About the Report

We are happy to present the 27th Annual Report of LIL for FY 2025–26. This report presents the Company's financial and non-financial performance for the year ended March 31, 2026. It outlines our business, operations, strategy, governance, and the progress made across our key areas of work. Unless stated otherwise, the information in this report relates to the standalone operations of the Company.

The report includes the Statutory Reports and Audited Financial Statements prepared in accordance with the requirements of the Companies Act, 2013, the applicable SEBI Regulations, and other statutory requirements. The Business Responsibility and Sustainability Report (BRSR) has also been prepared in line with the framework prescribed by SEBI.

Board Responsibility Statement

Information presented is accurate, balanced, and complete to the best of its knowledge. The report has been prepared with inputs from the Company's management and functional teams to provide shareholders and other stakeholders with a clear overview of Likhitha Infrastructure Limited's performance during the year.

Forward-looking Statement

This Annual Report contains forward-looking statements that reflect the Company's current expectations regarding future events, business performance, growth prospects, and industry developments. These statements are based on assumptions, estimates, and information available at the time of publication.

Actual results may differ materially due to changes in economic conditions, government policies, regulatory developments, project execution, market demand, input costs, competition, or other factors beyond the Company's control. Readers are advised not to place undue reliance on these forward-looking statements. Likhitha Infrastructure Limited undertakes no obligation to publicly update or revise any forward-looking statements, except as required under applicable laws and regulations.

Driven by Precision Built for Progress.

We strive to deliver precision as we hit every milestone consistently. Our guiding principles have continued to shape the Company's journey for more than two and a half decades.

In FY 2025-26, we strengthened our presence in India's energy infrastructure sector and expanded our capabilities to capture new opportunities. Our diverse portfolio spans cross-country pipelines and city gas distribution networks. Leveraging years of technical expertise and our skilled workforce, we have consistently

demonstrated our ability to execute complex projects in challenging terrain and demanding operational environments.

As energy networks expand across India and beyond, our focus remains on building reliable infrastructure that serves people well and creates lasting value for all stakeholders. We continue to move forward with a clear purpose, delivering quality engineering, strengthening our capabilities, and contributing to the development of resilient energy infrastructure.

Pipelines of Progress. Pathways to the World.

Company Overview

Likhitha Infrastructure Limited is an Oil and Gas Infrastructure Company with 28 years of experience in pipeline construction and associated facilities. The Company undertakes cross-country pipeline projects, city gas distribution networks, storage terminals, and operations & maintenance services for leading energy companies in India. Over the years, we have built up the capability to take on tough engineering requirements and work across diverse and challenging terrains. Whether the project is massive or highly complex, we have the experience to get the job done, keeping our people secure and making sure everything runs smoothly from start to finish.

Today, LIL has completed more than 6,500 km of pipelines and operates across 20 states, 2 Union Territories, and international markets. Supported by experienced teams, specialised equipment, and an integrated approach to project execution, your Company continues to contribute to the development of energy infrastructure in India and overseas.

Expanding Presence

The energy market is continually evolving, and our work ensures we imbibe the latest technologies and practices. While India remains LIL's primary market, LIL has steadily expanded its presence beyond national boundaries through operations in Nepal and registered offices in Saudi Arabia and the UAE. These markets offer opportunities to build on the Company's experience in pipeline construction and associated infrastructure while supporting the growing demand for energy projects across the region.

A Legacy and a Launchpad

From LIL's beginnings in 1998, LIL has steadily expanded its capabilities to meet the evolving needs of the energy sector. Every completed project has added to LIL's technical knowledge, execution experience, and understanding of how to operate across diverse geographies. As your Company looks ahead, it remains focused on strengthening these foundations while pursuing opportunities in new markets, services, and technologies that support the future of energy infrastructure.

Vision

To provide services with the highest levels of workmanship and exemplary speed by continuously enhancing organizational skills through innovation and teamwork. Highest levels of professionalism, integrity, honesty, and fairness in our relationship with our stakeholders and employees. Remarkable planning & optimization of resources in the pursuit of excellence.

Mission

To provide the best services in the field of Oil and Gas pipeline infrastructure and thereby contribute to India's endeavor to emerge self-reliant and leader in green fuel.

Our Objective

To achieve total customer satisfaction by adhering to international quality, safety standards and specifications in the pipeline laying industry with a positive attitude and approach by adopting environmentally friendly and latest technologies.

What We Do. How We Deliver.

Likhitha Infrastructure Limited provides engineering, construction, and maintenance services for the Oil and Gas industry. Its capabilities span the complete project lifecycle, from pipeline construction to associated facilities. This integrated approach enables Likhitha Infrastructure to deliver projects in a manner that maintains consistency & quality.

Crossing Distances

Cross-Country Pipelines

LIL undertakes the construction of cross-country pipelines for crude oil, natural gas, LPG, and petroleum products. The scope includes pipeline laying, mechanical works, civil construction, electrical and instrumentation systems, testing, commissioning, and more.

Bringing Energy Closer

City Gas Distribution

Our City Gas Distribution (CGD) projects connect domestic, commercial, and industrial consumers to reliable gas networks. Services include laying steel and MDPE pipelines, developing distribution infrastructure, providing last-mile connectivity, and constructing CNG stations. These projects support the expansion of cleaner energy access across urban and semi-urban regions.

Keeping Networks Running

Operations & Maintenance

LIL provides operations and maintenance services to help customers maintain pipeline assets safely and reliably. It includes manpower support, preventive maintenance, emergency response, repairs, and routine operational activities. This enables uninterrupted performance throughout the asset lifecycle.

Beyond Pipelines

Storage Solutions & Terminals

The Company also engineers & constructs storage terminals and associated facilities. This includes storage tanks, loading facilities, pump houses, mechanical piping, civil works, electrical systems, instrumentation, and fire & gas detection systems. These projects complement LIL pipeline expertise and strengthen its position as an integrated infrastructure partner.

What Defines Likhitha

LIL brings together a comprehensive scope of solutions to ensure energy access. This encompasses engineering, procurement, construction, commissioning, and maintenance under a single execution framework. Our experienced team equipped with the latest tools and systems work across geographies. The Company delivers infrastructure solutions that meet the operational requirements of India's energy sector as well as emerging international markets.

Our Global Footprints

Chairman's Message

Mr. Sivasankara Parameswara Kurup Pillai

Dear Shareholders,

It gives me pleasure to present the 27th Annual Report of Likhitha Infrastructure Limited for the financial year ended March 31, 2026.

During the year, the Company continued to execute projects across India's Oil and Gas infrastructure sector while strengthening its operational capabilities and maintaining its focus on quality, safety, and timely delivery. Revenue from operations stood at ₹456.73 crore, while profit after tax for the year was ₹40.02 crore. The Company also maintained a strong financial position, with shareholders' equity increasing to ₹413.55 crore as on March 31, 2026.

In this backdrop, your Company remained focused on disciplined execution, financial prudence, and maintaining the superior standards of quality that have shaped LIL over the years. A healthy financial position allows the company to be well-positioned for future growth opportunities.

India's energy infrastructure presents significant opportunities. The Government's emphasis on expanding natural gas infrastructure, improving city gas distribution networks, and improving pipeline connectivity is expected to support sustained investment in the sector. India's natural gas demand is expected to grow significantly by 2030, supported by expanding industrial activity, increasing adoption of cleaner fuels and continued

investment in gas infrastructure.

Over the years, LIL has built its reputation through consistent execution and the ability to undertake technically demanding projects across diverse geographies. Today, with more than 6,500 kilometres of completed pipelines, operations across 20 states and 2 Union Territories, and an expanding international presence, the Company is well placed to participate in the next phase of infrastructure development. The addition of storage terminals and operations & maintenance services further strengthens our capabilities.

As we grow, our priorities remain unchanged. Safety, engineering quality, timely execution, and responsible governance will continue to guide every project we undertake. Equally important is the continued investment in our people, whose dedication and expertise remain central to the Company's success.

On behalf of the Board, I would like to thank our customers, employees, business partners, shareholders, bankers, and government authorities for their continued trust and support. We look forward to building on this foundation in the years ahead.

Mr. Srinivasa Rao Gaddipati

Managing Director's Message

Dear Shareholders,

It is my privilege to present the Annual Report of Likhitha Infrastructure Limited for the financial year 2025–26. The year unfolded against a rapidly evolving energy landscape, characterised by rising energy requirements, significant infrastructure investments and a growing emphasis on energy security and the transition towards cleaner sources of energy.

India's Oil and Gas sector continues to remain an important part of the country's infrastructure development. The expansion of the National Gas Grid, growth of City Gas Distribution networks, increasing LNG adoption and investments in pipeline connectivity are creating opportunities for companies with experience in the construction, development and maintenance of energy infrastructure. As India's energy requirements

continue to grow, we believe that the need for reliable and well-developed pipeline infrastructure will remain significant in the years ahead.

Your Company has built its capabilities by working closely with customers across its areas of operation and by developing experience in cross-country pipelines, City Gas Distribution, and related infrastructure services. The confidence of our customers and the relationships that your Company has developed over the years remain among our important strengths. Our order book of over ₹1,454 crore provides a platform for future execution and reflects the trust placed in your Company by its customers. Going forward, we will continue to focus on understanding our customers' requirements, delivering projects with consistency and building long-term relationships

based on reliability, quality and timely execution. Looking ahead, we see continued scope for growth in India's energy infrastructure sector. The increasing penetration of natural gas, expansion of City Gas Distribution networks, development of pipeline connectivity and the broader requirement for energy infrastructure are expected to create opportunities across our areas of expertise. Your Company will continue to leverage its experience, technical capabilities and customer relationships to participate in this growth and strengthen its position in the sector.

Your Company is also gradually expanding its operations beyond India. Our presence in Abu Dhabi, UAE and Saudi Arabia provides a foundation for developing our international business in a measured manner. We are taking the experience and capabilities developed through our Indian operations into these markets and evaluating opportunities where our expertise in pipeline infrastructure and project execution can be effectively utilised. Subsequent to the close of the financial year, the award of ₹510 crore contract from CPECC-Abu Dhabi for Pipeline Package-1 of the ASAB project marked an important milestone for your Company. This project strengthens our presence in Abu Dhabi and provides an opportunity to further establish our execution capabilities in an international market.

Our approach to international growth will remain consistent with the principles that have guided your Company in India. We will focus on projects where we have the necessary capabilities, where the risks are understood and manageable, and where successful execution can create sustainable value. Over time, we aim to build stronger customer relationships, develop local capabilities and establish a dependable track record in the markets in which we operate.

For your Company, growth must always be accompanied by responsibility. Health, Safety and Environment remains integral to the way we conduct our business. We continue to believe that safety is not simply a compliance requirement but

a fundamental value that must be embedded in every project, every process and every decision. As our operations and geographical presence expand, maintaining consistent standards of safety, quality and execution discipline will remain a key priority.

We also recognise that the infrastructure business requires financial discipline and careful management of resources. Effective management of working capital, project timelines, manpower and execution risks will remain important as your Company grows. We will continue to strengthen our project monitoring and execution processes and focus on improving operational efficiency.

As I look ahead, I see meaningful opportunities for your Company, both in India and in international markets. India's continuing energy requirements provide a strong foundation for our core business, while our developing presence in Abu Dhabi and Saudi Arabia provides an opportunity to gradually broaden our geographical reach. We will continue to build on our relationships with customers, strengthen our capabilities and pursue opportunities that are aligned with our areas of expertise.

Our ambition is not simply to become larger, but to become stronger, more capable and more dependable. We want our customers to see your Company as a partner they can rely on, our employees to see it as an organisation where they can grow and contribute, and our shareholders to see it as a business capable of creating sustainable long-term value.

I would like to express my sincere appreciation to our customers and business partners for their continued confidence in your Company, to our employees for their commitment and dedication, and to our shareholders for their continued trust and support.

Major Project Achievements - Cross Country Pipeline Projects

Krishnapatnam–Hyderabad Petroleum Products Pipeline Project (KHPL) – Andhra Pradesh

- » Successfully completed major HDD crossings of approximately 2,100 meters (Penna River) and 1,600 meters (Manneru River), demonstrating expertise in executing technically challenging underground pipeline crossings using Horizontal Directional Drilling (HDD).
- » Achieved key construction milestones and commissioned the pipeline within the stipulated timeline.
- » Achieved more than 2 million safe man-hours without any lost-time incidents, reflecting robust HSE practices and a strong safety culture.

Nagpur–Chhindwara–Jabalpur Natural Gas Pipeline Project – Madhya Pradesh

- » Successfully executed the project through densely forested regions of Madhya Pradesh.
- » Adopted planned construction methodologies and stringent environmental safeguards to minimize ecological impact and preserve flora, fauna and wildlife habitats.

Mumbai–Nagpur–Jharsuguda Natural Gas Pipeline Project – Chhattisgarh

- » 57 km pipeline section was hydro-tested in a single stretch, marking a significant achievement in pipeline integrity validation.
- » Demonstrated technical expertise, planning capability and execution excellence in long-distance pipeline construction.
- » Achieved 1 million safe man-hours, supported by robust HSE practices and proactive risk management.

Srikakulam–Angul Natural Gas Pipeline Project – Odisha

- » Executed across challenging hilly and forested terrain, including a 10–12 km undulating section with elevation variations of 120–150 meters.
- » Successfully delivered the project through innovative engineering solutions and meticulous execution planning despite significant topographical challenges.

