Sub: SPML Infra Wins Rs. 165.41 Crore Order to Build 400 kV Grid Sub-Station at Kota, Rajasthan

Dear Sirs,

With reference to the captioned subject and in terms of Regulation 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015, we would like to inform you that SPML Infra Limited has secured a significant contract worth Rs. 165.41 Crore from Rajasthan Rajya Vidyut Prasaran Nigam Limited (RRVPLN) for the construction of 400 kV Grid Substation and Transmission Infrastructure at Dahra, in Kota, Rajasthan, to be executed in 24 months period.

We would like to further inform you that the award received by the Company falls within the normal course of business. Accordingly, disclosure of additional detail under SEBI Circular No SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 is not applicable in this case.

Kindly take the above on record.

Thanking you,

For SPML Infra Limited

PRESS RELEASE

For Immediate Release

SPML Infra Wins ₹165.4 Crore Order to Build 400 kV Grid Sub-Station at Kota, Rajasthan

May 22, 2026

Kolkata, India: SPML Infra Limited, (**NSE:SPMLINFRA, BSE:500402**), a leading publicly listed infrastructure development company in India has secured a significant contract worth ₹165.41 Crore from Rajasthan Rajya Vidyut Prasaran Nigam Limited (RRVPNL) for the construction of 400 kV Grid Substation and Transmission Infrastructure at Dahra, in Kota, Rajasthan, to be executed in 24 months period. This order further strengthens the Company's growing portfolio in high-capacity advanced power substation and transmission sector.

Rajasthan is at the forefront of India's energy transition, with one of the largest renewable energy producers in the country. The upgradation of high-voltage grid infrastructure is critical to enabling the reliable evacuation and transmission of power, both conventional and renewable across the state's rapidly expanding grid network.

Scope of Work:

- Supply, Erection, Testing and Commissioning of 400 kV Grid Sub-Station at Dahra with one 500 MVA Autotransformer Bay
- 420 kV, 1×125 MVAR Bus-type Shunt Reactor Bay
- 2 nos. 400 kV Feeder Bays and 3 nos. 400 kV Tie Bays
- All associated civil works, automation and communication systems

Abhinandan Sethi, Managing Director, SPML Infra Limited, said:

"Rajasthan is not just expanding its grid, it is reshaping India's energy landscape. And SPML Infra is proud to be the execution partner powering that ambition. With over four decades of expertise, we bring not just technical capability but the confidence of proven delivery to every project we undertake. This order from RRVPNL marks another milestone in our commitment to building India's power infrastructure — stronger, smarter, and faster than ever before."

This order adds to SPML Infra's expanding power vertical, complementing its BESS business and its established leadership in sustainable infrastructure development. It underscores the Company's strategic focus on high-margin, government-funded infrastructure projects across its three core verticals — Water, Power, and Energy Storage.

About SPML Infra Ltd.:

SPML Infra Limited (CIN: L40106WB1981PLC276372) is a distinguished infrastructure development company with over four decades of expertise across power, water, environment, and technology sectors. With a pan-India presence, SPML has successfully executed over 700 projects, creating critical infrastructure, including drinking water facilities, wastewater treatment, integrated sewerage networks, municipal waste management, power transmission & distribution, substations, rural electrification, and smart city solutions. As India's leading water management company, SPML has contributed immensely to providing clean drinking water to over 50 million people across urban and rural areas. SPML is ranked **14th among the World's Top 50 Private Water Companies** as per **Global Water Intelligence (GWI), London** survey and is recognized as one of **India's 10 Best Infrastructure Companies**. As a publicly listed, ESG-compliant company, SPML Infra continues to drive innovation and growth in India's infrastructure landscape.
