

HIGHNESS MICROELECTRONICS LIMITED

Date: October 19, 2026

To,
The Manager – Listing Department
BSE Limited
Phiroze Jeejeebhoy Towers,
Dalal Street, Mumbai, 400001
Maharashtra, India.

Company Scrip Code: 544741

Subject: Press Release – Highness Microelectronics Ltd Commissions New Glass Cutting Line to Drive Cost Optimisation and Enhance Operational Efficiency, pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirement) Regulations, 2015.

Dear Sir/Madam,

Pursuant to Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed a Press Release issued by the Company titled *“Highness Microelectronics Ltd Commissions New Glass Cutting Line to Drive Cost Optimisation and Enhance Operational Efficiency”*.

This is also being uploaded on the website of the Company at <https://highnessmicro.com/>

We request you to take this in your records.

Thanking you,
Yours Faithfully,

For Highness Microelectronics Limited

Highness Microelectronics Ltd Commissions New Glass Cutting Line to Drive Cost Optimisation and Enhance Operational Efficiency

Mumbai, October 19, 2026: Highness Microelectronics Limited (BSE – SME: 544741), a leading manufacturer of advanced display solutions, embedded systems, and other related electronic products, has inaugurated its new glass cutting line at its Rabale manufacturing plant in Navi Mumbai, Maharashtra, with commercial production commencing on October 19, 2026. The facility has an installed capacity of **300 glass units per day**.

The facility positions the Company as **India's only company with this specialised glass cutting technology and manufacturing facility**, strengthening its in-house processing capabilities and supporting cost optimisation and operational efficiency.

Key Highlights

- **Product:** TFT-LCD Open Cell glass (without Backlight Unit), processed into customised dimensions.
- **Precision:** Camera-based measurement and positioning, with a dimensional tolerance of ± 0.5 mm.
- **Technology Differentiation:** India's only company with this specialised glass cutting technology and facility
- **Applications:** Bar-type displays, railway passenger information systems and industrial display solutions.
- **Market Focus:** Industrial, medical, railway, defence, transportation and specialised display markets.
- **Business Pipeline:** Multiple tenders and ongoing medical display applications; metro projects and overseas orders under discussion.
- **Expected Cost Impact:** Approximately 10% initially, potentially increasing to 30–40% in later stages as production scales up and processes are optimised.

Manufacturing Capabilities and Applications

The new line features a semi-automatic glass resizing and cutting machine with operator-assisted material handling. It will support customised display solutions and LCD resizing module manufacturing, strengthening the Company's in-house processing capabilities.

Management Perspective & Outlook

Commenting on the development, Gaurav Kejriwal, Managing Director of Highness Microelectronics Limited, said:

“The commissioning of our glass cutting line is an important step in strengthening our in-house manufacturing capabilities for specialised display applications. The line is expected to cater to existing business opportunities and growing customer demand. We are also exploring potential opportunities through metro projects and overseas orders, which are currently under discussion.

The facility is expected to improve operational efficiency, reduce production turnaround time, enhance cutting accuracy and product quality, and reduce dependence on external processing. These improvements are expected to support better cost control and delivery flexibility, with potential benefits for revenue and profit margins as production scales up.”

Highness Microelectronics Limited

Highness Microelectronics Limited is a vertically integrated company engaged in the design, development, integration, assembly, and manufacturing of digital imaging solutions. Over two decades, it has strengthened its in-house capabilities, reducing dependence on external sources and enabling quality, durable, and cost-effective products.

The company specialises in medical-grade monitors and customised imaging solutions for Defence & Aerospace, Railways, Healthcare, and Industrial Automation. It is the only Indian manufacturer supplying certain specialised displays, competing with global players. Its technical expertise and project management capabilities provide a competitive edge in the evolving digital imaging market.
