Revolt Motors launches RVX, its most powerful electric bike yet, at an introductory price of ₹1.24 lakh

Featuring 5.3 kW peak power, 160 km IDC range and an all-new Boost Mode, the RVX launches alongside 'India Karega Revolt', a new campaign featuring Hardik Pandya and celebrating a generation that moves differently.

New Delhi, 02nd July 2026: Revolt Motors, India's No.1 electric bike and a wholly owned subsidiary of RattanIndia Enterprises Limited, today launched the all-new RVX, its most powerful and technologically advanced electric bike yet. Designed for a generation that seeks performance, intelligence and individuality in equal measure, the RVX marks a significant new chapter for Revolt and India's rapidly evolving electric mobility landscape.

Priced at an introductory ex-showroom price of **₹1.24 lakh** (inclusive of applicable PM E-DRIVE incentives) for a limited period. The bike will be available across India through Revolt's expansive network of over 200 dealerships.

Following the implementation of the new Delhi EV Policy and applicable incentives, customers in Delhi will be able to own the RVX at an effective ex-showroom price of **₹94,990**, making it one of the most accessible performance-oriented electric bikes in the country.

As India's electric mobility journey enters its next phase, riders are increasingly seeking products that deliver excitement, technology and self-expression. The RVX has been developed precisely for this new generation of riders, bringing together exhilarating performance, advanced connectivity and everyday practicality in one compelling package.

Commenting on the launch, **Mrs. Anjali Rattan, Chairperson, RattanIndia Enterprises Limited**, said, *"India's new generation is ambitious, expressive and deeply optimistic about the future. They expect technology to do more than solve problems, they want it to excite, inspire and reflect who they are. The RVX embodies this spirit. It represents the coming together of Indian engineering, purposeful innovation and our belief that the future of mobility can be both sustainable and exhilarating."*

Engineered as a performance-oriented electric bike, the RVX is powered by a new 4 kW Mid-Drive PMSM motor that delivers a peak output of 5.3 kW and up to 230 Nm of torque at the wheel, making it the most powerful bike ever produced by Revolt Motors. The bike accelerates from 0 to 40 kmph in just 3.9 seconds and reaches the speed of 90 kmph in the all-new Boost Mode.

The RVX features a 3.24 kWh removable NMC battery that delivers an IDC range of 160 kilometres on a single charge. It can be charged from 0 to 80 per cent in just 80 minutes using the fast charger.

Built to inspire confidence across riding conditions, the bike features upside-down front forks, a rear mono-shocker and four riding modes—Boost, Sports, City and Eco. It also comes equipped with a new Digi-dash with 3.5-inch IP67-rated PMVA display, Bluetooth connectivity, telematics, geo-fencing, OTA updates, call and message notifications, hill hold assist, reverse mode, walk assist, immobiliser and vehicle locator. Collectively, these features make the RVX equally suited for daily commutes, spirited weekend rides and everything in between.

Available in Pearl Black, Electric Blue, and Eclipse Red, the RVX has been designed for riders who see mobility as an extension of their ambitions and individuality.

Coinciding with the launch, Revolt Motors also unveiled its new brand campaign, 'India Karega Revolt', featuring brand ambassador and cricket icon Hardik Pandya. The campaign celebrates a generation that is self-assured, ambitious and unafraid to make its own moves.

For more information on the all-new RVX and to explore the world of Revolt electric bikes, customers can visit the official website at www.revoltmotors.com or experience the RVX first-hand at their nearest authorised Revolt dealership across India.

Revolt Intellicorp

Revolt Intellicorp (Revolt Motors), founded in 2017, is leading the charge in India's electric vehicle landscape. With a mission to democratize clean commutes using futuristic mobility solutions, we have introduced India's first AI-enabled bike, seamlessly combining innovation with performance and aesthetics. With a strong focus on innovative technology, Revolt Motors is redefining the way we think about two-wheel transportation.

Beyond bikes, Revolt Intellicorp provides a full range of genuine parts and accessories through its authorized dealerships, ensuring a comprehensive electric riding experience. Join us in reshaping the future of smart, sustainable mobility.

RattanIndia Enterprises Limited

RattanIndia Enterprises Limited (REL) is the flagship company of the RattanIndia Group, focused on building and scaling new-age, technology-led businesses in India. A **public-listed company with a market capitalization of approximately ₹7,000 crore**, REL is proudly featured in the **Fortune 500 India list**—a recognition of its growing scale, performance, and influence across sectors.