Haldia–Panagarh LPG Pipeline Project – West Bengal

- » Successfully completed lowering of approximately 100 km of pipeline within a year, despite predominantly waterlogged conditions.
- » Overcame limited ROW access through innovative transportation and logistics solutions for movement of line pipes and construction materials.
- » Demonstrated the Company's ability to overcome complex site conditions and deliver critical infrastructure projects with operational excellence.

Paradip-Numaligarh Crude Oil Pipeline (PNCPL) – West Bengal

- » Successfully executed numerous HDD trenchless crossings, enabling safe and efficient pipeline installation across critical obstacles while minimizing surface disruption.
- » Overcame challenging geographical, logistical and technical conditions, demonstrating strong planning and execution capabilities.
- » Achieved 1.5 million safe man-hours without any lost-time incidents, reflecting the Company's strong safety culture and commitment to quality and operational excellence.

North East Gas Grid Pipeline Project (NEGG) – Tripura

- » Executed the pipeline across challenging mountainous terrain, including rugged landscapes, steep slopes and highly undulating stretches.
- » Effectively managed material transportation, equipment deployment and construction activities in remote hill sections through meticulous execution strategies and strong field coordination.

Krishnagiri-Coimbatore Natural Gas Pipeline Project (KCPL) – Tamil Nadu

- » Installed a heavy-wall, large-diameter pipeline along National Highway service road shoulders, overcoming constrained ROW and continuous traffic through meticulous planning and safety controls.
- » Completed a major portion of the pipeline through innovative construction, effective traffic management and disciplined execution, maintaining safety and quality.

Kerala City Gas Distribution Project – IOAGPL

- » The Kerala City Gas Distribution Project for Indian Oil–Adani Gas Pvt. Ltd. (IOAGPL) was executed across five geographical areas – Kochi, Kannur, Malappuram, Thrissur, and Kozhikode. The Company laid approximately 540 km of gas pipeline network across the state, followed by plumbing work completed for 11,780 connections. Of these, 7,494 connections were successfully converted and commissioned for live natural gas supply, reflecting the Company's capability to execute city gas distribution infrastructure across multiple regions for IOAGPL.

Our Shareholders

LIL's progress is closely linked to the trust and support of its stakeholders. Every relationship, whether with customers, employees, shareholders, business partners, regulators, or communities, contributes to the Company's long-term growth.

The Company believes that regular engagement, transparent communication, and responsible business practices help build lasting partnerships. These interactions provide valuable insights that support informed decisions and business growth.

Our Competitive Strengths

Engineering Across Complex Terrains

From dense natural habitats & rocky terrains to cross-border corridors and densely populated regions, LIL has developed the capability to execute projects across diverse geographical conditions while maintaining quality and safety standards.

Integrated Project Execution

The Company undertakes the complete project lifecycle, from pipeline laying and associated civil, mechanical, electrical and instrumentation works to testing, commissioning and maintenance. This integrated approach enables better coordination and execution.

Long-standing Customer Relationships

LIL has built enduring relationships with leading Oil & Gas and city gas distribution companies through consistent delivery, technical competence and dependable execution.

Execution at Scale

The ability to execute multiple projects simultaneously, supported by an experienced workforce, specialised equipment and established project management systems, enables the Company to deliver projects across geographies.

Quality Without Compromise

Standardised engineering practices, an Integrated Management System and a strong safety culture help maintain consistency across every project, irrespective of size or location. This disciplined approach ensures adherence to stringent quality standards while fostering operational excellence and continuous improvement across all stages of project execution.

Our Capital

Building Value That Endures

Every project delivered by LIL contributes to something larger than physical infrastructure. It strengthens engineering capabilities, deepens customer relationships, develops skilled teams, and reinforces the systems that support consistent project execution.

These strengths come together through six interconnected capitals that shape the way the Company creates, preserves, and delivers value. Together, they provide the foundation for sustainable growth while supporting the evolving needs of customers, communities, employees, and shareholders.

Financial Capital

Strong financial discipline enables the Company to invest in growth, maintain operational resilience, and create long-term shareholder value.

Manufactured Capital

A fleet of specialised equipment, project infrastructure, and engineering resources supports efficient execution across diverse project environments.

Human Capital

Experienced professionals, technical expertise, and a strong safety culture remain central to the Company's execution capabilities.

Intellectual Capital

Years of project experience, engineering knowledge, operational systems, and quality processes strengthen execution and support continuous improvement.

Social & Relationship Capital

Long-standing relationships with customers, suppliers, employees, regulators, and local communities contribute to responsible and sustainable business growth.

Natural Capital

The Company seeks to minimise its environmental footprint through responsible resource use, environmental management, and compliance with applicable standards across its operations.

ESG Strategy

Environmental Responsibility

Environmental responsibility is an integral part of the way LIL plans and executes its projects. The Company follows established practices to minimise the environmental impact of construction activities through efficient resource utilisation, responsible waste management and compliance with applicable environmental requirements. These efforts are supported by an Environmental Management System certified to ISO 14001, which promotes consistency in environmental practices across project sites.

Construction activities are undertaken with a focus on conserving natural resources, minimising material wastage and managing waste in an environmentally responsible manner. The Company promotes the reuse and recycling of materials wherever feasible and ensures the safe handling, segregation and disposal of construction waste. It also works closely with employees, contractors and business partners to promote sound environmental practices throughout project execution.

Regular environmental awareness initiatives and HSE training further strengthen the Company's commitment to environmental stewardship and reinforce responsible practices across the organisation.

Social

Safety First

Safety is embedded in every stage of project execution. LIL works towards Zero Accidents and Zero Lost Time Injuries (LTIs) through structured HSE practices, hazard identification, and regular workplace inspections. Risks are managed to ALARP (As Low as Reasonably Practicable) levels, reinforcing a proactive safety culture.

Senior

Leadership

Our senior management team has provided continuous support through their valuable expertise and skills. Our senior leadership plays a key role in cultivating a workplace culture built on trust, responsibility, and a commitment to continuous growth.

Equal Opportunities

At Likhitha Infrastructure Limited diversity, equity, and inclusion are integral parts of our company. We are dedicated to building a workplace where every individual feels respected and valued, and all employees have equitable access to opportunities. We have a team with diverse experience, and this diverse talent pool fosters a dynamic workplace, driving innovation and enabling us to uphold the highest standards of excellence.

Grievance Redressal Mechanism

We aim to create healthy employee relationships by ensuring timely and fair resolution of employee grievances related to working conditions, benefits, ethics, code of conduct, or sexual harassment. Accessible through multiple channels, the process is structured to record, track, and resolve issues with speed and clarity. Every complaint may be directly lodged to HR, ensuring real-time visibility and systematic follow-up. Any complaint related to sexual harassment can be directly reported to the Internal Complaints Committee.

Management Discussion Analysis

Indian Economy

India remained one of the world's fastest-growing major economies during FY 2025-26, supported by strong domestic consumption, sustained government capital expenditure and steady investment activity. According to the Provisional Estimates released by the Ministry of Statistics and Programme Implementation (MoSPI), the economy recorded real GDP growth of 7.7%, while nominal GDP stood at ₹346.36 lakh crore.

The Government continued to prioritise infrastructure development, with significant investments across roads, railways, energy, logistics and urban infrastructure. This sustained capital expenditure has strengthened project activity across the engineering and construction sector and encouraged greater private-sector participation in infrastructure development.

Although global markets continued to face geopolitical tensions, trade uncertainties and commodity price volatility, India's economic fundamentals remained resilient. Continued investments in infrastructure, manufacturing and industrial capacity are expected to support economic growth and create long-term opportunities for sectors such as oil and gas infrastructure, where demand is closely linked to capital investment and industrial expansion.

Government initiatives like One Nation, One Grid, One Tariff are key policy initiatives supporting the growth of India's natural gas ecosystem. The "One Nation, One Grid, One Tariff" framework was introduced by the Petroleum and Natural Gas Regulatory Board (PNGRB). The unified tariff mechanism aims to simplify gas transportation charges by introducing a common tariff structure across the national gas pipeline network. By reducing regional tariff disparities, the reform is expected to improve the affordability and accessibility of natural gas. Especially in emerging markets, while encouraging better utilisation of the national gas grid. The initiative is also expected to support the expansion of City Gas Distribution (CGD) networks and strengthen the development of an integrated gas transportation infrastructure across the country.

Outlook

India's continued investment in energy infrastructure is expected to support steady demand for oil and gas pipeline projects over the coming years. Expansion of natural gas transmission networks, refinery and petrochemical capacity, and city gas infrastructure will continue to generate opportunities for engineering and construction companies with proven execution capabilities. At the same time, greater adoption of digital technologies and advanced construction practices is improving project efficiency, safety and asset reliability across the sector.

The industry, however, remains exposed to challenges arising from commodity price volatility, supply chain disruptions, geopolitical developments and evolving regulatory requirements. Companies with strong project management practices, financial discipline and execution capabilities are expected to be better positioned to navigate these uncertainties.

With its established execution track record, experienced workforce and long-standing relationships with leading energy companies, Likhitha Infrastructure Limited is well placed to participate in India's expanding oil and gas infrastructure programme while continuing to focus on quality, safety and timely project delivery.

Middle East

The Middle East continues to invest heavily in oil and gas infrastructure as countries strengthen energy security, expand natural gas production and diversify their economies. In Saudi Arabia, the ongoing implementation of Vision 2030 is driving investments in gas production, transmission infrastructure and industrial development. Key projects, including the expansion of the Jafurah Gas Field and the Master Gas System, are expected to create sustained demand for pipeline engineering and construction services.

In the United Arab Emirates, investments by ADNOC in gas processing, transmission infrastructure and industrial energy projects continue to support the country's long-term energy strategy. Alongside conventional energy investments, the UAE is also advancing hydrogen and carbon management initiatives, creating opportunities for specialised infrastructure contractors.

With an established presence in both Saudi Arabia and the UAE, Likhitha Infrastructure Limited is well positioned to participate in the region's growing pipeline infrastructure market while leveraging its expertise in executing complex oil and gas projects across diverse operating environments.

Industry Overview

India's oil and gas infrastructure sector remained on a steady growth trajectory during FY 2025-26, supported by rising energy demand, expanding industrial activity and sustained investments in transmission and distribution infrastructure. As the country strengthens its energy network, the development of natural gas pipelines continues to be a key focus area, improving connectivity across industrial clusters, commercial centres and urban markets.

India currently has over 25,000 km of operational natural gas pipelines, with more than 10,000 km under various stages of construction. The continued expansion of the pipeline network, along with successive rounds of City

Gas Distribution (CGD) licensing, is improving access to natural gas for households, industries and the transport sector, while generating sustained demand for pipeline construction and associated infrastructure. Natural gas currently contributes around 6–7% of India's primary energy mix. To support cleaner fuel adoption and strengthen energy security, the Government aims to increase this share to 15% by 2030 through continued investments in transmission pipelines, LNG infrastructure and city gas distribution networks.

Globally, the energy sector continues to balance conventional energy requirements with the transition towards lower-carbon fuels. While renewable energy capacity is expanding, oil and natural gas remain integral to meeting global energy demand. As a result, investments in pipelines, LNG facilities and related energy infrastructure continue to create long-term opportunities for engineering, procurement and construction (EPC) companies with specialised execution capabilities.

With its proven expertise in executing cross-country pipeline projects and associated facilities, Likhitha Infrastructure Limited remains well positioned to participate in India's expanding energy infrastructure programme and capitalise on opportunities across the oil and gas value chain.

Government Initiatives

The Government of India continues to strengthen the country's energy infrastructure through policy reforms and strategic investments aimed at improving energy accessibility, enhancing infrastructure efficiency and supporting long-term economic growth. A key focus area remains the expansion of the natural gas ecosystem through investments in transmission infrastructure, distribution networks and associated facilities.

The Petroleum and Natural Gas Regulatory Board (PNGRB) continues to play a pivotal role in developing an integrated gas transportation network through regulatory reforms and infrastructure planning. The implementation of the Unified Tariff mechanism has streamlined gas transportation charges across pipeline networks, improving affordability and encouraging greater natural gas adoption across emerging markets and industrial clusters.

To accelerate infrastructure development, the Government permits 100% Foreign Direct Investment (FDI) under the automatic route in most segments of the oil and gas sector, encouraging global participation in pipeline infrastructure, LNG facilities and related energy projects. This policy has strengthened

investment inflows while facilitating technology transfer and international collaboration.

The Government is also advancing its clean energy agenda through initiatives such as the National Green Hydrogen Mission, which aims to position India as a global hub for green hydrogen production while supporting the development of future-ready energy infrastructure. Alongside continued investments in conventional oil and gas assets, these initiatives are expected to create opportunities for specialised engineering and pipeline construction companies.

Collectively, these policy measures reinforce the Government's long-term commitment to expanding India's energy infrastructure and creating a favourable investment environment for the oil and gas pipeline sector.

Key Growth Drivers

Rising Energy Demand

Growing industrialisation, urbanisation and increasing energy consumption continue to drive demand for pipeline infrastructure across India. Expanding manufacturing hubs, commercial centres and urban settlements require reliable energy transportation networks, while sectors such as steel, fertilisers, petrochemicals, power generation and City Gas Distribution continue to strengthen demand for pipeline connectivity.

Capacity Expansion

Ongoing investments in refineries, petrochemical complexes, LNG import terminals and downstream energy infrastructure are generating sustained opportunities for engineering, procurement and construction (EPC) companies. As energy companies expand and modernise their assets, the demand for specialised pipeline construction and associated infrastructure continues to grow.

Technology Adoption

Advancements in construction technologies are improving project execution across the sector. The adoption of automated welding systems, digital project management platforms, integrity monitoring solutions and predictive maintenance technologies is enhancing operational efficiency, project quality and asset reliability.

