## SYMBOL: SAKAR

### SUB: Sakar's global export model expands with oncology products

Dear All,

Sakar Healthcare Ltd. emerges with the oncology portfolio across geographies. Be it the approvals in form of Marketing Authorisation (MA), addition of site under variations or participating in global events like CPHI, worldwide, Sakar has initiated its' foot prints globally.

The salient progress has been noted with

- In-house prepared product dossiers are getting approvals covering EU, the UK, APAC, Canada and LatAm regions- with 22 being granted MAs of 190 submitted to various regulatory bodies worldwide
- Till date 11-site variations got approval at stringent markets which includes MNCs like Accord Healthcare Ltd, Tillomed Laboratories Ltd, Heumann Pharma GmbH & Co. Generica KG
- 2 of 7 applied for CEPs (21 in-house developed APIs) have been approved as on date, which encouraged to proceed with vertical integration of the unit
- Commercial supplies have started catering to such approvals from Sakar's research-driven API-integrated EU GMP approved oncology FDF manufacturing site

Presently Sakar's business is majorly skewed towards the export of the oncology products. Therefore, the proposed capping on MRP for oncology products in domestic market doesn't impact business at Sakar, as the directive states "Since the move only regulates the trade margin, manufacturers' selling prices and revenues will not be affected, the officials explained" (ref: ET, October 12, 2026).

The encouragement and guidance from you all have always helped in our endeavour to proceed and reach newer heights.

Thank you.

Yours faithfully,

**For Sakar Healthcare Limited**
