The collaboration will focus on:

- Quantum Photonics AI
- Surveillance Intelligence
- Big Data & Predictive Analytics
- Defence Tech & Homeland Security
- Med Tech Platforms
- Smart Infrastructure & SCADA
- Aerospace & Industrial Intelligence
- Environmental & Water Intelligence

Under the terms of the MoU, Rose Merc Limited may evaluate investments into one or more of the CATS Group companies while both parties jointly explore opportunities in India and global markets including government projects, defence technologies, smart city infrastructure, industrial modernization and strategic technology deployments.

Speaking on the occasion, **Mr. Uday Damodar Tardalkar, Chairman of Rose Merc Limited**, said:

“This strategic collaboration reflects Rose Merc’s vision of participating in transformative technologies that can redefine India’s future industrial and strategic capabilities. Together, we aim to build scalable platforms with global relevance while contributing meaningfully to India’s technological self-reliance.”

Prof. Dr. Rao Tatavarti, Founder Director and Chairman of CATS Global Group said:

“India stands at the threshold of a new technological era driven by Photonics, quantum technologies, intelligent sensing and smart and AI-enabled decision systems. Our collaboration with Rose Merc creates a strong platform to accelerate commercialization and expand deployment opportunities for indigenous technologies.”

Mr. Biren Shah, Co-Founder & Managing Director of the CATS Global Group companies, added:

“This MoU is a shared commitment toward building globally competitive Indian deep-tech enterprises. With Rose Merc’s strategic vision and market reach combined with our technology platforms, we see significant opportunities emerging in surveillance intelligence, Med Tech, Defence Tech and AI-powered command systems.”

The collaboration is expected to actively pursue opportunities aligned with the Government of India’s “Atmanirbhar Bharat” vision and strengthen India’s position in next-generation intelligent technologies and sovereign digital infrastructure capabilities.
