and could adversely affect our reputation, business, results of operations, cash flows and financial conditions.

**29. We have certain contingent liabilities, which if they materialize, may adversely affect our financial condition.**

Our contingent liabilities for the last three fiscal years are as follows:

(₹ in million)

Particulars	For the period ended March 31, 2026	For the period ended March 31, 2025	For the period ended March 31, 2024
VAT in dispute	0.60	0.60	0.60

Guarantees	1.68	101.68	101.68

There can be no assurance that we will not incur similar or increased levels of contingent liabilities in the future and if a significant portion of these liabilities materialise, it could have an adverse effect on our business, financial condition and results of operations.

**30. We are subject to environmental, health and safety laws, regulations and quality standards. Non-compliance with and adverse changes in health, safety, labour, and environmental laws and other similar regulations to our manufacturing operations may adversely affect our business, results of operations, cash flows and financial condition.**

We are subject to a wide range of laws and government regulations, including in relation to health and safety laws, labour, and environmental protection. These safety, health, labour, and environmental protection laws and regulations, *inter alia*, impose controls on discharge of environment pollutants.

In case of any change in environmental or pollution regulations, we may be required to invest in, among other things, environmental monitoring, pollution control equipment, and emissions management and other expenditure to comply with environmental standards. Any failure on our part to comply with any existing or future regulations applicable to us may result in legal proceedings, including public interest litigation being commenced against us, third party claims or the levy of regulatory fines.

While there have been no adverse actions against us which resulted in suspension of operations in relation to such violation, any violation of such laws in future may result in fines, criminal sanctions, revocation of operating permits, or shutdown of our Manufacturing Facilities or suspension of our operations. The occurrence of any of these events could have an adverse effect on our business, results of operations, cash flows and financial condition.

We are also subject to the laws and regulations governing employees in our Manufacturing Facilities such as minimum wage and maximum working hours, overtime, working conditions, hiring and termination of employees, and work permits. There is a risk that we may fail to comply with such regulations, which could lead to enforced shutdowns and other sanctions imposed by the relevant authorities. We cannot assure you that we will not be involved in future litigation or other proceedings, or be held liable in any litigation or proceedings including in relation to safety, health and environmental matters, the costs of which may be significant.

**31. Any failure to obtain, renew and maintain requisite statutory and regulatory permits, licenses and approvals for our operations from time to time may adversely affect our business.**

In terms of applicable laws, we require various statutory and regulatory permits, licenses, registrations, certifications, consents and approvals to carry out our business and operations. A majority of these Approvals are granted for a limited duration and must be periodically renewed. We cannot assure you that such Approvals will be issued or granted to us in a timely manner, or at all. If we do not receive these Approvals or if we are

unable to renew the Approvals in a timely manner, or at all, then our business and operations may be adversely affected. Except for the failure on our part to obtain consent to establish from Maharashtra Pollution Control Board for our Andheri Manufacturing Facility, there have been no instances of failure to obtain or renew Approvals in the past, or any action taken by any regulatory authority for breach of terms of any Approval. Moreover, the Approvals are subject to numerous conditions and there can be no assurance that these Approvals will not be suspended or revoked in the event of non-compliance or alleged non-compliance with any terms or conditions thereof, or pursuant to any regulatory action. Suspension or revocation of the Approvals by the relevant regulatory authority, either on account of non-compliance or otherwise, could impair our Company's operations and, consequently, have an adverse effect on our business, cash flows and financial condition. Our Company may also be liable to monetary penalties and concerned officers in default may be subject to imprisonment.

Uncertainty in the applicability, interpretation or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future. Further, if we are affected, directly or indirectly, by the application or interpretation of any provision of such laws and regulations or any related proceedings, or are required to bear any costs in order to comply with such provisions or to defend such proceedings, our business and financial performance may be adversely affected.

**32. *Our Company operates in a business environment where orders are fulfilled based on customer and seasonal demand.***

Our Company operates in a business environment where orders are generally received based on customer and seasonal demand. As our Company does not maintain a formal order book, our revenue generation is dependent on ongoing customer demand, which may fluctuate and be influenced by external market conditions. In the absence of a guaranteed or long-term order pipeline, there is a risk of lower-than-expected order inflows or delays in customer purchases, which could impact our Company's ability to fulfill production and sales targets.

**33. *We operate in a labour-intensive industry and are subject to stringent labor laws and any strike, work stoppage or increased wage demand by our employees or any other kind of disputes with our employees could adversely affect our business, financial condition, results of operations and cash flows.***

Our manufacturing processes are labour intensive in nature, which makes us prone to labour shortage due to reasons such as labour availability, pandemics etc., which may affect our ability to manufacture and deliver our products on time. Further, if we are unable to negotiate with the labour, it could result in work stoppages or increased operating costs due to higher than anticipated wages or benefits. During periods of shortages in labour, we may not be able to deliver or manufacture our products according to our previously determined time frames, at our previously estimated product costs, or at all, which may adversely affect our business, results of operations, cash flows and reputation.

There can be no assurance that we will not experience any disruptions in our operations due to any disputes with our employees, strike or work stoppage in the future. While we have not faced any such instance in the last three Fiscals, however, occurrence of such instances in the future could have an adverse effect on our business, financial condition, cash flows and results of operations.

We are also subject to a number of stringent labour laws that protect the interests of workers, including legislation that sets forth detailed procedures for dispute resolution and employee removal and legislation that imposes financial obligations on employers upon retrenchment. If labour laws become more stringent, it may become more difficult for us to maintain flexible human resource policies, discharge employees or downsize, any of which could have a material adverse effect on our business, financial condition, results of operations, cash flows and prospects.

In addition, we have entered into contracts with independent contractors under the Contract Labour (Regulation and Abolition) Act, 1970, for engaging contract labour for performance of certain of our ancillary operations in India. Although our Company does not engage these laborers directly, we may be held responsible for any wage payments to be made to such laborers in the event of default by such independent contractors. While we have not faced any such instances in last three Fiscals, any requirement to fund their wage requirements in the future may have an adverse impact on our results of operations and financial condition. If we are unable to renew the contracts with our independent contractors at commercially viable terms or at all, our business, financial condition, results of operations and cash flows could be materially and adversely affected.

**34. *Our Company has availed unsecured borrowing which is repayable on demand.***

As of March 31, 2026, our Company had outstanding unsecured borrowings that amounted to ₹ 16.84 million. Since these loans are unsecured, it does not require any collateral, and is repayable on demand. Any unforeseen demand for immediate repayment could adversely affect our Company's liquidity, cash flow, and financial stability. A significant disruption in our ability to manage or refinance these liabilities may also impact our operations and overall financial health.

