Press Release: NIIT AI-Ready Announcement

NIIT Launches Comprehensive AI Solutions to Build the AI-Ready L&D Enterprise

New integrated portfolio helps organizations move from AI ambition to execution across operating model, learning architecture, workforce fluency, and leadership

Atlanta, GA, June 23, 2026: NIIT Learning Systems Limited (Ticker Symbol: NIITMTS), a global leader in managed learning services today announced the launch of a comprehensive set of AI solutions designed to help enterprises build the AI-ready L&D organization. Unified under a single framework, the portfolio brings together four integrated solution areas that together equip learning functions to operate, scale, and lead in an environment increasingly shaped by AI.

As enterprises move from experimenting with AI to embedding it across the way work gets done, most L&D functions are still searching for a coherent path from ambition to execution. NIIT's new portfolio is built to close that gap, drawing on more than four decades of managed learning experience with some of the world's most demanding organizations.

The launch comprises four key elements, unified under one message:

1. **Build the AI Future Learning Operating Model** — reimagining how the learning function is structured, resourced, and run for an AI-enabled enterprise.
2. **Build the Finest AI-Native Learning Architecture** — designing learning ecosystems where AI is native to the experience rather than bolted on.
3. **Build AI Fluency for Your Enterprise Workforce** — equipping the entire workforce with the practical AI capability needed to perform with confidence.
4. **Build the Leaders to Manage a Human + AI Workforce** — preparing leaders to manage teams where humans and AI agents work side by side.

"AI will change everything about corporate L&D the way we know it. We, at NIIT, were one of the first to come out with the new vision. But today it's no longer a debate about where we're headed. It's about how to get there." said **Sailesh Lalla**, Chief Business Officer, NIIT Learning. "Our clients do not want point tools or isolated pilots. They want a clear, comprehensive path to Building an AI-ready L&D Enterprise, and they want a partner who has done this at scale. That is exactly what Building an AI-Ready L&D Enterprise Series delivers. We believe it puts our clients, and NIIT, well ahead of where the market is today," he added.

Press Release: NIIT AI-Ready Announcement

The solutions have been crafted by NIIT's experienced team of consultants and AI experts and are designed to deliver measurable business outcomes that close the gap between priority and execution for L&D teams. Learn more at <https://www.niitmts.com/ai-ready/index.html>.

About NIIT Learning

NIIT Learning is the trusted, award-winning L&D and talent partner for the world's leading companies, and a recognized leader in AI maturity for learning and development. Established in 1981, NIIT Learning helps enterprises build the AI operating model, infrastructure, and fluency that a human+AI workforce demands, pairing AI-powered managed learning with strategic consulting to solve the most complex challenges in learning, talent, skills, and workforce transformation. Across 33+ countries, our experienced learning teams help clients thrive in an AI-first world with AI-first L&D transformation solutions, reskilling employees at scale through intelligent coaching and dynamic simulations embedded directly into the workflow. With a Net Promoter Score of 9.65/10 and an industry-leading renewal rate, we help leading companies reimagine their learning ecosystems and increase the business value and impact of learning.
