# Reimagine. Rise. Reach.

Our 92 year legacy gives us strength, but it also brings the responsibility to continuously evolve. FY 2025-26 was a year that challenged our business, tested our resilience, and compelled us to rethink how we compete, execute, and create value.

We responded with focus and discipline. We sharpened our strategic priorities through our Must-Win Battles, strengthened execution through new Ways of Working, and embedded greater accountability across the organisation. At the same time, we reinforced customer centricity, improved operational discipline, and aligned our resources behind opportunities that will create sustainable long-term value.

Across Roofing, Boards & Panels, and Pre-Engineered Steel Buildings, we became more selective in our choices, more disciplined in execution, and more focussed on profitable growth. While these actions are still in their early stages, they have established the foundations for our turnaround and positioned Everest to compete with greater agility in a rapidly evolving market.

India's structural growth drivers— including rural development, urbanisation, industrial expansion, and infrastructure investment— continue to create significant opportunities for our businesses. With a clearer strategy, a stronger organisation, and a renewed performance mindset, we are well positioned to capture these opportunities responsibly and create lasting value for all our stakeholders.

**We are ready  
to Reimagine.  
Rise. Reach  
Higher.**

# Foreword

This Annual Report includes statements relating to the Company's operations, performance during the year, and key financial and operational developments. It also outlines future plans, objectives, and strategic direction based on management's current expectations, assumptions, and prevailing trends.

Certain statements in this report may be regarded as forward-looking in nature. These can generally be identified by terminology such as 'anticipate', 'believe', 'expect', 'intend', 'may', 'plan', 'project', 'seek', 'should', 'will', and similar expressions that indicate potential future events or outcomes. These forward-looking statements are provided to assist investors in understanding the Company's vision and future prospects.

However, actual outcomes may differ materially from those expressed or implied in such statements. These deviations may result from known and unknown risks, uncertainties, or inaccuracies in the underlying assumptions. While the Company believes these assumptions to be reasonable and has exercised due care in preparing these statements, it offers no assurance regarding their realisation.

The Company does not undertake any obligation to update these forward-looking statements publicly, whether due to subsequent events, new information, or future developments, except as may be required under applicable laws.

Board of Directors

# Leading the Reimagination

Our governance philosophy is founded on transparency, accountability and ethical conduct, supported by systems that strengthen oversight, risk awareness and responsible decision-making. As we move through a phase of renewal, this foundation enables us to act with clarity, protect stakeholder trust and pursue growth with integrity.

**BOARD OF DIRECTORS**

Our Board of Directors plays a central role in this journey. It guides our strategic direction, oversees risk management and ensures that every decision remains aligned with long-term value creation. The Board brings deep experience, diverse perspectives and sectoral insight to the table, helping us balance ambition with prudence and performance with responsibility. Its stewardship strengthens our ability to respond to changing market realities while staying anchored in the values that have defined Everest over nine decades.

**Mr. Anant Talaulicar**

Non-Executive Chairman

Mr. Anant Talaulicar brings over 42 years of experience across global manufacturing, project execution and financial oversight. He holds a Master's degree in Engineering from the University of Michigan and an MBA from Tulane University. His global perspective, strategic clarity and deep industry understanding play an important role in strengthening Everest's governance, risk management framework and long-term growth vision.

**Ms. Padmini Sekhsaria**

Vice Chairperson

Ms. Padmini Sekhsaria brings a rich cross-sector perspective spanning technology, human capital, retail and finance. She holds a Diploma in Economics from the London School of Economics and an M.Sc. in Financial Economics from the University of London. Her strategic insights support Everest's transformation into a modern, agile and stakeholder-focussed enterprise.

**Mr. Alok Nanda**

Independent Director

Mr. Alok Nanda is a renowned brand strategist and the Founder-CEO of Alok Nanda & Company. He has provided expert advice to leading companies across the real estate, FMCG and hospitality sectors. At Everest, he plays an important role in refining our branding and customer engagement strategies, ensuring that our communications remain aligned with the Company's purpose-driven identity.

**Ms. Bijal Ajinkya**

Independent Director

Ms. Bijal Ajinkya is a globally respected expert in international tax and private client law, and is a Partner at Khaitan & Co. Her areas of expertise include inbound investments, estate planning and M&A negotiations. As the first Indian lawyer to join the American College of Trust and Estate Practitioners, she brings to the Board a rare combination of legal proficiency, global compliance perspective and specialist advisory experience.

**Mr. Rajendra Chitale**

Independent Director

Mr. Rajendra Chitale is a Chartered Accountant and legal expert with a distinguished career in financial advisory, tax structuring and policy consultation. He has served on multiple regulatory panels, bringing deep institutional and governance experience to the Board. His expertise plays an essential role in strengthening Everest's risk management, audit and financial governance systems.

**Mr. Ashok Kumar Barat**

Independent Director

Mr. Ashok Kumar Barat is a Chartered Accountant and Company Secretary by profession, with leadership experience across Indian and global organisations. His governance acumen is complemented by his involvement with chambers of commerce, mediation bodies and regulatory panels. He brings a strong legal, regulatory and operational perspective to Board discussions.

**Mr. Hemant Khurana**

Managing Director & CEO

Mr. Hemant Khurana is a seasoned business leader with nearly three decades of experience in building, scaling, and transforming businesses across the construction and building materials industry. An alumnus of Delhi College of Engineering and the Indian Institute of Management Calcutta, he has held leadership positions across India and Southeast Asia. Prior to joining Everest Industries, he spent over 23 years with Saint-Gobain, including as Managing Director of the MyHome & Weber businesses. He brings deep expertise in business transformation, profitable growth, and modern construction solutions, and is leading Everest's transformation into a future-ready, high-performing organisation.

Highlights FY 2025-26

# A Year of Sharper Action

FY 2025-26 reflected our renewed focus on sharper execution, disciplined growth and stronger organisational resilience. Across financial, operational and sustainability priorities, we took decisive steps to improve efficiency, protect margins, strengthen customer relevance and embed responsible practices across the business. These highlights capture a year in which Everest moved with greater clarity, responded to market realities with agility and built stronger foundations for the next phase of growth.

## About the Company

# The Everest of Today

For over nine decades, Everest has played a defining role in the way India builds. Our presence extends across regions, communities and generations, with our solutions supporting homes, schools, factories, workplaces and shared spaces that shape everyday life. We are among India's established building solutions companies, with a legacy built on reliability, relevance and trust. Yet our progress has never rested on legacy alone. We continue to combine experience with fresh thinking, creating solutions that respond to the real needs of homeowners, institutions and industries.

Our portfolio spans roofing, boards and panels, steel buildings and smart construction materials designed for durability, adaptability and performance across diverse applications. With eight manufacturing facilities, a distribution network of over 14,000+ dealer outlets and operations across more than 35 countries, we are well-positioned to serve a market that is evolving with speed and ambition. At the centre of our journey is a clear intent to keep building better through meaningful innovation, trusted experiences and growth rooted in purpose.

OUR VISION

Everest Industries' journey has been nothing short of impressive, spanning over 92 years, and punctuated with many milestones that show our commitment to growth. In 2020, we embarked on another transformational journey, impacting our people, processes, and products. We adopted a new brand positioning of Reimagine.

This powerful notion has been a game-changer, giving us the chance to re-evaluate our industry and come up with innovative solutions that can bring value for everyone involved - investors, employees, customers, partners, suppliers, and the communities we operate in. With this in mind, we have come up with a vision for Everest.

## To Improve People's Lives By Reimagining Spaces

OUR VALUES

At Everest Industries Ltd., we believe in continued growth through innovation and high performance, but equally that exceptional results should be achieved in a way that's consonant with our core values.

These values are non-negotiable; they are a way of life at Everest, deeply etched into our people's hearts and minds. We judge all our actions by these values, and demonstrate them in action every day at Everest.

### Respect

To care for and value all people, regardless of their position, race or gender.

- To care for the interests of the company as your own, so your every word and action reflects it.
- To respect and protect the environment with every decision you make.

### Excellence

To continually raise the bar beyond the expected in everything you do.

- To deliver with speed and innovation.
- Excellence is an outcome of sincerity, passion and an inner commitment to succeed.

### Integrity

To live by your word to customers, colleagues and your business partners.

- To act with honesty, fairness and transparency.
- To follow the law in letter and in spirit.
- To do the right thing, even when no one is looking.

OUR JOURNEY OF TRANSFORMATION

**Built on legacy. Driven by renewal.**

Since 1934, Everest has stayed close to the way India builds. What began as a mission to provide durable construction materials has evolved into a broader role in housing, infrastructure, industry and community development. Our journey has been shaped by one consistent belief. Relevance is earned by solving real needs.

**THE SHIFT WE MADE**

**From materials to solutions**

We moved beyond products to create outcomes that matter. Faster construction. Smarter applications. Sustainable choices. Greater ease for users.

**From categories to ecosystems**

We no longer look at roofing, boards, panels or steel buildings as isolated businesses. We see them as part of a connected building solutions ecosystem serving homes, institutions, industries and communities.

**From legacy to future-readiness**

Our experience gives us credibility. Our willingness to question, improve and adapt gives us momentum.

**A Defining Moment**

In 2020, we introduced a refreshed brand identity to reflect this evolution. A simplified name, sharper visual language and clearer voice brought focus to a powerful idea: Reimagine. For us, it became more than a brand expression. It became a way of thinking, helping us challenge familiar approaches, find better answers and create lasting value.

**WHAT GUIDES OUR WAY FORWARD**

**Solving real problems**

Every solution we create is designed around everyday needs, with practical value and thoughtful impact.

**Designing responsibly**

We place design and sustainability at the heart of how we build, because construction today must endure with responsibility.

**Moving with earned confidence**

Over nine decades of trust give us the confidence to look ahead with courage, care and purpose.

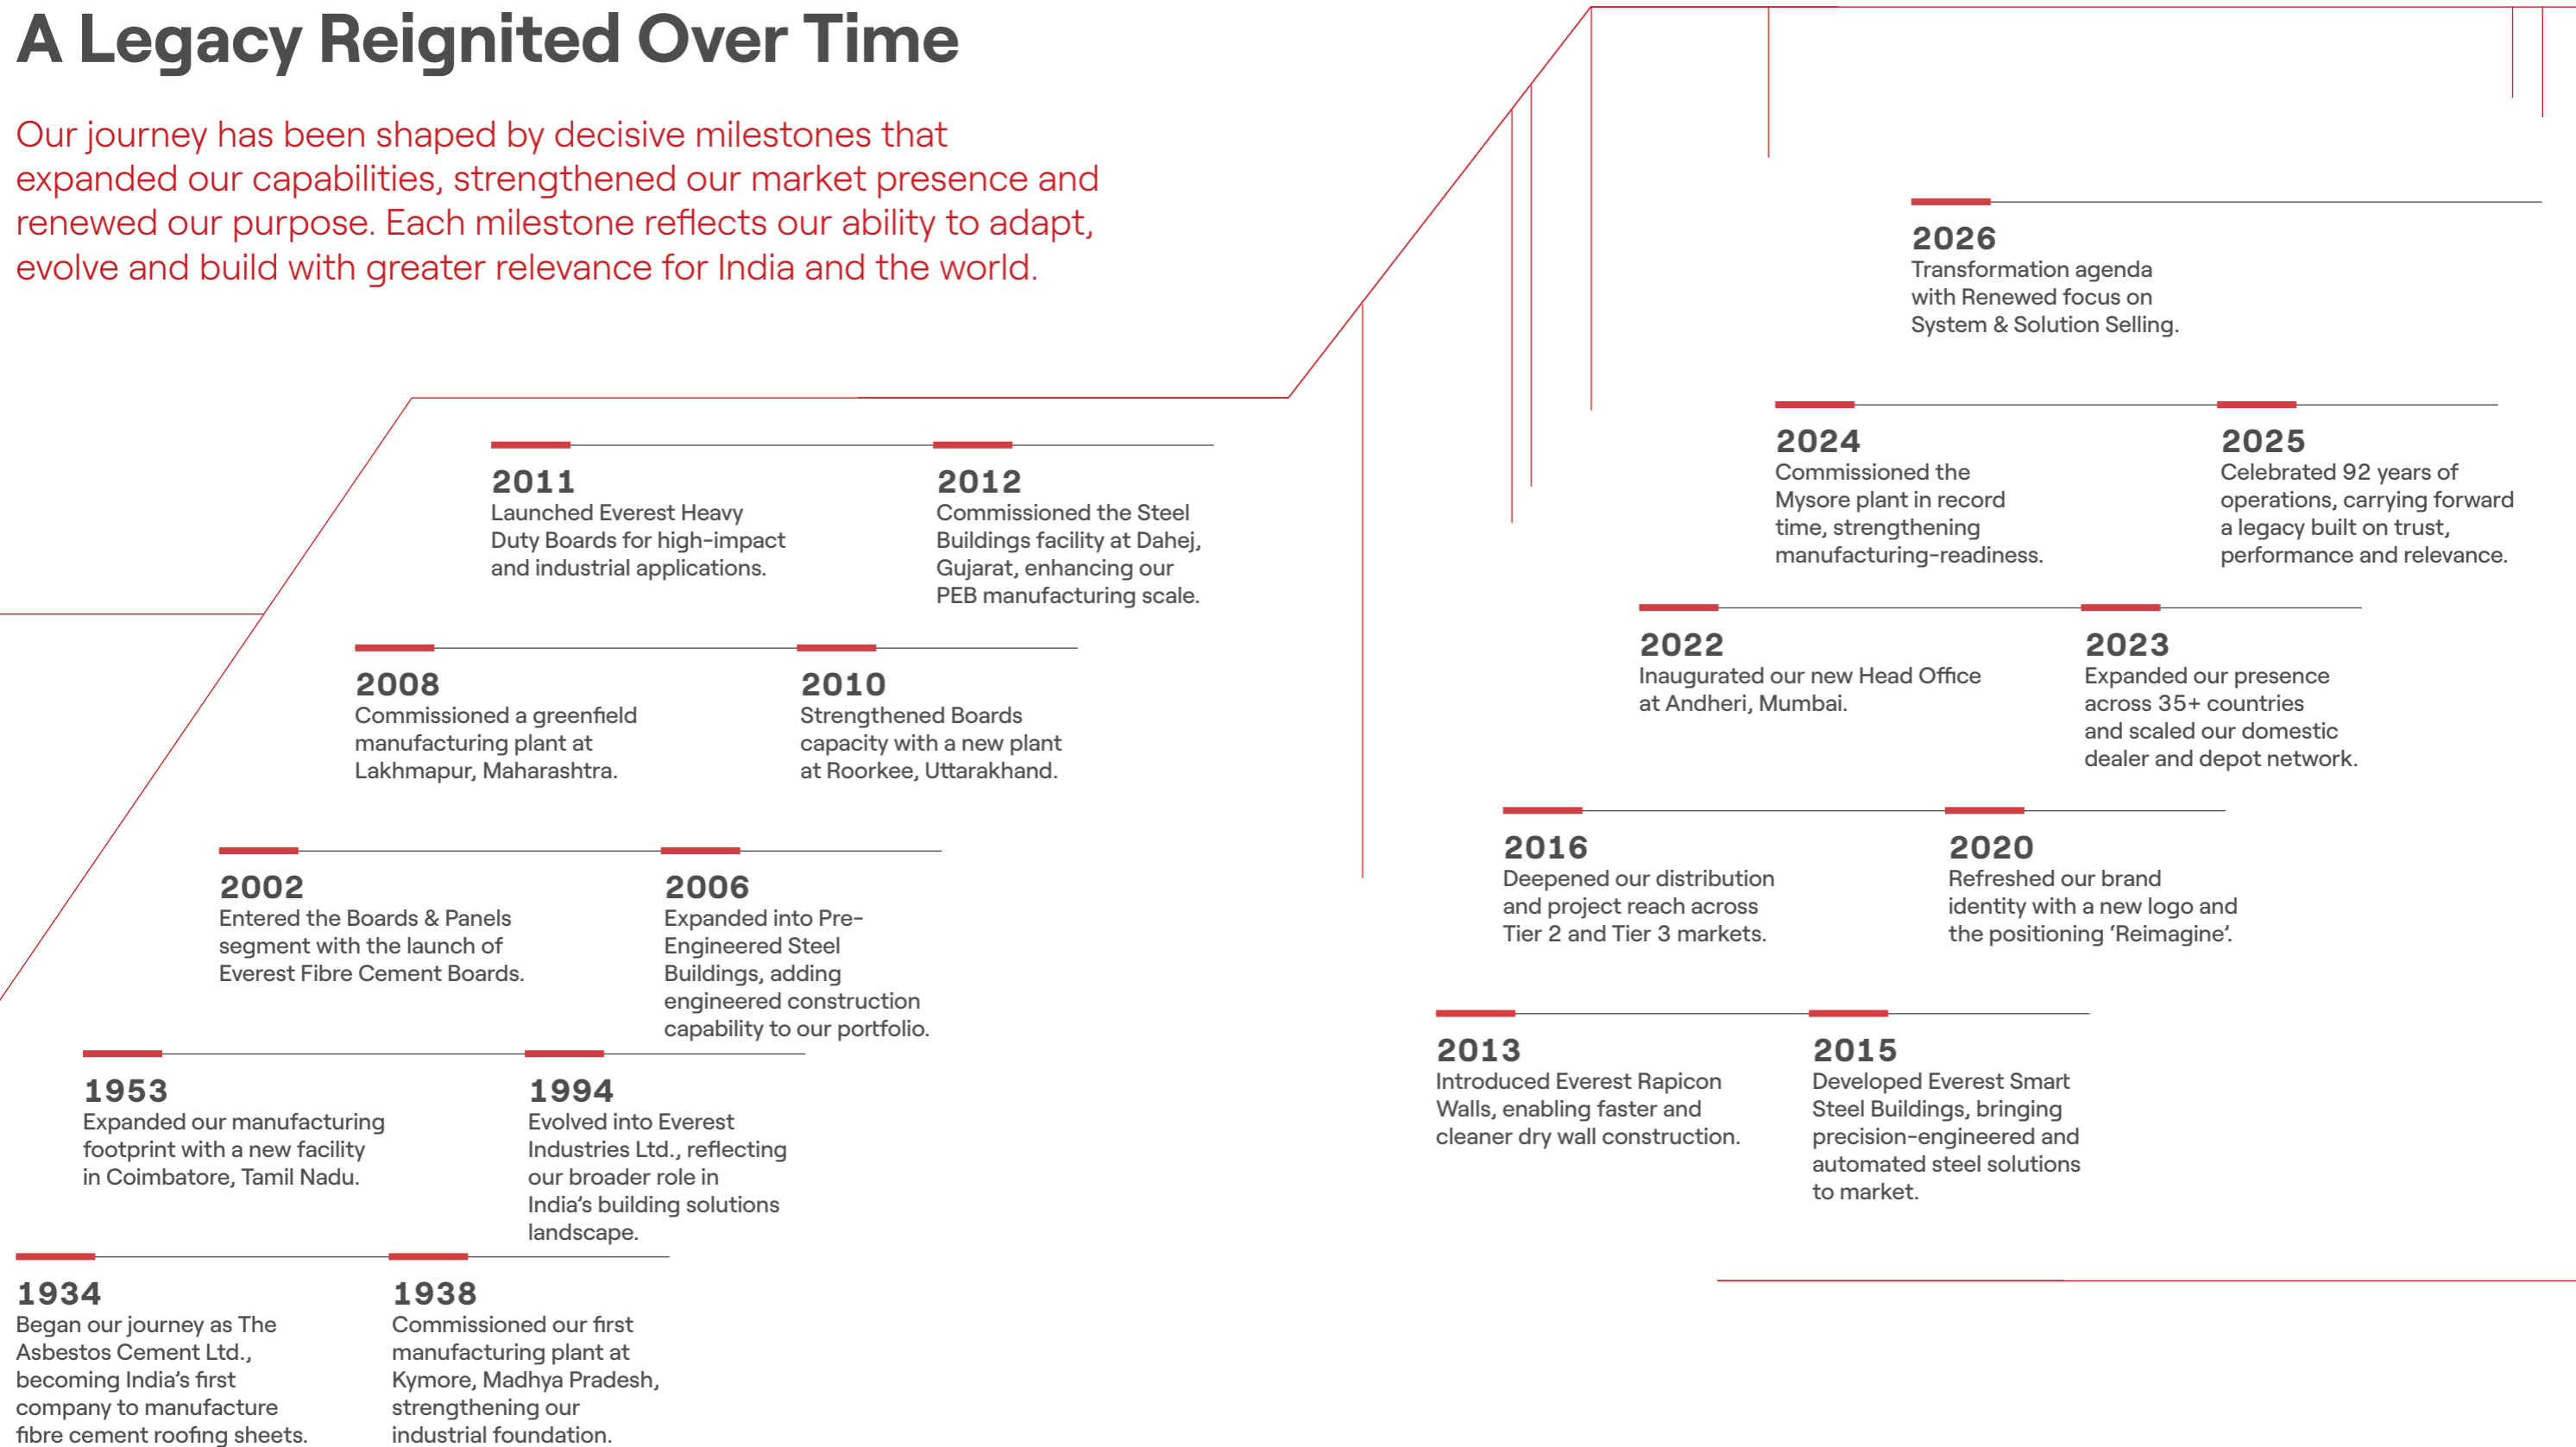

**The Road Ahead**

We honour where we come from by constantly exploring where we can go next. For our customers, our industry and the homes, workplaces and communities that shape everyday life, we continue to build with intent, clarity and renewed imagination.

Key Milestones

# A Legacy Reignited Over Time

Our journey has been shaped by decisive milestones that expanded our capabilities, strengthened our market presence and renewed our purpose. Each milestone reflects our ability to adapt, evolve and build with greater relevance for India and the world.

Letter from Chairman

# Renewed Stewardship for a Stronger Everest

**Anant Talaulicar**  
Chairman

**“ I am now very confident that the Company will only grow from strength to strength across all its three businesses, and that FY 2026-27 will be a year that you will be proud of. ”**

**Dear Shareholders,**

While the external environment in FY 2025-26 was volatile, I fully acknowledge that we could have navigated in a better way. I also acknowledge that FY 2025-26 was the second year in succession where both the operating and therefore financial results were disappointing, and I feel I have let you down. However, I want to assure you that behind the scenes, we have taken very significant actions to turn the Company's situation around.

So, while on the surface the Company's annual P&L looks very concerning, it is in part because we decided to take a very conservative approach of provisioning for doubtful debts, recognizing potential inventory obsolescence and acknowledging the accruals needed for the changes in the labour codes. These were extraordinary and one-time factors.

Underlying these, the operational and financial performance of the Company has dramatically improved in the second half as compared to the first half. The Company's variable margin improved by 3.6 points in the second half as compared to the first. The Company's gross margin improved by 1.7 points in the second half compared to the first. The Company's Sales & General Administrative expenses were reduced by Rs. 9.9 crores in the second half as compared to the first half. Most importantly, while the Company's free operating cash flow after capex was Rs. (29) crores in the first half, it improved to Rs. 128 crores in the second half.

This is not just a short term phenomenon. It is based on very strategically identifying seven Must Win Battles comprising (MWBs) Quality, Service, Price, Value Added Sales, Cost,

Productivity and Volume. These MWBs are being supported by standardised Ways of Working (WOWs) for improving operational excellence and continuous improvement. The WOWs include Care of Environment, Six Sigma, Vector Flow, Sales E2 (Efficiency & Effectiveness), Preventive Maintenance, Customer Insights & Loyalty, Partnerships & Alliances and Digitalisation.

I believe that fundamentally, any company's success rests on three pillars – its leadership team (the People Pillar), its processes and its systems. Everest has a substantially strengthened leadership team in place now. It has embraced Six Sigma and Vector's theory of constraints based supply chain management processes. It has invested in world class systems such as SAP HANA for its ERP, Darwin Box for its HRMS and Zoho for its CRM. It is rapidly building digital apps to enhance employee productivity and customer engagement. In other words, all three pillars are stronger than they have ever been.

I am now very confident that the Company will only grow from strength to strength across all its three businesses, and that FY 2026-27 will be a year that you will be proud of. We are fortunate to be placed in a leadership position over the last 92 years in a growing building materials industry. We will be able to leverage this favourable situation this year to provide you with superior financial results. I sincerely thank you for your patience and support.

Regards,

**Anand Talaulicar**  
Chairman

Message from the Managing Director & CEO

# Building the Foundation for a Stronger Everest

**Hemant Khurana**  
Managing Director & CEO

## Dear Stakeholders,

FY 2025-26 was a challenging yet defining year for Everest Industries. It was a year that severely tested our collective resilience, challenged many of our assumptions, and strongly reinforced the need to transform not only our business performance, but also the way we operate. While our financial performance fell significantly short of our expectations, **FY 2025-26 marked an important inflection point in our journey to build a stronger, more agile, and more profitable company.**

## FY 2025-26 was also a year of decisive action.

Considering the significant challenges, the leadership team undertook a comprehensive review of the business towards the end of the first half of the financial year to identify the few strategic priorities that would have the greatest impact on improving competitiveness, strengthening execution, and creating long-term shareholder value. **This resulted in the identification of our Must-Win Battles** - strategic priorities that sharpened our focus, aligned resources behind the highest-impact opportunities, and enabled faster, better-informed decision making throughout the organisation.

We also recognised that sustainable performance cannot be achieved through strategy alone. It needed the right culture and consistent execution. Accordingly, **we introduced a new set of Ways of Working (WOWs)** that encourage accountability, collaboration, speed, customer orientation, and disciplined execution. These WOWs are helping create a stronger performance culture by simplifying decision making, improving cross-functional collaboration, and increasing ownership across the organisation.

## Throughout this journey, our customers remained at the centre of every decision we made.

Across our three businesses, we strengthened engagement with customers, specifiers, influencers, contractors, and channel partners; improved responsiveness and service levels; and focussed on creating differentiated value rather

than pursuing growth at any cost. Our customer-first approach is strengthening relationships while creating a more resilient foundation for long-term growth.

**Another important shift during the year was our sharper strategic orientation towards profitable growth.** We have become increasingly disciplined in evaluating strategic opportunities, improving our product and customer mix, driving operational excellence, and allocating resources more effectively. Our objective is clear: to build a business that consistently creates sustainable value for our customers, employees, and shareholders.

**Equally encouraging has been the commitment demonstrated by our people.** Despite a demanding operating environment, teams across our plants, projects, offices, and markets embraced change with resilience, professionalism, and a shared resolve to improve significantly. This collective spirit gives me confidence that the foundations we have built during FY 2025-26 will support stronger execution in the years ahead.