Sustainability & Operational Excellence

Increasing focus on environmental stewardship and workplace safety is influencing the design and execution of modern pipeline infrastructure. Companies are adopting higher safety standards, improved construction practices and environmentally responsible processes to meet evolving regulatory requirements

while supporting the transition towards cleaner energy systems.

Opportunities Ahead

India's continued investments in energy infrastructure present significant opportunities for companies operating in the oil and gas pipeline sector. The steady expansion of transmission networks, refinery capacity, LNG infrastructure and industrial energy projects is expected to generate a healthy pipeline of engineering and construction opportunities over the medium to long term.

Likhitha Infrastructure Limited is well positioned to capitalise on these opportunities through its proven expertise in executing cross-country pipeline projects and associated facilities across diverse geographical and operating conditions. The Company's established relationships with leading public sector and private sector clients, combined with its strong execution capabilities and focus on quality and safety, provide a competitive advantage in securing and delivering complex infrastructure projects.

In addition to strengthening its domestic presence, the Company continues to evaluate opportunities in select international markets, leveraging its technical capabilities and execution experience to expand its geographical footprint. With a healthy project pipeline, disciplined execution approach and continued emphasis on operational excellence, Likhitha remains well positioned to create sustainable value while supporting the development of critical energy infrastructure.

Challenges Ahead

Regulatory & Project Readiness

Project execution is dependent on external factors such as land acquisition, statutory approvals and right-of-way clearances, which are managed by project owners and regulatory authorities. Delays in these activities may impact project mobilisation and execution schedules. Where contractually applicable, such delays are addressed through client-approved compensation mechanisms.

Raw Material Price Volatility

Fluctuations in the prices of key inputs, including steel and polyethylene pipes, can influence project costs and margins. The Company mitigates these risks through prudent procurement practices, contractual safeguards and efficient project planning.

Execution & Supply Chain Management

Executing projects across multiple locations requires

seamless coordination of manpower, equipment, logistics and vendor networks. Maintaining project schedules while adhering to stringent quality, safety and environmental standards remains a key operational priority.

International Operations

As the Company expands its presence in international markets, it continues to strengthen its understanding of local regulatory frameworks, vendor ecosystems and compliance requirements while managing risks arising from foreign exchange movements and geopolitical developments.

Operational Resilience

The Company remains focused on disciplined execution, robust project management and strong customer relationships to effectively navigate industry challenges while delivering projects safely, efficiently and on schedule.

Company Overview

Likhitha Infrastructure Limited is an EPC company specialising in the construction of Pan-India pipelines and associated facilities for crude oil, natural gas, LPG, and petroleum products. The Company also undertakes City Gas Distribution (CGD) projects, including steel and MDPE pipeline networks, delivering complete pipeline construction solutions for leading public and private-sector clients.

With operations spanning more than 20 states and 2 Union Territories, LIL has established a strong track record of execution across diverse geographic and operating conditions. The Company has successfully completed over 6,000 kilometres of pipeline infrastructure and continues to execute projects that strengthen India's oil and gas transportation network. Leveraging its engineering expertise and execution capabilities, the Company has also expanded its presence beyond India. Following the successful execution of the India-Nepal cross-border petroleum pipeline, LIL has established operations in the United Arab Emirates and entered the Kingdom of Saudi Arabia to pursue opportunities in the Middle East's growing energy infrastructure sector.

The Company's business is supported by an experienced management team, disciplined execution practices and a strong focus on quality, safety and timely project delivery. These strengths have enabled LIL to build enduring relationships with leading oil and gas companies while maintaining a healthy project pipeline.

As on 31st March 2026, the Company's order book remained robust, providing healthy revenue visibility

and reinforcing its growth prospects. Supported by its execution capabilities and expanding market presence, Likhitha remains well positioned to participate in India's ongoing energy infrastructure development as well as select international opportunities.

OPERATIONAL HIGHLIGHTS

During FY 2025–26, the Company concluded the year with an order book exceeding ₹850 crores, comprising a diversified mix of cross-country pipelines, City Gas Distribution (CGD) networks, and tankage terminal projects, providing healthy revenue visibility. The Company strengthened its international presence through active operations in the UAE and the Kingdom of Saudi Arabia (KSA) via its joint venture, Likhitha HAK Arabia Contracting Company. In recent developments following the close of the financial year, your Company secured its largest international order to date, valued at approximately ₹510 crores (USD 54 million) from China Petroleum Engineering & Construction

Corporation for the Pipeline Package-1 (ASAB). On the domestic front, the Company successfully commissioned the Krishnapatnam–Hyderabad Petroleum Products Pipeline (KHPL), completed the Nagpur–Chhindwara–Jabalpur (NCJPL) pipeline across environmentally sensitive terrain, and achieved successful hydro-testing of a long-distance stretch of the Mumbai–Nagpur–Jharsuguda (MNJPL) pipeline, demonstrating its engineering excellence and project execution capabilities. Going forward, the Company will continue to focus on strengthening its business through efficient project execution, diversification of its order book, and prudent capital allocation to support sustainable growth. The Company remains committed to a robust risk management framework encompassing project execution, financial discipline, operational controls, and regulatory compliance, under the oversight of the Board of Directors and the Audit Committee.

Risk Management

Effective risk management is integral to Likhitha Infrastructure Limited's ability to execute projects efficiently while delivering sustainable value to its stakeholders. Given the nature of the oil and gas pipeline infrastructure sector, the Company operates in an environment influenced by operational, financial, regulatory and external risks. To address these challenges, Likhitha has established a structured Enterprise Risk Management (ERM) framework that enables the timely identification, assessment and mitigation of risks across its business operations.

The Company's risk management framework is embedded within its governance processes and is periodically reviewed by the Board of Directors, the Risk Management Committee and the Audit Committee. Through continuous monitoring, robust internal controls and proactive mitigation strategies, the Company seeks to strengthen operational resilience, safeguard stakeholder interests and support sustainable long-term growth.

Risk	Description	Mitigation
Occupational Health & Safety	Pipeline construction involves high-risk activities across varied terrains and operating environments. Any lapse in health, safety or environmental practices could result in injuries, operational disruptions, regulatory action or reputational impact.	Safety remains a core operational priority. The Company follows all HSE protocols supported by regular safety training, toolbox talks, risk assessments, emergency preparedness programmes and periodic audits. Continuous monitoring, preventive equipment maintenance, and the use of appropriate personal protective equipment (PPE) help maintain a safe work environment with a focus on achieving zero lost-time incidents.
Human Resource Risk	The Company's growth depends on attracting, retaining and developing skilled professionals across project locations. Talent shortages, employee attrition or non-compliance with workplace regulations may affect operational efficiency and project execution.	The Company promotes a safe, inclusive and performance driven workplace supported by its Code of Conduct, Whistle Blower Policy and Prevention of Sexual Harassment Policy. Regular training, leadership development, performance management and workforce planning strengthen employee capability while enabling resource deployment in line with project requirements.
Competition Risk	The infrastructure sector remains highly competitive, with project awards driven by technical knowhow, financial strength, execution track record and pricing. Increased competition may directly on margins and order inflows.	Likhitha continues to strengthen its competitive position through consistent project execution, strong technical expertise, quality-focused delivery and prudent financial management. Long-standing customer relationships and a proven execution record further enhance its ability to secure new business opportunities.
Regulatory Risk	Infrastructure projects operate in a complex regulatory manner involving multiple statutory approvals, environmental requirements and contractual obligations. Delays or changes in the regulatory framework may affect project timelines and execution.	The Company maintains a structured compliance framework to monitor applicable laws, regulations and contractual requirements. The Company works closely with clients to facilitate timely execution and ensure full compliance with applicable regulations.
Liquidity Risk	Delays in customer collections, changes in working capital requirements or unforeseen market conditions could impact liquidity and cash flows.	The Company maintains a disciplined approach to financial management through regular cash flow monitoring. The company prioritises strong working capital management and banking relationships. Continuous review of receivables and project cash flows supports adequate liquidity for ongoing operations.
Cyber Security & Data Privacy	Increasing digitalisation exposes businesses to cyber threats, unauthorised access, data breaches and operational disruptions, potentially affecting business continuity and stakeholder confidence.	The Company has implemented information security controls covering access management, data backup, network security, periodic vulnerability assessments and employee awareness programmes. Cyber security practices are reviewed regularly to strengthen resilience against emerging threats.

Internal Controls and their Adequacy

Likhitha Infrastructure Limited has established an adequate system of internal controls commensurate with the nature, size and complexity of its operations. These controls are designed to safeguard the Company's assets, ensure the accuracy and reliability of financial reporting, promote operational efficiency and ensure compliance with applicable laws, regulations and internal policies.

The Company has well-defined policies, standard operating procedures and approval mechanisms governing its business processes. These are supported by an independent internal audit function that periodically reviews operational, financial and compliance controls across key business functions. The internal audit findings, together with recommendations for improvement, are placed before the Audit Committee for review and appropriate corrective action.

The Audit Committee, comprising experienced and Independent Directors, regularly reviews the effectiveness of the internal control framework, risk management processes and internal audit observations. Based on these reviews, the Committee provides guidance to the management to further strengthen governance practices and ensure continuous improvement in internal controls.

The management believes that the Company's internal control systems remain effective and adequate to support its business operations while safeguarding stakeholder interests.

Management Outlook

Likhitha Infrastructure Limited remains focused on timely project execution, operational efficiency, and the maintenance of high standards of quality and safety. Supported by a healthy order book and strong customer relationships, the Company will continue to

strengthen its execution capabilities while pursuing opportunities aligned with its core business.

Future Outlook

Continued investments in energy infrastructure, natural gas transmission and City Gas Distribution networks are expected to support long-term demand for pipeline construction services. With its proven execution track record and domain expertise, Likhitha Infrastructure Limited is well positioned to participate in this growth while delivering sustainable value to its stakeholders.

Financial Performance

On a consolidated basis, during FY 2025-26, Likhitha Infrastructure Ltd. recorded a total income of 46,109.33 lakhs. The profit after tax stood at 3,854.91 lakhs, while total equity amounted to 41,155.10 lakhs as of March 31, 2026. The majority of income was generated from cross-country pipeline execution and CGD network implementation.

3. Provide details of the following disclosures related to water:

Parameter	FY 2025-26	FY 2024-25
Water withdrawal by source (in kilolitres)		
(i) Surface water	-	-
(ii) Groundwater	40,350	44,650
(iii) Third party water	-	-
(iv) Seawater / desalinated water	-	-
(v) Others	-	-

Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	40,350	44,650
Total volume of water consumption (in kilolitres)	40,350	44,650
Water intensity per rupee of turnover (Water consumed / turnover)	0.88	0.87

Note: Indicate if any independent assessment/ evaluation/ assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency.

No independent assessment was carried out by any external agency

4. Provide the following details related to water discharged:

Parameter	FY 2025-26	FY 2024-25
Water discharge by destination and level of treatment (in kilolitres)		
(i) To Surface water		
- No treatment	-	-
- With treatment – please specify level of treatment	-	-
(ii) To Groundwater		
- No treatment	-	-
- With treatment – please specify level of treatment	-	-

Standalone Financial Statements

INDEPENDENT AUDITOR'S REPORT

To,
The Members of,
LIKHITHA INFRASTRUCTURE LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Financial Statements of LIKHITHA INFRASTRUCTURE LIMITED ("The Company"), which comprises the balance sheet as at March 31, 2026, the statement of profit and loss (including Other Comprehensive Income), the cash flow Statement and the statement of changes in equity for the year ended on that date and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 ("The Act") in the manner so required and give a true and fair view in conformity with other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone Financial Statements under the provisions of the Act, and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current financial year. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon and we do not provide a separate opinion on these matters. We have determined matters described below to be the key audit matters to be communicated in our report.

Revenue recognition – Accounting for Construction Contracts

Key audit matter description

- There are significant accounting judgements in estimating revenue to be recognized on contracts with customers, including estimation of costs to complete. The Company recognizes revenue on the basis of stage of completion in proportion of the contract costs incurred at balance sheet date, relative to the total estimated costs of the contract at completion. The recognition of revenue is therefore dependent on estimates in relation to total estimated costs of each such contract.
- Significant judgements are involved in determining the expected losses, when such losses become probable based on the expected total contract cost. Cost contingencies are included in these estimates to take into account specific risks of uncertainties or disputed claims against the Company, arising within each contract. These contingencies are reviewed by the Management on a regular basis throughout the life of the contract and adjusted where appropriate. The revenue on contracts may also include variable consideration (variations and claims). Variable consideration is recognized when the recovery of such consideration is highly probable.

Refer to Note No. [2](13) and 36 to the Standalone Financial Statements.

INDEPENDENT AUDITOR'S REPORT (contd.)

Revenue recognition – Accounting for Construction Contracts

Principal Audit Procedures	Our audit procedures relates to the
	1. Identification of distinct performance obligations, 2. Evaluation of the process for estimation of costs to complete, 3. Evaluation of implications of change orders on costs estimates of costs to complete and revenue and 4. Evaluation of any variable consideration included the following, amongst others:
	• We tested the effectiveness of controls relating to the (a) evaluation of performance obligations and identification of those that are distinct; (b) estimation of costs to complete each of the performance obligations including the contingencies in respect thereof, as work progresses and the impact thereon as a consequence of change orders; (c) the impact of change orders on the transaction price of the related contracts; and (d) evaluation of the impact of variable consideration on the transaction price.
	• We selected a sample of contracts with customers and performed the following procedures:
	(a) Obtained and read contract documents for each selection, change orders, and other documents that were part of the agreement.
	(b) Identified significant terms and deliverables in the contract to assess management's conclusions regarding the (i) identification of distinct performance obligations; (ii) changes to costs to complete as work progresses and as a consequence of change orders; (iii) the impact of change orders on the transaction price; and (iv) the evaluation of the adjustment to the transaction price on account of variable consideration.
	(c) Compared costs incurred with Company's estimates of costs incurred to date to identify significant variations and evaluated whether those variations have been considered appropriately in estimating the remaining costs to complete the contract.
	(d) Tested the estimate for consistency with the status of delivery of milestones and customer acceptance to identify possible delays in achieving milestones, which require changes in estimated costs or efforts to complete the remaining performance obligation.
	We read and verified the presentation and disclosure in the standalone financial statements are in accordance with applicable accounting standards.