**35. *Our Company may face adverse financial impact due to non-provision for potential decline in the value of investments.***

Our Company may hold certain investments in marketable securities, equity shares, bonds, or other financial instruments as part of its treasury operations or for strategic purposes. These investments are subject to market fluctuations and changes in value based on prevailing economic conditions, industry trends, or specific performance factors related to the companies or instruments in which we invest.

As of the date of this Draft Letter of Offer, our Company has not made any provision for the potential decline in the value of certain investments, which could be subject to impairment or fair value adjustments. While the Company assesses the performance of its investments regularly, there is no guarantee that these investments will maintain their current carrying value. If the value of these investments declines significantly, our Company may be required to recognize an impairment loss, which could adversely affect our financial performance and position. While we have not faced any such instance during the last three Fiscals, we cannot assure you that such instances will not happen in the future.

In the event of a significant and sustained decline in the value of investments, our financial results may be negatively impacted, and we may face challenges in meeting financial obligations or achieving anticipated returns. Additionally, any unforeseen deterioration in investment value could affect the overall investor perception of our Company and its future growth prospects.

**36. *Our Promoters have provided personal guarantees in connection with our borrowings. Our business, financial condition, results of operations and prospects may be adversely affected by the revocation of all or any of the guarantees provided by them in connection with our borrowings.***

Our Promoters, Pankajkumar H. Jagawat and Manojkumar N. Jain, have provided personal guarantees for our borrowings. If any of these guarantees are revoked, our lenders may require alternative guarantees or cancel such loans or facilities, entailing repayment of amounts outstanding under such facilities. If we are unable to procure alternative guarantees satisfactory to our lenders, we may need to seek alternative sources of capital, which may not be available to us at commercially reasonable terms or at all, or to agree to more onerous terms under our financing agreements, which may limit our operational flexibility. Accordingly, our business, financial condition, results of operations and prospects may be adversely affected by the revocation of all or any of the guarantees provided by our Promoters, in connection with our borrowings.

**37. *Any variation in the utilization of the Net Proceeds would be subject to certain compliance requirements, including prior shareholders' approval.***

We propose to utilize the Net Proceeds for the purposes described in “*Objects of the Issue*” on page 71. At this stage, we cannot determine with any certainty if we would require the Net Proceeds to meet any other expenditure or fund any exigencies arising out of competitive environment, business conditions, economic conditions or other factors beyond our control. In accordance with the applicable rules, and the SEBI ICDR Regulations, we cannot undertake any variation in the utilization of the Net Proceeds without obtaining the shareholders' approval through a special resolution. In the event of any such circumstances that require us to undertake variation in the disclosed utilization of the Net Proceeds, we may not be able to obtain the shareholders' approval in a timely manner, or at all. Any delay or inability in obtaining such shareholders' approval may adversely affect our business or operations.

We may not be able to undertake variation of objects of the Issue to use any unutilized proceeds of the Issue, if any, or vary the terms of any contract referred to in this Draft Letter of Offer. This may restrict our Company's ability to respond to any change in our business or financial condition by re-deploying the unutilized portion of Net Proceeds, if any, or varying the terms of contract, which may adversely affect our business and results of

operations.

**38. *Failure to maintain confidential information of our customers could adversely affect our results of operations or damage our reputation.***

As part of our business operations, we are entrusted to keep confidential certain details of our customers. While we do not have formal confidentiality agreements with our customers, there remains an ethical obligation to safeguard their confidential information. In the event of any breach or alleged breach of our confidentiality obligations, these customers may initiate litigation against us. Moreover, if our customers' confidential information is misappropriated by us or our employees, our customers may seek damages and compensation from us. Assertions of misappropriation of confidential information or the intellectual property of our customers against us, if successful, could have a material adverse effect on our business, financial condition and results of operations. Even if such assertions against us are unsuccessful, they may cause us to incur reputational harm and substantial cost. While there have been no instances of assertions of misappropriation of confidential information or intellectual property of our customers against us in the last three Fiscals, we cannot assure you that any such assertions may not be made against us going forward which may cause us to incur reputational harm.

**39. *Inability to obtain or protect our intellectual property rights may adversely affect our business.***

We rely on protections available under Indian law, which may not be adequate to prevent unauthorized use of our intellectual property by third parties. Furthermore, the application of laws governing intellectual property rights in India is uncertain and evolving, and could involve substantial risks to us. Notwithstanding the precautions we take to protect our intellectual property rights, it is possible that third parties may infringe on our rights, which may have an adverse effect on our business, results of operations and financial condition. Our inability to obtain or maintain our trademarks in our business, could adversely affect our reputation, goodwill, business prospects, and results of operations.

**40. *We operate in a competitive business environment. Competition from existing players and new entrants and consequent pricing pressures and our inability to compete effectively could have a material adverse effect on our operating margins, business growth and prospects, financial condition and results of operations and may lead to a lower market share.***

We operate in a competitive business environment, where competition from both existing players and new entrants may exert significant pressure on our pricing, market positioning, and margins. This competition could adversely affect our operating margins, business growth, financial condition, and results of operations, potentially leading to a loss of market share. To remain competitive in the market we must meet exacting quality standards, continuously strive to enhance our manufacturing capabilities and improve our operating efficiencies. We cannot assure you that we will continue to effectively compete with existing players and, or new entrants in the industry in the future, and failure to compete effectively may have an adverse effect on our business, financial condition, and results of operations. Moreover, the competitive nature of the industry that we operate in may result in lower prices for our product and decreased profit margins, which may materially adversely affect our revenue and profitability.

**41. *We enter into related party transactions in the ordinary course of our business and we cannot assure you that such transactions will not have an adverse effect on our results of operation and financial condition.***

We have entered into transactions with related parties, including our Promoters, members of our Promoter Group, our Directors, our key managerial personnel ("KMP"), their relatives, and entities over which our KMP are able to exercise control or significant influence. We have entered into such transactions in the past and, from time to time, we may continue to enter into related party transactions in the future. These transactions principally include, and are in the nature of, remuneration paid to our Directors and KMP, salaries paid to relatives of our Promoters and KMP, sitting fees paid to our Directors, and unsecured loans taken from and repaid to our Promoters and Promoter Group entities. While our restated financial statements record purchase and sale of goods and services with certain Promoter Group entities permitted related party transactions, the value of such purchases and sales of goods and services during Fiscal 2026 and Fiscal 2025 was nil.

