Bengaluru, May 7th, 2026:

Britannia's Consolidated Sales for the Quarter ended 31st March 2026 stands at Rs 4,686 Crores, growing 7.1% and Net Profit stands at Rs 680 Crores, growing 21.6% over the same period last year.

For the year ended 31st March 2026, the Consolidated Sales stands at Rs. 18,858 Crores growing 7.5%, while the Net Profit stands at Rs. 2,537 Crores, growing 16.5% over the same period last year.

The Board of Directors recommended a final dividend of Rs 90.5 per share of face value Re. 1/- each.

Commenting on the performance, Mr. Rakshit Hargave, Managing Director & Chief Executive Officer, said:

“The Business witnessed a steady start to the quarter, with growth of ~9% in the first two months, before moderating to a lower number in March, primarily on account of supply disruptions in the International Business following the West Asia conflict.

Over the year, we made significant strides in scaling our presence in the rapidly growing e-commerce channel, now contributing ~6% to the Domestic business, driven by e-commerce-first launches and a premium mix of offerings. Adjacent categories, including Croissant and Wafers, continued their strong momentum, while flagship brands such as Little Hearts and Jim Jam recorded robust double-digit growth. Recent innovations, including 50-50 Dipped and ‘Doodh’ Marie Gold, have been well received and are gaining strong consumer traction

As we step into the new financial year, we have already initiated steps to mitigate any potential implication on the business, including input cost inflation, arising out of the ongoing conflict, and remain watchful of the evolving developments. Going forward, we will continue to focus on driving growth across core and adjacent categories through a robust pipeline of innovations, agile execution and higher investment in advertising & brands”
