Comments from Mr. Bharatkumar Popatlal Vachhani, Managing Director:

I believe that our strategic entry into the retail segment through the commencement of operations of 11 stores represents a significant milestone in our Company's growth journey and reflects our vision of expanding and diversifying our business operations and strengthening our market presence. Through these stores, we aim to enhance our brand visibility, expand our customer reach, strengthen our direct engagement with consumers and create new revenue-generating opportunities. These initial stores will also provide us with valuable insights into market trends, consumer preferences and purchasing behaviour, enabling us to develop a stronger and more effective retail business model.

Going forward, we intend to explore opportunities for establishing additional retail stores across various locations after carefully analysing market potential, customer demand, geographical suitability and overall business viability. Our approach will be focused on identifying the right locations and expanding our retail network in line with market dynamics and business requirements. We will continue to assess new opportunities and take strategic steps towards strengthening our retail presence. I believe that this initiative will not only contribute to the Company's growth and profitability and will also help us build a stronger brand, establish a wider customer base and create sustainable long-term value for the Company and its stakeholders.
