Commenting on the performance Mr. K. Natarajan, Managing Director, Galaxy Surfactants Limited,

"*We are pleased with the strong performance delivered in Q2 FY27. The broad-based growth in India, continued recovery in AMET and sustained momentum in Specialty Care demonstrate the strength and resilience of our business. Our ability to make disciplined commercial decisions and leverage our diversified portfolio has enabled us to deliver a robust performance despite a challenging external environment.*

The performance over the last two quarters also reflects the exceptional efforts and collaboration of our teams across business development, commercial excellence, procurement, global logistics, manufacturing and operations. Their agility, commitment and focused execution have ensured business continuity amid significant external disruptions. With an improving business mix and continued momentum in Specialty Care, we remain confident in delivering sustainable and profitable growth. Importantly, PAT for the first six months of FY27 has already surpassed the PAT delivered for the entire previous financial year, making a significant milestone for the company.

Demand indicators remain encouraging across key markets, with healthy consumption trends in India, improving conditions in AMET and positive Specialty Care demand across geographies. The Company remains vigilant regarding developments in West Asia and their potential implications for global logistics, freight rates and feedstock availability."
