IMMEDIATE RELEASE

Bharat Forge and RTX's Pratt & Whitney Canada Sign a Long-Term Contract for Critical Aerospace Engine Components

- Reflects Bharat Forge's position as a trusted global aerospace partner as Pratt & Whitney Canada strengthens sourcing from India -

India, 5th October 2026: Bharat Forge Ltd. (BFL), a global leader in advanced forging and precision engineering, has secured a long-term contract with Pratt & Whitney Canada, a world-renowned aerospace engine manufacturer, for the supply of mission-critical aerospace engine components.

The components will be manufactured at BFL's state-of-the-art aerospace facility in India, specifically developed to produce high-performance, high-value, aero-engine products. The facility integrates advanced manufacturing technologies and operates in accordance with the highest global standards of quality, precision, reliability, and traceability required by the aerospace industry.

Amit Kalyani, Vice-Chairman and Joint Managing Director, Bharat Forge Ltd., said, "This long-term partnership with Pratt & Whitney Canada is a testament to Bharat Forge's leadership in the global aerospace supply chain. It reflects our commitment to delivering world-class aerospace solutions through advanced manufacturing, operational excellence, and uncompromising quality standards. We look forward to supporting Pratt & Whitney Canada's programs and furthering India's advancement in aerospace manufacturing expertise."

"This collaboration with Bharat Forge reflects our commitment to building a resilient, high-performing global supply chain that supports our customers and future growth ambitions," said **Nathalie Rivet, Vice President, Supply Chain, Pratt & Whitney Canada**. "We are confident in Bharat Forge's high-performance aerospace manufacturing capabilities, technical excellence, and a robust commitment to quality that aligns with our niche requirements, to strengthen our supply chain sourcing from India."

The partnership reflects the confidence leading aerospace OEMs place in Bharat Forge's engineering expertise, manufacturing excellence, and commitment to delivering mission-critical high-value solutions that meet the global aerospace industry's stringent performance requirements.

About Bharat Forge

Bharat Forge Limited (BFL), the flagship company of the Pune-based Kalyani Group, is a technology-driven global leader in innovative, high-performance and safety-critical components and solutions across the automotive, aerospace, defence, rail, marine, energy and industrial sectors. With a manufacturing footprint across five countries, world-class engineering capabilities and the largest repository of metallurgical knowledge, BFL offers its geographically dispersed marquee customers full-service supply capability - from concept and product design to engineering, manufacturing, testing and validation. BFL stands at the forefront of India's strategic industrial and defence ambitions. For more information: <https://www.bharatforge.com>

About Bharat Forge Aerospace

Bharat Forge Aerospace focuses on the design, development and manufacture of critical aerospace, defence and marine systems, structures and components. Leveraging advanced manufacturing technologies and strategic collaborations with global aerospace leaders, the business is committed to positioning India as a trusted centre for aerospace innovation and production.
