ONMO+ Smart Console Launches on Flipkart, Bringing High-Performance Premium Gaming to India at Low Cost**Bengaluru, 26 June 2026**

OnMobile Global Limited announced the launch of ONMO+ on Flipkart today, marking its entry into India's console gaming market with a first-of-its-kind Smart Console experience. ONMO+ brings premium gaming to people's screens, including TVs, laptops, tablets, and smartphones, making it omnipresent and eliminating the need for a gaming PC or traditional consoles.

By leveraging Flipkart's nationwide reach, ONMO+ aims to make high-performance console gaming accessible across the country. At a time when the market is expanding rapidly, the cost and complexity of traditional gaming hardware continue to rise, taking it out of reach for many. ONMO+ addresses this gap with a right-out-of-the-box offering that includes a Smart Console with cross-platform access, 100s of ready-to-play premium games, and a Pro Controller. The system is designed for everyday players but built for pro gamers who can play their compatible AAA games on our custom-built gaming GPU servers, in partnership with AMD and AsRock Rack, deployed across the northern and southern parts of the country.

"Gaming is one of the fastest-growing forms of entertainment in the world, yet premium gaming experiences often remain confined to a niche audience," said François-Charles Sirois, Executive Chairman & CEO, OnMobile. "With ONMO+, we set out to change that with a complete, ready-to-play gaming solution that removes the barriers associated with traditional console gaming. Aspiring players discover highly rated games right from the comfort of their existing screens, and hard-core enthusiasts are offered a powerful Smart Console ready to run the latest resource-intensive games. This launch also marks an important milestone for OnMobile as we expand beyond our B2B roots and bring our technology directly to consumers through Flipkart, whose strong track record of introducing innovative products and categories makes it an ideal partner for this launch."

Sujith Agashe, Vice President, Electronics, Flipkart, said, "At Flipkart, we are constantly expanding the range of choices for consumers across the country, with a sharpened focus on giving them access to the latest technology and experiences. We are happy to partner with ONMO+ and allow consumers to discover and enjoy a console-quality gaming experience on the screens they already own."

The launch comes as India's gaming industry continues to grow rapidly, with over 500 million gamers across mobile, TV, and PC platforms. As internet access expands, connected devices become more commonplace, and demand for digital entertainment rises, the market is opening to a new generation of gaming experiences.

The ONMO+ Smart Console comes at an attractive price, starting at just Rs. 4999 for a 3-month subscription and will be available on Flipkart from June 26, 2026.

About OnMobile

OnMobile Global Limited (NSE: ONMOBILE | BSE: 532944) is a leader in mobile gaming, entertainment, and enterprise solutions headquartered in Bangalore, India, with operations across 41 countries. For over 25 years, the company has helped telecom operators to engage and monetise their subscriber base, reaching over 70 million monthly active subscribers worldwide.

The ONMO+ Smart Console is its latest product, available directly to consumers via retailers and e-commerce platforms, as well as distributed across OnMobile's operator ecosystem globally. The Smart Console is offered with a pro gaming controller and an instant access card enabling Console / PC gaming across devices (Smart TV, tablet, and phone) without additional costly hardware.