Information other than the Standalone Financial Statements and Auditor's Report thereon

- The Company's Board of Directors are responsible for the other information. The other information comprises the information included in the annual report, for example, Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the Standalone Financial Statements and our auditor's report thereon. The other information as stated above is expected to be made available to us after the date of this auditor's report.
- Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider

whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

- If based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the Standalone financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Standalone Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under section 133 of the Act.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting

from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation;

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are

INDEPENDENT AUDITOR'S REPORT (contd.)

therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, The Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of accounts.
- d) In our opinion, the aforesaid Standalone Financial Statements comply with the Indian Accounting Standards specified under of Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "**Annexure A**". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the

Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of **LIKHITHA INFRASTRUCTURE LIMITED** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of **LIKHITHA INFRASTRUCTURE LIMITED** (“the Company”) as at March 31, 2026 in conjunction with our audit of the Standalone Ind AS Financial Statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the standalone financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of internal financial Controls over Financial reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purpose in accordance with generally accepted accounting principles. A company’s internal financial controls over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial Statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to

error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting

were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of LIKHITHA INFRASTRUCTURE LIMITED of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of accounts and records examined by us in the normal course of audit, we state that:

- i. In respect of the Company's Property, plant and equipment and intangible assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, plant and equipment and investment properties.
 - (B) The company has maintained proper records of intangible assets showing full particulars of intangible assets.
 - (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of 3 years. In accordance with this Programme, certain property, plant, and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No material discrepancies were noticed on such verification.
 - (c) The title deeds of all the immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favor of the lessee) are held in the name of the company as at the balance sheet date.
 - (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not revalued its property, plant and equipment and intangible assets during the year.
 - (e) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no proceedings initiated or pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 (45 of 1988) and rules made thereunder.
- ii. (a) The inventories were physically verified during the year by the Management at reasonable intervals and no material discrepancies were noticed on such physical verification. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. For stocks held with third parties at the year-end, written confirmations have been obtained and in respect of goods in transit, the goods have been received subsequent to the year-end. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories/alternate procedures performed as applicable, when compared with books of accounts.
 - (b) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has been sanctioned working capital limits in excess of five crore rupees, in aggregate, from banks or financial institutions on the basis of security of current assets. In our opinion, the quarterly returns or statements filed by the Company with such banks or financial institutions are in agreement with the audited books of accounts of the Company of the respective quarters (quarter ended June 30, 2025, September 30, 2025, December 31, 2025 and March 31, 2026) and no material discrepancies have been observed.
- iii. The Company has made investments in and granted loans, unsecured, to companies or any other parties during the year, in respect of which:

- (a) The Company has provided loans during the year and details of which are given below:

(All amounts in Indian Rupees in lakhs)

Particulars	Loans	Guarantees	Security
Aggregate Amount granted/ provided during the year:			
Subsidiaries	138.34	-	-

- ix. According to the information and explanations given to us and on the basis of our examination of the records of the Company
- The Company has not defaulted in repayment of Loans or borrowings from any lender. Hence reporting under clause (ix) (a) of the Order is not applicable.
 - The Company has not been declared willful defaulter by any bank or financial institution or government or any government authority. Hence reporting under clause (ix) (b) of the Order is not applicable.
 - The company has not obtained any term loans during the year. Hence reporting under clause (ix) (c) of the Order is not applicable.
 - On an overall examination of the Standalone Financial Statements, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
 - On an overall examination of the standalone financial Statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures (as defined under the Act) during the year ended March 31, 2026.
 - The Company has not raised loans during the year on the pledge of securities held in its subsidiaries, joint ventures or associate

- companies (as defined under the Act) during the year ended March 31, 2026.
- x. a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x) (a) of the Order is not applicable.
 - b) The Company has not made any preferential allotment of equity shares to its existing shareholders. Hence compliance with provision of section 62(1)(c) of Companies Act 2013 is not applicable and hence reporting under clause (x) (b) of the Order is not applicable.
 - xi.
 - a) Based on examination of the books and records of the Company and according to the information and explanations given to us, considering the principles of materiality outlined in Standards on Auditing, we report that no fraud by the Company or on the Company has been noticed or reported during the course of the audit
 - b) According to the information and explanations given to us, no report under sub-section (12) of Section 143 of the Act has been filed by the auditors in Form ADT-4 as prescribed under Rule 13 of the Companies (Audit and Auditors) Rules, 2014 with the Central Government.
 - c) As per representation to us by the management, there are no whistle-blower complaints received by the Company during the year.
 - xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
 - xiii. In our opinion and according to the information and explanations given to us, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the Standalone Financial Statements as required by the applicable Indian accounting standards.
 - xiv.
 - (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
 - (b) We have considered the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
 - xv. In our opinion and according to the information and explanations given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
 - xvi.
 - a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi) (a), (b) and (c) of the Order is not applicable.

Nature and purpose of reserves

Retained earnings

The balance in the retained earnings primarily represents the surplus after payment of dividend and transfer to reserves.

General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of companies act, 2013. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss.

Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

Re-measurement gains/ (losses) on defined benefit plans

Remeasurements of the net defined benefits plan reserve comprises the cumulative net gains/ (losses) on actuarial valuation of post-employment obligations.

1. NOTES TO STANDALONE FINANCIAL STATEMENTS

Summary of material accounting policies and other explanatory information

(All amounts in Indian rupees lakhs, except EPS, share data or unless otherwise stated)

1.1 Corporate Information

Likhitha Infrastructure Limited (the Company) is a limited Company bearing CIN: L35105TG1998PLC029911 incorporated in India on 6 August 1998, in accordance with the provisions of the Companies Act, 1956. The registered office of the company is situated at 8-3-323, 9th Floor, Vasavi's MPM Grand, Ameerpet 'X' roads, Yellareddy Guda, Hyderabad Telangana 500073-India. The Company is engaged in the business of laying gas supply pipe lines, irrigation canals, building bridges over the canals and related maintenance works.

The Company has its primary listings on the Bombay Stock Exchange and National Stock Exchange having **Scrip code: 543240 and ISIN: INE060901027**

The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.2 Basis of Preparation and presentation

a) Statement of compliance

These Standalone financial statements of Likhitha Infrastructure Limited have been prepared and presented in accordance with and in compliance in all material aspects, with the Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 (the "Act") read along with the Companies (Indian Accounting Standards) Rules 2015, and presentation requirements of Division II of Schedule III to the Companies Act, 2013, and as amended from time to time together with the comparative period data as at and for the year ended 31 March 2025.

These Standalone financial statements have been prepared by the Company as a going concern on the basis of relevant Ind AS that are effective at the Company's annual reporting date, 31 March 2026. These financial statements for the year ended 31 March 2026 were approved by the Company's Board of Directors on 27 May 2026.

b) Basis of measurement

The standalone financial statements have been prepared on a historical cost convention and on an accrual basis, except for the

following material items in the balance sheet that have been measured at fair value as required by relevant Ind AS:

- i) Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments), and
- ii) Employee defined benefit assets/(liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.

c) Current and noncurrent classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

All the assets and liabilities have been classified as current or noncurrent as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, presentation of financial statements.

An asset is classified as current when it satisfies any of the following criteria:

- a) It is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) It is held primarily for the purpose of being traded;
- c) It is expected to be realized within twelve months after the reporting date; or
- d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- a) It is expected to be settled in the Company's normal operating cycle;
- b) It is held primarily for the purpose of being traded;
- c) It is due to be settled within twelve months after the reporting date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a

liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification

The Company classifies all other liabilities as non-current.

Current assets/ liabilities include the current portion of noncurrent assets/ liabilities respectively.

Deferred tax assets and liabilities are always disclosed as non-current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

d) Functional and presentation currency

These standalone financial statements are presented in Indian rupees, which is also the functional currency and presentation currency of the Company. All the financial information presented in Indian rupees has been rounded to the nearest lakhs.

e) Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's

ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Ind AS financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the Ind AS financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for sale in discontinued operations.

External valuers are involved, wherever considered necessary. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

1. NOTES TO STANDALONE FINANCIAL STATEMENTS (contd.)

2. Summary of material accounting policies

On 31 March 2023, the Ministry of Corporate Affairs notified Companies (Indian Accounting Standards) Amendment Rules, 2023 amending the Companies (Indian Accounting Standards) Rules, 2015. The amendments come into force with effect from 1 April 2023, i.e., Financial Year 2023-24. One of the major changes is in Ind AS 1 'Preparation of Financial Statements, which requires companies to disclose in their financial statements 'material accounting policies' as against the erstwhile requirement to disclose 'significant accounting policies'. The word 'significant' is substituted by 'material'.

Accounting policy information is expected to be material if users of an entity's financial statements would need it to understand other material information in the financial statements.

The Company applied the guidance available under paragraph 117B of Ind AS 1, Presentation of Financial Statements in evaluating the material nature of the accounting policies.

The following are the material accounting policies for the Company:

2.1 Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date, the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the initial transaction.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in other comprehensive income ("OCI") or profit or loss are also recognised in OCI or profit or loss, respectively).

2.2 Property plant and equipment:

The cost of an item of property, plant and equipment are recognised as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Freehold land is carried at historical cost less any accumulated impairment losses.

Items of property, plant and equipment (including capital-work-in progress) are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, non-refundable duties and taxes applicable and other expenses related to acquisition and installation.

Directly attributable costs include:

- Cost of Employee Benefits arising directly from Construction or acquisition of PPE.
- Cost of Site Preparation.
- Initial Delivery & Handling costs.
- Professional Fees and
- Costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling any item produced while bringing the asset to that location and condition (such as samples produced when testing equipment).

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset

exchanged is recorded at the carrying amount of the asset given up.

Any gain or loss on disposal of an item of property, plant and equipment is recognised in profit or loss. Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within the statement of profit and loss.

Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

Depreciation

Depreciation on items of PPE is provided on Written down value basis, computed on the basis of useful lives as mentioned in Schedule II to the Companies Act, 2013. Depreciation on additions / disposals is provided on a pro-rata basis i.e. from / up to the date on which asset is ready for use / disposed-off.

Type of Asset	Estimated useful life in years
Plant & Machinery	10
Furniture & Fixtures	10
Office Equipment	3
Computers	3
Vehicles	8

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part will be derecognized. The costs of repairs and maintenance are recognized in the statement of profit and loss as incurred.

Items of stores and spares that meet the definition of Property, plant and equipment

are capitalized at cost, otherwise, such items are classified as inventories.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other assets. The cost of property, plant and equipment not ready to use before such date are disclosed under capital work-in-progress.

2.3 Investment Property:

Properties that are held for long-term rental yields or for capital appreciation or both, and that are not occupied by the Company, are classified as investment property.

Investment property is measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure related to investment properties are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on periodical basis performed by an accredited external independent registered valuer applying a valuation model recommended by the International Valuation Standards Committee.

Investment properties are depreciated using the written down value basis method over the useful lives.

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Land	Non depreciable asset
Buildings	30

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the Statement of Profit and Loss.

1. NOTES TO STANDALONE FINANCIAL STATEMENTS (contd.)

2.4 Intangible assets

Acquired computer software is capitalized on the basis of the costs incurred to acquire and bring to use the specific software. The Intangible assets that are acquired by the Company and that have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

Amortization

Amortization is recognized in the statement of profit and loss on a written down value basis over the estimated useful lives of intangible assets or on any other basis that reflects the pattern in which the asset's future economic benefit are expected to be consumed by the entity. Intangible assets that are not available for use are amortized from the date they are available for use. The estimated useful lives are as follows:

Type of Asset	Estimated useful life
Computer Software	10

The Amortization period and the Amortization method for intangible assets with a finite useful life are reviewed at each reporting date.

2.5 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost, if both of the following conditions are met: (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR Amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI, if both of the following criteria are met: (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and (ii) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However,

the Company recognizes interest income, impairment losses and foreign exchange gain or loss in the statement of profit and loss.

On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity Instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as FVTPL. If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor

retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

b. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded

1. NOTES TO STANDALONE FINANCIAL STATEMENTS (contd.)

derivatives are also classified as held for trading, unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognised in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to the statement of profit and loss.

However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

Loans and borrowings

Borrowings is the category most relevant to the Company. After initial recognition, interest-bearing borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the statement of profit and loss when the liabilities are derecognised as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR Amortization is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which

are equity instruments and financial liabilities. For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the re-classification prospectively from the re-classification date, which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.6 Investment in Subsidiaries

The company has accounted for its investments in equity shares of Subsidiaries, associates and joint venture at cost less impairment loss (if any).

2.7 Cash & Cash Equivalents

Cash and bank balances comprise of cash balance in hand, in current accounts with banks, and other short-term deposits. For this purpose, "short-term" means investments having maturity of three months or less from the date of investment, and which are subject to an insignificant risk of change in value. Bank overdrafts that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. The Margin money deposits (we have not disclosed separately), balance in dividend accounts which are not due and unclaimed dividend balances shall be disclosed as restricted cash balances.

