Subject: Intimation of product launch

Ref: Disclosure under Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (the "SEBI Listing Regulations")

Pursuant to Regulation 30 read with Schedule III Part A Para B of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, this is to kindly inform you that Apollo Techno Industries Limited, is delighted to announce the launch of new product a Soil Testing Rig named as **"Apollo ST 300"**

The details as required under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 read with SEBI Circular No. SEBI/HO/CFD/CFD-PoD1/P/CIR/2023/123 dated July 13, 2023 are as under:-

Sr No.	Particulars	Details
01.	Name of the product	Apollo ST 300
02.	Date of launch	16.07.2026
03.	Category of the product	Machinery
04.	Whether caters to domestic / international market	Domestic
05.	Name of the countries in which the product is launched (in case of international)	NA

Kindly take the same on your record.

Thanking you,

Yours faithfully,
For **APOLLO TECHNO INDUSTRIES LIMITED**

ATIL LAUNCHES “APOLLO ST 300” THE SOIL INVESTIGATION RIG

Apollo Techno Launches “Apollo ST 300” Soil Investigation Rig: Compact Design with Powerful Performance. The company today announced the launch of its all-new “Apollo ST 300” Soil Investigation Rig, specifically engineered for the domestic market. Designed to meet stringent Conformity standards, the Apollo ST 300 combines compact dimensions with high-performance capabilities, making it ideal for urban and space-constrained job sites.

Powered by an advanced 80 HP, 4 Cylinders with Turbo Charger Speed of 2200 rpm diesel engine, the Apollo ST 300 delivers reliable, fuel-efficient performance while complying with the latest emission norms. The machine is equipped with a robust rack-and-pinion system, consistent and efficient operation in diverse ground conditions. The Apollo ST 300 enhances speed and productivity, enabling operators to complete projects faster.

The all New “Apollo ST 300 Soil Investigation Rig” is a compact, powerful, and highly versatile drilling solution engineered for soil investigation, and geotechnical applications. Designed to deliver reliable performance across diverse ground conditions, the ST 300 combines robust construction with advanced hydraulic technology to maximize efficiency and accuracy on every project.

Its heavy-duty chassis, high-torque rotary head, powerful hydraulic system, and compact steel-track undercarriage provide exceptional stability, mobility and productivity, even in challenging or confined job sites. Equipped with a high-capacity mud pump, strong stabilizer system, and user-friendly controls, the ST 300 reduces setup time, improves drilling efficiency, and minimizes operator effort.

Key Features and Benefits

The Apollo ST 300 incorporates advanced features designed to improve ease of operation, safety, and machine longevity:

- Compact and robust design for easy transportation and operation.
- Ideal for soil investigation, and geotechnical applications.
- Powerful 80 HP turbocharged diesel engine for reliable performance.
- High-torque rotary head delivering efficient drilling performance.
- Heavy-duty hydraulic system for smooth and precise operation.
- High-capacity mud pump for improved drilling efficiency.
- Strong stabilizer system for enhanced machine stability and faster setup.
- Steel-track undercarriage for longer life.
- Operator-friendly controls with low maintenance requirements.
- Designed for maximum productivity, reliability, and long service life.

Comments from Mr. Parth Rashmikanth Patel, Managing Director

I am delighted to announce the introduction of our latest offering, “**Apollo ST 300**”, by Apollo Techno Industries Limited. As Managing Director, it brings me great pleasure to witness our company's continued commitment to innovation and excellence in the Machinery sector.

The compact and powerful **Apollo ST 300** is built for durability, precision, and low maintenance. It is the ideal choice for geotechnical consultants, infrastructure developers, construction companies, research organizations, and renewable energy projects seeking dependable performance and long-term reliability.

Further, The launch of “**Apollo ST 300**” by Apollo Techno Industries Limited is expected to boost revenue, diversify income sources, and enhance market penetration. This move strengthens the company's brand image, provides a competitive edge, and lays the groundwork for long-term growth through further product development and market expansion.

Thank you for your continued trust and support.

About us:

Apollo Techno is a leading manufacturer of trenchless drilling equipment and foundation drilling equipment, delivering innovative and reliable solutions for global markets. With a focus on engineering excellence and customer-centric design, Apollo Techno continues to support modern infrastructure development worldwide.

As India's premier manufacturer of horizontal directional drilling and foundation rigs, Apollo Techno stands at the forefront of innovation. Our commitment to excellence is reflected in our modern drilling and foundation equipment, which adheres to international standards while proudly bearing the “Made in India” mark. We deliver precision-engineered drilling solutions that contribute to global infrastructure development. With an eye on the future, we're continuously expanding our product line and market reach, driving advancements in foundation drilling technology.

Apollo ST 300

Technical Specifications

POWER PACK	
Make & Model	Ashok Leyland ALUW04D
Fuel Type	Diesel
Maximum Engine Speed	2200 rpm
Number of Cylinders	4 Cylinders with Turbo Charger
Horse-Power Rating	80 HP
Maximum Torque	230 Nm @ 1800 rpm
Cooling Method	Liquid
DIMENSIONS & WEIGHT	
Length	5150 mm
Width	1670 mm
Height	2220 mm
Weight	3020 kg
UNDERCARRIAGE	
Length	1520 mm
Shoe width	230 mm
FLUID CAPACITIES	
Engine Oil Capacity	10 ltr
Diesel Tank Capacity	50 ltr
Hydraulic Oil Tank Capacity	180 ltr
MUD PUMP	
Flow	100 LPM
Pressure	600 PSI

FEATURES	
Electrical System	12 V
Drilling Lights	YES
SPT Hammer	YES (Optional)
UDS Hammer	YES (Optional)
Drive System	Steel Track
VISE CLAMPS	
Max. Passage	167 mm
Min. Handling	50 mm
Clamping Force	16,200 Nm
Breaking Torque	11,500 Nm
ROTARY HEAD	
Max torque	6000 Nm
Max speed	160 RPM
MAST	
Pull up	3160 kgf
Pull down	3160 kgf
MAIN WINCH	
Max. pull	1050 kg
