Hexaware and Ashoka Innovators Partner to Support Social Entrepreneurs in India

Empowering two Ashoka Fellows with financial support, leadership training, and global exposure

Mumbai, India – August 25, 2026: Hexaware Technologies [NSE: HEXT], an AI-first digital and IT services company, today announced a Corporate Social Responsibility (CSR) partnership with Ashoka Innovators for the Public (India), a non-profit organization that supports leading social entrepreneurs addressing complex societal challenges.

Through the partnership, Hexaware will provide grant support to Ashoka for two social entrepreneurs selected through Ashoka's Fellowship process in India. The fellowship stipends will allow selected Fellows to dedicate their time to developing and expanding sustainable solutions for long-term social change.

Ashoka identifies social entrepreneurs through a rigorous selection process that evaluates the originality of their ideas, entrepreneurial qualities, and potential to address systemic challenges. The Fellowship offers selected Fellows with leadership development, strategic guidance, peer-learning opportunities, and access to a global network of social entrepreneurs and collaborators.

"At Hexaware, we believe businesses have a role to play in contributing to society beyond technology and operations," said **Dr. Ramya Kannan, Vice President & Head – CSR, Hexaware**. "Through our CSR initiatives, we support efforts that create opportunities and help strengthen communities. Our partnership with Ashoka allows us to stand behind social entrepreneurs who are working to build solutions that benefit people and society."

Dr. Shruti Nair, Leader, Ashoka Innovators for the Public, India, said, "We are delighted to partner with Hexaware in supporting social entrepreneurs at pivotal moments in their journeys. The Ashoka Fellowship provides leaders with the freedom, network, and strategic support they need to scale their ideas and create lasting change. Along with these Ashoka Fellows, we hope to strengthen a new generation of changemakers working to build an 'Everyone a Changemaker' world."

The collaboration brings together Hexaware's commitment to responsible business practices and Ashoka's experience in advancing social innovation.

About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose; to create smiles through great people and technology. With offices across the world, we empower enterprises worldwide to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