2.8 Inventory

Inventories are valued at the lower of cost and net realizable value.

Inventories consisting of materials, stores and

spares and loose tools are valued at cost or net realizable value by using weighted average method.

Project and construction related work in progress is valued at cost.

Cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition.

In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Stores and spares, that do not qualify to be recognized as property, plant and equipment, consists of packing materials, engineering spares (such as machinery spare parts) and consumables which are used in operating machines or consumed as indirect materials in the manufacturing process.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realizable value of work-in-progress is determined with reference to the selling prices of related finished products.

2.9 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment.

If any such indication exists, then the asset's recoverable amount is estimated.

For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at March 31.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflow

of other assets or groups of assets (the "cash-generating unit").

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the entity operates, or for the market in which the asset is used.

An impairment loss is recognized in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

Reversal of Impairment of Assets

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.10 Employee benefits

Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of

1. NOTES TO STANDALONE FINANCIAL STATEMENTS (contd.)

past service provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

The Company's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

Defined benefit plans

The liability in respect of defined benefit plans and other post-employment benefits is determined by using the project unit credit method on the basis of the Actuarial Valuation report issued by the qualified Actuary.

The current service cost of the defined benefit plan, recognized in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements.

The Past service costs are recognized immediately in the statement of profit and loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for defined benefit obligation and plan assets are recognized in OCI in the period in which they arise. When the benefits under a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the statement of profit and loss. The Company recognizes gains or losses on the settlement of a defined benefit plan obligation when the settlement occurs.

Termination benefits

Termination benefits are recognized as an expense in the statement of profit and loss when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense in the statement of

profit and loss if the Company has made an offer encouraging voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Other long-term employee benefits

The Company's net obligation in respect of other long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognised in the statement of profit and loss in the period in which they arise.

2.11 Leases

Assets taken on lease are accounted as right-of-use assets and the corresponding lease liability is recognised at the lease commencement date.

Initially the right-of-use asset is measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, as reduced by any lease incentives received.

The lease liability is initially measured at the present value of the lease payments, discounted using the Company's incremental borrowing rate. It is remeasured when there is a change in future lease payments arising from a change in an index or a rate, or a change in the estimate of the guaranteed residual value, or a change in the assessment of purchase, extension or termination option. When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The right-of-use asset is measured by applying cost model i.e. right-of-use asset at cost less accumulated depreciation and cumulative impairment, if any. The right-of-use asset is depreciated using the straight-line method from the commencement date to the end of the lease term or useful life of the underlying asset whichever is earlier. Carrying amount of lease liability is increased by interest on lease liability and reduced by lease payments made.

Lease payments associated with following leases are recognised as expense on straight-line basis:

- (i) Low value leases; and
- (ii) Leases which are short-term.

Assets given on lease are classified either as operating lease or as finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Asset held under finance lease is initially recognised in balance sheet and presented as a receivable at an amount equal to the net investment in the lease. Finance income is recognized over the lease term, based on a pattern reflecting a constant periodic rate of return on Company's net investment in the lease. A lease which is not classified as a finance lease is an operating lease. The Company recognizes lease payments in case of assets given on operating leases as income on a straight-line basis. The Company presents underlying assets subject to operating lease in its balance sheet under the respective class of asset.

2.12. Provisions, contingent liabilities and contingent assets

Provisions

A provision is recognized in the statement of profit and loss if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and contingent assets

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually

certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

Onerous contracts

A provision for onerous contracts is recognised in the statement of profit and loss when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Reimbursement rights

Expected reimbursements for expenditures required to settle a provision are recognised in the statement of profit and loss only when receipt of such reimbursements is virtually certain. Such reimbursements are recognised as a separate asset in the balance sheet, with a corresponding credit to the specific expense for which the provision has been made.

2.13 Revenue recognition:

Revenue from contracts with customers is recognised when a performance obligation is satisfied by transfer of promised goods or services to a customer.

For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognizes revenue over a period of time if one of the following criteria is met:

- a) The customer simultaneously consumes the benefit of the Company's performance or
- b) The customer controls the asset as it is being created/enhanced by the Company's performance or
- c) There is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents,

1. NOTES TO STANDALONE FINANCIAL STATEMENTS (contd.)

In all other cases, performance obligation is considered as satisfied at a point in time.

The revenue is recognised to the extent of transaction price allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party.

The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved. Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in profit or loss immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfil a contract are amortised over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Revenue from construction/project related activity is recognised as follows:

Fixed price contracts: Contract revenue is recognised over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognised at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

Impairment loss (termed as provision for foreseeable losses in the financial statements) is recognised in profit or loss to the extent the carrying amount of the contract asset exceeds the remaining amount of consideration that the Company expects to receive towards remaining performance obligations (after deducting the

costs that relate directly to fulfil such remaining performance obligations). The Company recognizes impairment loss (termed as provision for expected credit loss on contract assets in the financial statements) on account of credit risk in respect of a contract asset using expected credit loss model on similar basis as applicable to trade receivables.

2.14 Interest Income

Interest Income mainly comprises of interest on Margin money deposit with banks relating to bank guarantee and term deposits.

Interest income or expense is recognised using the effective interest method (EIR).

Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

2.15 Tax Expenses

Tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in Other comprehensive income.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognised outside the statement of profit and loss is recognised outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions, where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying

amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities and assets are recognized for all taxable temporary differences and deductible temporary differences.

Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the statement of profit and loss is recognised outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Goods and Service Tax (GST) paid on acquisition of assets or on incurring expenses

When the tax incurred on purchase of assets or services is not recoverable from the taxation authority, the tax paid is recognised as part of the cost of acquisition of the asset or as part of the expense item, as applicable. Otherwise, expenses and assets are recognized net of the amount of taxes paid. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.15 Earnings Per Share

Basic earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

2.16 Trade receivables

Trade receivables are initially recognized at fair value and subsequently measured at amortised cost using effective interest method, less provision for impairment, if any.

2.17 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are presented as current liabilities unless payment is not due within twelve months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

2.18 Segment reporting

The Company is engaged in the "laying of gas pipe lines and development of allied infrastructure"

1. NOTES TO STANDALONE FINANCIAL STATEMENTS (contd.)

and the same constitutes a single reportable business segment as per Ind AS 108. Accordingly, disclosure of segment information as prescribed in the Indian accounting standard 108 "Operating segments" is not applicable.

2.19 Share Capital

Incremental costs directly attributable to the issue of equity shares are recognised as a deduction from equity. Income tax relating to transaction costs of an equity transaction is accounted for in accordance with Ind AS 12.

2.20 Significant accounting judgments, estimates, and assumption

The preparation of the financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, the areas involving critical estimates or judgment are:

Property, plant and equipment

The depreciation on property, plant and equipment is derived on determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives of Company's assets are determined in accordance with Schedule-II of Companies Act, 2013. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life.

The residual values of Company's assets are determined by management at the time of acquisition of asset and is reviewed periodically, including at each financial year end.

Impairment of financial and non-financial assets

Significant management judgement is required to determine the amounts of impairment loss on the financial and non-financial assets. The

calculations of impairment loss are sensitive to underlying assumptions.

Tax provisions and contingencies

Significant management judgement is required to determine the amounts of tax provisions and contingencies. Deferred tax assets are recognised for unused tax losses and MAT credit entitlements to the extent it is probable that taxable profit will be available against which these losses and credit entitlements can be utilized. Significant management judgement is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Defined benefit plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using internal valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values.

Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.21 Determination of fair values

The Company's accounting policies and disclosures require the determination of fair value, for certain financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

(i) Property, plant and equipment

Property, plant and equipment, if acquired in a business combination or through an exchange of non-monetary assets, is measured at fair value on the acquisition date. For this purpose, fair value is based on appraised market values and replacement cost.

(ii) Intangible assets

The fair value of brands, technology related intangibles, and patents and trademarks acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of these brands, technology related intangibles, patents or trademarks being owned (the "relief of royalty method"). The fair value of customer related, product related and other intangibles acquired in a business combination has been determined using the multi-period excess earnings method after deduction of a fair return on other assets that are part of creating the related cash flows.

(iii) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

(iv) Investments in equity and debt securities and units of mutual funds

The fair value of marketable equity and debt securities is determined by reference to their quoted market price at the reporting date. For debt securities where quoted market prices are not available, fair value is determined using pricing techniques such as discounted cash flow analysis. In respect of investments in mutual funds, the fair values represent net asset value as stated by the issuers of these mutual fund units in the published statements. Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors. Accordingly, such net asset values are analogous to fair market value with respect to these investments, as transactions of these mutual funds are carried out at such prices between investors and the issuers of these units of mutual funds.

2.22 New standards adopted by the company

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The company does not expect this amendment to have any significant impact in its standalone financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The company does not expect this amendment to have any significant impact in its standalone financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting

1. NOTES TO STANDALONE FINANCIAL STATEMENTS (contd.)

estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The company does not expect this amendment to have any significant impact in its standalone financial statements.

2.23 New Accounting pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2026, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Rights attached to equity shares

The Company has only one class of equity shares having a face value of Rs.5 /- each. Each holder of equity share is entitled to one vote per share. The company declares and pays dividends in indian rupees. Payment of dividend is also made in foreign currency to shareholders outside india. The final dividend proposed by the board of directors is subject to the approval of the shareholders in the ensuing annual general meeting.

In the event of liquidation of the company, all preferential amounts, if any, shall be discharged by the company. The remaining assets of the company shall be distributed to the holders of equity shares in proportion to the number of shares held to the total equity shares outstanding as on that date.

Final dividends on equity shares are recorded as a liability on the date of their approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's board of directors. The details of dividends paid by the company are as follows:

Notes to financial statements (contd.)

for the year ended 31 March 2026

Note No.42 : Financial instruments and fair value

All assets and liabilities for which fair value is measured or disclosed in the Ind AS financial statements are categorised within the fair value hierarchy, as below, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 : Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 : Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

Financial instruments by category

The carrying value and fair value of financial instruments as at 31 March 2026 and 2025, respectively were as follows:

(Amount in Indian rupees lakhs, except share data or unless otherwise stated)

Particulars	As at 31 March 2026		As at 31 March 2025

Total	4,260.99	4,260.99	4,389.88	4,389.88

There has been no transfers between levels during the year. The fair values of derivatives are based on derived mark-to-market values. The management has assessed that the carrying values of financial assets and financial liabilities for which fair values are disclosed, reasonably approximate their fair values because these instruments have short-term maturities.

Note No.43 : Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, trade and other receivables, cash and cash equivalents, bank balances, security deposits.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's risk management is carried out by a treasury department under policies approved by the Board of Directors. The Board of Directors provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument that will fluctuate because of changes in market prices. Market risk comprises three types of risk i.e. interest rate risk, currency risk and other price risk, such as commodity risk. Financial instruments affected by market risk include borrowings, derivatives financial instruments and trade payables.

i. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency trade payables. The summary of derivative instruments and unhedged foreign currency exposure is as below:

Un-hedged foreign currency exposure as at the reporting date:		(All amounts are in Dollars)
Particulars		As at 31 March 2026
Other Financial Assets		-

Particulars		As at 31 March 2025

The following tables demonstrate the sensitivity to a reasonably possible change in foreign exchange rates, with all other variables held constant and without considering impact of derivatives not designated as hedges:

Particulars	As at 31 March 2026		As at 31 March 2025		(All amounts are in Indian rupees, Lakhs)
	5% increase	5% decrease	5% increase	5% decrease	
Impact on profit before tax	-	-	-	-	-

(b) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty default on its obligations. The Company's exposure to credit risk arises majorly from trade and other receivables. Other financial assets like security deposits and bank deposits are mostly with government authorities and scheduled banks and hence, the Company does not expect any credit risk with respect to these financial assets.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Details of financial assets – not due, past due and impaired

None of the Company's cash equivalents, including term deposits with banks, were past due or impaired as at 31 March 2026. The Company's credit period for trade and other receivables payable by its customers generally ranges from 30-60 days.

Notes to financial statements (contd.)

for the year ended 31 March 2026

The ageing of trade and other receivables is given below:

	10,138.78	8,730.26
Less : Allowance for credit losses	-	-
Total	10,138.78	8,730.26

(c) Liquidity risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

The table below summarises the maturity profile of the Company's financial liabilities on undiscounted basis:

INDEPENDENT AUDITOR'S REPORT

To,
The Members of,
LIKHITHA INFRASTRUCTURE LIMITED.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of **LIKHITHA INFRASTRUCTURE LIMITED** ("the Parent") and its subsidiaries (the parent and its subsidiaries together referred to as the "Group") which comprise the balance sheet as at March 31, 2026, and the statement of profit and loss (including Other Comprehensive Income), the cash flow Statement and the statement of changes in equity and for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 ("The Act") in the manner so required and give a true and fair view in conformity with other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and its profit, total comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act, and the Rules there under, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current financial year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined matters described below to be the key audit matters to be communicated in our report.

Revenue recognition – Accounting for Construction Contracts

- There are significant accounting judgements in estimating revenue to be recognized on contracts with customers, including estimation of costs to complete. The Company recognizes revenue on the basis of stage of completion in proportion of the contract costs incurred at balance sheet date, relative to the total estimated costs of the contract at completion. The recognition of revenue is therefore dependent on estimates in relation to total estimated costs of each such contract.

