1. The Ministry of Corporate Affairs (**'MCA'**), vide its General Circular No. 20/2020 dated 05 May 2020 read with the subsequent circulars issued from time to time, the latest one being General Circular No. 03/2025 dated 22 September 2025 (MCA Circulars), and such other applicable circulars issued by MCA and the Securities and Exchange Board of India (**'SEBI'**) ('the Circulars'), the Company is convening the 16th Annual General Meeting (**'AGM'**) through Video Conferencing (**'VC'**)/Other Audio Visual Means (**'OAVM'**), without the physical presence of the Members at a common venue.
2. In compliance with the applicable provisions of the Companies Act, 2013 ('the Act'), the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**'SEBI Listing Regulations'**) and the Circulars, the 16th AGM of the Company shall be held through VC/OAVM on Friday, 24 July 2026 at 03:00 P.M. (IST). The venue of the AGM shall be deemed to be the registered office of the Company situated at 4th Floor, The International, 16 Maharshi Karve Road, New Marine Lines, Cross Road No. 1, Churchgate, Mumbai-400 020, Maharashtra, India.
3. The Explanatory Statement, pursuant to Section 102 of the Act setting out material facts concerning the business with respect to Item Nos. 3 to 56 above and are annexed hereto. Further, additional information as required under the SEBI Listing Regulations and the Circulars issued thereunder forms part of this Notice.
4. Pursuant to the provisions of the Act, a Member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his/her/its behalf and the proxy need not be a Member of the Company. Since, this AGM is being held through VC/OAVM pursuant to the Circulars, the requirement of physical attendance of Members has been dispensed with. Accordingly, the facility for appointment of proxies by Members will not be available for this AGM and hence, the proxy form, attendance slip and route map of AGM are not annexed to this notice.
5. In case of joint holders attending the AGM, only such joint holder, who is higher in the order of names, will be entitled to vote.
6. The attendance of the Members attending the AGM through VC/OAVM will be counted for the purpose of reckoning the quorum under Section 103 of the Act.
7. The Members can join the AGM through VC/OAVM, 30 minutes before the scheduled time of the commencement of the AGM by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available on a first come first served basis as per the Circulars. This will not include large Shareholders (Shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairperson of the Audit Committee, Nomination and Remuneration Committee and Stakeholders' Relationship Committee, Auditors, etc. who are allowed to attend the AGM without restriction on account of first come first served basis.
8. In terms of SEBI Listing Regulations and the Circulars, the Company is sending this AGM Notice along with the Annual Report for financial year 2025-26 in electronic form only to those Members whose email addresses are registered with the National Securities Depositories Limited (**'NSDL'**) and/or Central Depository Services (India) Limited (**'CDSL'**), (**NSDL and CDSL collectively 'Depositories'**). A letter is also being sent to the shareholders whose email addresses are not registered, stating the web-link where the Annual Report is uploaded on the website of the Company. The Company shall send the physical copy of the Annual Report for the financial year 2025-26 only to those Members who specifically request for the same at secretarial@cleanmax.com by quoting their DP ID and Client ID. The Notice convening the AGM and the Annual Report for financial year 2025-26 have been uploaded on the website of the Company at www.cleanmax.com, the websites of the BSE Limited (**'BSE'**) at www.bseindia.com and the National Stock Exchange of India Limited (**'NSE'**) at www.nseindia.com, on which the equity shares of the Company are listed and on the website of MUFG Intime India Private Limited/Registrar and Share Transfer Agent (**'MUFG or RTA'**) at <https://in.mpms.mufg.com>.
9. Only a Member, whose name is recorded as on the Cut-off Date as beneficial owners maintained by the Depositories, shall be entitled to avail the facility of remote e-voting or for participation at the AGM and voting through InstaVote. The Company has fixed Friday, 17 July 2026 as the **'Cut-off Date'** for determining eligible Members entitled for remote e-voting. The notice is being sent to all the Members whose name appears as beneficial owners in the records

of the Depositories as on Friday, 26 June 2026. A person who is not a Member as on the Cut-off Date, should treat this Notice for information purpose only.

10. **Nomination facility:** Members holding shares in demat mode may contact their respective DPs to update the nomination.
11. As per the Circulars, Members may note that in case of any dispute against the Company and/or its RTA, can file dispute resolution through the Online Dispute Resolution Portal for disputes arising out of Indian Securities Market (<https://smartodr.in/login>) and the same can be accessed through the Company's website at www.cleanmax.com. Members can use this mechanism only after they have lodged their grievance with the Company and SCORES and are not satisfied with the outcome of the redressal.
12. The register of Directors and Key Managerial Personnel (KMP) and their shareholding, maintained under Section 170 of the Act, and the register of contracts or arrangements in which the directors are interested, maintained under Section 189 of the Act and Certificate from Secretarial Auditors of the Company certifying that ESOP Scheme of the Company is being implemented in accordance with the SEBI (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 will be available electronically for inspection by the members up to the AGM. All documents referred to in the Notice will also be available for inspection without any fee from the date of circulation of this Notice up to the date of AGM, i.e. Friday, 24 July 2026. Members seeking to inspect such documents can send an email to secretarial@cleanmax.com.
13. Pursuant to the applicable provisions of the Act and Rules framed thereunder and the SEBI Listing Regulations, the Company can serve notices and other communications through electronic mode to those Members who have registered their email IDs with the Depository Participant(s). We urge Members to support our green initiative by choosing to receive the Company's communication through email. Members holding shares in demat mode, who have not registered their email addresses, are requested to register their email addresses with their respective DPs.
14. **Procedure for remote e-voting and e-voting during the AGM:**

The Company is providing its Members with facility to exercise their right to vote on the resolutions proposed to be passed at the AGM by electronic means (**'e-voting'**). Members may cast their votes remotely, using an electronic voting system on the dates mentioned herein below (**'remote e-voting'**).

Further, the facility for voting through electronic voting system will also be made available at the Meeting (**'InstaVote'**) and Members attending the Meeting who have not cast their vote(s) by remote e-voting will be able to vote at the Meeting through InstaVote.

The Company has engaged the services of MUFG Intime India Private Limited as the agency to provide e-voting facility.

The manner of voting, including voting remotely by (i) individual Members holding shares of the Company in demat mode, (ii) Members other than individuals holding shares of the Company in demat mode and Members holding shares of the Company in physical mode, and (iii) Guidelines for Institutional shareholders ("Custodian / Corporate Body/ Mutual Fund").

None of the Directors, Key Managerial Personnel of the Company or their relatives are, in any way, concerned or interested, financially or otherwise, in the resolutions, except to the extent of their shareholding in the Company.

Accordingly, the Board recommends the Ordinary resolution set out in Item No. 4 of the notice, in relation appointment of Secretarial Auditors for a term of five consecutive years as an Ordinary Resolution.

Item No. 5 to 21

INTRODUCTION

Before we deep dive into the transaction specific details and disclosures as mandated by applicable law, to facilitate and aid shareholders decision on the approval of the related party transactions, set out below are some details in relation to the business model of the Company, the regulatory contours within which Company has to function, the requirements of the business and the applicable law requirements for related party transactions.