The aggregate value of our related party transactions was ₹ 49.94 million in Fiscal 2026 (0.25% of our revenue from operations) and ₹ 66.34 million in Fiscal 2025 (0.60% of our revenue from operations). All of the above related party transactions have been entered into on an arm's length basis and in the ordinary course of business, no preferential treatment has been given to any related party, and the transactions have been approved by the relevant authorities in accordance with the provisions of the Companies Act, 2013 and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as applicable.

Notwithstanding the above, we cannot assure you that we could not have achieved more favourable terms had such transactions been entered into with unrelated parties, or that we will be able to maintain existing terms, or in the case of any new transactions with related parties, that such transactions will be on terms favourable to us, or that we will be able to continue such transactions in the future. It is likely that we will continue to enter into related party transactions, including with respect to remuneration and borrowings, in the ordinary course of our business.

Such related party transactions may give rise to potential conflicts of interest with respect to dealings between us and the related parties. There can be no assurance that such transactions, individually or in the aggregate, will always be in the interest of our minority shareholders, or that they would have been entered into on the same terms with an unrelated third party, or that they will not have an adverse effect on our business, results of operations, financial condition, cash flows and reputation. Furthermore, our future related party transactions may be subject to heightened scrutiny by regulatory authorities and our shareholders, and any failure to identify, disclose, approve or report such transactions in accordance with applicable law could expose us to regulatory action, penalties, additional compliance costs and reputational harm, each of which could adversely affect our business and the price of our Equity Shares.

**42. *An inability to maintain adequate insurance cover in connection with our business may adversely affect our operations and profitability.***

We have obtained a number of insurance policies in connection with our operations including burglary risk insurance policy, insurance for motor car, jeweller's block policy inter alia covering in-transit risks, and insurance policy for buildings, furniture, fittings and fixtures covering risks against fire, earthquake and terrorism. For further information, see "Our Business – Insurance" on page 87.

While we believe that the insurance coverage which we maintain would be reasonably adequate to cover the normal risks associated with the operation of our business, we cannot assure you that any claim under the insurance policies maintained by us will be honoured fully, in part or on time, or that we have taken out sufficient insurance to cover all our losses. Further, while we have insurance coverage for transportation-related risks, there may be limitations on the value of gold jewellery covered under such policies. In the event of a loss, theft, or damage during transit, there is a possibility that our recovery through insurance may not fully compensate for the financial loss or cover the associated reputational damage. Additionally, the claims process can be time-consuming and may not fully restore the business to its previous position.

While in the last three Fiscals, there has not been any instance of any claim exceeding the insurance cover, our insurance policies may not provide adequate coverage in certain circumstances and are subject to certain deductibles, exclusions and limits on coverage. In addition, our insurance coverage expires from time to time. We apply for the renewal of our insurance coverage in the normal course of our business, but we cannot assure you that such renewals will be granted in a timely manner, at acceptable cost or at all. Further, we do not maintain product liability insurance for our products since our products are hallmarked, which significantly reduces the risk of our products being defective. Furthermore, we have not received any complaints regarding defective products to date, and as a result, we have not incurred any monetary loss in this regard. However, a product liability claim arising from quality concerns or any other reason, in the future, may adversely affect our brand image and lead to a loss of confidence of customers in our products, which may have an adverse effect

on our reputation, business, results of operations, financial condition and cash flows. To the extent that we suffer loss or damage for which we did not obtain or maintain insurance, and which is not covered by insurance or exceeds our insurance coverage or where our insurance claims are rejected, the loss would have to be borne by us and our results of operations, cash flows and financial condition may be adversely affected.

43. ***Our Promoters, Promoter Group, Directors, Group Companies, Key Managerial Personnel, Senior Management of our Company may enter into ventures that may lead to real or potential conflicts of interest with our business. Further, our Promoters and Directors have interests in our Company other than reimbursement of expenses incurred or normal remuneration or benefits. Any real or potential conflicts of interest that may arise in this regard may materially adversely impact our business, financial condition, results of operations and cash flows.***

Our Promoters and Directors may be deemed to be interested in our Company, in addition to the regular remuneration or benefits arising from their directorship in our Company. Our Promoters, Directors, Key Managerial Personnel and Senior Management may also be interested to the extent of any transaction entered into by our Company with any other company or firm in which they are directors or partners. Our Promoters and Directors may also be interested to the extent of Equity Shares and to the extent of any dividend payable to them, if any, held by them or held by the entities in which they are associated as promoters, directors, partners, proprietors, karta or trustees or held by their relatives or that may be subscribed by or allotted to the companies, firms, ventures, trusts in which they are interested as promoters, directors, partners, proprietors, members or trustees, pursuant to the Issue.

Further, conflict of interest may occur between our business and the business of such ventures in which our Promoters, Directors, Key Managerial Personnel our Company are involved with, which could have an adverse effect on our operations. Our Group Companies, namely, Utssav CZ Gold Jewels Limited and Uzuri Jewels Private Limited are enabled under their memorandum of association to carry on similar activities as those of our Company. Further, while Uzuri Jewels Private Limited and Utssav CZ Gold Jewels Limited have entered into separate non-compete agreements dated January 06, 2025 and January 06, 2025, respectively, with our Company, to ensure that the designs and products of Uzuri Jewels Private Limited and Utssav CZ Gold Jewels Limited do not compete with those of our Company, we cannot assure you that these Group Companies will always fully comply with these non-compete obligations. Further, any termination or variation of terms of these non-compete agreements could result in a conflict of interest, which could have a material adverse effect on our revenue from sales, results of operations and financial condition.

Our Promoters, members of the Promoter Group, Group Companies, Directors, Key Managerial Personnel and Senior Management may compete with us and have no obligation to direct any opportunities to us. We cannot assure you that these or other conflicts of interest will be resolved in an impartial manner. We cannot assure you that there will not be any conflict of interest between our Company, Promoters, members of the Promoter Group or Group Companies. There can be no assurance that such entities will not compete with our existing business or any future business that we might undertake or that we will be able to suitably resolve such a conflict without an adverse effect on our business and financial performance.

Interests of Promoters, Promoter Group, Group Companies, Directors, Key Managerial Personnel and Senior Management may conflict with the interests of our Company, and they may, for business considerations or otherwise, cause us to take certain actions, or refrain from taking certain actions, which in turn may materially adversely impact our business, financial condition, results of operations and cash flows.

44. ***Our Company has not paid dividends during the last three Fiscals. There can be no assurance that our Company will be in a position to pay dividends in the future. Our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.***

Our Company has not paid dividends on its Equity Shares for Fiscal 2026, 2025 and 2024. Our ability to pay dividends in the future will depend on our earnings, financial condition, cash flow, cash requirements, capital expenditure, business prospects and restrictive covenants of our financing arrangements. Therefore, our Company cannot assure you that it will be able to declare dividends, of any particular amount or with any frequency in the future.