While business transformation can never be achieved fully in a single year, FY 2025-26 established the much-needed building blocks for our turnaround. We enter FY 2026-27 with far greater strategic clarity, strong leadership team, deep organizational alignment, and a renewed commitment to operational excellence, customer centricity, and profitable growth.

## Everest Industries, with its rich legacy of 92 years, operates in markets that offer significant long-term profitable growth opportunities.

The structural drivers of our business - rising demand in rural housing, increasing adoption of modern building solutions in urban construction,

and continued investments in industrial and infrastructure development - provide a strong foundation for sustainable growth. Coupled with our sharper strategic focus, strengthened organizational capabilities, and unwavering commitment to operational excellence, we believe Everest is well positioned to create long-term value for all stakeholders. While we remain mindful of the evolving external environment, we are confident that disciplined execution, customer-centricity, and a relentless focus on profitable growth will enable us to consistently strengthen our market position and outperform the industry over the medium term.

On behalf of the Board, I would like to thank our employees for their dedication, our customers and business partners for their trust, and our shareholders for their continued confidence. We remain firmly committed to creating a stronger Everest and delivering sustainable long-term value for all our stakeholders.

# Shelter Reimagined for Modern India

A roof is not only a cover; it is confidence. For 92 years, Everest Roofing has stood for strength, durability and dependable protection across India. As one of the country’s trusted roofing pioneers, we do more than manufacture roofing materials. We help create safe, reliable spaces for homes, communities, institutions and industries. Backed by nationwide reach and advanced manufacturing, our roofing solutions are designed for India’s diverse climates, supporting comfort in residential settings and faster, efficient, cost-effective construction in industrial applications.

A roof is more than a structure—it is a symbol of protection, resilience, and peace of mind. For Everest Roofing, it embodies a 92-year legacy of strength, reliability, and an unwavering commitment to safeguarding lives and livelihoods. As one of India's most trusted pioneers in roofing solutions, we go beyond manufacturing roofing materials to create durable, dependable spaces that protect millions across the country.

Backed by a robust nationwide presence and advanced manufacturing capabilities, we deliver roofing solutions tailored to India's diverse climatic conditions. From affordable, low-maintenance roofing that enhances comfort and protects families in residential communities, to high-performance roofing systems that improve energy efficiency, accelerate project timelines, and optimise operational costs for industrial applications, our solutions

are designed to meet the evolving needs of a growing nation.

At Everest, our purpose extends beyond covering buildings—we are committed to strengthening communities, enabling progress, and supporting aspirations. As India continues to grow and transform, we remain proud to provide the trusted foundation of protection under which the nation lives, works, and builds its future.

**THE EVEREST SOLUTIONS**

At Everest, we offer a comprehensive portfolio of roofing solutions engineered to address India's diverse climatic conditions, application requirements, and budget considerations. Designed to deliver superior performance, durability, and long-term value, our products combine engineering excellence with practical functionality to meet the evolving needs of residential, commercial, and industrial customers.

**OUR KEY OFFERINGS**

**Everest Hi-Tech**

Our flagship non-asbestos fibre cement roofing solution, Everest Hi-Tech is engineered for superior performance in the most demanding environments. Offering exceptional strength, enhanced corrosion resistance, and advanced fire protection, it is ideally suited for industrial and chemically intensive applications. Backed by GreenPro certification, Everest Hi-Tech reflects our commitment to sustainable, future-ready building solutions.

**Everest Evercool**

Designed with a high Solar Reflectance Index (SRI), Everest Evercool roofing sheets effectively reflect solar heat, reducing indoor temperatures by up to 11°C. Particularly suited to India's warm and humid regions, Evercool enhances occupant comfort while delivering a durable, cost-effective roofing solution that improves energy efficiency for residential and commercial applications, while also offering significant productivity improvements in livestock applications.

**Everest Supercolour**

Combining long-lasting performance with contemporary aesthetics, Everest Supercolour roofing sheets are available in four vibrant shades to meet the growing demand for visually appealing roofing solutions. Designed for rural homes as well as modern residential and commercial structures, Supercolour delivers reliable protection without compromising on design.

**Everest CBS Grey**

The product that laid the foundation of our roofing legacy, Everest CBS Grey remains the most widely used solution in our portfolio. Renowned for its reliability, durability, and versatility, it continues to serve a wide range of applications—from rural housing and agricultural structures to industrial sheds—earning the trust of millions of customers across India.

**Everest Roofing Accessories**

Complementing our roofing solutions is a comprehensive range of precision-engineered accessories, including ridges, northlight curves, barge boards, and EPDM washers. Designed to ensure secure installations, these components enhance leak resistance, improve structural integrity, and contribute to the long-term performance and durability of every roofing system.

Every Everest roofing solution is underpinned by rigorous research and development, supported by application-specific technical expertise, and delivered through an extensive nationwide distribution network—ensuring consistent quality, dependable availability, and lasting value for customers across India.

**BUSINESS HEAD PERSPECTIVE**

Everest Roofing has always believed that leadership comes from staying ahead of changing customer needs. Over the decades, we have built a strong legacy of pioneering products and introducing industry-first innovations that have shaped the roofing category in India. That spirit of innovation continues to define our approach as we prepare for the next phase of growth.

At the same time, we recognise that innovation must be matched by stronger market presence. We are investing in initiatives that enhance the visibility of the Everest brand, deepen engagement with our channel partners, influencers, and customers, and strengthen our footprint across urban, rural, and semi-urban India. These efforts are helping us build a brand that is not only recognised for the quality of its products, but also for the trust and value it delivers.

Today, the industry is evolving rapidly, with customers seeking better performance, greater comfort, and more sustainable solutions. We see this as an opportunity to raise the bar once again. By investing in next-generation products, leveraging digital technologies and AI to better understand and serve our customers, and adopting new ways of engaging with the market, we are building capabilities that will keep Everest at the forefront of the industry for years to come.

As India continues to build and grow, our commitment remains unchanged—to create roofing solutions that improve everyday living while setting new benchmarks for the industry. We are proud of the legacy we have built, and even more excited about the future we are helping shape through innovation, customer-centricity, and responsible growth.

**MARKETING AND DIGITAL INITIATIVES**

During the year, we continued to strengthen the Everest brand by driving greater awareness, preference, and engagement across our key markets. Our marketing efforts were focussed on communicating the differentiated value of our roofing solutions through insight-led, locally relevant campaigns that resonated with customers across rural, semi-urban, and urban India.

**DIGITAL TRANSFORMATION AND STAKEHOLDER ENGAGEMENT**

We accelerated our digital transformation by adopting data-driven marketing practices and AI-enabled capabilities to enhance audience targeting, campaign optimisation, lead generation, and customer engagement. These investments have enabled faster

decision-making, improved marketing effectiveness, and more personalised customer experiences across the buying journey.

Leveraging top digital platforms, we executed multilingual, region-specific campaigns tailored to both B2B and B2C audiences. Our flagship Evercool campaign, #GarmiKiNoEntry, strengthened brand visibility across the country, achieving a reach of over 21 million unique consumers and generating more than 61 million impressions and 23x ROI.

During the year, we also pioneered one of the industry's first structured influencer engagement programmes, expanding the Everest ecosystem beyond traditional channel partners and strengthening advocacy across the construction value chain.

Complementing our digital initiatives, we continued to expand our on-ground brand presence through deeper engagement with channel partners, influencers, contractors, and customers. Together, these efforts are building a stronger, more connected Everest brand while creating a seamless omnichannel experience that reinforces customer trust and accelerates business growth.

**GARMI KI NO ENTRY**

Our flagship #GarmiKiNoEntry campaign strengthened the positioning of Everest Evercool as a high-SRI roofing solution that delivers cooler indoor environments and greater everyday comfort. The campaign reframed roofing from

being a purely functional construction material to an investment in healthier, more productive living and working spaces. By positioning Evercool as an affordable, high-value alternative to conventional grey fibre cement and metal roofing sheets, we reinforced its relevance across residential, commercial, and livestock applications, particularly in the dairy and poultry segments.

Designed as an integrated 360-degree campaign,

#GarmiKiNoEntry combined on-ground engagement with digital storytelling to create awareness, build trust, and accelerate customer adoption. Key initiatives included:

- Mobile Experience Vans that brought live product demonstrations directly to customers across key markets.
- On-site temperature demonstrations showcasing Evercool's superior thermal performance against conventional roofing solutions.

- Canopy campaigns across high-footfall rural and semi-urban markets, creating strong local visibility and facilitating direct customer interactions.
- Participation in sector-focussed exhibitions and direct engagement with livestock farmers, particularly across the dairy and poultry sectors, demonstrating how Evercool helps reduce heat stress, improve animal comfort, and support productivity.
- Channel partner and influencer engagement programmes that strengthened product advocacy, expanded market reach, and supported conversion at the point of sale.
- Regional-language digital campaigns that delivered locally relevant storytelling and deepened customer engagement across diverse markets.

The campaign received an encouraging response across customer segments, with particularly strong acceptance in the dairy and poultry sectors where Evercool's thermal performance directly addresses the challenges of heat stress. Beyond driving awareness, #GarmiKiNoEntry reinforced Evercool's positioning as an innovative, accessible roofing solution that is redefining customer expectations of modern roofing.

**EXHIBITION ENGAGEMENT**

Dairy, Livestock, & Poultry (DLP) Expo Asia, Gandhinagar: Enabled strong visibility for Evercool and Supercolour among Dairy & Poultry farm owners, aggregators, and FPOs.

Krishi Darshan Expo, Hissar: Generated high-value project enquiries, reinforcing Evercool’s credibility in the livestock and agri-segments.

**CHANNEL ENGAGEMENT**

High-Flier: To reward and engage our valued network, our annual channel loyalty initiative featured a successful partner convention in Singapore and Thailand. The program effectively deepened dealer relationships boosted channel motivation and successfully drove market demand for our high-value offerings.

Our digital-first approach, underpinned by AI-enabled marketing capabilities, optimised customer journeys, and integrated CRM systems, reflects our continued transition towards a data-driven and scalable marketing ecosystem. By harnessing real-time insights and advanced analytics, we enhanced campaign effectiveness, improved lead quality, and enabled more personalised customer engagement across the buying journey. These investments have strengthened demand generation, delivered performance that exceeded internal benchmarks, and established a robust digital foundation to support Everest Roofing’s long-term growth and market leadership.

**PERFORMANCE HIGHLIGHTS  
FY 2025-26**

Despite a challenging macroeconomic environment and subdued construction activity, the Roofing business demonstrated resilience by sustaining its market share and strengthening the foundation for long-term growth. Through disciplined execution, targeted market interventions, and continued investments in innovation and brand building, the business successfully navigated demand headwinds while reinforcing its competitive position.

**KEY HIGHLIGHTS**

- **Market Resilience:** Sustained market share in a challenging demand environment through focussed execution, strategic market prioritisation, and a customer-centric go-to-market approach.

- **Enhanced Market Reach:** Strengthened customer engagement and expanded market presence through integrated marketing initiatives, deeper channel partnerships, and targeted outreach across key geographies.
- **Digital Transformation:** Accelerated digital adoption through AI-enabled, data-driven marketing and multi-platform campaigns, enhancing brand visibility, lead generation, and customer engagement.
- **Innovation Pipeline:** Strengthened the product portfolio through continuous innovation, including enhancements to Everest Evercool and capacity expansion of the flagship cool-roof solution, while advancing a robust pipeline of differentiated products to support future growth.

- **Stakeholder-Centric Growth:** Leveraged insights from customers, channel partners, influencers, and institutional stakeholders to sharpen value propositions, strengthen engagement, and foster long-term brand preference and loyalty.

These initiatives have strengthened Everest Roofing’s market position while creating a strong platform for sustained growth through innovation, digital transformation, and deeper customer engagement.

**MARQUEE CLIENTELE**

The trust reposed in Everest Roofing by leading organisations across industries is a testament to the quality, reliability, and performance of our products and solutions. Over the years, we have built enduring relationships with customers by

consistently delivering value, technical expertise, and dependable service across diverse applications.

During the year, we further strengthened our customer portfolio by partnering with several leading organisations. Some of our marquee clientele include:

# A Cooler Tomorrow for Young Minds: Evercool at LACMM College of Law, Haryana

**Location:** Jabuli, Haryana

**Customer:** LACMM College of Law

In the heart of rural Haryana, Lala Ami Chand Monga Memorial (LACMM) College of Law at Jabuli, Haryana near Shahabad-Barara Road, faced a common yet critical challenge: rising classroom temperatures that made learning environments uncomfortable and hindered student focus.

When envisioning the new campus of Lala Ami Chand Monga Memorial (LACMM) College of Law in Jabuli, Haryana, Mr. Kamal Saini, Managing Director, had one clear concern in mind—ensuring a comfortable learning environment for students, even during North India’s scorching summers.

Recognising the need for a better environment for students, Mr. Kamal Saini, Managing Director of the college, reached out to us via a digital enquiry—a promising lead that quickly turned into a collaborative solution. The college had initially considered installing metal roofing with insulation, but after understanding their needs, our team recommended Evercool roofing sheets as a smarter, more integrated alternative.

We introduced Mr. Saini to the benefits of Evercool—particularly its high Solar Reflectance Index (SRI), which offers up to 11°C reduction in indoor temperatures than conventional roofing. Additionally, its less-noise performance during monsoons made it ideal for uninterrupted academic experience throughout the year.

The installation span across 40,382 sq. ft.—wasn’t just about the right roofing solution; it was a step towards building an environment where students could thrive for academic excellence. By choosing Evercool at the construction stage, the institution set a benchmark for thoughtful infrastructure planning—ensuring classrooms that are cooler, quieter, and more conducive to learning from day one. The project stands as a testament to Everest’s core philosophy: REImagining spaces to improve lives through purposeful innovation.

# Boards that Redefine Modern Construction

Our Boards & Panels business is focussed on accelerating the shift from traditional construction materials to new-age, lightweight and dry construction systems. These solutions support faster, cleaner and more efficient construction while helping reduce dependence on natural resources such as sand, aggregates and timber. Designed for versatility, durability and ease of application, our fibre cement boards and panel systems enable smarter construction across homes, commercial spaces, institutions and critical infrastructure.

Everest continued with its journey to lead the category growth of fiber cement boards & panels to replace traditional building products & systems and adopt new-age & generation light weight building systems.

Everest solutions are environmentally friendly as they mitigate the negative aspects of topsoil erosion and deforestation caused by traditional building products. These products and systems help conserve natural resources like sand, aggregate and timber from trees used in traditional forms of construction. Boards & Panels use dry construction techniques which lead to conservation of water resources & also lower amounts to dust generation during construction. Construction waste is also minimised by using these forms of construction.

Being light weight and versatile, using these products & systems can help in reimagining design and construction efficiency. It can effectively help in reduction of overall structural loads enabling lighter foundations and structural frames. This allows for optimised, more cost effective structural designs particularly in high rise buildings. These products are easy to cut and simple to handle. This expedites the installation process

and reduces the labour requirements. Reduced weight also means less fuel consumed during transportation, directly lowering carbon emissions.

Additional advantages of these systems are:

- Improved energy efficiency as components possess excellent thermal insulation properties thus reducing heat transfer & lowering energy consumption for heating or cooling.
- These systems have excellent acoustic properties and are effective in absorbing sound waves, which improves sound insulation & reduces indoor noise pollution.
- They are easier to handle and manoeuvre on-site thus reducing physical strain on workers and also reducing the risk of accidents.
- Earthquake Resilience is another advantage. In seismically active regions, lighter structures experience smaller inertial forces during earthquakes, lowering the risk of catastrophic structural failure.

Looking ahead, our focus is on solidifying our industry leadership. We aim to sustain category creation through differentiated products and

solutions for modern construction and raise awareness amongst the developers and contractors on the merits of dry construction technology.

### PRODUCT OFFERING

During the year, we have built and a business development team to focus on specifications in the drywall and ceilings segment. We offer customers offering customers design solutions with boards, framing systems, fasteners, jointing compounds etc. We plan on enhancing our offering to include items like insulation, jointing tapes and other components that would be required to complete the entire system. Additionally, we would focus on skill development and certification of contractors to ensure work is implemented in systematically as per the laid down SOP's.

Our focus on integrated system solutions enabled the delivery of customised solutions for critical infrastructure in Data Centres, Hospitality, Healthcare, and Commercial spaces. Notably, Everest Rapicon witnessed significant market penetration in South with improved service from the new plant. The product was also value engineered for a fire rating of 175 minutes and up to 39 dB of sound insulation, making it the preferred option over traditional walls.

**BUSINESS HEAD PERSPECTIVE**

The year marked significant progress in strengthening Everest's position as a provider of integrated building solutions. Our continued focus on System solution has enabled us to deepen engagement across commercial, industrial and institutional projects through a solution Solution-led approach that brings together products, technical expertise and execution support.

The stabilisation of our South manufacturing facility has enhanced our ability to serve key markets with greater speed and efficiency, further expanding our presence across the region. At the same time, our dedicated business development teams accelerated specification-led sales by working closely with architects, consultants and developers to drive the adoption of complete wall and ceiling systems.

Product differentiation through consumer insights remained central to our innovation strategy, while initiatives such as Everest NextGen, architect engagement platforms, contractor skilling programmes and the launch of our Contractor Loyalty Program has strengthened our engagement with the influencer ecosystem, reinforced customer trust and fostered long-term partnerships. Enhanced digital outreach and focussed demand generation initiatives has further expanded our market presence and customer engagement.

By combining innovation, technical expertise and strong execution capabilities, we continue to strengthen our leadership in System Solutions and create long-term value for our customers and stakeholders.

**Subramaniam V.**

**MILESTONES ACCOMPLISHED:**

- Focus on the southern market was amped up with the stabilisation of the new plant leading to more than 30% growth in Rapicon Sales in the South.
- Overall B&P had a revenue growth of 8% over the previous year.
- Specifications-led sales by the business development team grew significantly over the last year owing to a system solution-based approach to selling in 11 focus markets. The sales trajectory reflects a clear structural transformation from base-level revenue generation to sustained high-value performance over the past three years.
- Digital Sales grew by 20% with increased focus on performance marketing in focus towns.

- Influencer engaging IP – Everest NextGen 3.0 in association with FOAID garnered a huge response with over 1,000 entries from architects. This year, 3 winners were selected by a grand jury comprising India's top architects.
- Launched Everest Nextgen – Student Installation Competition.

**MARKETING ACTIVITIES UNDERTAKEN**

- Product Differentiation through consumer In-sighting remains a key strategic initiative.
- Business continued to participate in major architect and developer focussed events to generate brand recall and experience.
- Contractor-skilling activities - Kaushal and on-site training helped improve the workmanship and trust on the new-age building materials

gaining strength against traditional alternate products.

- Contractor Loyalty Program was launched for South zone, and 1,000+ retail contractors are already onboarded.
- Business conducted demand generation activities for new products through Architect, Interior Designers and Project Associates.
- Direct consumer-led campaigns promising quality products that enable faster construction and quick service was initiated in Kerala and Karnataka for brand engagement and increased demand from the new plant. Digital sales grew by 30% over last year in Kerala and Karnataka.

# Smart Solutions for Modern Hospitality: Hotel Benhur, Kochi, Kerala

**Total area:**  
9,000 sq. ft.

**Application:**  
Roof tile underlay and partitions

**Products used:**  
Everest MultiPro and Everest SuperHD

Hotel Benhur demonstrates how Everest Boards can support efficient, high-performance construction in hybrid structures. The project combined Pre-Engineered Building elements with RCC, requiring materials that could deliver speed, flexibility and durability in a tropical environment.

Everest Boards were initially selected as roof tile underlay to provide moisture protection and thermal insulation. As the project progressed, the solution was extended to internal partitions as well. Fibre cement board drywalls were preferred over gypsum because they offered stronger structural stability, better impact resistance in high-traffic areas and improved performance in high-humidity conditions.

When used in a layered drywall system with insulation, the boards helped achieve STC ratings of 45–60+ dB, reducing noise between rooms and enhancing guest comfort across multi-occupancy floors. Everest Boards integrated smoothly with both PEB and RCC structures, helping streamline construction, reduce complexity and deliver a clean, high-performance finish.

# Steel Structures that Scale with Speed

Our Pre-Engineered Building solutions deliver custom-designed, cost-effective and high-performance steel structures for modern construction needs. As one of India's integrated players in this space, we design, supply and execute projects across industrial, warehousing, infrastructure, commercial and institutional applications. Trusted by leading multinational corporations and blue-chip companies, we have built enduring customer relationships through consistent quality, engineering excellence and reliable execution, earning repeat business from some of India's most respected organisations. Built for speed, flexibility and long-term value, our PEB solutions help customers create scalable, durable and future-ready infrastructure.

## THE EVEREST SOLUTION

Our Steel Buildings division provides end-to-end solutions across the complete project lifecycle, from design and engineering to fabrication, delivery and installation. Every structure is custom-designed to meet specific client requirements, while factoring in location-based parameters such as wind conditions, seismic activity, functional loads and project usage.

### Core Offerings

Our portfolio encompasses a range of steel structures, specifically tailored for:

We use advanced digital platforms, including SAP, Tekla Structures, STAAD Pro, AutoCAD and MBS, to ensure engineering precision, optimised load performance and seamless assembly at site.

### Key Differentiators:

- Faster construction timelines, enabling quicker project delivery
- Flexible and modular designs that support customisation and future expansion
- Energy-efficient and sustainable building solutions
- Lower lifecycle costs, supporting long-term value creation
- Assured structural quality with strong safety compliance
- Low-maintenance structures that enable faster returns

### Market reach and impact

In FY 2025-26, our PEB business strengthened its execution capabilities across sectors and continued to receive repeat orders from leading customers, reflecting the trust they place in our quality, engineering capabilities and execution excellence. This continued confidence reinforces our position as a preferred partner for customised steel building solutions that combine engineering precision, construction speed and long-term performance.

**MARKETING AND DIGITAL INITIATIVES**

In FY 2025-26, our marketing efforts were strategically focussed on strengthening brand visibility in the B2B segment and accelerating enquiry-led lead generation. With an emphasis on thought leadership, digital engagement, and ecosystem collaboration, we undertook a series of targeted initiatives to reinforce Everest's position as a trusted partner in the Pre-Engineered Buildings (PEB) space.

**Key Initiatives:**

- Run social media campaigns featuring site progress, before-and-after transitions, and real-world application stories to build relevance and recall.
- Promoted the brand through print advertisements in leading construction and infrastructure publications to expand reach and reinforce positioning.
- Enhanced social media presence through regular, interactive content and community-focussed engagement.
- Collaborated in Steel Day 2025 as a Silver Partner, organised by SSMB Magazine, to increase visibility within the steel construction ecosystem.

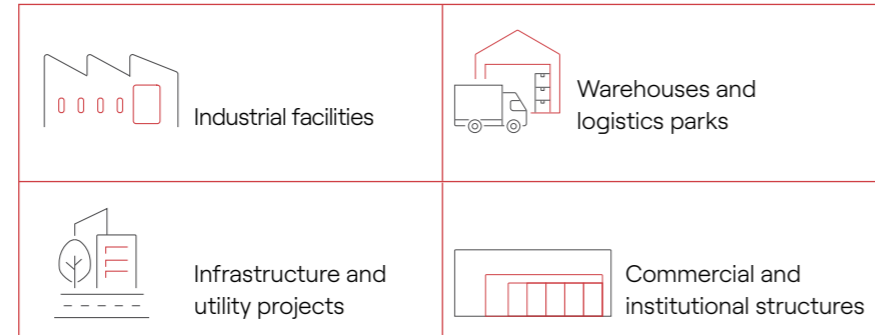

These integrated efforts contributed to higher brand engagement, increased quality enquiries, and deeper market penetration, reinforcing Everest's commitment to innovation, customer centricity, and industry leadership.

**Design Tools & Engineering Software**

We are a recognised leader in the PEB Solutions category, known for our quality offerings and client-centric

service model. Over the years, we have built a reputation as a reliable partner for multinational and blue-chip companies seeking world-class structural steel solutions.

Our PEB offerings serve a wide spectrum of needs, including:

To ensure design precision, performance compliance, and timely delivery, our engineering team leverages advanced software tools such as:

- SAP
- Tekla Structures
- STAAD Pro

- AutoCAD
- MBS

These tools enhance our ability to offer customised, location-optimised, and regulation-compliant structures cementing our position as a preferred PEB solutions provider in India and abroad.

**BUSINESS HEAD PERSPECTIVE**

FY 2025-26 was a year of strategic discipline and long-term value creation for our Pre-Engineered Buildings business. While we adopted a selective order intake approach in a highly competitive environment, our focus remained firmly on securing sustainable and profitable projects that strengthen our future growth trajectory. We continued to deepen relationships with key customers and expand our presence across

high-potential sectors. By prioritising execution excellence, disciplined risk management and operational efficiency, we are creating a stronger foundation for sustainable growth while reinforcing Everest's position as a trusted partner in the Pre-Engineered Buildings sector.

**Nachiket Badnore**  
Business Head - Everest Steel Building Solutions (PEB)

**WAY FORWARD**

Looking ahead, we will strengthen ESBS by deepening our presence in high-growth sectors, advancing engineering excellence through structural innovation and smart steel technologies, and reducing project cycle times through digital design tools and partner-led execution. We will continue to expand our solution value by integrating insulation, solar-ready roofing and mezzanine systems into turnkey offerings that meet evolving functional and commercial needs.

**Segment Growth**

We aim to deepen our presence in high-potential sectors such as warehousing, food processing, e-commerce logistics, and solar module manufacturing segments where speed, scalability, and reliability are critical.

**Engineering Excellence**

We will invest in structural innovation, modular design solutions, and smart steel technologies to enhance the performance, flexibility, and sustainability of our buildings.

**Execution Speed**

By leveraging advanced digital design tools, early-stage site engagement, and a robust partner-driven installation ecosystem, we intend to significantly reduce project cycle times.

**Solution Value**

We are focussed on delivering integrated turnkey solutions by combining insulation, solar-ready roofing, and mezzanine systems into a cohesive offering that meets both functional and commercial needs.

# Elevating Infrastructure Excellence at Svarn Infratel, Giloth, Rajasthan

Everest Industries partnered with Svarn Infratel, a leading manufacturer of cables for the automotive, defence, telecom and commercial sectors, to develop a next-generation manufacturing facility at Giloth, Rajasthan. The project reflected Svarn Infratel's growth ambitions and our ability to deliver customised, future-ready steel infrastructure with precision and speed.

**Project objective**

Svarn Infratel required a facility that could support large-scale manufacturing while improving internal logistics, storage efficiency and space optimisation. We delivered a tailored steel building solution that addressed these needs through high-performance engineering, efficient layout planning and future-ready design.

