Juniper Green Energy Signs PPA with SJVN for 50 MW FDRE Project

New Delhi, August 26th, 2026: Juniper Green Energy Limited (“Juniper Green Energy”), through its subsidiary, **Juniper Nirjara Energy Private Limited**, has signed a 25-year Power Purchase Agreement (PPA) with SJVN Limited on 26th August 2026 for a 50 MW Firm and Dispatchable Renewable Energy (FDRE) project under SJVN FDRE-2 scheme. The tender (SJVN FDRE-2) was issued under Tariff-Based Competitive Bidding (TBCB) guidelines for which the Letter of Award (LOA) was received on February 3rd, 2025.

The PPA has been signed at a tariff of INR 4.25 per unit for a tenure of 25 years. Under the PPA, the Company has to achieve four hours of peak-hour supply with 90% availability on a monthly basis along with minimum annual Capacity Utilisation Factor (CUF) as per the bid requirement. This project would combine multiple renewable energy technologies including Solar and Battery Energy Storage System (BESS) to meet the supply obligations as per the PPA.

With this addition, Juniper Green Energy’s portfolio now stands at 11,216 MWp of renewable energy capacity, complemented by 8,989 MWh of BESS capacity, further strengthening its position as a scaled and integrated renewable energy platform.

Commenting on the development, Ankush Malik, Wholetime Director & CEO, Juniper Green Energy Limited said

“The signing of this PPA with SJVN further strengthens our partnership and marks another important step in Juniper Green Energy’s strategy to build a scaled portfolio of Firm and Dispatchable Renewable Energy (FDRE) projects. As India’s power system evolves, the ability to deliver renewable energy when it is needed—particularly during peak demand hours—will become increasingly important. Our integrated capabilities across solar generation and battery energy storage enable us to provide solutions that combine the benefits of renewable energy with greater reliability and dispatchability. We look forward to building on our relationship with SJVN and continuing to develop large-scale, reliable clean energy solutions that support India’s transition to a more sustainable and resilient power system.”

About Juniper Green Energy Limited

Juniper Green Energy Limited is an independent renewable energy power producer in India, focused on the development, construction, and operation of utility-scale solar, wind, hybrid, and Firm & Dispatchable Renewable Energy projects. The Company has been developing renewable energy assets across India since October 2018 and has built integrated capabilities spanning the entire project lifecycle, from project conceptualisation and development to construction and operations.

Juniper Green Energy Limited has an operational capacity of approximately 2.57 GWp and 500 MWh BESS and a total portfolio of more than 11 GWp and 8.9 GWh BESS, where the total portfolio includes operational, under-construction, contracted and awarded projects. The Company is committed to delivering reliable and sustainable clean energy solutions that support India’s transition to a low-carbon economy.