1. Business Background

- 1.1. Our Company, Clean Max Enviro Energy Solutions Limited [Formerly known as Clean Max Enviro Energy Solutions Private Limited] is recognized as India's largest provider of renewable energy solutions for the commercial and industrial (C&I) sectors. The Company specializes in supplying renewable power, as well as offering energy services and carbon credit solutions to a diverse range of domestic and international customers. We provide a comprehensive suite of renewable energy offerings, which are delivered through two key business segments: (i) the Renewable Energy Power Sales Segment, and (ii) the Renewable Energy Services Segment.

1.2. Renewable Energy Power Sales Segment:

1.2.1. In this segment, Company generates electricity through its renewable energy plants and sells it to customers via long-term Power Purchase Agreements ("**PPAs**") and Energy Attribute Purchase Agreements ("**EAPAs**"), employing a Special Purpose Vehicle ("**SPV**") model for each project. These agreements ensure a stable and predictable revenue stream while supporting the customers' transition to clean, renewable energy.

1.2.2. In this segment, the SPVs will qualify as 'related party' under Companies Act, 2013 ("**Companies Act**") and Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI LODR Regulations**").

1.3. Renewable Energy Services Segment:

1.3.1. In this segment, Company offers a wide range of turnkey development services. These services include land acquisition, evacuation infrastructure development, engineering, procurement and construction ("**EPC**") services, power evacuation, and long-term operation and maintenance ("**O&M**") support to the SPV for the life of the project.

2. Law applicable on the Company Business Model

2.1. In the context of the prevailing legal framework in India's power sector, power projects are classified as "captive generating plants" ("**CGP**"), where a significant portion of the power output is committed to a captive user (customer). Under the Electricity Act, 2003, along with the Electricity Rules, 2005 ("**Captive Regulations**"), specific conditions must be met for a plant to qualify as a CGP. It mandates that the captive user(s) must hold at least 26% of the plant's ownership. Additionally, applicable rules clarify that "ownership" refers to equity share capital with voting rights in the generating station or power plant. To comply with these Captive Regulations and ensure that its power plants qualify as CGPs, the Company establishes project-specific SPVs for each major customer (the captive user).

2.2. These SPVs are structured so that the relevant customer/customers holds a minimum of 26% of the ownership (equity share capital with voting rights or profit share), while the Company holds the remaining 74%. The creation and investment in these SPVs are crucial and central to the Company's strategic business activities of developing and operating renewable energy power plants.

3. Project Lifecycle and Structure of RPTs

3.1. The Proposed RPTs under Resolutions 5 to 21 are not discretionary related party arrangements, they are the operational backbone of the Company's mandated business structure under Indian electricity law. To clarify under the group captive structure approvals are sought for specific underlying project tied to a Power Purchase Agreement which may have not been executed as on the date of this notice.

3.2. Each project follows a defined five-step sequence, which explains the nature and necessity of the RPTs proposed in this AGM Notice. The following also sets out the broad categories of the RPTs that Company needs to enter into:

(a) Step 1 - Power Purchase Agreement: Before any construction activity or capital commitment is made, the Company negotiates and signs a binding PPA with the corporate customer. Key features of such PPA include: (i) a

weighted average tenure of over 25 years, providing long-term revenue visibility across the project's life; (ii) over 95% of the Company's business is with A/AA/AAA-rated or MNC customers which are among the highest-quality offtaker bases in Indian renewable energy and all customers undergo a process of approval from risk committee of the Company before PPAs are entered into with them. In the event any of the customer of the Wholly Owned Subsidiary is a 'related party' (as defined under the applicable law) of the Company then before entering into any arrangement with such customer which are material related party transaction, the same will be brought to approval of the shareholders in accordance with the applicable law requirement; and (iii) at the time of PPA negotiation, the customer is generally an independent third party – once the PPA is entered into and the customer has invested at least 26% in the subsidiary, the customer would qualify as related party of the subsidiary on a going forward basis, with all commercial terms including tariff rates, EPC charges, being agreed on an arm's length basis before any related party relationship exists. The customer is not a related party of the Group Captive SPV till the customer has invested their minimum equity stake. The customer becomes a related party only after infusing equity into the dedicated SPV pursuant to a shareholders' agreement in Step 2, as required under the Captive Regulations.

- (b) Step 2 - Equity Infusion and SPV Structure: To comply with the Captive Regulations, each customer's project is typically housed in a dedicated SPV. The customer infuses at least 26% equity into the SPV (with voting rights), as legally mandated. the Company holds the balance (typically 74%). The operational and governance control at all times rest with the Company.
- (c) Step 3 - EPC Contract and Land Transfers: The Company acts as the EPC contractor and signs a turnkey EPC contract with each subsidiary SPV for the design, procurement, and construction of the renewable energy asset, as the Company is the developer and master contractor of each of its project sites. Additionally, the land is transferred/subleased from common infrastructure SPV to the Group Captive SPVs. The purchase or lease of land is for purposes of the construction of the project related farms, maintenance and administrative offices etc.
- (d) Step 4 - Project Financing: Each SPV's project costs are funded by a combination of equity (from the Company and the offtaker as per Step 2) and debt. The debt structure comprises two components: (i) third-party (bank) debt which is senior secured, backed by the underlying renewable energy asset and guaranteed by the Company in its capacity as EPC contractor, a standard project finance structure given the Company's role in constructing and operating the asset; these corporate guarantees form part of the RPT programme and are approved by the Audit Committee; and (ii) Inter-Corporate Loans ('ICLs') or non-interest bearing perpetual debt instruments from the Company which is subordinated, unsecured funding extended by the Company. Both third-party debt and ICLs carry for a tenure basis the underlying PPA and are serviced entirely from the cashflows generated by the SPV.

Most project SPVs, in their initial years of operations, are typically not profitable and may lack sufficient liquidity to fully service the finance costs associated with their borrowings, both external and internal. To alleviate this liquidity pressure, non-interest bearing perpetual debt is provided with flexible servicing terms. This structure would enable the project SPVs to service such debt obligations only when adequate liquidity becomes available.

Further, the Company sometimes group multiple subsidiaries to enable access to financing on more favourable and economical terms, as well as to expedite the financing process and arrangements with the lenders are entered into by the group subsidiaries. Under this pooling structure, in the event of a shortfall in debt servicing by any subsidiary within the pool, only surplus cash flows (if any) from other subsidiaries in the same pool may be utilized to bridge such shortfall, in accordance with agreed financing terms. This results in the creation of inter-se obligations and financial support arrangements among the SPVs. As these transactions involve arrangements between subsidiaries of the Company, they qualify as related party transactions.

- (e) Step 5: Operations (O&M and Support Services): Once the plant is commissioned and operational, the Company continues to provide O&M services to the SPV for the life of the project. In addition, the Company provides support services, including employee support, office support, and other shared services to the SPVs on an allocated cost-plus basis.