45. ***We have in this Draft Letter of Offer included certain non-GAAP financial measures and certain other industry measures related to our operations and financial performance. These non-GAAP measures and industry measures may vary from any standard methodology that is applicable across the Indian jewellery industry, and therefore may not be comparable with financial or industry related statistical information of***

*similar nomenclature computed and presented by other companies.*

Certain non-GAAP financial measures, viz., Net Asset Value per Equity Share, Net Profit After Tax, Net Profit Margin, Debt to Equity Ratio and certain other industry measures relating to our operations and financial performance have been included in this Draft Letter of Offer. We compute and disclose such non-GAAP financial measures and such other industry related statistical information relating to our operations and financial performance as we consider such information to be useful measures of our business and financial performance, and because such measures are frequently used by securities analysts, investors and others to evaluate the operational performance of companies in the Indian jewellery industry, many of which provide such non-GAAP financial measures and other industry related statistical and operational information. Such supplemental financial and operational information is therefore of limited utility as an analytical tool, and investors are cautioned against considering such information either in isolation or as a substitute for an analysis of our audited financial statements as reported under applicable accounting standards disclosed elsewhere in this Draft Letter of Offer.

These non-GAAP financial measures and such other industry related statistical and other information relating to our operations and financial performance may not be computed on the basis of any standard methodology that is applicable across the industry and therefore may not be comparable to financial measures and industry related statistical information of similar nomenclature that may be computed and presented by other companies.

- 46. *Our Company has issued bonus shares on November 18, 2024 in the proportion of 5:1, i.e., 5 Equity Shares each for every 1 Equity Share each held by existing equity Shareholders of the Company. There can be no assurance that our Company will be in a position to declare bonus in the future. Our ability to declare and issue bonus in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.***

On November 18, 2024, our Company had issued bonus shares in the ratio of 5 Equity Shares for every one Equity Share held by the Shareholders, utilizing its reserves, including accumulated retained earnings. While this issue was in accordance with applicable laws and did not adversely impact the financial position of our Company, the ability to declare and issue bonuses in the future will depend on the availability of sufficient reserves, our Company's profitability, and compliance with applicable regulations at the time. There is no guarantee that our Company will be able to issue bonus shares in the future, as it will require the availability of adequate reserves and may be subject to legal requirements, and corporate approvals. Any future bonus issues could also impact our Company's financial flexibility and its ability to distribute profits in other forms.

- 47. *Negative publicity against us, our Promoters, Promoter group, our suppliers, our customers or any of our or their affiliates could cause us reputational harm and could have a material adverse effect on our business, financial condition, results of operations and prospects.***

From time to time, we, our Promoters, Promoter Group, our suppliers, our customers or any of our or their affiliates may be subject to negative publicity in relation to our or their business or staff, including publicity covering issues such as anti-corruption, safety and environmental protection. While we have not faced any such instances of negative publicity which had a material adverse effect on us in the past, such negative publicity in future, however, even if later proven to be false or misleading, and even where the entities or individuals implicated are members or employees of our suppliers, customers or our or their affiliates and not of us, could lead to a temporary or prolonged negative perception against us by virtue of our affiliation with such individuals, suppliers, customers or affiliates. Our reputation in the marketplace is important to our ability to generate and retain business. In particular, damage to our reputation could be difficult and time-consuming to repair, and our business, financial condition, results of operations and prospects may be materially and adversely affected.

- 48. *We incur significant employee benefits expense. An increase in employee costs, including on account of changes in regulations, may prevent us from maintaining our competitive advantage and may reduce our profitability.***

We incur various employee benefits expense, including salaries and bonus (including directors' remuneration), contribution to provident and other funds and staff welfare expenses. Salaries and wages may increase in the future due to various factors, including ordinary course pay increases, a raise in minimum wage levels, enhancement in social security measures, competition for talent or through changes in regulations in the jurisdictions in which we operate. For instance, such an increase may arise in India on the implementation by the Government of India of its labour codes, namely (i) the Code on Wages, 2019; (ii) the Code on Social

Security, 2020; (iii) the Occupational Safety, Health and Working Conditions Code, 2020; and (iv) the Industrial Relations Code, 2020. Our profit margins may be adversely impacted if we are unable to pass on such increases in expenses to our customers.

Unless we can maintain appropriate resource utilization levels, continue to increase the efficiency and productivity of our employees, the increase in employee benefits expense in the long term may reduce our profit margins, which in turn may adversely affect our results of operations and financial condition.

**49. *If we are unable to establish and maintain an effective internal controls and compliance system, our business and reputation could be adversely affected.***

We are responsible for establishing and maintaining adequate internal measures commensurate with the size and complexity of operations. Our Company has a dedicated quality control and inventory and operations teams that is responsible for maintaining our required quality standards and inventory. We have put in place quality control processes that require us to ensure hallmarking of our products, technical inspections of jewellery and checks for scratches, imperfections or damage of pieces for ensuring consistent quality of our products. There have been no past material instances of failure to maintain effective internal controls and compliance system. However, we are exposed to operational risks arising from the potential inadequacy or failure of internal processes or systems, and our actions may not be sufficient to ensure effective internal checks and balances in all circumstances.

Maintaining such internal controls requires human diligence and compliance and is therefore subject to lapses in judgment and failures that result from human error. Any lapses in judgment or failures that result from human error can affect the accuracy of our financial reporting, resulting in a loss of investor confidence and a decline in the price of our equity shares. Our management information systems and internal control procedures that are designed to monitor our operations and overall compliance may not identify every instance of non-compliance. Our operations may be subject to incidents of theft or damage to inventory in transit, prior to or during stocking or delivery. There can be no assurance that we will not experience any fraud, theft, employee negligence, security lapse, loss in transit or similar incidents in the future, which could adversely affect our results of operations and financial condition.

Further, if we are not in compliance with applicable anti-corruption laws, we may be subject to criminal and civil penalties, disgorgement and other sanctions and remedial measures, and legal expenses, which could have an adverse impact on our business, financial condition, results of operations and liquidity. Likewise, any investigation of any potential violations of anti-corruption laws by the relevant authorities could also have an adverse impact on our business and reputation. As we continue to grow, there can be no assurance that there will be no instances of non-compliance with statutory requirements, which may subject us to regulatory action, including monetary penalties, which may adversely affect our business and reputation.

