## Message from the Managing Director

**Rishi Sanghvi**

MANAGING DIRECTOR, SML

FY26 marked a pivotal year in Sanghvi Movers' transformation journey, driven by strong execution in the core crane rental business and expansion into new growth avenues. We successfully operationalized our Middle East business, strengthened renewable energy execution capabilities, and advanced key initiatives under our Elevate 2030 vision. Building on this momentum, Q1 FY27 delivered total income of ₹393 crore, reflecting a robust 40% year-on-year growth. The quarter closed with a strong order book of ₹1,253 crore, providing healthy revenue visibility and reinforcing confidence in our growth trajectory.

During Q1 FY27, we secured new orders in Qatar, progressed execution activities in Botswana, and deployed ₹92 crore of the planned ₹652 crore FY27 capex across India and Saudi Arabia to enhance fleet capacity and support future growth. As we continue our Elevate 2030 journey, our international operations are gaining traction across Saudi Arabia and the broader MENA region, while Sangreen Future Renewables continues to strengthen its presence across the renewable energy value chain. Supported by a healthy order book, disciplined capital allocation, and operational excellence, we remain well-positioned to deliver sustainable growth and create long-term shareholder value.

| Total          | 15.5          |

### Sector Diversification

### Key Takeaways:

- Strong 24-month revenue visibility supported by both near-term confirmed pipeline and a robust advanced pipeline across multiple sectors.
- Pipeline depth and sector diversification across infrastructure, housing, Giga-projects and industry provide clear support for planned fleet expansion.

## Strategic Value Creation Through Diversification

- SFRPL contributes EBITDA at 14% margins on an asset-light base: optically dilutive to blended margin, accretive to ROCE and cash generation. Builds a defensible competitive moat through integrated capabilities.
- SMME L inflects from -23% in FY26 (KSA gestation) to **+23% in Q1 FY27** as fleet utilisation ramps. Company expects further improvement going forward.

Note: EBITDA (before exceptional items) figures exclude the impact of inter-segment transactions.

## SML's FY 26 → Q1 FY27 EBITDA Margin Bridge

**ELEVATE 2030**  
Beyond Boundaries, Raising Standards

**EBITDA margin remains structurally intact;** the one-time impacts are as below:

- Increase in ECL provision due to increase in ageing of receivables, ECL will rationalise over the course of the FY.
- Change in revenue mix due to hiring of ancillary equipment (instead of capex) and the development of an asset-light cross-rental crane revenue stream.
- One-time incentive for frontline workers and the C-suite, recognised in the quarter's performance.
- Structural change in cost due to the labour code impact; the Company has taken a conscious call to reduce the impact on all employees drawing a salary of less than ₹50K.
- Forex restatement (MTM) on loans, recognised in the quarter's performance.