3.3. Basis the above description, the RPTs relevant for the business can be categorized in the following broad buckets:

3.3.1. **Infusion of Debt (through Inter Corporate Loan/Perpetual Debt):** Most project SPVs, in their initial years of operations, are typically not profitable and may lack sufficient liquidity to fully service the finance costs associated with their borrowings, both external and internal. To alleviate this liquidity pressure, it is proposed to extend perpetual debt with flexible servicing terms. This structure would enable the project SPVs to service such debt obligations only when adequate liquidity becomes available. The Parent Company infuses funds via inter-corporate Loan/ deposits and other long term loans to the other SPVs for the facilitation of projects and working capital requirements of the SPVs.

3.3.2. **Rendering of engineering, procurement and construction (EPC) projects, Operation & maintenance (O&M) services, Support fees and sale of product:**

Rendering of EPC Projects: The Parent Company and certain group companies provide Engineering, Procurement, and Construction (EPC) services to other group entities. These companies undertake end-to-end project execution, including design, procurement of materials and equipment, construction, commissioning, and project management support.

Operations & Maintenance Services: As per the current business model, certain group companies provide Operations & Maintenance (O&M) services to other group entities, leveraging specialized technical expertise and operational capabilities. These services support efficient plant operations, asset reliability and regulatory compliance.

Support Fees and Management Service Fees: Support fees are charges paid by the SPV to the Company for providing technical, operational, administrative, financial and regulatory support services required for the development, management and efficient operation of the renewable energy project. These services enable the SPV to leverage the Company's expertise, centralized resources and industry experience, thereby ensuring operational efficiency, regulatory compliance and project performance on an arm's length basis.

Sale of products, materials and services: Sale of products refers to the supply of renewable energy equipment, components, systems and other

related products by the Company to the related party/SPV in the ordinary course of business. These products are required for the development, installation, expansion and operation of renewable energy projects and are supplied on an arm's length basis and on terms comparable to those offered to unrelated parties.

3.3.3. **Common infrastructure services/ support services:**

SPVs engaged in the business of owning, operating, and maintaining common infrastructure assets for renewable energy projects, including pooling substations, transmission lines, and other facilities necessary for evacuation and delivery of power from renewable energy projects provide Common Infrastructure Facility to other project SPVs. The Common Infrastructure SPVs charges fee payable for common infrastructure facilities provided for the project.

3.3.4. **Sale of Power/ iRenewable Energy Certificates (iRECs):**

Sale of Power/iRenewable Energy Certificates (iRECs) refers to the sale of electricity generated from renewable energy projects and/or the transfer of associated RECs by the Company or its SPVs to related parties. Such transactions enable optimal utilization and monetization of renewable energy assets, ensure compliance with power purchase agreements and regulatory requirements, and are undertaken in the ordinary course of business on an arm's length basis. Pursuant to the group captive structure, the offtaker/consumer, SPV, and the Company are related parties. The proposed power purchase agreements are to be entered into between SPVs with respective offtaker/consumer.

iRECs include purchase and sale of international/Indian renewable energy certificates, carbon credits, carbon project financing and sale of power on exchanges etc from one group company to other group company

3.3.5. **Cash pooling arrangements**

This is the centralized management of surplus funds and short-term funding requirements among the Company and its related parties/SPVs to improve liquidity management, optimize utilization of financial resources and reduce overall financing costs. Such arrangements facilitate efficient treasury operations and are undertaken in the ordinary course of business on arm's length terms and in compliance with applicable laws.

3.3.6. **Corporate/ Bank Guarantee (Guarantees) and charges thereon:**

Corporate or bank guarantees are provided by the Company in favour of lenders, counterparties or other stakeholders of the SPVs/related parties to support financing and contractual obligations associated with renewable energy projects and charges thereon are recovered from the said SPVs/related parties. Such guarantees facilitate access to funding and enable project execution and operations, and are provided in the ordinary course of business on arm's length terms and in compliance with applicable laws.

4. **Categories of Related Parties**

Regulation 2(1)(zc) of the SEBI LODR Regulations, a Related Party Transaction ("**RPT**") includes any transaction involving the transfer of resources, services, or obligations between a listed entity or any of its subsidiaries, on one hand, and a related party of the listed entity or any of its subsidiaries, on the other hand, regardless of whether a consideration is charged. Basis the same, in context of the Proposed RPTs, arrangement with the following will classify as an RPT for the purposes of the Company.

4.1. Wholly Owned Subsidiaries that will be converted into Group Captive SPVs, and Group Captive SPVs:

Certain SPVs are presently structured as Wholly Owned Subsidiary of the Company. In the normal course of project development under the group captive framework, SPVs mentioned in resolution nos. 8 and 14 may cease to be Wholly Owned Subsidiary pursuant to the corporate customer acquiring the minimum equity stake of 26%, as legally required. Upon such transition, these SPVs would constitute related parties under Regulation 23 of the SEBI (LODR) Regulations, 2015. Accordingly, the Company is proactively seeking shareholders' prior approval for the proposed transactions to ensure continued compliance in the event of such changes in ownership structure. Group Captive SPV, common infrastructure SPVs are subsidiaries of the Company and therefore will classify as related parties.

4.2. Common Infrastructure SPVs:

The Company has incorporated certain SPVs for the sole purpose of owning, maintaining, and operating common infrastructure facilities, including pooling substations, transmission lines, and associated evacuation infrastructure. Company's renewable energy projects are typically developed in large solar and wind parks, which are subsequently apportioned to individual customers of SPVs. However, power generated across such parks is evacuated through shared infrastructure managed by such common infrastructure SPV. As a result, any arrangement between the Group Captive SPVs and the common infrastructure SPVs are related party transactions. The services provided by these common infrastructure SPVs include contracts for execution of common infrastructure, common infrastructure support services and operational & maintenance services. Additionally, these common infrastructure SPVs also raise project debt and financing via ICLs and non-interest bearing perpetual debt from the Company to fund such works.

5. **Statutory Background**

In accordance with Regulation 2(1)(zc) of the SEBI LODR Regulations, a Related Party Transaction ("**RPT**") includes any transaction involving the transfer of resources, services, or obligations between a listed entity or any of its subsidiaries, on one hand, and a related party of the listed entity or any of its subsidiaries, on the other hand, regardless of whether a consideration is charged. The term "transaction" shall be construed to include a single transaction or a group of transactions forming part of a contract or arrangement.

Further, in terms of Regulation 23 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI Listing Regulations**"), as amended, all material related party transactions require prior approval of the shareholders through ordinary resolutions, even if such transactions are undertaken in the ordinary course of business and are at arm's length. As per the SEBI LODR Regulations, the transactions shall be considered material if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year exceeds scale-based threshold basis as prescribed in Schedule XII of the regulation. Accordingly, the Annual consolidated turnover of the Company for the financial year 2025-26 is INR 1,912.87 Crore and basis to which the materiality threshold for the Company for seeking shareholders' approval for related party transactions is INR 191.29 Crore. These limits are applicable irrespective of whether the transactions are in the ordinary course of business and/or at arm's length.