Key audit matter description

- Significant judgements are involved in determining the expected losses, when such losses become probable based on the expected total contract cost. Cost contingencies are included in these estimates to take into account specific risks of uncertainties or disputed claims against the Company, arising within each contract. These contingencies are reviewed by the Management on a regular basis throughout the life of the contract and adjusted where appropriate. The revenue on contracts may also include variable consideration (variations and claims). Variable consideration is recognized when the recovery of such consideration is highly probable

Refer to Note No. [2](11) and 36 to the Consolidated Financial Statements

Our audit procedures relates to the

1. Identification of distinct performance obligations,
2. Evaluation of the process for estimation of costs to complete,
3. Evaluation of implications of change orders on costs estimates of costs to complete and revenue and
4. Evaluation of any variable consideration included the following, amongst others:

Principal Audit Procedures

- We tested the effectiveness of controls relating to the (a) evaluation of performance obligations and identification of those that are distinct; (b) estimation of costs to complete each of the performance obligations including the contingencies in respect thereof, as work progresses and the impact thereon as a consequence of change orders; (c) the impact of change orders on the transaction price of the related contracts; and (d) evaluation of the impact of variable consideration on the transaction price.
- We selected a sample of contracts with customers and performed the following procedures:
 - a. Obtained and read contract documents for each selection, change orders, and other documents that were part of the agreement.
 - b. Identified significant terms and deliverables in the contract to assess management's conclusions regarding the (i) identification of distinct performance obligations; (ii) changes to costs to complete as work progresses and as a consequence of change orders; (iii) the impact of change orders on the transaction price; and (iv) the evaluation of the adjustment to the transaction price on account of variable consideration.
 - c. Compared costs incurred with Company's estimates of costs incurred to date to identify significant variations and evaluated whether those variations have been considered appropriately in estimating the remaining costs to complete the contract.
 - d. Tested the estimate for consistency with the status of delivery of milestones and customer acceptance to identify possible delays in achieving milestones, which require changes in estimated costs or efforts to complete the remaining performance obligation.

Information other than the consolidated financial statements and Auditor's Report thereon

- The parent Company's Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, for example, Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon. The other information as stated above is expected to be made available to us after the date of this auditor's report.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be

materially misstated.

- If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the Consolidated financial statements

The parent Company's Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate

INDEPENDENT AUDITOR'S REPORT (contd.)

accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that

are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report

because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:

- a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
- b) In our opinion, proper books of accounts as required by law have been kept by the Company so far as it appears from our examination of those books.
- c) The Consolidated Balance Sheet, consolidated Statement of Profit and Loss including Other Comprehensive Income, the consolidated Cash Flow Statement and consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of accounts.
- d) In our opinion, the aforesaid consolidated financial statements comply with the Indian Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- e) On the basis of the written representations received from the directors as on 31st March 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
- f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Group has disclosed the impact of pending litigations on its financial position in its Consolidated Ind AS financial statements.
 - ii. The Group has made provision, as required under the applicable laws or accounting

standards, for material foreseeable losses, if any, on long term contracts including derivative contracts;

- iii. There is no amount required to be transferred to the Investor Education and Protection Fund by the Holding Company and subsidiary company incorporated in India.
- iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The Company has not declared any dividend during the Current Financial Year.

INDEPENDENT AUDITOR'S REPORT (contd.)

Vi. Based on our examination which included test checks, the Company has used accounting software for maintaining its books of accounts for the financial year ended March 31, 2026, which have a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit, we did not come across any instance of audit trail feature being tampered with.

2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the "Annexure-B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of **LIKHITHA INFRASTRUCTURE LIMITED** of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated financial statements of the Group as of and for the year ended March 31, 2026.

We have audited the internal financial controls with reference to consolidated financial statements of **LIKHITHA INFRASTRUCTURE LIMITED** (“the Parent”) and its Subsidiary which is incorporated in India as of that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013 to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements

and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of internal financial Controls over Financial reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statement for external purpose in accordance with generally accepted accounting principles. A company’s internal financial controls over financial reporting includes those policies and procedures that

- (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the consolidated financial statements.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT (contd.)

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2026, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of LIKHITHA INFRASTRUCTURE LIMITED of even date)

In terms of the information and explanations sought by us and given by the company and the books of accounts and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

xxi. There are no qualifications or adverse remarks by the respective auditors in the Companies (Auditors Report) Order (CARO) reports of the companies included in the consolidated financial statements.

Consolidated Statement of Changes in Equity (contd.)

for the year ended 31 March 2026

Nature and purpose of reserves

Retained earnings

The balance in the retained earnings primarily represents the surplus after payment of dividend and transfer to reserves.

General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. Consequent to introduction of companies Act 2013, the requirement to mandatorily transfer a specified percentage of the net profit to general reserve has been withdrawn. However, the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of companies act, 2013. As the general reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in the general reserve will not be reclassified subsequently to statement of profit and loss.

Securities premium

Securities premium is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

Re-measurement gains/ (losses) on defined benefit plans

Remeasurements of the net defined benefits plan reserve comprises the cumulative net gains/ (losses) on actuarial valuation of post-employment obligations.

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Summary of material accounting policies and other explanatory information

(All amounts in Indian rupees lakhs, except EPS, share data or unless otherwise stated)

1.1 Corporate Information

Likhitha Infrastructure Limited (the Company) is a limited Company bearing **CIN: L35105TG1998PLC029911** incorporated in India on 6 August 1998. The address of its registered office is in the state of Telangana, India in accordance with the provisions of the Companies Act, 1956. The Company is engaged in the business of laying gas supply pipe lines, irrigation canals, building bridges over the canals and related maintenance works.

The Company has its primary listings on the Bombay Stock Exchange and National Stock Exchange having **Scrip code: 543240**

and **ISIN: INE060901027**

The principal accounting policies applied in the preparation of the financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

1.2 Basis of Preparation and presentation

a) Statement of compliance

The consolidated financial statements of Likhitha Infrastructure Limited ("the Company") along with its subsidiaries (collectively termed as "group" or "the consolidated entities") have been prepared and presented in accordance with and in compliance in all material aspects, with the Indian Accounting Standards ("Ind AS") notified under Section 133 of the Companies Act, 2013 (the "Act") read along with the Companies (Indian Accounting Standards) Rules 2015, and presentation requirements of Division II of Schedule III to the Companies Act, 2013, and as amended from time to time together with the comparative period data as at and for the year ended 31 March 2025.

These consolidated financial statements have been prepared by the Company as a going concern on the basis of relevant Ind AS that is effective at the Company's annual reporting date, 31 March 2026. These financial statements for the year ended 31 March 2026 were approved by the Company's Board of Directors on 20 May 2026.

b) Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention and on an accrual basis, except for the

following material items in the balance sheet that have been measured at fair value as required by relevant Ind AS:

- Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments), and
- Employee defined benefit assets/(liability) are recognized as the net total of the fair value of plan assets, plus actuarial losses, less actuarial gains and the present value of the defined benefit obligation.

c) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and entities controlled by the Company and its subsidiaries as at 31 March, 2026.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee.
- Rights arising from other contractual arrangements.
- The Group's voting rights and potential voting rights.
- The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit and loss from the date the Group gains control until the date when the Group ceases to control the subsidiary.

The Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the Company, i.e., year ended on 31 March. When the end of the reporting period of the parent is different from that of a subsidiary, the subsidiary prepares, for consolidation purposes, additional financial information as of the same date as the financial statements of the parent to enable the parent to consolidate the financial information of the subsidiary, unless it is impracticable to do so.

Consolidation procedure:

- a) Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date.
- b) Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary.

- c) Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from intragroup transactions that are recognized in assets, such as inventory and Property, plant and equipment are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

Profit or loss and each component of other comprehensive income are attributed to the equity holder of the parent of the Group and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary at their carrying amounts at the date when control is lost
- Derecognizes the carrying amount of any non-controlling interests
- Derecognizes the cumulative translation differences recorded in equity
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes any surplus or deficit in profit or loss
- Recognize that distribution of shares of subsidiary to Group in Group's capacity as owners
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or transferred directly to

retained earnings, if required by other Ind ASs as would be required if the Group had directly disposed of the related assets or liabilities

Details of entities controlled by the company are as under:

Name of the enterprises	Country of Incorporation	Nature of business	Shareholding/Controlling interest
Likhitha-CPM Consortium	India	Laying of Gas Pipe Lines	80%
Likhitha HAK Arabia Contracting Company	Saudi Arabia	Laying of Gas Pipe Lines	60%

d) Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The acquired process is considered substantive if it is critical to the ability to continue producing outputs, and the inputs acquired include an organized workforce with the necessary skills, knowledge, or experience to perform that process or it significantly contributes to the ability to continue producing outputs and is considered unique or scarce or cannot be replaced without significant cost, effort, or delay in the ability to continue producing outputs.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognized at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured

at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the liabilities or assets related to employee benefit arrangements are recognized and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Potential tax effects of temporary differences and carry forwards of an acquiree that exist at the acquisition date or arise as a result of the acquisition are accounted in accordance with Ind AS 12.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that Standard.
- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss or OCI, as appropriate.

Any contingent consideration to be transferred by the acquirer is recognized at fair value at

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of Ind AS 109 Financial Instruments, is measured at fair value with changes in fair value recognized in profit or loss in accordance with Ind AS 109. If the contingent consideration is not within the scope of Ind AS 109, it is measured in accordance with the appropriate Ind AS and shall be recognized in profit or loss. Contingent consideration that is classified as equity is not re-measured at subsequent reporting dates and subsequent its settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognises the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to

the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

e) Current and non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

All the assets and liabilities have been classified as current or noncurrent as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1, presentation of financial statements.

An asset is classified as current when it satisfies any of the following criteria:

- It is expected to be realized in, or is intended for sale or consumption in, the Group's normal operating cycle;
- It is held primarily for the purpose of being traded;

- c) It is expected to be realized within twelve months after the reporting date; or
- d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting date.

All other assets are classified as non-current.

A liability is classified as current when it satisfies any of the following criteria:

- a) It is expected to be settled in the Group's normal operating cycle;
- b) It is held primarily for the purpose of being traded;
- c) It is due to be settled within twelve months after the reporting date; or
- d) The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification

The Group classifies all other liabilities as noncurrent.

Current assets/ liabilities include the current portion of noncurrent assets/ liabilities respectively. Deferred tax assets and liabilities are always disclosed as non- current.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

f) Functional and presentation currency

These financial statements are presented in Indian rupees, which is also the functional currency and presentation currency of the Company. All the financial information presented in Indian rupees has been rounded to the nearest lakhs.

g) Fair value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the Ind AS financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the Ind AS financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

a whole) at the end of each reporting period.

The Company's management determines the policies and procedures for both recurring fair value measurement, such as derivative instruments and unquoted financial assets measured at fair value, and for non-recurring measurement, such as assets held for sale in discontinued operations.

External valuers are involved, wherever considered necessary. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy, as explained above.

This note summarizes accounting policy for fair value. Other fair value related disclosures are given in the relevant notes.

currency spot rates of exchange at the reporting date. Exchange differences arising on settlement or translation of monetary items are recognized in the statement of profit and loss.

Non-monetary items that are measured based on historical cost in a foreign currency are translated at the exchange rate at the date of the initial transaction.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was measured.

The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognized in other comprehensive income ("OCI") or profit or loss are also recognized in OCI or profit or loss, respectively.

2. Summary of material accounting policies

On 31 March 2023, the Ministry of Corporate Affairs notified Companies (Indian Accounting Standards) Amendment Rules, 2023 amending the Companies (Indian Accounting Standards) Rules, 2015. The amendments come into force with effect from 1 April 2023, i.e., Financial Year 2023-24. One of the major changes is in Ind AS 1 'Preparation of Financial Statements, which requires companies to disclose in their financial statements 'material accounting policies' as against the erstwhile requirement to disclose 'significant accounting policies'. The word 'significant' is substituted by 'material'.

Accounting policy information is expected to be material if users of an entity's financial statements would need it to understand other material information in the financial statements.

The Company applied the guidance available under paragraph 117B of Ind AS 1, Presentation of Financial Statements in evaluating the material nature of the accounting policies.

The following are the material accounting policies for the Company:

2.1 Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded by the Company at their respective functional currency spot rates at the date, the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional

2.2 Property plant and equipment:

The cost of an item of property, plant and equipment are recognized as an asset if, and only if it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Freehold land is carried at historical cost less any accumulated impairment losses.

Items of property, plant and equipment (including capital-work-in progress) are stated at cost of acquisition or construction less accumulated depreciation and impairment loss, if any.

Cost includes expenditures that are directly attributable to the acquisition of the asset i.e., freight, non-refundable duties and taxes applicable, and other expenses related to acquisition and installation.

Directly attributable costs include:

- Cost of Employee Benefits arising directly from Construction or acquisition of PPE.
- Cost of Site Preparation.
- Initial Delivery & Handling costs.
- Professional Fees and
- Costs of testing whether the asset is functioning properly, after deducting the net proceeds from selling any item produced while bringing the asset to that location and condition (such as samples produced when testing equipment).

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

The cost of self-constructed assets includes the cost of materials and other costs directly attributable to bringing the asset to a working condition for its intended use.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives.

Items of property, plant and equipment acquired through exchange of non-monetary assets are measured at fair value, unless the exchange transaction lacks commercial substance or the fair value of either the asset received or asset given up is not reliably measurable, in which case the asset exchanged is recorded at the carrying amount of the asset given up.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss. Gains and losses upon disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognized net within the statement of profit and loss.

Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably.

Depreciation

Depreciation on items of PPE is provided on Written down value basis, computed on the basis of useful lives as mentioned in Schedule II to the Companies Act, 2013. Depreciation on additions / disposals is provided on a pro-rata basis i.e. from / up to the date on which asset is ready for use / disposed-off.

