The robust performance reflects the resilience of our business model, disciplined execution, and our continued commitment to delivering high-quality healthcare services. Our flagship Gurugram hospital continued to perform well, supported by improved occupancy, higher average revenue per occupied bed (ARPOB), and sustained demand across our specialised clinical services.

An important milestone for the Company has been the commencement of operations at our Raipur hospital in July 2026. This marks a significant step in expanding Artemis' presence into high-growth markets and extending access to world-class healthcare beyond our flagship centre. We believe this facility will strengthen our regional presence and support our long-term growth strategy.

We are pleased to have commenced operations at our Raipur hospital in July 2026, marking the beginning of a new phase in Artemis' growth journey. As the facility ramps up, our focus will be on strengthening clinical capabilities, expanding specialised services, and establishing it as a trusted destination for advanced healthcare in Central India.

Going forward, we will continue to strengthen our core operations, enhance operational efficiencies, and pursue disciplined expansion. Our objective remains to build a resilient, future-ready healthcare platform that consistently delivers superior clinical outcomes and sustainable long-term value for all our stakeholders."