Considering the nature, volume and frequency of the Proposed RPTs, the aggregate value of such transaction(s), whether undertaken individually or collectively or in tranches, is expected to exceed the materiality thresholds prescribed under Regulation 23 of the Listing

Regulations and the Company's Policy on Materiality of Related Party Transactions and on dealing with Related Party Transactions.

Accordingly, it is in the above context that, resolution No(s). 5 to 21 are placed for the approval of the Shareholders of the Company along with necessary details on the proposed RPTs provided in this Statement ("**Proposed RPTs**").

Based on the review, the Audit Committee has approved and noted that the Proposed RPTs are in the ordinary course of business of the Company and are at arm's length. The Board of Directors has also approved and recommended Resolution No. 5 to 21 for the approval of the Members of the Company as ordinary resolutions, for entering into and/or continuing with the existing and proposed related party arrangements and transactions.

Also, SEBI vide its circular No. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2025/93 dated June 26, 2025, has introduced the Industry Standards on "Minimum information to be provided for review of the audit committee and shareholders for approval of a related party transaction" ("**Standards**") to facilitate a uniform approach and assist listed companies in complying with the provisions of Regulation 23 of the SEBI Listing Regulations read with the SEBI Master Circular no. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024 ("**SEBI Circular**"). The Standards inter alia requires listed entity to provide minimum information, in specified format, relating to the proposed RPTs, to the Members while seeking approval. The details as required under the Standard are set out in **Schedule 1**

The Audit Committee has also reviewed the certificate provided by the Managing Director and the Chief Financial Officer of the Company, as required under the Standards.

Members may note that, in terms of the provisions of the SEBI LODR Regulations, all related parties (whether or not they are a party to the aforesaid transactions) shall abstain from voting for the relevant resolutions. None of the Directors or Key Managerial Personnel of the Company or their relatives, except to the extent of their shareholding, if any, in the Company, are in any way concerned or interested, financially or otherwise, in the proposed ordinary resolutions set out at item nos. 5 to 21 of this Notice.

All the amounts mentioned in this document are in crore.

The Board of Directors recommends the ordinary resolutions for approval by the Members.

3.	Any default, if any, made by a related party concerning any obligation undertaken by it under a transaction or arrangement entered into with the listed entity or its subsidiary during the last financial year.	NA

A(4) - Amount of the Proposed Transactions

S. No.	Particulars of the Information	Information provided by the management
1.	Amount of the proposed transactions being placed for approval in the meeting of the Shareholders.	<p>Please refer to Annexure C1/C2 [C1 for other material RPTs and C2 for Cash Pooling Arrangements] for the aggregate maximum amount of the Proposed RPTs with each of the related parties and Annexure E1/E2 [E1 for other material RPTs and E2 for Cash Pooling Arrangements] for maximum amount of each category of Proposed RPT with the relevant related party disclosed individually.</p> <p>Please note that the aggregate amounts for the related party transactions reflect different categories of transactions, including EPC project costs, the financing instruments that fund those same projects, and recurring profit and loss items, each of which is counted separately as different legs of the same underlying projects. While the same project may contribute to multiple related party transaction categories (EPC, guarantee, and ICL), this does not mean that the Company has separate financial commitments of the size of the amounts mentioned in Annexure C1/C2 [C1 for other material RPTs and C2 for Cash Pooling Arrangements], for each category.</p>
2.	Whether the proposed transactions taken together with the transactions undertaken with the related party	Yes, the transactions with related parties in the current financial year (i.e. 2026-27) are expected to cross materiality thresholds.

S. No.	Particulars of the Information	Information provided by the management
	during the current financial year would render the proposed transaction a material RPT?

4.	Value of the proposed transactions as a percentage of subsidiary's annual standalone turnover for the immediately preceding financial year (in case of a transaction involving the subsidiary and where the listed entity is not a party to the transaction)	Please refer to Annexure C1/C2 [C1 for other material RPTs and C2 for Cash Pooling Arrangements]
5.	Value of the proposed transactions as a percentage of the related party's annual consolidated turnover (if consolidated turnover is not available, calculation to be made on standalone turnover of related party) for the immediately preceding financial year, if available.	Please refer to Annexure C1/C2 [C1 for other material RPTs and C2 for Cash Pooling Arrangements]
6.	Financial performance of the related party for the immediately preceding financial year (2025-26)	Please refer to Annexure D1/D2

A(5) - Basic details of the Proposed Transactions

S. No.	Particulars of the Information	Information provided by the management
1.	Specific type of the proposed transaction (e.g. sale of goods/services, purchase of goods/services, giving loan, borrowing etc.)	Please refer to Annexure E1/E2 [E1 for other material RPTs and E2 for Cash Pooling Arrangements]
2.	Details of each type of the proposed transaction	Please refer to Annexure E1/E2 [E1 for other material RPTs and E2 for Cash Pooling Arrangements]
3.	Tenure of the proposed transaction (tenure in number of years or months to be specified)	Please refer to Annexure E1/E2 for the tenure of each of the Proposed RPT. [E1 for other material RPTs and E2 for Cash Pooling Arrangements]
4.	Whether omnibus approval is being sought?	This is not an omnibus approval for multiple transactions. The approval is being sought for the specific related party transactions, the details of which have been provided in Annexure E1/E2 . [E1 for other material RPTs and E2 for Cash Pooling Arrangements]

S. No.	Particulars of the Information	Information provided by the management
		<p>The duration of the shareholder approval being sought is equal to the tenure of each Proposed RPT as provided in Annexure E1/E2.</p> <p>Each resolution names a specific related party, specifies the nature of each transaction type, provides individual monetary caps per transaction type, discloses the transaction tenure, and has received prior Audit Committee approval. The INR amounts approved under each resolution represent maximum aggregate ceilings over the full transaction tenure – not amounts committed to be deployed in any year. [For O&M, support fees, PPA,] the recurring items, values have been considered on an annualized basis. Actual transaction and its volumes are determined by project timelines, customer equity infusion schedules, and third-party debt availability.</p>
5.	<p>Value of the proposed transaction during a financial year. If the proposed transaction will be executed over more than one financial year, provide estimated break-up financial year wise.</p>	<p>Refer to Annexure E1/E2 [<i>E1 for other material RPTs and E2 for Cash Pooling Arrangements</i>] for details in relation to value and tenures of each Proposed RPTs.</p> <p>A year wise split cannot be provided even when the transactions are executed in more than one financial year, due to the following reasons:</p> <p>1. EPC and Common Infrastructure Services: Given the nature of the business including construction timelines, milestone-based billing, and procurement schedules are dynamic and cannot be reliably apportioned to a specific financial year at the stage of approval. However, the overall cost with the maximum cap will not change.</p> <p>2. ICLs/Perpetual debt: A year-wise commitment for ICL drawdowns and repayments cannot be provided because repayment is subject to the availability of funds at the SPV level, which in turn depends on PPA cashflow generation, project commissioning timelines, and debt service obligations, none of which can be precisely pre-determined at the approval stage. However, the overall commitment with the maximum cap will not change.</p> <p>3. Corporate/ Bank Guarantees (CGs/ BGs) (Guarantees): The period of continuity of a corporate guarantee cannot be determined at the stage of approval. Whilst CGs are issued in favour of project lenders at the time of loan disbursement, upon any refinancing of the underlying loan, the existing CG may fall away entirely or a fresh CG may need to be issued in favour of the incoming lender, depending on the</p>