**50. *As the Equity Shares of our Company are listed on BSE & NSE, our Company is subject to certain obligations and reporting requirements under SEBI Listing Regulations. Any non-compliance/delay in complying with such obligations and reporting requirements may render us/our promoter liable to prosecution and/or penalties.***

Our Company is subject to the obligations and reporting requirements under SEBI Listing Regulations. In the past, our Company had complied with all the provisions of the SEBI Listing Regulations. Further our Company did not receive any communication regarding non-compliance from the Stock Exchange or any authority.

**51. *Significant differences exist between Ind AS and other accounting principles, such as US GAAP and International Financial Reporting Standards (“IFRS”), which may affect investor’s assessment of our financial condition.***

Ind-AS differs from accounting principles with which prospective investors may be familiar in other countries, such as U.S. GAAP and IFRS. Significant differences exist between Ind-AS, U.S. GAAP and IFRS, which may be material to the financial statements prepared and presented in accordance with Ind-AS contained in this Draft Letter of Offer. Accordingly, the degree to which the financial information included in this Draft Letter of Offer will provide meaningful information is dependent on the prospective investor’s familiarity with Ind-AS and the Companies Act. Any reliance by persons not familiar with Ind-AS on the financial disclosures presented in this Draft Letter of Offer should accordingly be limited. In addition, some of our competitors may not present their financial statements in accordance with Ind AS and their financial statements may not be directly

comparable to ours, and therefore reliance should accordingly be limited.

### ***External Risk Factors***

52. ***The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.***

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease, and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighboring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years, and it is possible that future civil unrest as well as other adverse social, economic, or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

53. ***Political, economic, or other factors that are beyond our control may have an adverse effect on our business, cash flows and results of operations.***

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent largely on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our product may be adversely affected by an economic downturn in domestic, regional and global economies. Our results of operations are significantly affected by factors influencing the Indian economy. Economic growth in India is affected by various factors including:

- domestic consumption and savings, and prevailing income conditions among consumers and corporations in India;
- any increase in Indian interest rates or inflation;
- political instability, terrorism, or military conflict in India or in countries in the region or globally, including in India's various neighboring countries;
- any scarcity of credit or other financing in India, resulting in an adverse impact on economic conditions in India and scarcity of financing for our expansions;
- volatility in, and actual or perceived trends in trading activity on India's principal stock exchanges;
- changes in India's tax, trade, fiscal or monetary policies;
- balance of trade movements, namely export demand and movements in key imports (oil and oil products);
- any downgrading of India's debt rating by a domestic or international rating agency;
- financial instability in financial markets;
- global economic uncertainty and liquidity crisis and volatility in exchange currency rates; and
- other significant regulatory or economic developments in or affecting India or its jewellery industry.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations, financial condition and cash flows. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

**54. *We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could in turn adversely affect our business and cash flows.***

The Competition Act was enacted for the purpose of preventing practices that have or are likely to have an adverse effect on competition in India and has mandated the Competition Commission of India to regulate such practices. Under the Competition Act, any arrangement, understanding or action, whether formal or informal, which causes or is likely to cause an appreciable adverse effect on competition is void and attracts substantial penalties.

Further, any agreement among competitors which, directly or indirectly, involves determination of purchase or sale prices, limits or controls production, or shares the market by way of geographical area or number of subscribers in the relevant market is presumed to have an appreciable adverse effect in the relevant market in India and shall be void. The Competition Act also prohibits abuse of a dominant position by any enterprise. On March 4, 2011, the Central Government notified and brought into force the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations (“Combination Regulations”) under the Competition Act with effect from June 1, 2011. The Combination Regulations require acquisitions of shares, voting rights, assets or control or mergers or amalgamations that cross the prescribed asset and turnover based thresholds to be mandatorily notified to, and pre-approved by, the Competition Commission of India. Additionally, on May 11, 2011, the Competition Commission of India issued the Competition Commission of India (Procedure for Transaction of Business Relating to Combinations) Regulations, 2011, which sets out the mechanism for implementation of the merger control regime in India. The Competition Act aims to, among other things, prohibit all agreements and transactions which may have an appreciable adverse effect in India. Consequently, all agreements entered into by us could be within the purview of the Competition Act. Further, the Competition Commission of India has extraterritorial powers and can investigate any agreements, abusive conduct or combination occurring outside of India if such agreement, conduct or combination has an appreciable adverse effect in India.

However, the impact of the provisions of the Competition Act on the agreements entered into by us cannot be predicted with certainty at this stage. We do not have any outstanding notices in relation to non-compliance with the Competition Act or the agreements entered into by us.

The Competition (Amendment) Act, 2023 (“Competition Amendment Act”) was recently notified. The Competition Amendment Act amends the Competition Act and give the Competition Commission of India additional powers to prevent practices that harm competition and the interests of consumers. The Competition Amendment Act, inter alia, modifies the scope of certain factors used to determine AAEC, reduces the overall time limit for the assessment of combinations by the Competition Commission of India from 210 days to 150 days and empowers the CCI to impose penalties based on the global turnover of entities, for anti-competitive agreements and abuse of dominant position.

However, if we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the Competition Commission of India, or any adverse publicity that may be generated due to scrutiny or prosecution by the Competition Commission of India or if any prohibition or substantial penalties are levied under the Competition Act, it would adversely affect our business and cash flows.

**55. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, may adversely affect our business, prospects and results of operations.***

The regulatory and policy environment in which we operate is evolving and subject to change. Unfavorable changes in or interpretations of existing, or the promulgation of new, laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us being deemed to be in contravention of such laws and may require us to apply for additional approvals. For instance, the Supreme Court of India has in a decision clarified the components of basic wages which need to be considered by companies while making provident fund payments, which resulted in an increase in the provident fund payments to be made by companies. Any such decisions in future or any further changes in interpretation of laws may have an impact on our results of operations.

Further, any future amendments may affect our tax benefits such as exemptions for interest received in respect of tax-free bonds, and long-term capital gains on equity shares. Furthermore, changes in capital gains tax or tax on

capital market transactions or the sale of shares could affect investor returns. As a result, any such changes or interpretations could have an adverse effect on our business and financial performance.

We cannot predict the impact of any changes in or interpretations of existing, or the promulgation of, new laws, rules, and regulations applicable to us and our business. Unfavorable changes in or interpretations of existing, or the promulgation of new laws, rules and regulations including foreign investment and stamp duty laws governing our business and operations could result in us, our business, operations, or group structure being deemed to be in contravention of such laws and/or may require us to apply for additional approvals. We may incur increased costs and expend resources relating to compliance with such new requirements, which may also require significant management time, and any failure to comply may adversely affect our business, results of operations and prospects. Uncertainty in the applicability, interpretation, or implementation of any amendment to, or change in, governing law, regulation or policy, including by reason of an absence, or a limited body, of administrative or judicial precedent may be time consuming as well as costly for us to resolve and may impact the viability of our current business or restrict our ability to grow our business in the future.

