Availability								
Talwandi Sabo Thermal Plant	79%	90%	-	86%	-	83%	90%	-
Jharsuguda Thermal Plant	98%	43%	-	93%	-	95%	55%	-

Note: Vedanta Power Limited was demerged from Vedanta Limited during 1QFY27. Consequently, the quarter includes both pre- and post-demerger periods, and comparisons with prior periods should be viewed accordingly. ¹Q1 FY’26 performance reflects operations of a single 300 MW unit at Meenakshi. With full capacity (1,000 MW) operational, Q4 FY’26 & H1 FY’27 performance is presented on the expanded capacity base. ²Shakti Thermal Plant, formerly known as Athena Power Plant, is temporarily shut down since 14th April 2026, after the boiler blast in unit-I.

- TSTP PPA with the Punjab State Government compensates based on normative plant availability at 80%, and TSTP’s availability for H1 stood well above 83%.
- The decline in power sales at Sakti Thermal Plant was primarily due to reduced plant availability following a boiler incident on April 14th, which significantly impacted operations during the quarter.

About Vedanta Power Limited:

Vedanta Power Limited (BSE: 544781 & NSE: VEDPOWER) is one of India's leading private power producers delivering reliable power for a growing economy, that lights homes, touches lives, and drives transformation across the nation. Our company has current installed capacity of 4.2 GW (additional 0.6 GW Shakti U2 is under project phase), making it the 5th largest private thermal capacity in India. The company supplies power to Discoms nationwide through long-term partnerships, while supporting emerging grid requirements. Its portfolio includes a 1,980 MW plant in Mansa, Punjab; a 1,000 MW facility in Nellore, Andhra Pradesh; 1200 MW in Sakti, Chhattisgarh; and a 600 MW unit in Jharsuguda, Odisha. Through operational excellence, technological leadership, and strategic capacity expansion, Vedanta Power Limited is reinforcing grid stability as a cornerstone of India's energy security. Anchored in environmental stewardship, with initiatives such as fly ash utilisation, biomass co-firing, and zero freshwater use, alongside community progress, and a people-first culture, the company remains committed to delivering long-term stakeholder value while powering everyday life.

Disclaimer

Vedanta Power Limited (formerly known as Talwandi Sabo Power Limited) ("the Company") became effective on May 1, 2026, while the operational performance is presented for the full quarter of the business constituents of VPL as they exist at the end of second quarter of FY2027 for meaningful like-for-like comparison with historical performance.

This press release contains "forward looking statements" – that is, statements related to future, not past, events. In this context, forward looking statements often address our expected future business and financial performance, and often contain words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "should" or "will." Forward-looking statements by their nature address matters that are, to different degrees, uncertain. For us, uncertainties arise from the behaviour of financial and metals markets including the London Metal Exchange, fluctuations in interest and or exchange rates and metal prices; from future integration of acquired businesses; and from numerous other matters of national, regional, and global scale, including those of a political, economic, business, competitive or regulatory nature. These uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements.