**Engineering highlights**

- Lift cut integrations enabled smooth vertical material movement and reduced handling time
- A heavy-duty mezzanine floor created robust storage capacity without compromising workflow
- A 6.5-metre-high vehicle opening supported efficient movement of goods vehicles
- A high-ridge structure improved ventilation, natural light and flexibility for machinery and future upgrades

**Impact delivered**

The facility improved operational efficiency through better movement, large-span spaces and optimised workflow. Its modular design supports future expansion with minimal disruption, while the structural design ensures durability, ease of maintenance and sustained performance under industrial use. The project reinforces our role as a trusted infrastructure partner for India's manufacturing sector.

# MANAGEMENT DISCUSSION AND ANALYSIS

## OVERVIEW OF THE GLOBAL ECONOMY

FY 2025-26 unfolded against a backdrop of persistent geopolitical strain. The OECD's interim Economic Outlook projected global GDP growth easing to 2.9% in 2026 and then edging up to 3.0% in 2027, on account of elevated trade barriers and policy uncertainty impacting economic growth. Protectionist impulses, most visibly the elevated US effective tariff regime, continued to weigh on cross-border trade flows and global supply chains, even as certain bilateral tariff reductions offered partial relief to emerging economies including India.

Energy markets remained volatile. The conflict in the Middle East, resulted in disruptions to shipments through the Strait of Hormuz and damage to energy infrastructure, which in turn triggered a surge in global energy and commodity prices. Despite these headwinds, infrastructure development, digital transformation, and the ongoing energy transition continued to anchor long-term growth expectations globally.

## OVERVIEW OF THE INDIAN ECONOMY

India sustained its position as the fastest-growing major economy for the fourth consecutive year in FY 2025-26. Advance estimates released by the Ministry of Statistics and Program Implementation (MoSPI) are projecting real GDP growth for FY26 at 7.4%, up from 6.5% in FY 2024-25, with nominal GDP expanding at 8.6% to reach Rs. 345.47 lakh crore. This performance has been driven by private consumption and capital investment. The share of private consumption expenditure in GDP rose to 61.5%, supported by easing inflation (with the exception of the 4th quarter), stable employment conditions, and improving real purchasing power. Gross Fixed Capital Formation is projected to expand 7.8%, on

account of strong momentum in both public infrastructure spending and private investment.

India also cemented its status as the world's fourth-largest economy during FY26, with an estimated GDP touching approximately USD 4.18 trillion. The Reserve Bank of India revised its growth forecast upward to 7.3%. The World Bank and the IMF both projected strong growth, while Fitch raised its FY26 forecast to 7.4% on the back of stronger consumer demand. Major monetary support was provided through a cumulative 125 basis point reduction in the policy repo rate since February 2025.

India's trade architecture also broadened meaningfully in FY26. Free trade agreements were concluded with the United Kingdom, Oman, and New Zealand. A landmark FTA with the European Union was concluded after three years of negotiations, pending European Parliament ratification. Active negotiations with the United States, alongside the implementation of the Labour Codes to consolidate 29 central laws into four simplified frameworks, further enhanced India's investment climate. The country seems to be on track towards its long-term trajectory toward becoming a USD 30 trillion economy by 2047.

## Rural India Growth

Rural India continues to occupy a central place in India's inclusive growth agenda. The FY26 Budget accorded agriculture with the role of the primary engine of rural prosperity. The Pradhan Mantri Kisan Samman Nidhi (PM-KISAN) scheme is expected to provide direct income support to over 110 million farming families, while the PM Fasal Bima Yojana expanded insurance coverage to protect rural incomes against climatic shocks.

Rural inflation (which has consistently outpaced urban inflation) eased somewhat in FY26, aided by favourable farming conditions and supply-side interventions that brought vegetable and pulse prices under control. Headline CPI inflation declined to 1.7% by early 2026, providing meaningful relief to rural household budgets. Flagship programmes such as the Deen Dayal Antyodaya Yojana: National Rural Livelihoods Mission (DAY-NRLM) and Pradhan Mantri Awas Yojana - Gramin (PMAY-G) continued to deliver in terms of improved rural livelihoods, financial inclusion, and housing access for underserved households. Bridging the rural-urban development gap remains a structural imperative for ensuring equitable, long-term growth.

## Urban India Growth

India's urban transformation continued on the back of large-scale demographic shifts and sustained government investment. The country's urban population is projected to reach approximately 900 million by 2047 (an addition of nearly 392 million people since 2022) as rural-to-urban migration accelerates and large towns progressively evolve into urban centres.

The Smart Cities Mission, with more than 7,000 projects completed or underway across 100 designated cities, continued to drive technology-enabled urban planning, integrating digital governance, smart traffic management, and efficient water systems. The Union Budget 2026-27, presented in February 2026, allocated Rs. 5,000 crore per year for five years for City Economic Regions, with a sustained focus on Tier-2 and Tier-3 cities as emerging growth centres. Housing and urban development received a significant boost, as the Union Housing and Urban Affairs Ministry's FY26 budget increased by 18% to Rs. 96,777 crore.

Capital expenditure allocation for FY26 stood at Rs. 11.21 lakh crore (3.1% of GDP), and the Union Budget 2026-27 raised this further to a record Rs. 12.2 lakh crore (9% increase), reflecting the government's continued commitment to infrastructure-led growth.

## Industrial Sector in India

India's industrial sector demonstrated resilience and adaptability in FY 2025-26. Cement production grew 7.3% in the April-October 2025 period on a year-on-year basis, supported by the government's infrastructure push and sustained real estate activity. Steel production rose 10.3% in the same period, with demand driven by the infrastructure and construction sectors, where government projects contribute 25-30% of usage. A 12% safeguard duty on steel imports, introduced during the year, further supported domestic producers.

Manufacturing continued to consolidate its role as a growth engine. Announced in Budget 2025-26, the National Mission on Manufacturing (NMM) serves as a key catalyst for industrial growth, targeting a rise in manufacturing's GDP share to 25% by 2035, creation of 143 million jobs, and expansion of merchandise exports to USD 1.2 trillion through deeper global value chain integration. Manufacturing PMI remained firmly expansionary, reflecting strong new order inflows and rising export demand. The construction sector, which contributes approximately 8-9% to GDP and employs over 71 million workers, benefited from record government capital expenditure and the continued momentum in housing and commercial real estate.

The MSME sector received strengthened policy support in the FY26 Union Budget. The credit guarantee cover under the CGTMSE scheme was raised from Rs. 5 crore to Rs. 10 crore for micro and small enterprises.

## Real Estate Sector and Housing Growth

India's real estate sector entered a more mature, performance-driven phase in FY 2025-26, characterised by steady consolidation, strong capital inflows, and a decisive structural shift toward premium and luxury housing. According to industry estimates, housing sales across the top seven cities remained robust, with the overall residential market value expected to cross Rs. 6.65 lakh crore in FY26, reflecting nearly 20% year-on-year growth in value terms. Homes priced above Rs. 1 crore accounted for approximately 62% of total residential sales in the first half of 2025 across the top eight cities, up from 51% a year earlier, indicating a decisive premiumisation of demand.

Institutional capital continued to flow strongly into the sector. India's real estate sector experienced a strong resurgence in FY26, with private equity (PE) deals hitting a 7-year high of USD 4.3 billion, a 16% rise over FY25. The sector saw increased investor confidence with 60 distinct transactions, dominated by the office segment, which secured USD 1.6 billion, largely driven by Global Capability Centres (GCCs).

Affordable housing remained a government priority. The PMAY Urban 2.0 programme continued its mission to address the housing needs of 1 crore urban poor and middle-class families, backed by Rs. 10 lakh crore in investment. This is being bolstered by several key State-level schemes too.

GST 2.0 rationalisation is expected to reduce construction costs by 3-4%, lower housing prices by 5-8% and hence boost demand in the affordable and mid-segment markets. The Union Budget 2026-27 also allocated Rs. 1 lakh crore to the Urban Challenge Fund for city redevelopment and infrastructure transformation.

**OUTLOOK**

India's economic outlook for FY27 remains positive. The Economic Survey 2025-26 projects real GDP growth of 6.8-7.2% for FY27. Domestic demand, underpinned by robust private consumption and rising real incomes continues to be the primary growth engine, providing meaningful insulation against global headwinds. Favourable agricultural prospects, the sustained effects of GST rationalisation, and strong corporate and banking sector balance sheets are expected to bolster economic activity in the year ahead.

Trade diversification through the recently concluded FTAs, alongside active negotiations with the US, offers additional upside for India's export-oriented sectors, including building materials. Infrastructure capex, budgeted at a record Rs. 12.2 lakh crore for FY27, will continue to provide strong demand visibility for the construction and building materials sectors. India remains among the most attractive destinations for global long-term capital, reflecting sustained confidence in its structural growth story.

**BUSINESS SEGMENT OVERVIEW**

**Roofing  
Industry Overview**

The roofing industry caters to a diverse range of applications across residential, commercial, and industrial segments, offering materials such as Asbestos Cement Sheets (AC), non-AC alternatives, metal roofing, tiles, and other substitute solutions.

The Indian Fibre Cement Roofing industry is estimated at approximately 43-44 lakh MT per annum and remained largely flat during FY 2025-26, registering modest growth of around 1%, reflecting a mature market demand across key segments. The industry continued to face headwinds arising from a highly price-sensitive customer base, increasing competition from

alternative roofing categories, and persistent inflationary pressures on input costs.

The sector also witnessed continued cost pressures due to rising raw material prices, particularly for imported inputs due to the depreciation of the Indian Rupee against the US Dollar. This factor placed significant pressure on industry profitability during the year.

Despite near-term challenges, the long-term outlook for the roofing industry remains stable, supported by sustained demand for affordable, durable, and easy-to-install roofing solutions, particularly across rural and semi-urban markets. Government initiatives focussed on rural

housing, infrastructure development, and housing access for economically weaker sections continue to provide structural support to the sector. Programmes such as Pradhan Mantri Awas Yojana (PMAY), along with continued investments in rural development and allied infrastructure, are expected to support long-term demand creation for cost-effective roofing solutions.

**Performance Overview**

The business delivered disappointing performance during FY 2025-26, but clear actions have been taken with a clear focus on improving profitability and strengthening long-term competitive positioning.

The Company remained focussed on disciplined cost management and operational efficiency initiatives. A key strategic shift during the year was the sharper geographical prioritisation of markets. This market clustering approach is expected to enhance logistical efficiencies, improve service responsiveness, and enable a leaner and more effective sales deployment model.

The Company also took a proactive leadership position in the industry in driving pricing corrections in the second half to partially offset inflationary cost pressures.

The pricing interventions undertaken during the year, coupled with ongoing cost optimisation efforts, contributed meaningfully toward margin recovery despite inflationary pressure and depreciation of Indian rupee in the second half.

Premiumisation remained a core strategic priority during the year. The Company witnessed strong momentum in its premium roofing portfolio, with Evercool sales volumes growing 44% over the previous financial year. This reflects increasing customer acceptance of value-added roofing solutions and validates the Company's focus on differentiated offerings that enhance both customer value and margin.

To further strengthen channel engagement and demand generation, the Company launched a one-of-its-kind digital influencer loyalty programme aimed at driving stronger advocacy and business conversion through key roofing influencers. This initiative is expected to deepen engagement with roofers and create a sustainable demand-generation platform over time. The Company also continued to sharpen its go-to-market approach by focussing resources on strategically relevant geographies that offer stronger operational leverage and improved route-to-market economics.

While overall industry demand remained flattish, the actions undertaken during the year have helped the Company recover margins, strengthen market fundamentals, and build a stronger operational foundation for FY 2026-27.

Differentiated products and system solutions will enable Everest to maintain a competitive advantage across its customer segments.

**BOARDS & PANELS  
Industry Overview**

India's Fibre Cement Boards industry estimated at about a million MT (Rs 1,800 crores), is expected to grow at a CAGR of 10-12% over the next 5 to 7 years. Extensive urbanisation and industrialisation across India have led to increased construction activity in residential, commercial, and infrastructure segments. Growing environmental consciousness and green building initiatives are driving demand for eco-friendly and sustainable construction materials. Consequently, demand for products such as fibre cement boards is expected to increase steadily.

The industry's total installed capacity is estimated at approximately 13 lakh MT. Major fibre cement players, along with new entrants, are proactively adding capacity to meet rising demand. Therefore, capacity utilisation and offtake in the local geography of manufacturing plants will be critical to success for the Company. Expected growth in hospitality, healthcare, commercial real estate, infrastructure, and the increasing development of data centres are likely to drive strong growth for this category over the next decade. Additionally, wider adoption of new-age dry construction systems by individual home builders are likely to further accelerate industry growth.

The domestic market did not witness any significant increase in the cost of key raw materials such as cement, pulp, and silica. Freight rates largely remained stable in the domestic market.

**Performance Overview**

Differentiated products and system solutions will enable Everest to maintain a competitive advantage across its customer segments. Sales grew at 15%, over the previous year on account of robust performance in the South, in Panels and Exports. Going forward, the business will continue to focus on product differentiation and offering system solution. Geopolitical uncertainties could impact exports in the short term.

**ESBS**

**Industry Overview**

The Pre-Engineered Buildings (PEB) industry continued to witness strong growth momentum, driven by rapid industrialisation, urban infrastructure development, and increasing government focus on manufacturing and logistics expansion. The PEB market is projected to grow at a CAGR of approximately 12% in the next 5 years.

The increasing adoption of PEB solutions across commercial, industrial, warehousing, infrastructure, and residential applications is reshaping the construction landscape. Businesses are increasingly preferring PEB structures due to their cost efficiency, faster project execution, design flexibility, sustainability benefits, and lower maintenance requirements compared to conventional construction methods.

Key industry trends include greater customisation in structural design, advancements in engineering and manufacturing technologies, and the adoption of digital tools such as 3D modelling, Building Information modelling (BIM), and automation in fabrication and construction processes. These innovations are, reducing project timelines and enhancing the quality of the offerings.

The industry is also benefiting from rising investments across sectors such as warehousing and logistics, renewable energy, semiconductors, electronics, heavy manufacturing, food & beverages, and industrial infrastructure. Government initiatives promoting industrial corridors, smart cities, "Make in India", and infrastructure modernisation are further supporting market expansion.

In this evolving landscape, ESBS is strategically scaling up its capabilities and strengthening its market presence to capitalise on emerging opportunities across multiple high-growth sectors.

**Cost Overview**

Steel, being the primary raw material in PEB manufacturing, witnessed a sharp increase in prices towards the latter part of the financial year as compared to the previous year. The volatility in steel prices was largely influenced by global geopolitical uncertainties, supply chain disruptions, and concerns around energy availability and costs across international markets.

However, continuous innovation in manufacturing processes, optimised structural design, improved project planning, and efficient utilisation of resources helped enhance operational competitiveness within the PEB industry.

**Performance Overview**

During FY 2025-26, Everest's PEB division topline declined by 40% compared to the previous financial year. The decline was primarily attributable to a renewed focus on building strong execution capabilities in order to scale up in FY 2026-27.

Despite the short-term revenue impact, the business remained focussed on securing sustainable and profitable orders within carefully selected strategic markets and segments. The emphasis continued to be on improving order quality, strengthening margins, enhancing execution efficiency, and building a resilient project pipeline aligned with long-term growth objectives.

**FINANCIAL PERFORMANCE**

In the financial year 2025-26, Everest Industries faced a dynamic macroeconomic environment, marked by ongoing challenges, including rising input costs and inflationary pressures that impacted its operational expenses. As a result, there was pressure on margins across multiple business segments. The Company responded by increasing prices successfully, increasing productivity and lowering its cost structure in the second half of the year. The company also recognised significant one-time charges related to obsolete inventories, doubtful debts and increased accruals related to the labour code changes. With these moves, the Company is well positioned to be profitable in 2026-27.

**RISKS AND OPPORTUNITIES**

**Opportunities:**

India's FDI environment continued to strengthen in FY26, supported by PLI schemes, simplified regulatory frameworks, and improved ease of doing business. Record infrastructure capex of Rs. 11.2 lakh crore in FY26, rising to Rs. 12.2 lakh crore in FY27, is creating strong structural demand for building materials across cement, steel, fibre cement boards, and roofing products. The ongoing PMAY programme, Smart City investments, and the Urban Challenge Fund are sustaining construction momentum with strength in Tier-2 and Tier-3 cities, where market penetration for branded building material players remains relatively low.

The deepening premiumisation of housing, with demand for quality materials, sustainable design, and smart features rising sharply, opens new product and positioning opportunities across the value chain. Green construction, energy-efficient materials, and ESG-compliant developments are emerging as important demand drivers as both institutional investors and end-users increasingly prioritise sustainability credentials. India's landmark trade agreements with the UK and the EU open new export corridors for building material manufacturers. Digital channels in distribution, rising brand consciousness among Tier-2 and Tier-3 buyers, and an expanding contractor/influencer ecosystem further expand market access opportunities.

**Risks:**

Global geopolitical uncertainty remains a key risk. Escalating geopolitical tensions, particularly the evolving Middle East conflict and its impact on energy and commodity prices, pose material input cost risks for energy-intensive building material segments, including cement and steel. Trade policy unpredictability, particularly US tariff dynamics, creates additional volatility in global supply chains and commodity markets. This has adverse impact on household purchasing power and construction activity.

Uneven monsoons and climate-related disruptions affect construction activity and seasonal demand, particularly in rural and semi-urban markets. While affordable housing demand will be large, execution risk around PMAY delivery timelines, land acquisition delays, and skilled labour shortages could moderate the pace of construction activity. Urban-rural inequality, rising input costs, and gaps in infrastructure access remain barriers to genuinely inclusive growth. Balancing rapid development with Environmental, Social, and Governance (ESG) priorities, particularly carbon footprint management in construction, will be a challenge for the sector in FY27 and beyond.

In summary, the strategic environment for building materials in India is favourable, anchored by record infrastructure investment, housing demand tailwinds, and a growing economy. Disciplined execution, sustainability integration, and market development in emerging urban centres will be the key levers for value creation in the year ahead.

**Raw Material Price Volatility**

Chrysotile fibre, cement, and steel are the primary raw materials used by the Company. Fluctuations in these raw material prices impact the Company's profitability. The Company endeavours to pass on price increases to customers, to the extent possible, while simultaneously undertaking cost optimisation initiatives to mitigate the impact on margins. The Company has also implemented robust procurement procedures and processes to minimise the impact of raw material price volatility.

**Availability of Chrysotile Fibre and Wood Pulp**

Chrysotile fibre and wood pulp are sourced from a limited number of global suppliers. The ongoing geopolitical conflict between Israel and Iran continues to pose risks to the consistent supply of these critical raw materials. To mitigate these risks, the Company has implemented various de-risking strategies, including identifying and developing alternative sourcing arrangements across multiple geographies. In addition to securing supply continuity, the Company has undertaken several cost optimisation initiatives. Such as optimisation of fibre mix and annual contract with supplier.

**OVERVIEW OF HUMAN RESOURCES**

Everest is absolutely committed to living its values of Respect, Excellence and Integrity in its culture. This helps foster a people-centric and performance-driven culture that encourages collaboration, continuous learning and operational excellence. The focus is on strengthening talent capabilities, enhancing employee engagement and building a future-ready organisation aligned with business priorities.

**HR Initiatives**

During the year, the Company strengthened its people processes and systems to enhance its employee experience and organisational effectiveness. The Everest Competencies Framework was launched and integrated into the Performance Management System to further align employee development with business and behavioural expectations.

An Employee Reimbursement (ER) Module was launched organisation-wide through the HR Portal to enhance process efficiency and employee experience. An OCR-enabled reimbursement claim processing was also introduced during the year to simplify claim submission and improve turnaround time.

A 90-Day Turnaround Program was launched in Q3 with a focussed agenda for improving profitability through seven Must Win Battles (MWBs) comprising Quality, Service, Price, Value Added Sales, Cost, Productivity and Volume. Monthly townhalls were conducted across locations to communicate progress, achievements and business priorities linked to these focus areas.

The 90 NXT Plan was subsequently rolled out in Q4 as a transformation journey focussed on strengthening profitability and reimagining ways of working across the organisation. The initiative emphasised on standard Ways of Working (WOWs) for improving operational excellence and continuous improvement. The WOWs included Care of Environment, Six Sigma, Vector Flow, Sales E2 (Efficiency & Effectiveness), Preventive Maintenance, Customer Insights & Loyalty, Partnerships & Alliances and Digitalisation.

The Company also continued to strengthen employee lifecycle processes through structured onboarding interventions, employee feedback mechanisms and induction programmes aimed at improving employee integration and engagement across locations.

The Company continued to strengthen its talent pipeline across various levels. This included leadership hiring, campus engagement and internal talent movement initiatives. During the year, leadership and critical hiring was undertaken across businesses and functions to support organisational growth requirements.

**Employee Engagement and Recognition**

Various engagement initiatives including Founder's Day celebrations, Brew & Brainstorm sessions with leadership, festive celebrations, Umang (Singing & Dancing Talent Competition) month-end engagement activities and wellness initiatives were organised during the year. The Company also continued to strengthen employee connect through digital engagement.

The Company undertook several initiatives to foster collaboration, inclusion and employee connect across locations. During the year, the Company also improved workplace infrastructure and employee facilities to create a collaborative work environment for employees. Core Values (REI) Awards were given to recognise employees and teams demonstrating exemplary display of organisational values and business contribution. In addition, Quarterly Functional and Business Rewards & Recognition initiatives were conducted during the year to celebrate employee achievements across functions and locations.

**Industrial Relations**

The Company maintained cordial industrial relations across all manufacturing locations during the year. Progress was made on Long Term Settlement (LTS) discussions across manufacturing units through continuous engagement and dialogue with union representatives and employees and a Long Term Settlement was signed at the Bhagwanpur Plant in an amicable manner. The Company continued to undertake various initiatives to strengthen manufacturing

HR processes, employee communication, engagement and statutory compliance across locations.

Monthly Plant Town Halls were organised for updating all blue collar employees on plant as well as business performance. Good Performing workmen were recognised in Plant Town Hall meetings, as 'REI - STAR OF THE MONTH', with a certificate, memento gift as well as Recognition Badge (Lapel Pin) to be worn on their shirt, for that month.

**Talent Development**

The Company continued to strengthen its talent pipeline across various levels. This included leadership hiring, campus engagement and internal talent movement initiatives. During the year, leadership and critical hiring was undertaken across businesses and functions to support organisational growth requirements.

Flagship leadership development programmes including Pravridhhi and Manager Accelerator Program (MAP) were conducted during the year to strengthen managerial and leadership capabilities across functions and businesses.

Various functional, behavioural, technical and sales capability development programmes were conducted across locations during the year. This included M.O.R.E (Mastery of Roofing Execution), a sales management and capability-building programme for Roofing Sales employees across all zones, along with programmes focussed on communication skills, advanced Excel, operational excellence and technical capability enhancement.

The Company also continued its focus on workmen development through "Safalta ki Udaan", a structured upskilling initiative conducted across plants for permanent workmen. "Phase 2 of Manthan", was also launched during the year to further strengthen workforce capability and operational effectiveness.

"Netrutva – Ek Junoon", an engagement and development initiative for Union Leaders, was conducted to create greater awareness on leadership responsibilities and strengthen collaboration and alignment with organisational objectives.

The Company further strengthened its digital learning ecosystem through the Everest Edvantage platform by launching multiple e-learning modules covering behavioural, functional, leadership and digital capabilities. Learning interventions on emerging technologies including ChatGPT and digital productivity tools were also organised during the year.

**Employee Health and Safety**

Employee health, safety and wellbeing continued to remain a priority for the Company. Various training programmes and awareness sessions on road safety, defensive driving, workplace safety, first aid and emergency preparedness were conducted across office and plant locations.

Mock evacuation drills and safety awareness initiatives were organised regularly to reinforce safety culture across locations. POSH awareness sessions and Internal Committee capability building programmes were also conducted during the year to strengthen awareness and promote a safe and respectful workplace.

The Company also continued its focus on workmen development through "Safalta ki Udaan", a structured upskilling initiative conducted across plants for permanent workmen. "Phase 2 of Manthan", was also launched during the year to further strengthen workforce capability and operational effectiveness.

**OVERVIEW RESEARCH & DEVELOPMENT (R&D):**

During FY 2025-26, the Research & Development (R&D) department continued to focus on product innovation, quality improvement, cost optimisation and operational excellence across the organisation. The department worked on initiatives including new product development and enhancing product performance. Various optimisation and process improvement projects were undertaken to optimise raw material usage. Cost-saving initiatives to improve operational efficiency.

The R&D team also worked closely with manufacturing and procurement functions on raw material sourcing and optimisation initiatives. Alternate vendor development and qualification activities were implemented. Focus was also given to strengthening testing procedures and analytical protocols for raw materials and finished products to improve quality assurance systems. Cross-functional collaboration with manufacturing, procurement, quality, marketing and supply chain teams ensured smooth implementation of the various initiatives.

**OVERVIEW OF IT:**

IT at Everest focussed on supporting business growth and enhancing efficiency through automation in the areas of Quality, Service, Sales and Manufacturing Operations. It included implementation of initiatives such as Complaints Module for faster complaint processing, OTIF Reporting, Leads and Beat Plan Module for the CRM system. Cost savings of Rs. 90 lakhs INR were realised by optimising servers and ERP support services. Initiatives such as automation of GST reconciliation and GST payment block functionality, along with payment centralisation and stock ageing report enabled improving productivity.

Other key initiatives implemented during the year included Darwin box (HRMS) integration with SAP, segregation of duties in SAP, a new Loyalty App for Roofing & Boards, a digital application for safety governance and management for employees across plants and offices.

Many more significant initiatives and developments are in the pipeline and this will build a strong foundation for enhancing innovation, scalability, productivity and customer experience in line with the Company's long-term strategic goals.

**OVERVIEW OF EHS:**

To further strengthen its Environment, Health and Safety (EHS) framework, the Company undertook a detailed baseline review and activity-wise risk assessment across all manufacturing plants and operational locations. Based on these findings, focussed action plans are being implemented for systematic closure and mitigation of identified risks. Significant emphasis was placed on strengthening statutory compliance management across factories, with continuous monitoring and improvement initiatives to ensure sustained compliance and operational discipline.

Leadership commitment towards safety continued to remain a strong pillar of the Company's EHS culture. Monthly townhall sessions across the organisation commenced with safety updates and discussions led by the Chairman and Managing Director, reinforcing the importance of safety as a core organisational value. These sessions provided a platform to review safety performance, share learnings, discuss key concerns, and strengthen employee engagement towards proactive safety practices across all levels of the organisation.

