Concord Control Systems Honoured with Excellence in Railway Technology Award at ET Now Business Conclave & Awards 2026

This recognition highlights the company's contribution to advancing safer, smarter and technology-driven railway operations

Ahmedabad, June 18, 2026: Concord Control Systems Limited (BSE: CNCRD | 543619), India's leading manufacturer of embedded electronic systems and critical electronic solutions, was honoured with the **Excellence in Railway Technology Award**, presented by Shri. Rushikesh Ganeshbhai Patel, Minister Energy and Petrochemicals, Panchayat and Rural Housing, Legislative and Parliamentary Affairs at the ET Now Business Conclave & Awards 2026 in Ahmedabad, Gujarat.

The award was received by **Mr. Nitin Jain, Joint Managing Director, Concord Control Systems Limited**, on behalf of the company and recognises Concord's contribution towards developing technology-driven solutions that enhance the safety, reliability and operational efficiency of railway systems.

As Indian Railways continues its transformation into a more connected, efficient and future-ready network, technology has emerged as a critical enabler of this evolution. Through its focus on indigenous innovation, advanced engineering and mission-critical railway solutions, Concord has played an active role in supporting this transition by developing intelligent systems designed to address the growing demands of modern railway operations.

Commenting on the recognition, **Mr. Nitin Jain, Joint Managing Director, Concord Control Systems Limited**, said, *"This award is a proud moment for the entire Concord family. It reflects the hard work and dedication of every team member. It also gives us confidence that we are growing and moving in the right direction. We see this recognition not just as an achievement, but as a responsibility to keep innovating and set higher standards for safety and reliability. This recognition reinforces our belief that Indian companies can develop world-class railway technologies and contribute meaningfully to the future of mobility. We view this award not just as a milestone achieved, but as a responsibility to continue innovating and raising the bar for the industry."*

"Concord has worked on innovative solutions such as battery and hydrogen-powered locomotives using indigenous technology. Our aim is to make railways greener, more sustainable, and less dependent on diesel. We focus on developing world-class railway technologies in India, for India. By embedding intelligence, resilience and uncompromising safety into every product, Indian engineering is poised to transform mobility—making networks smarter, greener and more reliable."

Receiving this award is a proud validation of our team's dedication and innovation, and it strengthens our resolve to lead the next era of rail technology with world-class solutions and partnerships." **states, Gaurav Lath, Joint Managing Director of Concord Control Systems Limited.**

About Concord Control Systems Limited:

Concord Control Systems Limited is an RDSO approved railway technology company engaged in the design, development and manufacturing of embedded electronic systems and critical electronic solutions for Indian Railways.

The company provides advanced electrical and electronic systems for next generation railway infrastructure, with capabilities across control systems, train electronics, safety systems, signaling related electronics and other critical railway applications.

Concord is focused on building a scalable, technology led platform that supports India's railway modernisation journey while expanding its capabilities for future domestic and international opportunities.
