INDIAN ECONOMY OVERVIEW :

Global economies which were impacted by uncertainties and volatility on account of Covid-19 fallout, prolonged geopolitical conflicts and monetary tightening by central banks amidst inflationary trends are witnessing gradual resurgence, marked by waning fears of recession and rebounding growth in major economies. However, there are some regional incongruences, with some regions experiencing subdued economic activity on account of geopolitical tensions. Globally, inflation management continues to remain a key priority. Despite these challenges, leading indicators suggest an overall expansion in economic activity driven by both manufacturing and service sectors.

India remains a bright spot in the revival of the global economy. The Indian economy continued to exhibit robust economic performance with broad-based growth across sectors. RBI also, in its recent MPC meeting, noted the strong growth momentum in the economy and projected real GDP growth for 2024-25 at 7 percent, driven by a pickup in rural demand and sustained momentum in the manufacturing sector. In its April 2025 WEO, IMF revised upwards its estimate of India's GDP growth for FY 2025-26 to 7.8 percent and of estimated a growth rate 6.8 percent in 2025-26 based on its assessment of strength in domestic demand and demographic advantage. In March 2026, India witnessed a surge across multiple economic indicators, reflecting robust and resilient business activity. The month marked significant milestones, from record-breaking performances in the stock market to remarkable advancements in tax revenue collection. The buoyancy extended to the manufacturing and services sectors, as evidenced by the soaring HSBC India Manufacturing PMI and Services PMI. The gross GST collections for the month of April 2025 hit a record high of ₹2.37 lakh crore which is a growth of 12.6 per cent year-on-year. In March 2025, the HSBC India Manufacturing PMI surged to an impressive 58.1, a notable increase from the final figure of 56.3 recorded in the previous month. This marks the fastest growth in factory activity since February 2008.

In March, India's services sector hit a peak, with exports surging to a fiscal year high. The HSBC India Services PMI soared to 57.5, marking one of the sector's most significant expansions in sales and business activity in nearly 14 years.

The Index of Industrial Production (IIP) for February 2026 brought forth encouraging insights into India's industrial landscape.

High inflation though, was a key challenge for the Government and this has resulted in RBI holding on to high policy rates and rise in lending rates.

Overall, India continues to be the fastest-growing major economy with positive assessments of the growth outlook for the current financial year, for India by international organizations and RBI.

INDUSTRY OVERVIEW:

Indian Agricultural Sector Overview

Agriculture and allied sectors continue to remain one of the most important sectors of the Indian economy and is the main source of livelihood for 55% of India's population.

India has the world's largest cattle herd, the largest area planted for wheat, rice, and cotton, and is the largest producer of milk, pulses, and spices in the world. It is the second-largest producer of fruit, vegetables, tea, farmed fish, cotton, sugarcane, wheat, rice, cotton, and sugar. The agriculture sector in India holds the record for second-largest agricultural land in the world generating employment for about half of the country's population. Thus, farmers become an integral part of the sector to provide us with a means of sustenance.

The agriculture and allied sectors have remained resilient throughout the pandemic and geopolitical conflicts and is estimated to have grown by 2.4% in Financial Year 2025-2026 as per Second Advance Estimates by Central Statistical Office (CSO).

Foodgrains production declined in kharif season due to deficient and unevenly distributed rainfall (both spatially and temporally) along with depleting reservoir levels. As of March 2026 reservoir levels were at 36 per cent of the full capacity, below the last year's level of 43 percent.

Foodgrains production for 2025-26 is estimated at 3,765.6 lakh tonnes, 5.3 per cent lower than the final estimates of last year (as per Second Advance Estimates). Among major crops, the output of rice declined while that of wheat rose. Pulses production dropped with a sharp decline recorded during the kharif season.

Among commercial crops, the output of oilseeds, cotton and sugarcane registered a sharp decline vis-à-vis last year. As per the First Advance Estimates (FAE), the production of horticultural crops during 2025-26 was laced at 377.6 million tonnes, marginally lower than the final estimates of 2022-23 and 1.2 per cent higher than the FAE of 2022-23.

