Dear Sir/Madam,

Sub.: “Bagging of Order/Contract” - WABAG Secures ‘Large’ Order Inflow from BWSSB for Two Energy-Efficient Wastewater Treatment Facilities

Ref.: Intimation under Regulation 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015

Please find enclosed the intimation for WABAG securing ‘Large’ Order Inflow from Bangalore Water Supply and Sewerage Board (BWSSB) for Two Energy-Efficient Wastewater Treatment Facilities.

The details as required under Reg. 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 read with the SEBI circular no. SEBI/HO/CFD/PoD2/CIR/P/0155 dated November 11, 2024, as amended is enclosed as **Annexure-I**.

This is for your information and records.

Thanking You,

Yours faithfully,
For **VA TECH WABAG LIMITED**

Anup Kumar Samal
Company Secretary & Compliance Officer
Membership No. FCS 4832

WABAG Secures ‘Large’ Order Inflow from BWSSB for Two Energy-Efficient Wastewater Treatment Facilities

Chennai, July 20, 2026: VA TECH WABAG (‘WABAG’), a leading Pure-Play Multinational Water Technology Group, secured from the Bangalore Water Supply and Sewerage Board (‘BWSSB’), awards towards Design, Build, Operate (‘DBO’) of a 100 MLD and 60 MLD Sewage Treatment Plant (‘STP’) at Byramangala and Bellandur respectively, along with a 25 MLD Tertiary Treatment Plant (‘TTP’) at Byramangala.

The scope includes the Design, Engineering, Procurement, Construction and Commissioning (‘EPC’) of the wastewater treatment facilities along with biogas-based power generation. The STPs will be based on the Activated Sludge Process integrated with a Biological Nutrient Removal system. The TTP at Byramangala will utilize Ultrafiltration to produce high-quality treated water suitable for distribution to surrounding water bodies. It is worth noting that, WABAG had previously executed the first phase of the Bellandur facility and has now been awarded the second phase as well. The EPC scope of the facilities is scheduled for completion within 36 months, followed by a 7-year Operations and Maintenance (‘O&M’) period, during which WABAG will ensure efficient and reliable plant performance.

The Wastewater Treatment facilities at Byramangala and Bellandur will significantly strengthen Bengaluru's wastewater treatment and water infrastructure, addressing the city's growing challenges arising from rapid urbanization. The facility will incorporate anaerobic sludge digestion with biogas-based captive power generation, reducing greenhouse gas (‘GHG’) emissions, lowering the plant's energy footprint, enhancing operational efficiency, and promoting resource recovery. By integrating the treatment technologies with renewable energy generation, the project will support Bengaluru's long-term water security while advancing its sustainability and circular economy objectives.

Commenting on the order wins, Mr. S. Natrajan, Vice President & Head – Sales and Marketing, India Cluster, said: *“Securing these twin wins from BWSSB reinforces WABAG's leadership in India's municipal wastewater treatment sector and underscores its commitment to delivering sustainable, resilient, and future-ready water infrastructure. The energy-efficient wastewater treatment facilities, integrated with biogas-based power generation, will establish a scalable model for resource recovery, circularity, and energy optimization while significantly enhancing Bengaluru's sewage treatment capacity, promoting environmentally responsible wastewater management, supporting Karnataka's water security objectives, and strengthening the long-term sustainability and resilience of the city's water ecosystem.”*

Order Classification	Small	Medium	Large	Major	Mega
Domestic (in INR Crores)	Upto 100	100 to 250	250 to 600	600 to 1,000	Above 1,000
International (In USD Millions)	Upto 10	10 to 30	30 to 75	75 to 150	Above 150

About WABAG: With over a century of expertise, WABAG stands as a global leader in water technology, delivering innovative and sustainable solutions for both municipal and industrial needs. As a pure-play Indian Water Technology Multinational, WABAG provides end-to-end water solutions tailored to diverse requirements across the world. Powered by more than 2,000 water professionals operating in 25+ countries, WABAG positively impacts millions of lives every day. Over the past three decades, the company has designed and built 1,500+ water and wastewater treatment plants globally, earning its reputation as a trusted lifecycle partner. WABAG manages every phase of the water value chain — from design, engineering, supply, and construction to installation, commissioning, and long-term operations across multiple business models. Driven by a strong culture of innovation, WABAG operates cutting-edge R&D centres in Europe and India and holds 125+ intellectual property rights. Its vision aligns with the United Nations Sustainable Development Goals and core ESG principles, with an emphasis on conservation, resource optimisation, recycling, and reuse. As one of the world's foremost partners in water sustainability, WABAG continues to transform global water challenges into opportunities for a more resilient and sustainable future.

Annexure-I

a)	Name of the entity awarding the order(s)/ contract(s)	Bangalore Water Supply and Sewerage Board (BWSSB)
b)	Significant terms and conditions of order(s)/ contract(s) awarded in brief	a. Design, Build and Operate (DBO) of 100 MLD Sewage Treatment Plant (STP) and 25 MLD Tertiary Treatment Plant (TTP) at Byramangala, Bengaluru b. Design, Build and Operate (DBO) of 60 MLD Sewage Treatment Plant (STP) at Bellandur, Bengaluru
c)	Whether order(s) / contract(s) have been awarded by domestic/ international entity	Domestic Entity
d)	Nature of order(s) / contract(s)	Complete technology package for process engineering, electrical engineering, instrumentation and control, building services and Operations & Maintenance
e)	Whether domestic or international	Domestic Project
f)	Time period by which the order(s)/ contract(s) is to be executed	EPC Scope to be completed within 36 months followed by O&M for 7 years
g)	Broad consideration or size of the order(s)/ contract(s)	Large*
h)	Whether the promoter/ promoter group / group companies have any interest in the entity that awarded the order(s)/ contract(s)? If yes, nature of interest and details thereof	No
i)	Whether the order(s)/ contract(s) would fall within related party transactions? If yes, whether the same is done at arm's length	No

*Note: 'Large' shall mean order inflow value of INR 250 to 600 Crores.