**56. *Under Indian law, foreign investors are subject to investment restrictions that limit our ability to attract foreign investors, which may adversely affect the trading price of the Equity Shares.***

Under foreign exchange regulations currently in force in India, transfer of shares between non-residents and residents are freely permitted (subject to compliance with sectoral norms and certain other exceptions), if they comply with the pricing guidelines and reporting requirements specified by the RBI. If a transfer of shares, which are sought to be transferred, is not in compliance with such requirements and fall under any of the exceptions specified by the RBI, then the RBI's prior approval is required. Additionally, shareholders who seek to convert Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India require a no-objection or a tax clearance certificate from the Indian income tax authorities. We cannot assure you that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or at all.

In addition, pursuant to the Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the DPIIT, which has been incorporated as the proviso to Rule 6(a) of the FEMA Rules, investments where the beneficial owner of the equity shares is situated in or is a citizen of a country which shares a land border with India, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated October 15, 2020 and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/purview, such subsequent change in the beneficial ownership will also require approval of the Government of India. These investment restrictions shall also apply to subscribers of offshore derivative instruments. We cannot assure investors that any required approval from the RBI or any other governmental agency can be obtained on any particular terms or conditions or at all.

**57. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.***

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

**58. *We will not distribute this Draft Letter of Offer, Application Form and Rights Entitlement Letter to overseas Shareholders who have not provided an address in India for service of documents.***

In accordance with the SEBI ICDR Regulations and SEBI Rights Issue Circulars our Company will send, only through email, this Draft Letter of Offer, the Rights Entitlement Letter, Application Form and other issue material to the email addresses of all the Eligible Equity Shareholders who have provided their Indian addresses to our Company or who are located in jurisdictions where the offer and sale of the Rights Equity Shares permitted under laws of such jurisdictions and in each case who make a request in this regard. The Issue Materials will not be distributed to addresses outside India on account of restrictions that apply to circulation of such materials in overseas jurisdictions. However, the Companies Act, 2013 requires companies to serve documents at any address which may be provided by the members as well as through e-mail. Presently, there is lack of clarity under the Companies Act, 2013 and the rules made thereunder with respect to distribution of Issue Materials in overseas jurisdictions where such distribution may be prohibited under the applicable laws of such jurisdictions. While we have requested all the shareholders to provide an address in India for the purposes of distribution of

Issue Materials, we cannot assure you that the regulator or authorities would not adopt a different view with respect to compliance with the Companies Act, 2013 and may subject us to fines or penalties.

- 59. *SEBI has recently, by way of circulars dated January 22, 2020, May 6, 2020 and January 19, 2021, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Draft Letter of Offer.***

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020 and January 19, 2021 and April 22, 2021, and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialized form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise of Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

- 60. *The Rights Entitlement of Eligible Equity Shareholders holding Equity Shares in physical form ("Physical Shareholder") may lapse in case they fail to furnish the details of their demat account to the Registrar.***

In accordance with the SEBI Circular SEBI/HO/CFD/DIL2/CIR/P/2020/13 dated January 22, 2020, the credit of Rights Entitlement and Allotment of Equity Shares shall be made in dematerialised form only. Accordingly, the Rights Entitlements of the Physical Shareholders shall be credited in a suspense escrow demat account opened by our Company during the Issue Period. The Physical Shareholders are requested to furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date to enable the credit of their Rights Entitlements in their demat accounts at least one day before the Issue Closing Date. The Rights Entitlements of the Physical Shareholders who do not furnish the details of their demat account to the Registrar not later than two Working Days prior to the Issue Closing Date, shall lapse. Further, pursuant to a press release dated December 3, 2018 issued by the SEBI, with effect from April 1, 2019, a transfer of listed Equity Shares cannot be processed unless the Equity Shares are held in dematerialized form (except in case of transmission or transposition of Equity Shares).

- 61. *Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.***

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renounees may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renounees prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renounee will not be able to apply in this Issue with respect to such Rights Entitlements. For details, see "Terms of the Issue" on page 116.

- 62. *Any future issuance of Equity Shares, or convertible securities or other equity-linked securities by our Company may dilute your shareholding and any sale of Equity Shares by our Promoter or members of our Promoter Group may adversely affect the trading price of the Equity Shares.***

Any future issuance of the Equity Shares, convertible securities or securities linked to the Equity Shares by our Company may dilute your shareholding in our Company; adversely affect the trading price of the Equity Shares

and our ability to raise capital through an issue of our securities. In addition, any perception by investors that such issuances or sales might occur could also affect the trading price of the Equity Shares. We cannot assure you that we will not issue additional Equity Shares. The disposal of Equity Shares by any of our Promoter and Promoter Group, or the perception that such sales may occur may significantly affect the trading price of the Equity Shares. We cannot assure you that our Promoter and Promoter Group will not dispose of, pledge or encumber their Equity Shares in the future.

**63. *Investors may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.***

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares of an Indian company are generally taxable in India. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares may be partially or completely exempt from taxation in India in cases where such exemption is provided under a treaty between India and the country of which the seller is a resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on gains made upon the sale of the Equity Shares.

**64. *Applicants to this Issue are not allowed to withdraw their Applications after the Issue Closing Date.***

In terms of the SEBI ICDR Regulations, Applicants in this Issue are not allowed to withdraw their Applications after the Issue Closing Date. The Allotment in this Issue and the credit of such Equity Shares to the Applicant's demat account with its depository participant shall be completed within such period as prescribed under the applicable laws. There is no assurance, however, that material adverse changes in the international or national monetary, financial, political or economic conditions or other events in the nature of force majeure, material adverse changes in our business, results of operation, cash flows or financial condition, or other events affecting the Applicant's decision to invest in the Equity Shares, would not arise between the Issue Closing Date and the date of Allotment in this Issue. Occurrence of any such events after the Issue Closing Date could also impact the market price of our Equity Shares. The Applicants shall not have the right to withdraw their applications in the event of any such occurrence. We cannot assure you that the market price of the Equity Shares will not decline below the Issue Price. To the extent the market price for the Equity Shares declines below the Issue Price after the Issue Closing Date, the shareholder will be required to purchase Equity Shares at a price that will be higher than the actual market price for the Equity Shares at that time. Should that occur, the shareholder will suffer an immediate unrealized loss as a result. We may complete the Allotment even if such events may limit the Applicants' ability to sell our Equity Shares after this Issue or cause the trading price of our Equity Shares to decline.