During the year, the Company organised National Safety Month and Road Safety Month campaigns across all plants and offices. Multiple awareness activities, competitions, training sessions, emergency preparedness programmes, and employee engagement initiatives were conducted with active participation from employees, contractual workforce, families, and nearby communities to further strengthen the culture of safety beyond the workplace. In addition, dedicated road safety awareness sessions and defensive driving programmes were conducted for sales and marketing

teams to ensure employee safety beyond manufacturing operations, particularly for personnel involved in extensive travel activities.

During the year, the Company identified the Top 10 Critical Risks associated with its business operations and launched a structured "Life Saving Golden Rules" initiative. Clear roles, responsibilities, and accountability were defined at every organisational level, supported through focussed awareness drives, capability-building programmes, and behavioural reinforcement sessions across all units.

The Company also intensified efforts towards proactive hazard identification and closure by increasing participation of contractual employees in EHS reporting and corrective action processes. Special initiatives were undertaken to promote employee health and wellbeing, wherein occupational health doctors conducted regular awareness sessions on employee health, occupational hygiene, heat stress management, and preventive healthcare practices. There was ongoing focus on asbestos risk management and workplace safety. The plant leadership teams undertook dedicated asbestos monitoring rounds and general safety inspections across manufacturing sites. Leadership involvement and visibility further strengthened accountability and proactive risk management practices on the shop-floor level.

As part of its commitment towards operational excellence and global standards, the Company also focussed on integrating its management systems for Quality, Environment, and Occupational Health & Safety. These efforts resulted in successful Integrated Management System (IMS) certification covering ISO 9001, ISO 14001, and ISO 45001 standards from DQS. Everest will continue to strengthen its EHS culture, enhance employee participation, improve risk governance, and reinforce its commitment towards providing a safe, healthy, and environmentally responsible workplace across its operations.

**INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY**

The Company has established a robust internal control framework designed to achieve its operational, compliance, and reporting objectives effectively. Its policies and procedures are structured to align with both its current operations and future growth strategies. To ensure continuous improvement and mitigate risks, the Company has implemented a comprehensive system of internal controls, complemented by external audits.

The Chief Internal Auditor reports to the Audit Committee. The capabilities of the audit team are reviewed by the Audit Committee. Additionally, the adequacy of internal controls, financial policies, risk management strategies, key audit findings, and accounting compliance are regularly reviewed by the Audit Committee of the Board of Directors, ensuring transparency and accountability in operations.

## OVERVIEW OF CSR:

Corporate Social Responsibility ("CSR") initiatives focussed on sustainable community development. The Foundation's interventions are centred around four key areas – livelihood, education, sports, and health & environment – with the objective of creating long-term social impact in communities surrounding the Company's operational locations.

### Livelihood

The Foundation's Skill Development Programme focusses on empowering socio-economically disadvantaged youth through market-oriented vocational training and employment-linked skill development initiatives. During the year, Everest Foundation continued its industry-led skill training programme in collaboration with Industrial Training Institutes (ITIs) to enhance employability among youth. Under this initiative, 35 students underwent training in Mobile Repair through structured theoretical and practical sessions aimed at improving technical competency and job-readiness.

### Education

Everest Foundation implemented vocational training initiative - Skills@School, for students of Class IX with the objective of building career aspirations, enhancing technical skills, and reducing school dropout rates through vocational education and extracurricular engagement.

During the year, 172 students across government schools in Mysore, Lakhmapur, and Kolkata underwent vocational training in trades such as Mobile Repair and Beauty & Wellness. In addition, the Foundation supported entrepreneurial development through distribution of starter kits, enabling 13 students to pursue self-employment opportunities with average earnings of approximately Rs. 1,250 per month. The Foundation also supports the Everest Football Academy at Podanur, where 60 students completed football training during the year. Of these, 12 students participated at divisional, district, and state-level tournaments and received sports scholarships. Everest Middle School – 236 students are undergoing education in mainstream from standard I to VIII.

### Employee Volunteering

During the year, the Company encouraged employee participation in community development through structured volunteering initiatives under its employee engagement programme, "Together, let's make a difference." During the year, 187 employees contributed over 408 volunteering hours and positively impacted 3,432 beneficiaries through various awareness and community engagement programmes. Key initiatives included career counselling sessions focussed on vocational skills, awareness on responsible usage of AI tools such as ChatGPT, anti-tobacco campaigns, road safety awareness, and environmental education programmes.

### Health & Environment

The Everest Healthy Child Programme continued to focus on health awareness and tobacco control initiatives through educational and community engagement activities. The programme aims to spread awareness regarding the harmful effects of tobacco consumption and promote healthier lifestyles among students and communities.

During the year, awareness programmes and sensitisation activities were conducted across Nashik, Dahej, and Bhagwanpur covering students, teachers, school authorities, healthcare workers, Anganwadi workers, ASHA workers, village representatives, youth groups, and officials from health and education departments.

The programme also emphasised implementation of the Cigarettes and Other Tobacco Products Act, 2003 (COTPA) guidelines to promote tobacco-free educational institutions. As part of these efforts, 1,591 schools across Bhagwanpur, Vagra, and Lakhmapur were declared tobacco-free during the year. Overall, the initiative impacted approximately 1.22 lakh beneficiaries, including students, teachers, and members of the community.

## NOTICE

Notice is hereby given that the Ninety-third (93rd) Annual General Meeting ("AGM" or "Meeting") of the Members of Everest Industries Limited ("Company") will be held on **Monday, August 3, 2026 at 3:30 p.m. (IST) through Video Conferencing ("VC")/ Other Audio Visual Means ("OAVM")** to transact the following business:

### ORDINARY BUSINESS:

SH-14	Cancellation or Variation of Nomination

request. Accordingly, securities will be credited directly to the shareholder's demat account upon submission of valid demat account details along with the latest Client Master List.

Request for transfer, transmission and transposition of securities shall be effected only in dematerialized form. In view of the same, to eliminate all risks associated with physical shares and to avail various benefits of dematerialization, Members are advised to dematerialize the shares held by them in physical form. Members can contact the Company/RTA for assistance in this regard.

14. **Nomination**

The facility for making nomination is available for the Members in respect of the shares held by them. Members holding shares in physical form and who have not yet registered their nomination are requested to register the same by submitting Form SH-13 with the RTA. If a Member desires to opt out or cancel the earlier nomination and record a fresh nomination, the Members may submit the same in Form ISR-3 or SH-14 as the case may be. The said forms can be downloaded from the website of the RTA at <https://www.mcsregistrars.com/downloads.php>.

Members holding shares in dematerialized form are requested to register their nomination details with their DP.

The aforesaid forms are available at [www.everestind.com/investor-relations/shareholders-information](http://www.everestind.com/investor-relations/shareholders-information) and on the website of RTA [www.mcsregistrars.com/downloads.php](http://www.mcsregistrars.com/downloads.php).

Members can submit necessary forms along with the required documentary evidence to the R&T Agent in following manner:

- through self-attested hard copies addressed to the registered office of the R&T Agent.
- through electronic mode with e-sign.
- through 'In Person Verification' ('IPV'): the authorised person of the R&T Agent shall verify the original documents furnished by the investor and retain copy(ies) with IPV stamping with date and initials.

Members can also reach out to the RTA at [helpdesk@mcsregistrars.com](mailto:helpdesk@mcsregistrars.com) or [admin@mcsregistrars.com](mailto:admin@mcsregistrars.com) or to the Company at [compofficer@everestind.com](mailto:compofficer@everestind.com) for any queries / assistance on the same.

- Members holding shares in dematerialized mode are requested to submit the details to their respective DP only and not to the Company/RTA.
- In case of joint holders, the Member whose name appears as the first holder in the order of names as per the Register of Members of the Company will be entitled to vote during the AGM.
- To prevent fraudulent transactions, Members are advised to exercise due diligence and notify the Company of any change in address or demise of any Member as soon as possible. Members are also advised to not leave their demat account(s) dormant for long. Periodic statement of holdings should be obtained from the concerned DP and holdings should be verified from time to time.

**EXPLANATORY STATEMENT**

The following Explanatory Statement in terms of Section 102 of the Companies Act, 2013 in respect of item nos. 4 to 12 is annexed hereto and forms part of the Notice convening the 93rd Annual General Meeting:

**Item No. 4: Appointment of M/s. Price Waterhouse Chartered Accountants LLP, Chartered Accountants, as the Statutory Auditors of the Company**

At the 88th Annual General Meeting of the Company held on August 25, 2021, the Members of the Company, had approved the re-appointment of M/s. S R B C & Co. LLP, Chartered Accountants (ICAI Firm Registration No. : 324982E/E300003) as the Statutory Auditors of the Company for a second term of five consecutive years to hold office from the conclusion of 88th AGM till the conclusion of the 93rd Annual General Meeting of the Company to be held in the year 2026. Accordingly, M/s. S R B C & Co. LLP, existing Statutory Auditors will be completing their second term on the conclusion of this 93rd Annual General Meeting of the Company.

Considering the said completion of the term, the exercise for inviting proposals from various firms for selection of the new Statutory Auditors was started. Thereafter, certain firms were invited to present their proposals before the Audit Committee at its meeting held on March 18, 2026. After evaluating all the proposals and considering various factors such as the profile, credentials, experience and expertise of firm and partners, technical capabilities, industry experience, independence, geographical presence, audit team and audit approach etc. and pursuant to the recommendation made by the Audit Committee at its meeting held on March 18, 2026, the Board at its meeting held on March 26, 2026, recommended the appointment of M/s. Price Waterhouse Chartered Accountants LLP (Firm Registration Number: 012754N/N500016), Chartered Accountants, as the Statutory Auditors of the Company, to the members of the Company.

The proposed appointment of M/s. There is no material change in the remuneration proposed to be paid to M/s. Price Waterhouse Chartered Accountants LLP, for the statutory audit to be conducted for the financial year ending March 31, 2027 vis-à-vis the remuneration paid to M/s. S R B C & Co. LLP, the retiring Statutory Auditors, for the statutory audit conducted for the financial year ended March 31, 2026. The proposed remuneration to be paid to the Statutory Auditors for the financial year 2026-27 is Rs. 57 lakhs (Rupees Fifty-Seven Lakhs Only) for statutory audit and quarterly limited reviews excluding reimbursement of out of pocket expenses and applicable taxes. In addition

to the statutory audit fees, the Statutory Auditors are also entitled to fees for other permissible non-audit services viz. Tax Audit and Certificates etc. subject to prior approval of the Audit Committee and the Board.

M/s. Price Waterhouse Chartered Accountants LLP (the "Firm") having a Firm Registration No. 012754N/ N500016, is a firm of Chartered Accountants registered with the Institute of Chartered Accountants of India. Pursuant to the provisions of Section 139 of the Companies Act, 2013 (the Act) and the Rules framed thereunder, the Company has received a written consent from M/s. Price Waterhouse Chartered Accountants LLP and a certificate that they satisfy the criteria provided under Section 141 of the Act and that the appointment, if made, shall be in accordance with the applicable provisions of the Act and Rules framed thereunder. As required under the Listing Regulations, M/s. Price Waterhouse Chartered Accountants LLP, hold a valid certificate issued by the Peer Review Board of ICAI.

The Board recommends the Ordinary Resolution set out at Item No. 4 of the Notice for consideration by the members of the Company.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Ordinary Resolution set out at Item No. 4 of the Notice.

**Item No. 5: Approval for the payment of remuneration to Mr. Anant Talaulicar, Non-Executive Independent Chairman of the Company for the FY 2025-26**

At the 92nd Annual General Meeting of the Company, the Members of the Company approved the payment of remuneration by way of commission up to Rs. 2,00,00,000/- (Rupees Two Crores only) to Mr. Anant Talaulicar, Non-Executive Independent Chairman of the Company for the FY 2025-26 subject to the limit of four percent (4%) of net profits of the Company computed in the manner referred

to in Section 198 of the Companies Act, 2013 which shall be apart from commission upto 1% of net profit payable to all Non-Executive Directors of the Company for the FY 2025-26. However, the said resolution did not cover the scenario of payment of remuneration in case of absence of profits.

As per the provisions of Section 197(3) of the Companies Act, 2013, read with Schedule V of the Act, if in any financial year, the Company has no profits or its profits are inadequate, the Company can pay remuneration to the Independent Directors as per the limits specified in the Schedule V of the Act, based on the effective capital of the Company by way of an ordinary resolution. Further, the remuneration in excess of the limits specified in Schedule V of the Act can be paid by way of a special resolution passed by the Members of the Company.

Pursuant to the Regulation 17(6) of the Listing Regulations, all fees or compensation (other than sitting fees within limits prescribed under the Act) payable to the non-executive directors of a listed company must be recommended by the Board and approved by the shareholders. Further, as per the provisions of Regulation 17(6)(ca) of the Listing Regulations, the approval of the shareholders by way of a special resolution shall be obtained every financial year, in which the annual remuneration payable to a single non-executive director exceeds fifty per cent of the total annual remuneration payable to all non-executive directors, giving details of the remuneration thereof.

During the FY 2025-26, a significant amount of time was spent by Mr. Anant Talaulicar, Chairman, in developing various strategies, evaluating the business opportunities, reviewing the business with the leadership team and mentoring the leadership team. Mr. Anant Talaulicar possesses significant professional expertise and rich experience across a wide spectrum of functional areas such as business strategy, strategic leadership and management experience, corporate governance, technology and digital expertise. Mr. Anant Talaulicar provides various inputs, valuable contributions and guidance and devotes sufficient time and attention to his professional obligations as Chairman for informed and balanced decision making. Further, the Chairman has played a vital role in the smooth transition of Managing Director during the year. In line with the Company's Nomination and Remuneration Policy, it is proposed to pay remuneration as specified in the resolution at item no. 5 to Mr. Anant Talaulicar, which are commensurate with his role and responsibilities for the FY 2025-26.

Considering his valuable contributions, guidance, expertise, the role and responsibilities shouldered by Mr. Anant Talaulicar, Chairman and in recognition of his time invested by him, the Board at its meeting held on May 26, 2026, based on the recommendation of the Nomination and Remuneration Committee and subject to the approval of the members of

the Company, has approved the payment of remuneration of Rs. 40,00,000/- (Rupees Forty Lakhs Only) to Mr. Anant Talaulicar, Non-Executive Independent Chairman for the FY 2025-26, notwithstanding the absence of profits for the year ended March 31, 2026 and such remuneration exceeding the limits prescribed under Schedule V to the Act.

The information as required to be disclosed under paragraph (iv) of the second proviso after Paragraph B of Section II of Part II of Schedule V to the Companies Act, 2013 and Secretarial Standard-2 on General Meetings issued by ICSI is given in **"Annexure II"** to this Notice.

Considering the provisions of Schedule V of the Companies Act, 2013 and Regulation 17(6)(ca) of the Listing Regulations, the Board recommends the Special Resolution set out at Item No. 5 of the Notice for approval of the members of the Company.

None of the Directors and Key Managerial Personnel of the Company and their relatives except Mr. Anant Talaulicar and his relatives are, in any way, concerned or interested, financial or otherwise, in the resolution set out at Item No. 5 of the Notice.

**Item Nos. 6 to 9**

As per the provisions of Section 197(3) of the Companies Act, 2013, read with Schedule V of the Act, if in any financial year, the Company has no profits or its profits are inadequate, the Company can pay remuneration to the Independent Directors as per the limits specified in the Schedule V of the Act, based on the effective capital of the Company by way of an ordinary resolution. Further, in terms of clause (iii) of the second proviso to Section II of Part II of Schedule V, approval of the members by way of a special resolution is required for payment of such remuneration under item (B) of Section II of Part II of Schedule V.

Pursuant to the Regulation 17(6) of the Listing Regulations, all fees or compensation (other than sitting fees within limits prescribed under the Act) payable to the non-executive directors of a listed company must be recommended by the Board and approved by the shareholders.

Considering the valuable contributions and guidance given by all the Independent Directors of the Company and their roles and responsibilities (including involvement in various Committees of the Board) and based on the recommendation of the Nomination and Remuneration Committee and subject to the approval of members of the Company, the Board at its meeting held on May 26, 2026, has approved the payment of remuneration of Rs. 19,00,000/- (Rupees Nineteen Lakhs Only) to the Independent Directors of the Company for the FY 2025-26 as per the details given below:

Sr No.	Name of Director	Proposed remuneration for the FY 2025-26 (Amount in Rs.)
1.	Mr. Rajendra Chitale	6,50,000
2.	Mr. Alok Nanda	3,50,000
3.	Mr. Ashok Kumar Barat	5,50,000
4.	Ms. Bijal Ajinkya	3,50,000
<b>Total</b>		<b>19,00,000</b>

Since the company has no profits for FY 2025-26, the approval of shareholders of the Company needs to be obtained for the payment of remuneration for FY 2025-26 to aforesaid Independent Directors of the Company, pursuant to the provisions of Schedule V of the Companies Act, 2013. The said remuneration is within the limits of Schedule V of the Companies Act, 2013 based on the Effective Capital of the Company for the financial year ended March 31, 2025.

The information as required to be disclosed under paragraph (iv) of the second proviso after Paragraph B of Section II of Part II of Schedule V to the Companies Act, 2013 and Secretarial Standard-2 on General Meetings issued by ICSI is given in **"Annexure II"** to this Notice.

The Board recommends the Special Resolutions set out at Item Nos. 6 to 9 of the Notice for approval of the members of the Company.

Mr. Rajendra Chitale, Mr. Alok Nanda, Mr. Ashok Kumar Barat and Ms. Bijal Ajinkya, Non-Executive Independent Directors are interested in the Special Resolutions as set out at Item No. 6 to 9 with respect to the remuneration payable to them. The relative(s) of the aforesaid Non-Executive Independent Directors may be deemed to be interested in the said Special Resolutions to the extent of their shareholding interest, if any, in the Company. Save and except the above, none of the other Directors/ Key Managerial Personnel of the Company/their relatives are, in any way, concerned or interested, financially or otherwise, in the Special Resolutions set out at Item Nos. 6 to 9 of the Notice.

**Item No. 10: Approval for the payment of commission to the Non-Executive Directors of the Company for a period of five(5) years w.e.f. April 1, 2026**

The Members of the Company had approved special resolution on March 7, 2021 through Postal Ballot for the payment of remuneration by way of commission to the Non-Executive Director(s) of the Company not exceeding one percent (1%) of net profits of the Company computed in the manner referred to in Section 198 of the Act and the same be paid annually, for a period not exceeding five (5) years, for each of the financial years commencing from April 1, 2020.

The Non-Executive Directors of the Company bring significant professional expertise and rich experience across a wide spectrum of functional areas such as business strategy, finance, taxation, marketing, legal, corporate governance

and technology and it is imperative to adequately compensate them for the valuable contributions made by them to the Company. In line with the Company's Nomination and Remuneration Policy, it is proposed to pay remuneration by way of commission to the Non-Executive Directors of the Company, commensurate with their roles, responsibilities and contribution to the affairs of the Company.

Section 197(1) of the Act provides that where a company has a managing director, whole-time director or manager, the remuneration payable to directors who are neither managing directors nor whole-time directors shall not exceed one per cent (1%) of the net profits of the Company computed in accordance with Section 198 of the Act, except with the approval of the shareholders by way of a special resolution.

Pursuant to the Regulation 17(6) of the Listing Regulations, all fees or compensation (other than sitting fees within limits prescribed under the Act) payable to the non-executive directors of a listed company must be recommended by the Board and approved by the shareholders.

Considering the rich experience and expertise brought to the Board by the Non-executive Directors and valuable contributions and responsibilities shouldered by them, the Board at its meeting held on May 26, 2026, based on the recommendation of the Nomination and Remuneration Committee, approved and recommended payment of the commission to the Non-Executive Directors of the Company which may in aggregate exceed one per cent (1%) but shall not exceed five per cent (5%) of the net profits of the Company computed in accordance with Section 198 of the Act. Out of the aforesaid aggregate limit, commission payable to Mr. Anant Talaulicar, Non-Executive Independent Chairman, shall be subject to the specific approval sought under Item No. 11 of this Notice, while the aggregate commission payable to all other Non-Executive Directors shall not exceed one per cent (1%) of the net profits of the Company computed in accordance with Section 198 of the Act and the same will be paid for each financial year commencing on April 1, 2026 during a period of five (5) consecutive financial years from FY 2026-27 to FY 2030-31.

The Board recommends the Special Resolution set out at Item No. 10 of the Notice for approval of the members of the Company.

All the Non-Executive Directors are interested in the Special Resolution as set out at Item No. 10 with respect to the commission payable to them. The relative(s) of Non-Executive Directors may be deemed to be interested in the said Special Resolution to the extent of their shareholding interest, if any, in the Company. Save and except the above, none of the other Directors/ Key Managerial Personnel of the Company/their relatives are, in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 10 of the Notice.

**Item No. 11: Approval for the payment of commission to Mr. Anant Talaulicar, Non-Executive Independent Chairman for the FY 2026-27**

At the 91st Annual General Meeting held on August 12, 2024, the Members of the Company approved the re-appointment of Mr. Anant Talaulicar (DIN: 00031051) as an Independent Director of the Company (Chairman) for second term of five (5) consecutive years with effect from November 21, 2024.

Mr. Talaulicar has about 42 years of rich experience (16 years in USA) in the fields of Manufacturing, Project Management, Finance, Operations, Strategy, Risk Management etc. Mr. Talaulicar holds Bachelor's degree in Mechanical Engineering from Mysore University. He secured a Master's degree in Engineering from the University of Michigan in 1985 and MBA from Tulane University in 1987. He was the Chairman and the Managing Director of Cummins Group in India from March 2004 till October 2017.

Since joining the Board of the Company, Mr. Anant Talaulicar has taken active interest in significant strategic matters of the Company and his contribution has been immense and invaluable. His role in the corporate strategy and business development of the Company has been significant. Mr. Talaulicar as Non-Executive Independent Chairman not only offers the Company his expertise in the business of the Company but also plays an important role in guiding and mentoring the leadership team of the Company.

Mr. Talaulicar has played a significant role in all operational aspects of the Company for the financial year 2025-26. He has been continuously monitoring implementation of strategies & initiatives and taking corrective actions wherever required. He is also involved in drawing strategies for taking the Company to the next level.

The Board at its meeting held on May 26, 2026, based on the recommendation of Nomination and Remuneration Committee and subject to the approval of members of the Company, has approved payment of commission upto Rs. 2,00,00,000/- (Rupees Two Crores Only) for the FY 2026-27 to Mr. Anant Talaulicar, Non-Executive Chairman, subject to the limit of 4% of net profits of the Company computed in the manner referred to in Section 198 of the Companies Act, 2013 ("Act"). The aforesaid commission to the Non-Executive Independent Chairman shall be over and above 1% commission payable to the Non-Executive Directors for the FY 2026-27.

As per section 197 of the Act, remuneration to Non-Executive Directors by way of commission exceeding 1% of the net profits of the Company per annum, calculated in accordance with the provisions of Section 198 of the Act, can be paid by passing a Special Resolution in the general meeting.

Pursuant to the Regulation 17(6) of the Listing Regulations, all fees or compensation (other than sitting fees within limits prescribed under the Act) payable to the non-executive directors of a listed company must be recommended by the Board and approved by the shareholders. Further, as per the

Regulation 17(6)(ca) of the Listing Regulations, the approval of the members by way of a Special Resolution is required every year in case the annual remuneration payable to a single Non-Executive Director exceeds 50% of the total annual remuneration payable to all the Non-Executive Directors.

As the proposed commission payable to the Non-Executive Independent Chairman for the FY 2026-27 may exceed 50% of the total annual remuneration payable to all the Non-Executive Directors, the approval of the members by way of a Special Resolution is sought pursuant to the provisions of Regulation 17(6) (ca) of the SEBI Listing Regulations. Members approval by way of Special Resolution is also required under section 197 of the Act as the commission payable to the Non-Executive Independent Chairman may exceed limit of 1% of the net profit under Section 198 of the Companies Act, 2013.

The Board recommends the Special Resolution set out at Item No. 11 of the Notice for approval of the members of the Company.

None of the Directors and Key Managerial Personnel of the Company and their relatives except Mr. Anant Talaulicar and his relatives are, in any way, concerned or interested, financial or otherwise, in the resolution set out at Item No. 11 of the Notice.

**Item No. 12: Ratification of remuneration of the Cost Auditors for the financial year ending March 31, 2027**

On the recommendation of the Audit Committee, the Board of Directors of the Company at its meeting held on May 26, 2026, approved the re-appointment and remuneration of M/s. R. Nanabhoy & Co., Cost Accountants (Firm Registration No. 000010) as Cost Auditors of the Company to carry out the audit of the cost records of the Company for the financial year ending March 31, 2027 at a remuneration of Rs. 5,50,000/- (Rupees Five Lakhs Fifty Thousand only) plus applicable taxes and reimbursement of out of pocket expenses in connection with the aforesaid audit.

In accordance with the provisions of Section 148 of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, the remuneration payable to the Cost Auditors needs to be ratified by the members of the Company.

Accordingly, the consent of the members of the Company is sought for passing an Ordinary Resolution as set out at Item No. 12 of the Notice for ratification of the remuneration payable to the Cost Auditors of the Company to carry out the Audit of the cost records of the Company for the financial year ending March 31, 2027.

The Board recommends the Ordinary Resolution set out at Item No. 12 of the Notice for consideration by the members of the Company.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Ordinary Resolution set out at Item No. 12 of the Notice.

### III. OTHER INFORMATION

<b>Reasons of loss or inadequate profits</b>	The FY 2025-26 was yet another challenging year for the Company. The volumes in roofing and ESBS business segments dropped during the year under review and the revenue from operations declined by 20% over previous year on a standalone basis and by 18% on a consolidated basis. Due to decline in revenue and the net effect of Rs. 42 crores on account of exceptional items, the Company has incurred a loss of Rs. 100.17 crores for the year ended March 31, 2026 as compared to the profit of Rs. 14.35 crores in previous year, on a standalone basis. At a consolidated level, the Company suffered loss of Rs. 101.69 crores for the year ended March 31, 2026 as against loss of Rs. 3.60 crores in previous year.
<b>Steps taken or proposed to be taken for improvement</b>	The Company has put in place plans and strategic initiatives for achieving sustainable growth and turning performance to profitability. The Company is focusing on execution, quality, service, pricing, value added sales, cost, productivity and volume. Some of the steps taken by the Company are strengthening product portfolio, manufacturing capability, marketing initiatives and optimising cost of manufacturing and in general cost reduction.
<b>Expected increase in productivity and profits in measurable terms</b>	The Company is conscious about improvement in productivity and undertakes constant measures to improve the same. However, it is extremely difficult in present scenario to predict profits in measurable terms.