S. No.	Particulars of the Information	Information provided by the management
		<p>refinancing terms. This inherent uncertainty makes a year-wise split impractical.</p> <p>4. Support Fees: Support fees represent the actual SG&A costs of the Company allocated proportionately to each subsidiary on the basis of its contribution to consolidated revenues. Since future revenues of each SPV cannot be precisely forecast year-on-year over the tenure of the contract, the year-wise allocation of support fees similarly cannot be committed to at the approval stage.</p> <p>5. iREC: Transfer/sale of i-RECs are linked to the underlying renewable power generation and may accrue and be monetized over the project tenure based on actual generation, issuance and market conditions. Hence year-wise allocation cannot be committed.</p> <p>6. Cash Pooling Transactions: A financial year-wise break-up cannot be reliably provided as the Cash Pooling Arrangement functions as a contingent liquidity management and debt servicing mechanism amongst participating entities. The actual utilization and inter-se obligations depend on factors such as cash flow availability, debt servicing requirements, lender directions, refinancing events and operational performance of individual projects, all of which are uncertain and cannot be accurately forecast at the time of seeking shareholder approval. Accordingly, only the aggregate maximum exposure under the arrangement can be reasonably disclosed.</p>
6.	Justification as to why the RPTs proposed to be entered into are in the interest of the listed entity	<p>The Proposed RPTs are in the interest of the Company because they are the operational backbone of the Company's mandated business structure under Indian electricity law and, from the Company's business perspective, are in the nature of ordinary course. The Company develops renewable energy projects under the group captive framework, which requires each captive project to be housed in a separate SPV with the prescribed ownership structure. Consequently, the establishment of project-specific SPVs and the transactions entered into with such SPVs are a legal and commercial necessity for implementation of the Company's business model and are not discretionary arrangements. The Company is one of India's largest provider of renewable energy solutions to the C&I sector. It develops projects under the group captive framework which legally requires a separate SPV for each customer project, and accordingly, the structure and quantum of the Proposed RPTs flows directly from this business model. The Proposed RPTs facilitate the</p>

		<p>development, financing, construction, operation and maintenance of renewable energy projects and enable the Company to execute its long-term contracted business while complying with the applicable legal and regulatory framework.</p> <p>Each transaction type generates direct commercial benefit: (i) EPC contracts are the Company's primary revenue-generating activity as master developer and contractor; (ii) O&M and support services generate recurring long-duration income streams for over 20 years post-commissioning; (iii) ICLs generate interest income for the Company, with ICLs serviced entirely from SPV cashflows over the project life; and (iv) Common Infrastructure SPVs charges fee payable for common infrastructure facilities provided for the project. (v) Corporate guarantees facilitate access to project financing on competitive terms, thereby improving project viability and enabling timely execution of projects; and (vi) Cash pooling arrangements optimize liquidity management across project SPVs and support efficient debt servicing in accordance with lender requirements, thereby enhancing overall financing efficiency.</p>
7.	<p>Details of the promoter(s)/ director(s) / key managerial personnel of the listed entity who have interest in the transaction, whether directly or indirectly.</p> <p>a. Name of the director / KMP b. Shareholding of the director / KMP, whether direct or indirect, in the related party</p>	No
8.	A copy of the valuation or other external party report, if any, shall be placed before the Audit Committee.	Please refer to Annexure G for details in relation to compliance with arm's length requirement.

Note (a)

S. No.	Nature of Transactions	Tenure	Justification
1	Engineering, Procurement and Construction (EPC)	3 years from the earlier of the date of the approval or the signing of the underlying PPA	-
2	Operations & Maintenance Services (O&M)	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Operation and Maintenance agreements are structured for the entire project life cycle and the life of the plant to ensure consistent plant performance, efficiency, and compliance with PPA obligations. Frequent renegotiation would disrupt operations and increase costs.
3	Inter Corporate Loan (ICL)/ Perpetual Debt	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Inter-corporate deposits or long-term loans are aligned with project financing tenure, ensuring stable funding and repayment structures matching cash flow generation over asset life.
4	Support Fees	25 years from the earlier of the date of the approval or the signing of the underlying PPA	These relate to centralized services (management, technical, administrative), which are continuously required throughout the operational life of the projects, ensuring economies of scale and operational consistency.
5	Corporate/ Bank Guarantee (CG/ BG) [Guarantees] and charges thereon	-	Guarantees and recovery of its charges are aligned with project financing tenure.
6	I-Renewable Energy Certificates (iREC)	25 years from the earlier of the date of the approval or the signing of the underlying PPA	International Renewable Energy Certificates are generated over the operational life of projects, necessitating long-term arrangements to manage certification, trading, and compliance.
7	Common Infrastructure Services (C&I)	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Common Infrastructure agreements are structured for the entire project life cycle and the life of the plant to ensure consistent evacuation of the power from the project.

S. No.	Nature of Transactions	Tenure	Justification
8	Cash pooling arrangement	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Cash Pooling Arrangements are aligned with the financial structuring of projects, enabling efficient liquidity management over the lifecycle of the assets.

Annexure G

[A(5)-(8), B(1)-(2) and B(2)-(4)]

1. Arm's Length Pricing Framework

- 1.1. All transactions approved or proposed under Resolutions **5 to 56** are governed by a comprehensive ALP Framework developed by an independent expert which is an eminent Big 4 firm. The ALP Framework covers every transaction category with independent third-party benchmarking. Individual transactions entered into under these approvals shall comply with the framework and will be reviewed by the Audit Committee on an ongoing basis.
- 1.2. In March 2026, the Company engaged a Big 4 firm to develop a detailed ALP Framework covering every transaction category proposed in this AGM Notice]. The Big 4 firm: (i) reviewed and validated the arm's length pricing workings for all transaction segments; (ii) assessed whether each transaction type is in compliance with SEBI LODR requirements and whether the pricing is consistent with what unrelated parties would agree in comparable circumstances; (iii) prepared a written ALP framework setting out the arm's length principles applicable to each transaction category, for use by the Audit Committee in reviewing individual transactions; and (iv) assessed and presented to the Audit Committee of the Board that each transaction type is at arm's length and in compliance with SEBI LODR requirements.
- 1.3. The arm's length principles applicable to each transaction category, as confirmed by the Big 4 firm, are set out in the table below:

Transaction Type	Arm's Length Principle	Basis of Pricing Confirmation
EPC / Sale of Products	The EPC contract price reflects the full cost of constructing the renewable energy asset on a turnkey basis, with a margin consistent with what an independent EPC contractor would earn on comparable projects from unrelated third parties. Similarly, the pricing of products sold to its subsidiaries includes a margin consistent with what an independent third party would earn from its unrelated parties. Pricing is referenced against returns from similar projects carried out between two unrelated third parties. Pricing is locked at each contract execution with reference to then-prevailing market rates and third-party benchmarks (including the Company's own third-party business).	Big 4 firm benchmarking report; pricing confirmed at each contract execution.
Common Infrastructure Services	Charges for shared infrastructure (such as pooling substations and transmission lines) are allocated equitably across users based on their proportionate capacity consumption. The return earned is consistent with what an independent provider of such infrastructure services would earn from an unrelated third party.	Big 4 firm benchmarking report on the margins earned for this transaction

Transaction Type	Arm's Length Principle	Basis of Pricing Confirmation
O&M Services	O&M fees are set at rates consistent with what an independent O&M service provider would charge for comparable renewable energy assets. Contracts include an annual escalation clause of up to 5% per annum, aligned with industry practice and back-to-back vendor escalation.	Big 4 firm benchmarking report; annual escalation built into contract.
Support Fees	Shared services (HR, IT, secretarial, tax support, etc.) are recharged to SPVs on an allocated cost basis with a modest markup, consistent with the principle that a centralised service provider recovers its costs plus a reasonable return. Allocation keys are equitable and based on a measurable benefit driver.	Big 4 firm benchmarking report.
ICLs/ Perpetual Debt (Domestic)	ICLs and Perpetual Debt are unsecured subordinated loans. The applicable interest rate at the time of each sanction is set at a margin above the rate at which the Company can raise incremental unsecured debt, referenced against prevailing market lending benchmarks (including G-Sec yields and bank lending rates). The shareholder-approved ceiling sets the maximum; actual rates are determined at each sanction in accordance with then-prevailing benchmarks.	Big 4 firm benchmarking report; rate set at each drawdown.
ICLs (Overseas)	Same principles as domestic ICLs, applied with reference to international market lending rates relevant to the jurisdiction of the borrowing entity. The shareholder-approved ceiling sets the maximum; actual rates are determined at each sanction. The transfer pricing norms are complied with while arriving at these rates	Big 4 firm benchmarking report; rate set at each drawdown.
Corporate / Bank Guarantees (Overseas)	Guarantee fees (where charged) are in line with the rates prescribed under Indian safe harbour rules as provided in accordance with Section 167 of the Income-tax Act, 2025 (" Safe Harbour Rules ") and are consistent with fees that independent guarantors would charge for comparable credit support. These are contingent obligations — no cash outflow unless invoked — and are supported by long-term PPA cashflows.	Safe Harbour Rules
iREC (Renewable Energy Certificates)	The price fetched by the selling entity from the third party unrelated customers is apportioned amongst the listed entity and its subsidiaries based on the FAR (Functions Assets and Risks) performed by each entity (Revenue split method).	Big 4 firm benchmarking report; rate set at the time of agreement.

- 1.4. Because contracts are entered into on a rolling basis across the lifecycle of the programme, exact prices cannot be specified at the time of shareholder approval. However, pricing under each category is determined at the point of each individual transaction: (i) EPC pricing at contract execution, (ii) ICL rates at each drawdown, (iii) O&M rates are subject to annual escalation in accordance with the ALP Framework approved by the Big 4 firm and reviewed by the Audit Committee. The shareholder approval sets the framework and ceiling; governance of individual transactions occurs continuously through the Audit Committee. Specifically:
- (i) For ICLs and loans: the applicable interest rate at the time of each sanction is determined based on then-prevailing market benchmarks consistent with the Audit Committee-approved ALP framework; the shareholder approval sets the ceiling range while actual rates are determined at each sanction.
 - (ii) For O&M contracts: contracts contain an annual escalation clause of up to 5% per annum, providing built-in pricing protection against cost inflation, aligned with prevailing industry practice and back-to-back escalation charged by the underlying third-party vendor.
 - (iii) For EPC contracts: these are fixed-price turnkey contracts. pricing is set and locked at each contract execution with reference to then-prevailing market rates and third-party benchmarks, not at the time of shareholder approval.

Item No. 22 to 56

In the context of the prevailing legal framework governing the power sector in India, power projects are classified as Captive Generating Plants ("**CGPs**"), wherein a significant portion of the power generated is consumed by the captive user(s). In accordance with the Electricity Act, 2003 read with the Electricity Rules, 2005, it is *inter alia* required that the captive user(s) hold at least 26% of the equity share capital with voting rights in the SPVs (*as defined below*).

To comply with these requirements and ensure that its projects qualify as CGPs, the Company adopts a business model involving the creation of project-specific special purpose vehicles ("**SPVs**") for each major customer. Consequently, transactions between the Company and such SPVs (including supply, Engineering, Procurement and Construction ("**EPC**"), Operation and Maintenance ("**O&M**"), Inter Corporate Loans ("**ICLs**"), guarantees & charges thereon, sale of products, iRenewable Energy Certificates ("**iRECs**") and other support arrangements, (as described in the background note for resolution no. 05-21) become essential for development, implementation and operation of such projects. These transactions, by their very nature, constitute related party transactions ("**RPTs**").

Transactions entered prior to listing

The Company listed on March 02, 2026, and accordingly, the provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI Listing Regulations**") became applicable to the Company thereafter.

As per Regulation 23 read with Schedule XII of the SEBI Listing Regulations and RPT Policy, if the consolidated turnover of the listed Company is up-to INR 20,000 Crore, any transaction with a related party shall be considered material, if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year exceeds 10% of the annual consolidated turnover of the listed entity.

Prior to listing, the Company had entered into various contracts and arrangements with its related parties. These transactions were undertaken in the ordinary course of business and were executed at arm's length basis; and were reviewed and approved by the Audit Committee, in accordance with the applicable legal and governance framework.

As per the applicable provisions, such contracts executed prior to listing were not mandatorily required to be approved by the shareholders.

The nature and details of the transaction(s) with the relevant related party and justification as to why the RPTs are in the interest of the Company are specified in Annexure H to L, as appended to this Notice.

Rationale for seeking shareholders' approval

Notwithstanding the above, approval of the Members is being sought in this Annual General Meeting for the following reasons:

1. Continuity nature of pre-listing contracts: The underlying contracts executed prior to listing are long-term in nature and continuing in the financial year 2026-27 and beyond, forming part of ongoing operational arrangements.
2. Requirement under SEBI Listing Regulations post listing: Certain of these transactions, on an aggregated basis, are expected to cross the materiality thresholds prescribed under Regulation 23, necessitating shareholders' approval for ongoing transactions.
3. Good governance and transparency approach: The Company is adopting a conservative and governance-led approach by voluntarily seeking shareholders' approval for continuing transactions, even though such approval was not mandatory at the time of execution.
4. Criticality to business model: These transactions are integral to the Company's CGP-driven business model, including:
 - Project execution (EPC and Supply),

- Common infrastructure and operational and maintenance services,
- fulfilment of financing, capital support and guarantee requirements, and
- Other ancillary transactions, if any.