**65. *You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.***

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

**66. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.***

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchanges until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchanges. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

**67. *Holders of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and***

*could thereby suffer future dilution of their ownership position.*

Under the Companies Act, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

**68. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.***

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchanges. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

**69. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.***

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

**70. *Investors will not have the option of getting the allotment of Equity Shares in physical form.***

In accordance with the SEBI ICDR Regulations, the Equity Shares shall be issued only in dematerialized form. Investors will not have the option of getting the allotment of Equity Shares in physical form. The Equity Shares Allotted to the Applicants who do not have demat accounts or who have not specified their demat details, will be kept in abeyance till receipt of the details of the demat account of such Applicants. For details, see “Terms of the Issue” on page 116. This may impact the ability of our shareholders to receive the Equity Shares in the Issue.

**71. *Our Company may face Risk of Failure of the Issue Due to Non-Receipt of Minimum Subscription.***

In accordance with Regulation 86 of the SEBI (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (“SEBI ICDR Regulations”), if the Company does not receive the minimum subscription of at least 90% of the total Issue size, the Rights Issue shall be deemed to have failed. In such an event, the Company shall be required to refund the entire subscription amount received within four (4) days from the Issue Closing Date, in terms of SEBI Circular No. SEBI/HO/CFD/DIL1/CIR/P/2021/47 dated March 31, 2021.

In the event of any delay in refund beyond the stipulated period, the Company shall be liable to pay interest on the delayed amount at the rate prescribed under applicable laws. Failure to receive the minimum subscription may adversely affect the Company’s capital raising plans and could delay or impair the implementation of the objects of the Issue.

Subject to compliance with applicable laws, the net proceeds from the Issue, after deducting fees, commissions, and the estimated expenses of the Issue of approximately ₹ [●] million, shall be approximately ₹ [●] million (the “Net Proceeds”).

### Objects of the Issue

Subject to compliance with applicable laws, our Company intends to use the Net Proceeds towards funding the following objects:

1. Funding working capital requirements of our Company;
2. General corporate purposes.  
(collectively, the “Objects”)

The Objects clause and matters in furtherance of the Objects, as set out in the memorandum of association of our Company enable us to undertake (i) existing business activities and (ii) the activities proposed to be funded from the Net Proceeds.

### Utilisation of Net Proceeds

The Net Proceeds are proposed to be utilised in the manner set forth below:

<i>(in ₹ million)</i>		
Sr. No.	Particulars	Amount
1.	Funding working capital requirements of our Company	800.00
2.	General corporate purposes <sup>(1)</sup>	Up to [●]
<b>Total Net Proceeds</b>		<b>[●]</b>

*(1) The amount utilised for general corporate purposes shall not exceed 25% of the Gross Proceeds.*

In the event of a change in the final Issue size, the amounts shown in the table above against each of the use of proceeds specified therein shall be modified in proportion to the change in the final Issue size in the Draft Letter of Offer.

### Proposed schedule of implementation and deployment of Net Proceeds

The Net Proceeds are currently expected to be deployed in accordance with the schedule set forth below:

<i>(in ₹ million)</i>			
Sr. No.	Particulars	Amount to be funded from Net Proceeds	Proposed schedule for deployment
			Fiscal 2027
1.	Funding working capital requirements of our Company	800.00	800.00
2.	General corporate purposes <sup>(1)</sup>	Up to [●]	Up to [●]
<b>Total Net Proceeds</b>		<b>[●]</b>	<b>[●]</b>

*(1) The amount utilised for general corporate purposes shall not exceed 25% of the Gross Proceeds.*

The above-stated funding requirements, deployment of funds and the intended use of Net Proceeds indicated above is based on management estimates, current circumstances of our business, our existing business plans, the prevailing market conditions and other commercial and technical factors. Given the nature of our business, we may have to revise our funding requirements and intended deployment schedule on account of a variety of factors such as our financial condition, business and growth strategy, and external factors such as market conditions, competitive environment, price fluctuations and interest or exchange rate fluctuations and other external factors which may not be within the control of our management. Depending upon such factors, we may have to reduce or extend the deployment period for the stated objects. This may entail rescheduling or revising the planned expenditure, implementation schedule and funding requirements, including the expenditure for a particular purpose, at the discretion of our management, subject to compliance with applicable law. Subject to applicable law, if the actual utilisation towards the objects is lower than the proposed deployment, such balance will be used for general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 25% of the Gross Proceeds. In case of a shortfall in raising requisite capital from the Net Proceeds,

business considerations may require us to explore a range of options including utilising our internal accruals and seeking additional debt from existing and future lenders. We believe that such alternate arrangements would be available to fund any such shortfalls. Further, in case of variations in the actual utilization of funds earmarked for the purposes set forth above, increased fund requirements for a particular purpose may be financed by surplus funds, if any, available in respect of the other purposes for which funds are being raised in the Issue, subject to compliance with applicable laws. For details, see *“Risk Factors- Our funding requirements and proposed deployment of the Net Proceeds of the Issue have not been appraised by a bank or a financial institution, and the proposed utilization of Net Proceeds is based on, amongst others, our current business plan and management estimates, and if there are any delays or cost overruns, our business, cash flows, financial condition and results of operations may be adversely affected”* and *“Risk Factors – Our Company requires significant amounts of working capital for continued growth and we intend to utilise ₹ 800.00 million from the total Net Proceeds towards funding our working capital requirements. Our inability to meet our working capital requirements, on commercially acceptable terms, may have an adverse impact on our business, financial condition and results of operations.”* on pages 38 and 39, respectively.

## **ANNEXURE TO THE STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO SHANTI GOLD INTERNATIONAL LIMITED (“COMPANY”) AND THE SHAREHOLDERS OF THE COMPANY (“SHAREHOLDERS”)**

Outlined below are the special tax benefits which may be available to the Company and its shareholders as per the Income tax Act, 2025 (“IT Act”) as amended from time to time and applicable for tax year 2026-27 and Indirect Tax Laws as amended from time to time and applicable for tax year 2026-27. It is not exhaustive or comprehensive and is not intended to be a substitute for professional advice. Investors are advised to consult their own tax consultant with respect to the tax implications of an investment in the Equity Shares particularly in view of the fact that certain recently enacted legislation may not have a direct legal precedent or may have a different interpretation on the benefits, which an investor can avail.