The high frequency indicators exhibit a mixed picture of rural activity as two-wheeler sales, agriculture credit and MNREGA demand indicate buoyancy while tractor sales and fertiliser sales suggest some softness in activity during H2. Prospects of rural activity, however, appear bright due to better prospects of agricultural output amidst the IMD's forecast of an above normal south-west monsoon in 2024 and accelerated pick up in informal sector activity.

The interim budget for FY 25-26 has promised stepping up of value addition in agricultural sector and boosting farmer's income and has made substantial budgetary allocations as below:

Interim Budget Financial Year 24-25 – Highlights for the agriculture sector

- **The allocation for the Agriculture ministry has been set at `1.27 lakh crore exhibiting an increase from revised estimates of `1.16 lakh crore in FY 26-26.**
- **Outlay for agriculture and allied activities enhanced to `1.63 trillion in FY-2025 Budget Estimates (BE) from `1.47 trillion in 2025 Revised Estimates (RE).**

- **Promotion of private and public investment in post-harvest activities, including aggregation, modern storage, efficient supply chains, primary and secondary processing, as well as marketing and branding. In view of the above mentioned, agriculture output is expected to remain robust and the sector is likely to continue on a growth path.**

In view of the above mentioned, agriculture output is expected to remain robust and the sector is likely to continue on a growth path.

- Political condition: In case of political instability, government could change the spending pattern on infrastructure. This change in policy framework can affect our business.
- Stringent condition of our contract: Most of our contracts are time bound as well as put a condition of meeting the minimum standard requirement of such construction. Contract may stipulate penalty condition for non-closure of our project in time. This non completion of project in time could affect our financials. We are subject to blacklisting by the authority for non-full-filing our commitment.
- Our ability to attract and retain skilled and technical staff: Skilled and Technical Staffs are required by us for all our projects. We take up various projects based on availability of right mix of man power. Thus, our growth is likely to be affected by our ability to attract and retain skilled and technical manpower.

OPPORTUNITIES, STRENGTHS, CONCERNS**Opportunities and Strengths**

- **Increase market share in existing business verticals :** Several sectors in which your Company operates are largely unorganized, therefore, cost leadership is a key enabler for your Company to increase the market share of its products in those segments. The Company's ability to increase sales will be strengthened by continued focus on offering a wide range of innovative products across all business verticals which will help in gaining market share. Additionally, in the medium-term, due to supply chain disruption and lack of liquidity leading to the closure of smaller business units, larger players with strong balance sheets will gain market share.
- **Pan-India presence with extensive supply and distribution network to benefit the Company in the long-run :** Your Company has a pan-India presence and operations spanning across 5 (five) business verticals. The Company has set up processing facilities and supporting infrastructure as well as R&D to develop a modern operating platform across key agriculture verticals. As a result of its widespread network and significant operational experience, the Company is well placed to identify key market trends and introduce a range of innovative and value-added products in the market to cater to the evolving needs of the customers. The nationwide footprint also allows the Company to leverage the competitive advantages of each location to enhance competitiveness and reduce geographic and political risks in businesses.
- **Diversified businesses with synergies in operations :** Segmental and geographical diversification across business verticals provide a hedge against the risks associated with any particular industry segment or geography while benefiting from the synergies of operating in diverse but related businesses. Synergies across diverse businesses provide the ability to drive growth, optimize capital efficiency and maintain competitive advantage. The Company also derives operational efficiencies by centralizing and sharing certain key functions across businesses such as finance, legal, information technology, strategy, procurement and human resources.
- **Strong Research & Development (R&D) Capabilities :** The Company's emphasis on R&D has been critical to its success and a differentiating factor from competitors. Dedicated R&D is undertaken in existing products primarily with a focus to improve yields and process efficiencies. Investment is also being made in developing innovative technologies to further grow our product portfolio across businesses.
- **Focus on inorganically growing business offerings :** Your Company will evaluate inorganic growth opportunities, in keeping with the strategy to grow and develop market share or to add new product categories. Your Company may consider opportunities for inorganic growth, such as through mergers and acquisitions, if, amongst other things, they consolidate market position in existing business verticals or achieve operating leverage in key markets by unlocking potential efficiency and synergy benefits. Your Company can also look at opportunities that will strengthen and expand its product portfolio and increase its sales and distribution network.

