Shakti Pumps' ESG Impact Rating Upgraded to 78 "Good"; Marking Continued Progress on its Sustainability Journey

Indore, Madhya Pradesh (India), 27th August 2026 – Shakti Pumps (India) Limited (SPIL) [BSE: 531431, NSE: SHAKTIPUMP], India's leading manufacturer of energy-efficient pumps and motors, is proud to announce that it has received its upgraded ESG Rating, **[ICRA ESG] Impact Rating 78, Good** by ICRA ESG Ratings Limited. The rating underscores the company's strong commitment to environmental stewardship, social responsibility, and robust governance across its operations.

The ESG Impact Rating is a comprehensive assessment that evaluates a company's performance on material ESG parameters, including climate risk management, energy efficiency, human capital development, supply chain sustainability, and governance transparency. The score improvement to 78 highlights the strengthening of ESG profile during FY26, supported by enhanced sustainability targets, improved health & safety performance, broader CSR & community engagement, and enhanced environmental disclosures.

Mr. Dinesh Patidar, Chairman of Shakti Pumps (India) Limited, shared his thoughts on this achievement: "We are proud to receive this ESG rating upgrade, which reflects our continued commitment to responsible growth and sustainable value creation. At Shakti Pumps, sustainability is deeply integrated into our business strategy, guiding our decisions across renewable energy solutions, resource efficiency, governance practices, and social responsibility. This upgraded rating is a recognition of the progress we have made in strengthening our ESG performance, enhancing transparency, and creating a positive impact for communities and the environment. As we move forward, we remain committed to advancing our sustainability agenda through innovation, continuous improvement, and meaningful stakeholder engagement. I would like to thank all our stakeholders for their unwavering support in this journey."

About Shakti Pumps (India) Limited

SPIL founded in 1982 as a partnership firm and later converted to a public limited company in 1995, manufactures solar pumps, energy-efficient stainless-steel submersible pumps, pressure booster pumps, pump-motors, and other products. SPIL is the only company that manufactures a wide range of products for solar pump installation in-house, including Variable Frequency Drives, Structures, Motors, Invertors, and so on. Pithampur, Madhya Pradesh, is home to two manufacturing facilities with a combined capacity of 500,000 pumps and motors per year (India). Shakti Pumps is at the forefront of sustainable innovation and reliability in solar pumping solutions, while also being environmentally responsible. The company has been at the forefront of transforming the agriculture sector through solar pump technology. All Shakti submersible pumps are based on Stainless Steel (SS), which is a testimony to the latest technology and quality in manufacturing. Notably, Shakti Pumps has the distinction of being India's first 5-star rated pump manufacturer, supplying its products to more than 100 countries across the globe and

manufacturing its own solar pumps, motors, structures, controllers & VFDs. Shakti Pumps is committed to helping India meet its energy goals.