### IV. DISCLOSURES

The Company has not committed any default in payment of dues to any bank or public financial institution or any other secured creditor.

The Company is making appropriate disclosures as required under Sub-clause IV (Disclosures) of clause (iv) of the second proviso to Section II (B) of Part II of Schedule V to the Companies Act, 2013 in the Corporate Governance Report forming part of the Board's Report of the Company and shall continue to make the said disclosures.

## PERFORMANCE REVIEW

FY 2025-26 was yet another challenging year for the Company. The volumes in roofing and ESBS business segments dropped during the year under review and the revenue from operations declined by 20% over previous year on a standalone basis and by 18% on a consolidated basis. The Company took various initiatives for cost reduction, as a result of which, total expenses were reduced by 16% and 13% on standalone and consolidated basis respectively as compared to previous year. Due to decline in revenue and the net effect of Rs. 42 crores on account of exceptional items, the Company has incurred a loss of Rs. 100.17 crores for the year ended March 31, 2026 as compared to the profit of Rs. 14.35 crores in previous year, on a standalone basis. At a consolidated level, the Company suffered loss of Rs. 101.69 crores for the year ended March 31, 2026 as compared to the loss of Rs. 3.60 crores in previous year. More details on the financial and operational performance are provided in the Management Discussion and Analysis Report.

## DIVIDEND

Continuing the past track record of final dividend, the Board of Directors ("Board") of the Company has recommended a final dividend @ 10% i.e. Re. 1/- per equity share of face value of Rs. 10/- each for the financial year ended March 31, 2026, out of retained earnings, subject to the approval of the members of the Company at the ensuing Annual General Meeting ("AGM") of the Company. The final dividend, if approved by the members of the Company, shall be paid within 30 days from the date of AGM to those members whose names appear in the register of members/ list of beneficial owners as on the Record Date. The said final dividend is based on the parameters outlined in the Dividend Distribution Policy adopted by the Company.

Pursuant to the Income-tax Act, 2025, dividend paid or distributed by the Company shall be taxable in the hands of the Shareholders of the Company. The Company shall, accordingly, make the payment of the Final Dividend after deduction of tax at source. For further details about TDS on Final Dividend, members are requested to refer "Annexure III" of the Notice of Annual General Meeting.

#### DIVIDEND DISTRIBUTION POLICY

Pursuant to the Regulation 43A of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"), the Dividend Distribution Policy approved by the Board of the Company is uploaded on the website of the Company at the weblink <https://www.everestind.com/public/storage/codes-and-policies/November2022/T6v1LE6DIXqnmbsURXOs.pdf>

**26. Overview of the entity’s material responsible business conduct issues**

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same and approach to adapt or mitigate the risk along with its financial implications, as per the following format.

Sr. No	Material issue identified	Indicate whether risk or opportunity (R/O)	The rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1	Energy & Emissions (GHG Emissions, Climate Change, Energy Efficiency)	Risk and Opportunity	<p>[Risk]: The Company’s manufacturing operations are energy-intensive, relying on grid electricity, which contributes to GHG emissions. This exposes Everest to risks from global warming, which may disrupt business operations. Furthermore, evolving regulatory frameworks, such as the introduction of carbon taxes, could increase financial exposure.</p> <p>[Opportunity]: The rising cost of conventional energy and decreasing prices of renewable energy present an opportunity for cost efficiency. Additionally, shifting consumer preferences towards low-carbon products offers a market advantage for sustainable products.</p>	<p>Everest keeps on exploring a two-pronged approach aimed at improving energy efficiency and evaluating the potential for renewable energy integration.</p> <p><b>Energy Efficiency:</b> The Company is in the process of assessing and reducing factory-level energy consumption metrics (Units/MT), with the goal of identifying opportunities to enhance efficiency and reduce GHG emissions. Initial reviews are being carried out within the Roofing and ESBS business units.</p> <p><b>Renewable Energy:</b> Preliminary steps have been taken to assess the viability of rooftop solar installations, at select plants. RE currently contribute 17% to total electricity consumption across the Company. Everest is considering a broader evaluation of renewable energy options across its facilities to potentially lower Scope 2 emissions and improve long-term resource efficiency.</p>	Positive for Risk and Negative for Opportunity
2	Water Management	Risk	<p>Everest relies heavily on groundwater for its manufacturing processes. With water scarcity on the rise and increasing regulatory scrutiny, the Company faces potential operational risks.</p> <p>Most of our plants rely on groundwater, and declining availability in certain regions increases the risk of water scarcity, potentially impacting production and raising operational costs. Two of our facilities—Podanur Works in Tamil Nadu and Bhagwanpur Works in Uttarakhand—are situated in semi-critical groundwater zones, further heightening the risk to long-term water availability.</p>	<p>To mitigate this risk, Everest is prioritizing groundwater conservation and rainwater harvesting. Over the next 2-3 years, the Company aims to reduce and replenish the groundwater it consumes.</p> <p>All the Company’s plants are Zero Liquid Discharge (ZLD) facilities, minimizing effluent discharge-related regulatory risks. Sewage is treated through STPs and fully reused for greenbelt maintenance.</p> <p>In this line at Podunur we have constructed this year rain water harvesting ponds</p> <p>As a result of the company’s efforts towards water conservation and water recycling there has been an improvement in water intensity per unit revenue.</p>	Positive

Sr. No	Material issue identified	Indicate whether risk or opportunity (R/O)	The rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3	Waste Management	Risk	<p>Increasing regulatory scrutiny around waste management, including plastic waste under EPR regulations, presents a growing compliance challenge.</p> <p>Everest generates both hazardous and non-hazardous waste, making regulatory compliance and responsible disposal critical to business continuity and reputation.</p>	<p>Everest is actively evaluating alternative materials to reduce plastic consumption in <b>packaging</b> and is evaluating the feasibility of substituting virgin plastic with recycled plastic.</p> <p>The Company ensures compliance with EPR regulations. Hazardous and non-hazardous waste is disposed of through certified vendors in line with legal requirements.</p>	Negative
4	Product Stewardship	Risk and Opportunity	<p>[Risk]: Regulatory bodies are increasingly requiring lifecycle assessments (LCAs) and certifications, such as EPDs, to disclose product emissions. Non-compliance could lead to regulatory and financial risks.</p> <p>[Opportunity]: With growing consumer demand for transparent, eco-friendly products, Everest can leverage product stewardship to enhance customer trust and market differentiation.</p>	<p>Everest has planned for LCA , EPD certifications for its products in the Boards and Panels division. The Company plans to generate at least 50% of its Boards and Panels division revenue from EPD-certified products by 2027.</p> <p>80% of Everest’s products in the Boards and Panels division are already GreenPro certified. Moving forward, the Company aims to focus on low-carbon product innovations.</p>	Positive and Negative
5	Health & Safety	Risk	<p>The Company’s manufacturing operations involve interactions with machinery and material-handling equipment, posing inherent safety risks to employees. Failure to comply with safety regulations could result in loss of employee lives, damage to machinery, labour unrest and a halt in production.</p>	<p>Everest has implemented an EHS risk management program through HIRA (Hazard Identification and Risk Assessment) and all our sites are now ISO 45001 certified (IMS certified)</p> <p>The Company conducts regular safety audits, training, and technology upgrades to enhance adherence to safety standards. Facilities are designed not only to meet but also to exceed regulatory requirements.</p>	Negative
6	Supply Chain and Sustainable Sourcing	Risk and Opportunity	<p>[Risk]: Everest’s value chain is resource- and energy-intensive, relying heavily on raw materials like cement and steel, which have significant environmental impacts. Supplier non-compliance could expose Everest to reputational and regulatory risks.</p> <p>[Opportunity]: Enhancing supply chain sustainability improves business resilience, reduces environmental impact, and strengthens social responsibility.</p>	<p>Everest has established long-term partnerships with certain critical suppliers, reflecting a strategic approach to building supply chain resilience and reliability. The Company has introduced a Code of Conduct for Business Partners, outlining sustainability expectations.</p> <p>To reduce exposure to supply chain disruptions, Everest is increasing domestic sourcing and diversifying its supplier base for critical imports, such as pulp and asbestos fiber.</p>	Negative and Positive

Sr. No	Material issue identified	Indicate whether risk or opportunity (R/O)	The rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
7	CSR	Opportunity	Many of Everest's plants are located near local communities. Through CSR initiatives, the Company addresses social challenges, fosters goodwill, and strengthens its social license to operate. Targeted CSR programs in education, skills training, and health can contribute to community development and build positive brand equity.	Everest is strengthening its CSR strategy by focusing on environmental priorities such as water stewardship, acknowledging their long-term benefits for communities and the environment.  The Company implements CSR initiatives through a dedicated team, covering education, vocational skill development, youth empowerment through building mason training, and tobacco cessation awareness programs	Positive
8	Diversity & Inclusion	Opportunity	Promoting diversity and inclusion enables Everest to access a broader talent pool, improve workforce productivity, and enhance its reputation as a socially responsible employer.	The Company is committed to fostering a diverse and inclusive workplace through its Equal Opportunity Policy, which ensures equal employment opportunities, including for persons with disabilities. Regular awareness and training programmes are conducted to promote an inclusive work environment	Positive
9	Business Ethics	Risk	Non-compliance with regulations or failure to prevent unethical practices could lead to financial losses, legal penalties, and reputational damage. Lack of reporting mechanisms for fraud could further expose the Company to financial and operational risks.	The Company has implemented the Legatrix compliance management system to monitor and track compliance with applicable statutory and regulatory requirements.  The Company has established a Whistle Blower Policy and mechanism to enable employees and other stakeholders to report concerns relating to unethical conduct, fraud, or other suspected violations. Periodic awareness programmes are conducted to promote the effective use of the mechanism.  The Code of Conduct is communicated to employees through periodic training and awareness programmes to reinforce ethical behaviour, integrity, and compliance across the organization	Positive
10	Human Capital - Employee Engagement, Retention	Opportunity	Opportunity: Fostering a culture of strong employee engagement and retention presents an opportunity to build a motivated, high-performing, and future-ready workforce. When employees feel valued, empowered, and connected to the organization's purpose, they are more likely to contribute proactively, collaborate effectively, and champion innovation.	The Company is committed to enhancing employee engagement through structured talent management, succession planning, learning and development initiatives, and periodic benchmarking of compensation and benefits.  Performance management and reward programmes are aligned with organizational values to recognize individual and team contributions. Career development is supported through a fair and merit-based performance evaluation process, annual performance-linked increments, and internal job posting opportunities.	Positive

Sr. No	Material issue identified	Indicate whether risk or opportunity (R/O)	The rationale for identifying the risk/opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
			A stable and engaged workforce enhances institutional knowledge, reduces hiring and training costs, and accelerates productivity. It also strengthens organizational culture and loyalty, helping position the company as an employer of choice. This, in turn, supports long-term business resilience and sustained stakeholder value creation.	The Company provides learning and development programmes, including technical, product and process training, on-the-job training, behavioural and organizational development interventions for workmen, and leadership development programmes for people managers and union representatives.  To strengthen employee engagement and social dialogue, the Company conducts regular communication forums, including monthly meetings with union representatives and town hall sessions with workmen across manufacturing locations	
11	Labour Relations	Risk	Disruption in manufacturing due to labour unrest or compliance issues	The Company has established processes and controls to ensure compliance with applicable labour laws and statutory requirements for both direct employees and contract workforce.  The Company maintains structured employee engagement mechanisms to facilitate communication, address workplace concerns, and promote constructive employee relations.  Regular awareness and capacity-building programmes are conducted on labour law compliance, employee lifecycle processes, industrial relations, and contract labour management to strengthen compliance and effective workforce management	Negative
12	Risk Management	Opportunity	A comprehensive risk management strategy protects an organization from a wide range of vulnerabilities, including operational disruptions, financial losses, and reputational damage. Without proactive identification and mitigation of risks, companies are ill-prepared to respond to unexpected events such as regulatory changes, supply chain breakdowns, or environmental incidents. This not only increases the likelihood of non-compliance with legal and statutory requirements but also weakens stakeholder trust.	The Company has implemented policies, systems, and processes to ensure compliance with applicable labour laws and statutory requirements relating to employees and contract workers.  Structured employee engagement and grievance redressal mechanisms are available to facilitate regular communication, address workplace concerns, and support harmonious industrial relations.  Periodic training and awareness programmes are conducted on applicable labour laws, statutory compliance, employee lifecycle processes, industrial relations, and contract labour management to strengthen compliance and enhance workforce capability.	Positive

5. Specific commitments, goals and targets set by the entity with defined timelines, if any.	As mentioned below								
6. Performance of the entity against the specific commitments, goals and targets along-with reasons in case the same are not met.									

SI No	Specific Targets	Achievements Against the Targets
<b>ENVIRONMENTAL</b>		
1	Reduce energy consumption and GHG emissions through improved energy efficiency and increased use of renewable electricity.	Baseline year and key metrics have been established. Internal targets are currently being defined.
2	Develop a strategic roadmap to enhance water management through efficiency measures and groundwater recharge plans.	Site-level assessments are underway to evaluate rainwater harvesting and groundwater recharge potential.
3	Conduct Life Cycle Assessments (LCA) to quantify and understand environmental impacts across key products.	Key products are being prioritized for LCA
<b>SOCIAL</b>		
1	Achieve ISO 45001 certification across all plant locations by 2027	EHS risk management implemented via HIRA (Hazard Identification and Risk Assessment). IMS certification is done for all manufacturing plant and corporate office (IMS-ISO9001, ISO 14001 & ISO 45001 certified). The target was for 2027
<b>GOVERNANCE</b>		
1	Establish a robust framework to evaluate ESG performance of suppliers.	Supplier Code of Conduct formalized and acknowledgments underway.

**Governance, leadership and oversight**

**7. Statement by director responsible for the business responsibility report, highlighting ESG related challenges, targets and achievements (listed entity has flexibility regarding the placement of this disclosure)**

At Everest, our core values are Respect, Excellence and Integrity (REI) and this also extends to our Vision of improving the lives of people by reimagining spaces. We would like to achieve our vision in a long-term and sustainable manner using ESG as a foundation for future growth of the organization.

In this sustainability journey, our goal is to grow the business while lowering our environmental footprint, particularly in terms of energy consumption, emissions and natural resource use. We recognize the importance of embedding sustainability across all dimensions of our operations - not just in emissions and energy, but also in how we manage resources, reduce waste and protect natural ecosystems. We are setting plant specific actionable targets that will help us build a comprehensive decarbonization roadmap and replenish water through site-level evaluations. Another area we intend to prioritize in the near future is the undertaking of Life Cycle Assessments for key products within the Boards and Panels division, to gain a more comprehensive understanding of their environmental impacts.

**On the social front, two pillars stand out as central to our efforts:**

**1. Advancing Health and Safety standards:**

Health and Safety are embedded as a core value throughout our operations. We have successfully taken IMS certification for all plants against the target for ISO 45001 target for 2027. This enables us to systematically identify risks, establish stringent safety protocols and promote continuous improvement in workplace safety practices. We aim to cultivate a culture where safety is deeply ingrained, incidents are minimized, and the physical and mental well-being of our employees is prioritized at every level.

**2. Fostering a truly inclusive and diverse workplace:**

We recognize the importance of building a more inclusive and diverse workplace and acknowledge that continued effort is needed in this area. Women currently hold 25% of board positions and represent 7% of the overall workforce. Moving forward, we plan to place greater emphasis on supporting individuals with disabilities through targeted initiatives and inclusive policies. Our aim is to foster a work environment where all individuals feel respected, valued, and able to contribute meaningfully to our broader mission.

These areas also form the foundation of our commitment to employee well-being and equal opportunity for all.

On the Governance front, we have introduced a Code of Conduct for Business Partners and are in the process of building a comprehensive ESG assessment framework for our supply chain.

These steps are critical to strengthening compliance, improving risk management, and cultivating long-term, responsible partnerships that support our sustainability goals.

ESG is a core component of our objective to build a resilient, future-ready company. Our ESG framework is embedded across operations and is aligned with a long-term strategy of sustainable growth.

7. Provide details of any corrective action taken or underway on issues related to fines / penalties / action taken by regulators/ law enforcement agencies/ judicial institutions, on cases of corruption and conflicts of interest. Not Applicable.

8. Number of days of accounts payables (Accounts payable \*365) / Cost of goods/services procured) in the following format:

	FY 2025-26	FY 2024-25
Number of days of accounts payables	70.20	59.06

9. Open-ness of business: Provide details of concentration of purchases and sales with trading houses, dealers, and related parties along-with loans and advances & investments, with related parties, in the following format:

Parameter	Metrics	FY 2025-26	FY 2024-25
Concentration of Purchases	a. Purchases from trading houses as % of total purchases (Refer Note 1)	17%	7%
	b. Number of trading houses where purchases are made from	1,236	808
	c. Purchases from top 10 trading houses as % of total purchases from trading houses	26%	39%
Concentration of Sales	a. Sales to dealers/distributors as % of total sales (Refer Note 2)	64.53%	59.21%
	b. Number of dealers/distributors to whom sales are made	2245	3485
	c. Sales to top 10 dealers/distributors as % of total sales to dealers/ distributors	12.86%	9.39%
Share of RPTs in	a. Purchases (Purchases with related parties /Total Purchases)	-	-
	b. Sales (Sales to related parties/ Total Sales)	1.40%	0.87%
	c. Loans & advances (Loans & advances given to related parties /Total loans & advances)	100%	100%
	d. Investments (Investments in related parties/ Total Investments made) (Refer Note 3)	62.72%	0.22%

Note:

- For purchases from trading houses, materials, spares, consumables, traded materials, capital expenditures and administrative materials have been considered in both the numerator and denominator.
- For the calculation of sales, only revenue from operations has been considered.  
Everest Foundation is the CSR implementing arm, and the above does not include CSR funds transferred to Everest Foundation.
- For details please refer to note no. 2.05 of standalone Financial statements.

**PRINCIPLE 2 Businesses should provide goods and services in a manner that is sustainable and safe**

**Essential Indicators**

- Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of products and processes to total R&D and capex investments made by the entity, respectively.

	FY 2025-26	FY 2024-25	Details of improvements in environmental and social impacts
R&D	100%	100%	Cost reduction, process and quality improvements by plant upgradation, use of alternate raw material and reduction in use of virgin pulp.
Capex	9%	11%	Group Captive Solar, Energy management system, VFDs, Servo drive, Water flow meter for water monitoring.

- Does the entity have procedures in place for sustainable sourcing? (Yes/No)**

At Everest, we approach sustainable sourcing and procurement through both internal and external lenses. Internally, we have established a Sustainable Sourcing and Procurement Policy (<https://www.everestind.com/public/storage/codes-and-policies/August2025/cT1w7QnYROTQxnbBgYRw.pdf>), which serves as the foundation for conducting business with our partners. Externally, we have developed a Code of Conduct for Business Partners, which acts as a guiding framework, ensuring that our partners align with our sustainability principles. As part of our ongoing efforts, we are committed to ensuring that our critical suppliers formally acknowledge and adhere to this code of conduct in the coming years.

In line with our long-term sustainability objectives, Everest remains focused on risk mitigation and the production of low-carbon products. To strengthen supply chain resilience, we are actively diversifying our supplier base, reducing dependency on any single source. Additionally, we are prioritizing domestic sourcing of input materials and integrating industrial waste by-products as supplementary cementitious materials. This strategic approach not only enhances resource circularity but also significantly reduces the carbon footprint of our products.

- If yes, what percentage of inputs were sourced sustainably?**

We will categorize EIL's spending based on sustainability criteria and quantify this in the subsequent reporting years.

- Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

Post-consumer product management currently falls outside the direct operational boundaries of Everest, as it involves downstream activities that extend beyond the company's immediate control.

- Plastics (Including packaging): Everest is registered as a "brand owner" and "importer" and has adopted EPR practices in compliance with the Plastic Waste Management Rules, 2016, and its amendments to address its responsibilities for recycling plastic packaging. Details are provided in Principle 2, Essential Indicator 4.
- E-waste: Not applicable. The products of Everest don't come under the category of e-waste.
- Hazardous waste: Not applicable.
- Other: Not applicable.

- Whether Extended Producer Responsibility (EPR) applies to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same

Yes. Extended producer Responsibility (EPR) is applicable to the company under The Plastic Waste Management Rules, 2016. We are registered as an "Brand owner" & "Importer". We have adopted EPR practices and approved from CPCB for pre- & post-consumer plastic waste management under The Plastic Waste Management Rules, 2016 & its amendments. As per EPR mechanism, we are following the modality of collection and recycling of post-consumer plastic through registered waste management agency by the purchase of equivalents plastic credit & same is submitted to CPCB in EPR online portal.

As per the EPR target for FY 2025-26, we have engaged authorized recyclers to manage 194 MT of plastic waste in alignment with regulatory and ESG compliance frameworks.

3. Accessibility of workplaces

Are the premises/offices of the entity accessible to differently-abled employees and workers, as per the requirements of the Rights of Persons with Disabilities Act, 2016? If not, whether any steps are being taken by the entity in this regard.

At Everest, we are committed to fostering an inclusive and accessible work environment in line with the Rights of Persons with Disabilities Act, 2016. Our new manufacturing facilities have been designed with accessibility as a key consideration, ensuring that employees with disabilities can access workspaces and perform their responsibilities effectively. Additionally, we are implementing sensitization and awareness training to promote a culture of empathy, inclusion, and collaboration across the organization.

4. Does the entity have an equal opportunity policy as per the Rights of Persons with Disabilities Act, 2016? If so, provide a web link to the policy.

Yes, The Company has a policy as per the Rights of Persons with Disabilities Act 2016 and the same is available on <https://www.everestind.com/public/storage/codes-and-policies/August2025/99R2nBbCgZaPoLisllM8.pdf>

5. Return to work and Retention rates of permanent employees and workers that took parental leave.

100% of our permanent employees who availed of maternity/ paternity leave returned to work and were still employed 12 months later.

\*In the case of permanent workers, we do not offer paternity leaves and currently do not employ any females in the permanent workmen category.

6. Is there a mechanism available to receive and redress grievances for the following categories of employees and workers? If yes, give details of the mechanism in brief.

The company is committed to ensuring a safe and supportive work environment for all its employees and associates. Employees are encouraged to express their concerns to their Reporting Manager, Human Resource Function, or senior management members.

Furthermore, our whistleblower policy enables all employees to report any suspected or actual misconduct within the organization anonymously. Non-permanent employees and workers can address their grievances via email to the relevant person/management. The company provides an Ethics Helpline for individuals to register grievances while maintaining their anonymity.

All such concerns are addressed within a specified timeframe and are logically resolved.

Additionally, the management is accessible through various channels such as town halls and direct interactions; employees are sensitized to any occurrences through town halls as a deterrent measure for future occurrences.

Besides the above the following initiatives are continued:

	Yes/No (If Yes, then give details of the mechanism in brief.)
Permanent Workmen	Yes, besides the above, other mechanisms are mentioned for which grievances get documented, tracked and resolved: <ul style="list-style-type: none"> <li>Townhall</li> <li>HR Connect with workmen</li> <li>Whistleblower mechanism can be accessed by email &amp; telephone</li> </ul>
Other than Permanent Workmen	HR Connect with Contractual workmen organized by the Plant HR team once a month.

Note: All our employees are eligible to receive performance and career development reviews. Employees who have joined in the last quarter also get career development reviews.

For permanent workers, monthly reviews are conducted wherein the performance gets discussed along with hits and misses.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity. (Yes/ No). If yes, the coverage of such a system?

Yes, Everest Industries Ltd. (EIL) has implemented a comprehensive Occupational Health and Safety Management System (OHSMS), reflecting its strong commitment to the safety and well-being of employees, workers, contract staff, and other stakeholders. Occupational Health and Safety is a core component of EIL's values and is accorded the highest priority across operations.

1. Certification and Coverage

- EIL has obtained ISO 45001:2018 certification merged with IMS for Occupational Health and Safety Management Systems for all of its site and the corporate office.

2. Systems and Initiatives

- Implemented Life Saving Golden Rules that establish non-negotiable safety requirements for high-risk activities such as working at height, electrical work, confined space entry, lifting operations, and machine safety. These rules are reinforced through training, awareness programs, and leadership engagement, with compliance regularly monitored through audits, inspections, and shop-floor safety rounds to prevent serious injuries and fatalities.
- IMS (ISO9001, ISO 14001, ISO 45001 ) certification is done for all manufacturing units and corporate office) to have standardization
- I- Care for Safety- A digital app is launched for increased participation at all levels for reporting, tracking and closing risk at shop floors.

3. Compliance and Risk Management

- Regular risk assessments and horizontal deployment of learnings from incidents are carried out to ensure continuous improvement and legal compliance related to occupational health, safety, and the environment. Monthly tracking and reviews are being done for ensuring compliance.

4. Awareness and Training

- Training Content Development: Holistic training modules have been created on topics such as material handling, lifting & rigging, PPE usage, asbestos awareness, and permit systems.
- Learning Management System (LMS): Capacity-building initiatives are delivered through LMS, including online quizzes, acknowledgement tracking, and performance management and visitor induction for all visitors at sites is carried out.
- Involvement of Line Managers: Focused efforts are being made to increase the engagement of line managers in timely closure of safety-related observations.

5. Campaigns and Observances

- Monthly EHS awareness campaigns and observance of key national initiatives, including National Safety Week and Road Safety Week, are conducted across all locations to strengthen safety culture and employee engagement.
- Safety Month is celebrated annually in March, featuring awareness programs, training sessions, promotional activities, and engagement initiatives for employees, contract workers, and their families.
- Various EHS-related competitions, campaigns, and recognition programs are organized regularly to promote active participation, enhance awareness, and reinforce safe behaviors across the organization

6. Communication and Engagement

- Safety awareness materials, including multilingual posters, visual displays, and communication campaigns, are developed and deployed to effectively convey EHS messages to employees, contract workers, and visitors across all locations.
- A structured EHS induction program is conducted for all employees, contractors, and visitors to familiarize them with organizational EHS requirements, site-specific hazards, emergency procedures, and safe work practices.
- Software introduced for EHS for hazard reporting inspections to have team participation in closure of risk

**b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?**

Everest Industries Ltd. (EIL) has established a comprehensive framework for hazard identification, risk assessment, and risk control covering both routine and non-routine activities across all operations. A holistic and integrated risk management approach is implemented at all manufacturing locations through structured assessments encompassing HIRAC (Hazard Identification, Risk Assessment and Control), legal compliance risks, audit and inspection findings, incident learnings, and industry best practices.

