Subject: Update on Restoration of Production Capacity following Fire Incident

Dear Sir/Madam,

In continuation of the earlier disclosures made by GG Automotive Gears Limited (“the Company”) in relation to the fire incident at its manufacturing facility on February 4, 2026, we wish to provide an update on the progress of restoration and rebuilding activities undertaken by the Company.

We are pleased to inform that the Company has made substantial progress in restoring the manufacturing capabilities affected by the incident. Following the installation and operationalization of replacement equipment, together with optimization of available manufacturing resources, **production has now been restored to levels broadly comparable with those prevailing prior to the fire incident.**

The reconstruction of the affected manufacturing infrastructure is progressing simultaneously and is expected to be substantially completed during September 2026, subject to normal execution timelines.

Importantly, the Company’s rebuilding programme has been undertaken not merely with the objective of restoring the affected capacity, but also with a view to **enhancing its manufacturing capabilities beyond the pre-incident position.**

As part of this programme, additional advanced manufacturing equipment is presently under dispatch / implementation. Upon successful installation and commissioning, this equipment is expected to augment the Company’s capabilities in the manufacture and precision grinding of large gears and higher-module applications, thereby enabling the Company to address a wider range of products and end-user requirements.

The Company continues to focus on normalizing operations, servicing its existing order book and pursuing opportunities across its key end-user industries.

The final assessment and settlement of the insurance claim relating to the fire incident remains under process. The Company has previously informed the Stock Exchange regarding interim insurance proceeds received and shall continue to make appropriate disclosures upon further material developments.

The management appreciates the continued support of its customers, employees, suppliers, shareholders and other stakeholders during the restoration period.

This disclosure is being made pursuant to Regulation 30 and other applicable provisions of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Kindly take the above information on record.

Thanking you,
Yours faithfully,
For G.G. Automotive Gears Ltd

Kennedy Ramchand Gajra
