The AVG Advantage

Six advantages that compound as we scale

01

Truly Multimodal

Customers can move goods by road or rail, store them in our warehouses, keep them cold in our reefers and ship bulk liquids in ISO tanks – all with one partner. We also shift suitable cargo from road to rail to cut costs.

02

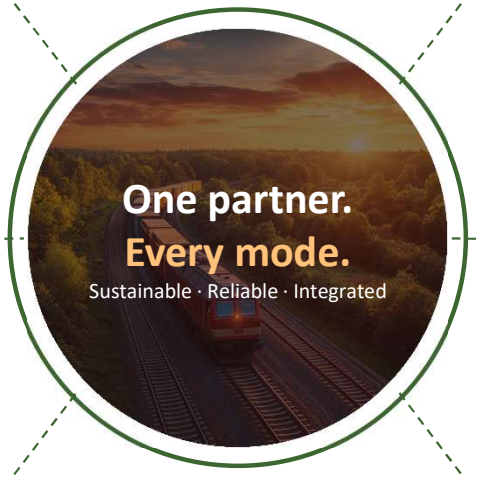

Rail Advantage

What began as a cargo express train now runs on 6+ active routes. We have won 6 Indian Railways tenders worth ₹5,100 Mn and a ₹105 Cr contract, and were first to move automobile tyres by rail rake.

03

Green First-Mover

We were the first company in India to buy a fleet of 55-tonne electric trucks, now running on Tata Steel routes. LNG trucks with Blue Energy Motors and our Baidyanath JV take this further.

04

Sticky Blue-Chip Clients

Nestlé was our first client in 2010 and still works with us today. We now serve 1,000+ customers, many on long-term dedicated contracts such as Haldiram's in Nagpur and Dalmia Cement in Assam.

05

Asset-Right Fleet

We own 850+ trucks and reefers for dedicated and specialised work, and draw on 3,000+ partner vehicles when volumes rise. This lets us take on large contracts while staying flexible.

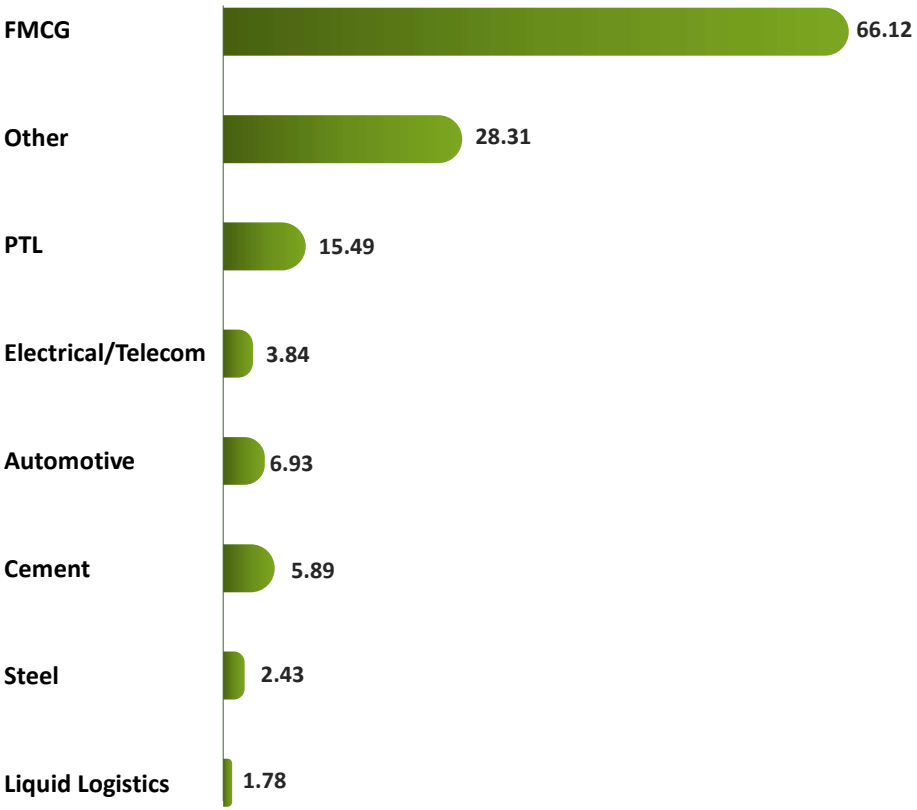

06

Tech-Led Control

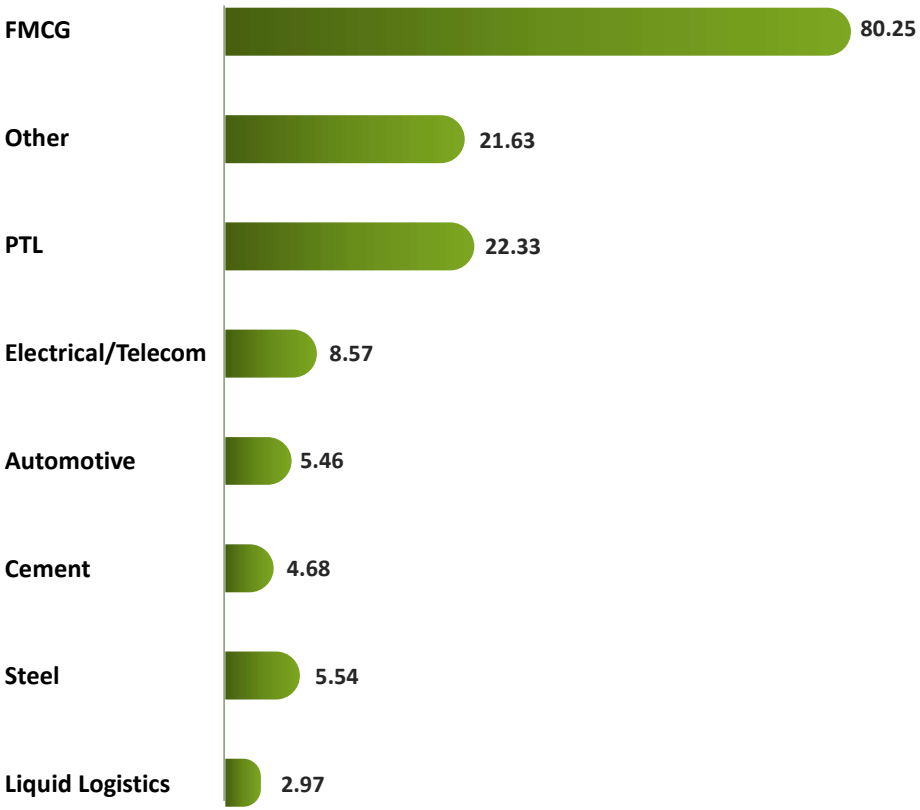

Our in-house command centre tracks every vehicle in real time and finds the nearest free truck or warehouse for each shipment, cutting empty trips. ADAS and onboard cameras keep drivers safe.