Routine risk assessments are conducted through periodic safety inspections, workplace audits, behavioural observations, employee feedback mechanisms, and job-specific hazard analyses. Non-routine risk assessments are carried out for new projects, process modifications, equipment changes, non-standard activities, shutdowns, maintenance activities, and emergency situations. These assessments are supported by standardized checklists, Safety Data Sheets (SDS), permit-to-work systems, and cross-functional hazard identification workshops.

To strengthen employee engagement and ensure participation at all levels of the organization, EIL has introduced a digital EHS reporting and risk management platform that enables employees, contract workers, and supervisors to report hazards, unsafe acts, unsafe conditions, near misses, and improvement opportunities in real time. The system facilitates timely risk evaluation, assignment of corrective actions, tracking of closure status, and management review, thereby promoting proactive risk management and fostering a strong safety culture across all locations.

All identified risks are periodically reviewed and updated to ensure effective mitigation, taking into account operational changes, emerging risks, incident trends, and continual improvement opportunities. This systematic approach enables EIL to maintain a safe and healthy workplace while driving continuous enhancement of its EHS performance.

**c. Whether you have processes for workers to report work-related hazards and to remove themselves from such risks?**

Everest Industries Ltd. (EIL) has established robust processes that encourage active participation of employees and contract workers in identifying, reporting, and addressing workplace hazards, while also empowering them to remove themselves from situations perceived to present an imminent risk to their health and safety.

Employee involvement in workplace safety is promoted through multiple engagement platforms, including Safety Committee Meetings, departmental safety meetings, toolbox talks, monthly EHS review meetings, shop-floor team interactions, safety observations, and regular leadership and management safety rounds. These forums provide opportunities for workers at all levels to raise concerns, share feedback, report hazards, and contribute to the continuous improvement of workplace safety.

All identified hazards, observations, and improvement opportunities are systematically tracked and reviewed through the EHS management system. Corrective and preventive actions are assigned to the concerned departments, and progress is monitored through periodic reviews by plant management and corporate leadership to ensure timely closure and effective risk mitigation.

Employees and contract workers are encouraged to stop work or withdraw from any activity they believe may pose a risk to their health or safety without fear of reprisal. This commitment is reinforced through regular awareness programs, safety trainings, inductions, and leadership interactions that emphasize individual responsibility and collective accountability for maintaining a safe workplace.

To further strengthen engagement and foster a proactive safety culture, EIL conducts recognition and reward programs that acknowledge individuals and teams for their contributions towards hazard identification, safety improvements, near-miss reporting, and overall EHS excellence.

**d. Do the employees/workers of the entity have access to non-occupational medical and healthcare services? (Yes/ No)**

Yes, employees and workers at Everest Industries Ltd. (EIL) have access to non-occupational medical and healthcare services. Support is provided not only for medical emergencies but also for routine health needs, in addition to Medclaim coverage.

Necessary infrastructure for non-occupational medical care is available at plant locations. Pre-employment medical examinations are conducted, and as per statutory requirements, annual and half-yearly health check-ups are carried out for employees and workmen at the plants.

**11. Details of safety-related incidents, in the following format:**

\*\* This fatality of one of the contractual workmen was at one of the ESBS site project.

**12. Describe the measures taken by the entity to ensure a safe and healthy workplace.**

Everest Industries Ltd. (EIL) is committed to providing a safe and healthy workplace and has adopted a proactive, zero-harm approach. A range of initiatives and best-in-class practices have been implemented to safeguard the well-being of employees and workers, aligned with international standards and legal requirements. The following key measures reflect our focus on continuous improvement in occupational health and safety:

- Role and responsibility mapping implemented through Legasis to strengthen EHS governance and statutory compliance.
- EHS Management System revamped and aligned with the Integrated Management System (ISO 9001, ISO 14001, ISO 45001) and applicable legal requirements.
- Integrated IMS Manual, policies, procedures, and SOPs developed in line with statutory and international best practices.
- Comprehensive EHS training modules developed and deployed covering induction, asbestos safety, rigging and lifting operations, defensive driving, emergency response, and critical risk management.
- Life Saving Golden Rules implemented across all locations to manage high-risk activities and prevent serious injuries and fatalities.
- Permit-to-Work (PTW) system strengthened for critical activities such as hot work, work at height, confined space entry, electrical work, and excavation.
- Strategic Lockout-Tagout (LOTO) campaign launched across plants to enhance energy isolation practices and eliminate hazardous energy-related incidents.
- Regular Plant Head, Functional Head, and Leadership Safety Rounds conducted to improve shop-floor engagement, identify risks, and drive visible safety leadership.
- Monthly plant-level safety campaigns, awareness programs, and walkthroughs conducted to reinforce safe behaviors and strengthen safety culture.

- Training and competency development initiatives conducted on material handling, EOT crane operations, forklift safety, and contractor safety management, asbestos management.
- Top-down and bottom-up EHS communication mechanisms established through safety committee meetings, leadership interactions, toolbox talks, and employee feedback forums.
- Continuous improvement initiatives undertaken to enhance PPE compliance, availability, and suitability across all operations.
- EHS competitions, awareness programs, and engagement initiatives extended to employees, workers, contractors, and their families to promote broader safety ownership.
- Recognition and reward programs implemented to encourage proactive hazard reporting, near-miss reporting, and safety improvement initiatives.
- Robust consequence management framework enforced for safety violations to ensure accountability and reinforce compliance with critical safety requirement

14. Assessments for the year:

Safety Incident/Number	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Health & Safety Practices	100%
Working Conditions	100%

Note: We undertake internal assessments periodically for health and safety as well as working conditions for our workers and employees.

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks/concerns arising from assessments of health & safety practices and working conditions.

At Everest Industries Ltd., safety-related incidents and identified risks are addressed through a structured continuous improvement approach focused on engineering controls, system strengthening, employee engagement, and leadership involvement. Based on risk assessments, audits, inspections, incident investigations, and employee feedback, several corrective actions have been implemented, including strengthening machine guarding, enhancing pedestrian and vehicle segregation, improving material handling practices, upgrading PPE compliance, and reinforcing critical safety controls.

The Company has implemented Life Saving Golden Rules, strengthened the Permit-to-Work (PTW) and Lockout-Tagout (LOTO) systems, and enhanced controls for high-risk activities such as work at height, confined space entry, lifting operations, and electrical work. SOPs, risk assessments, checklists, and training modules are periodically reviewed and updated to address emerging risks and incorporate lessons learned.

Regular Plant Head, Functional Head, and Leadership Safety Rounds, along with Safety Committee Meetings and monthly EHS reviews, are conducted to monitor workplace conditions and ensure timely closure of identified actions. All findings and corrective actions are tracked through a centralized monitoring system and reviewed at both plant and corporate levels. Incident learnings are shared across locations to prevent recurrence, while a robust recognition and consequence management framework reinforces accountability and promotes a proactive safety culture

**PRINCIPLE 4: Businesses should respect the interests of and be responsive to all their stakeholders**

**Essential Indicators**

1. Describe the processes for identifying key stakeholder groups of the entity.

Everest Industries Ltd. (EIL) follows a structured and inclusive approach to identify and engage with key stakeholder groups that influence, or are influenced by, the Company's operations, products, and services. Key stakeholders include employees, customers, contractors, suppliers, investors, regulatory authorities, industry associations, local communities, and business partners. Stakeholder identification is carried out through periodic assessments of their level of influence, dependency, expectations, and potential impact on the Company's business and sustainability objectives.

The Company engages with stakeholders through various channels, including meetings, surveys, workshops, consultations, audits, reviews, grievance mechanisms, and community outreach programs. These interactions help in understanding stakeholder expectations, addressing concerns, identifying emerging issues, and gathering valuable feedback on business practices and performance.

Inputs received through stakeholder engagements are incorporated into business planning, risk management, sustainability initiatives, and continuous improvement programs. Stakeholders are prioritized based on their significance to the business and the extent of their impact, and engagement strategies are periodically reviewed to ensure they remain effective, relevant, and responsive to evolving stakeholder needs

b) Gross wages paid to females as % of total wages paid by the entity, in the following format:

	FY 2025-26	FY 2024-25
Gross wages paid to females as % of total wages	8.05%	10.98%

The split of wages paid to the contractual workforce is currently not tracked.

4. Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes. The Chief Human Resources Officer (CHRO) of the Company is responsible for addressing Human Rights impacts or issues caused by the business.

5. Describe the internal mechanisms in place to redress grievances related to human rights issues.

We do have a grievance mechanism policy in place. This policy outlines the processes and reporting channels through which grievances can be reported. It serves as an avenue for both internal and external stakeholders to voice their concerns. If anyone encounters issues related to human rights or other matters, they can utilize this mechanism to seek redress. Besides the grievance mechanism policy, we have the following:

1. Human Rights Policy and Awareness:

- Having a human rights policy reflects the company's dedication to upholding fundamental rights. It provides clear guidelines for ethical behavior.
- We also emphasize the importance of identifying, reporting and monitoring human rights issues.

2. Notification mechanism

- Employees shall notify their Line Manager or consult the Chief Human Resources Officer (CHRO) if they believe or suspect or have a reason to believe or suspect that a breach of this Human Rights Policy has occurred or may occur in the future.

3. Whistleblower Hotline:

- The company demonstrates its commitment to accountability by maintaining a Whistleblower Hotline. This confidential channel allows employees and stakeholders to report any unethical or illegal behavior as well as any human rights issues.
- By promptly addressing concerns raised through the hotline, the company ensures that human rights violations are thoroughly investigated.

4. POSH (Prevention of Sexual Harassment) Committee:

- The POSH Committee plays a critical role in safeguarding human rights within the organization. It focuses specifically on matters related to preventing sexual harassment.
- Through its investigations, the committee ensures a safe and respectful workplace for all employees.

5. Ethics Officer and Senior Management Involvement:

- The Ethics Officer, along with select senior management executives, oversees investigations. Their impartiality and expertise contribute to fair assessments.

6. Number of Complaints on the following made by employees and workers:

	FY 2025-26			FY 2024-25		
	Filed during the year	Pending resolution at the end of the year	Remarks	Filed during the year	Pending resolution at the end of the year	Remarks

Other human rights-related issues	0	0	-	0	0	-

7. Complaints filed under the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013, in the following format:

	FY 2025-26	FY 2024-25
Total Complaints reported under Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013 (POSH)	1	Nil
Complaints on POSH as a % of female employees/workers	0.96%	Nil
Complaints on POSH upheld	Nil	Nil

8. Mechanisms to prevent adverse consequences to the complainant in discrimination and harassment cases

Everest Industries Ltd. (EIL) has implemented a comprehensive Prevention of Sexual Harassment (POSH) Policy, which is communicated and made accessible to all employees across the organization. The policy provides a robust framework for the prevention, prohibition, and redressal of workplace harassment and ensures protection against any form of retaliation, victimization, discrimination, or adverse employment action arising from the reporting of a complaint.

The Company is committed to maintaining a safe, respectful, and inclusive workplace and provides appropriate support to complainants throughout the inquiry and resolution process. Depending on the nature of the case, support measures may include counseling assistance, leave provisions, workplace accommodations, or interim arrangements to ensure the well-being, dignity, and safety of all concerned parties while maintaining confidentiality and fairness throughout the proceedings.

9. Do human rights requirements form part of your business agreements and contracts? (Yes/No)

Every business agreement and contract executed by the company with any party incorporates pertinent clauses affirming compliance with applicable regulatory requirements, including those related to human rights.

10. Assessments for the year:

	% of your plants and offices that were assessed (by entity or statutory authorities or third parties)
Child labour	100%
Forced/involuntary labour	100%
Sexual harassment	100%
Discrimination at workplace	100%
Wages	100%
Others	-

100% assessments are being carried out by the Company and a third party does assessments for wages of the contractual workforce.

11. Provide details of any corrective actions taken or underway to address significant risks/concerns arising from the assessments at Question 10 above.

While no cases were identified, the following preventive and detective measures are in place:

- Third-party audits for contractual workmen
- Internal audits at plant locations
- Compliance checks before clearing contractor bills
- Human rights training for all categories of workers
- POSH sensitisation sessions reinforced this year
- Legal tracking system for labour law compliance

**PRINCIPLE 6: Businesses should respect and make efforts to protect and restore the environment**

For disclosures under Principle 6, the IMF Purchasing Power Parity (PPP) conversion factor for India of 20.6 (USD-INR) has been used for FY 2025-26 and FY 2024-25, in accordance with the guidance provided in the Industry Standards Note on BRSR Core issued by the Securities and Exchange Board of India vide Circular No. SEBI/HO/CFD/CFD-PoD-1/P/CIR/2024/177 dated December 20, 2024. The prescribed PPP conversion factor has been applied for the purpose of reporting monetary values in accordance with BRSR Core disclosure requirement

**Essential Indicators**

1. Details of total energy consumption (in Joules or multiples) and energy intensity, in the following format:

Parameter	FY 2025-26	FY 2024-25
<b>From renewable sources (in Giga Joules)</b>		
Total electricity consumption (A)	25,552.23	11694.03

<b>Energy intensity in terms of physical Output</b>	Not Evaluated Currently	
Energy intensity (optional) – the relevant metric may be selected by the entity	Not Evaluated Currently	

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency: No

Note: Under renewable sources for total energy accounting stationary fuel consumption (DG set, Boiler) & vehicles within the boundary are taken into account.

**Sources for Energy:** Based on factors and equations from WRI’s GHG Protocol, EPA.Gov, DEFRA and 2016 IPCC Protocol. Renewable sources include solar energy from Captive Capex, purchased via Opex and Biomass (Briquettes) uses in boilers. Non-Renewable sources include grid electricity for plants and offices, diesel for DG sets and material handling equipment as well as LPG for process use and in the canteens.

2. Does the entity have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Not applicable as the Company does not fall in the category of Industries that fall in the PAT scheme.

3. Provide details of the following disclosures related to water, in the following format:

Parameter	FY 2025-26	FY 2024-25
<b>Water withdrawal by source (in kilolitres)</b>		
(i) Surface water	159238	144124

The company operates Zero Liquid Discharge plants and in FY 2025-26 is 17,170 KL of water was treated and recycled for use in the garden and domestic use, the value for FY 2024-25 was 22,348 KL.

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency: No

5. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Yes, the entity has implemented a comprehensive Zero Liquid Discharge (ZLD) mechanism across all its manufacturing units producing roofing, boards, and panel products. Our Pre-Engineered Steel Buildings (PEB) plants do not consume water in their operations and are therefore not covered under the ZLD framework.

As part of our commitment to responsible water stewardship, no industrial wastewater—treated or untreated—is discharged outside plant premises. Wastewater generated from production processes and cleaning activities is treated and fully recycled back into operations, achieving 100% reuse within the facility.

For domestic sewage, advanced treatment technologies such as Moving Bed Biofilm Reactor (MBBR) are deployed in our Sewage Treatment Plants (STPs). The treated water is effectively utilized for green belt development within the premises, aligning with our circular water management approach.

To ensure consistent performance, these treatment systems are routinely monitored and maintained, with appropriate capital investments made as required.

In addition to ZLD, we have implemented several water conservation initiatives, including:

- Rainwater harvesting systems to support groundwater recharge;
- Water recycling initiatives to reduce dependency on freshwater sources; and
- A real-time telemetry system to monitor and govern groundwater abstraction in accordance with regulatory requirements.

Overall, the ZLD framework, supported by these initiatives, underscores our commitment to sustainable operations and environmental compliance.

6. Please provide details of air emissions (other than GHG emissions) by the entity, in the following format:

Parameter	Unit	FY 2025-26	FY 2024-25
NOx	Tonnes	0.68	0.8
SOx	Tonnes	0.075	0.37

Total Scope 1 and Scope 2 emission intensity in terms of physical output		Not Evaluated Currently	
Total Scope 1 and Scope 2 emission intensity (optional) – the relevant metric may be selected by the entity		Not Evaluated	

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency. (Y/N) No

**Source for Calculation of Scope 1 GHG emissions:** Based on factors and equations from WRI’s GHG Protocol, EPA.Gov, DEFRA and IPCC’s fifth assessment report. Fuels for Stationary Combustion (2006 IPCC guidelines) include diesel for DG sets and LPG. Mobile Combustion includes Diesel consumed in forklifts and Hydra. Refrigerants are not considered. Carbon content for Biomass is not considered in the accounting while CH4 and N2O are included in the calculation as per IPCC standards. Biogenic CO<sub>2</sub> emissions from biomass combustion were estimated at approximately 13,293 tCO<sub>2</sub>e in FY 2025-26, compared to 14,747 tCO<sub>2</sub>e in FY 2024-25

**Source for Calculation of Scope 2 emissions:** Based on the Grid Electricity EF - Central Electricity Authority, Govt. of India, CO<sub>2</sub> baseline database for Indian Power Sector, Version 20, December 2024 at the aggregate level (With RE). Purchased Renewable Energy has been accounted as a “0” contribution to Scope 2.

8. Does the entity have any project related to reducing Green House Gas emissions? If Yes, then provide details.

As part of our ESG commitments, Everest is advancing a comprehensive strategy to reduce Scope 1 and Scope 2 GHG emissions through energy efficiency, renewable energy adoption with a focus on electricity and fuels consumed, and responsible product stewardship.

**Energy Efficiency:**

We are committed to enhancing energy performance across our operations through structured energy management. Multiple energy efficiency projects are underway, with particular emphasis on reducing Units/MT across Business Units—initially targeting Roofing and ESBS. Additional initiatives include adoption of Variable Frequency Drives (VFDs), rigorous preventive maintenance, and other energy-saving interventions to drive sustainable improvements.

**Renewable Electricity:**

To reduce reliance on conventional energy sources, we are in the process of evaluating group captive open access models to potentially scale renewable electricity use. A broader feasibility study is underway to assess the viability of extending these initiatives across locations. Preliminary consumption of renewable electricity from solar in FY 2025-26 stood at 25,552.23 GJ, with an estimated CO<sub>2</sub> emissions avoidance of 5,161.10 tCO<sub>2</sub>e (based on the Grid Electricity Emission Factor – Central Electricity Authority, Government of India, CO<sub>2</sub> Baseline Database for the Indian Power Sector, Version 20, December 2024 at the aggregate level (with RE))

**Renewable Fuels:**

We have adopted agricultural biomass as an alternative renewable fuel to generate sustainable energy. In FY 2025-26, renewable fuel consumption reached 146,013 GJ, contributing to an estimated carbon emissions avoidance of approximately 16,852 tCO<sub>2</sub>e as compared to Sub-Bituminous Coal (Based on factors and equations from WRI's GHG Protocol, EPA.Gov, DEFRA and IPCC's fifth assessment report.)

**Product Stewardship:**

As part of our long-term sustainability vision, we will be conducting a Life Cycle Assessment (LCA) of our Boards and Panels business to quantify environmental impacts throughout the product value chain. This evidence-based approach will enable us to identify emission hotspots, implement low-carbon materials and technologies, and optimize processes. The insights derived will play a critical role in supporting our overall GHG emissions reduction targets.

**Conclusion:**

Our integrated approach across operations, energy sources, and product innovation reflects our firm commitment to decarbonization. These collective efforts are pivotal in advancing Everest's journey toward long-term climate resilience.

- 1) All our waste is either recycled or sent to an authorized agency for further re-use/ recovery options. Our current process doesn't include actual reporting of re-use/ recycling by authorized vendors. The waste-handling vendors have been selected based on compliance with relevant rules.
- 2) The Non-Hazardous scrap numbers have increased in the current year on account of increased steel building production resulting in additional MS scrap.
- 3) Waste sent for re-use includes wooden scrap.
- 4) Waste sent for other recovery operations include vegetation, paper, cardboard, board waste and cloth used for cleaning purpose.
- 5) Waste sent to landfill includes Boiler Ash, Process Sludge etc.

**10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce the usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.**

In line with its Environmental Responsibility objectives, Everest has implemented a structured and responsible waste management strategy aligned with its key material sustainability topics. The Company adopts a rigorous approach to waste segregation—by material type as well as by hazardous and non-hazardous classification—ensuring safe storage, handling, and disposal in accordance with regulatory requirements.

Hazardous waste is managed with utmost care and is routed exclusively through Pollution Control Board (PCB)-authorised vendors for compliant and secure disposal. Hazardous waste is sent for recycling by certified vendors and further recovered for utilisation. Asbestos-containing dry waste is either reused in the manufacturing process as Hard Ground Waste or re-circulated as green asbestos waste, supported by a robust reuse mechanism that mitigates environmental and health risks. Used lubricant oil is also repurposed to reduce the ecological footprint.

Defective or discarded products such as boards, panels, and sheets are processed and converted into Dry Waste Recycle (DWR), which is reintroduced into the manufacturing cycle wherever feasible—thereby promoting material circularity.

For non-hazardous waste streams, including metal scraps, wooden pallets, and MS drums- We do strict segregation and compliance with recycling protocols. These materials are sold to authorised recyclers for further processing, ensuring environmentally sound reuse or repurposing.

**11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones, etc.) where environmental approvals/clearances are required, please specify details in the following format:**

**PRINCIPLE 8: Businesses should promote inclusive growth and equitable development**

**Essential Indicators**

1. Details of Social Impact Assessments (SIA) of projects undertaken by the entity based on applicable laws, in the current financial year.

None of the projects of the Company had any stipulation to conduct a Social Impact Assessment (SIA) during the reporting period.

2. Provide information on the project(s) for which ongoing Rehabilitation and Resettlement (R&R) is being undertaken by your entity, in the following format:

Name and brief details of project	SIA Notification No.	Date of Notification	Whether conducted by Independent External Agency (Y/N)	Results communicated in public domain (Y/N)	Relevant Web-Link
No Rehabilitation and Resettlement is ongoing or required for any of projects.					

3. Describe the mechanisms to receive and redress grievances of the community.

Everest Industries is committed to fostering respectful, transparent, and constructive relationships with the communities in which we operate. Through our CSR initiatives and regular engagement by local employees, we maintain consistent interaction to understand and address community concerns effectively.

Community members are encouraged to voice their grievances directly to Plant Heads, CSR or HR representatives, or through our implementation partners. We ensure accessibility by allowing concerns to be raised verbally and in local languages.

Our Grievance Handling Policy extends to the community and is supported by a formal Grievance Redress Mechanism (GRM) to ensure timely and transparent resolution. A dedicated email ID ([foundation@everestind.com](mailto:foundation@everestind.com)) is also available for submitting concerns. All grievances received are reviewed promptly and escalated, if necessary, demonstrating our commitment to responsive and responsible community engagement.

4. Percentage of input material (inputs to total inputs by value) sourced from suppliers:

Parameter	FY 2025-26	FY 2024-25
Directly sourced from MSMEs/ small producers	21%	6%
Directly from within India	77%	75%

Note: The percentage is calculated by considering only those values in the numerator and denominator that consist of raw materials, traded goods, and bought outs.

5. Job creation in smaller towns – Disclose wages paid to persons employed (including employees or workers employed on a permanent or non-permanent / on contract basis) in the following locations, as % of total wage cost.

Semi-urban	17.39%	16.37%
Urban	11.62%	12.54%
Metropolitan	70.83%	70.37%

The above data includes permanent employees, permanent workers and other than permanent employees. Location-wise split of wages paid to the contractual workforce will be disclosed in future disclosures.

**PRINCIPLE 9 Businesses should engage with and provide value to their consumers in a responsible manner**

**Essential Indicators**

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

In the case of our Fibre Cement Business, we have a structured approach to address customer grievances, with documented procedures for each complaint type. For non-transactional issues, customers can directly contact the Business Unit Head via email or phone, with all communications recorded. For transactional or product related issues, the primary resolution path involves a structured process governed by our sales force and regional leaders. Posted with the sales team, the customer service teams conduct on-site inspections to determine the validity of product-related complaints, leading to compensation, education, or claim rejection based on merit.

Alternate channels include a helpline number and email address provided on our website for issue documentation and tracking. Regular meetings with contractors and industry influencers serve as additional feedback channels. A dedicated WhatsApp helpline allows for immediate complaint registration and tracking, with resolutions delivered swiftly according to set timelines

For Pre-Engineered Steel Buildings with B2B customers, a distinct process addresses grievances, with sales representatives and site engineers serving as the first point of contact. Issues are collaboratively examined with stakeholders, followed by a formal action plan communicated by the sales team. A dedicated committee handles escalated issues, while Non-Conformance Reports are systematically tracked. Contractors engage via calls or emails, with resolutions often reached through face-to-face discussions. Upon project completion, a comprehensive feedback form evaluates all stages, from design to handover

This streamlined structure ensures that all customer feedback is addressed efficiently and effectively, maintaining high standards of service and support.

**2. Turnover of products and/ services as a percentage of turnover from all products/services that carry information about:**

A substantial share of products across Everest Industries Ltd.'s three business segments is supplied without packaging, which limits the extent of environmental, social, safety, and end-of-life information that can be communicated directly on the product.

The Roofing business, which contributes approximately 54% of the Company's total turnover, comprises entirely unpackaged products. Accordingly, only information mandated under applicable regulations, such as the ISI mark, manufacturing date, company identification, and batch details, is displayed on the products.

The Boards and Panels business, representing around 21% of total revenue, includes both packaged and unpackaged products. For unpackaged products, the Company utilizes green labels and visual symbols to communicate key environmental attributes in addition to statutory requirements. For packaged products, material handling instructions are printed on the packaging. Detailed handling, storage, and usage guidelines are also shared along with invoices for products across both the Roofing and Boards & Panels businesses. For selected product categories, comprehensive technical literature, installation manuals, and instructional videos are provided in both physical and digital formats.

To support safe and sustainable product usage, the Company regularly conducts training and awareness programs for installers, roofers, applicators, and contractors. These initiatives focus on safe handling practices, proper installation techniques, improved operational efficiency, and enhanced product durability.

The Pre-Engineered Buildings (PEB) business, contributing approximately 25% of the Company's turnover, operates through a supply-and-service model. In this segment, product-related information is communicated through sales, project, and site engineering teams, who provide guidance on safety, installation, and operational requirements based on project-specific conditions. Additionally, customers are provided with a comprehensive Maintenance Manual outlining recommended practices for safe operation, preventive maintenance, and long-term performance of the structures throughout their lifecycle.