Type of Asset	Estimated useful life in years
Plant & Machinery	10
Furniture & Fixtures	10
Office Equipment	3
Computers	3
Vehicles	8

The residual values, useful lives and method of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

The cost of replacing part of an item of property, plant and equipment is recognized in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Company and its cost can be measured reliably. The carrying amount of the replaced part will be derecognized. The costs of repairs and maintenance are recognized in the statement of profit and loss as incurred.

Items of stores and spares that meet the definition of Property, plant and equipment are capitalized at cost, otherwise, such items are classified as inventories.

Advances paid towards the acquisition of property, plant and equipment outstanding at each reporting date is disclosed as capital advances under other assets. The cost of property, plant and equipment not ready to use before such date are disclosed under capital work-in-progress.

2.3 Investment Property:

Properties that are held for long-term rental yields or for capital appreciation or both, and that are not occupied by the Company, are classified as investment property.

Investment property is measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and accumulated impairment loss, if any. Subsequent expenditure related to investment properties are added to its book value only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably.

Though the Company measures investment property using cost based measurement, the fair value of investment property is disclosed in the notes. Fair values are determined based on periodical basis performed by an accredited external independent registered valuer applying a valuation model recommended by the International Valuation Standards Committee.

Investment properties are depreciated using the written down value basis method over the useful lives.

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

The estimated useful lives are as follows:

Type of Asset	Estimated useful life in years
Land	Non depreciable asset
Buildings	30

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognized in the Statement of Profit and Loss.

2.4 Intangible Assets:

Acquired computer software is capitalized on the basis of the costs incurred to acquire and bring to use the specific software. The Intangible assets that are acquired by the Company and that have finite useful lives are measured at cost less accumulated amortization and accumulated impairment losses.

Amortization

Amortization is recognized in the statement of profit and loss on a written down value basis over the estimated useful lives of intangible assets or on any other basis that reflects the pattern in which the asset's future economic benefit are expected to be consumed by the entity. Intangible assets that are not available for use are amortized from the date they are available for use. The estimated useful lives are as follows:

Type of Asset	Estimated useful life
Computer Software	10

The Amortization period and the Amortization method for intangible assets with a finite useful life are reviewed at each reporting date.

2.5 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognized on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL);
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortized cost

A 'debt instrument' is measured at the amortized cost, if both of the following conditions are met: (i) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows; and (ii) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR Amortization is included in finance income in the statement of profit and loss. The losses arising from impairment are recognized in the statement of profit and loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A 'debt instrument' is classified as FVTOCI, if both of the following criteria are met: (i) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets; and (ii) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However, the Company recognizes interest income, impairment losses and foreign exchange gain or loss in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognized in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity Instruments

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as FVTPL. If the Company decides to classify an equity instrument as FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss. Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e., removed from the Group's balance sheet) when:

- a) The rights to receive cash flows from the asset have expired, or
- b) The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

b. Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value i.e., loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts.

Subsequent measurement

The measurement of financial liabilities depends on their classification.

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109. Separated embedded derivatives are also classified as held for trading, unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the statement of profit and loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/losses attributable to changes in own credit risk are recognized in OCI. These gains/losses are not subsequently transferred to the statement of profit and loss.

However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognized in the statement of profit and loss.

Loans and borrowings

Borrowings is the category most relevant to the Company. After initial recognition, interest-bearing borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in the statement of profit and loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR Amortization is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the

terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit and loss.

Reclassification of financial assets and liabilities

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no re-classification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a re-classification is made only if there is a change in the business model for managing those assets. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the re-classification prospectively from the re-classification date, which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet, if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

2.6 Cash & Cash Equivalents

Cash and bank balances comprise of cash balance in hand, in current accounts with banks, and other short-term deposits. For this purpose, "short-term" means investments having maturity of three months or less from the date of investment, and which are subject to an insignificant risk of change in value. Bank overdrafts that are repayable on demand and form an integral part of our cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows. The Margin money deposits, balance in dividend accounts which are

not due and unclaimed dividend balances shall be disclosed as restricted cash balances.

2.7 Inventory

Inventories are valued at the lower of cost and net realizable value. Inventories consisting of materials, stores and spares and loose tools are valued at cost or net realizable value by using weighted average method. Project and construction related work in progress is valued at cost. Cost includes expenditures incurred in acquiring the inventories, production or conversion costs and other costs incurred in bringing them to their existing location and condition. In the case of finished goods and work-in-progress, cost includes an appropriate share of overheads based on normal operating capacity. Stores and spares, that do not qualify to be recognized as property, plant and equipment, consists of packing materials, engineering spares (such as machinery spare parts) and consumables which are used in operating machines or consumed as indirect materials in the manufacturing process. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses. The net realizable value of work-in-progress is determined with reference to the selling prices of related finished products.

2.8 Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment.

If any such indication exists, then the asset's recoverable amount is estimated.

For goodwill and intangible assets that have indefinite lives or that are not yet available for use, an impairment test is performed each year at March 31.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets

that generates cash inflows from continuing use that are largely independent of the cash inflow of other assets or groups of assets (the "cash-generating unit").

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country in which the entity operates, or for the market in which the asset is used.

An impairment loss is recognized in the statement of profit and loss if the estimated recoverable amount of an asset or its cash-generating unit is lower than its carrying amount. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

Reversal of Impairment of Assets

An impairment loss in respect of goodwill is not reversed. In respect of other assets, impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.9 Employee benefits

Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

provided by the employee and the obligation can be estimated reliably.

Defined contribution plans

The Company's contributions to defined contribution plans are charged to the statement of profit and loss as and when the services are received from the employees.

Defined benefit plans

The liability in respect of defined benefit plans and other post-employment benefits is determined by using the project unit credit method on the basis of the Actuarial Valuation report issued by the qualified Actuary.

The current service cost of the defined benefit plan, recognized in the statement of profit and loss in employee benefit expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements.

The Past service costs are recognized immediately in the statement of profit and loss.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions for defined benefit obligation and plan assets are recognized in OCI in the period in which they arise. When the benefits under a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in the statement of profit and loss. The Company recognizes gains or losses on the settlement of a defined benefit plan obligation when the settlement occurs.

Termination benefits

Termination benefits are recognized as an expense in the statement of profit and loss when the Company is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to either terminate employment before the normal retirement date, or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Termination benefits for voluntary redundancies are recognized as an expense in the statement of profit and loss if the Company has made an offer encouraging

voluntary redundancy, it is probable that the offer will be accepted, and the number of acceptances can be estimated reliably.

Other long-term employee benefits

The Company's net obligation in respect of other long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value. Re-measurements are recognized in the statement of profit and loss in the period in which they arise.

2.10 Leases

Assets taken on lease are accounted as right-of-use assets and the corresponding lease liability is recognized at the lease commencement date.

Initially the right-of-use asset is measured at cost which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, as reduced by any lease incentives received.

The lease liability is initially measured at the present value of the lease payments, discounted using the Company's incremental borrowing rate. It is re-measured when there is a change in future lease payments arising from a change in an index or a rate, or a change in the estimate of the guaranteed residual value, or a change in the assessment of purchase, extension or termination option. When the lease liability is re-measured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The right-of-use asset is measured by applying cost model i.e. right-of-use asset at cost less accumulated depreciation and cumulative impairment, if any. The right-of-use asset is depreciated using the straight-line method from the commencement date to the end of the lease term or useful life of the underlying asset whichever is earlier. Carrying amount of lease liability is increased by interest on lease liability and reduced by lease payments made.

Lease payments associated with following leases are recognized as expense on straight-line basis:

- (i) Low value leases; and
- (ii) Leases which are short-term.

Assets given on lease are classified either as operating lease or as finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. Asset held under finance lease is initially recognized in balance sheet and presented as a receivable at an amount equal to the net investment in the lease. Finance income is recognized over the lease term, based on a pattern reflecting a constant periodic rate of return on Company's net investment in the lease. A lease which is not classified as a finance lease is an operating lease. The Company recognizes lease payments in case of assets given on operating leases as income on a straight-line basis.

The Company presents underlying assets subject to operating lease in its balance sheet under the respective class of asset.

2.10 Provisions, contingent liabilities and contingent assets

Provisions

A provision is recognized in the statement of profit and loss if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Contingent liabilities and contingent assets

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognized in the financial statements. However, contingent assets are assessed continually and if it is virtually certain that an inflow of economic benefits will arise, the asset and related income are recognized in the period in which the change occurs.

Onerous contracts

A provision for onerous contracts is recognized in the statement of profit and loss when the expected benefits to be derived by the Company from a contract are lower than the unavoidable cost of meeting its obligations under the contract. The provision is measured at the present value of the lower of the expected cost of terminating the contract and the expected net cost of continuing with the contract. Before a provision is established, the Company recognizes any impairment loss on the assets associated with that contract.

Reimbursement rights

Expected reimbursements for expenditures required to settle a provision are recognized in the statement of profit and loss only when receipt of such reimbursements is virtually certain. Such reimbursements are recognized as a separate asset in the balance sheet, with a corresponding credit to the specific expense for which the provision has been made.

2.11 Revenue recognition:

Revenue from contracts with customers is recognized when a performance obligation is satisfied by transfer of promised goods or services to a customer.

For performance obligation satisfied over time, the revenue recognition is done by measuring the progress towards complete satisfaction of performance obligation. The progress is measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

The Company transfers control of a good or service over time and therefore satisfies a performance obligation and recognizes revenue over a period of time if one of the following criteria is met:

- a) The customer simultaneously consumes the benefit of the Company's performance or

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

- b) The customer controls the asset as it is being created/enhanced by the Company's performance or
- c) There is no alternative use of the asset and the Company has either explicit or implicit right of payment considering legal precedents,

In all other cases, performance obligation is considered as satisfied at a point in time.

The revenue is recognized to the extent of transaction price allocated to the performance obligation satisfied. Transaction price is the amount of consideration to which the Company expects to be entitled in exchange for transferring goods or services to a customer excluding amounts collected on behalf of a third party.

The Company includes variable consideration as part of transaction price when there is a basis to reasonably estimate the amount of the variable consideration and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved. Variable consideration is estimated using the expected value method or most likely amount as appropriate in a given circumstance. Payment terms agreed with a customer are as per business practice and the financing component, if significant, is separated from the transaction price and accounted as interest income.

Costs to obtain a contract which are incurred regardless of whether the contract was obtained are charged-off in profit or loss immediately in the period in which such costs are incurred. Incremental costs of obtaining a contract, if any, and costs incurred to fulfill a contract are amortized over the period of execution of the contract in proportion to the progress measured in terms of a proportion of actual cost incurred to-date, to the total estimated cost attributable to the performance obligation.

Revenue from construction/project related activity is recognized as follows:

Fixed price contracts: Contract revenue is recognized over time to the extent of performance obligation satisfied and control is transferred to the customer. Contract revenue is recognized at allocable transaction price which represents the cost of work performed on the contract plus proportionate margin, using the percentage of

completion method. Percentage of completion is the proportion of cost of work performed to-date, to the total estimated contract costs.

Impairment loss (termed as provision for foreseeable losses in the financial statements) is recognized in profit or loss to the extent the carrying amount of the contract asset exceeds the remaining amount of consideration that the Company expects to receive towards remaining performance obligations (after deducting the costs that relate directly to fulfill such remaining performance obligations). The Company recognises impairment loss (termed as provision for expected credit loss on contract assets in the financial statements) on account of credit risk in respect of a contract asset using expected credit loss model on similar basis as applicable to trade receivables.

2.12 Interest Income

Interest Income mainly comprises of interest on Margin money deposit with banks relating to bank guarantee and term deposits.

Interest income or expense is recognized using the effective interest method (EIR).

Interest is recognized using the time-proportion method, based on rates implicit in the transactions.

2.13 Tax Expenses

Income tax expense comprises current and deferred tax. It is recognized in profit or loss except to the extent that it relates to a business combination, or items recognized directly in equity or in Other comprehensive income.

The Company has determined that interest and penalties related to income taxes, including uncertain tax treatments, do not meet the definition of income taxes, and therefore accounted for them under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets.

Current tax

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and

loss (either in OCI or in equity in correlation to the underlying transaction). Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions, where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities and assets are recognized for all taxable temporary differences and deductible temporary differences.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside the statement of profit and loss is recognized outside the statement of profit and loss (either in OCI or in equity in correlation to the underlying transaction).

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Goods and Service Tax (GST) paid on acquisition of assets or on incurring expenses

When the tax incurred on purchase of assets or services is not recoverable from the taxation authority, the tax paid is recognized as part of the cost of acquisition of the asset or as part of the expense item, as applicable. Otherwise, expenses and assets are recognized net of the amount of taxes paid. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

2.14 Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the year.

The weighted average number of equity shares outstanding during the year is adjusted for events such as bonus issue, bonus element in a rights issue, share split, and reverse share split (consolidation of shares) that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share

Diluted earnings per share is computed by dividing the profit (considered in determination of basic earnings per share) after considering the effect of interest and other financing costs or income (net of attributable taxes) associated with dilutive potential equity shares by the weighted average number of equity shares considered for deriving basic earnings per share adjusted for the weighted average number of equity shares that would have been issued upon conversion of all dilutive potential equity shares.

2.15 Trade receivables

Trade receivables are initially recognized at fair value and subsequently measured at amortized cost using effective interest method, less provision for impairment, if any.

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

2.16 Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. The amounts are unsecured and are presented as current liabilities unless payment is not due within twelve months after the reporting period. They are recognized initially at fair value and subsequently measured at amortized cost using the effective interest method.

