**Sub: Disclosure under Regulation 30 of SEBI (LODR) Regulations, 2015 – Natural Calamity at Anakkampoyil-Kalladi-Meppadi Tunnel Project Site.**

Dear Sir/ Madam,

We are deeply saddened by the unfortunate landslide at the Anakkampoyil-Kalladi-Meppadi tunnel project site in Wayanad. Our thoughts and prayers are with all those affected and their families.

Our immediate priority is supporting the ongoing rescue and relief operations. We are extending our full cooperation to the district administration, emergency response agencies and all concerned authorities, while assisting in efforts to identify and account for all personnel at the site.

The incident occurred during an active monsoon spell, amid exceptionally heavy rainfall in Wayanad. The India Meteorological Department had issued warnings for heavy to very heavy rainfall across parts of Kerala, while preliminary data from the Kerala State Disaster Management Authority indicates that Wayanad received approximately 265 mm of rainfall in the preceding 24 hours-among the highest recorded in the district this monsoon season.

This is 9-10 times the rainfall of an average July rainy day and also well over one-third of Kerala's average July rainfall occurring within just 24 hours. Wayanad, along with other hill districts of Kerala, has historically remained vulnerable to monsoon-induced landslides.

Having said that, the project is being executed in strict compliance with all applicable engineering, safety and environmental approvals and protocols. Given its location in an ecologically sensitive region, the project is subject to multiple regulatory oversight and monitoring mechanisms, including supervision by the Supreme Court-appointed Central Empowered Committee, and all excavated material is handled in accordance with the approved methodology.

With such additional and strict compliance procedures the room for technical error remains very limited. We remain fully committed to cooperating with the investigation and will continue to share verified information as it becomes available. Our focus remains on supporting the rescue efforts and standing with the affected families during this difficult time.

We request you to kindly take this information on your record.