	As a percentage of total turnover
Environmental and social parameters relevant to the product	14%

# INDEPENDENT AUDITOR'S REPORT

To the Members of **Everest Industries Limited**

## Report on the Audit of the Standalone Financial Statements

### OPINION

We have audited the accompanying standalone financial statements of Everest Industries Limited ("the Company"), which comprise the Standalone Balance Sheet as at March 31 2026, the Standalone Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Standalone Statement of Cash Flows and the Standalone Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

### BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Standalone Financial Statements" section of our report. We are independent of the

Company in accordance with the "Code of Ethics" issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Key audit matters	How our audit addressed the key audit matter
<p><b>(a) Revenue recognition for long term projects and recoverability of receivables</b> (as described in note 1.3(ix), note 1.4(a) and note 2.24 of the standalone financial statements)</p> <p>A significant portion of the Company's business is undertaken through long-term engineering, procurement and construction contracts. Revenue from these contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers.</p>	<p>As part of our audit procedures, we:</p> <ul style="list-style-type: none"> <li>• Read the Company's accounting policy relating to revenue recognition to assess compliance with Ind AS 115.</li> <li>• Obtained an understanding of the process followed by the Company in determination of the estimates for evaluating contract obligations and contract revenue.</li> <li>• Performed test of controls over management process of estimation of contract obligations, recording of project costs incurred, computation of revenue recognized under the input method in Ind AS 115 and review of recoverability of receivables.</li> </ul>

Key audit matters	How our audit addressed the key audit matter
<p>Due to the nature of the contracts, revenue recognition involves usage of input method which is determined based on proportion of contract costs incurred to date compared to estimated total contract costs, which involves significant judgments, identification of contractual obligations and the Company's rights to receive payments for performance completed till date, risk on collectability due to liquidated damages, other penalties imposed by the customers, changes in scope and consequential revised contract price and recognition of the liability for loss making contracts / onerous obligations. Accuracy of revenues, onerous obligations, profits and net receivables may deviate significantly on account of change in judgements and estimates therefore, this has been considered as a key audit matter in our audit of the standalone financial statements.</p>	<ul style="list-style-type: none"> <li>• Inspected sample of contracts to evaluate appropriate identification of contract obligations, recording of project costs incurred, reasonability of estimates of costs to complete including change orders, if any, and appropriateness of the timing of recognizing the revenue from the contracts.</li> <li>• Tested the invoices raised and computation for revenue recognized, over a period of time under the input method as per Ind AS 115.</li> <li>• Examined and evaluated management judgments of onerous contracts, liquidated damages, other penalties charged by customers and adequacy of contingency provisions.</li> <li>• Examined contracts where there were significant overdue receivables with marginal or no movement to determine the level of provisioning required in respect of trade receivables.</li> <li>• Read and evaluated adequacy of disclosures in the standalone financial statements for compliance with Ind AS 115.</li> </ul>
<p><b>(b) Uncertain tax position impacting valuation of tax provision</b> (as described in Note 1.4b and note 2.23 of the standalone financial statements)</p> <p>The Company has ongoing disputes with the Income tax departments on income tax computation for certain assessment years. These disputes are pending with different Appellate authorities and at the Courts. The management has assessed the future outcome of these ongoing proceedings and exposures which directly affects the valuation of tax provisions in the standalone financial statements. As the future outcome of these matters and the accounting effects thereof, are based on assessment of complex matters which may take time to finally resolve, the valuation of tax provision related to uncertain tax positions has been considered as a key audit matter in our audit of the standalone financial statements.</p>	<p>As part of our audit procedures, we:</p> <ul style="list-style-type: none"> <li>• Obtained details of completed tax assessments and demands for the assessment years under dispute as of March 31, 2026.</li> <li>• Performed test of control over management process of assessment and estimation with regard to the existing tax disputes and uncertain tax positions.</li> <li>• Inspected written communication between the Company and the tax authorities and involved tax specialists to assess the management's underlying assumptions in estimating the tax provisions and possible outcome of the disputes.</li> <li>• Considered the effect of new information in the financial year 2025-26 in respect of carried forward uncertain tax positions to evaluate if there is a change in the management's position on these uncertainties.</li> <li>• We tested the adequacy of provisioning and disclosures in the standalone financial statements, relating to uncertain tax positions in accordance with the requirements of Ind AS 12.</li> </ul>

Key audit matters	How our audit addressed the key audit matter
<p><b>(c) Recoverability of investments in and loans to a subsidiary</b> (as described in note 1.4(f), note 2.05 and note 2.06 of the standalone financial statements)</p> <p>The Company has invested in, and extended loan to, its subsidiary. As at March 31, 2026, the gross carrying amount of such investment and loan is Rs. 1,703.55 lakhs and Rs. 10,777.66 lakhs, respectively.</p> <p>The subsidiary continues to incur losses and its net worth stands negative as at March 31, 2026.</p> <p>During the year ended March 31, 2026, the Company recognized impairment allowances of Rs. 1,500.88 lakhs on its investment in the subsidiary and Rs. 1,369.12 lakhs on the loan extended to the subsidiary, respectively, as disclosed in note 2.05 and note 2.06 to the standalone financial statements.</p> <p>Given the significance of the carrying amounts involved and assessment requires management to make significant estimates concerning the estimated future cash flows and associated discount rates and growth rates, we considered this to be a key audit matter.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>• Obtained an understanding of and evaluated the design and implementation of controls over management's impairment assessment process.</li> <li>• Obtained and examined management's assessment for impairment.</li> <li>• Assessed the competence, capabilities and objectivity of the expert used by management in the process of determining recoverable amounts.</li> <li>• Evaluated the key assumptions used by management in assessment of recoverable value including forecast revenue growth, operating margins, long-term growth rates and discount rates which included comparing these inputs with externally derived data as well as our own assessment based on our knowledge of the client and the industry.</li> <li>• Tested the arithmetic accuracy and performed sensitivity analyses on key assumptions to evaluate potential impact of changes in assumptions on the recoverable amounts.</li> <li>• Compared the projected cash flows used in the impairment assessment with the approved budgets.</li> <li>• Assessed the compliance of the disclosures made in the standalone financial statements with the accounting standards.</li> </ul>

**INFORMATION OTHER THAN THE STANDALONE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON**

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, including the report of the Board of Directors, but does not include the standalone financial statements and our auditor's report thereon. The Annual Report, including the report of the Board of Directors is expected to be made available to us after the date of this audit report.

Our opinion on the standalone financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the Other Information and, in doing so, consider whether such other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise

appears to be materially misstated. When we read the Annual Report, including the report of the Board of Directors, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

**RESPONSIBILITIES OF MANAGEMENT FOR THE STANDALONE FINANCIAL STATEMENTS**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for

preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

**AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to the standalone financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2026 and are

therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report, to the extent applicable, that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books except for the matters stated in paragraph 2(i)(vi) below on reporting under rule 11(g) of the Companies (Audit and Auditors) Rules, 2014;
  - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Statement of Cash Flow and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - (d) In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
  - (e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act;
  - (f) The modification relating to the maintenance of accounts and other matters connected therewith are as stated in paragraph 2(i)(vi) below on

reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014;

- (g) With respect to the adequacy of the internal financial controls with reference to these standalone financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
- (h) In our opinion, the managerial remuneration for the year ended March 31, 2026 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements – Refer Note 2.34 to the standalone financial statements;
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company;
  - iv. a) The management has represented that, to the best of its knowledge and belief, as disclosed in note 2.59(v), no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee,

security or the like on behalf of the Ultimate Beneficiaries;

- b) The management has represented that, to the best of its knowledge and belief, as disclosed in note 2.59(vi), no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
  - c) Based on such audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
  - v. The final dividend paid by the Company during the year in respect of the same declared for the previous year is in accordance with section 123 of the Act to the extent it applies to payment of dividend.
- As stated in note 2.49 to the standalone financial statements, the Board of Directors of the Company has proposed final dividend for the year which is subject to the approval

of the members at the ensuing Annual General Meeting. The dividend declared is in accordance with section 123 of the Act to the extent it applies to declaration of dividend.

- vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of account which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that, the audit trail feature is not enabled for certain changes made, if any, using privileged / administrative access rights, as described in note 2.57 to the standalone financial statements.

Further, during the course of our audit we did not come across any instance of audit trail feature being tampered with, in respect of accounting software where the audit trail has been enabled. Additionally, the audit trail of prior years has been preserved by the Company as per the statutory requirements for record retention to the extent it was enabled and recorded in the respective years.

**Annexure 1 referred to in paragraph 1 under the heading “Report on Other Legal and Regulatory Requirements” of our report of even date**

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (B) The Company has maintained proper records showing full particulars of intangibles assets.

- (b) Certain Property, Plant and Equipment were physically verified during the year by the Management in accordance with a planned programme of verification which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were identified on such verification.
- (c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are disclosed in note 2.01 to the standalone financial statements, are held in the name of the Company except for the following:

Description of Property	Gross carrying Value (Rs. in Lakhs)	Held in name of	Whether promoter, Director or their relative or Employee	Property held since which date	Reason for not being held in name of Company
Freehold Land	40	ACC Limited	No	May 19, 2022	Under process of Transfer

- (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2026.
- (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (ii) (a) The Management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion, the coverage and the procedure of such verification by the Management is appropriate. Discrepancies of 10% or more in aggregate for each class of inventory were not noticed on such physical verification.
- (b) As disclosed in note 2.16 to the standalone financial statements, the Company has been sanctioned working capital limits in excess of Rs. 5 crores in aggregate from banks during the year on the basis of security of current assets of the Company. Based on the records examined by us in the normal course of audit of the standalone financial statements, the quarterly returns / statements read with the subsequent revisions filed by the Company with such banks are in agreement with the books of accounts of the Company.
- (iii) (a) During the year the Company has made investments in one company and provided loans, advances in the nature of loans, stood guarantee and provided security to companies as follows:

	Guarantees	Security	Loans	Advances in nature of loans
Aggregate amount granted/ provided during the year	-	-	2,660.75	-
- Subsidiaries				
Balance outstanding as at balance sheet date in respect of above cases	14,000.00	-	10,777.66	-
- Subsidiaries				

- (b) During the year the investments made, guarantees provided and the terms and conditions of the grant of all loans, investments and guarantees to companies are not prejudicial to the Company’s interest.
- (c) The Company has granted loans during the year to companies where the schedule repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular.
- (d) There are no amounts of loans and advances in the nature of loans granted to companies which are overdue for more than ninety days.
- (e) There were no loans or advance in the nature of loan granted to companies which was fallen due during the year, that have been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- (f) The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.
- (iv) Loans, investments, guarantees and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable have been complied with by the Company.
- (b) The dues of Goods and Services tax, provident fund, employees’ state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess, and other statutory dues have not been deposited on account of any dispute, are as follows:
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act, 2013 and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture of building products and value added steel products, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) Undisputed statutory dues including Goods and Services tax, provident fund, employees’ state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, cess and other material statutory dues have generally been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

**Annexure 2 to the Independent Auditor's Report of Even Date on the Standalone Financial Statements of Everest Industries Limited**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to standalone financial statements of Everest Industries Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS**

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**AUDITOR'S RESPONSIBILITY**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls

with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

**MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THESE STANDALONE FINANCIAL STATEMENTS**

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

**INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS**

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any

evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**OPINION**

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established

by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

# NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2026

## NOTE 1.1

### Corporate information

Everest Industries Limited ('the Company') (CIN: L74999MH1934PLC002093) is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India (BSE and NSE). The registered office of the company is located at Gat No. 152, Lakhmapur, Taluka Dindori Nashik-422202 (Maharashtra). The Company is engaged in manufacturing and trading of building products like roofing products, boards and panels, other building products and accessories and manufacturing of components of pre-engineered steel buildings and related accessories.

The financial statements for the year ended March 31, 2026 were approved by the Board of Directors and authorised for issue on May 26, 2026.

## NOTE 1.2

### Statement of compliance and basis of preparation

The standalone financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the Standalone Financial Statements.

These financial statements have been prepared on the historical cost except for the following assets and liabilities:

- derivative financial instruments are measured at fair value;
- employee defined benefit assets/(liability) are recognised as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments), and
- Equity settled ESOP at grant date fair value and cash settled ESOP at fair value at each reporting date

The Standalone financial statements are presented in Rupees, and all values are rounded to the nearest lakhs, except when otherwise indicated.

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

## NOTE 1.3

### Summary of material accounting policies

#### (i) Current Versus Non-Current Classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

- Expected to be settled in normal operating cycle
- Held primarily for the purpose of trading
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalent. The Company has identified twelve months as its operating cycle.

#### (ii) Dividend

The Company recognises a liability to make dividend distributions to the shareholders of the Company when the distribution is authorized and approved by

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

the shareholder in the Annual General Meeting of the Company. A corresponding amount is recognised directly in equity.

### (iii) Fair values measurements

The Company measures financial instruments, such as derivatives, at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Other techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

### (iv) Property, Plant and Equipment

Property, plant & equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use. Such cost includes the cost of replacing part of the plant and equipment. Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The costs of repairs and maintenance are recognised in the statement of profit and loss as incurred.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the Statement of Profit or Loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of Property, plant and equipment are reviewed at each financial year end and adjusted, if appropriate. The residual value adopted for such assets does not exceed five per cent of their original cost, in accordance with Schedule II to the Companies Act, 2013 (as amended).

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### (v) Depreciation on Property, plant & equipment

- Leasehold improvements (LHI) & leasehold lands are amortised on straight line basis over the period of lease or useful life whichever is lower.
- Depreciation on other Property, plant & equipment is provided on straight line basis at the rates based on the estimated useful life of the assets. The Company, based on management estimates, depreciates the assets over estimated useful lives which coincides with the useful life prescribed in Schedule II to the Companies Act, 2013.
- The Company, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant and equipment, furniture and fixtures and office equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.
- Depreciation on Property, plant & equipment added/ disposed off during the year is provided on pro-rata basis with respect to date of acquisition/ disposal.
- When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives

### (vi) Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Computer software is amortised over the estimated useful life of 3 years.

An item of intangible assets is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the Statement

of Profit or Loss when the asset is derecognised. The residual values, useful lives and methods of amortisation of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

### (vii) Asset held for sale

An item of Property, plant and equipment is classified as asset held for sale at the time when the Management is committed to sell/dispose off the asset as per Memorandum of Agreement entered into with the customer and the asset is expected to be sold/disposed off within one year from the date of classification.

Assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

### (viii) Research and development costs

Research and development costs of revenue nature are charged to the Statement of Profit and Loss when incurred. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the rates set out in Note 1.3 (iv) above.

### (ix) Revenue Recognition

- Revenue from contract with customers  
Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

In respect of pre-engineered building contracts, revenue is recognised over a period of time using the input method (equivalent to percentage-of-completion method; POCM) of accounting with contract costs incurred determining the degree of completion of the performance obligation.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers on behalf of the government.

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### Contract balances

#### Contract assets

A contract asset is initially recognised for revenue earned from installation services because the receipt of consideration is conditional on successful completion of the installation. Upon completion of the installation and acceptance by the customer, the amount recognised as contract assets is reclassified to trade receivables.

Contract assets are subject to impairment assessment. Financial instruments – initial recognition and subsequent measurement.

#### Trade receivables

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

#### Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Company transfers the related goods or services. Contract liabilities are recognised as revenue when the Company, performs under the contract (i.e., transfers control of the related goods or services to the customer).

- **Interest**

For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR).

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. Interest income is included in other income in the statement of profit and loss.

### (x) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

- **Financial assets**

#### Initial recognition and measurement

Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, fair value through profit or loss.

With the exception of trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient, the Company initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Company has applied the practical expedient are measured at the transaction price determined under Ind AS 115

#### Subsequent measurement

##### Financial assets at amortised cost (debt instruments)

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade receivables, security deposits & other receivables.

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### Investments in subsidiaries

Investments in subsidiaries are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries, the difference between net disposal proceeds and the carrying amounts are recognized in the statement of profit and loss.

### Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

### Impairment of financial assets

The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the trade receivable.

The Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for estimated losses on the current portfolio. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The impairment losses and reversals are recognised in Statement of Profit and Loss. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised.

- **Financial liabilities**

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

#### Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method.

#### Other financial liabilities (Loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

The EIR amortisation is included as finance costs in the statement of profit and loss.

#### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

#### Derivative financial instruments

The Company uses derivative financial instruments such as foreign exchange forward contracts, to hedge its foreign currency risk.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

### (xi) Inventories

Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary and includes all applicable costs incurred in bringing goods to their

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

present location and condition. The basis for determining cost for various categories of inventories is as follows:

Stores and spare parts	- Moving Weighted average
Raw materials	- Moving Weighted average
Materials in transit	- At cost
Work in progress and Finished goods	- Material cost determined on moving weighted average basis plus appropriate share of labour, manufacturing and other overheads.
Stock in trade and packing material	- Moving Weighted average

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

### (xii) Retirement and other Employee Benefits

Employee benefits include provident fund, superannuation, performance incentives, gratuity and compensated absences.

#### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange of services rendered by employees is recognised during the period when the employee renders the services. These benefits include compensated absences and performance incentives.

#### Post-employment benefit plans

The Company has various schemes of retirement benefits namely superannuation schemes and gratuity, which are administered by trustees of independently constituted trusts recognised by the Income-tax authorities.

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has no obligation, other than the contribution payable to the provident fund. The Company recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution

already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

The Company's superannuation scheme is considered as defined contribution scheme. The Company has no obligation, other than the contribution payable to the superannuation fund. The Company recognizes contribution payable to the superannuation fund scheme as an expense, when an employee renders the related service.

The Company operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Remeasurements, comprising of actuarial gains and losses, and the return on plan assets (excluding net interest), are recognised to OCI in the period in which they occur and are not reclassified to profit or loss.

Benefits comprising compensated absences constitute other employee benefits. The liability for compensated absences is provided on the basis of an actuarial valuation done by an independent actuary at the year end. Actuarial gains/losses are immediately taken to the statement of profit and loss for the period in which they are occur.

### (xiii) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

### (xiv) Foreign Exchange Transactions and balances

The functional currency of the company is India Rupees.

#### Initial recognition

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### Conversion

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency exchange rate at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss.

### (xv) Taxes

Tax expense comprises current tax expense and deferred tax.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Company shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

### Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Company relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost of production as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if and only if the Company has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity which intends either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

### Goods and Services Tax (GST)

Expenses and assets are recognised net of the amount of GST/ value added taxes paid, except:

When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable;

- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current/ non-current assets/ liabilities in the balance sheet.

### (xvi) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### (xvii) Impairment of Non-financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal or its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses are recognised in the statement of profit and loss.

### (xviii) Provisions and contingencies

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

### (xix) Contingent liability

disclosure for a contingent liability is made when there is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the entity or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

### (xx) Share based payment transaction

Selected employees of the Company receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant.

The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

### (xxi) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease i.e., if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company

recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### (i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 1.3 (xvii) Impairment of tangible and intangible assets.

#### (ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### (iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

#### Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Contingent rents are recognised as revenue in the period in which they are earned.

### (xxii) Segment reporting

Operating segment are reported in a manner consistent with the internal reporting provided to chief operating decision maker (CODM). The managing director is considered to be the 'Chief Operating Decision Maker' (CODM). Refer Note 2.40 for segment information presented.

### (xxiii) Government grants and subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that the Company will comply with the conditions attached to them, and the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in profit or loss over the periods necessary to match them with the related costs, which they are intended to compensate.

Where the grant relates to an asset, it is recognised as deferred income and released to income when on a systematic basis when related conditions or obligations are met by the Company.

### (xxiv) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at bank and in hand and short-term investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdraft as they are considered an integral part of the company's cash management.

#### Note 1.4

##### Significant accounting judgments, estimates and assumptions.

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of asset and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

##### (a) Uncertainty on the Estimation of the Total Construction Revenue and Total Construction Cost:

The Company recognises revenue from the construction contracts over the period of contract as per the input method of IND AS 115 "Revenue from contracts with the customers". The contract revenue is determined based on proportion of contract cost incurred to date compared to estimated total contract cost which involves significant judgement, identification of contractual obligations, and the company's right to receive payments for performance completed till date, risk on collectability due to liquidation

## NOTES FORMING PART OF THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

damages and other penalties imposed by the customers, change in scope and consequential revised contract price and recognition of the liability for loss making contracts/onerous obligations etc. The Company has efficient, coordinated system for calculation and forecasting its revenue and expense reporting. However actual project outcome may deviate positively or negatively from the company's calculation and forecasting which could impact the revenue recognition up to the stage of project completion and is recognised prospectively in the financial statements.

(b) **Tax Uncertainties:** The Company has open tax issues, ongoing proceedings and exposures at various levels of authorities. Where management makes a judgement that an outflow of funds is probable and a reliable estimate of the outcome of the dispute can be made, provision is made for the best estimate of the liability. In estimating any such liability, the Company applies a risk-based approach. These estimates take into account the specific circumstances of each dispute and relevant external advice and are inherently judgemental and could change substantially over time as each dispute progresses.

The Company continues to believe that it has made adequate provision for the liabilities likely to arise from open assessments. Where open issues exist the ultimate liability for such matters may vary from the amounts provided and is dependent upon the outcome of assessments with the relevant tax authorities or the litigation proceedings.

(c) **Useful Lives of Property, Plant and Equipment:** The Company uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by the management periodically and revised, if appropriate. In case of a revision, the unamortised depreciable amount is charged over the remaining useful life of the assets.

(d) **Measurement of Defined Benefit Obligation:** The cost of the defined benefit gratuity plan and other Long term employee benefits (Compensated Absences) and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate,

future salary increases and mortality rates, etc. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is sensitive to changes in these assumptions.

(e) **Share-based Payments:** The Company measures the cost of equity-settled transactions with employees using Black-Scholes model to determine the fair value of the liability incurred on the grant date. Estimating fair value for share-based payment transactions require determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

(f) **Impairment in subsidiaries:** The Company reviews its carrying value of investments carried at cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is recorded in the Statement of Profit and Loss. In considering the value in use, the management anticipates the future commodity prices, capacity utilisation of plant, operating margins, discount rates and other factors of the underlying businesses/operations of the subsidiaries.

(g) **Expected Credit Loss:** The Company makes provision of expected credit losses on trade receivables using a provision matrix. The provision matrix is based on its historical observed default rates, adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated, and Company makes appropriate provision wherever outstanding is for longer period and involves higher risk.

(h) **Lease - Estimating the incremental borrowing rate :** The Company cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Company would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Company 'would have to pay', which requires estimation when no observable rates are available. The Company estimates the IBR using observable inputs

(such as market interest rates) when available and is required to make certain entity-specific estimates

If the Company receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting period, it will assess whether the information affects the amounts that it recognises in its separate financial statements. The Company will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Company will not change the amounts recognised in its separate financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

### Note 1.5

#### Changes in Accounting Policies and Disclosures New and Amended Standards

Recent Pronouncements the Ministry of Corporate Affairs notifies new standard or amendments to existing standards.

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

Ind AS 1, Presentation of Financial Statements, applicable w.e.f April 1, 2025 - The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date, and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.

Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments - Disclosures, applicable w.e.f April 1, 2025 - The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

Ind AS 12, International Tax Reform - Pillar Two Model Rules applicable immediately - The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

The fair value of stock based awards to employees is calculated through the use of option pricing models, requiring subjective assumptions which greatly affect the calculated values. The said fair value of the options have been calculated using Black-Scholes option pricing model, considering the expected term of the options to be 5 years, expected dividend yield on the underlying equity shares and volatility in the share price and a risk free rate of interest. The Company's calculations are based on a single option valuation approach, and forfeitures are recognised as they occur. The expected volatility is based on historical volatility of the share price during the year after eliminating the abnormal price fluctuations.

The following tables list the inputs to the model used for the year ended :

Particulars	Rs. in Lakhs	
	March 31, 2026	March 31, 2025

## INDEPENDENT AUDITOR'S REPORT

To the Members of **Everest Industries Limited**

### Report on the Audit of the Consolidated Financial Statements

#### OPINION

We have audited the consolidated financial statements of Everest Industries Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") comprising of the consolidated Balance Sheet as at March 31 2026, the consolidated Statement of Profit and Loss, including Other Comprehensive Income, the consolidated Statement of Cash Flows and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31, 2026, its consolidated loss including other comprehensive income, its consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

#### BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the

Consolidated Financial Statements' section of our report. We are independent of the Group in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

#### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2026. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matters	How our audit addressed the key audit matter
<p><b>(a) Revenue recognition for long term projects and recoverability of receivables</b> (as described in Note 1.3(x), note 1.4(a) and note 2.23 of the consolidated financial statements)</p> <p>A significant portion of the Group's business is undertaken through long-term engineering, procurement and construction contracts. Revenue from these contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. Due to the nature of the contracts, revenue recognition involves usage of input method which is determined based on proportion of contract costs incurred to date compared to estimated total contract costs, which involves significant judgments, identification of contractual obligations and the Group's rights to receive payments for performance completed till date, risk on collectability due to liquidated damages, other penalties imposed by the customers, changes in scope and consequential revised contract price and recognition of the liability for loss making contracts / onerous obligations. Accuracy of revenues, onerous obligations, profits and net receivables may deviate significantly on account of change in judgements and estimates therefore, this has been considered as a key audit matter in our audit of the consolidated financial statements.</p>	<p>As part of our audit procedures, we:</p> <ul style="list-style-type: none"> <li>• Read the Group's accounting policy relating to revenue recognition to assess compliance with Ind AS 115.</li> <li>• Obtained an understanding of the process followed by the Group in determination of the estimates for evaluating contract obligations and contract revenue.</li> <li>• Performed test of controls over management process of estimation of contract obligations, recording of project costs incurred, computation of revenue recognized under the input method in Ind AS 115 and review of recoverability of receivables.</li> <li>• Inspected sample of contracts to evaluate appropriate identification of contract obligations, recording of project costs incurred, reasonability of estimates of costs to complete including change orders, if any, and appropriateness of the timing of recognizing the revenue from the contracts.</li> <li>• Tested the invoices raised and computation for revenue recognized, over a period of time under the input method as per Ind AS 115.</li> <li>• Examined and evaluated management judgments of onerous contracts, liquidated damages, other penalties charged by customers and adequacy of contingency provisions.</li> <li>• Examined contracts where there were significant overdue receivables with marginal or no movement to determine the level of provisioning required in respect of trade receivables.</li> <li>• Read and evaluated adequacy of disclosures in the consolidated financial statements for compliance with Ind AS 115.</li> </ul>
<p><b>(b) Uncertain tax position impacting valuation of tax provision</b> (as described in Note 1.4b and note 2.22 of the consolidated financial statements)</p> <p>The Group has ongoing disputes with the Income tax departments on income tax computation for certain assessment years. These disputes are pending with different Appellate authorities and at the Courts. The management has assessed the future outcome of these ongoing proceedings and exposures which directly affects the valuation of tax provisions in the consolidated financial statements. As the future outcome of these matters and the accounting effects thereof, are based on assessment of complex matters which may take time to finally resolve, the valuation of tax provision related to uncertain tax positions has been considered as a key audit matter in our audit of the consolidated financial statements.</p>	<p>As part of our audit procedures, we:</p> <ul style="list-style-type: none"> <li>• Obtained details of completed tax assessments and demands for the assessment years under dispute as of March 31, 2026.</li> <li>• Performed test of control over management process of assessment and estimation with regard to the existing tax disputes and uncertain tax positions.</li> <li>• Inspected written communication between the Group and the tax authorities and involved tax specialists to assess the management's underlying assumptions in estimating the tax provisions and possible outcome of the disputes.</li> <li>• Considered the effect of new information in the financial year 2025-26 in respect of carried forward uncertain tax positions to evaluate if there is a change in the management's position on these uncertainties.</li> <li>• We tested the adequacy of provisioning and disclosures in the consolidated financial statements, relating to uncertain tax positions in accordance with the requirements of Ind AS 12.</li> </ul>

**INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON**

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, including the report of the Board of Directors, but does not include the consolidated financial statements and our auditor's report thereon. The Annual Report, including the report of the Board of Directors is expected to be made available to us after the date of this audit report.

