Mamata Machinery's recyclable film technology 'RecTech™' receives 100% Recyclability Certification in the European Union

Ahmedabad, India – August 4, 2026: Mamata Machinery Limited ('Mamata' or 'the Company'), a leading machinery solution provider in the flexible packaging industry, today announced that its recyclable packaging film 'RecTech™' has been certified 100% recyclable by Institut cyclos-HTP GmbH, a Germany-based institute for recyclability assessment and certification.

RecTech™, originally launched at Plastindia 2026 in February this year, is an advanced, fully recyclable mono-material film engineered to deliver superior barrier protection and mechanical performance compared to conventional non-recyclable composite film structures. Since its launch, the film has been undergoing various tests in India and globally to validate its functionality and recyclability.

The film's recyclability has already been certified in India by CIPET, Bengaluru, vide certification dated May 22, 2026. Its functionality in terms of oxygen and water vapour barrier performance has been certified by the Indian Institute of Packaging (IIP), Kolkata. The European certification from cyclos-HTP adds international validation to these credentials.

Further, certification from the Association of Plastic Recyclers (APR), USA is awaited. Once received, it will further establish the commercial viability of the film. Together, these validations make a strong case for the adoption of the RecTech™ solution by brand owners and converters seeking recyclable packaging at scale and competitive prices.

About the Company:

Mamata Machinery Limited is a leading global provider of total flexible packaging machinery solutions, offering a comprehensive range of products across the value-chain, from co-extrusion to converting and advanced packaging machinery. With over 35 years of industry experience, Mamata has established itself as a trusted engineering enterprise, boasting more than 5,400 machine installations in 80 countries worldwide. The Company is renowned for its consistent innovation and numerous industry-first product introductions, delivering cutting-edge solutions that address the evolving needs of the flexible packaging sector. Mamata's commitment to technology, quality, and customer-centric design has made it a preferred partner for businesses seeking reliable and efficient flexible packaging solutions on a global scale.
