Global Economic & Steel Scenario

WORLD ECONOMIC SCENARIO

Growth Rates (in %)

■ World ■ Advanced Economies ■ Emerging & Developing Economies

IMF, in the World Economic Outlook released during Jul'26, has increased the growth projections for 2026 over the projections released during Apr'26. The overall estimates for global economy in 2027 are marginally better than projections of 2026 due to significant improvement in the projections for the Emerging & Developing Economies and despite projections being lower for the Advanced Economies. The major factor impacting the projections for current year 2026 has been the prevailing scenario in the middle east.

WORLD STEEL SCENARIO

Crude Steel Production (MT)

Steel Production as been coming down every year barring 2023 where marginal increase was witnessed. The first 5 months of the current year have also seen the production falling by 1.5 over CPLY with China registering degrowth of 3.8% with marginal increase in production in Rest of the World (RoW).

- Despite reduction in its own production, China continues to dominate the global production numbers. In fact, the share of China in the global production has been consistently more than 50% of the global production. The production by China stood at ~53.7% of global production during Jan-May CY'26. The production in China during the period has, however, been at lower by 3.8% over CPLY.
- Among the other major producers, Vietnam (26.8%), Germany (8.8%), India (7.7%), Turkey 6.8%), USA (6.8%) and South Korea (2.7%) have registered positive growth in production during Jan-May CY'26 over CPLY. On the other hand, countries like Russia (10.0%), Brazil (1.9%) and Japan (0.7%) have registered negative growth during the period.

Domestic Economic & Steel Scenario

INDIAN ECONOMIC SCENARIO

GDP Growth % at Constant (2011-12) Prices

SOURCE: MOSPI, GOI

COVID19 Pandemic saw the GDP of Indian economy slide into negative during FY'21 at -5.8%. The post COVID recovery was subsequently impacted by factors like inflation. Second Advance Estimates for the FY'25 stand at 6.5% which is substantially lower than earlier projections with First Advance Estimates for FY'26 at 7.4%. Despite projections for future years coming down in the range of 6.4% - 7.2%, India is likely to remain amongst the fastest growing major economies. The projections from major financial agencies are as follows:

Source	Growth Projection	Remarks
IMF (Jul'26)	6.4% (CY26) & 6.7% (CY27)	The projections for CY26 have been marginally reduced while the same have been improved for CY27.
World Bank (Jun'26)	7.2% (FY27) & 7.0% (FY28)	The estimate for FY27 have been improved to 7.2% while the same hare marginally lower at 7.0% for FY28.
RBI (Jun'26)	6.6% (FY27)	The projections have been reduced to 6.6% for FY27. The quarterly projections for Q1, Q2, Q3 and Q4 FY27 stand at 6.6%, 6.3%, 6.5% and 6.8% respectively.

INDIAN ECONOMIC SCENARIO

IIP Growth % at Constant (2022-23) Prices

The IIP has shown improvement in five of the six categories during first two months of FY2026-27 as against FY2024-25. The growth has been driven majorly by Infrastructure Goods and Capital Goods. On the other hand, Consumer Non-durables and Primary Goods have shown marginal growth only over previous year.

INDIAN STEEL SCENARIO

Crude Steel Production (mtpa)

Finished Steel Consumption (mtpa)

The production of crude steel in India during Q1 FY'27 has grown by 3% over CPLY whereas consumption has grown by ~8% during the same period.
