- Connectivity secured, granted and/or applied for the full portfolio, with surplus connectivity of over 5,200 MW available for future bids and connectivity available for installation of more than 20,000 MWh of BESS

About Juniper Green Energy Limited

Juniper Green Energy Limited is an independent renewable energy power producer in India, focused on the development, construction, and operation of utility-scale solar, wind, hybrid, and Firm & Dispatchable Renewable Energy projects. The Company has been developing renewable energy assets across India since October 2018 and has built integrated capabilities spanning the entire project lifecycle, from project conceptualisation and development to construction and operations.

Juniper Green Energy Limited has an operational capacity of approximately 2.84 GWp and ~600 MWh BESS and a total portfolio of ~11.2 GWp and ~8.9 GWh BESS, where the total portfolio includes operational, under-construction, contracted and awarded projects. The Company is committed to delivering reliable and sustainable clean energy solutions that support India's transition to a low-carbon economy.
