Autoline Industries Limited Announces Q1 FY27 Financial Results

(₹ Crore, except percentages)

PRESS RELEASE

Autoline Industries Reports Q1 FY27 Revenue of ₹265.09 Crore, Up 74.96% YoY

EBITDA increased 44.13% YoY; PBT improved to ₹1.7 crore as against ₹0.19 crore previous year

Pune, 13 August 2026: Autoline Industries Limited (BSE: 532797 | NSE: AUTOIND), a leading manufacturer and supplier of automotive components and assemblies to major OEMs in India, announced its unaudited financial results for the quarter ended 30 June 2026.

The Company delivered Q1 FY27 revenue from operations of ₹265.09 crore, compared with ₹151.51 crore in Q1 FY26, representing year-on-year growth of 74.96%. EBITDA increased 44.13% to ₹19.14 crore from ₹13.28 crore. The quarter reflects a materially stronger operating scale, supported by customer programme ramp-ups and the deployment of additional manufacturing capacity. Manufacturing Overheads increased due to war situation affecting operating profit.

The Company has intensified programme-level material recovery, plant productivity, manpower optimisation and power-cost controls. With these measures underway, management expects a progressive recovery in operating margins, subject to customer schedules, input-cost movements and execution conditions.

PBT improved to ₹1.7 crore from ₹0.19 crore in Q1 FY26, with the corresponding margin rising to 0.75% from 0.13%; the prior-year quarter included exceptional income of ₹19.10 cr. The underlying PBT improvement demonstrates the benefit of the higher revenue base, even as finance cost and margin pressure limited bottom-line conversion during the quarter.

Financial Performance – Q1 FY27

Particulars	Q1 FY27	Q1 FY26	Change	Margin Change
Revenue from Operations	₹265.09 Cr	₹151.51 Cr	+74.96%	—
EBITDA	₹19.14 Cr	₹13.28 Cr	+44.13%	—
EBITDA Margin	7.22%	8.76%	—	-154 bps
PBT before Exceptional Income	₹2.00 Cr	₹0.19 Cr	+946%	—
PBT Margin before Exceptional Income	0.75%	0.13%	—	+62 bps
Exceptional item	₹0.00	₹19.10 Cr		
PAT after Exceptional Income	₹1.70 Cr	₹0.19 Cr	+794.7%	—
PAT Margin	0.64%	0.13%	—	+51 bps

Operating Performance and Margin Context

Q1 FY27 delivered a substantial year-on-year increase in scale, supported by growth in core component sales and customer programme ramp-ups. The Company is tracking contribution and material recovery at programme and plant level to strengthen the conversion of revenue into EBITDA and cash. Automation in all primary high volume manufacturing lines to optimize the manufacturing cost

Working-capital and finance-cost discipline remain management priorities. The operating cadence is focused on receivable collection, inventory ageing, disciplined use of working-capital facilities, and avoidance of non-recurring charges and closer linkage of capital deployment to utilisation, contribution and payback.

Management Comment

Commenting on the performance, **Mr. Shivaji Akhade, CEO and Managing Director, Autoline Industries Limited,** said:

"Q1 FY27 established a stronger scale for the business, with significant year-on-year growth in revenue and EBITDA and an improvement in PBT without exceptional income. Our immediate priority is to convert this scale into sustainable margin and cash generation through project-level material recovery, plant productivity, working-capital discipline and accountable execution. We remain focused on disciplined capacity utilisation and long-term value creation for all stakeholders."

Strategic Priorities

While the auto industry is going through growth trajectory, we are maintaining similar like Q1 revenue projections for Q2. The execution agenda for Q2 FY27 is centred on four priorities: Improvement in customer-programme volumes; margin protection through material recovery and operating-cost control; improvement in working-capital and debt discipline; and a weekly governance dashboard linking volume, revenue, contribution, EBITDA, working capital, cash and debt.

The Company will continue to align automation and capacity deployment with customer requirements, utilisation, contribution and payback, while strengthening operational excellence across its manufacturing network.

About Autoline Industries Limited

Autoline Industries Limited manufactures and supplies automotive components and assemblies to leading OEMs in India. Its portfolio includes sheet-metal components, fabricated assemblies, tooling, welded structures and value-added engineering solutions. With manufacturing facilities across key automotive hubs, the Company supports customers through engineering capability, scalable manufacturing and programme execution.

Safe Harbour

This press release may contain forward-looking statements based on management's current expectations. Actual results may differ materially due to changes in customer schedules and demand, raw-material prices, supply-chain conditions, financing and liquidity, regulatory developments, capacity ramp-up and execution risks. The Company undertakes no obligation to update such statements except as required by applicable law.