Our opinion on the consolidated financial statements does not cover the Other Information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. When we read the annual report, including the report of the Board of Directors, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

**RESPONSIBILITIES OF MANAGEMENT FOR THE CONSOLIDATED FINANCIAL STATEMENTS**

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in terms of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated statement of changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of their respective companies and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the

consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of their respective companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of their respective companies.

**AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements for the financial year ended March 31, 2026 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### OTHER MATTERS

We did not audit the financial statements and other financial information, in respect of five subsidiaries, whose financial statements include total assets of Rs. 21,270.27 lakhs as at March 31, 2026, and total revenues of Rs. 8,273.56 lakhs and net cash outflows of Rs. 336.84 lakhs for the year ended on that date. Those financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, is based solely on the reports of such other auditors.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

## Annexure 2 to the Independent Auditor's Report of Even Date on the Consolidated Financial Statements of Everest Industries Limited

### Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Everest Industries Limited (hereinafter referred to as the "Holding Company") as of and for the year ended March 31, 2026, we have audited the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group"), which are companies incorporated in India, as of that date.

### MANAGEMENT'S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the companies included in the Group, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### AUDITOR'S RESPONSIBILITY

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to these consolidated financial statements.

### MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO THESE CONSOLIDATED FINANCIAL STATEMENTS

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

### INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management

override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### OPINION

In our opinion, the Group, which are companies incorporated in India, have maintained in all material respects, adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

### OTHER MATTERS

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company, in so far as it relates to three subsidiaries which are companies incorporated in India, is based on the corresponding reports of the auditors of such subsidiaries incorporated in India.

# NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED MARCH 31, 2026

## NOTE 1.1

The consolidated financial statements comprise financial statements of Everest Industries Limited (the Holding Company) and its subsidiaries (collectively, "the Group") for the year ended March 31, 2026. The Holding company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. Its shares are listed on two recognised stock exchanges in India. The registered office of the Holding company is located at Gat No. 152, Lakhmapur, Taluka Dindori, Nashik - 422202 (Maharashtra).

The Group is primarily engaged in manufacturing and trading of building products like roofing products, boards and panels, other building products and accessories and manufacturing of components of pre-engineered steel buildings and related accessories.

The consolidated financial statements for the year ended March 31, 2026 were approved by the Board of Directors and authorised for issue on May 26, 2026.

## NOTE 1.2

### Statement of compliance and basis of preparation of consolidated financial statements

The consolidated financial statements of the Group have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and

presentation requirements of Division II of Schedule III to the Companies Act, 2013, as applicable to the consolidated financial statements.

These consolidated financial statements have been prepared on the historical cost except for the following assets and liabilities:

- derivative financial instruments are measured at fair value.
- employee defined benefit assets/(liability) are recognised as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation;
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments), and
- Equity settled ESOP at grant date fair value and cash settled ESOP at fair value at each reporting date

The Consolidated financial statements are presented in Rupees, and all values are rounded to the nearest lakhs, except when otherwise indicated.

The Group has prepared the financial statements on the basis that it will continue to operate as a going concern.

Following subsidiary companies have been considered in the preparation of the consolidated financial statements:

Name of the entity	Relationship	Country of Incorporation	Ownership held by	% of Holding and voting power either directly or indirectly through subsidiary	
				March 31, 2026	March 31, 2025
Everest Building Products (w.e.f., September 09, 2013)	Subsidiary	Mauritius	Company	100	100
Everestind FZE (w.e.f., December 18, 2013)	Subsidiary	United Arab Emirates (UAE)	Everest Building Products	100	100
Everest Buildpro Private Limited (w.e.f. March 31, 2023)	Subsidiary	India	Company	100	100
Everest Steel Building Private Limited (w.e.f. May 26, 2023)	Subsidiary	India	Company	100	100
Everest Foundation	Subsidiary	India	Company	100	100

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Everest Building Products was incorporated on September 09, 2013 with limited liability as a wholly owned subsidiary of the Company to promote business of the Company in the overseas market and to carry out the business of international trading of building products and accessories thereof.

Everestind FZE was incorporated on December 18, 2013 as a free zone establishment with limited liability as a wholly owned subsidiary of Everest Building Products to carry out the business of international trading of building products and accessories thereof.

Everest Buildpro Private Limited was incorporated on March 31, 2023 as a wholly owned subsidiary of the Company to manufacture Boards and Panel products.

Everest Steel Building Private Limited was incorporated on May 26, 2023 as a wholly owned subsidiary of the Company to manufacture Steel Building products.

Everest Foundation was incorporated on September 24, 2021 under Section 8 of the Companies Act, 2013 ("The Act") limited by guarantee for rendering CSR activities for the Group.

The consolidated financial statements incorporate the financial statements of the Holding Company and entities controlled by the Holding Company i.e. its subsidiaries. Subsidiaries are all entities that are controlled by the Company. Control is achieved when the Company is exposed to, or has rights to the variable returns of the entity and the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in these consolidated financial statements from the date that control commences until the date that control ceases. The results of disposed businesses are included in the consolidated financial statements up to their date of disposal, being the date control ceases.

### NOTE 1.3 Summary of material accounting policies

#### (i) Basis of consolidation

The consolidated financial statements relate to Everest Industries Limited (the Company), and its subsidiaries. The consolidated financial statements have been prepared on the following basis:

- The financial statements of the entities that are consolidated are drawn upto the same reporting date as that of the Company i.e., March 31, 2026.
- The financial statements of the Company and its subsidiary companies have been combined on a line-by-line basis by adding together like items of assets, liabilities, income and expenses, after eliminating intra-group balances, intra-group transactions and resulting unrealised profits or losses.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.
- Non-Controlling Interest's share of profit/loss of consolidated subsidiaries for the year is identified and adjusted against the income of the group in order to arrive at the net income attributable to shareholders of the Company.
- Non-Controlling Interest's share of net assets of consolidated subsidiaries is identified and presented in the Consolidated Balance Sheet separate from liabilities and the equity of the Company's shareholders.
- The consolidated financial statements have been prepared using uniform accounting policies in the same manner as the Company's separate financial statements.

#### (ii) Current versus Non-Current Classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- Expected to be settled in normal operating cycle
- Held primarily for the purpose of trading
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalent. The Group has identified twelve months as its operating cycle.

#### (iii) Dividend

The Group recognises a liability to make dividend distributions to the shareholders of the Holding Company when the distribution is authorized and approved by the shareholder in the Annual General Meeting of the Holding Company. A corresponding amount is recognised directly in equity.

#### (iv) Fair values measurements

The Company measures financial instruments, such as derivatives, at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value.

All assets and liabilities for which fair value is measured or disclosed in the Consolidated financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Other techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### (v) Property, Plant and Equipment

Property, plant & equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. The cost comprises purchase price, borrowing costs if capitalization criteria are met, directly attributable cost of bringing the asset to its working condition for the intended use. Such cost includes the cost of replacing part of the plant and equipment. Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of repairs and maintenance are recognised in the statement of profit and loss as incurred.

The Group identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the asset and has useful life that is materially different from that of the remaining asset.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the Statement of Profit or Loss when the asset is derecognised.

The residual values, useful lives and methods of depreciation of Property, plant and equipment are reviewed at each financial year end and adjusted, if appropriate. The residual value adopted for such assets does not exceed five per cent of their original cost, in accordance with Schedule II to the Companies Act, 2013 (as amended).

### (vi) Depreciation on Property, plant & equipment

- Leasehold improvements (LHI) & leasehold lands are amortised on straight line basis over the period of lease or useful life whichever is lower.
- Depreciation on other Property, plant & equipment is provided on straight line basis at the rates based on the estimated useful life of the assets. The Group, based on management estimates, depreciates the assets over estimated useful lives which coincides with the useful life prescribed in Schedule II to the Companies Act, 2013.

The Group, based on technical assessment made by technical expert and management estimate, depreciates certain items of plant and equipment, furniture and fixtures and office equipment over estimated useful

lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

- Depreciation on Property, plant & equipment added/ disposed off during the year is provided on pro-rata basis with respect to date of acquisition/ disposal.
- When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives

### (vii) Intangible assets

Intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any. Internally generated intangibles, excluding capitalised development costs, are not capitalised and the related expenditure is reflected in profit or loss in the period in which the expenditure is incurred.

Computer software is amortised over the estimated useful life of 3 years.

An item of intangible assets is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is included in the Statement of Profit or Loss when the asset is derecognised. The residual values, useful lives and methods of amortisation of intangible assets are reviewed at each financial year end and adjusted prospectively, if appropriate.

### (viii) Asset held for sale

An item of Property, plant and equipment is classified as asset held for sale at the time when the Management is committed to sell/dispose off the asset as per Memorandum of Agreement entered into with the customer and the asset is expected to be sold/disposed off within one year from the date of classification.

Assets classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### (ix) Research and development costs

Research and development costs of revenue nature are charged to the Statement of Profit and Loss when incurred. Fixed assets utilised for research and development are capitalised and depreciated in accordance with the rates set out in Note 1.3(v) above.

### (x) Revenue Recognition

- Revenue from contract with customers**  
Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

In respect of pre-engineered building contracts, revenue is recognised over a period of time using the input method (equivalent to percentage-of-completion method; POCM) of accounting with contract costs incurred determining the degree of completion of the performance obligation.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers on behalf of the government.

### Contract balances

#### Contract assets

A contract asset is initially recognised for revenue earned from installation services because the receipt of consideration is conditional on successful completion of the installation. Upon completion of the installation and acceptance by the customer, the amount recognised as contract assets is reclassified to trade receivables.

Contract assets are subject to impairment assessment. Financial instruments – initial recognition and subsequent measurement.

#### Trade receivables

A receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

### Contract liabilities

A contract liability is recognised if a payment is received or a payment is due (whichever is earlier) from a customer before the Company transfers the related goods or services. Contract liabilities are recognised as revenue when the Company, performs under the contract (i.e., transfers control of the related goods or services to the customer).

- Interest**  
For all debt instruments measured at amortised cost, interest income is recorded using the effective interest rate (EIR).

EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset or to the amortised cost of a financial liability. Interest income is included in finance income in the statement of profit and loss.

### (xi) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

- Financial assets**  
**Initial recognition and measurement**  
Financial assets are classified, at initial recognition, and subsequently measured at amortised cost, fair value through profit or loss.

With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under Ind AS 115

#### Subsequent measurement

Financial assets at amortised cost (debt instruments)

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

A 'financial asset' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in other income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade receivables, Security deposits & other receivables.

### Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

### Impairment of financial assets

The Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the trade receivable.

The Group uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for estimated losses on the current portfolio. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The impairment losses and reversals are recognised in Statement of Profit and Loss. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used

to determine the asset's recoverable amount since the last impairment loss was recognised.

- **Financial liabilities**

#### Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

#### Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method.

#### Other financial liabilities (Loans and borrowings)

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

The EIR amortisation is included as finance costs in the statement of profit and loss.

#### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

#### Derivative financial instruments

The Group uses derivative financial instruments such as foreign exchange forward contracts, option contracts and swap contracts to hedge its foreign currency risk.

Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss,

### (xii) Inventories

Inventories are valued at the lower of cost and the net realisable value after providing for obsolescence and other losses, where considered necessary and includes all applicable costs incurred in bringing goods to their present location and condition. The basis for determining cost for various categories of inventories is as follows:

Stores and spare parts	- Moving Weighted average
Raw materials	- Moving Weighted average
Materials in transit	- At cost
Work in progress and Finished goods	- Material cost determined on moving weighted average basis plus appropriate share of labour, manufacturing and other overheads.

Stock in trade	- Weighted average
----------------	--------------------

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

### (xiii) Retirement and other Employee Benefits

Employee benefits include provident fund, superannuation, performance incentives, gratuity and compensated absences.

#### Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange of services rendered by employees is recognised during the period when the employee renders the services. These benefits include compensated absences and performance incentives.

#### Post-employment benefit plans

The Group has various schemes of retirement benefits namely provident fund, superannuation schemes and gratuity, which are administered by trustees of independently constituted trusts recognised by the Income-tax authorities.

Retirement benefit in the form of provident fund is a defined contribution scheme. The group has no obligation, other than the contribution payable to the provident fund. The group recognizes contribution payable to the provident fund scheme as an expense, when an employee renders the related service. If the contribution payable to the scheme for service received before the balance sheet date exceeds the contribution already paid, the deficit payable to the scheme is recognized as a liability after deducting the contribution already paid. If the contribution already paid exceeds the contribution due for services received before the balance sheet date, then excess is recognized as an asset.

The Group's superannuation scheme is considered as defined contribution scheme. The Group has no obligation, other than the contribution payable to the superannuation fund. The Group recognizes contribution payable to the superannuation fund scheme as an expense, when an employee renders the related service.

The Group operates a defined benefit gratuity plan, which requires contributions to be made to a separately administered fund. The cost of providing benefits under the defined benefit plan is determined using the projected unit credit method. Remeasurements, comprising of actuarial gains and losses, and the return on plan assets (excluding net interest), are recognised to OCI in the period in which they occur and are not reclassified to profit or loss.

Benefits comprising compensated absences constitute other employee benefits. The liability for compensated absences is provided on the basis of an actuarial valuation done by an independent actuary at the year end. Actuarial gains/losses are immediately taken to the statement of profit and loss for the period in which they are occur.

### (xiv) Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### (xv) Foreign Exchange Transactions and balances

The functional currency of the Group is India Rupees.

#### Initial recognition

Transactions in foreign currencies are initially recorded by the Group at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

#### Conversion

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency exchange rate at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date and exchange gains and losses arising on settlement and restatement are recognised in the statement of profit and loss. Non-monetary items, which are measured in terms of historical cost denominated in a foreign currency, are reported using the exchange rate at the date of the transaction.

### (xvi) Taxes

Tax expense comprises current tax expense and deferred tax.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Group operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and considers whether it is probable that a taxation

authority will accept an uncertain tax treatment. The Group shall reflect the effect of uncertainty for each uncertain tax treatment by using either most likely method or expected value method, depending on which method predicts better resolution of the treatment.

#### Deferred tax

Deferred tax is provided using the balance sheet approach on temporary differences between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences;

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

In assessing the recoverability of deferred tax assets, the Group relies on the same forecast assumptions used elsewhere in the financial statements and in other management reports, which, among other things, reflect the potential impact of climate-related development on the business, such as increased cost of production as a result of measures to reduce carbon emission.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if and only if the Group has a legally enforceable right to set off current tax assets and current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity which intends either to settle current tax liabilities and assets on a net basis, or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered

#### Goods and Services Tax (GST)

Expenses and assets are recognised net of the amount of GST/ value added taxes paid, except:

When the tax incurred on a purchase of assets or services is not recoverable from the taxation authority, in which

case, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable;

- When receivables and payables are stated with the amount of tax included

The net amount of tax recoverable from, or payable to, the taxation authority is included as part of other current/ non-current assets/ liabilities in the balance sheet.

### (xvii) Earnings Per Share

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

### (xviii) Impairment of Non-financial Assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal or its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

Impairment losses, are recognised in the statement of profit and loss.

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

### (xix) Provisions and contingencies

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects some or all of a provision to be reimbursed, the reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

### (xx) Contingent liability

A disclosure for a contingent liability is made when there is a possible obligation arising from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

### (xxi) Share based payment transaction

Selected employees of the Group receive remuneration in the form of equity settled instruments, for rendering services over a defined vesting period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant.

The fair value determined at the grant date of the equity-settled share based payments is expensed on a straight line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

### (xxii) Leases

The Group assesses at contract inception whether a contract is, or contains, a lease i.e. That is, if the contract

conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

#### Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

#### (i) Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and accumulated impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term.

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 1.3 (xviii) Impairment of tangible and intangible assets.

#### (ii) Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, that depend on an index or a rate, and amounts expected to be paid under residual value guarantees.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

#### (iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

#### (iv) Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Contingent rents are recognised as revenue in the period in which they are earned.

#### (xxiii) Segment reporting

Operating segment are reported in a manner consistent with the internal reporting provided to chief operating decision maker (CODM). The managing director is considered to be the 'Chief Operating Decision Maker' (CODM). See note no. 2.39 for segment information presented.

#### (xxiv) Government grants and subsidies

Grants and subsidies from the government are recognised when there is reasonable assurance that the Group will comply with the conditions attached to them, and the grant/subsidy will be received.

When the grant or subsidy relates to revenue, it is recognised as income on a systematic basis in profit or loss over the periods necessary to match them with the related costs, which they are intended to compensate.

Where the grant relates to an asset, it is recognised as deferred income and released to income when on a

systematic basis when related conditions or obligations are met by the Group.

#### (xxv) Cash and cash equivalents

Cash and cash equivalents for the purposes of cash flow statement comprise cash at bank and in hand and short-term investments with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdraft as they are considered an integral part of the Group's cash management.

### NOTE 1.4 Significant accounting judgments, estimates and assumptions

The preparation of the consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of asset and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

(a) Uncertainty on the Estimation of the Total Construction Revenue and Total Construction Cost: The holding company recognises revenue from the construction contracts over the period of contract as per the input method of IND AS 115 "Revenue from contracts with the customers". The contract revenue is determined based on proportion of contract cost incurred to date compared

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

to estimated total contract cost which involves significant judgement, identification of contractual obligations, and the holding company's right to receive payments for performance completed till date, risk on collectability due to liquidation damages and other penalties imposed by the customers change in scope and consequential revised contract price and recognition of the liability for loss making contracts/ onerous obligations etc. The Group has efficient, coordinated system for calculation and forecasting its revenue and expense reporting. However actual project outcome may deviate positively or negatively from the holding company's calculation and forecasting which could impact the revenue recognition up to the stage of project completion and is recognised prospectively in the financial statements.

- (b) **Tax Uncertainties:** The holding company has open tax issues ongoing proceedings and exposures at various levels of authorities. Where management makes a judgement that an outflow of funds is probable and a reliable estimate of the outcome of the dispute can be made, provision is made for the best estimate of the liability. In estimating any such liability, the Group applies a risk-based approach. These estimates take into account the specific circumstances of each dispute and relevant external advice and are inherently judgemental and could change substantially over time as each dispute progresses.

The holding company continues to believe that it has made adequate provision for the liabilities likely to arise from open assessments. Where open issues exist the ultimate liability for such matters may vary from the amounts provided and is dependent upon the outcome of assessments with the relevant tax authorities or the litigation proceedings.

- (c) **Useful Lives of Property, Plant and Equipment:** The Group uses its technical expertise along with historical and industry trends for determining the economic life of an asset/component of an asset. The useful lives are reviewed by the management periodically and revised, if appropriate. In case of a revision, the unamortised depreciable amount is charged over the remaining useful life of the assets.
- (d) **Measurement of Defined Benefit Obligation:** The cost of the defined benefit gratuity plan and other long term employee benefits (Compensated Absences) and the

present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions.

- (e) **Share-based Payments:** The Group measures the cost of equity-settled transactions with employees using Black-Scholes model to determine the fair value of the liability incurred on the grant date. Estimating fair value for share-based payment transactions require determination of the most appropriate valuation model, which is dependent on the terms and conditions of the grant. This estimate also requires determination of the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.
- (f) **Expected Credit Loss:** The Group makes provision of expected credit losses on trade receivables using a provision matrix. The provision matrix is based on its historical observed default rates, adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and Group makes appropriate provision wherever outstanding is for longer period and involves higher risk.
- (g) **Lease - Estimating the incremental borrowing rate :** The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate (IBR) to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right-of-use asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates

If the Group receives information after the reporting period, but prior to the date of approved for issue, about conditions that existed at the end of the reporting

## NOTES FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2026

period, it will assess whether the information affects the amounts that it recognises in its separate financial statements. The Group will adjust the amounts recognised in its financial statements to reflect any adjusting events after the reporting period and update the disclosures that relate to those conditions in light of the new information. For non-adjusting events after the reporting period, the Group will not change the amounts recognised in its separate financial statements but will disclose the nature of the non-adjusting event and an estimate of its financial effect, or a statement that such an estimate cannot be made, if applicable.

### NOTE 1.5 Changes in Accounting Policies and Disclosures New and Amended Standards

Recent Pronouncements the Ministry of Corporate Affairs notifies new standard or amendments to existing standards.

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time.

In May 2025, MCA notified amendments to Ind AS 21 - The Effects of Changes in Foreign Exchange Rates, applicable w.e.f. April 1, 2025. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

In August 2025, MCA notified the following amendments to:

Ind AS 1, Presentation of Financial Statements, applicable w.e.f April 1, 2025 - The amendment relates to classification of liabilities as current or non-current and non-current liabilities with covenants. In the context of classifying a liability as current, it removes the requirement of existence of a right to defer settlement for at least 12 months after the reporting date, and instead requires that the said right should exist on the reporting date and have substance. The amendment also introduces guidance on classification of liabilities with covenants. The Company has no impact of these amendments in its classification criteria of current and non-current liabilities.

Ind AS 7, Statement of Cash Flows and Ind AS 107, Financial Instruments - Disclosures, applicable w.e.f April 1, 2025 - The amendment in Ind AS 7 requires to inform users of financial statements of the existence of supplier finance arrangements and explain the nature of the arrangements, the carrying amount of liabilities and the range of payment due dates. Ind AS 107 has been amended to add supplier finance arrangements as a factor that may cause concentration of liquidity risk. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

Ind AS 12, International Tax Reform - Pillar Two Model Rules applicable immediately - The amendments provide a temporary mandatory relief from deferred tax accounting for top-up tax and disclose that they have applied the relief. The Company has reviewed the amendment and based on its evaluation has determined that it does not have any significant impact in its financial statements.

### 2.39 SEGMENT INFORMATION

#### a. Business segments:

The Group has determined following reporting segments based on the information reviewed by the Chief Operating Decision Maker (CODM). Building products includes manufacturing and trading of roofing products, boards and panels, other building products and accessories. Steel buildings consist of manufacture and erection of pre-engineered and smart steel buildings and its accessories.

#### b. Geographical segments:

Since the Group's activities/operations are primarily within the country and as such there is only one geographical segment.

#### c. Segment accounting policies:

In addition to the significant accounting policies applicable to the business segments as set out in note a above, the accounting policies in relation to segment accounting are as under:

##### i. Segment revenue and expenses:

Segment revenue and expenses include the respective amounts identifiable to each of the segments. Unallocable items in segment results include income from bank deposits and corporate expenses.

##### ii. Segment assets and liabilities:

Segment assets include all operating assets used by a segment and consist principally of operating cash, trade receivables, inventories and fixed assets, net of allowances and provisions, which are reported as direct offsets in the balance sheet. Segment liabilities include all operating liabilities and consist principally of creditors and accrued liabilities. Segment assets and liabilities do not include fixed deposits, advance income tax, borrowings and deferred income tax etc.

The measurement of each segment's revenues, expenses and assets is consistent with the accounting policies that are used in preparation of the Group's financial statements.

### Previous year figures are in italics.

The fair value of stock based awards to employees is calculated through the use of option pricing models, requiring subjective assumptions which greatly affect the calculated values. The said fair value of the options have been calculated using Black-Scholes option pricing model, considering the expected term of the options to be 5 years, expected dividend yield on the underlying equity shares and volatility in the share price and a risk free rate of interest. The Group's calculations are based on a single option valuation approach, and forfeitures are recognised as they occur. The expected volatility is based on historical volatility of the share price during the year after eliminating the abnormal price fluctuations.

The following tables list the inputs to the model used for the year ended March 31, 2026 and March 31, 2025 respectively:

Particulars	Rs. in Lakhs	
	March 31, 2026	March 31, 2025

\* The management assessed that carrying values approximates their fair value largely due to the short-term maturities of these instruments.

Fair value is same as the carrying value of the assets and liabilities shown above.

### 2.52 FINANCIAL INSTRUMENTS - FAIR VALUE HIERARCHY

The fair value of financial instruments have been classified into three categories depending upon the input used in the valuation technique.

#### The categories used are as follows :

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices).

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The following table presents the fair value hierarchy of assets and liabilities which measured at fair value were as of March 31, 2026:

Particulars	Date of Valuation	Rs. in Lakhs

### 2.54 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial liabilities, other than derivatives comprises short term borrowing, long term borrowing trade and other payables. The main purpose of these financial liabilities is to finance the Group's operations. The Group's principal financial assets include advances, trade and other receivables, and cash and cash equivalents that derive directly from its operations.

The Group's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk.

#### Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises risk of: currency risk and interest rate risk.

The Group is exposed to market risk primarily related to foreign exchange rate risk. Thus, the Group's exposure to market risk is a function of revenue generating and operating activities in foreign currencies.

#### Foreign exchange risk #

The Group regularly evaluates exchange rate exposure arising from the foreign currency transaction.

The Group uses forward contracts and derivative instruments to mitigate foreign exchange related risk exposures. When a forward contract is entered into for the purpose of being a hedge, the Group negotiates the terms of those contracts to match the terms of the hedged exposure. The Group's exposure to unhedged foreign currency risk as at March 31, 2026 and March 31, 2025 has been disclosed in note 2.36.

### Credit risk

Credit risk arises from the possibility that customers may not be able to settle their obligations as agreed. The Group is exposed to credit risk from its operating activities (primarily trade receivables and deposits) and from foreign exchange transactions.

### Commodity risk

The Group is exposed to movement in metal commodity price of steel. Our sales contracts are on fixed price basis. Profitability in case of firm price orders is affected by movement in the prices of steel. To minimize the price volatility, Group buy steel on spot price basis. For Roofing Business Group has long term contract for its main Raw Material.

### Trade receivables

To manage the credit risk the Group periodically assesses the financial reliability of customers taking into account the financial condition and ageing of accounts receivable (refer note 2.10).

An impairment analysis is performed for all major customers at each reporting date on an individual basis. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in note.