Continuation of such transactions is essential for uninterrupted business operations and project viability.

5. Governance safeguards and confirmations

a. The Company reiterates the following:

- All transactions are in the ordinary course of business and at arm's length basis;
- There is no material change in pricing or nature of such arrangements post listing; and
- the approval is being sought to enable continuation and comply with applicable regulatory requirements.

b. The Company confirms that it is not seeking ex-post approval for any non-compliant transactions; rather, the approval is being sought proactively to align continuing contracts with post-listing regulatory requirements.

c. The aggregation of transaction values for determination of materiality includes multiple transaction streams (EPC, financing, guarantees and operational contracts), which are economically interlinked and arise from a single project lifecycle, and therefore should not be viewed in isolation. Please refer the explanatory statement provided for agenda item no. 05-21 having details on the project lifecycle and the category of RPTs.

d. The scale of RPTs is a function of the Company's CGP business model and regulatory requirements and does not represent discretionary or unrelated party dealings.

e. The pricing, terms and conditions of such transactions are comparable to those with unrelated third parties and have been subject to Audit Committee oversight.

f. The proposed approvals are enabling in nature to ensure business continuity and do not confer any undue benefit to related parties to the detriment of minority shareholders.

The Management of the Company has provided the Audit Committee with the relevant details about the RPTs including rationale, material terms, justification as to why the ongoing/subsisting RPT(s) are in the interest of the Company and the basis of pricing. The Audit Committee has reviewed and taken note of the certificate placed before it by the Managing Director and Chief Financial Officer of the Company, confirming that the proposed RPTs including the existing RPTs are not prejudicial to the interest of public shareholders of the Company and nor are the terms and conditions of the proposed RPT(s) unfavourable to the Company, compared to terms and conditions, had the Company to have entered into similar transaction(s) with an unrelated party.

Further, SEBI vide its circular no. SEBI/HO/CFD/CFD-PoD-2/P/CIR/2025/93 dated 26 June 2025 has introduced the Industry Standards on "Minimum information to be provided for review of the Audit Committee and Members for approval of an RPT" ("**Standards**") to facilitate uniform approach and assist listed companies in complying with the provisions of Regulation 23 of the SEBI Listing Regulations read with the SEBI Master Circular no. HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated 30 January 2026. The Standards *inter alia* require the listed entity to provide minimum information, in specified format are set forth as Schedule 2 relating to the RPTs, to the Audit Committee and to the Members, while seeking approval.

The Members may note that in terms of the provisions of the SEBI Listing Regulations, the related party as defined thereunder (whether such related party(ies) is a party to the aforesaid transactions or not), shall not vote to approve resolution under Item No. 22 to 56.

In view of the above, based on the consideration and approval of the Audit Committee, the Board of Directors sought approval of the Members by way of an Ordinary Resolution for the material RPTs, as detailed hereinbelow, to ensure continued compliance with applicable laws and seamless continuation of business operations.

None of the Directors or Key Managerial Personnel of the Company or their relatives, except to the extent of their shareholding, if any, in the Company, are in any way concerned or interested, financially or otherwise, in the proposed ordinary resolutions set out at item nos. 22 to 56 of this Notice.

All the amounts mentioned in this document are in crore.

The Board of Directors recommends the ordinary resolutions for approval by the Members.

SCHEDULE 2

A(3) - Details of previous transactions with the Related Party

S. No.	Particulars of the Information	Information provided by the management
1.	Total amount of all the transactions undertaken by the listed entity or subsidiary with the related party during the financial year 2025-26.	Please refer to Annexure I1/I2 [I1 for other material RPTs and I2 for Cash Pooling Arrangements]
2.	Total amount of all the transactions undertaken by the listed entity or subsidiary with the related party in the current financial year up to the quarter immediately preceding the quarter in which the approval is sought.	Please refer to Annexure I1/I2 [I1 for other material RPTs and I2 for Cash Pooling Arrangements]
3.	Any default, if any, made by a related party concerning any obligation undertaken by it under a transaction or arrangement entered into with the listed entity or its subsidiary during the last financial year.	NA

A(4) - Amount of the Proposed Transactions

S. No.	Particulars of the Information	Information provided by the management
1.	Amount of the proposed transactions being placed for approval in the meeting of the Shareholders.	<p>Please refer to Annexure J1/J2 [J1 for other material RPTs and J2 for Cash Pooling Arrangements] for the aggregate maximum amount of the Proposed RPTs with each of the related parties and Annexure L1/L2 [L1 for other material RPTs and L2 for Cash Pooling Arrangements] for maximum amount of each category of Proposed RPT with the relevant related party disclosed individually.</p> <p>Please note that the aggregate amounts for the related party transactions reflect different categories of transactions, including: EPC project costs, the financing instruments that fund those same projects, and recurring profit and loss items, each of which is counted separately as different legs of the same underlying projects. While the same project may contribute to multiple related party transaction categories (EPC, guarantee, and ICL), this does not mean that the Company has separate financial commitments of the size of the amounts mentioned in Annexure J1/J2 [J1 for other material RPTs and J2 for Cash Pooling Arrangements], for each category.</p>
2.	Whether the proposed transactions taken together with the transactions undertaken with the related party during the current financial year	Yes, the transactions with related parties in the current financial year are expected to cross materiality thresholds.

	would render the proposed transaction a material RPT?	
3.	Value of the proposed transactions as a percentage of the listed entity's annual consolidated turnover for the immediately preceding financial year	Please refer to Annexure J1/J2 [J1 for other material RPTs and J2 for Cash Pooling Arrangements]
4.	Value of the proposed transactions as a percentage of subsidiary's annual standalone turnover for the immediately preceding financial year (in case of a transaction involving the subsidiary and where the listed entity is not a party to the transaction)	Please refer to Annexure J1/J2 [J1 for other material RPTs and J2 for Cash Pooling Arrangements]
5.	Value of the proposed transactions as a percentage of the related party's annual consolidated turnover (if consolidated turnover is not available, calculation to be made on standalone turnover of related party) for the immediately preceding financial year, if available.	Please refer to Annexure J1/J2 [J1 for other material RPTs and J2 for Cash Pooling Arrangements]
6.	Financial performance of the related party for the immediately preceding financial year 2025-26	Please refer to Annexure K1/K2 [K1 for other material RPTs and K2 for Cash Pooling Arrangements]