Threats, Risk & Concerns

- **Unfavourable local and global weather patterns can have an adverse effect on the business:** As an agri-based Company, the businesses are sensitive to weather conditions, including extremes such as drought and natural disasters. The availability of raw materials required for operations and the demand for products may be adversely affected by longer than usual periods of heavy rainfall in certain regions or a drought in India. The occurrence of any unfavourable weather patterns may adversely affect business, results of operations and financial condition.
- **Availability of raw materials and arrangements with suppliers for raw materials:** Each of the businesses depends on the availability of reasonably priced, high-quality raw materials in the quantities required by operations. The price and availability of such raw materials depend on several factors beyond the Company's control, including overall economic conditions, production levels, market demand and competition for such materials, production and transportation cost, duties and taxes and trade restrictions. The Company typically sources raw materials from third-party suppliers or the open market which exposes the Company to volatility in the prices of raw materials and dependence on third-party for delivery of raw material. Also, any inability to procure raw materials from alternate suppliers in a timely fashion, or on commercially acceptable terms, may adversely affect operations.

• **Improper handling, processing or storage of raw materials or products:** The products that your Company manufactures or processes are subject to risks such as contamination, adulteration and product tampering during their manufacturing, transport or storage. Inherent business risks exist in form of product liability or recall claims if products fail to meet the required quality standards or are alleged to result in harm to customers. Such risks may be controlled, but not eliminated, by adherence to good manufacturing practices and finished product testing. Although the Company has product liability insurance cover for domestic and international markets for businesses, it cannot assure that this insurance coverage is adequate or that any losses will be adequately compensated by the insurers in the event of a product liability claim.

• **Seasonal variations in the businesses:** Your Company's businesses are subject to seasonal variations that could result in fluctuations in performance. For example, in the animal feed business, the Company sells lower volumes of cattle feed during the monsoons due to the availability of green fodder. In the poultry and processed foods business, the demand for poultry products is higher in the second half of the Financial Year since the consumption of poultry meat and eggs is higher during winter months, while the sale of such products is lower during certain religious festivals. As a result of such seasonal fluctuations, sales and results of operations may vary by fiscal quarter. The sales and results of operations of any given fiscal quarter may not be relied upon as indicators of the sales or results of operations of other fiscal quarters or future performance. In addition, financial performance is also impacted by other risks such as inability to manage diversified operations, dependency of revenue from animal feed business and dependency of the utilization of services of third parties for our operations.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexure to Board's Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

The Company's Board of Directors are responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

- A. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- B. We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- C. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of M/s Julien Agro Infratech Limited (“the Company”) as of March 31st, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The company’s management is responsible for establishing and maintaining internal financial control based on “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India”.

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and

dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2026, based on , “the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India”.

Notes: Forming Part of the Financial Statement**1 Corporate Information**

Julien Agro Infratech Limited (formerly Silverpoint Infratech Limited) (the Company) is a Public Limited Company domiciled in India and incorporated under the provisions of the Companies Act. Its shares are listed on one stock exchange in India. The Company is in the business of providing land development, construction services and other related services for civil & structural construction and infrastructure sector projects. The registered office of the Company is located at 85 Bentick Street 5th Floor, Yashoda Chamber, Room No. 6 Kolkata - 700001.

The standalone financial statements were approved and authorised for issue in accordance with the resolution of the Company's Board of Directors on 28th May 2025.

2.1 Basis of Preparation

The standalone financial statements of the Company for the year ended 31 March, 2025 have been prepared in accordance with Indian Accounting Standards ("Ind AS") notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirements of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

The preparation of financial statements require judgements, estimates and assumptions to be made that affect the reported amount of assets and liabilities including contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between actual results and estimates are recognized in the period prospectively in which the results are known/ materialized.

