Media Release

DELPHI WORLD MONEY ADVANCES ITS INTEGRATED TRAVEL PLATFORM AS CORPORATE TRAVEL BUSINESS RECORDS IMPRESSIVE 13% GROWTH IN AUGUST 2026

Enterprise travel momentum, technology-led capabilities and broader customer engagement reinforce Delphi's transformation into an integrated Travel and Financial Services platform

New Delhi, 23 September 2026: Delphi World Money Limited is progressing its transformation from a traditionally finance-led business into a **diversified Travel, Financial Services and Technology platform**, with the integration and expansion of the Ebix Group's Travel business emerging as a key pillar of its growth strategy. Against this backdrop, Delphi's Corporate Travel business recorded **13% growth in August 2026**, supported by new enterprise wins, deeper engagement with existing customers and increasing adoption of a wider range of corporate travel solutions.

The performance provides a current operating indicator of the momentum being built as Delphi scales its Travel platform and moves towards a more integrated ecosystem spanning **Travel, Hospitality, Forex, Financial Services and Technology**.

Building a Larger Corporate Travel Proposition

India's corporate travel market is undergoing a structural shift as enterprises increasingly seek integrated solutions spanning travel, accommodation, expense management, reporting and traveller support. Deloitte estimates India's corporate travel market could reach approximately **US$20.8 billion by FY2030**, representing a CAGR of around 10.1%.

Delphi is positioning itself to participate in this opportunity by expanding beyond traditional air-ticketing relationships towards a broader enterprise travel proposition.

Its Travel platform brings together **corporate travel, domestic and international air ticketing, MICE, hotels and accommodation, curated holidays, luxury travel and ancillary services**, creating opportunities to deepen enterprise relationships while expanding the customer base and share of customer wallet.

Technology at the heart

Technology is increasingly central to corporate travel management. Delphi's Travel platform is focused on online booking, automated approvals, expense management, reporting, analytics and richer airline content, including NDC-enabled capabilities.

These capabilities enable enterprises to improve visibility over travel spending and policy compliance while enhancing convenience and support for travelling employees.

From Travel Platform to Integrated Ecosystem

Delphi's opportunity extends beyond Travel. Its established capabilities in foreign exchange and financial services provide a complementary foundation for building a broader integrated proposition where **Travel, Forex, Financial Services and Technology** increasingly work together.

Delphi obtained management and operating control of Ebix Travels as disclosed in the Company's filings and it marks an important step in Delphi's broader strategy to consolidate the Ebix Group's Travel and Hospitality businesses under a unified platform. The Company has previously indicated its intention to progressively strengthen this consolidation, including evaluating an eventual integration of entities, subject to requisite approvals with an objective is to create a more integrated platform with greater operating scale, stronger customer relationships and opportunities for cross-selling across the Travel and Financial Services ecosystem.

Latika Bolar, Business Head – Ebix Corporate Travels, commented: "The growth recorded in Corporate Travel in August reflects the increasing depth of our enterprise relationships and the expanding range of solutions we are able to offer customers. Our focus is now on scaling the platform, integrating our Travel and Financial Services capabilities and strengthening operating efficiencies. We believe the combination of Travel, Forex, technology and enterprise relationships provides a strong foundation for the next phase of growth."

Focused on the Next Phase of Scale

The next phase is centred on **integration, scale and operating discipline,** expanding enterprise relationships, broadening the range of services offered to customers and progressively improving the operating economics of the platform.

The 13% growth recorded in August provides a current indicator of the momentum within Corporate Travel. Delphi remains focused on building this momentum into a larger, more diversified and technology-enabled Travel and Financial Services platform over the longer term.

About the Company

Delphi World Money Ltd, an RBI-authorized Category II Authorized Dealer with a distinguished legacy in foreign exchange and cross-border remittances, has now emerged as the focal platform entrusted with spearheading Ebix Inc.'s entire global travel and hospitality businesses.

With the strategic consolidation and integration of travel services, Delphi has transformed into a full-fledged, diversified enterprise that spans the complete spectrum of the travel value chain - encompassing domestic and international airline ticketing, MICE solutions, luxury travel and curated holidays, alongside its established expertise in forex, remittances, and technology-driven financial platforms.

Anchored by a strong digital presence through in.via.com and carrying forward the rich heritage of Mercury Travels, founded in 1948, Delphi seamlessly blends legacy with innovation to deliver a unified ecosystem where finance and travel converge.

As the designated hub for Ebix's global travel consolidation, Delphi is strategically positioned to harness operational synergies, scale its businesses, and build a sustainable leadership position in India's rapidly expanding travel sector, while creating enduring value for stakeholders and shaping the future contours of global travel.