### **I. Under the IT Act**

#### **1. Special Tax Benefits to the Company**

- Lower Corporate Tax rate under Section 200

A new Section 200 has been inserted by the Taxation Laws (Amendment) Act, 2019 (“the Amendment Act, 2019”) granting an option to domestic companies to compute corporate tax at a reduced rate of 25.17% (22% plus surcharge of 10% and cess of 4%) from the Fiscal Year 2019-20, provided such companies do not avail specified exemptions/incentives (e.g. deduction under Schedule III, Clause 22, Section 41(2)(b), Schedule IV, Clause 13, Section 45(3), Chapter VIII (Sections 80–95) etc.). The Amendment Act, 2019 also provides that domestic companies availing such option will not be required to pay Minimum Alternate Tax (“MAT”) under Section 210 of the Income-tax Act, 2025. The Central Board of Direct Taxes (CBDT) has further issued Circular 29/2019 dated October 02, 2019 clarifying that since the MAT provisions under Section 200 itself would not apply where a domestic company exercises the option of lower tax rate under Section 200, MAT credit would not be available. Corresponding amendment has been inserted under Section 212 dealing with MAT credit.

The Company has exercised the above option from the Financial Year 2023-24.

#### **2. Special Tax Benefits available to Shareholders**

Based on the provisions presently in the force, no specific special tax benefits have been identified to the Shareholders (other than Resident Corporate Shareholder) of the Company.

With respect to a Resident Corporate Shareholder, Section 80M (as carried forward into Chapter VIII of the Income-tax Act, 2025) provides relief to remove the cascading effect of taxes on inter-corporate dividends. The section states that where the gross total income of a domestic company in any previous year includes any income by way of dividends from any other Domestic Company, a Foreign Company, or a Business Trust, there shall, subject to the provisions of this section, be allowed in computing the total income of such domestic company, a deduction of an amount equal to so much of the dividend income received as does not exceed the amount of dividend distributed by it on or before the “due date.” The “due date” means the date one month prior to the date for furnishing the return of income under Section 142(1) of the Income-tax Act, 2025 (corresponding to old Section 139(1)).

### **NOTES:**

- The above statement of Special Tax Benefits sets out the provisions of Tax Laws in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
- The above statement covers only certain Special Tax Benefits under Income Tax Act, 2025 read with the relevant rules, circulars and notifications and does not cover any benefit under any other law in force in India. - The above statement of Special Tax Benefits is as per the current Direct Tax Laws relevant for the Tax year 2026-2027. Several of these benefits are dependent on the Company or its Shareholders fulfilling the conditions prescribed under the relevant provisions of the Tax Laws.

- In respect of non-residents, the tax rates and consequent taxation mentioned above will be further subject to any benefits available under the relevant Double Taxation Avoidance Agreement, if any, entered into between India and the country in which the non-resident has fiscal domicile.
- The above views are based on the provision of the applicable tax laws as interpreted by us and no assurance can be given that the tax authorities or courts will concur with the views expressed herein.
- As the Company has opted for concessional corporate income tax rate as prescribed under section 200 of Income Tax Act, 2025, it will not be allowed to claim any of the following deductions:
  - a. Deduction under the provisions of Schedule III, Clause 22 (deduction for units in Special Economic Zone)
  - b. Deduction under Section 41(2)(b) (Additional Depreciation)
  - c. Deduction under Section 43(1)(d) or Schedule IV, Clause 12 or Schedule IV, Clause 13 (Investment allowance in backward areas, Investment deposit account, Site restoration fund)

- Non-transferable allotment advice/ refund orders will be sent directly to the Investors by the Registrar to the Issue.

## RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Consolidated FDI Policy and FEMA. The FDI Policy prescribes the limits and conditions subject to which foreign investment can be made in different sectors of the Indian economy and FEMA regulates the precise manner in which such investment may be made.

The government bodies responsible for granting foreign investment approvals are the concerned ministries/departments of the Government of India and the RBI. Pursuant to the press release dated May 24, 2017, the Union Cabinet phased out the FIPB and it was replaced by the Foreign Investment Facilitation Portal (**FIFP**) to speed up the FDI inflow and to increase the transparency in the FDI approvals in the country. The DIPP issued the Standard Operating Procedure (SOP) for Processing FDI Proposals on June 29, 2017 (the "**SOP**"). The SOP provides a list of the competent authorities to grant approvals for foreign investment for sectors/activities requiring Government approval. For sectors or activities that are currently under the automatic route but which required Government approval earlier as per the extant policy during the relevant period, the concerned Administrative Ministry/Department shall act as the competent authority (the "**Competent Authority**") for the grant of post facto approval for foreign investment. In circumstances where there is a doubt as to which department shall act as the Competent Authority, the DIPP will identify the Competent Authority.

The Government of India, from time to time, has made policy pronouncements on Foreign Direct Investment ("**FDI**") through press notes and press releases. The DIPP, has issued a consolidated FDI Policy DPIIT File Number 5(2)/2020-FDI Policy Dated the October 15, 2020 ("**FDI Policy 2020**"), which consolidates and supersedes all previous press notes, press releases and clarifications on FDI policy issued by the DIPP that were in force till that date. The Government of India proposes to update the consolidated circular on FDI policy once every year and therefore, the FDI Policy 2020 will be valid until the DIPP issues an updated circular.

Under the FDI Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to 100% without any prior approvals, however the foreign investor must follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment ("**FDI**") and approval from the Government of India will now be handled by the **FIFP**.

The transfer of shares between an Indian resident and a non-resident does not need prior approval of the RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA, and the transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

As per the extant policy of the Government of India, erstwhile OCBs cannot participate in this Issue. OCBs or Overseas Corporate Bodies have been derecognised as a class of investor entity in India with effect from September 16, 2003.

Overseas Corporate Body means a company, partnership firm, society and other corporate body owned directly or indirectly to the extent of at least sixty per cent by Non- Resident Indians and includes overseas trust in which not less than sixty percent beneficial interest is held by Non-resident Indians directly or indirectly but irrevocably, which was in existence as on September 16, 2003 and was eligible to undertake transactions pursuant to the general permission granted under FEMA. Any investment made in India by such entities will be treated as investments by incorporated non-resident entities, i.e. a foreign company.

The Issue, if renounced by our shareholders, may include offers within India, to Indian institutional, non-institutional and retail investors in offshore transactions as defined in, and made in reliance upon exemptions from the registration requirements under the United States Securities Act of 1933, as amended (the "**U.S. Securities Act**"), including the exemption under Regulation S ("**Regulation S**") of the U.S. Securities Act.

*The above information is given for the benefit of the Applicants / Investors.