- These financial statements have been prepared on a historical cost basis, except for
 - Certain financial assets and liabilities (including derivative financial instruments) measured at fair value / amortized cost.
 - Defined benefit plans - plan assets measured at fair value.
 - Certain biological assets (including unplucked green leaves) which are measured at fair value less cost to sell. (refer accounting policy regarding financial instruments).
- The financial statements are presented in INR and all values are rounded to the nearest lakhs (INR 00,000), except when otherwise indicated.

The Company has prepared the financial statements on the basis that it will continue to operate as a going concern.

2.2 Material Accounting Policies**▪ Current and Non-Current classification**

The Company segregates assets and liabilities into current and non-current categories for presentation in the balance sheet after considering its normal operating cycle and other criteria set out in Ind AS 1, "Presentation of Financial Statements". For this purpose, current assets and liabilities include the current portion of non-current assets and liabilities respectively.

Deferred tax assets and liabilities are always classified as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified period up to twelve months as its operating cycle.

▪ Foreign Currencies**Functional and presentation currency**

The financial statements are presented in INR, which is the Company's functional currency. Foreign currency transactions are initially recorded at functional currency spot rates at the date the transaction first qualifies for recognition.

- **Property, Plant and Equipment**

Property, plant and equipment are carried at cost of acquisition, less accumulated depreciation and accumulated impairment, if any. Cost comprises purchase price and directly attributable cost of bringing the asset to its working condition for the intended use. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the Statement of Profit and Loss as incurred. The present value of the expected cost for the decommissioning of an asset after its use is included in the cost of the respective asset if the recognition criteria for a provision are met. Material items such as spare parts, stand-by equipment and service equipment are classified as PPE when they meet the definition of PPE as specified in Ind AS 16 - Property, Plant and Equipment.

An item of Property, Plant and Equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising from derecognition of the asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

Depreciation on Property, Plant and Equipment other than land is provided on the Straight Line Method to allocate their cost, net of their residual values on the basis of useful lives prescribed in the Schedule II of the Companies Act, 2013.

- **Inventories**

Inventories are valued at the lower of cost and net realisable value. Raw materials, Stores & Spare parts, Finished Goods and Traded Goods stated at the lower of cost and estimated net realisable value. Cost comprises expenditure incurred in the normal course of business in bringing such inventories to their present location and condition and includes appropriate overheads (in case of Finished Goods). By-products, whose cost is not identifiable, are valued at estimated net realisable value. Cost is determined on weighted average basis. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

- **Cash and Cash Equivalents**

Cash and cash equivalent comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

- **Trade Receivables**

Trade receivables are recognized initially at the transaction price as they do not contain significant financing components. The Company holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

- **Impairment of non-financial assets**

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating units' (CGU) net selling price and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

The Company bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. Impairment losses of continuing operations, including impairment on inventories, are recognised in the Statement of Profit and Loss.

- **Revenue from contracts with customer**

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer. Revenue is measured at the amount of transaction price, net of returns, discounts, volume rebates, outgoing sales taxes including goods and service tax. The Company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company regardless of when the payment is being made. The specific recognition criteria described below must also be met before revenue is recognised.

- **Sale of Goods**

Revenue from sale of goods is recognized when the Company transfers the control of goods to the customer as per the terms of contract. The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price, the Company considers the effects of variable consideration, the existence of significant financing component, non-cash considerations and consideration payable to the customer (if any).

- **Interest Income**

Interest Income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate. Interest income from debt instruments is recognised using the effective interest rate method.

- **Taxation**

Tax expense is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current tax: Current tax is the amount of income taxes payable in respect of taxable profit for a period. Taxable profit differs from 'profit before tax' as reported in the Statement of Profit and Loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible under the Income Tax Act, 1961. Current tax is measured using tax rates that have been enacted by the end of reporting period for the amounts expected to be recovered from or paid to the taxation authorities.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the Financial Statements and the corresponding tax bases used in the computation of taxable profit under Income tax Act, 1961. Deferred tax assets and liabilities are generally recognised for all deductible and taxable temporary differences respectively. However, in case of temporary differences that arise from initial recognition of assets or liabilities in a transaction (other than business combination) that affect neither the taxable profit nor the accounting profit or does not give rise to equal taxable and deductible temporary differences, deferred tax assets or liabilities are not recognised. Also, for temporary differences if any that may arise from initial recognition of goodwill, deferred tax liabilities are not recognised. Deferred tax assets are recognised to the extent it is probable that taxable profits will be available against which those deductible temporary difference can be utilized. The carrying amount of deferred tax assets is reviewed at the end of each

reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow the benefits of part or all of such deferred tax assets to be utilized. Deferred tax assets and liabilities are measured at the tax rates that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled.

Presentation of current and deferred tax: Current and deferred tax are recognised as income or an expense in the Statement of Profit and Loss, except deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

- **Segment Reporting**

The Company operates in a single business segment and in a single geographical area. Accordingly, there are no separate reportable segments as defined by Indian Accounting Standard (Ind AS) 108 on Operating Segments.

- **Earnings per Share**

Basic Earnings per Share is calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

The weighted average number of equity shares outstanding during the period is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

- **Provision, Contingent Liabilities and Contingent Assets**

A provision is recognized when an enterprise has a present obligation (legal or constructive) as a result of past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risk specific to the liability. The expense relating to a provision is presented in the statement of profit and loss.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

Provisions, contingent liabilities and contingent assets are reviewed at each reporting date.

- **Financial Instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

- **Financial Assets**

Financial assets are recognized when the Company becomes a party to the contractual provisions of the instrument.

Classification:

The Company classifies its financial assets into the following categories based on the business model for managing the asset and the contractual cash flow characteristics:

Measured at Amortised Cost:

Financial assets held to collect contractual cash flows, where those cash flows represent solely payments of principal and interest, are measured at amortised cost.

Measured at Fair Value through Other Comprehensive Income (FVOCI):

Financial assets held both to collect contractual cash flows and for sale, where the cash flows are solely payments of principal and interest, are measured at FVOCI.

Measured at Fair Value through Profit or Loss (FVTPL):

All other financial assets are measured at FVTPL, including those held for trading and those whose contractual cash flows are not solely payments of principal and interest.

Initial Measurement:

All financial assets are initially recognized at fair value plus, for assets not at FVTPL, directly attributable transaction costs.

Subsequent Measurement:

At amortised cost or FVOCI, using the effective interest rate (EIR) method.

At FVTPL, at fair value, with gains or losses recognized in profit or loss.

Impairment:

The Company assesses, at each reporting date, whether a financial asset or group of financial assets is impaired using the expected credit loss (ECL) model, which involves measuring impairment based on historical, current, and forecast information.

Derecognition:

A financial asset is derecognized upon expiry of contractual rights, or when substantially all risks and rewards of ownership have been transferred.

- **Financial liabilities**

Financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

Classification:

Financial liabilities are classified as either:

At amortised cost:

Most financial liabilities, including borrowings and trade payables, are measured at amortised cost using the EIR method.

At fair value through profit or loss (FVTPL):

Financial liabilities held for trading, or where the Company has designated them as at FVTPL to eliminate an accounting mismatch, are measured at fair value with gains or losses recognized in profit or loss.

Initial Measurement:

All financial liabilities are initially recognized at fair value less (for liabilities not at FVTPL) transaction costs that are directly attributable to the issue.

Subsequent Measurement:

Measured at amortised cost using EIR, unless classified as at FVTPL.

Derecognition:

A financial liability is derecognized when the obligation under the contract is discharged, cancelled, or expires.

Fair Value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or

- In the absence of a principal market, in the most advantageous market for the asset or liability

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Exceptional Items

An ordinary item of income or expense which by its size, nature, occurrence or incidence requires a disclosure in order to improve understanding of the performance of the Company is treated as an exceptional item in the Statement of Profit and Loss account.

Events after reporting date

Where events occurring after the balance sheet date provide evidence of conditions that existed at the end of the reporting period, the impact of such events is adjusted within the Financial Statements. Otherwise, events after the balance sheet date of material size or nature are only disclosed.