2.17 Segment reporting

The Company is engaged in the "laying of gas pipe lines and development of allied infrastructure" and the same constitutes a single reportable business segment as per Ind AS 108. Accordingly, disclosure of segment information as prescribed in the Indian accounting standard 108 "Operating segments" is not applicable.

2.18 Share capital

Incremental costs directly attributable to the issue of equity shares are recognized as a deduction from equity. Income tax relating to transaction costs of an equity transaction is accounted for in accordance with Ind AS 12.

2.19 Significant accounting judgments, estimates, and assumption

The preparation of the financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. These estimates and associated assumptions are based on historical experiences and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, the areas involving critical estimates or judgment are:

Property, plant and equipment

The depreciation on property, plant and equipment is derived on determining an

estimate of an asset's expected useful life and the expected residual value at the end of its life. The useful lives of Company's assets are determined in accordance with Schedule-II of Companies Act, 2013. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life.

The residual values of Company's assets are determined by management at the time of acquisition of asset and is reviewed periodically, including at each financial year end.

Impairment of financial and non-financial assets

Significant management judgment is required to determine the amounts of impairment loss on the financial and nonfinancial assets. The calculations of impairment loss are sensitive to underlying assumptions.

Tax provisions and contingencies

Significant management judgment is required to determine the amounts of tax provisions and contingencies. Deferred tax assets are recognized for unused tax losses and MAT credit entitlements to the extent it is probable that taxable profit will be available against which these losses and credit entitlements can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Defined benefit plans

The cost of the defined benefit plan and the present value of the obligation are determined using actuarial valuation. An actuarial valuation involves various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of

government bonds where remaining maturity of such bond correspond to expected term of defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using internal valuation techniques. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

2.20 Determination of fair values

The Group's accounting policies and disclosures require the determination of fair value, for certain financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

(i) Property, plant and equipment

Property, plant and equipment, if acquired in a business combination or through an exchange of non-monetary assets, is measured at fair value on the acquisition date. For this purpose, fair value is based on appraised market values and replacement cost.

(ii) Intangible assets

The fair value of brands, technology related intangibles, and patents and trademarks acquired in a business combination is based on the discounted estimated royalty payments that have been avoided as a result of these brands, technology related intangibles, patents or trademarks being owned (the "relief of royalty method"). The fair value of customer related, product related and other intangibles acquired in a business combination has been determined using the multi-period excess earnings method after deduction of a fair return on other assets that are part of creating the related cash flows.

(iii) Inventories

The fair value of inventories acquired in a business combination is determined based on its estimated selling price in the ordinary course of business less the estimated costs of completion and sale, and a reasonable profit margin based on the effort required to complete and sell the inventories.

(iv) Investments in equity and debt securities and units of mutual funds

The fair value of marketable equity and debt securities is determined by reference to their quoted market price at the reporting date. For debt securities where quoted market prices are not available, fair value is determined using pricing techniques such as discounted cash flow analysis. In respect of investments in mutual funds, the fair values represent net asset value as stated by the issuers of these mutual fund units in the published statements.

Net asset values represent the price at which the issuer will issue further units in the mutual fund and the price at which issuers will redeem such units from the investors. Accordingly, such net asset values are analogous to fair market value with respect to these investments, as transactions of these mutual funds are carried out at such prices between investors and the issuers of these units of mutual funds.

1. NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (contd.)

2.21 New standards adopted by the Group

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Group does not expect this amendment to have any significant impact in its consolidated financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Group does not expect this amendment to have any significant impact in its consolidated financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are “monetary amounts in financial statements that are subject to measurement uncertainty”. Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Group does not expect this amendment to have any significant impact in its consolidated financial statements.

2.22 New Accounting pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2026, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

There has been no transfers between levels during the year. The fair values of derivatives are based on derived mark-to-market values. The management has assessed that the carrying values of financial assets and financial liabilities for which fair values are disclosed, reasonably approximate their fair values because these instruments have short-term maturities.

Note No.43 : Financial risk management objectives and policies

The Company's principal financial liabilities comprise borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include investments, trade and other receivables, cash and cash equivalents, bank balances, security deposits and derivatives that are out of regular business operations.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's risk management is carried out by a treasury department under policies approved by the Board of Directors. The Board of Directors provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

(a) Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument that will fluctuate because of changes in market prices. Market risk comprises three types of risk i.e. interest rate risk, currency risk and other price risk, such as commodity risk. Financial instruments affected by market risk include borrowings, derivatives financial instruments and trade payables.

i. Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's foreign currency borrowings and trade payables. The summary of derivative instruments and unhedged foreign currency exposure is as below:

Notes to financial statements (contd.)

for the year ended 31 March 2026

(b) Credit risk

Credit risk is the risk of loss that may arise on outstanding financial instruments if a counterparty default on its obligations. The Company's exposure to credit risk arises majorly from trade and other receivables. Other financial assets like security deposits and bank deposits are mostly with government authorities and scheduled banks and hence, the Company does not expect any credit risk with respect to these financial assets.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry and country in which the customer operates, also has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Details of financial assets – not due, past due and impaired

None of the Company's cash equivalents, including term deposits with banks, were past due or impaired as of 31 March 2026. The Company's credit period for trade and other receivables payable by its customers generally ranges from 30-60 days.

The ageing of trade and other receivables is given below:

	10,138.78	9,496.56
Less : Allowance for credit losses	-	-
Total	10,138.78	9,496.56

(c) Liquidity risk

The Company's objective is to maintain optimum levels of liquidity to meet its cash and collateral requirements at all times. The Company relies on a mix of borrowings and excess operating cash flows to meet its needs for funds. The current committed lines of credit are sufficient to meet its short to medium/long term expansion needs. The Company monitors rolling forecasts of its liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Company does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities.

The table below summarises the maturity profile of the Company's financial liabilities on undiscounted basis:

Notes:

1. The Ministry of Corporate Affairs ("MCA") Government of India vide General Circular No. 03/2025 dated September 22, 2025 (in continuation with other circulars issued in this regard) permitted holding of the Annual General Meeting ("AGM") through Video Conference (VC)/ Other Audio Visual Means (OAVM), till further orders, in accordance with the requirements provided in paragraph 3 and 4 of the MCA General Circular No. 20/2020 dated 5th May, 2020. In compliance with these Circulars, provisions of the Act and the SEBI (LODR) Regulations, 2015, the 27th AGM of the Company is being conducted through VC/ OAVM which does not require physical presence of members at a common venue. The deemed venue for the 27th AGM shall be the Registered Office of the Company.
2. Pursuant to the provisions of the Act, a member entitled to attend and vote at the AGM is entitled to appoint a proxy to attend and vote on his / her behalf, and the proxy need not be a member of the Company. Since this AGM is being held through VC / OAVM, the facility for appointment of a Proxy by the Members is not available for this AGM. Hence, the Proxy Form and Attendance Slip, including the Route Map, are not annexed to this Notice.
3. Institutional shareholders/corporate shareholders (i.e., other than individuals, HUF's, NRI's, etc.) are required to send a scanned copy of their respective Board or governing body Resolution/Authorization etc., authorizing their representative to attend the AGM through VC/OAVM on their behalf and to vote through remote e-voting. The said Resolution/ Authorization shall be sent to the Scrutinizer by e-mail at info@vcancs.com and to the Company at cs@likhitha.in with a copy marked at ivote@bigshareonline.com.
4. Pursuant to the provisions of Section 91 of the Companies Act, 2013, the Register of Members and Share Transfer Books will be closed from September 22, 2026 to September 28, 2026 (both days inclusive) for the purpose of the 27th Annual General Meeting.
5. In case you are holding the Company's shares in dematerialized form, please contact your depository participant and kindly give suitable instructions to update your bank details in your demat account and to notify any changes with respect to their addresses, email ID, ECS mandate, etc.
6. As per Regulation 40 of the Listing Regulations, as amended from time to time, securities of listed companies can be transferred only in dematerialized form with effect from April 01, 2019. Even the transmission or transposition of securities held in physical or dematerialized form shall be affected only in dematerialized form with effect from January 24, 2022. Your Company does not have any physical shares.
- All communications in respect of share transfers, dematerialization and change in the address of the members may be communicated to the RTA.
7. Members holding shares in the same name under different ledger folios are requested to apply for the consolidation of such folios and are requested to send the relevant share certificates to the RTA / Company.
8. Members are requested to note that dividends which are not encashed or remaining unclaimed for a period of 7(seven) consecutive years from the date of transfer to the Company's Unpaid Dividend Account, are liable to be transferred to the Investor Education and Protection Fund ("IEPF") established by the Central Government. Further, pursuant to the provisions of Section 124 of the Act read with the Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ('IEPF Rules') as amended from time-to-time, all shares on which dividend has not been paid or claimed for seven consecutive years or more shall be transferred to IEPF Authority as notified by the Ministry of Corporate Affairs.
9. In view of this, Members are requested to claim their dividends from the Company within the stipulated timeline. The details of the unpaid/unclaimed amounts lying with the Company are available on the website of the Company at <http://www.likhitha.co.in/investors.html> and the said details have also been uploaded on the website of the IEPF Authority and the same can be accessed through the link www.iepf.gov.in. The details of unpaid and unclaimed amounts lying with the Company as on March 31, 2026, shall be updated in due course. Please refer to the Boards Report forming part of the Annual Report for further details with respect to unclaimed dividends.
10. Relevant documents referred to in the accompanying Notice and the statement pursuant to Section 102(1) of the Companies Act, 2013 shall be available for inspection through electronic mode, basis on the request being sent via. email to cs@likhitha.in.
11. In compliance with the aforesaid Circulars, Notice of the 27th AGM along with Annual Report 2025-26 is being sent only through electronic mode to those members whose e-mail addresses are registered with the Company/Registrar & Share Transfer Agent ("RTA")/Depository Participants. Members may note that the Notice along with Annual Report for the FY 2025-26 is available on the Company's website at www.likhitha.co.in, on the website of the Stock Exchanges, i.e., BSE Limited, and National Stock

Exchange of India Limited at www.bseindia.com and www.nseindia.com respectively, and on the website of Bigshare (i-vote) (agency for providing the Remote e-Voting facility), i.e. <https://ivote.bigshareonline.com>.

To support 'Green Initiative' of the Government, members who have not registered their email addresses are requested to register the same with the Company's Registrar and Share Transfer Agent / their Depository Participants in respect of shares held in physical/electronic mode, respectively.

12. Shareholders who would like to express their views/ask questions during the meeting may register themselves as a speaker by sending their request in advance at least 7 days (i.e., September 21, 2026, 5.00 pm) prior to the meeting mentioning their name, demat account number/folio number, email ID, mobile number at company email ID. The shareholders who do not wish to speak during the AGM but have queries may send their queries in advance 7 days (i.e., September 21, 2026, 5.00 pm) prior to the meeting mentioning their name, demat account number/folio number, email ID, mobile number at (company email ID). These queries will be replied to by the Company suitably by email.

13. The detailed process and manner of attending the AGM through VC and remote e-voting are given in the following pages.

The Company has engaged BSPL for facilitating Remote e-Voting to enable the Members to cast their votes electronically in respect of all the resolutions as set out in the AGM Notice.

14. The members can join the AGM in the VC/OAVM mode 15 minutes before and after the scheduled time of the commencement of the meeting by following the procedure mentioned in the Notice. The facility of participation at the AGM through VC/OAVM will be made available to at least 1000 members on a first-come, first-served basis. This will not include large shareholders (shareholders holding 2% or more shareholding), Promoters, Institutional Investors, Directors, Key Managerial Personnel, the Chairpersons of the Audit Committee, Nomination and Remuneration Committee and Stakeholders Relationship Committee, Auditors etc. who are allowed to attend the AGM without restriction on account of a first-come, first-served basis.

15. The attendance of the members attending the AGM through VC/OAVM will be counted for the purpose of ascertaining the quorum under Section 103 of the Companies Act, 2013.

16. Only those shareholders, who are present in the AGM through VC/OAVM facility and have not casted their vote on the Resolutions through remote e-Voting

and are otherwise not barred from doing so, shall be eligible to vote through e-Voting system available during the AGM.

17. If any votes are cast by the shareholders through the e-voting available during the AGM and if the same shareholders have not participated in the meeting through AVC/OAVM facility, then the votes cast by such shareholders may be considered invalid as the facility of e-voting during the meeting is available only to the shareholders attending the meeting.

18. Additional information pursuant to Regulation 36 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and pursuant to Secretarial Standards on general meetings, information in respect of the Directors seeking appointment / re-appointment at the Annual General Meeting is furnished in the annexure and forms part of the notice. The Directors have furnished the requisite consent/declaration for their appointment / re-appointment.

19. Retirement of Directors by rotation: Mrs. Sri Lakshmi Gaddipati, Non-Executive Director of the Company, retires by rotation at the ensuing Annual General Meeting and, being eligible, offers herself for re-appointment.

INSTRUCTIONS TO SHAREHOLDERS FOR E-VOTING AND JOINING VIRTUAL MEETINGS AREAS UNDER

- i. The voting period begins on Friday, September 25, 2026, at 09:00 A.M. and ends on Sunday, September 27, 2026, at 05:00 P.M. During this period, the shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date, i.e., Monday, September 21, 2026, may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- ii. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- iii. Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide a remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholder's/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby not only facilitating seamless authentication but also enhancing the ease and convenience of participating in the e-voting process.

Option 1: Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

iv. In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 09, 2020, on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email ID in their demat accounts in order to access the e-Voting facility.