A(5) - Basic details of the Proposed Transactions

S. No.	Particulars of the Information	Information provided by the management
1.	Specific type of the proposed transaction (e.g. sale of goods/services, purchase of goods/services, giving loan, borrowing etc.)	Please refer to Annexure L1/L2 [L1 for other material RPTs and L2 for Cash Pooling Arrangements]
2.	Details of each type of the proposed transaction	Please refer to Annexure L1/L2 [L1 for other material RPTs and L2 for Cash Pooling Arrangements]
3.	Tenure of the proposed transaction (tenure in number of years or months to be specified)	Please refer to Annexure L1/L2 [L1 for other material RPTs and L2 for Cash Pooling Arrangements] for the tenure of each of the Proposed RPT.
4.	Whether omnibus approval is being sought?	This is not an omnibus approval for multiple transactions. The approval is being sought for the specific related party transactions the details of which have been provided in Annexure L1/L2 [L1 for other material RPTs and L2 for Cash Pooling Arrangements]. The duration of the shareholder approval being sought is equal to the tenure of each Proposed RPT as provided in

S. No.	Particulars of the Information	Information provided by the management
		<p>Annexure L1/L2 [L1 for other material RPTs and L2 for Cash Pooling Arrangements].</p> <p>Each resolution names a specific related party, specifies the nature of each transaction type, provides individual monetary caps per transaction type, discloses the transaction tenure, and has received prior Audit Committee. The INR amounts approved under each resolution represent maximum aggregate ceilings over the full transaction tenure – not amounts committed to be deployed in any year. [For O&M, support fees, PPA,] the recurring items, values have been considered on an annualized basis. Actual transaction and its volumes are determined by project timelines, customer equity infusion schedules, and third-party debt availability.</p>
5.	<p>Value of the proposed transaction during a financial year. If the proposed transaction will be executed over more than one financial year, provide estimated break-up financial year wise.</p>	<p>Refer to Annexure L1/L2 [L1 for other material RPTs and L2 for Cash Pooling Arrangements] for details in relation to value and tenures of each Proposed RPTs.</p> <p>A year wise split cannot be provided even when the transactions are executed in more than one financial year, due to the following reasons:</p> <p>1. EPC and Common Infrastructure Services: Given the nature of the business including construction timelines, milestone-based billing, and procurement schedules are dynamic and cannot be reliably apportioned to a specific financial year at the stage of approval. However, the overall cost with the maximum cap will not change.</p> <p>2. ICLs/Perpetual debt: A year-wise commitment for ICL drawdowns and repayments cannot be provided because repayment is subject to the availability of funds at the SPV level, which in turn depends on PPA cashflow generation, project commissioning timelines, and debt service obligations, none of which can be precisely pre-determined at the approval stage. However, the overall commitment with the maximum cap will not change.</p> <p>3. Corporate/ Bank Guarantees (CGs/ BGs) The period of continuity of a corporate guarantee cannot be determined at the stage of approval. Whilst CGs are issued in favour of project lenders at the time of loan disbursement, upon any refinancing of the underlying loan, the existing CG may fall away entirely or a fresh CG may need to be issued in favour of the incoming lender, depending on the refinancing terms. This inherent uncertainty makes a year-wise split impractical.</p> <p>4. Support Fees: Support fees represent the actual SG&A costs of the Company allocated proportionately to each subsidiary on the basis of its contribution to consolidated revenues. Since future revenues of each SPV cannot be precisely forecast year-on-year over the tenure of the contract, the year-wise allocation of support fees</p>

S. No.	Particulars of the Information	Information provided by the management
		<p>similarly cannot be committed to at the approval stage.</p> <p>5. Sale of Products: A year-wise break-up of the transaction value cannot be reasonably estimated as the actual sale of products during the tenure of the arrangement will vary based on regulatory approvals and progress of the project. Therefore, the Company seeks approval for an aggregate maximum transaction limit, which provides the flexibility required for efficient execution of renewable energy projects development while ensuring continuity of business</p> <p>6. iREC: Transfer/sale of i-RECs are linked to the underlying renewable power generation and may accrue and be monetized over the project tenure based on actual generation, issuance and market conditions. Hence year-wise allocation cannot be committed</p> <p>7. Cash Pooling Transactions: A financial year-wise break-up cannot be reliably provided as the Cash Pooling Arrangement functions as a contingent liquidity management and debt servicing mechanism amongst participating entities. The actual utilization and inter-se obligations depend on factors such as cash flow availability, debt servicing requirements, lender directions, refinancing events and operational performance of individual projects, all of which are uncertain and cannot be accurately forecast at the time of seeking shareholder approval. Accordingly, only the aggregate maximum exposure under the arrangement can be reasonably disclosed.</p>
6.	Justification as to why the RPTs proposed to be entered into are in the interest of the listed entity	<p>The Proposed RPTs are in the interest of the Company because they are the operational backbone of the Company's mandated business structure under Indian electricity law and, from the Company's business perspective, are in the nature of ordinary course. The Company develops renewable energy projects under the group captive framework, which requires each captive project to be housed in a separate SPV with the prescribed ownership structure. Consequently, the establishment of project-specific SPVs and the transactions entered into with such SPVs are a legal and commercial necessity for implementation of the Company's business model and are not discretionary arrangements. The Company is one of India's largest provider of renewable energy solutions to the C&I sector. It develops projects under the group captive framework which legally requires a separate SPV for each customer project, and accordingly, the structure and quantum of the Proposed RPTs flows directly from this business model. The Proposed RPTs facilitate the development, financing, construction, operation and maintenance of renewable energy projects and enable the Company to execute its long-term</p>

Note (a)

S. no.	Nature of Transactions	Tenure	Justification
1	Engineering, Procurement, and Construction (EPC)	3 years from the earlier of the date of the approval or the signing of the underlying PPA	-
2	Operations & Maintenance Services (O&M)	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Operation and Maintenance agreements are structured for the entire project life cycle and the life of the plant to ensure consistent plant performance, efficiency, and compliance with PPA obligations. Frequent renegotiation would disrupt operations and increase costs.
3	Inter Corporate Loan (ICL)/ Perpetual Debt	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Inter-corporate deposits or long-term loans are aligned with project financing tenure, ensuring stable funding and repayment structures matching cash flow generation over the asset life.
4	Support Fees	25 years from the earlier of the date of the approval or the signing of the underlying PPA	These relate to centralized services (management, technical, administrative), which are continuously required throughout the operational life of the projects, ensuring economies of scale and operational consistency.
5	Corporate/ Bank Guarantee (CG/ BG) [Guarantee] and charges thereon	-	Guarantees and recovery of its charges are aligned with project financing tenure.
6	I-Renewable Energy Certificates (iREC)	25 years from the earlier of the date of the approval or the signing of the underlying PPA	International Renewable Energy Certificates are generated over the operational life of projects, necessitating long-term arrangements to manage certification, trading, and compliance.
7	Common Infrastructure Services (C&I)	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Common Infrastructure agreements are structured for the entire project life cycle and the life of the plant to ensure consistent evacuation of the power from the project.

S. no.	Nature of Transactions	Tenure	Justification
8	Cash Pooling Arrangement	25 years from the earlier of the date of the approval or the signing of the underlying PPA	Cash Pooling Arrangements are aligned with the financial structuring of projects, enabling efficient liquidity management over the lifecycle of the assets.
