## **TCS Partners with Mistral; becomes the first Global Systems Integrator (GSI) to bring Mistral Forge to enterprises worldwide**

*First-of-its-kind partnership will help global enterprises and governments design, fine-tune and deploy, domain-specific AI systems that offer better control to customers*

*TCS will build a dedicated Centre of Excellence for Mistral to drive scalable AI innovation with industry-specific solutions and early model access*

**PARIS | MUMBAI, May 28, 2026:** [Tata Consultancy Services](#) (TCS) (BSE: 532540, NSE: TCS), a global leader in IT services, consulting and business solutions, today announced a landmark strategic partnership with Mistral, one of world's leading AI companies. As part of this collaboration, TCS has become the first global systems integrator partner for Mistral Forge, Mistral's advanced system for enterprises to build frontier-grade AI models grounded in their proprietary enterprise knowledge and domain-specific data. The partnership combines Mistral's frontier AI capabilities with TCS' deep context of enterprise customers, domain knowledge and engineering excellence, to help organisations scale enterprise AI responsibly with greater speed.

As part of this strategic collaboration, TCS will leverage Mistral Forge to build custom AI models for enterprises. It will help customers deploy their data and enterprise context to improve decision outcomes. This collaboration draws on TCS' strong global presence across North America, the United Kingdom, Europe, and Asia-Pacific to deliver AI solutions tailored to industry needs, operations and regulatory requirements. The partnership will initially focus on sectors like banking, financial services and insurance (BFSI), manufacturing, healthcare, and the public sector, where trusted AI adoption is becoming increasingly critical.

TCS will also establish a dedicated Centre of Excellence for Mistral to drive joint innovation, build industry-specific solutions, support project delivery, and accelerate client value through early access to Mistral's beta models. The Centre of Excellence will serve as a strategic hub for advanced talent, focused training, and the capabilities needed to design, deploy, and govern AI solutions.

**Arthur Mensch, Chief Executive Officer and Co-Founder at Mistral, said, "TCS' global scale and contextual industry knowledge make them an ideal partner for Mistral. Together, we are enabling enterprises worldwide to move from experimentation to AI deployment with systems that are open, production-ready and aligned with their strategic and operational requirements."**

**K Krithivasan, Chief Executive Officer & Managing Director at TCS said, "The partnership with Mistral reinforces TCS' commitment to scaling enterprise AI with trust, control, and measurable business outcomes at the core. This partnership expands TCS' AI ecosystem, uniquely positioning TCS to create a differentiated solution proposition for our clients. Together with Mistral, we will solve for specific industry challenges, regulatory requirements, and sovereign needs for our enterprise customers."**

As part of its broader Infrastructure to Intelligence AI strategy, TCS continues to invest across infrastructure, models, data, application, platforms and physical and digital intelligence. This aligns with TCS' ambition to become the world's largest AI-led technology services company, underpinned by a five-

pillar strategy focused on embedding AI across the enterprise, scaling AI-led delivery capabilities, and driving measurable business outcomes for clients.

### About Mistral

Mistral is a pioneer company in generative artificial intelligence, empowering the world with the tools to build and benefit from the most transformative technology of our time. The company democratizes AI through high-performance, optimized, and cutting-edge open-source models, products and solutions as well as end-to-end infrastructure with Mistral Compute. Headquartered in France and independent, Mistral defends a decentralized and transparent approach to technology, with a strong global presence in the United States, United Kingdom, and Singapore.

### About Tata Consultancy Services (TCS)

Tata Consultancy Services (BSE: 532540, NSE: TCS) is the technology partner of choice for industry-leading organizations worldwide. Since its inception in 1968, TCS has upheld the highest standards of innovation, engineering excellence and customer service.

It has set an aspiration to become the world's largest AI-led technology services company and is enabling its clients to transform themselves across the full AI stack, from infrastructure to intelligence.

Rooted in the heritage of the Tata Group, TCS is focused on creating long term value for its clients, its investors, its employees, and the community at large. With a highly skilled workforce spread across 56 countries and 194 service delivery centers across the world, the company has been recognized as a top employer in six continents. With the ability to rapidly apply and scale new technologies, the company has built long-term partnerships with its clients. Many of these relationships have endured into decades and navigated every technology cycle, from mainframes in the 1970s to artificial intelligence today.

TCS sponsors 14 of the world's most prestigious marathons and endurance events, including the TCS New York City Marathon, TCS London Marathon, Tata Mumbai Marathon, and TCS Sydney Marathon with a focus on promoting health, sustainability, and community empowerment.

TCS generated consolidated revenues of over US \$30 billion in the fiscal year ended March 31, 2026. For more information, visit [www.tcs.com](http://www.tcs.com)
